By Albert:---
The mesquite trees have put out new growth locally -- for whatever that is worth!
We would have had a picture of the putting-out mesquite last week if we could have found one! We tried unsuccessfully to get a buzzard to pose for a picture, and couldn't. And with the mesquite having put out new growth last weekend, it would all be sorta anti-climactic!

We thought we had the best saying of the times recently in attributing the slow mail service to "a breakdown in the system".

We got one this week that we thought might even be better. ... on the subject of the high cost of meats, one person who is some kind of an advisor on food, made a remark something like this: "If you would not exercise so much, you would not require so much food!"

Now, not only is this a ridiculous statement, but right on the heels of another effort on the part of the government to upgrade the physical condition of all of our citizens!

And another ridiculous part of that kind of reasoning is: Housewives are probably not going to turn off Jack Lalane at any cost, and another thing is that bosses are going to continue to try to get as much out of their employees as they can and we cannot see an employee getting by with some kind of an answer like this: "Sure I'm loafing on the job, but I can't afford to buy meat, so I have to cut down on my energy output!"

And any understanding boss would say: "Oh, I forgot! Excuse me for even questioning. And, please move over!"

We wonder every time there is a race for any office in the county, just what it is that prompts a person to seek that office -- and we are not talking about the new candidates in any given race, we are talking about all candidates, even those who are seeking re-election.

We have never thought that it was wrong to let someone know why you particularly are desirous of a particular office. We never won many elections, either!

Maybe that's the reason! During the past several years we have contacted the candidates from time to time in a particular race and asked them to respond to our request or offer to publish a statement from them free of charge if they would spell out some details of the reasons they were seeking a particular office. We have had only one response to this offer out of all the times that it was made, and the person that responded got only a handful of votes!

Now you can say: "That is why he got so few votes, he told what he was running for."

We would disagree on this basis: We never knew a contested race when there was not someone who lost, and in all the other cases someone lost

that didn't tell the voters why he was in the race.

We are not fussing about the lack of response by the candidates, necessarily. We think that it is an apathetic action of the voters who are not interested in what a voter has in mind in seeking an office. We know of many instances when a voter was elected on the basis of anything except his qualifications for the office, because qualifications are an unknown factor in so many instances.

Desire to serve, willingness to try to fill the duties of the office, an interest in the particular part of local government or supervision, an interest in preserving a status-quo of some kind, an interest in preventing a future rise in taxes, an interest in getting something going, or just plain personal axes to grind, or an interest in protecting one's selfish interests or plans, all are motives for many office-seekers, maybe none of the local office-seekers, or maybe all of them; but seldom is there a mention of qualifications by the candidate, or the need for the candidate to have any qualifications expressed by the voters.

Or maybe there is not a need for qualifications!

What part of the school system needs changing, if any? Why do you want on the water board? If you get elected to this county office, what will you do different from what has been done?

The offer still stands - and is open to all candidates! No one is running against one other person - it's everyone against the field!

Why should we vote for which three school board candidates? It just depends on how you look at it!

MONEY SAVING

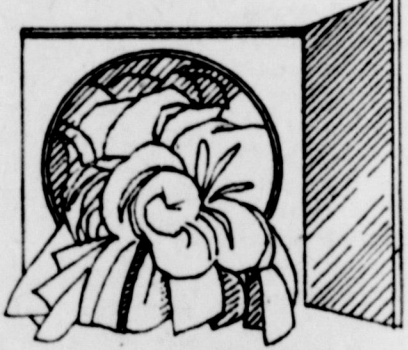

SUGGESTIONS

Here are three tips from Community Public Service Company to help you conserve electricity and use your electric dryer more efficiently and economically.

Keep the lint filter on your dryer clean to permit air to circulate freely. Clean the filter after each use.

Overloading your dryer only increases operating time and causes wrinkles that must be ironed out.

Save money and make your job easier by removing clothes immediately from dryer so wrinkles can't set.

This is one of a series of money saving suggestions from Community Public Service Company to help you get the most efficient and economical use from electricity.

BOYS' RANCH NEEDS BULL

Monty C. Harkins, wagon boss for the West Texas Boys Ranch for Terrell County, is asking for donations to help buy a bull for that facility.

Harkins stated that there were a bunch of heifers at the ranch and the need is urgent for a bull so that the ranch can go into the calf-raising business as soon as possible.

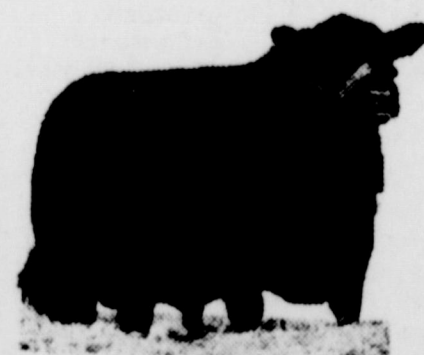

Harkins stated that it was their wish to purchase a good black bull if they can get enough in donations to get one.

It was emphasized that this was a way in which people besides ranchmen could participate in the upkeep of the facility for boys that have found a home on the ranch and he would welcome a donation from anyone to the very worthy cause.

Make checks payable to the West Texas Boys Ranch and mail or hand to Monty Harkins.

WHEN YOU'RE SITTING AROUND THE COFFEE TABLE SHOOTIN' THE BULL, THINK OF A 'LITTLE BULL' FOR WEST TEXAS BOYS RANCH.

They're in need of a bull, so help us help them. Send your donation to your Terrell County Wagon Boss MONTY C. HARKINS

 There are many features on the new maps that will appeal to all classes of the traveling public and a copy may be obtained free of charge from the information bureaus and visitor centers. They may also be ordered by the use of post cards available at county tax offices during the 1973 motor vehicle registration season. Or you may order directly by sending your name, address, and ZIP code to the Texas Highway Department, Travel and Information Division, P.O. Box 5064, Austin, Tx 78763.
