## It Depends on How You Look At It!

Some significant legislation to be accomplished by the present group in Austin was the passage of the bill authorized by Mrs. Susan Gurley McBee in the House of Representatives and sponsored by Sen. W.E. (Pete) Snelson in that body, which would allow the Commissioners Courts to designate voting precincts of less than 100 voters in sparsely-populated areas.

This is something that, in our opinion, was sorely needed in Terrell County, and we are all for the passage of the bill, but we were not for doing what the bill allows now prior to the passage of the bill.

Sometimes people get all worked up about somebody opposing them or opposing what they are doing, when they don't have any business doing what they are doing in the first place! And this is in the area of public business or public involvement - not personal business or involvement.

The current law will permit voting at Dryden, at the El Paso Natural Gas Plant, at one of the ranches out in the far reaches of Precinct 3, and maybe some other places if there is a good reason to have them there. And this is great!

The election laws, like some of our other laws, seem ridiculous on the face of them, and maybe they are ridiculous through and through, when a consideration is given for one law to cover an entire state or nation and all of the differences to be found. But how many laws would there be if there was a separate law to fit every separate and minor difference in population, economy, industry, ethnic group, etc., etc? ---

We have gotten several nice compliments recently on several things about the paper -- an abundance of news, the letters received from readers, and a stock compliment is the one on the old pictures that we publish. We appreciate the kind words. Keep them coming! ---

Another school year is closed and the opening date of next year's educational processes - August 18 - will be here before any of us notice it!

A new crop of sports fans will be coming along, and a retiring bunch will take their place in the memories of the way things used to be. An intense interest will be expressed by some in ways that are invigorating and accomplishing, but the main thing is that a new bunch will be doing much of the planning, and that's the way things get done. ---

We get hints and sometimes open and revealing statements from some of our friends about somebody calling them and asking them to ask us to do so-and-so! We have a telephone! Please, don't bother our continued to second page

**U.S. District 21 Representative Bob Krueger of New Braunfels is shown above as he talked to a group of friends at the courthouse Friday afternoon. Rep. Krueger spoke of the energy situation, bills he had introduced, some opposed and why, and answered questions from those present. Henderson will soon begin a regular trip through this area of the district to meet with people and hear their views on pending and proposed legislation.**

### Citizens' Opinions Sought In Ways To Spend \$33,324

Terrell County is slated to receive \$33,324.00 in revenue sharing funds from the federal government. A decision will be made at the regular meeting of the Terrell County Commissioners Court Monday as to how the money will be spent.

At the top of the form to be published in The Times next week are the following words: "General Revenue Sharing Planned Use Report. General Revenue Sharing provides federal funds directly to local and state governments. This report of your government's plan is published to encourage citizen participation in determining your government's decision on how the money will be spent. Note: Any complaints of discrimination in the use of these funds may be sent to the Office of Revenue Sharing, Washington, D.C. 20226."

The planned expenditures cover the following categories: Public safety, environmental protection, public transportation, health, recreation, libraries, social services for aged or poor, financial administration, multipurpose and general government, education, social development, housing and community development, economic development, other (specify).

Records at the courthouse reflect how the more than \$100,000.00 previously received by Terrell County has been spent, and these records are open to public scrutiny.

Local and area residents interested in learning how the decisions are made to spend the revenue sharing funds, are urged to be at the meeting of the commissioners court Monday morning at 9:00 o'clock.

A replica of the form to be used in reporting the planned use of the revenue sharing funds is reprinted on page 6.

Mrs. H.H. Shelton and son, Joe, went to San Marcos Friday and returned her daughter, Muriel Roark, who had completed her sophomore year at the Baptist Academy there.

### Memorial Services To Be Wednesday

Services will be held at 10 a.m. Wednesday of next week at Cedar Grove Cemetery, followed by a brief service at Memorial Park.

The occasion is the 10th anniversary of the disastrous flood on June 11, 1965, when 27 lives were lost.

The service at the cemetery will be to unveil a marker placed over a common grave containing the cadavers disinterred by the ravaging flood waters, and the service at the park will be to memorialize those whose lives were lost in the flood.

The project was initiated by the Young People's Chamber of Commerce, and the markers were paid for by individuals, businesses, clubs, and the Terrell County Commissioners Court.

All residents of the county are urged to attend the two services.

friends with your messages for us.

We have had some suggestions from friends that we used, and some that we did not use. Some we can, and some we can't, some we thought were good ideas and tried them and wished we had not; some we thought at first were not good, and later changed our minds and used them, some with regret and some with pride.

The Times cannot be all things for all our readers. Our friends do not dictate our policies, and some of our policies are unchangeable - at least right now!

One of the things that The Times likes to have is the support of those readers - who ever they are - that are interested in promoting those things that make Terrell County a better place in which to live. This support may be expressed in several different ways, but each way gives us courage and stimulus to keep doing what we are trying to do - make any improvements that we are able to make in those areas where we have license to work!

And when we get to opinions about what will make Terrell County a better place, that is where we get in trouble with disagreements. There are as many opinions about this as there are people!

This depends on how you look at it!

Rev. David Treat was returned to the Sanderson-Dryden charge of the United Methodist Church as pastor for another year. With his wife, he attended the annual meeting of the Methodist Churches of the New Mexico Conference in Glorieta, N.M., for four days last week. He was ordained an elder, the highest ordained post in the church.

The Treats came here in January from Levelland where he was serving as associate pastor of the church. This is his first pastorate and he had been ordained as a deacon after a year of seminary work.

At a reception for Rev. Treat and another minister elevated to an elder at the

conference, the above picture was made. Bishop Alsie Carleton is standing between Rev. and Mrs. Treat. The stole which Rev. Treat is wearing is red satin with a gold fringe and was presented to him by the bishop at the ordination service.

Mr. and Mrs. Carlton White attended the conference also with Mrs. White as lay delegate from the local church. En route home, they visited with Mr. and Mrs. F.J. Barrett who are at Ruidoso, N.M., for the summer. They spent the night in Brownfield with Rev. and Mrs. M.A. Walker, former residents of Sanderson, before going to Glorieta. Rev. ### Screwworms On Increase in State

"We seem to have two different screwworm populations in Texas," says Dr. James E. Novy, director of field operations for the U.S. Department of Agriculture Screwworm Eradication Program.

One is growing from the South Texas over-wintering area. The other is "spearing" into the Trans-Pecos and Hill Country region. This strong invasion is bolstered by increasing populations of this parasite of all warm blooded animals south of the Rio Grande River in Mexico's State of Coahuila.

Consistently warm weather in much of the Trans-Pecos and Hill Country with weekly rains in quantities of half inch or more have created an environment favorable to the screwworm fly. Stormy conditions and heavy "smaza" have severely hampered local distribution of sterile screwworm flies.

Novy comments that the screwworm population in Texas' eight southern counties is statistically losing ground as reports of cases farther north in the state increase. He offers a week-by-week statistical analysis of cases in the state for a five-week period:

Week ending April 18 - 23 cases, 78% in southern eight counties;

Week ending April 25 - 55 cases, 74.5% in southern eight counties;

Week ending May 2 - 72 cases, 62.5% in southern eight counties;

Week ending May 9 - 98 cases, 60% in southern eight counties;

Week ending May 16 - 91 cases, 61% in southern eight counties.

Counties recording their first officially confirmed cases of the year during the first half of May were: Bandera, Blanco, Bee, Coryell, Crockett, Gillespie, Hamilton, Kendall, Maverick, Pecos, Presidio, Sutton, Terrell, and Zavala. Forty-nine Texas counties had infestations by May 16.

# New rates for long distance calls within Texas.

**With Discount Periods and a new One-Minute Rate, you may be able to save money.**

Rates for Long Distance calls within Texas have just changed.

For you – the telephone customer – it means most rates are going up.

But you may be surprised to learn that rate changes won't necessarily bring higher telephone bills.

Because with our new discount for dialing your own calls, you can better control your Long Distance costs.

In some cases, you may be able to *save* money on your Long Distance bill by taking advantage of these rates.

For example, there's a new one-minute rate on all calls that you dial yourself – without the operator's help.

Under the old rate, the initial rate period was for *three* minutes. Now on One-Plus dialed calls the initial rate period is *one* minute.

That means you can save by reducing the length of your call.

Nights and Weekends there will be a 35 per cent discount.

So, if you call later in the day or night, or on weekends, you're going to get the lowest rates possible.

But if you place calls through an operator, rates for these Zero-Plus calls will be higher, at any time – night or day. These include calls from a coin phone, collect, credit card and calls billed to a third number.

The initial rate period of three minutes will continue for these and other operator-assisted calls.

And, person-to-person calls will cost more than any other type call.

*DISCOUNT RATE PERIODS FOR ONE-PLUS CALLS WITHIN TEXAS								
	Mon	Tues	Wed	Thurs	Fri	Sat	Sun	
8 a.m. to 5 p.m.	Day Rate Period Full Rate							
5 p.m. to 11 p.m.	Evening Rate Period 25% Discount						Eve. 25% Dis- count	
11 p.m. to 8 a.m.	Night and Weekend Rate Periods 35% Discount							
<p>NOTE: The Evening rate applies all day on the following holidays: New Year's Day, July 4, Labor Day, Thanksgiving and Christmas Day, except in instances where the holiday falls into Night/Weekend period. In this case, the lower rate applies.</p> <p>*On operator-assisted calls, the same rate applies at all hours on all days.</p>								

*EXAMPLE OF NEW RATES FOR MAXIMUM DISTANCES		
	#One-Plus	Each Additional One-Plus Minute
DAY RATE	50c or less	42c or less
EVENINGS 25% Discount	38c or less	32c or less
NIGHTS AND WEEKENDS 35% Discount	33c or less	27c or less
#One-Plus charges for 1 minute.		
NOTE: One-Plus rates also apply on station-to-station calls placed with an operator where One-Plus facilities are not available.		
*Rates quoted do not include taxes.		

Simply put, if you dial the call yourself, you are going to get a lower rate. If you place your call through an operator, it will cost more.

Now our new rates offer you a choice.

By dialing your own calls and by taking advantage of our discount rate period, you can still get low rates and fast service.

Also, for the first time we are offering flat percentage discounts for Evening, Night and Weekend One-Plus calls.

Using the Day rate as the base, the Evening rates will be 25 per cent less. And, on

**TIPS ON HOW TO SAVE ON LONG DISTANCE**

To save on your Long Distance calls within Texas, follow these tips:

- (1) Dial all your Long Distance calls the One-Plus way. Dial 1, plus the Area Code, if it's different from your own, plus the seven-digit number.
- (2) The new one-minute rate for One-Plus calls is in effect 24-hours a day. If you talk 60 seconds or less, you pay for only one minute – not three.
- (3) When possible, call Nights and Weekends the One-Plus way. You'll be getting a 35 per cent discount from the Day rate.
- (4) If you call Evenings, you will save 25 per cent from the Day rate on One-Plus calls.

### Delinquent Tax Attorney Hired By School Board

The Terrell County Independent School District's board of trustees took action at a special meeting last week to clear up the delinquent tax roll of that government. The firm of McCreary and Huey of Austin was contracted for a 2-year period to collect delinquent taxes owed the school district. According to E.E. Harkins, tax collector-assessor for the school district, as of April 1975, \$27,085.19 was owed the county for taxes between 1959 and 1973. There will be about \$6,000 delinquent as of July 1, according to Harkins, for the 1974 collection period, and prior to 1959 and since 1939, there is \$2,223.05 due the school, or about \$35,000.00 in delinquent taxes due the school. These figures do not include the penalty and interest on the delinquent amounts, Harkins added.

# STATE CAPITAL Highlights AND Sidelights

by Lyndell Williams  
TEXAS PRESS ASSOCIATION

AUSTIN—The 64th regular session of the Legislature wound down with a few bangs and several whimpers this week.

In five months of activity, it considered legislation touching almost every segment of the state's economic and social life.

Despite criticism, the session did turn out legislation of far-reaching importance.

Even before final last-minute decisions on a \$12 billion record budget, school finance reform and utilities regulation, the session chalked up these accomplishments:

— Article-by-article constitutional revision, set for a statewide election November 4.

— Approval of Health Maintenance Organizations, a new form of fixed-fee health care coverage, and two medical malpractice insurance bills.

— Provision for issuing certificates of need for hospital facilities and reorganization of the State Board of Health.

— Adoption of a permanent voter registration bill and a measure to authorize primary election finance.

— Passage of a nine-counties House of Representatives bill which will assure single-member districts for the counties.

— Establishment of a

1976 presidential preference primary.

— Agreement on a "rape victims' bill" to aid in prosecution of sex crimes.

### Bonds Approved

A proposed constitutional amendment to raise the ceiling on state water development bonds from \$400 million to \$800 million will be voted on in November, 1976.

The resolution contains a prohibition on use of money to import Mississippi River water. A \$35 million limit is also ordered for individual projects which are not part of a statewide water plan.

A bill to authorize issuing all or part of the new bonds will be put off until the 1977 Legislature convenes.

### Redistricting Passed

A bill providing single-member House of Representatives districts for nine Texas counties survived a Senate filibuster and was sent to the governor.

It applies to Travis, Jefferson, McLennan, Tarrant, Lubbock, Nueces, Galveston, El Paso and Hidalgo counties.

All the counties except Galveston and Hidalgo were covered by a 1974 court order (later delayed) decreeing single-member districts.

### Revenue Rising

Comptroller Bob Bullock, who raised his state revenue estimate more than \$200 million, said he may boost it still another \$200 million due to President Ford's oil program.

Bullock urged the legislature to adopt a one-year budget and give him a chance to draw a sharper sight on tax income.

He said Ford's \$1 a barrel oil import tariff proposal and recommendations to remove price ceilings from "old oil" (domestic crude oil produced at 1972 levels) would certainly bring further hikes in state taxes unless rejected by congress. Oil is taxed at market value by the state.

### Court Speaks

The State Supreme Court declined to order dismissal of a lawsuit which resulted in removal of Archer Parr as Duval County judge.

In other action, the High Court declined to reconsider its earlier ruling that the Texas Railroad Commission could not set aside natural gas contracts. Two months ago, the Court held the agency was not required to apportion gas in Lo-Vaca Gathering Company's lines to help Austin and San Antonio meet a shortage.

The Supreme Court refused to cancel an order of an Austin district judge banning publication of names of jurors in a murder trial until the case goes to the jury. An appeal to the U. S. Supreme Court is promised.

A lower court award of \$11,422 damages to an injured Houston Oilers defensive lineman was upheld by the Supreme Court.

### A.G. Opinions

Atty. Gen. John Hill, in an opinion requested by Gov. Dolph Briscoe, held Richmond Mayor Hilmar Moore is not barred by law from serving as both mayor and a State Board of Public Welfare member.

In other recent opinions, Hill concluded:

A person held after arrest on a governor's warrant is not entitled to bail.

Dallas agencies can furnish information on juveniles to a private data bank if the youngsters are not identified.

A school teacher cannot also hold the office of justice of the peace.

A bill which would allow students and military per-

sonnel to select their place of residence for purposes of eligibility to vote is constitutional.

### Awards Received

Six Texas businesses received the Governor's 1974 Industrial Expansion Award.

Recipients of the award were Mooney Aircraft Corp., Kerrville; Amoco Chemical Corp., Alvin; Timex Corp., Abilene; G&H Casting Corp., Slaton; Inca Metal Products Corp., Lewisville and Mr. Fine, Athens.

Governor Briscoe credited the firms with "fighting the recession in the best way possible — with aggressive expansion and civic responsibility." Texas Industrial Commission selected winners based on nominations by chambers of commerce and industrial foundations.

### Short Snorts

A new voter registration law will require all Texas voters to re-register between November 5 and March 1, 1976.

The governor has signed into law that bill banning smoking in many public places. It takes effect in September.

Decline in advance contracting for cotton crops reflects slumping demand, Agriculture Commissioner John White warned.

Recent spring storms caused an estimated \$15 million in insured damage, according to Insurance Commissioner Joe Christie.

First City National Bank of Houston was successful bidder on the recent \$15 million Water Development Board "clean water" bond issue.

Steve Harkins arrived Saturday afternoon to visit his parents, Mr. and Mrs. Jolly Harkins, and his brother, Barton, for several days. He has been working on his Ph.D. Degree at the University of Missouri in Columbia.

### AGENDA FOR MEETING OF COMMISSIONERS COURT
