

STAR Lites

by Bill Ellis

By now, the Republican national convention may be over, and things may have settled down to normal, but as of the time of this writing, the convention was pretty well commanding the scene.

It's that time of year when you might as well be interested in politics, because if you're not, you're out of luck. The newspapers and television have been just a seemingly endless mass of convention doings.

We hope Goldwater won an early ballot, so that things can settle back to normal and people won't have to miss Mr. Dillon Saturday night.

Speaking of television, that "one-eyed monster," we have a few bones to pick with its advertising methods. We like to believe that in the newspaper business we offer pretty sensible advertisements, all geared to sensible readers.

But television . . . that's something else again.

There are more ways toward self-improvement nowadays than ever before, according to television commercials. For instance, there's the headache remedy that greatly improves your bowling average, and the laxative that turns an ordinary young girl into a "dreamboat."

There is also a hair-grooming product that makes a guy invisible. We have to admit that for some people, this product would go great.

Today there is a breakfast cereal on the market that makes helicopters land in your backyard, and turns any husband into a human dynamo.

How about these modern washing powders and detergents (Not exurgents)? Aren't they miraculous? There's one that can turn a middle-aged frump into a blushing bride and another one that makes your washing machine zoom up to a height of 10 feet.

Frankly, I'd advise against that one, since the average ceiling is only eight feet or so high. The repair bills for fixing the hole in the ceiling wouldn't be worth it.

You might also want to draw the line on having giants rising up from the depths of your washing machine. A thing like that could really foul up the mechanical parts.

You're liable to find just about anything coming up from out of your dishwasher these days -- roses, insurance policies and who knows what else.

Some of these scouring products are actually dangerous to life and limb. What about the one that makes women fly through the house (they could hurt themselves on the light fixtures); and the one that explodes when it hits the water?

The most amazing thing about TV commercials is the way the people calmly talk back to voices that come to them out of their walls or mirrors. If my mirror ever starts talking to me in the morning as I shave, I'm not apt to just calmly answer it. I'll more likely do something drastic.

I may even quit watching TV, or at least the commercials.

Of course, I've already pointed out that those who shave on television must either have real light beards or super-human faces, 'cause you just don't get near as many shaves per blade as they do, using "beep-beep" blades or any other brand.

Television commercials, since they are repeated over and over, are liable to become the "nursery rhymes" of today's younger generation.

At least we were made to wonder some time ago when our three year old, Laura, seriously asked her dog, "Major, have you tried B. C.?"

School board members had been kidding Superintendent Alton Farr and principal Raymond Cook that if the two new basketball coaches weren't hired, they'd have to each coach a team. (One was relieved by the board hiring a boys' coach this week).

So when Mr. Farr announced this Monday at the school board meeting that he was thinking of attending the annual Texas High School Girls Basketball Coaches meeting in Waco, board

FOR PAST QUARTER

Postal Receipts Show 19 Per Cent Increase

Postal receipts at the Friona Post Office showed a healthy 19 per cent increase for the quarter just ended over the same period a year ago, according to figures released this week by Postmaster Wright Williams.

Receipts for the quarter totaled \$10,356.56, compared to \$8,694.30 for the same period of 1963, an increase of \$1,662.26, or 19.1 per cent. The receipts for the first six

months of 1964 likewise showed a gain over the first half of 1963. Through the last of June, postal receipts at Friona stood at \$19,416.81, compared to \$18,184.82. This is an increase of \$1,231.99 over the first half of last year.

money orders per week.

For the past year, using June as a cutoff date, the gross postal receipts at the Friona office stood at \$45,053.30. This was an increase of \$4,709.39 over the \$40,343.99 tabulated at this time a year ago, an increase of 12 per cent.

JAMES ANGLIN

Boys Basketball Coach Is Hired

The Friona school board of trustees hired a new boys basketball coach and voted a raise in salary to classroom teachers at its regular meeting Monday night.

Hired to replace C. W. Dukes as boys basketball coach was James Anglin, 33, who has been head basketball coach and assistant football coach at Canadian High School the past two years. Anglin will have the same position at Friona, and will teach mathematics in high school.

Dukes resigned his position to accept a grant to pursue his education in the field of mathematics.

Prior to coming to Canadian, Anglin served as freshman coach at Dumas High School. Anglin holds a bachelor's degree from Hardin-Simmons University in mathematics and physical education, and has a master's degree from West Texas State.

Anglin is married and has two children. The trustees approved an annual increase of \$150 in salary for all classroom teachers, exclusive of the principals and

those on the administrative level.

The board did not act on the position of girls basketball coach, as applications still are being taken.

Porter Roberts, school tax assessor-collector, reported that delinquent tax collections for the month of June to be \$220.72. Delinquent taxes remaining to be collected as of July 1 stood at \$5,654.83, Roberts said.

The board was notified that the school district will receive, before the opening of school, a new 60-passenger Dodge school bus, as well as a 66-passenger International bus.

Superintendent of Schools Alton Farr reported that commodities received for the school lunch program in Friona during the 1963-64 school year were valued at \$12,693.34.

Farr gave his monthly reports on the activity and transportation funds, as well as the school budget. The proposed budget for the 1964-65 school year was reviewed.

The June bills were approved for payment.

Company Warns Against Vandals

Tex-Mex Communications Company warned this week that it will not tolerate any further vandalism to its tower two miles north of Friona.

A representative of the company said this week that a total of approximately \$1500 in damages had been suffered by the tower in the past year.

Such damage is a violation of the Federal Communications Commission rules as a

public carrier, and is punishable by a \$10,000 fine and 10 years in jail.

The spokesman for the company said that recently one of the tower's legs was damaged.

This was reported to Farmer County Sheriff Charles Lovelace, as well as any future damage. The company is also offering \$100 reward for information leading to the arrest and conviction of such vandals.

FINAL CHECK. . . Joe Hinson, employee of General Telephone Company, checks one of the thousands of connections in the new telephone office in Friona. General Telephone made its "cut-over" yesterday morning, and it was described as "highly successful" by company officials.

MOORE'S MANAGER

Scroggins To Manage Local Super Market

John Scroggins, 30, has been named manager of Moore's Super Market in Friona (formerly Harry's). It was announced this week.

Scroggins comes to Friona from Vernon, where he was associated with the Safeway chain for three years. At Safeway, he worked with Harold Siffe, who has been placed in charge of the Moore stores at Dimmitt and Friona. Siffe will make his home in Dimmitt, and leave the managing of the Friona store to Scroggins.

Williams stated that he appreciated the efforts of Friona postal patrons in using the ZIP Code number (79035), and urged those patrons not currently making a practice to use it on their return address to do so.

"By this time next year, the Post Office Department plans to have the plan in total use, and will have machines which will sort the mail according to zip code numbers," Williams said.

MOORE'S MANAGER

Scroggins To Manage Local Super Market

JOHN SCROGGINS

Prior to his associations with Safeway, Scroggins worked for a grocery wholesaler, Waples-Platter, for three and one-half years.

Scroggins has been a Vernon resident for most of his life. He is married, and he and his wife Belva have two children, Randy, 10 and Theresa, six.

Lutherans Slate Bible School

A Vacation Bible School will be conducted at Redeemer Lutheran Church in Friona next week, July 20-24. Redeemer Lutheran meets on the second floor of the Friona American Legion Hall.

Classes will be held from 8:30 a.m. to 11:30 a.m. each day, Monday through Friday. The theme for the school is "God, My Country and I."

Superintendent for the school is Mrs. Norbert Schueler. Teachers are to be Mrs. Bill Brandt, Mrs. Dick Habbings, Mrs. Carl Schlenker, Mrs. Floyd Schueler and Mrs. Chris Goetz.

Children ages three through 15 are invited to attend. Anyone needing transportation is requested to call Mrs. Schlenker.

"Help your child to be a good Christian citizen -- bring him to Bible School," states Rev. Fred Beversdorf, pastor.

THE TOPS. . . John Renner, right, shows Glen Mingsu the form that won for him the championship of the Friona City Golf championship. Mingsu was the winner of the first flight.

ORIGINAL CHAMP TRIUMPHS

Renner Regains Friona City Golf Championship

John Renner, the first champion of the Friona City Golf tournament, regained the championship the past Sunday, shooting a 75 on a wind-swept course for the title. Lloyd Mingsu finished second with a 78 and Dave Carson third at 80.

Renner had won the first tournament at Friona in 1962, then

lost in the finals to Vernon Scott last year.

Other winners included Glen Mingsu in the first flight, Truett Johnson in the second flight,

G. L. (Shorty) Mingsu in the third flight, Ralph Shirley in the fourth flight and L. D. Taylor in the fifth flight.

Scott, last year's champion,

won the consolation crown in the championship bracket. He was eliminated by H. K. (Pudge) Kendrick in the tourney's first round.

Scott shot an 80 in the consolation round, beating W. L. (Presch) Edelman, who had 86, and Ray Dean Fleming, 88.

Renner had reached the finals with a 3-2 victory over Fleming.

Glen Mingsu won the first flight title with a 1-up decision over J. C. Claiborn in a match that went 19 holes. Mingsu defeated Marty Martinez and Bedford Caldwell enroute to the finals. Martinez won the consolation bracket by downing Elmer Hargrove.

Johnson won the second flight with a 2-1 victory over A. L. (Jake) Outland. Outland gained the finals with a 19-hole win over Raymond Cook. Cotton Renner was the consolation winner in the second flight, downing Ted Renner, 4-3.

G. L. Mingsu rolled to the third flight crown with wins over Ralph Roden, Bert Shackelford and T. A. Shirley. Roden went on to win the consolation prize.

Ralph Shirley downed Tom Jarboe, 2-1 for the fourth flight title. Shirley topped Bill Heene and Bob Owen enroute to the finals. Jarboe had topped Lee Renner and O. F. Lanje. Heene won consolation with a 2-1 decision over Lee Renner.

L. D. Taylor took the fifth flight with a 4-3 margin over Wade Wright. Taylor defeated J. B. Buske and James Brown prior to the finals. Wright downed C. W. Tannahill and Allen Stewart.

A total of 52 entrants took part in the third annual tournament, which was pronounced a success by Wayne Wass, club pro and tournament director.

Next event on tap at Friona County Club is a West Texas Pro-Am tournament on Monday, July 27.

Farm Bureau Sponsors Hollis At Fire School

Farmer County Farm Bureau is sponsoring the attendance of two volunteer firemen from this county at the 35th annual Texas Firemen's Training School to be held July 19-25 on the campus of Texas A & M University at College Station, according to Harry Hamilton of Friona, president.

Volunteer firemen planning to attend are Howard R. "Bill" Denny of Bovina and Archie Melvin (Pete) Hollis of Friona.

The training school is being conducted by the Engineering Extension Service in cooperation with the Texas Education Agency. The school furnishes up-to-date training and information on fire protection and prevention as well as fire-fighting techniques.

In addition to attending the regular courses at the school, volunteer firemen sponsored by Farm Bureau will also attend two special seminars July 20 and 21 dealing with rural fire protection.

Farm Bureau pays \$52.50 of the \$57.50 tuition for sponsored members of local volunteer fire departments. This covers lodging and meals for the one-week course. Across the state, some 50 county Farm Bureaus are cooperating with the Texas

Farm Bureau Mutual Insurance Company of Waco in helping defray expenses of 140 volunteer firemen in attending the school.

Hamilton pointed out that Farm Bureau carries on a year-round fire prevention and fire protection program. Joe Smetana, Waco, Texas Farm Bureau safety director, has presented a fire prevention demonstration

to 140 schools and 30 clubs in the past year. The TFB Mutual Company also pays \$75.00 to local fire departments answering a call outside city limits to fight fires involving property of Farm Bureau insureds.

Also planning to attend the school from Friona are Fire Chief Ralph Shirley and assistant chief Glen Reeve, Jr.

Eight Rural Wrecks Reported During June

The Highway Patrol investigated eight rural traffic accidents in Farmer County during the month of June, according to Sergeant W. E. Wells, Patrol Supervisor of this area.

These wrecks accounted for an estimated property damage of \$3,230.

The rural traffic accident summary in Farmer County for the first six months of 1964 shows a total of 53 crashes resulting in six persons killed, 17 persons injured, and an estimated property damage of \$47,883.

"As of July 3, there had been a total of 1,060 fatal crashes in Texas taking the lives of 1,288 persons," the Sergeant stated. This is 174 more traffic deaths than for the same period of 1963. If traffic deaths continue at the present rate, 1964 will become the most deadly year in Texas history for traffic fatalities, not only exceeding the 1963 all-time high of 2,729 deaths but going over

the 3,000 fatality mark. The veteran Patrol Supervisor stated, "This is not just a probability, but a possible reality, unless the motoring public becomes more thoughtful in regard to complying with traffic laws which would break the rising trend."

Welty Attends Sonar School

Rayford C. Welty, fire control technician seaman, USN, son of Mr. and Mrs. Woodrow W. Welty of Friona is attending Sonar School at the Naval Station, Key West, Fla.

Sonar is the abbreviated name for "sound navigation ranging." It refers to all electronic underwater sound detection equipment used in anti-submarine warfare.

He is studying the operation and maintenance of aerial, surface and sub-surface sonar equipment. Anti-submarine warfare is one of the Navy's priority programs with more than 2.4 billion dollars spent annually to help combat the threat of submarine warfare.

prompted D. C. Herring was prompted to ask: "Will you be going to look for a coach, or take a refresher course?"

OLTON...

The Carnegie Hero Fund Commission Monday cited an Amarillo school teacher, Ronnie Upton, for saving the lives of two Latin American boys in Olton.

The near tragedy for which Upton was cited occurred last July 22.

Arturo and Abel DeLeon, 4 and 2 were rescued from an open cesspool adjacent to Marshall's Grocery on Highway 70.

The Amarillo man jumped into the cesspool and dragged them to safety. Both boys were unconscious, having been in the water-filled pit for several minutes, but were revived by artificial respiration.

THE OLTON ENTERPRISE

HEREFORD...

Mrs. Jack Renfro has contributed several antiques to the museum in the barn behind Mrs. Bess Werner's home on Harrison Highway.

Included are such items as Coronado's Battleaxe and sword which originated around the 16th century; a paisley shawl 200 to 300 years old; a black lace umbrella, a Spanish black velvet beaded jacket; a Turkish sword, offset by some semi-precious stones of the ivory handle; two ironstone sauces, a piece of fine china from France and a pair of Spanish spurs.

THE HEREFORD BRAND

PERRYTON...

(Here's more from Harold Hudson's column on the World's Fair in New York.)

We will have to hand it to the Oklahoma people for figuring out what kind of a pavilion to put up at the fair. They have a fried chicken place with good food at a bargain, but another thing they have is a clean well-maintained rest room at their pavilion. You don't know how much you appreciate a comfort station in a big place like the fair grounds until you need one. We suspect that Oklahoma has gained more good will from this rest room than anything else they could have put up.

OCHILTREE COUNTY HERALD

Aside from the need for an aggressive national policy to reduce foreign trade barriers and restrictions, increased sales promotion and market development is essential to the expansion of world markets for U. S. farm products. Because of the need that exists in this area, the American Farm Bureau Federation in 1960 established, as an affiliate, the Farm Bureau Trade Development Corporation in Rotterdam, the Netherlands. The effort is the only one of its kind financed solely by a private farm organization without any kind of a government subsidy.

Nearly 80 companies, and 177 of their subsidiaries, now report their employees quarterly earnings to the Social Security Administration on single reels of magnetic tape. Well over 1.5 million workers are being reported in this way, as well as 3 million uniformed personnel of the U. S. Army, Air Force and Navy.

CORDOVA, ALASKA

(We thought you might enjoy a few occasional tidbits from the state that put Texas second.)

Mortality of hard shell clams has been high following the earthquake, reports Ralph Pirtle of the ADF&G. There is apparently a maximum survival range of tide for these clams, and the upheaval of the land on this side of the sound hit them hard, while the subsidence on the other side has drowned out a large population. Razor clams do not seem to be affected, but these clams are much more mobile than the hard shells.

THE CORDOVA TIMES

GRUVER...

We noticed in an Oklahoma paper last Sunday that people in the United States spent 350 million dollars last year on dog food and another 150 million on dogs for vet fees, etc.

We have nothing against dogs, they're nice little animals, but think of the roar every-time that much is spent on some aid program for people.

We agree that there are plenty of unworthy people getting government aid, but there are also many more who have it just to eat. Our problem, as we see it, is to do our best to weed out those unworthy of help, rather than kill the entire program.

THE GRUVER INDEPENDENT

TULIA...

TODAY EVERYONE is living in a new age; this is woman's century in which cultures and patterns make up the heart of life. Woman must keep growing, using her skills and patterns for a better world for everyone. She must act, remembering that she makes the world better or worse. Sometimes the loom is broken; so she must weave in more threads of patience, courage, and faith.

THE TULIA HERALD

NEW OWNER . . . Roy Keith Moore, right, is one of the new owners of Moore's Super Market in Friona. He is shown with his dad, Ray Moore. The Moores live in Chillicothe. Another partner is Kenneth Moore of Olton.

Browns Return From Extended U.S. Tour

Mr. and Mrs. Tom G. Brown of Morton returned last week from a six-week trip through 18 states and Canada. The Browns are the parents of Mrs. Harvey Blackstone of Route 1,

Friona. The Browns are both in their seventies. Mrs. Brown, 70, did all the driving on the trip. The couple visited the World's Fair in New York, and commented that it was more colorful than the one two years ago in Seattle. Things which impressed the Browns at the fair included the DuPont Show and the Church of Christ exhibit.

Attends Camp

Cadet Robert B. Sanders, son of Mr. and Mrs. B. E. Sanders, Box 25, Friona, Texas, is one of the approximate 1800 Reserve Officers Training Corps Cadets attending the six weeks U. S. Army General Military Science ROTC Camp at Fort Sill, Oklahoma.

The cadets began their training on June 20, 1964. At this stage of the program most of the cadets have completed marksmanship training on the Trainfire Range, Bayonet Drill, Tactics of the Individual Soldier, and have fired the machine gun.

In addition they had their share of Guard Duty, KP, and inspections.

The cadets are experiencing many of the duties and problems faced by a soldier in the Army of the United States today. They are gaining knowledge and leadership practice that will prepare them to serve with confidence when they receive their commission and enter active duty.

The ROTC Camp is scheduled to close on July 31, 1964. Cadet Sanders is a student at West Texas University, Canyon, Texas.

Other points visited on the trip included Washington D.C., Winnipeg, Canada, and Niagara Falls. They saw the Great Lakes and spent two days in the Bad Lands and Black Hills of South Dakota.

The couple, who have traveled extensively the past few years, according to Mrs. Blackstone, visited Sandy Hook Island in New York, where they waded in the Atlantic Ocean and gathered sea shells.

They spent a day viewing the Statue of Liberty, but here in the shadow of the great American symbol, Mr. Brown had the unpleasant experience of having his pocket picked. However, only \$10 was lost, as the Browns had been in the habit of keeping the bulk of their travelling money in a safe place.

Brown is 75. The couple observed their 50th wedding anniversary in February.

ATTEND FUNERAL

Mr. and Mrs. Claude Blackburn and Mrs. T. E. Blackburn were in Oklahoma City Friday to attend the funeral of J. M. Gibson of that city. He was a brother-in-law of Mrs. T. E. Blackburn.

The group returned to Friona Sunday afternoon.

Lazbuddie News

Mrs. C. A. Watson

Mr. and Mrs. George Haskins Sr. and grandson, Gary Haskins of Lubbock went fishing near Tucuman during the weekend.

Mrs. James Harvey and children spent Sunday visiting in the home of the H. A. Harveys at Plainview. Cynthia stayed for a longer visit with her grandparents.

Mr. and Mrs. Junior Trelder and children are visiting Mrs. Trelder's parents Mr. and Mrs. Charlie Neeley, in Wichita, Kansas.

Sunday guests in the Mike Rushing home were Mr. and Mrs. Joe Rushing, Debbie, Denise and Daniela of Plainview.

Mrs. Cecil Sigman and son, Curtis, was a Monday visitor in the Leon Smith home.

Larry Delano, 2 1/2 year old son of Mr. and Mrs. E. R. Delano, has been hospitalized at West Plains Hospital in Muleshoe since Wednesday following an accident in which he received severe burns.

Don Watson was a Saturday evening guest in the Donald Sheppard home.

Mrs. Alton Morris and Mrs. Bill Boatman accompanied Malone Precure, Karen Paul, Marsha Johnson, Janie Harvey, Jeannie Morris, Roxie Whitefield, Sherry Boatman, Mary Longoria and Lupe, Mary Ellen and Marquitta Bustamants to Plains Baptist Camp near Floydada this week.

Charlotte Seaton, daughter of Mr. and Mrs. Jimmie Seaton Sr. is attending the National FHA Convention in Chicago this week.

Mrs. John Crim went to Clinton, Okla. last week to get her son, Doyle, who has been visiting there.

Mrs. J. W. Crim is hospitalized at Colorado Springs, Colo.

Paula Templeton spent Sunday visiting with Beth Moore at Dimmitt. Monday she left for a tour of Carlsbad Caverns with relatives from Dallas.

Donald Ray Busby and Naomi McGary of Dallas visited in the home of Mr. and Mrs. Pat Busby last week. Mrs. Busby returned to Dallas with them for a visit in the home of Mr. and Mrs. Jim Huneycutt and son, Jay.

The young lady overheard the compliment, turned, gave him a radiant smile and said, "What an excellent judge!"

Sunflowers Visioned As Plains Cash Crop

Will sunflowers be a profitable crop on the High Plains of Texas? Scientists at the High Plains Research Foundation, near Plainview, believe that sunflowers will be a cash crop for many areas of Texas and the Southwest within five years. The Foundation is conducting research to find out. A sunflower breeding program was started at the Foundation in 1957.

Several hundred strains have been selected which show considerable promise for sunflower production. The objectives of the program are to investigate sunflowers as a crop that could be profitably grown under existing conditions of soil, available water, and climate of the High Plains; and to develop improved varieties of sunflowers adapted to mechanized harvesting.

The search is for a sunflower variety that will have: (1) high yielding ability with a large single head with good seed set; (2) a short, sturdy plant that can produce a maximum amount of grain with a minimum amount of water; (3) disease resistant; and (4) exhibit a high degree of insect resistance, especially to the larval stage of the sunflower head moth. This insect has been the number one menace to sunflower seed production.

There were 670 strains of sunflowers in the 1963 breeding program—440 of these were original strains received from all over the world on a private exchange basis. To initiate this program, twenty four strains were inbred. Two hundred and twenty strains were obtained from the Plant Introduction Service of the U.S.D.A.

Two hundred and thirty open-pollinated heads were selected for planting, and a number of self-pollinated heads were selected for the 1964 breeding program. The entire row of two strains were harvested to obtain seed for planting this year for the purpose of increasing seed. When sufficient seed is available, these strains will be subjected to further testing. The sunflower is valuable as a food for livestock and people. It has a good quality protein and oil.

Navy's "Blue Angels" To Perform At Tulia Show

The Navy "Blue Angels" will perform over Tule Lake four

miles northeast of Tulia Friday, July 17, at 10 a.m. Parachute exhibitions by Amarillo and Lubbock teams will also highlight the morning's activities, along with boating and skiing exhibition. Barbecue will be served at the lake starting at 11:30 a.m. Swisher County "old timers" will be admitted and served free of charge.

The "Blue Angels" are assigned the mission of demonstrating precision techniques of Naval Aviation. The precision techniques are actually standard fighter maneuvers developed in practice and actual combat.

In performing this mission, the team also demonstrates the high performance capabilities of our latest service fighters and the high level skill of our Naval aviators. The "Blue Angels" provide a practical demonstration of airmanship and by performing at air shows the team hopes to interest young men in Naval aviation careers.

In training, the tactics are executed at 30,000 to 50,000 feet. At air shows the team brings the maneuvers down to eye-level. None of the maneuvers are classed as stunts because they are all a part of the stock-in-trade of any fighter pilot. They are, however, done in close formation rather than individually and are done at lower altitude.

The team prides itself in being unique in many ways. The "Blue Angels" fly the world's tightest diamond formation with almost a complete wing overlap between aircraft while their speed varies from over 500

miles per hour to just above stalling speed at 170 miles per hour. The two solo performers were the first pilots in the world to fly supersonic jets in "back-to-back" formation with the top man inverted and the second plane snuggled in underneath, right-side-up, with minimum separation.

FILTERING DEVICE

Unable to get experienced help, the farmer was obliged to wire a man unfamiliar with farm chores. One day he came across the new hired hand forcing a cow to drink a pail of milk.

"Say, you danged fool," he exclaimed, "what's the idea feeding that pail of milk to the cow?"

"Well," replied the new hand, "the darn fool stepped in it and got it all dirty, so I'm running it through again."

SECOND IN SERIES

High School Teachers' Activities Are Varied

By June Floyd

(Editor's note: This is the second and concluding article in a two-part series by Star staff member June Floyd dealing with activities of Friona teachers during the summer months.)

High School Principal Raymond Cook and his wife are in the process of building a new home in the west part of town. However, neither of them included this project in their planned activities. Mr. Cook reported: "I will work at school during June and August. In July I hope to be able to take a slim vacation and work at the farm."

Mrs. Cook wrote: "My summer plans are for general housekeeping, gardening, sewing and attending art, reading, and music workshops."

Joe B. Elvens planned a very busy summer like this: "My plans for the summer are these: I will work on my master's degree in History at West Texas State University for the first

six weeks of summer vacation. Then my wife and I will spend the last six weeks traveling. We plan to go to Washington, D. C. for a few days then continue on to the World's Fair in New York. We will be back in Friona in time for the opening of the 1964-65 school term."

Coach Don Light says, "I will work for Rain and Hall Bureau. Hope to do a little fishing and then go to coaching school the first of August."

Baker Duggins reported, "I plan to teach swimming and driver's education in Friona."

Bob Owen's plans included some work and some study. He wrote, "I will either work at the swimming pool or attend school at West Texas State University. In any event, I will be in Friona for the summer."

If I go to school, I will commute. A little extra job will be tending the football field which we are having to re-seed."

The Kenneth Pearson family is spending the summer at Perryton, where he farms, but

will be back in Friona for the opening of school this fall.

David T. McVey, one of the agriculture instructors, wrote the following report: "My summers are usually almost as busy as any other time. We always have a state FFA convention in July, this year it will be held in San Antonio. I will also attend the State vo-ag teachers conference in Houston. These trips are long, hard, hot and tiring and by no means a vacation."

Most of the summer is spent visiting FFA projects, checking insects on crops, keeping calves on feed, adjusting rations when necessary and doing a multitude of other things connected with our project program.

Other time is spent building or repairing shop equipment, arranging for supplies for the following school year, gathering teaching materials and filing up to date information from experiment stations, U. S. D. A. and other sources. Of course, there is the vacation to enjoy. I am allowed two weeks, but my pocketbook usually says from seven to ten days. This hardly fulfills the appetite, so we try to squeeze in a weekend fishing trip or two. The only place I really enjoy is in the mountains—any mountains where it is cool and peaceful."

Benny Pryor, McVey's co-worker, gave this report: "I am hired on a 12 months basis with a two weeks vacation. I will probably spend the vacation time in the mountains of Colorado and visiting my father and mother near Dallas."

Summer activities of a vo-ag teacher are as demanding as classroom duties. Many of the students have crop projects that must be supervised during the

summer. There are also important meetings to attend, such as the State FFA Convention in San Antonio and the state vo-ag conference in Houston.

Much work will need to be done inside the shop and classrooms, such as securing teaching materials, repairing tools and equipment. Taking care of these activities will probably take up most of my summer."

Willis Giddens, band director reported a full schedule: "I plan, generally, to stay in Friona, and give private music

lessons. Besides this, however, I shall take Darrell Anthony to the state solo contest in Austin."

Mr. Spencer and I plan to hold a two-week music school for Friona band members during the last two weeks of June.

Then, I plan to accompany about 30 of our students to summer music camp at McMurry College in Abilene for two weeks in July. I probably shall attend the Texas Bandmasters Association convention in San Antonio."

Mal Manchee, one of the history teachers outlined his plans as follows: "As of now my wife and I are undecided as to what we are going to do this summer. I hope to go either to Texas Tech or West Texas State and continue work on my master's degree. We also hope to get away for a few weeks for a trip up north. However, we haven't decided definitely where we will go."

Mrs. Frank Trull reported: "I plan to be in Friona during the summer. I will, I hope, be busy doing a better job of being mother and homemaker than it is possible for me to be during the school term."

Sometime during the summer we shall vacation for a week, but I'm not sure where."

A vacation trip to California was the highlight of Mrs. Marie Carroll's summer plans. She

is the school nurse. She added: "I plan to spend most of my time in Friona. Will spend some time with my mother during July and serve as nurse for Campfire Girls of Hereford summer camp in August. There will be other short weekend trips."

Mrs. David Eddington, one of the home economics teachers, wrote the following: "I will be working through the month of June assisting with home economics summer projects for which each girl participating will receive 1/2 semester credit. About 25 girls will be participating in this program."

Mrs. Caffey and I will also be cooperating in an effort to train FHA members in their roles as club members and officers. All ten of next year's officers plan to participate in a three day Officers Training

Workshop in Lubbock in June. Sometime during the month of July my family and I plan to spend about two weeks in Wyoming visiting my parents and giving Craig some time on his grandfather's ranch and also some time camping in the Wyoming-Colorado mountains.

We will also be tending to some painting and miscellaneous repairs on my husband's farm and visiting friends in the town where we resided before moving to Texas last summer."

During the remainder of the time this summer I plan to devote my time to making draperies for our home and developing our yard and landscaping and gardening around our home. Craig is looking forward to his 7th birthday and taking lessons at Friona's swimming (Continued on page 3 Sec. 2)

NEW LIONS. . . Paul Mohr and Wayne Clausen received their Lions Club membership plaques at the club's regular meeting last Thursday. The two Friona residents were inducted into the club recently.

THIS SUNDAY

Immanuel Lutheran To Dedicate Building

Immanuel Lutheran Church in the Rhea Community will hold dedication services for its new church building Sunday, July 19.

Morning services will begin at 10:30 a.m. Rev. Herbert H. Ries of Liberal, Kansas will be guest speaker. Rev. Ries served the Immanuel congregation as pastor from October, 1942, to January of 1946.

Afternoon services will also

be held, beginning at 3 p.m. Carl A. Heckmann, district president, will be the guest speaker.

Ladies of the congregation will serve the noon meal to all members and guests. Refreshments will also be served after the afternoon service.

Rev. E. A. Binger, pastor, invites the public to be guests of the church on that day.

Immanuel Lutheran Church

"LET'S GO!" . . . see centuries of change in General Telephone Country

Palo Duro Canyon State Park

Etched deeply in the high plains of the Panhandle, just south of Amarillo, lies a spectacular gorge, widely renowned for its scenic beauty. This is Palo Duro Canyon, a great 15,000 acre state park of Texas. You enter it on a road which winds for miles along the bottom of the vast gorge. You see many remarkable formations such as the "Lighthouse" and "Balanced Rock" which have been formed by centuries of erosion which created the Canyon. As you drive slowly along the Canyon's beauty is enhanced by constant changes in delicate coloring. Coronado explored the Canyon in 1541, and in 1876 Col. Goodnight drove the first wagon train down a huge rock slide into its great gulf. Palo Duro Canyon is easily reached on major highways through many of our towns, and is a high spot in places to go and things to see in General Telephone Country.

Double On Wednesday With Cash Purchases Of \$2.50 Or Over

Cynthia Patterson Weds James McDaniel Saturday

Cynthia Patterson, daughter of Mr. and Mrs. Jack Patterson of Bovina and James McDaniel, son of Mrs. Charlie McDaniel of Borger, exchanged nuptial vows Saturday evening in a candlelight ceremony at First Baptist Church in Bovina.

Rev. Benard Dougharty of Anthony, N. M., read the double ring ceremony.

The couple exchanged vows before tree candelabras flanked

ed on either side by spiral candelabra holding white and pink chadrol candles banked by potted palms and emerald greenery.

The bride, given in marriage by her father, wore a formal gown of peau de sole. The fitted bodice featured a scoop neckline and tapered sleeves. The neckline was trimmed with alencon lace and seed pearl appliques. The bouffant skirt fell into a chapel train which was trimmed with bridal pearls, embroidery and alencon lace appliques. Her veil of silk illusion fell from a peau de sole pillbox decorated with leaves made of silk organza, pearls and lace.

She carried a cascade of gardenias and pink roses atop a white satin Bible.

She carried out the tradition of something old with a penny minted in the year of her birth and borrowed a blue garter from Mrs. Darrel Read. Her wedding ensemble was something new.

Miss Sandra Patterson, sister of the bride, attended as maid of honor. She wore a mint green dacron batiste dress with scoop neckline and short sleeves. She carried a long stem pink Killarney rose.

Miss Patsy Hart of Bovina, Mrs. Donnie Smith of Canyon and Miss Kay Struve of Friona

served as bridesmaids. They wore dresses identical to that of the maid of honor.

Cynthia McDaniel, of Borger, niece of the groom, was flower girl. She wore a mint green dress and carried a basket filled with garnet roses. Candelighters were Miss Sarah Gentry and Miss Carleen Harrison of Canyon. They wore mint greensheath dresses fashioned with long sleeves.

Miss Judy Hood of Ft. Worth was pianist and Miss Shirley Peters of Wellington played the organ.

Miss Judy Roach of Bovina was soloist. She sang "Twelfth

of Never" and "Walk Hand in Hand."

John McDaniel of Lubbock attended his brother as best man. Groomsmen were Charles McDaniel, brother of the groom, from Dumas, Clarence McDaniel, brother of the groom, of Borger, and Mimphord Jones of Borger.

Ushers were Jimmie Oldam of Lubbock and Leman Weir of Canyon.

For her daughter's wedding, Mrs. Patterson chose a beige lace sheath with pink accessories. She wore a corsage of pink roses and carnations. The groom's mother wore a

blue lace ensemble with white accessories. She complimented dress with a corsage of pink roses and carnations.

Immediately following the wedding members of Delta Zeta Sorority hosted a reception in Fellowship hall honoring the couple.

The table was laid with a white cloth and centered with an arrangement of pink roses and white carnations. The wedding cake was decorated with pink roses and silver accents.

Misses Nita Galde of Matador and Shirley Anderle of Midland presided at the guest registry.

For her wedding trip to points of interest in New Mexico the bride chose a white lace over pink polished cotton. She complimented her costume with pink patent heels and purse. She wore a pink rosebud corsage from her bridal bouquet.

The couple will be at home in Galveston after August 20.

The bride is a graduate of Bovina High School and will be a summer graduate of West Texas State University.

She is a member of Delta Zeta, social sorority, Alpha Chi, honor sorority, Beta Beta Beta, Sigma Tau Delta, Kappa Delta Pi and is in Who's Who in American Colleges and Universities.

The groom attended Frank Phillips College in Borger and is a graduate of West Texas State University and is currently a second year medical student at Texas University Medical Branch in Galveston.

He is in Phi Beta Pi medical fraternity, Beta Beta Beta and in Who's Who in American Colleges and Universities.

MRS. JAMES McDANIEL

Horton Children Fly To Georgia

Kathy and Trip Horton, children of Mr. and Mrs. Hollis Horton Jr., accompanied their maternal grandmother, Mrs. J. G. McFarland to Ahilene and Merkel last weekend.

In Merkel they visited in the home of Mrs. McFarland's sister, Mrs. Ray Wilson, Monday Mrs. McFarland and Mrs. Wilson drove the Horton children to Dallas where they boarded a plane for Atlanta, Georgia.

They were met at Atlanta by their paternal grandparents, Mr. and Mrs. Hollis Horton Sr. of Rome, Georgia, in whose home they will be guests for the next several weeks.

Eighteen Attend Coffee Luncheon, Bridge Party

Eighteen persons were present at the home of Mr. and Mrs. G. B. Buske Thursday for an all day meeting which began with a coffee in the morning. The coffee was followed by a noon salad luncheon and afternoon of bridge playing.

Hostesses were Mrs. Don Max Vars, Lubbock and Mrs. Philip Weatherly, Friona. Out-of-town guests were Mrs. Eldon Wetzel, Midland, Mrs. Ronnie Castleberry and Mrs. Jerry Loffin, Stratford, Luellen McLean, Wichita Falls, and Mrs. Weldon Fairchild, Waco.

Others present were Mrs. G. B. Buske, Mrs. Reeta Agee,

Mrs. Don Reeve, Mayla Dawn Vars, Mrs. Wesley Barnett and Kim, Mrs. Jim Roy Clements, Mrs. Larry Fairchild, Mrs. Ray Dean Fleming, Mrs. Jackie Hight and Mrs. Leon Massey.

Doaks Return

Mr. and Mrs. Charlie Doak returned late last week after a sightseeing tour which took them through the states of New Mexico, Colorado, Wyoming, Montana, Idaho and Utah.

They toured Yellowstone National Park, visited the Mormon Temple at Salt Lake City and visited many other interesting places.

Of Interest To THE WOMEN

Bridal Shower Fetes Mrs. Haywood Vaughn

A bridal shower in Fellowship Hall of Calvary Baptist Church from 3 to 5 p.m. Saturday, was a courtesy for Mrs. Haywood Vaughn, who was Carolin Guinn before her recent marriage.

Decorations were in blue and white and the serving table was centered with a floral arrangement. Guests were registered by Mrs. Jim Bailey. Piano selections were presented by Lois Ann Moyer.

Refreshments of punch and white cake squares with blue rosebuds were served. Hostesses were Mesdames Fred Jackson, Gwin Taylor, Jim Bailey, Marvin Jordan, O. B. Moyer and Ross Terry.

Also Mesdames Sam Williams, Tommie Parker, Maurine Dunn and M. P. Bennett.

Those signing the guest register were Mesdames Spencer Hough, Joe Johnson, James Chandler, I. V. Day, L. B.

McClain, David Eddington, John Benger, Curtis Murphree, Elwood Vaughn, Bill Taylor, Audye Wiley, Obra Cole, J. C. Beck, Billy Raybon and Bill Burton.

Also Mrs. Gracie Puckett, Bovina and Mrs. C. A. Guinn and Mrs. Allen Guinn, both of Muleshoe.

Also Lynn Frye, Myrna Bennett, Lois Moyer, Lydia Chandler, Cathy Bailey and Lorene Jackson.

From Dunkirk

Mrs. Rose Pleszewski of Dunkirk, New York, is a houseguest in the home of Dr. and Mrs. Paul Spring and children, Susie and John.

Mrs. Pleszewski, who has visited in Friona a number of times, is Mrs. Spring's mother.

REAL TRUST
 "But as many as received him, to them gave he power to become the sons of God, even to them that believe on his name." John 1:12. Years ago a group of people decided to visit the national mint. There they were told by a workmen in the smelting department that if the hand is first dipped into water, a ladle of molten metal can then be poured over the dampened palm without burning it. "Would you like to try it?" asked the guide of a man and his wife. The husband indicated he would be glad to take the guide's word for it, then turning to the wife the guide asked the same question, "Certainly!" she replied, and pairing action to the word, she bared her arm and thrust it deep into a bucket of water. Then, calmly holding out her palm she allowed the hot metal to be poured over it. Turning to the husband, the guide said quietly, "You may have believed me, Sir, but your wife trusted me!" So, too, in all true faith there is this vital element of absolute committal. A mere recognition of the truth of salvation is not enough to bring a soul to Heaven. A heart acceptance of Christ is necessary, and a will motivated to action. A warm, intimate contact with the risen Saviour Himself must be made. Some people with lots of morality and piety never have received the Lord. Now true religion may inform and reform, but only Christ can transform. Salvation is not giving up something, but rather receiving someone.

Surprise Coffee In Harrell Home

Mrs. Travis Harrell surprised nine friends with a "Come as you are coffee" in her home on West Sixth Street Wednesday morning. Guests were called at an early hour and invited to the Harrell home.

Coffee and assorted fruit breads were served to Misses James Troy Ray, Aubrey Rhodes, Grady Dodd, Bill Lyles, Joe Mace, H. E. Barnett, Wesley Foster, Bennie Pryor and Jim Johnston.

Birthday Party Honors Old Timer

Mrs. A. O. Drake, one of the old timers of Friona, was surprised with a birthday dinner in the home of Mr. and Mrs. Earl Drake Sunday. Mrs. Drake, who came to Friona from Iowa in 1908, will observe her 82nd birthday Wednesday.

Also Mr. and Mrs. Arthur Drake and Betty and Mr. and Mrs. Jerry Brown and Janna of Friona.

Frionans Camp In New Mexico

Present, besides the host couple and their sons, Owen Larry and Bobby, were Mrs. Frances Howard, Abernathy; Mrs. Treva Reece, and Gloria Pierson, Canyon; Janet, Kay and Ricky Reece, Tulla; Mrs. Bud Minor, Sue and Dale, Hereford.

Mr. and Mrs. T. L. Houston and grandson, Toby Dale Houston, of the Black community met Mr. and Mrs. H. C. Houston and children of Stratford for a weekend camp out in Holy Ghost Canyon of New Mexico.

Springs Leave For Six Flags

Dr. and Mrs. Lee Spring and daughter, GeeGee, and Susie Spring, daughter of Dr. and Mrs. Paul Spring, left Wednesday for Six Flags Over Texas.

Other Frionans camping there were Mr. and Mrs. Hayden Cason and daughter, Cindy, and Mr. and Mrs. J. P. Sims and son, James.

Visitors In McAnally Home

During the absence of her parents and sister, Sandra Lee Spring will be a guest in the Paul Spring home. The group plans to return home Sunday.

SP/S Danny McAnally has just returned to Fort Benning, Georgia, after spending a week here with his parents, Rev. and Mrs. Russell McAnally.

Plans Made For Club Picnic

At a recent meeting of Northside Home Demonstration Club plans were made for the annual family picnic at the W. M. Masie farm northeast of town. Mrs. Cricket Taylor presented a demonstration on the home freezing of beans, apricots and strawberries at the meeting, which was held in the community room of Friona State Bank.

He was accompanied from Dallas by his nephew Robin McAnally. Other visitors in the McAnally home have been Mr. and Mrs. Keith Jackson, Dwight Keith and Wade, Mrs. Jackson is a daughter of the couple.

Mrs. Jimmy Gore, Amarillo, was a special guest.

On July 2 several members of the club met at the home of Mrs. J. L. Humphrey for an all day hat making session. A salad luncheon was served at noon.

ON TOUR. . . These three ladies left for an European tour yesterday. Left to right are Lora Mae McFarland of Clovis, Mrs. Claude Osborn and Mrs. Sloan Osborn of Friona.

Three Sisters Embark On Tour Of Europe

Two Friona women and a Clovis, N. M., woman left yesterday on a three-week tour of Europe that will take them to seven countries.

The group was to fly to Houston, where it would board Air France airlines for a non-stop flight to New York, and then non-stop to Paris.

Mrs. Sloan Osborn and Mrs. Claude Osborn of Friona, and Lora Mae McFarland of Clovis left by Continental Airlines from Amarillo yesterday morning on the first leg of their trip. The three ladies are sisters.

Countries to be visited on the tour include France, England, Scotland, Switzerland, Germany, Italy and Spain. At Scotland, the three sisters plan to visit the home of the "McFarland Clan," near Glasgow in a side trip of their own.

The trio is making the trip along with the "Panhandle Plains European Holiday" tour, originating in Amarillo, and under the direction of Fles Harper, head of the Foreign

Languages Department at West Texas State University.

Upon their return to the states the group will spend the day or so at the New York World's

Fair. The tour plans to conclude by August 6.

Cities to be visited on tour include Paris, London, Frankfurt, Zurich, Lucerne, Milan, Venice, Florence, Rome and Madrid.

The Panhandle Auto Club arranged transportation for the tour. Transportation during the tour will include plane, rail, steamer and motorcoach.

Meeting Features Film

Highlight of the Wednesday morning meeting of Mekka Circle of Woman's Society of Christian Service of Friona Methodist Church in Fellowship Hall was presentation of a film of Pearl S. Buck's "The Good Earth."

Mrs. Hurst also presented the devotional. Special guests were Mrs. Andy Hurst Sr., Spur, and Mrs. Ronnie Castleberry, Stratford.

Members present were Mesdames Kenyth Cass, Dorothy Hough, Mack Balmum, Bill Baxter, Russell O'Brian, Andy Hurst Jr., J. W. Baxter II, Earl Hawkins and Joe Collier.

Reading Club Adds Ten New Members

Membership in the Reading Club at Friona Public Library now totals 94. Ten new members were added to the list last week. They were Gayla Self, Randy Dorrell, Dave Buske, Jill Riethmayer, Lygia Ann Blaylock, Vicki Pryor, Hazel Fallwell, Jenisu Fallwell, Sharon Rose Stowers, Kenneth Dean Stowers and Louise Whaley.

Forty-one books were donated to the library last week according to a report by Mrs. Ross Ayers, member of the library committee. One of the six books donated by Mrs. O. B. Moyer was "The Farm" by Bromfield.

There are now 320 books in the library that are on loan. Austin State Library has loaned 170 and the Bookmobile has loaned 150.

Each member who reads twelve books during the summer will receive a reading certificate. Any school age person may sign up at the library in Federated Club House any Tuesday or Saturday morning between 10 and 11.

Tracy Barber donated "Snow White," by Disney. The George A. Jones family gave 34 books including Ousler's "Greatest Story Ever Told." Five Hardy Boys books and five Bobsey Twin books were in the collection.

Two Enroll At HSU Monday

Mrs. George A. Jones, volunteer librarian Tuesday reported that approximately 110 books were checked out.

Seventeen pre-school age children were present for the story hour Tuesday morning. Karen Osborn was director. She was assisted by Christ Evans, Mrs. Bill Stewart, chairman of the library committee of Modern Study Club, reports that

Mr. and Mrs. Spencer Hough and Mr. and Mrs. O. B. Moyer returned to Friona Monday after taking their daughters, Patsy and Lois Ann to Abilene.

Miss Moyer and Miss Hough, both 1964 graduates of Friona High School, enrolled as freshmen students at Hardin-Simmons Monday for the second session of summer school.

Don't Be In The Dark . . . About The Many Benefits of Your Credit Union

- A DEMOCRATIC ORGANIZATION run by the people you elect to your Board of Directors.
- PROFITS are returned to you because you are part-owner when you have shares on deposit.
- PERSONAL ATTENTION given to you because you are dealing with your fellow members.
- INSURANCE BENEFITS (if you are insurable) for your family in the event something happens to you. In most cases, your designated survivor will receive double the amount of your shares (up to \$2,000) and any existing loan will be automatically paid off.
- JOINT ACCOUNTS provide accessibility for your family. And, you can have more than one share account. In fact, each member of your family can have an account with you as a joint owner.
- LOW INTEREST RATES when you borrow money. You will never pay more than 1% per month on your unpaid loan balance.
- BIG DIVIDENDS on your deposited shares. You get a big return on the money you have invested in your credit union. The Board of Directors declared a 4 1/2% dividend on your investment for 1963.
- Every One Within A 22 Mile Radius of Friona Post Office is eligible for membership.

Friona Band Director Instructor At Camp

Willis Giddens, band director at Friona High School, has been named as an instructor for the 17th Annual McMurry College Band and Twirling School, July 12-25.

Giddens will serve as Dean of Men at the school and teach the playing of brass in-

struments. Over 400 students from all over Texas are expected to attend the Abilene band school.

Prior to coming to Friona, Giddens was band director at Shamrock High School for six years. He holds a B. S. degree from McMurry and a M. A.

from West Texas State University.

Friona students enrolled for the school are Jim Bob Jones, Barisax; Dennis Anthony, saxophone; John Bingham, trombone; Danny Kendrick, coronet; Bill Ruzicka, coronet; David McFarland, trombone; Cary

Lyles, bass; Rex Talley, sax; Ricky Jennings, drum; John Bill McFarland, saxophone; Randy Ellis, coronet; and Johnny Baxter, trumpet.

Other students are: Don Hoover, bass; Lonnie Ellis, trombone; David Lewis Smith, trombone; Darrell G. Anthony, trombone; Jo Anne Jennings, tenor saxophone; Ann Ayers, bass clarinet; Teto Jennings, flute; Cindy Ingram, bassoon; Sheryl Long, flute, twirl; Roxanne Hall, bass clarinet; and Linda Davis, clarinet, twirl.

Other students enrolled are: Vicki Knight, sax; Rhonda Ragsdale, flute, twirl; Donna Jo Farr, flute, twirl; Sharen Awtrey, flute; Becky Lou Coffey, flute, twirl; Willie Grace Grubbs, sax, twirl; and Merylene Masse, flute, twirl.

More than 200 students have enrolled for the two-week summer band school with over 400 students from all over Texas expected to attend the band school for specialized training.

Dr. Raymond T. Bymum, director of the band school and director of the McMurry College Band, and several other band directors and twirling specialists will be the instructors for the school.

Classes will offer specialized training in individual instruments, conducting, marching, stage band, theory, concert band, twirling and drum majoring.

Besides the band training, several other sponsored activities will be held for the students attending the school. Many of the students will live on the campus of McMurry in dormitories during the two-week school.

Teachers--

(Continued from page 6)

pool, while my husband and I hope to put our patio and barbecue grill to use as well as trying some of the fishing spots and short trips to view the scenery in the general Texas-New Mexico area."

Alton Farr, school superintendent, said that he had no "big" plans for the summer, planning just to remain in Friona. He indicated that he would spend some time with details leading up to the beginning of construction of the new Friona High School building.

about who is taking the convention real badly is Jake Lamb. The rumor is going around that he has his set completely covered with black crepe paper. Upon being asked about it by one of his cronies, Mr. Lamb is supposed to have made the following reply: "It surely is covered up and it is going to stay until this convention is over."

Girls State Report

By Jeanne Taylor
First of all I would like to thank the American Legion Auxiliary for sending me to Austin as a representative to Girls State.

Before I went to Austin, the words, "Bluebonnet Girls State" had no particular meaning to me. Now, they mean so very much.

They mean lasting friendships with girls from all parts of Texas. Their meaning also includes one of the greatest opportunities for any teenage girl.

In my opinion this is one of the greatest activities set up for youth to learn about our city, county and state government. I think it would help all of the teenagers to be exposed to something like Girls State.

When you are around people whose primary interest is to help you understand your government, some of it is bound to rub off on you. The enthusiasm of our counselors certainly rubbed off on all four hundred and two girls long before the session was over.

When you're at a place such as Girls State, you feel the patriotism for your country for at least ten days that you should feel all year round.

It was amazing to me how much talent was displayed at Girls State. All of these girls not only had talent, but you could tell they were the leading girls in their communities by just talking to them.

I've tried to give you a little of what Bluebonnet Girls State means to me. I'm afraid no one will ever get the full benefit of it unless you are privileged to attend such an activity.

Mrs. Florence Buske is one of Friona's older citizens who still enjoys growing flowers. Even though she is getting well up in years and isn't physically able to do much gardening, she has a beautiful red Amaryllis blooming in front of her home on Prospect Street.

I'm sure every one of us will enjoy our more efficient telephone service when we get it. However, there have been so many difficulties during the transition period that gathering news and checking details has been a real problem.

Just being able to dial persons we need to talk to and not having to hunt them up will be a real treat for awhile.

The old adage, "You never miss the water 'till the well runs dry" has certainly been applicable these past few weeks.

Probably the most used phrase in and around Friona this week has been, "Sorry, but I must have reached the wrong number."

Student: "I hear the board of trustees is trying to stop necking."

Co-ed: "Is that so? First thing you know, they'll be trying to make the students stop too."

It's Hard to Farm Without an Arm!

Ever try scooping grain with one arm? It can be done, but it isn't easy. Maybe you'd like to try operating your combine or your baler with one arm? Go ahead . . . put one hand in your pocket and pretend you're pulling some power-operated equipment behind the tractor. Rather rugged, eh? Farming calls for two hands and two arms and two legs. It can be done with less, but you wouldn't deliberately ask to farm that way, would you? You are asking for it unless you observe every rule of farm safety . . . every minute of every day.

PONY LEAGUE

Herring Edges Sherley To Keep League Lead

Herring Implement scored two runs in the bottom of the seventh inning to take a 12-11

win over Sherley Grain of Bovina Tuesday night and remain in first place in the Pony League with a 5-1 record.

Randy Balze started off the winning rally with a home run which tied the score at 11-11. Then Glenn Goggans walked and Joe Garcia tripled to score him with the winning run. The triple was the second of the game and third hit for Garcia.

In other action the past week, Jerry Stone pitched a three-hitter for Charles Oil of Bovina against Parmer County Implement. Stone struck out 14 of a possible 15 and picked one of the two base runners off base

in the third inning. Charles Oil won, 25-2.

Also during the week, Friona Motors downed Parmer County Implement, 20-7 in another slugfest.

Besides Garcia's three hits, Randy Balze, Danny Balze and Ronald Clausen each had a pair of hits for Herring in its come-from-behind win.

Sherley scored four runs in the first, fell behind 6-4 after four innings, but came up with six big runs in the fifth to take a 10-8 lead. Sherley scored another run in the sixth, and Herring had to score two runs in the sixth and seventh for the win.

In Stone's pitching masterpiece, he struck out three men in each of the first, second, fourth and fifth innings. He walked one batter, and gave up two singles and a bases-empty home run in putting together the three-hitter.

The winners scored three in

the first, four in the second and two in the third. They came up with 10 in the fourth and then had to complete the fifth inning before the 10-run rule went into effect, scoring six more that inning for a 25-2 win. Stone also was a batting leader for his team, getting three hits, including a triple.

Friona Motors batted around twice, with 19 men coming to the plate in their first inning against Parmer County Implement last Thursday. Fifteen runs scored in the opening inning, one in the second and two each in the third and fourth. The ten-run rule was again evoked after the losers batted in the fifth, trailing 20-7.

Bobby Sims had three hits for Friona Motors. Bobby Jordan had two.

TEAM CHAMP AT .555

Gene Weatherly Is Bat Champ Of Legion Team

Gene Weatherly, outfielder-pitcher for Friona's first American Legion team, won the team's batting championship with a .555 percentage, slamming out 11 hits in 20 times at bat.

Weatherly had one less hit than runner-up S. D. Balze, who batted .461 for the season, but Balze was at bat seven more times.

Balze was the leading home run hitter with four. Weatherly clouted three.

Jackie Stowers was third in the batting race with a .400 average on eight hits for 20 times at bat. Ronnie Brookfield hit .333, with four for 12.

The team finished third in Congressional District 18 (south), with a 6-4 record. Hereford won the district title with a 9-1 record, followed by Childress at 7-3.

The final district standings are as follows:

| Team | W | L | Pct. |
|-----------|---|----|------|
| Hereford | 9 | 1 | .900 |
| Childress | 7 | 3 | .700 |
| Friona | 6 | 4 | .600 |

THIRD IN DISTRICT

Legion Nine Finishes Year With 6-4 Mark

Friona's American Legion baseball team ended its season with a 6-4 record last Wednesday, dropping a 5-2 decision to Hereford, the District 18 (south) champion.

Hereford grabbed four runs in an error-filled second inning, getting the runs with only one hit. Actually, Friona outhit the winners, 3-2, as losing pitcher S. D. Balze hurled a two-hitter.

After the leadoff batter fanned in the second, three straight batters rached base on errors. Two of the four runs scored on one play during a passed ball.

Friona came back for two runs in their half of the inning, on a walk to Jackie Clark, a double by Jackie Stowers which scored a run and a run-producing single by Ted Renner. The Hereford pitcher then settled down to retire the next two batters and end the rally.

Hereford added an insurance run in the sixth when a batter reached first after Friona catcher Dennis Howell missed the third strike. He continued

around the bases aided by another error. Before the inning ended, Balze struck out three more batters, actually giving him four strike outs in the inning.

Balze struck out 14 men during the seven-inning game.

There's A Tiger In Your Field!

If you knew for sure a tiger was crouched in your field, would you go into that field without protecting yourself? Would you deliberately ignore the deadly animal? Would you poke a stick or your hand in the tiger's mouth? Of course you wouldn't!

Well, there is a tiger in your field. It paces relentlessly down your cotton rows... back and forth... waiting for you to get careless. It snaps and growls with jaws fully as dangerous as those of a living tiger.

Your cotton picker is a tiger! Quick as a cat, your picker can snatch you. Terrible as a tiger, its teeth can rip and tear your flesh. Vicious as a wild animal, your picker can kill you. It is stalking you constantly... head down, tail high... waiting to strike.

This is to remind you that your cotton picker "tiger" cannot harm you unless you give it a chance. Now, as you enter your field with that dangerous machine, is the time to solemnly resolve you will not provide that chance.

Take time to shut off the power when you must approach the tiger's jaws. Stay alert and stay alive. No minute of time is worth a leg or a life.

TAKES OVER SECOND Bank Tops Brookfield In Intermediate Tilt

Friona State Bank edged Brookfield Drilling, 6-5 in an Intermediate League contest Monday, moving into second place a half game behind the leader, McCaslin Lumber, who was idle during the week.

The loss dropped Brookfield into fourth place with a 3-3 record.

In the other game, the two "stragglers" in the league, Star-Hurst and Reeve Chevrolet, changed places as Star-Hurst took a 10-8 win over Reeve.

In the former game, Friona State Bank scored two runs in the sixth to take the victory. Freddie Bailey singled, Joe Bob Jones doubled, and Larry Fallwell singled during the inning.

Fallwell led the Bank's hittings and Butch Watkins the last inning for the winners, Jeff

Price went the distance for Brookfield.

Star-Hurst also scored two runs in the sixth in taking its victory over Reeve. Gary Phipps and Mike Noyes singled and both scored during the rally.

Phipps and Noyes each collected two hits for Star-Hurst which scored four runs in the first inning without a hit.

Johnny Hoover had two of Reeve's four hits. Donnie and Rickey Meason each pitched for Star-Hurst, Richard Shirley, Kenny Taylor and Jerry Shelton pitched for Reeve.

Bees Top Bainum For First Win, 20-15

The B-J Bees turned in their first win of the season in the Pee Wee League last Friday, downing Bainum Butane, 20-15. The Bees were aided by 15 walks and five errors, cashing in for the win. They collected just five hits to nine for the losers, Randy Terry and Jayson

Grimsley pitched for B-J. By winning, the B-J Bees tied Bainum Butane for second place in the standings. Each have 1-3 records. Ethridge-Spring leads the league with a 4-0 mark.

B-J Bees scored four runs in the first, six in the second and 10 big runs in the third. Bainum countered with three in the first, two in the second, four in the third and six in the fourth.

SHORT SNORTS

Cigarette smokers are doing it again. Revenue from cigarette tax stamps increased \$568,048 in June over June 1963 and more than \$600,000 over May.

Republican candidates will attend a political school in Austin on August 20-22.

Willie Bailey and Randy Terry each had two hits for the winners. Collecting two hits for Bainum were Bill Fallwell (including a triple), Johnny Bandy, and Marion Finley. The B-J Bees will meet Ethridge-Spring on Saturday in the next Pee Wee League contest.

DON'T

Gamble
With Your
Life

Be Wise! FOLLOW THESE SIX SAFETY SUGGESTIONS

1. Keep all equipment in good repair — know and use the safety rules in operating machinery on the farm and highways.
2. Treat animals with caution — always speak to an animal as it is being approached. A frightened animal can be deadly.
3. Eliminate all fire hazards around your farm — and be aware of fire dangers at all times. Don't smoke in barns!
4. Many accidents can be eliminated by keeping your farm clean and neat. Keep buildings in sound condition, too.
5. Be careful around water holes, wells, and lakes. Learn how to swim and never go out in or on water by yourself.
6. Learn the methods of first aid — keep a kit handy — and always apply first-aid promptly when an accident occurs.

Blessed are the peacemakers: for they shall be called sons of God.—(Matt. 5:9).

The more we promote peace personally, the more we contribute to peace universally. The more we eradicate fear, hatred, and intolerance from our own heart, the more we help to eradicate them from the world.

On The Farm In Parmer County

BY JOE VAN ZANDT
County Agent

Don't start irrigating cotton too soon! Cotton that received a good pre-plant irrigation or has benefited from recent rains should have enough moisture in the ground to last until the first white blooms appear. Cotton at this stage of growth should be about 60 days of age.

Watering cotton prior to this time can lead to troubles.

1. If watered too early (before white blooms appear) cotton tends to keep growing in a vegetative manner and doesn't start fruiting early.

2. Early irrigation can lower soil temperatures in the root zone of cotton plants. This encourages blights, wilts and seedling diseases. Above all, irrigation shouldn't be practiced when fields of young cotton are disease-ridden, as this tends to compound the problem.

3. Watering too early can also keep roots from penetrating deep in the soil. Especially in the tighter soils area, this can create hazards. If roots haven't penetrated deep in the soil, normally hot, dry weather of August will cause plants to become moisture-stressed. An inadequate root system means farmers won't be able to irrigate their cotton fields of tea enough at this time to keep plants adequately supplied with water.

If irrigation water is short, it might be necessary to start watering before the first white blooms appear. However, that irrigation should be timed as closely as possible to appearance of the first white blooms.

Highest water requirement of cotton plants occurs at peak bloom stage. At this stage, cotton will use one-fourth to four-tenths inches per day. This compares to less than one-tenth inch per day for cotton plants from emergence to squaring stages. From white bloom to peak blooming stage, cotton plants will utilize one-tenth to one-fourth acre-inches water daily.

Several years' research at South Plains Research and Ex-

tension Center, Lubbock, has shown a six-inch preplant irrigation plus two four-inch postplants gives maximum yields with top net returns in normal growing seasons. A good rain at the proper time can eliminate one of the post-plant irrigations.

SORGHUM INSECTS

Aphids or plant lice have been building up in some grain sorghum fields the past couple of weeks. They certainly should be watched closely. Their damage will be noticed as a yellowish mottling on the leaves. They appear to be causing more damage on grain that is short of water as the leaf tips are burned.

Maize that has had plenty of water does not appear to have been affected by the aphids like the maize that has been short of water.

The aphid young and adult suck the plant juices. The insect is commonly found in the whorl of the middle leaf. If the infestation becomes heavy and is apparently holding the plant growth back you would probably want to spray for the aphids.

The insecticides recommended for aphid control are as follows: A, Phosdrin at rate of 3/4 to 1 pint spray concentrate per acre with 2 pounds of toxicant per gallon; B, Endrin at rate of 1 to 1 1/4 pint spray concentrate per acre with 1.6 pounds of toxicant per gallon; C, Parathion at rate of 1 to 1 1/4 pint spray concentrate per acre with 2 pounds of toxicant per gallon.

Restrictions on the use of these materials are to apply Endrin only once during the season and 35 days from harvest, Parathion 12 days from harvest and Phosdrin is 3 days from harvest.

Guides for controlling all insects on grain and forage crops are available at the County Agents office.

FALSE CHINCH BUGS

I believe we should be on the look out for an infestation of false chinch bugs this summer. In some wheat fields at harvest time there was a heavy infestation of these insects. They of-

Cummings Attends Meeting

Doyle Cummings of Cummings Farm Store in Friona attended a meeting the past weekend in Scottsbluff, Nebraska, with 29 other fertilizer dealers from throughout the High Plains area.

The meeting was sponsored by SSS Soil Laboratory Saturday and Sunday. The group was flown to the meeting. A plane originating from Plainview stopped in Hereford for two dealers from that city and Cummings.

Nine planes were used to take the group to the meeting.

The Scottsbluff area is a sugar beet growing area, and also grows corn, beans and alfalfa. The visiting fertilizer dealers toured the area in buses.

Cummings stated that there were 500,000 irrigated acres in the Scottsbluff area, which irrigate to the equivalent of 13 inches of rain. The area also receives an average of 12 additional inches of rain.

ten migrate into a wide variety of crops such as grain sorghums, corn, cotton and beets.

These insects damage plants by the piercing sucking mouth parts. So far I have not noticed any chinch bugs on the grain sorghum; however, they sometimes become a pest on maize. There has been a general infestation of these insects over most of the state this year. We definitely should keep on the look out for a build-up.

The controls for false chinch bugs on grain sorghum are: A, Phosdrin at rate of 1 to 1 1/2 pints per acre with 2 pounds of toxicant per gallon; B, Toxaphene at rate of 2 quarts per acre with 6 pounds of toxicant per gallon; C, Parathion at rate of 1 to 1 1/4 pints per acre with 2 pounds of toxicant per gallon.

Restrictions on the use of these materials on grain sorghum are for toxaphene at 2 quarts per acre do not apply within 40 days of harvest. Apply only once after heads start to form. Do not graze dairy animals or animals being finished for slaughter on treated fields; do not ensile treated forage. Parathion cannot be applied within 12 days of harvest and Phosdrin within 3 days of harvest.

"THE BEST COLOR AND UNIFORMITY I'VE SEEN IN 30 YEARS OF RAISING WHEAT!"

says HILMAR REILEY, at left, Cibolo, Texas.

MR. REILEY USED THE

ECONOMASTER PLAN

Hilmar Reiley is a typical Texas wheat farmer. He raised his spring wheat profits six ways by using the Economaster Plan. So can you. Here's how Economaster used in the fall paid off for Mr. Reiley:

1. **Higher yields.** Mr. Reiley's 125 acres of wheat produced a substantial yield increase using the Economaster Program. But that's not what made the dollar and cents difference.

2. **More grazing...** in addition to an outstanding wheat yield, Mr. Reiley was able to graze 90 head of cattle for 110 days without supplemental feed. The Economaster Plan made this possible.

3. **Premium prices** — tests prove that wheat fertilized with Anhydrous Ammonia has a higher protein and sedimentation value. The Economaster Plan allows you to market your wheat for premium prices.

4. **Fast start** for winter wheat. The Economaster Plan helps young wheat cover the ground early in the fall. This fast start saves soil losses due to sandstorms.

5. **Strong plants** from the start! Healthy plants resist winter kill. The quickly available phosphate of the Economaster Plan promotes strong root development early in the season.

6. **Lowest cost** fertility program... the Economaster program is the lowest cost of plant food materials... pound for pound... of any other program you can buy... anywhere! Add it all up. You'll come to the same conclusion Mr. Reiley did. Economaster is the fertility plan for your wheat! Here's why:

• Economaster uses anhydrous ammonia... made right here in Texas... for the most

concentrated source of nitrogen money can buy.

• Economaster uses a high analysis ammonium phosphate. It is even spreading and water soluble. Ready to go to work immediately.

• Economaster paid dividends to Hilmar Reiley six ways. It can help you too.

We are the exclusive Economaster dealer in this area. Our personnel are trained in soil testing and interpretation. They are ready to explain the advantages of the Economaster Plan. They can determine the most profitable application of Economaster for your wheat operation.

And remember, we're ready to serve you with custom application or tip-top rental equipment delivered to your farm. Inquire about wheat profits today. Inquire about Economaster!

THE FRIONA FARM NEWS

New Posters Proclaim Midge Dangers

NEW GADGET. . . Leon Perez, employee of Friona Growers and Shippers, exhibits new lifter being used by the Friona packing company as potato processing got underway. The 1964 potato crop is doing fair, and prices are good.

Farmer County farmers have been asked to stay ahead of the sorghum midge by Tom Caldwell, President of Grain Sorghum Producers Association. The GSPA distributed some 3000 such posters to seed dealers, Chemical stores, banks and other places throughout the sorghum area. The Association spearheaded moves to gain new midge research last year which develop-

ed new control measures now being applied. Chemical recommendations having been made as a result of research conducted by N. M. Randolph and E. L. Montoya of the Texas Agricultural Experiment Station at Texas A&M University, Ellis Huddleston and Donald Ashdown at Texas Technological College, and coordinated with Don R. Rum-

mel, Area Entomologist, Texas Extension Service include: Carbaryl (Seven), Carbofenthiol (Trithion), Dieldrin, Parathion, and Toxaphene. All insecticides recommended have shown poor control in some tests. Application of Carbofenthiol (Trithion) in all tests and Dieldrin in two tests resulted in significantly greater yields than that harvested from untreated grain sorghum plots.

Effective chemical control requires precise timing of spray applications. Control is dependent upon killing the midge before eggs are laid. Insecticides should be applied when approximately 90% of the heads have completely emerged from the boot or no later than the start of blooming. For effective control under heavy infestations two applications, 3 to 5 days apart, will probably be necessary.

Application of certain insecticides may cause moderate to severe leaf discoloration or burn on some varieties and hybrids. A grower may consult with his seed dealer as to the phytotoxicity of insecticides to certain grain sorghum varieties. If there is any doubt in an established crop, spray a few rows a week or so before booting with the intended insecticide at the recommended rate.

Midge damage to High Plains farmers for the 1963 crop year was estimated between \$4 to \$7 million.

AMMO NOTES
By Bill Bennett, Agronomist

Weeds and Plant Nutrients
Everyone knows that weeds are detrimental to crop yields. They use both water and plant nutrients which could be used by the growing crops. Some interesting figures obtained by Dr. Alan Wiese of the Bushland Experiment Station show the quantity of plant nutrients that are contained in tops of mature weeds. The figures given below are on the basis of pounds of nutrients per acre and are based on 2 plants per square foot of space.

Kochia weeds would contain 205# N, 19# P2O5 and 42# K2O. Other weeds with the quantities of nitrogen, phosphorus and potassium are as follows: crabgrass - 63-10-313; Russian thistle - 194-21-576; puncture vine - 54-6-86; buffalo bur - 100-15-119; and pigweed - 123-18-209. Compare these quantities to a normal crop of 6000# grain sorghum which would contain about 210# N, 27# P2O5 and 80# K2O.

MIDGE WARNING. . . Tom Caldwell, president of the Farmer County Grain Sorghum Producers Association, indicates new sign which was distributed to county seed dealers, chemical stores, and banks this week by GSPA. The poster tells how to ward off midge, a chief enemy of grain sorghum.

In meal preparation can add to the many convenient uses of the freezer also. Length of storage is important since frozen foods undergo slow changes in storage, and will not retain its high quality indefinitely. The length of time that frozen products may keep without loss of quality depends on: 1. Proper handling before freezing. 2. Packaging material used. 3. Storage temperature and kind of food stored (if poor product is stored it will not be improved with freezing.)

by and get a copy or write for a copy and the material may be mailed without charge.

BUYING BEEF
A three ounce serving of cooked beef chuck (bone out) provides one-third of the Protein, more than one-fourth of the iron, and nearly a fifth of niacin recommended by National Research Council as the daily allowance for a normally active 25 year old adult man.

FOOD PRESERVATION
Home Demonstration club meetings this month are having demonstrations on freezing foods and anyone interested in the correct method for freezing foods are invited to attend. A home freezer is a wonderful convenience but improper packaging of food, and use of the freezing can bring about a

lower quality product, and add to the cost of owning a freezer. In spite of all the research on freezing foods and available authoritative sources of information, many people are not using methods to give the highest quality product in flavor, nutritive value, color and pleasing texture. Packaging food to save time

A very excellent source book, from the best authoritative source is available in my office on the second floor of the courthouse in Farwell. These are free and if anyone is interested in improving the quality of their frozen food come

When buying beef for the family, the U. S. Dept. of Agriculture says figure 1/4 pound per serving if there is no bone. If the cut has a little bone (say its a rump roast) you'll have to buy a pound if there is a medium amount of bone such as a blade chuck roast.

You Can't Lift Much With Just a Crutch!

Farming is a business that requires a lot of lifting and carrying. Think how many times a day you must lift and carry something quite heavy. Ever try one of those lifting chores on one leg . . . or with a crutch? Go ahead . . . hold one leg off the ground while you lift a bale of hay and stack it. Pick up a basket of feed and hop around on one leg. Can't do it? Then how would you farm on just one leg? Farming is a two-legged business. You would think about this . . . even during the piercing pain . . . while your friends were taking the machinery apart to free your mangled leg. Thinking about it now is the easier way! So take it easy. Practice farm safety . . . your safety . . . constantly.

Farm the Land Without a Hand?

Wheeling your tractor around while pulling the trip rope to the plow is one of farming's simple jobs. But . . . how simple would it be if you had only one hand? Go ahead . . . try it! Pretend the chair you're sitting in is your tractor seat and put one arm ahead as if you were steering that power-packed machine. Now close your other hand into a tight fist and reach back for the trip rope. Try grabbing and pulling the rope with your wrist. Can't do it? Then you'd have a hard time farming with one hand!

Sure, you could get a hook like the man in the picture. You could tie a knot in the trip rope to catch the hook. But that's only one of the problems. Try tying baler twine or wiring a gate with one hand. Try putting a repair part on your machinery. You are deliberately asking to farm with one hand unless you are constantly alert.

MAKES CATCH . . . Monte Fowler of Friona caught this 16 1/2-inch, 1 1/2 pound prize rainbow trout while stream fishing at Red River, New Mexico on July 1. Monte was vacationing with his family and guests, Mr. and Mrs. Robert Hall of Ropesville, Texas, in Red River. He was awarded a fish certificate by the Red River Trout Association for his catch which was made using a flat fish lure.

**Highlights and Sidelights
From Your State Capital**

AUSTIN New preliminary steps, including Texas toward the inevitable realignment of congressional and legislative districts, were taken last week. Atty. Gen. Waggoner Carr asked that the federal district court at Houston allow time for the Legislature to redraw the districts in its session next year . . . as the court had done earlier with congressional apportionment.

In view of U. S. Supreme Court decisions that both houses of the state legislature must be selected on the basis of population alone, Carr concluded that there is little doubt that Texas districts would be declared unconstitutional.

Meanwhile, in Fort Worth and Dallas a committee of the Texas Legislative Council held its first public hearing seeking advice on how congressional districts should be redrawn.

A parade of witnesses was heard before the committee recessed briefly. It will move to Houston for its third hearing on July 17. A fourth hearing will be held in San Antonio. Committee spokesmen have indicated they may go to West Texas, then perhaps return to South Texas for further testimony.

A session of the full Legislative Council, research arm of the Legislature, is scheduled for July 27 in Austin. At that

time, the Council is expected to decide whether to broaden its own study to include the explosive, close-to-home problems of redividing the state's House and Senate districts.

ARCHIVES MURAL UNDER WAY -- Work has begun on a \$30,000 mural in the new Texas Archives and Library Building. It will portray state history from the days of the Spanish explorers to the present.

American painter Peter Hurd and English artist Peter Rogers, who is Hurd's son-in-law, will work together on the 45 by 13 foot mural. Texans will recognize among the figures Stephen F. Austin, the Father of Texas; Sam Houston, general, governor, senator, and president of the Republic of Texas; Anson Jones, last president of the Republic; and Jim Bowie, Davy Crockett and William B. Travis, heroes of the Alamo.

Work is scheduled to be finished by September.

SCHOOL FUND ALLOTMENT APPROVED -- State Board of Education raised the per student apportionment of state available school fund money to local districts from \$78.50 to \$81.50.

This \$3 per capita hike represents an overall \$7,600,000 raise in available fund aid to the districts for 1964-65.
