# **Tour of Upton Court** House Made by Girl Scouts of Troop 3

Girl Scouts of Troop 3 journeyed to Rankin Friday April 14, for a first hand lesson in Government. They were welcomed at the Court House steps by J. E. Simco, County Sheriff, who conducted the group on a tour of the county offices and introduced them to the officers in charge of the county records and explained the workings of our county government.

The girls born in Upton County especially enjoyed seeing their names recorded in the huge columns of birth certificates. Collecting of taxes was explained. They were shown specimens of the vario...s grasses that grow in this county and told of the conservation only tranch of service to work with work being done by the Federal Core nment and the ranch owners. War II.

L'alaise County Health Nurse, who conducted a round table discussion previously had lectured to this incop in McCamey on problems of herso al health. The court room with a fluency that proved her abil-ity as also of especial interest. Mr. and Mrs. Simeo then showed the The cuestions on surgical dress-troup through the County jail and ings and blood plasma were fully guns, police disguise, etc. pertaining to law enforcement.

At the conclusion of the tour Mr. Simco treated the members of the troop and their chaperones to cold drinks at the local drug store foun-

Money to Burn'

**Orchid** Species There are no less than 5,004 species of orchids.

**SNAPPY FACTS** ABOUT RUBBER

The importance of the tire conservation program, effect-ed in 1942, will be appreciated when it is known that the number of passenger car tires rationed and those sold on new cars in 1942 only equalled 8.8 per cent of the passenger car tires shipped for all pur-poses in 1941.

Neglected small tire tread cuts and bruises can become serious rubber wasters. A small cut, even though it does not go entirely through the fabric, lets in dirt, water and foreign matter. Constant flexing increases the size of the cut until the tire is beyond repair. Prompt repair is a patriotic duty these days.

U. S. Heavy Bombers Blast Balkans, Hammer German Industries in France; Jap Forces Advance in India Theater;

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.) leased by Western Ne

#### EUROPE: Aid Russ

With Allied troops in Great Britain poised for the jump into western Europe, U. S. bombers took to the air to blast the Balkans in conjunction with the Russian armies' advance into Rumania.

In the English Isles, an electrical tenseness was reported as Gen. Dwight D. Eisenhower's high com-mand was said to have set the zero hour, and Allied planes continued to roar over the channel to blast Nazi defenses and industries in France and Germany

As the Russians edged toward the vital Rumanian oil fields of Ploesti, U. S. bombers thundered over the city from the south to blast railway tank cars filled for the long haul to western Europe. U. S. bombers also dropped explosives on aircraft fac-tories and railroad yards of the Hungarian capital of Budapest.

In Italy, heavy artillery bombardments punctuated bitter ground sparring below Rome at Anzio and

#### Psychological War

Leaving no stone unturned, the Allies have been showering Axis Europe with propaganda leaflets as well as bombs in an effort to undermine German morale and encourage underground resistance in occupied countries.

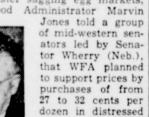

Flashy leaflets have told the Germans that their surrender during the last war left most of their industries intact, while continued resistance in this war will only result in the complete demolition of their factories. Other leaflets have condemned Nazi officials for failing to provide for evacuation of the civilian population from bombed areas.

Small newspapers dropped in France have informed the people of guerrilla activity, and of the Allied objectives in bombing Nazi targets in the country, while similar publications dumped over Holland have pointed up America's war effort and the heavy assaults on Berlin.

#### AGRICULTURE:

#### Egg Supports

To bolster sagging egg markets, War Food Administrator Marvin Jones told a group

promotion of economic activity in he postwar world. Because South American countries **Congress Studies New Draft Problems** have been sending the U.S. and other nations more goods than they have been able to buy back, the U. S. department of commerce re-

ported they have built up a cash balance of over 2 billion dollars, which will be available for foreign trade when warring powers return civilian production. In 1943, the department reported, the U. S. bought \$1,300,000,000 worth of goods in South America, while selling only approximately \$800,000,-000, thus leaving the Latin countries with a cash balance of nearly \$500,. 000,000. PENICILLIN:

# New Plants

Costing \$20,000,000, 21 new penicil-lin plants in the U. S. and Canada soon will go into the production of sufficient quantities of the magic drug to meet the needs of 250,000 severe cases and 2,500,000 milder ones of the armed forces.

Despite the increase in production, penicillin only will be available to civilians who cannot be treated with the sulfa drugs.

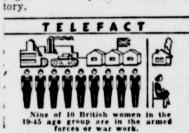

New methods have been developed for making penicillin and costs have dropped 84 per cent within a year, but because the drug is derived from a mold which still must be grown and only small quantities can be refined at a time, demands continue to surpass supplies.

#### **GREAT BRITAIN:** Act Against Strikes

Plagued by strikes which resulted in a loss of 1,000,000 working days in March, the British government draft ed an order under which incitement of labor unrest would be a criminal offense.

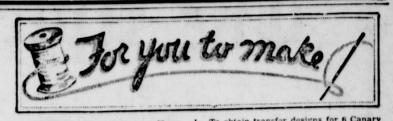

Even as the government considered drastic action, 70,000 miners ir Yorkshire remained idle over deductions from their wages for coal for their homes, and over 20,000 shipyard workers were on strike in Belfast in protest of the jailing of aircraft shop stewards for participating unauthorized walkouts.

While the government moved to check the strike wave, the Trades Union Congress warned British labor that continuance of work stoppages would imperil an Allied vic-

Unless it has been crushed under the Nazi heel, a rose bush planted 1,000 years ago is still growing in Germany. Set by an emperor in a garden near Hildesheim, the bush was known to be blooming up to the time of the war.

tions.

class.

In seeking to channel 4-Fs into areas where hannecessary work, the house military affairs committee called upon selective service to obtain a list of essential occupations and manpower shortage areas for use in guiding the employment of 4Fs, who would face induction into a labor battalion if failing to take vital jobs.

GOP Favorite-Republicans boom Gov. Tom Dewey (left) as Weadell Willkie steps out.

#### GOP: Willkie Quits

Stormy petrel of the Republican party since 1940, big, blustery Wen-dell Willkie withdrew his bid for leadership of the GOP, while New York's Gov. Thomas E. Dewey was assuming the position through a popular draft.

Willkie's sudden demise and Dewey's ascension were occasioned by progressive Wisconsin's elections for delegates to the Republican national convention in Chicago, June 26. Although Willkie actively campaigned through the state, he failed to win even one delegate, while Dewey, who had asked that his name be withdrawn from the election, won 18.

Since Wisconsin has long been noted for its liberalism, Willkie deliberately selected it as the grounds for a test of Republican sentiment, basing his bid for delegates on a program for heavier war sacrifices and extensive U. S. cooperation in world affairs.

# DRAFT:

26-29 Next Both selective service and congress struggled over the problem of supplying the military services with younger men and maintaining record war production, with continued emphasis on shifting 4-Fs in unim-

dlers paid producers a minimum of Sen. Wherry 26 cents a dozen. Declaring that the

WFA's biggest problem was disposal of the eggs, Jones called upon the congressmen to support legislation for sale of perishable commodities below parity levels. At present, pershables cannot be sold at such prices until they evidence deterioration, with the result that rot often sets in, Jones said. If the civilian population would eat one more egg per week per person, the surplus egg problem would be largely solved. Jones added.

Although adequate storage space has been found for frozen eggs, Jones said, production has been influenced by manpower problems. Wherever possible, the government has increased its contracts for the product, he said.

#### Canadian Oats

Seeking to relieve the tight feed situation, the War Food administra-tion has arranged for the importation of 20,000,000 bushels of Canadian oats by May 15 via rail and the Great Lakes.

Under the plan, U. S. railroads would immediately send 75 cars daily into the Canadian interior for the grain, with 25 more to be sent later, if domestic needs for the cars are not pressing. The rails would carry the oats to Duluth, whence they would be routed to Chicago and To-ledo by boat. From 15 to 20 days generally would be requird for the round trip, officials estimated.

Because competitive bidding between the two cities would bring Canadian grain above the U.S. price ceiling, the Commodity Credit corlower prices in the U.S.

State Inductions

With 1,265,000 men, New York is scheduled to lead the states in the number of soldiers and sailors to be inducted by July 1, with Pennsylva-nia with 904,000, and Illinois with 700,000, ranking second and third.

Other states with high totals include California with 667,000; Ohio with 610,000; Texas with 554,000, and Michigan with 452,000.

Nevada with 11,000 is scheduled to contribute the smallest amount of men, with Wyoming and Delaware with 23,000, the next lowest.

#### PACIFIC: Eye Stilwell

HIGHLIGHTS . . . in the week's news

tests.

While U. S. bombers continued to pummel Jap defense outposts in the Pacific, British troops strived desperately to check the enemy's stub-born advance toward the American operated Bengal-Assam railroad, 80

miles within India. Working over the whole Jap outpost system in the Pacific, navy fliers pounded the enemy's storage and defense installations on Truk in the Carolines, while army airmen repeated heavy attacks on the Nips' supply base of Hollandia in New Guinea, feeder point for barges op-erating along the coastline.

Seeking to cut the Assam-Bengal railway feeding Lieut. Gen. Joseph Stilwell's U. S.-Chinese troops fighting to carve out a new supply road poration might purchase the oats to China in northern Burma, the directly from Canada for resale at Jap attack in India was concentrated in the rugged hills above Imphal.

parties were prepared to participate in a new government when King Victor Emmanuel abided by his reported decision of retiring as actual ruler and designating his son, Prince Humbert, as his lieutenant to represent his interests. In settling this knotty problem of at least temporarily preserving the

institution of the monarchy while still satisfying the demands of the anti-Fascists that the king get out, the king's advisors fell back on an old precedent in Italian history. Although the Communists who are reportedly vying for control of the defense and police ministries in any new Italian government, recently declared their intention of cooperating with the king, other anti-Fascist elements held fast to their contention that his removal was requisite to the establishment of a strong democratic administration in the state.

#### U.S. TREASURY: **Record Receipts**

Boosted by receipts of \$5,161,000,000 for quarterly income tax payments, the treasury collected \$6,573,000,000 in March, but expenditures also were at a record level of \$8,525,-000,000, leaving a deficit of \$1,952,-000,000.

Of the heavy expenditures in March, \$7,726,000,000 went directly for war activities, topping the November, 1943, peak of \$7,541,-000.000.

During March, \$268,000,000 in war bonds was redeemed, representing 38 per cent of the month's sale of \$708,000,000.

Plans for the Fifth War Loan drive to get under way June 12 call for a goal of \$16,000,000, about \$730,-000,000 less than was actually raised during the Fourth campaign. Of the total, individuals will be asked to purchase \$6,000,000,000 worth of bonds, more than they bought during the last drive.

#### TRAIN BANDITS

In shades of Mexico's more turbulent days of three decades ago, Mexican highwaymen have gone back into business, concentrating on trains bringing back native laborers enriched with hard earned wages from six months of agricultural work in the U.S.

Armed with machine guns and pis-tols, 60 bandits reportedly held up a train in Sinaloa province, hoisting \$100,000 from 600 homebound agri-cultural workers and making a clean getaway.

- 2 cups sifted cake flour
- 4 teaspoon salt
- cup sugar
- 2 eggs, unbeaten
- 1 teaspoon vanilla

Sift flour once, measure, add baking powder and salt and sift together three times. Cream butter thoroughly, add sugar gradually. Cream together until light and fluffy. Add eggs one at a time, beating thoroughly after each addition. Add flour alternately with milk, a small

THE UPTON COUNTY JOURNAL

# Hunting Subs

By Lt. 'Monk' Fowler

(WNU Feature-Through special arrangement with The American Magazine.)

From the day we got our orders and were assigned to an aircraft carrier to clean the subs out of the Atlantic, we were never allowed to forget the gravity of the business in hand. The critical menace of the U-boats and the importance of our mission were deeply impressed upon us.

At a northern port we got orders to proceed to a latitude and longitude where a pack of subs had been We were to go out to hunt seen. and kill.

I was flying the outbound leg of my patrol as we approached the suspected area. We were 300 feet above the waves peering anxiously about, when Wojcik, my radioman, called excitedly: "Mr. Fowler-you flew over something." I went back but what Wojcik had seen was another whale. Great guy for seeing whales, Wojcik. When I turned on the cross leg

of my mission, I heard Fryatt, another of our pilots, phone the ship: "Contact-attacked sub"-then he broke off. I pressed my earphones tighter

to hear his next report, figured where I would be in about 20 minutes, and wrote down the position. Straining to hear Fryatt's voice on the intership phone, I almost jumped when Wojcik called: "Mr. Fowler-what is that down there?" I looked, and saw a white streak. It might have been a destroyer, or another whale. But it wasn't.

"We're in the money," I called back. "Arm everything-let's go." Wojcik said: "Roger-r-r," and I checked my guns. Bucholz, my gunner, gave his a burst, and I threw my heels down to lose speed. We came in low-off the sub's port quarter. She was moving steadily for-ward. I don't think they saw us until we were on top of them.

Wreck Steering Gear. We dived, and I pressed the button releasing my load. I could see the faces of the men in the conning tower. Wojcik called: "They're hit off the starboard bow."

I pulled up and called the carrier: "Ship from Monk-attacked sub-" When I looked back, the sub was circling to go starboard. She acted like a wagon with one of its front wheels tied. We had blasted her steering gear. "Ship from Monk," I called; "we've delivered our attack-sub is going in circles firing. She cannot sub merge." The skipper came back to me with his calm "Roger." I went in again, and Bucholz strafed the decks of the cripple. Then those Jerries let us have it. Their fire cut across our tail; I dived and saw their tracers go over me. Wojcik shouted: "Boy, that was close!" I did some fancy maneuvering to keep out ef range. Bucholz was bouncing all over the back end of the plane, but he kept firing. The sub was shooting wild now and a spray of bullets was hitting the water. When I pulled up again and looked back, the sub was settling at the stern. My aerial had been shot away and I had lost communication with the carrier, but I could hear another pilot reporting: "Ship from Bill-do you receive me?" and the answer. So I knew they were sending help. When Bill arrived, I went in again to pull fire away from him so he could unload his bombs. The sub was still firing, and I heard Wojcik "It's getting pretty hot." say: Bucholz sprayed the conning tower with bullets. Bill dropped his load and pulled out. He looked at us and grinned as he went by. Sub Went Down. The sub moved forward its own length and went down before Bill called me-"Return to ship." dropped a smoke bomb to mark the spot before I went back, but we didn't find an oil slick and there was no evidence we had made a kill.

Lynn Says

The Score Card: Good news is in store for homemakers for there will be plenty of eggs on the market and cabbage and spinach. All of these foods give a boost to health and to your menus.

You will be eating about a pound less cheese this year than last. The kind available mostly will be Cheddar-also the kind most popular. Kinds least obtain-able will be limburger cream, roquefort and Italian. About 5 million more pounds of cheese are going to servicemen to help pro-vide milk nutrients needed by armed forces. Cheese will also go to our Allies and to the Red Cross, which helps provide for our

weights and watch change. Just because you have more book-work to do with points, don't neg-lect your prewar precautions of counting change.

these are low on sugar and ideal to use on cakes the children have made. Here, too, is a good basic cake recipe on which to use them:

Standard Cake. 1/3 cup shortening % cup sugar 2 eggs, well beaten 1½ cups sifted flour ½ teaspoon salt 2 teaspoons baking powder 1/2 cup milk

1 teaspoon vanilla

Cream together shortening and sugar. Add eggs. Sift dry ingredients together and add alternately with milk and vanilla to creamed mixture. Pour into greased, floured 8incl cake pans and bake in a moderate (350-degree) oven for about 35 minutes.

In using any of the following toppings, frost only top of cake. Square and loaf cakes take less icing than

layer cakes. I. Raisin Topping. 1 cup raisins, ground 1/2 cup water 1/s teaspoon salt 1/s teaspoon cinnamon

Dash of cloves Mix ingredients in a saucepan and stir constantly while cooking until thickened-about 5 minutes. Cool slightly. Spread on warm cake.

II. Apricot Topping. 1/2 to 3/4 cup apricot jam Spread on warm cake. Meringue Topping.

l egg white, beaten stiff

1/2 cup confectioners' sugar 1 teaspoon flavoring 2 tablespoons butter, softened

Beat sugar into egg white with flavoring. Fold in softened butter and spread on cooled cake. Honey Icing.

2 tablespoons butter 3 tablespoons honey 1 tablespoon hot milk 1/2 cup coconut Dash of salt

Mix all ingredients together. Spread on warm cake and broil slowly until icing bubbles and browns but does not burn.

Back on our base ship I found that Fryatt's sub hadn't fired on him before submerging, so I felt I had the edge on him. Hodgson, another pilot, had attacked a sub a few minutes before I sighted mine. He had fired on it and strafed the gun crews, but the sub dived be-fore he could finish the job.

Up to this time we had had no excitement; in fact, things had been so monotonous aboard ship that I had asked for a transfer. The skip-per said: "Monk, you still want that transfer?" I almost said: "Hell, no!" Then I thought: "Just a flash in the pan, may never happen again." I said: "Yeah, let it go through."

Nothing further happened for a while. Sometimes, for a little fun, we would scream down on the ships in our destroyer escort. We always kept several rolls of toilet paper handy for these "token bombings." · Kellogg's Rice Krispies equal the whole ripe grain in nearly all the protective food elements declared sential to human nutrition.

# MAYBE. description and is land, together in blank, will be . Pressing - the - Button will Jack Up future cars AND OFFICE BUT... OIL-PLATING YOUR ENGINE is like outdoing the future-today

An optimist can still hope to trade his car for a 1945 model-with "wild" or mild advancements

A realist might do the same. But he'll "cast an anchor to windward" by changing to Conoco Nth motor oil for Spring, at once adopting that big inexpensive advance-an engine internally OIL-PLATED.

Be a realist! Realize that any engine's explosions always form real biting acid inside. Realize that long trips, heating at least some acid away, went out of style as rationing started. Realize that limited driving-incomplete engine heat-has been endangering engines not OIL-PLATED. Too bad; any harm that's been done is done. But with Conoco Nth oil, and

all the acid-resistance of OIL-PLATING, you're in shape to discontinue extreme acid damage. starting now.

Patented Conoco Nth oil-popular-pric includes a pioneer synthetic, with the advance "magnet-like" ability to surface inner with OIL-PLATING. That's why you can rea be an optimist about your engine's future, after changing to Your Mileage Merchant's station for Conoco Nth oil. Continental Oil Co.
