## Harold B. Eudaly Seeks Office As Representative Of 88th Leg. District

Harold B. Eudaly, Sr., 43, a resident of Ward County for all of his lifetime, authorized the News to run his announcement in the political column as a candidate for State Representative of the 88th

Harold B. Eudaly, Sr.

Legislative District.

Mr. Eudaly is married and has one son 12 years old. He is a rancher and farmer and has also worked in the oil fields of the Permian Basin.

During the years of 1931 to 1934 inclusive, he was tax assessor of Ward County. In that capacity he learned the tax structure and also became acquainted with the problems of the independent oil operators. His varied interests should fit him for the office he seeks.

Mrs. Dunn Lowery and her mother, Mrs. John Walker spent the weekend in Terlingua visiting her brother, Julian Walker, and Mrs. Walker. The Julian Walkers are the parents of a baby son and the visit was especially to see the new member of the family. The Walkers have another son just older.

Mrs. John Walker remained in Terlingua for a longer visit.

## Political Announcements

The following announcements are made subject to the action of the Democratic Primary, July 22, 1944.

For Representative 16th Congressional District:

R. E. THOMASON (for reelection)

For District Attorney 83rd Judicial District:

TRAVERS CRUMPTON (Pecos County)

For Representative 88th Legislative District:

O. E. GERRON (Ector County)

J. T. RUTHERFORD (Ector)

HAROLD B. EUDALY, (Ward)

For County Judge:

A. B. HOLLEY

WM. R. (BILL) EDWARDS (For a second term.)

For Sheriff, Tax Assessor and Collector:

J. E. SIMCO (Re-election)

H. M. (SAM) FOWLER

For County & District Clerk:

RALPH H. DAUGHERTY (Re-election)

For County Treasurer:

MRS. ELIZABETH RAINS (Re-election)

For County Attorney:

JOHN A. MENEFFEE (For Re-election)

For Commissioner Precinct No. 1:

H. G. YOCHAM (re-election)

For Commissioner Precinct 2:

W. C. McDONALD

W. J. PRICE

ED GUY BRANCH

For County Commissioner Prec. 3:

TOM TRIMBLE

BOB WAITS

## Assignment to Victory \$250,000 5th War Loan Quota, \$70,000 in Series E

### No Auction—No Prizes—No Contest—Be Glad That You're Alive to Buy 'em in Number 5

One, Two, Three, Four—There have been that many War Loan Drives since September, 1942. And now comes the FIFTH.

Each has been bigger than the last. And the FIFTH is the biggest of them all. Each has set its goal reached and passed, and each has been harder than the one before. The goal is higher and the task will be ever so much harder in the drive now underway and which officially starts June 12th.

So it's one, two, three, four—and FIVE!

And we'll all have to pitch in and bear down heavily on Number Five, for we have got to come through—and we will, by going into it with the same spirit, the same zest, the same pep that has stood so staunchly behind the men fighting this war.

One, Two, Three, Four—Remember September of 1942! That \$100,000.00 goal looked like a

cinch to be MISSED. But we passed it—and how. That was Victory Number One. Then came Number Two, after we had barely caught our breath from the first drive. And we went 'way ahead on that one.

Followed Number Three. Our quota \$299,650.00, three times the quota in the first drive. But, spurred on by previous two victories, we went into that one with confidence aplenty. Chalk up another Victory!

When the Fourth War Loan was launched during January and February of this year, we all thought that goal of \$218,000.00 which the State had set for us, was impossible to make at that time of year. So, we beat that mark! We all thought that every trick in the bag had been exhausted, but we brought out some new ones and dusted off some of the old ones and used them over again with great success. We went away over the top again.

That's the way it's GOT to be for the FIGHTING FIFTH! Our quota has been set at \$250,000.00 for Upton County; \$70,000.00 must be in Series E bonds, and as in the past, the Fighting Army consists of YOU, YOU and YOU of Upton County, who again will do the job and win another Victory. Sure it will be tough going, just be glad you are alive to buy a bond in Number FIVE.

ONE—TWO—THREE—FOUR—AND NOW FIVE! LET'S GO—Wm. R. Edwards, Upton County Chairman

## Play Night to be Held At School Friday Night

Since play night on May 25 was such a success, the group who participated that evening and others interested have asked that the school be made available for other similar entertainments.

On Friday night, June 2, there will be another play night in the Rankin Gym. Forty-two will be played and then volleyball will follow. The captains of the teams will be ex-high school captains, Frances June Holmes, Daphne Snell, and Clayton Dameron and Mr. Walton Poage. Each of these captains will select their teams before the games begin Friday evening and the champion of the four teams will be decided as will the consolation winner. The public is invited to participate in these games.

## Rev. Seth Hughes Receives B. S. Degree from Howard Payne College Wednesday

Rev. Seth Hughes, pastor of the local Baptist returned Friday from Brownwood where he had gone to receive his B. A. degree in graduation exercises at Howard Payne College. Rev. Hughes finished his work in January and waited until the formal conferring of degrees, Wednesday, May 24th to receive this honor with other graduates.

Cpl. Bill Moore of Fort Bliss was a business visitor here Friday.

## Crane Boy Killed After Falling From Trailer Tuesday Morning

Edwin Idom, age 12, was killed Tuesday morning after falling from a load of hay, nine miles West of Crane. He was helping his father, I. Y. Idom haul hay and was sitting on top of a trailer that was loaded. As they passed over a rough cattle guard the boy was jolted from the load and was thrown to the ground, fracturing his skull. Mr. Idom resides in Crane and is employed by Gulf Refining Company. He and his son had gone after a load of hay for some cattle.

Edwin Young Idom was born Oct. 12, in El Dorado, Ark., and moved with his family to Crane in 1942. He was a member of the Crane Baptist Church.

Survivors other than the parents include 2 brothers, James O. Idom, U. S. Navy, San Diego, Calif; and Floyd, Crane; five sisters, Mrs. W. C. Brem, Andrews; Mattie, Lurline, Melrose, Williams, and Elizabeth Carroll, all of Crane, and the paternal grandparents, Mr. and Mrs. W. W. Idom of Columbia, Miss.

Time of funeral services are indefinite pending the arrival of the brother from California, but probably will be held Friday or Saturday at the First Baptist Church of Crane and burial in Crane cemetery.

Funeral arrangements are under direction of Harris Luckett Funeral Chapel.

## Lt John L. Green In Group Finishing Six Weeks Medical Course

The third class in the School for Medical Administrative Corps Officers at the Army Service Forces Training Center, Camp Berkeley, Texas, designed to train officers as battalion surgeons' assistants in a six week course of instruction is in its last week of training. Among the officers who are enrolled and will graduate this weekend is 1st Lt. John L. Green, M. A. C., son of Mrs. Bud Hurst of Rankin. A graduate of Rankin High School, Lt. Green resided in San Jose, Calif., before entering the army.

Mrs. Green who has been in California for several weeks arrived in Rankin Friday and will be joined here by Lt. Green Saturday.

In training the officers were instructed particularly in regard to tactical problems of medical evacuation in combat and with duties in front-line battalion aid stations. The overall aim of the school is to completely familiarize the officers with all phases of work in the regimental medical detachment—which is the medical unit attached to a combat regiment. Graduates of the school will be eligible for assignment to all branches of the Army.

The class, considerably smaller than the second class, which completed training last month, enrolled officers from all parts of the country. Training is under the direction of Lt. Col. August H. Groeschel, assistant commandant, and Capt. Robert Springer, executive officer. Present plans indicate this will be the last class of school.

Mrs. John Hyde and children returned Tuesday from Abilene where they had been visiting relatives.

## NHA Approves New Housing Program for Big Lake and McCamey

A program providing 50 war housing accommodations for incoming workers engaged in the petroleum industry in Upton and Reagan Counties has been approved by the National Housing Agency, Regional Representative, Preston L. Wright, announced today.

The new program calls for the construction of 45 privately financed new family dwellings and five privately financed units through the conversion of existing buildings.

The program was approved to provide units in McCamey and Big Lake, or on any sites within the limits of Upton and Reagan Counties. Approval of the program was granted by the National Housing Agency after an analysis of the War Manpower Commission's estimate of the additional workers needed to meet production schedules in the petroleum industry here, and after allowance for maximum recruiting of local laborers, Mr. Wright said.

The National Housing Agency also made a careful check of the housing supply in Big Lake and McCamey to determine how many of the additional workers needed were to be housed in existing dwellings, he said. Because of wartime scarcities of critical materials, new quarters cannot be built for all incoming war workers; and residents of McCamey and Big Lake must continue to support the war effort by sharing their homes with workers needed for war jobs, he declared.

Occupancy of the new war housing approved today will be reserved for war workers in war industries who move to McCamey and Big Lake from beyond a reasonable commuting distance, or who have moved here since July 1, 1941, and are now living under conditions which impair their efficiency, Mr. Wright said. War workers who find it necessary to bring their families here from beyond a reasonable commuting distance or who are dispossessed from their quarters will also be eligible.

Applications for preference ratings for construction of new houses or the conversion of existing facilities into additional family units should be filed with Mr. E. T. Stearns, District Director of the Federal Housing Administration, Electric Building, Fort Worth, Tex.

## Harlan Hotel Changes Ownership and Under New Management

The Harlan Hotel will operate in the future under new management and ownership. Recently, Mr. J. E. Smith of Gorman purchased the hotel and Tuesday of this week Mr. and Mrs. Smith and their children, Claire Gay, Martha Louise, Ruth Lucille, Wanda Lee and John Leary arrived from Gorman and will personally supervise the management of the hotel and dining room. Another son of Mr. and Mrs. Smith, James Edward, Navy Qm 1-c is stationed in the Pacific area.

Mr. Smith stated that he would enjoy having the local citizenry visit them.

Mr. and Mrs. Pete Pollard left Saturday for their home in Fort Worth, after a two weeks' visit with her mother, Mrs. Pearl Rankin, and other relatives. They were accompanied to Fort Worth by her niece, Patty Lane of Alpine who spent Friday night here with the Rankins.

Miss Mary Alice Bell left Saturday for a visit with the Hays' family in San Angelo. While there she attended graduation exercises. Miss Juanita Hays, daughter of Mr. and Mrs. H. E. Hays, formerly of Rankin, was a member of the graduation class and received highest honors from among 217 members of the class by being named valedictorian.

Miss Kathleen Wheeler returned Tuesday from a visit with her sister, Miss Norma Jean Wheeler at New Mexico University in Albuquerque, N. M. She was met in Odessa by her mother, Mrs. H. Wheeler, Mrs. Ross Wheeler and children and Betty Ann Miller.

Supt. and Mrs. John G. Prude and family returned Friday from Fort Davis where they spent the past few days on their ranch in the mountains and visiting relatives.

## ERISMAN TO RUN FOR STATE OFFICE

Fred Erisman of Longview, who is serving his third term as District Attorney of Gregg County, has announced his candidacy for Attorney General of Texas. Long prominently identified in Texas Junior Chamber of Commerce activities, Erisman is now serving as president of the District and County Attorney's Association of Texas.

## Savings in United States Reach Record Amount

Washington, June 1—War incomes have boosted savings in this country to the staggering total of \$128,000,000,000 compared with peak pre-war savings of \$10,000,000,000, a commerce department official testified today.

But despite its enormous size, he told the House Special Postwar Planning Committee, this backlog of spending power is insufficient to maintain the national economy long without a healthy current income.

The witness, A. E. Taylor, director of the Bureau of Foreign and Domestic Commerce, said that of the total \$95,000,000,000 has been accumulated by individuals, largely in such liquid assets form as bank savings and war bonds.

He estimated the savings of non-financial corporations at slightly over \$29,000,000,000.

## Fifteen Per Cent of Rigs Busy In the United States Are in West Texas

Midland, May 30—Importance of the Permian Basin of West Texas as a Southeast New Mexico in the oil picture of the United States is increasing each week.

On May 1, 1944, this region had 15 per cent of all the active drilling rigs in the entire nation. One year before, the Permian Basin accounted for only 8.8 per cent of all operating rigs in the country.

Combined daily average production of West Texas and New Mexico, for the week ending May 13, 1944, was 11.9 per cent of the aggregate daily average production for all the pools in the United States for that week.

For the week ending May 2, 1942, total production of the Permian Basin, on a daily average for the seven days, was only 6.6 of the United States.

Completions for this district during the first four months of 1944, were 8.9 per cent of all the oil development projects completed in the nation. During April 1944 the Permian Basin reported 9.2 per cent of all completions of the United States.

On total footage of all drilling, West Texas—New Mexico operations have accounted for 11 per cent of all the drilling so far completed in the entire country for the first four months of 1944.

Sgt. Theron R. Elliott is in a hospital somewhere in China suffering a minor back injury, his parents, Mr. and Mrs. I. C. Elliott, have been informed. His wife makes her home in McCamey where she is employed at the Echo Drug.

John Hyde returned the last of the week from El Paso where he reported for a physical examination for induction into the Army. Mr. Hyde will report for active duty in July at Fort Sill, Okla. Also taking his physical at this time was Bill Midkiff who will also be inducted shortly.

ON THE HOME FRONT WITH RUTH WYETH SPEARS

HERE is a cookie jar that may be made at home from odds and ends of wood stenciled with gay peasant figures and quaint lettering.

which may be cut out of thin wood and put together quickly with glue and brads.

Even if you do not have a jig saw or a coping saw to cut out the graceful curves of the shelf pieces, you may mark the design on a piece of plywood or other thin wood and have it cut at your nearest woodworking shop.

NOTE—Mrs. Spears has prepared an actual size pattern for this corner shelf and cookie box; also a stencil pattern with complete color guide for the lettering and stencil figures.

WEEKLY NEWS ANALYSIS U.S. Employment Shows Decline; Nazis Continue Retreat in Italy; Japanese Tighten Grip on China

Released by Western Newspaper Union. (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

Zero Hour—Yanks await signal to attack Jap machine gun nest in Burma.

EMPLOYMENT: On Decline

For the first time since the war began, the nation's manpower appeared in balance with needs, with supply of labor in critical areas the only problem, the National Industrial Conference board said.

Earlier the department of agriculture noted a 4 per cent decline in farm labor, with some of the decrease attributed to the inability to get into the fields because of unfavorable weather.

Reflecting the continued drop in manufacturing industries, there were 41,800,000 non-farm workers in March, compared with the peak of 43,800,000 in July, 1943.

EUROPE: Foe Reels

With soldiers from six nations fighting shoulder to shoulder in Allied ranks, the Germans fell slowly back in Italy, their retreating columns under heavy fire of the advancing host, drawing closer to the Eternal City of Rome.

As the Allied fell in Italy, thousands of U. S. and British planes continued their heavy bombardment of Axis communications and industry in western Europe, their explo-

Mediterranean Commander Sir Henry Maitland Wilson (left) confers with Lieut. Gen. Mark Clark of 5th army (center) and Deputy Mediterranean Commander Jacob L. Devers on Italian front.

sives twisting steel rails into fanciful forms and reducing segments of factories into smoldering pyres. Preparatory to a great offensive from the east, Russian bombers hammered at Nazi supply bases.

With the collapse of their Gustav line in Italy, the Germans fell back slowly toward the Anzio beachhead to the north, where their embattled troops clashed with massed Allied forces slugging for a breakthrough, which would trap the retreating army from the rear.

West Wall

The searching eyes of aerial photography have uncovered what lies ahead of Allied troops massed to storm Germany's formidable west wall.

Under command of icy, 69-year-old Field Marshal von Rundstedt, the west wall shapes up as a series of deeply entrenched steel and concrete fortifications stretching back far inland, and carefully camouflaged to prevent concentration of Allied fire on them.

Dotting the scenic French landscape are innocent-looking, little houses, sheltering the muzzles of big German field pieces whose carriages are sunk into the ground, and poking their noses from the sides of hills, are rocket guns buried in the terrain.

CRYPTOSTEGIA

The government's experimental rubber project in Haiti has been abandoned as a failure and an investment of \$8,000,000 is being written off. It was explained that it was found impossible to recover any appreciable quantity of rubber from the desert vine "cryptostegia" which was grown on the 40,000 acre tract.

It had been confidently hoped that this tough plant would become a major source of rubber for this hemisphere and would provide a money crop for the natives.

PACIFIC: 1,000-Mile Advance

With his forces taking another long jump of 125 miles to the northwest in Dutch New Guinea, Gen. Douglas MacArthur advanced closer to his cherished goal of the Philippines, there to avenge Bataan.

The latest gain drew U. S. forces nearest to the thick cluster of islands lying off Dutch New Guinea which the enemy reportedly has fortified with air bases to counter any Allied thrust against the Indies to the south or the Philippines to the north.

In advancing 125 miles westward, U. S. forces were 1,000 miles away from Milne Bay, far to the southeast and from which General MacArthur launched the campaign that has gradually pushed the Japs out of their farthest South Pacific holdings.

TRANSPORTATION: Overhauling Asked

Correction of inequalities and discriminations in present freight rate structures to reflect the cost of service, and creation of three permanent federal agencies to keep abreast of transportation problems, were among the recommendations made by a special board of investigation and research organized by congressional enactment in 1940.

At the same time, the board went into the south's protest against certain freight rate differences benefiting the northeast, declaring that figures showed that what the south really needed was a development of her own industry to utilize her abundant natural resources.

The board called for the shipper's freedom in the selection of reasonable joint routes and rates of the same or different types of transportation facilities to speed commerce.

CHINA: Seek Unity

With the Japanese tightening their grip on China through their control of her seaports and productive industrial centers, Chiang Kai-Shek moved to gird the country for a final stand against the enemy by drawing the Communists in the north fully into the battle.

As Chiang met with Communist leader Lin Tso-han, Chinese regulars continued their drive into northern Burma, in an effort to join up with Lieut. Gen. Joseph Stilwell's troops moving eastward from India, and thus open a new supply route to China.

Upon the extent of Chiang's concession of self-rule and participation to the Chinese central government to the Communists reportedly will rest the degree of their cooperation.

BRITISH EMPIRE: Favor League

Having concluded their long conference with Prime Minister Churchill, Britain's dominion premiers packed their bags for the trip homeward, but not before issuing a statement favoring a world peace organization and avowing a fight to the finish against the common enemy.

"We affirm that after the war a world organization . . . should be set up and endowed with the necessary power and authority to prevent aggression and violence," the premiers said.

"We rejoice in the unquenchable spirit of our comrades in every country still in the grip of the enemy," the premiers declared.

MISCELLANY: LESS MEAT

LESS MEAT: There will be about ten pounds less meat per capita available during the latter half of the year, the bureau of agricultural economics estimates. This would mean that average consumption per person for the six month period would total 67.5 pounds, about the same as in the second half of 1943, when all meats were on the ration list.

REHABILITATION: Navy Program

After six months of operation of the rehabilitation program for men and women at the U. S. naval hospital at Great Lakes, exhibits told an interesting story of the success of the project under direction of Lieut. Comdr. R. E. Kinneman.

On display were fancy scarves, purses and belts in yellows, whites and greens. There were such useful articles as ash trays and bill-folds, and such chipper bric-a-bracs as clay turtles and yarn dogs. Pictures caught the charm of the outdoors and depicted naval life.

Created to stimulate the minds of patients as well as restore the mobility of injured limbs, the rehabilitation program also has served to help the convalescents to uncover many talents of which they were never aware.

OIL: New Field

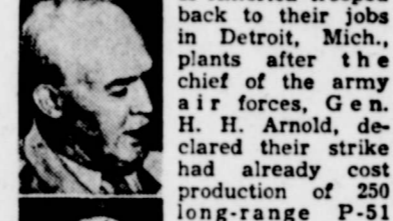

With the discovery of a promising big oil field in Mississippi which already has brought in two large wells, attention was focused on a whole tier of southeastern states.

According to oil authorities, approximately 155,000 miles of territory at the roots of the Appalachian mountains in North Carolina, Georgia, Florida, Alabama and Mississippi are underlain by sedimentary rocks, which might bear much petroleum.

Although a 130,000 mile territory in Texas and Louisiana has already given up 14 billion barrels of oil, authorities' enthusiasm for the prospective southeastern field has been tempered by reports that its zones for accumulation of petroleum are fewer in number and the thickness of the sedimentary rocks are less than in the Texas and Louisiana regions.

LABOR: Foremen Back

Three thousand five hundred members of the Independent Foremen's association of America trooped back to their jobs in Detroit, Mich., plants after the chief of the army air forces, Gen. H. H. Arnold, declared their strike had already cost production of 250 long-range P-51 fighter planes and could affect invasion operations.

As a result of the foremen's walkout over demands for union recognition which industry opposed on its traditional grounds that foremen are a part of management, nearly 50,000 workers had been laid off because of the lack of adequate supervision of production.

Following General Arnold's testimony, the association's national president, Robert H. Keyes, issued instructions for ending the strike, charging the government with delaying settlement of the case.

REFRIGERATION: Ease Space

With warehousemen and food handlers cooperating fully with the War Food administration's information centers, cooler occupancy was at 82 per cent in May, with much space of this type not ordinarily used at this time well filled.

At the same time, WFA announced that freezer occupancy stood at 85 per cent in May, with much room made available by the clearance of fruits, vegetables and poultry.

With demand for cooler space expected to continue, WFA revealed that it would push its program for converting cooler space at 32 degrees to 50 degrees to freezer space at 31 degrees and lower, and vice-versa.

JOINT COMMAND: Draws Support

The touchy question of combining the different branches of the services into a single command, so strongly favored by the army, drew the support of President Woodrow Wilson's secretary of the navy, Josephus Daniels.

Mincing no words, Daniels declared that the disaster at Pearl Harbor resulted from a divided command, and asserted: "History is replete with the squabbles between the army and navy which prolong wars, showing the necessity of combination."

When he was working for unification of the services during World War I, Daniels said, Secretary of War Lindley Harrison told him: "Joe, I don't care a damn about the navy and you don't care a damn about the army. You run your machine and I will run mine."

DISEASE

The campaign against social diseases scored a victory on one front and lost ground on another last year. In the second half of 1943 there was a decline of 16 per cent in new cases of syphilis among civilians but gonorrhea cases jumped 11 per cent.

The number of new syphilis cases for the six months term was 245,000, compared with 290,000 in the second half of 1942. Gonorrhea cases were set at 158,000, compared with 137,000 in the latter part of the preceding year.

Recommended Method  
Of Canning Pineapple

- By Nettie Belle Messick
1. Select firm ripe pineapple and wash thoroughly with a brush.
  2. Dry pineapple and cut off leaf end.
  3. Cut one slice at a time about 1-2 inch thick and peel.
  4. Remove eyes and core, place pieces of pineapple in a clean jar to which has been added sugar (approximately one level tablespoon per pint) more or less sugar may be added depending on individual taste.
  5. Place jars filled with pineapple, without lids, in a water bath and steam ten minutes. Do not count time until the water begins to boil. Jars should be placed on a rack to prevent breakage. The water should come up about halfway on the jars. A lid should be placed on top of the pan to hasten steaming time. Steaming forces the air out of the jars and will prevent fruit from turning dark.
  6. Add a small amount of water to pineapple cores, eyes, and trimmings and simmer about 10 minutes. The outside dark peeling should not be used as they have an off flavor and will give the juice a dark color.
  - After simmering, strain the juice, pour it over the jars of pineapple, or it may be canned as pineapple juice by putting it in jars and processing 20 minutes in a water bath.
  7. When the jars of pineapple have steamed 10 minutes take jars out and pack the pineapple that is in the jar. Pineapple shrinks during steaming, therefore it is necessary to pack it after steaming.
  8. When pineapple is packed in the jar it should not come past the turn in the neck of the jar. The jar should then be filled with the juice made from the top.
  9. Put lid on jar and seal.
  10. Place jars in water bath and process 20 minutes. The water

inches over the top of the jars.

11. Count processing time from should come at least 1 1-2 or 2 the time the water boils.
12. After processing lift jars by the neck, not lids, from the water bath.

Good seals may be broken if jars are lifted by lids, or if lids are tightened after they are taken from water bath. The lid should be tightened as tight as you intend to

have it before you put it in the water bath.

13. After a week or ten days store in a cool dry dark place.

Mrs. Gertrude Hall was a business visitor in San Angelo Tuesday.

Mrs. Wanda Reary left Tuesday for a visit with her husband who is stationed at Stillwater, Oklahoma.

Library Adds New Books

According to the librarian, Mrs. Ellis Pinkerton, recent additions to the Upton County Library will appeal to both children and adults.

Of interest to children, new books that are ready for circulation are: Tritten, "Heides Children"; Kimbrough, "We Followed Our Hearts to Hollywood"; West, "Making the Most of Yourself"; (Boy Scouts); Buck, "The Water-Buffalo Children"; McFee, "Forest Friends in Fur"; Shackleford, "Insect Stories"; Clark, "The Chiangs in China"; Hurlburt, "Story of the Bible"; "Stephen Foster and His Little Dog Tray"; "The Favorite Works of Mark Twain."

In the other group adults will find an excellent selection of fiction. During the past winter book-stores over the United States report to the New York Herald that B. Smith's "A Tree Grows in Brooklyn" takes first place in number of sales. During the second week of May, 1944, Lillian Smith's "Strange Fruit" topped the list of sales. Other books of fiction gaining in popularity over the nation are Shave, "Lady in Lilac"; Flavin, "Jennet Kissed Me"; Millow, "Fire Will Freeze"; Jackson, "The Last Week End"; Seton, "Dragonwyk"; Baldwin, "He Married a Doctor"; Allen Hervy, "Bedford Village"; Llyelyn, "None But the Lonely Heart".

The above books are ready for circulation in the Upton County Public Library.

Mrs. J. W. O'Bryan was visited by her only great grandchild, little Miss Patty O'Bryan of Merton this week. She also has Patty's mother, Mrs. Johnny O'Bryan, Jr., and brother, Tommy, and Mr. and Mrs. Johnny O'Bryan, Sr., of Big Lake. Johnny O'Bryan, father of Patty, is serving in Italy.

Mrs. Lola Belle Weatherby and her aunt and uncle, Mr. and Mrs. Charles Folksof Wilcox, Ariz., went to Odessa Tuesday to meet a nephew.

Mr. and Mrs. A. F. Eades and family will leave Saturday for a visit with relatives in Snyder.

"This above all, Let's Win the War and End the Wars."

America's  
*Fifth Freedom*

**FREE ENTERPRISE**

This great bronze goddess is a symbol of the shining ideal of Freedom. Much is said about Four Freedoms . . . but they mean nothing without the Fifth—our keystone Freedom of Enterprise—the chance for a man to be really free and to advance as far and as fast as his ability will carry him. It was this kind of freedom which built the electric industry, made it possible for privately owned Electric Companies to be business-managed and business-operated, free to grow, to plan ahead . . . and the workers and management who built the companies had a chance to use foresight in planning a better electrical tomorrow for each new generation. Let this be our guiding light: Keep America the land of freedom—freedom of worship, freedom of speech, freedom from want and fear. This can only be accomplished by keeping freedom to strive for individual success, instead of just leaf raking.
