**Times Proves a Good Idea
 Was Had In 1910—But—**

A man by the name of J. T. Barlow probably had the idea as to how right he was in a townsite which was filed on April 15, 1910. True enough there is a town at the site at the present time, but the site as laid out on a plat in Book 2, Page 209 of the Deed Records of Upton County shows that the proposed townsite was about three miles from the present site of Hankin Corner, and is surrounded by all wells.

The records also show that not a single lot was ever sold, or at least no record has ever been found, so that it now it comes about that the nearly 45 year old townsite was laid out on the record books with the meeting of the commissioners court on February 11.

The Phillips Company is interested in getting the site turned back into arroyo so that their drilling operations will not be jeopardized by possible law suits.

The townsite is so old that the dedication is originally on the record books of Midland County and was filed by W. J. Sparks, County Clerk of that county on that day back in 1910.

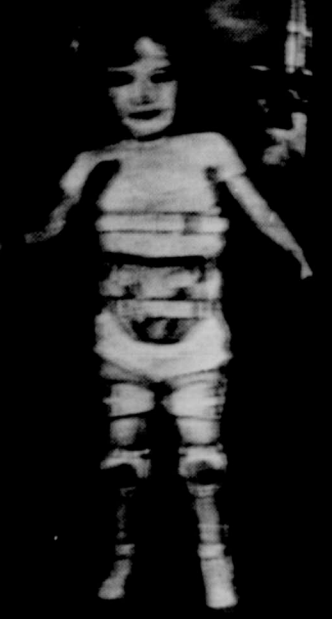

Robert E. Estes is shown as District Surveyor of the Midland Land District at the time.

The name of the town that Upton County is to lose? "Hendenberg."

'We did it Again!'

That's the jubilant news that comes from Flint to every Buick dealer—and here we pass the thrilling story on to you. It sure is true for '52 that better automobiles are being built—and Buick is building them. Read the good word and you'll agree.

Let's pare this down to plain statements of fact and let them speak for themselves:

The dynamic darling pictured here is the 1952 ROADMASTER.

It has the mightiest engine in Buick history.

It has the biggest brakes of any postwar Buick.

It is the quietest car that Buick ever built.

It has the richest fabrics and smartest tailoring that ever graced a Buick's interior.

It has the greatest trunk space since spare tires moved off the front fenders.

It has the most superb ride in Buick history.

It has the finest carburetor that Buick research has ever devised.

And with all its new power, it delivers more miles per gallon.

But that is not all.

For those who wish it, there is a brand-new version of power steering that works like a helping hand—gives you the same sure feel of control you have always known in straight-away driving—yet takes less than one-fifth the effort needed to turn the ordinary wheel standing at curbside.

Sure, we're putting our best foot forward when we talk about ROADMASTER.

But you'll find a host of notable features in SUPERS and SPECIALS too—plenty to make them, as always, the standout buys in their fields—for ride, for comfort, for style, for room, and for power.

Come in—look this triumphant trio over—and you'll know why every Buick dealer from coast to coast is going around with a smile on his face.

Upton County Maintains Salary Basis For 1952

The Commissioners Court voted Monday to maintain a salary basis for all county officials, employees and appointees for the coming year at their regular meeting Monday.

They raised the pay of constables and justice of the peace office holders from \$82.50 to \$132.50 monthly, and set the salary for all other officials and appointees and employees the same as they were at the close of 1951.

They raised the pay for "extra labor" used by the county from \$1 an hour to \$1.25 an hour.

The group hired Bud Cummins as caretaker of the Rankin Park.

In other action during the day, they approved reports from the office of the county clerk, county treasurer, and justices of the peace of Precincts 2 and 3.

They heard a report by Judge G. H. "Bud" Fisher from D. C. Greer, State Highway Engineer, that the state has received the minutes of the court relative to the approval of FM roads leading south of McCamey to the Upton County line into the Pecos County farming area, and the FM road leading from Rankin to Crane, and the order was now fully operative.

Judge Fisher also read a proposal of a San Angelo firm to furnish Firestone tires and tubes to the county at state buying prices. No action was taken by the court.

The group instructed County Auditor J. A. Moore to divide the road bond money amounting to \$1,050,000, 1/3 to the Security State Bank and 2/3 to the First State Bank.

Meeting for the County Board of Equalization was set for July 28th.

Thomas Y. Pickett met with the group for a brief discussion concerning the needs of the county and the budget for the coming year, but no definite plans were set at the time. A later meeting was scheduled.

Jail Holds Thirteen Prisoners; Many Theft Cases

During the past year, the Upton County Jail has had as many as 25 prisoners in it at a time . . . but last week something of an oddity appeared when the records showed that 13 prisoners were in the jail, and all 13 were held on a single charge of theft.

These were no other prisoners in jail at the time, nor on the following day.

Of the various crimes, the charges showed that Ralph Hurry and Robert Bush were arrested in Rankin in a car theft charge.

Greg O'Brien charged with stealing money at a big north of Rankin.

Noel McClure was charged with stealing a pick-up at McCaney.

W. G. Campbell was charged with stealing a coat in a Rankin case.

C. E. Webb was charged with stealing a truck at McCaney.

Robert E. Binnie and Billy J. Hensley were charged with stealing money from a house on Highway 47 near McCaney.

Charles Grinnett was charged with the theft of clothes from the Honey Hotel at McCaney.

Fred H. Bell was charged with the theft of pipe wrenches in the Draper Sprayberry Field north of Rankin.

Howard Little, Oliver C. Ramage and David Lyons were held in connection with the theft of clothes from the Harmon Hotel in Rankin.

Two days later, Little and Ramage were held on for burglary and passing a forged instrument as a complaint from a Rankin merchant.

From the books, it appears that Upton County has its portion of theft charges . . . and also a fine place for the accused persons to stick together while in the county.
