A typical card looked like this: Arithmetic ..... B Geography ..... B-Spelling.....C 

I don't know if Miss Gilbert, the principal, actually wrote those cards, but she took full responsibility. This morning I hear she got up in the Assembly Hall-before all the students-and started writing GRAMMAR with two "a's" on the blackboard 100 times!

high and the competition keen. Entries have been received by the Chamber of Commerce from all over the state. Many cities of the state are represented by entries, but the largest representation comes from colleges and universities from over the state, with girls entered from such schools as SMU, University of Houston, Baylor University, Texas University, Sul Ross College, Sam Houston College, Arlington State College, and San Angelo College.

The revue is being sponsored by the Texas Sheep and Goat Raisers' Association and Auxiliary to present to the public an idea of the new wool fabrics and fashion creations to be afforded them in the coming months. For years wool has been looked upon as a fabric of the higher priced field of clothing, but the object of this Wool Revue is to show the public that the smartest styles in wool can be obtained in the popular priced field.

There will be no charge to the Wool Revue and the public is invited.

It will be a chance to see the loveliest of Texas beauties model the finest of wool creations. Door prizes of several Texas Mohair coats made by Louis Walter Co. will be given to lucky ticket holders. These coats will be the same as the one to be given to Miss Besides this coat, Miss Wool. Wool will be given a complete wool wardrobe valued at \$2,000 and consisting of sport dresses, evening dresses, coats and suits. For years San Angelo has been

known as the world's largest inland wool market. Here is your chance to see the results of the work and cooperation of the rest of the wool industry with the wool producers and marketers or San Angelo.
