VOLUME 28—NUMBER 35

Lions Club Starts Civic Improvement Fund Campaign Here

A fund drive to finance Lions Club civic improvement projects was launched when members of the local club started soliciting donations in a campaign to last two months.

A Zenith television set complete with an AM-FM radio and record player will be awarded Halloween night as a part of the campaign. It was originally announced that the TV set would be awarded on Christmas Eve, but the Lions at their Monday night meeting voted to close the campaign on Halloween.

Among the projects proposed by the Lions Club which is to be financed from such funds is a project to purchase and erect street markers in the City of Rankin. A study of the situation by club members disclosed that a number of people who had lived in Rankin for years didn't know on which street they lived. This makes it almost impossible for any one here to direct strangers to any one's house.

The fund raising drive is in the nature of a "dollar bill" campaign in which each member of the club is participating. When they receive a dollar bill, the donor will receive a card showing the donation. Donations may be made to any Lion.

Lions Finance Chairman L. D. Sipes said that the club was seeking a minimum of \$1,000 in the current campaign.

WCSJ Day Circle Meets At Church

The day circle of the WCSJ met Monday afternoon, Aug. 24, at the Methodist Church for a program and business session.

The program was entitled "United Nations" with Mrs. W. L. Goodwin in charge. Mrs. R. O. White, who visited the UN building during a recent trip to New York City, described the vast building.

The customary devotional was given. Those on the program besides Mrs. Goodwin and Mrs. White were Mrs. Ross Wheeler and Mrs. R. H. Johnson.

At the business session it was decided to serve refreshments to the annual WCSJ Summer Christmas party to be held Aug. 31 at the Methodist Educational Building.

Mrs. Johnson presided in the absence of Mrs. A. B. McGill.

Recruiting Team For U. S. Marines To Be In Rankin

A recruiting team for the US Marine Corps Reserves will appear weekly in Rankin to enlist prospects for a reserve unit being activated in the Midland-Odessa area.

The recruiting team, two Marines each time, will appear at the Rankin Post Office between 1:30 p. m. and 2:30 p. m. each Friday. Those eligible will be high school students and ex-Marines. The minimum age is 17 years.

The newly-activated Marine Reserve unit will drill every other Sunday at the air terminal in Midland.

The Marines announced that details would be available to those interested in Rankin at the above listed time.

GOAT BARBECUE

A Spanish goat barbecue was served to seven guests and their children at a party held Sunday night in the home of Mr. and Mrs. Glenn Hill.

Those attending were Mr. and Mrs. Norman Elrod and children; Mr. and Mrs. Bill McNitzky and children; Leroy Barbee, Mr. and Mrs. Johnnie Haywood and children; and the host and hostess and their children.

Those attending brought additional food and refreshments in covered dishes.

1954 County Budget Hearing Held Monday

Members of the Upton County Commissioners Court sat Monday in a hearing for the county's budget for the 1954 fiscal year.

However, no citizen appeared before the day-long session to contest or view the proposed budget.

3D Is Coming To Rankin Friday; 'Sangaree' At Ford

Three-D movies, Hollywood's newest sensation, will be in Rankin this weekend to treat local theatre-goers.

It is Paramount Pictures' first three-dimensional Technicolor film, "Sangaree," which is based on Frank G. Slaughter's best-selling novel of the same title.

The motion picture version of the book is scheduled to open tomorrow, Aug. 28, at the Ford Theatre for a four-day run.

The film's cast is headed by Arlene Dahl, Fernando Lamas and Patricia Medina.

The story is an intriguing tale of romance and adventure in the Revolutionary War. It is full of all the ingredients found in great films, accentuated in three dimensions.

Cpl. Billy F. Lott In Korea With 25th Infantry Division

With the 25th Infantry Div. in Korea - Army Cpl. Billy F. Lott, whose wife, Betty Jane, lives in McCamey, Texas, is serving in Korea with the 25th Infantry Div. Now the senior American division on the Korea peninsula, the 25th Infantry landed in July, 1950, shortly after the Communists launched their attack against South Korea.

A heavy truck driver in Company D of the 65th Engineer Combat Battalion, Lott entered the Army last March and received basic training at Fort Leonard, Mo.

In civilian life the corporal, son of Mr. and Mrs. Raymond H. Lott, Rankin, Texas, was employed by the Southern Union Gas Co. in McCamey.

Program Materials For Women's Church Groups Available From TU

AUSTIN, Texas.—Program materials for women's church groups are available at the University of Texas Package Loan Library, Miss Imogene Thompson, director, announces.

Other women's groups served by the bureau, a Division of Extension public service unit, include study clubs, parent-teacher organizations, civic groups, discussion groups and forums, garden clubs, art clubs, music clubs and home demonstration clubs.

Study materials for church socials include the following topics: Mission work in various countries, Bible study (history, influence, characters, etc.), religious freedom, relationship of church and family, vacation Bible schools, the value of evangelism, history of the early church in the U. S., circuit riders, etc.; various translations of the Bible, including the newest versions; and the church's influence in international affairs.

"Back To School" Dance Set For Friday, August 28

A "Back To School" formal dance will be the last dance of the recreation program for this summer. It will be held Friday, Aug. 28, in the McCamey Park Building from 8:30 to 12 p. m.

Music will be furnished by "Jelly" Teagarden and his orchestra from San Angelo. A floor show

County Judge G. H. Fisher said the next step would be for the commissioners to accept the budget formally as soon as it is compiled and in order for presentation to the court. He added that a copy would be available to the newspapers for the information of the general public.

Other action taken at the Monday meeting included the sale of the final \$210,000 in bonds of the \$360,000 park bond issue voted on April 25. Bonds totaling \$150,000 have already been sold.

The bond issue was for the purpose of developing a county park water system in Rankin.

Test wells are being drilled in order to determine a suitable drilling location. The No. 1 test well was tested Aug. 13 and had a capacity of 52 gallons per minute. The water was pumped from pay sand at 190 feet. The well was bottomed at over 200 feet.

A second well was tested last Friday showing a capacity of 70 gallons per minute.

Both No. 1 and No. 2 wells were drilled on H. F. Neal property about two miles east of Rankin.

Well No. 3 is to be drilled immediately about 4,000 yards north of the present test well locations.

RANKIN CALENDAR

Thursday, August 27
8:00 p.m. — Rebekah Lodge No. 8 meets at the lodge hall.
8:15 p.m. — Sykes Gospel Singers, Elementary School auditorium. Sponsored by Lions Club.

Monday, August 31
9:00 a.m. — General faculty meeting of the Rankin Public Schools.

1:00 p.m. — Registration of all high school students at the school. Ends at 3 p.m.

7:30 p.m. — Regular meeting of Rankin Lions Club in Park Building.

8:00 p.m. — WCSJ Joint Circle summer Christmas party at the Methodist educational building.

Tuesday, September 1
9:00 a.m. — Classes begin for Rankin schools.

8:00 p.m. — Oddfellows Lodge No. 947 meets at the lodge hall.

Mrs. Johnnie Ruth Gary of Kerrville and children, Wallace and Nancy, were visitors this week in the home of Mrs. Gary's mother, Mrs. W. M. Hill.

Miss Thompson emphasized that no doctrine is included in the package libraries distributed on religious subjects, but all the material is of a general nature suitable for use by all denominations.

The Package Loan Library serves communities which have no local libraries or no full-time librarian. Materials may be obtained through local libraries, which may order from the Extension Library to supplement their own holdings. Borrowers pay only the postage required for a package library's round trip. Contributions are gratefully accepted, however, for improvement of the service.

Lists of suggested program topics for church groups and other organizations may be obtained by Division of Extension, University of Texas, Austin 12.

Rankin Citizen Is Injured In Auto Accident Saturday

William Stephenson, 32, of Rankin, was in the Rankin Hospital this week after sustaining injuries in an automobile accident about midnight Saturday night.

He received multiple bruises and abrasions and a fractured right leg.

The accident occurred on Highway 67 about two miles this side of McCamey when the 1951 Mercury Stephenson was driving over-taken.

He reported that he did not know how the accident occurred. The car was totally demolished. No other occupants were in the car. Stephenson was returning to Rankin.

Both members of the sheriff's department and the State Highway Patrol investigated the accident.

Stephenson's accident Saturday night occurred within a short distance of where he had another accident nearly two months ago when he sustained head injuries when his 1949 Mercury struck another vehicle.

Stephenson has been employed by a Rankin service station.

1,056 Master Masons Registered At Annual Round-Up Last Sat.

One thousand and fifty-six Master Masons were registered for the annual roundup of District 88 Masonic Lodge barbecue on the Hill Top south of Crane Saturday when the main speaker was Most Worshipful Grand Master John McKee.

Dan Lively, assisted by a large number of Crane Lodge members, turned out the best of barbecue from 2,000 pounds of prime beef. The potato salad was made from 400 pounds of potatoes at the school cafeteria by Crane Chapter OES, while P. O. Vines was chef for the pintos.

The parking was directed by mounted chairman Quinn Sharp, with nearly every member of the lodge taking part in some activity to make the convalesce one of the best of hill top meetings.

Worshipful Master Alfred B. Corley of the Crane Lodge opened the session shortly before 8 p. m. Rev. Bob Hawkins, chaplain, offered the invocation and the program followed.

Ernest F. Triplett of Ft. Stockton as master of ceremonies presented George O'Neal of Fort Stockton, who sang a solo and made recognition of all past and present school board members in appreciation of their cooperation with Texas Masonry's support of National Public School Week.

The Most Worshipful Grand Master urged all Masons to review their Masonic vows and support the organization's views by regular attendance at the church of their choice and by clean living.

Worshipful Masters of other lodges attending were:

James H. Loder, Goldsmith; Charlie Sikes, Kermit; F. H. Dempsey, Iraan; Loren Hillger, Ft. Stockton; R. D. King, Imperial; R. L. James, Jr., Seminole; Bob Cook, Andrews; J. B. Richards, Midland; Travis McMullain, Odessa; J. G. Matthews, Odessa; H. G. McFarland, U. D.; Joe Conger, McCamey; Carter Cross, Grandfalls; Fred Canafax, Monahans; W. S. Pigman, Peccs; Franklin McMillian, Wink; J. T. Bushong, Rankin.

M. R. McManigle, Jr., Ill In Odessa Hospital

M. R. McManigle, Jr., son of Mr. and Mrs. M. R. McManigle of Odessa and formerly of McCamey, was admitted to Medical Center Hospital Tuesday with polio.

The youth was admitted Saturday after being ill for several days and is reported to have a light attack, with some delay occurring even in diagnosing the case as actually polio.

Kathleen Wheeler of Dallas visited last weekend in the home of her parents, Mr. and Mrs. H. Wheeler.

About 600 Will Start To Back To School Tuesday

Rankin schools will officially open for the 1953-54 school year on Tuesday, Sept. 1, at 9 a. m., when between 550 and 600 scholars will converge on the local schools for the opening of the fall term.

Buses will run at the same time and over the same routes as at the close of school last year, Mr. Alderdice said.

On opening day the buses will run at 2 2 p. m.

Beginning Wednesday, Sept. 2, school will dismiss at 4 p. m. and the buses will run each day at that time unless it is announced a day ahead of time, he said. Four school buses serve the Rankin Independent School District.

The cafeteria will open for busi-

ness on the first day of school and lunches will be 35c for students and 45c for adults.

Mr. Alderdice requested that all high school students, ninth grade through 12th grades, register for the first term of school Monday afternoon, Aug. 31, from 1 p. m. to 3 p. m.

"This will only take 10 minutes of your time and we urge all high school pupils to be at the school at that time," he said in a statement directed at the high school students.

Prior to the start of school, a general faculty meeting will be held Monday morning, Aug. 31, at 9 a. m.

HOSPITAL NOTES

Andy Mitchell, Rankin, admitted Aug. 16, medical, dismissed Aug. 21.

Concepcion Hernandez, Rankin, victim of a knife fight, still confined.

Mrs. Lucy Galloway, Rankin, medical, admitted Aug. 17, dismissed Aug. 24.

E. E. Mascho, son of Mr. and Mrs. J. L. Mascho, Rankin, received emergency treatment Aug. 18 for electrical shock and held for observation, dismissed Aug. 19.

W. R. Sullivan, McCamey, medical, admitted Aug. 19, still confined.

Concepcion Rangel, Big Lake, received emergency treatment on Aug. 20 for injury in oil field accident, held for observation, still confined.

Geo. Brooks, McCamey, medical, admitted Aug. 21, still confined.

W. R. Stephenson, Rankin, injured in auto accident Aug. 23, still confined.

B. F. Yocham, Rankin, medical, admitted Aug. 23, still confined.

O. T. Beaver, treated Aug. 20 for injuries sustained in oil field accident, received emergency first aid and X-ray.

Ora King, Rankin, oil field accident Aug. 17, received emergency treatment.

Howard H. Dossey Dies On Thursday

Howard H. Dossey, 46, long time McCamey resident, passed away about 1 o'clock Thursday afternoon in McCamey after an illness of several months.

Services will be held this afternoon at 3 p. m. at the First Baptist Church, with Rev. A. L. Teaff officiating, assisted by Rev. W. I. Lee.

Mr. Dossey resided in McCamey for 15 years prior to moving to Goldsmith where he has lived the past four years. He was employed by the Gulf Oil Corp.

He is survived by his wife; one daughter, Mrs. Jack Garner of McCamey; father and mother and two sisters of Bonham.

Interment will be in the McCamey Cemetery with Spalding Funeral Home in charge of arrangements.

Pallbearers will be Dave Wafford, Bernard Boyd, Charlie Whaley, Hershel Conley, Mr. Childress and Mr. Fields.

Old Texas Motor Vehicle Law Replaced By New One Recently

Austin Aug. 27 (Sp) - - The old Texas Motor Vehicle Inspection Law died August 20 at midnight after a somewhat turbulent existence.

The measure, which saw heated debate in the last session of the Legislature, has been replaced by a modified version which calls only for the inspection of auto brakes, lighting equipment, horns, rear view mirrors and windshield wipers. It becomes effective today, but Homer Garrison, Jr., Director of the Texas Department of Public Safety, has announced that the State Public Safety Commission

Hospital Board To Meet September 4; Two New Members

Members of the Upton County Hospital Board will hold their regular meeting Friday night, Sept. 4, at the Rankin Hospital.

Two new members will take their seats for this meeting. They are Bruce McGill of Rankin, replacing J. P. Rankin, and Hollis Huffaker, McCamey, replacing Horace Slaughter of McCamey.

Dunn Lowery of Rankin was re-appointed to a second term on the six-man board.

Adviser board members were B. E. McDonald, McCamey; John Paul Godwin, McCamey, and W. A. Hudson, Rankin.

Local Teachers Get Masters At North Texas

DENTON, Aug. 24—Mr. and Mrs. Robert M. Spence of Rankin are both candidates for the master's degree at North Texas State College.

Commencement exercises for 477 candidates for degrees will be held at 8 p. m. Aug. 28. Two hundred and forty-nine students have applied for the bachelor's degree and 228 have made application for the master's degree.

Mrs. Spence has applied for the master of science degree in foods and nutrition. Spence has applied for the master of education degree in public school administration.

Mrs. Spence is a science and mathematics instructor in Rankin High School and Mrs. Spence is a third grade teacher.

Mr. and Mrs. Leon Lee of Rochelle, Texas, visited in the home of Mr. and Mrs. J. L. Alderdice and family last weekend. Mr. Lee is postmaster at Rochelle.

Mrs. Ann Phillips was in Ozona last weekend visiting her daughter and family, Mr. and Mrs. Jas. Wallace.

Mr. and Mrs. L. Porter Johnson spent several days last week with friends in Leonard, Texas.

has officially set the new inspection period for September 15, 1953, through April 15, 1954.

George Busby, Chief of the Motor Vehicle Inspection Division of the Department of Public Safety, has said that there will be about 3,000 inspection stations ready to operate on the opening date.

"Trained mechanics who are well versed in the new law and its requirements will be set to go, and they will have an adequate supply of stickers and other materials on hand," Busby stated.

Garrison added that he could see no possibility of a "log jam" of motorists at the official inspection stations at any time unless too many people put off getting their autos checked until the last few days of the seven-month period. motorist at the official inspection stations plus last-minute waiting contributed to the long lines and lengthy delays under the old law

?

By BILL MCNITZKY
Managing Editor

Next Tuesday classes for the 1953-54 school session of the Rankin Public Schools will be in Rankin, and business men around town are predicting that business will probably improve over what the summer has had to offer.

And out at the school, the officials there are neck-deep in last-minute preparations. Mr. Alderdice is wading through the problems of in-lane faculty placements and is wearing that harried look which it is said becomes a permanent fixture on school superintendents.

These last-minute preparations seem to be taking a toll of some of our school officials. The story is currently circulating that Joe Scrivner, junior high principal this year is taking on that absent minded trait which is characteristic of many teachers and professors.

It seems that Joe went somewhere a few nights ago and forgot to take his house key with him as he was expecting to return rather late. At his front door he discovered his absent mindedness, and pounded the door until he roused his wife, Mrs. Scrivner, peeping through the curtains, failed to recognize her husband, and called out: "Joe isn't home yet."

"That's okay," Joe replied as he meekly turned away. "Maybe I'll catch him tomorrow."

Upton County's budget was available Monday for the inspection of interested citizens - but no one in the county was interested enough to find out how our officials plan to spend the taxpayer's money for the next fiscal. Not a soul showed up, even to complain about it.

Much has been said in recent years about the lethargy of citizens regarding their governments on all levels - municipal, county, state and national. If the United States of America ever ceases to exist, it will be because of the indifferent attitude of the citizens and the resulting increase of governmental power and bureaucracy. Our national demise won't be brought about by Russia, although Kremlin bigwigs are counting on the "collapse of democracy" just as was Hitler. Our indifference is just what they want in order to eventually bring about our downfall.

What happened Monday at the day-long hearing on the county budget is good example of our civic decay wherein a citizenry cares little about the affairs of our government. But just wait until next year, it being an election year. Watch the sidewalk politicians start squawking about how the commissioners and the county judge have spent the taxpayers' money. Listen to the candidates howl that if they're elected, they'll cut expenses.

It will behoove next year's candidates to keep quiet about the expenditures of the present commissioners court. If a man will have room to complain next year, then why didn't he complain this year when the citizens had the opportunity to appear before the court seeking revisions if they didn't like the budget as it was set up?

In a lighter vein, Doc Adams claims the following story is the truth. He was a visitor to Houston last weekend where he had an unusual experience. He decided to write his wife and went into a drug store to buy some stationery. He approached a female clerk and asked: "You keep stationery?"

The answer: "Well, up to a certain point - then I go wild!"

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

There is growing Washington concern over increased business failures. With more than 700 firms a month going to the wall, failures now exceed 1950 before Korea.

Naturally, there are many differing schools of thought in Washington on this problem. Economists imbued with Big Business reasoning, seek to sell the theory of keener competition, lack of experience or capital is a major failure reason.

C. W. Harder

But facts do not agree. Normally, business failures are due to lack of trade, with retailers hit first. But in the present situation, wholesalers show biggest failure increase.

This is an important fact because wholesalers, by and large, are not shoe string operators. The very nature of the wholesaling business requires considerable capital and experience.

This condition was inevitable. There are two major reasons. One is wholesalers must stock goods made by firms who closely control supply and prices.

But many wholesalers, instead of representing these manufacturers, find they are actually competing with the manufacturers on a different price basis.

Manufacturers are more and more putting in their own retail outlets who buy direct from factories on favored deals, and undersell the wholesaler's own customers. In other cases, big retailers are sold direct.

Sometime ago, in the discount case, Federal Trade Commission National Federation of Independent Business

mission made ruling to eliminate double dealing.

But due to behind scenes shuffle in Washington, this ruling has yet to be enforced.

The other reason is taxes.

Many wholesalers are taking less "take home pay" out of business, yet assets are bigger.

Wholesalers, to do business, keep warehouses filled. Yet replacement stocks keep creeping up in price. This in itself dissipates working capital, but tax situation bites more heavily.

Taxes are assessed on net worth of the business, and actually bear no relation to the amount of liquid cash. Thus, a warehouse stocked with merchandise can be in one tax bracket. But if that stock is sold, and the wholesaler restocks at a 5% price increase, his net worth has increased 5%, which is taxable, even though his cash position has deteriorated.

Then when government failure to enforce anti-trust laws permits the manufacturer who sold the wholesaler to dump goods direct, there is chaos.

In addition, in city after city, warehouse inventories are taxed yearly, even though goods in a wholesale warehouse are actually goods in transit.

It is also significant in heavy percentage of current business failures, a principal unpaid creditor is Federal Government for unpaid taxes.

The problem is serious, but not without solution.

But to forestall the economic Goetha now building up, government officials must quickly recognize true nature of the problem; take immediate steps to correct it.

well as in wet areas.

It is legal for a person who lives in a dry area to transport liquor from a wet area to his home for his own personal use.

If he is carrying more than a fifth of whiskey or a case of beer, however, he may be stopped by Liquor Board agents and questioned. It is then his responsibility to show that he is not transporting alcoholic beverages for sale.

We refer to transportation for sale in dry areas as bootlegging, and we are always after the bootleggers. We are also constantly on the alert for moonshiners, or persons who operate illicit stills.

A great many of these persons are captured and punished, but the practices of moonshining and bootlegging have not been stamped out.

In order to achieve that objective, we need greater cooperation on the part of the public.

As long as there is a profit to be made in bootlegging and moonshining, some persons will risk the danger of arrest and punishment to make that profit.

What I am saying is this: Enforcement is not the complete answer to observance of the liquor laws. It takes education, too—education of the public as to what these laws are and why the citizens have their share of the responsibility of enforcing them.

It is the Legislature's duty to enact laws regulating alcoholic beverages. Recent changes have been made to tighten these laws.

New TU Oil Film Now Available

AUSTIN, Texas.—The University of Texas Petroleum Extension Service has one new film available, and has completed shooting of another.

Ready for use is a 16-mm training film in sound and color, "Handling Drill Pipe, Drill Collars and Tool Joints." Scheduled for release Oct. 1 is "Rotary Drilling Fluids," for which final shots were made in the Texas Gulf Coast oil country late in July.

By VERN SANFORD
Texas Press Association

AUSTIN—If you want to accept the testimony of two observers who expressed themselves here, there is going to be a downturn in business in the immediate future.

That doesn't mean, the commentators agreed, that there is going to be a crash in the 1929 manner.

It does mean that business men are going to sharpen their sales techniques if they hope to get as much business as they have been accustomed to in the last 15 years or so.

One of the speakers was Dr. J. R. Stockton, director of the University of Texas Bureau of Business Research.

Addressing a group of Austin business men, Dr. Stockton advised tightening of the belt and holding on for times that may be a little tougher.

"You won't go broke," the speaker said, "so don't get panicky. You might have to polish up your sales techniques, though. You'll have to get out and scramble a-

gain." Business will be somewhat less active than it has been in the period since 1938, Dr. Stockton said, adding: "We've had 15 years of boom. We are not going to bust but all the signs point to a slight downturn."

As factors indicating the trend, the researcher listed farm income, industrial development and governmental expenditures.

All of those, Dr. Stockton noted, point to a leveling off in business.

"Watch your inventories," the speaker advised his listeners, "and cut down on your credit a bit. If you keep your business on a sound basis, there is no reason for worry."

Also noting the business trend was Senator Lyndon B. Johnson, who said in a statewide broadcast that, while we were not on the verge of another depression, "certain disturbing signs are becoming evident."

Retail business is off in most Texas areas, the Senator reported, and farm income is down 18 percent for the first five months of this year.

Home builders' sales are declining, and automobile dealers are finding it harder to move cars, Johnson said.

His answer to the problem of threatening bad times is to line up the full force of the government.

The Senator is up for re-election next year. He opened an office here and announced that he would do quite a bit of traveling over Texas in the fall.

Senator Johnson's is one of the many political races that will be run next year—but the entries are yet to be posted.

People who try to determine the shape of things to come have their eyes on the Democratic State Executive Committee's meeting at Mineral Wells, Sept. 11.

State Chairman Wallace Savage called the meeting but did not indicate what subjects are to be discussed.

Likely there will be some discussion of National Committeeman Wright Morrow, who supported Mr. Eisenhower for president last year.

National Democratic Chairman S. A. Mitchell, during a visit to Texas, said his committee does not recognize Morrow.

George Sandlin of Austin, secretary of the State Democratic Executive Committee, put it this way: "You never can tell what

might happen when a bunch of Democrats meet."

That's about the way it is—and that's why the politicians have their eyes on Mineral Wells.

Getting back to the political races of next year, and trying to figure out who's going to run for what—the whole thing depends pretty much on what Gov. Allan Shivers decides to do.

And if he has decided, he isn't telling.

Some say the governor will announce his plans at Mineral Wells. But the best guess seems to be that Shivers will keep 'em guessing. There is no reason in that line of thinking. For example: Should the governor announce that he is going to retire after serving his present term, then his influence with any special session of the Legislature, either late this year or early next year, would be lessened.

As it is, Shivers is in a strong position, whether he intends to run for re-election as governor, seek some other office, or retire from public service.

He can afford to wait. But his waiting bevels other prospective candidates who will run for one office or another, depending on what Shivers does.

Prime business at the Mineral Wells meeting will be plan-making on the part of the Shivers group, as opposed to the so-called Democratic "Loyalists" who have already perfected their organization with Byron Skelton of Temple as chairman.

The loyalists seek to regain control of the Democratic party machinery in Texas by overthrowing Shivers and those who, with him, succeeded in giving Texas to Eisenhower last year.

Not to be overlooked in the political picture are the Republicans, who have been working earnestly toward making Texas a two-party state.

Hearings on ouster charges against District Judge C. W. Laughlin of Alice will delve deep into the dark and mysterious politics of that South Texas area where Geo. Parr is reputed to be the big boss.

District Judge D. B. Wood of Georgetown was designated master in chancery for the hearings, which will develop testimony as to whether or not Laughlin should be removed from office.

Twelve South Texas lawyers are leading the effort to remove Laughlin from the bench.

Laughlin's court serves, Starr, Duval, Jim Wells and Brooks counties, where the Parr influence is felt. Parr was a backer of Laughlin at his last election, in which he defeated Sam G. Reams.

Reams is one of many witnesses called to give testimony at the hearing.

E. L. Looney of Austin, originally listed as one of the attorneys for Laughlin, removed himself from the case.

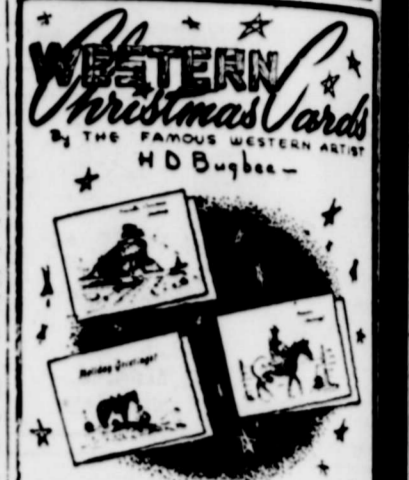

SHORT SNORTS: The state has on hand a balance of \$199,199,868

Hoarseness And Sinus Trouble "Detached Retina" Is Discussed

Ophthalmology is the sum of knowledge concerning the eye and its disease. Otorhinolaryngology is the sum of knowledge regarding the ear, nose, and throat (including the voice box, windpipe and its divisions) and their diseases.

Often these two specialties are combined. As an example, the same physician who treats hoarseness or sinus disease might take care of eye infections or allergies, or other eye conditions.

Hoarseness can indicate something more serious. Any case of hoarseness lasting more than a week deserves a medical check-up to rule out or make possible the prompt treatment of diseases like tuberculosis or cancer. Children who are hoarse sometimes have growths on the vocal cords called "papillomas," which usually can be removed surgically.

People who make incorrect or excessive use of the voice can be subject to hoarseness; terms such as "clergyman's sore throat" and "singer's nodules" in the medical vocabulary are evidence of the frequency with which this symptom occurs. Sometimes public speakers and singers need instructions in the more skillful use of the voice to overcome the tendency toward hoarseness, and resting the voice for a limited or indefinite period may be indicated.

The two general causes of "sinus trouble" are infection and allergy, or possible a combination of the two. Conditions involving the nose (such as colds or hay fever) can spread easily to the sinuses (cavities in the bones of the skull) because the latter structures are offshoots of the nasal passage lined with the same kind of tissue, the mucous membrane. Different sinuses can be involved; there are four sets on each side of the head which take their names from the bone (or principal bone) in which they lie. The number of sinuses in each set may vary in different persons, as may their sizes, shapes, and positions.

Medical treatment for an acute attack of sinusitis (sinus infection) that is severe and runs a relatively short course to drain usually is successful; occasionally surgery to allow the sinuses to drain may be necessary. Operation is more likely to be performed in the case of chronic (longer-lived) infection.

In the field of eye infections and allergies, a couple of new drugs, ACTH and cortisone, which were used first for arthritis several years ago, have proved of definite, if limited, value. They have somewhat similar effects. ACTH is given for deep-seated eye

infections. Cortisone is most valuable in infections or allergies of the front part of the eye and eyelids.

Another recent development in the field of eye disease is in the treatment of a condition known as "detached retina." Surgery has been improved to the extent that the eyesight in many cases of retinal detachment, formerly considered doomed, can be saved.

The symptom noticed most often in this disease is the sensation that a curtain or cloud is being drawn across the field of vision in the affected eye, beginning at one corner and moving across it as the condition progresses. The patient also may notice other disturbances in the vision such as lightning-like flashes or spots before the eyes. Unless treated, detached retina has a tendency to progress until the affected eye is totally blind. Sometimes both eyes are affected similarly within a short period of time.

Although the exact cause of detached retina is not always understood, the condition has been observed more often in nearsighted persons and in those 50 years or older. A severe injury has been known to bring about detached retina; a minor injury is not likely to do so unless the eye is already predisposed toward the disease.

Most brick are red because all clay, regardless of color, containing iron in practically any form, will burn red when exposed to an oxidizing fire. The red can be neutralized and a buff or cream colored brick produced by adding lime to the clay in the manufacturing process.

There is a tide in the affairs of men, which, taken by the flood, leads on to fortune. Shakespeare

HUMANS RISK LIVES FOR MEDICINE

Science can only go so far with rats, rabbits, hamsters, guinea pigs and other assorted laboratory animals. There comes a time when the only reliable testing object is the human animal itself.

Strange tales of humans who are risking their lives to further the cause of good medicine are revealed in the September issue of *Mechanix Illustrated*, now on the newsstands. For science's sweet sake men sleep to have the volume of their snores calculated, have their chests shaved to see how fast the hair grows back and kiss girls of various sizes and coiffures to test their emotional responses. Believe it or not one man even crawls inside Army tanks to measure the shock intensity of an exploding shell!

Thus science learned, for instance, in a recent Colorado experiment, that redheads sent male blood pressure higher during kissing than brunettes and the lighter shade blondes. Medium sized girls beat out the tall ones and short ones trailed in the size test. Of more significance, reports *Mechanix Illustrated*, were the findings of a few months ago when 23 volunteers remained sealed aboard the submarine *Haddock* for fully 60 days at Groton, Conn. The test revealed vital facts which will be used to strengthen the nation's defenses.

Much less known was a quiet, intensely dramatic human test in a prison farm eight miles east of Jackson, Miss. More than 100,000 persons yearly were being attacked in the Southland by the dreaded disease pellagra. Prisoners, with pardon as their reward, took diets lacking proteins and came down with the disease. Pellagra was conquered thanks to the human guinea pigs.

Mechanix Illustrated's September issue also includes a story from the nation's top scientists about the effect of atom blasts on the weather. It features useful tips for the farmer, fisherman, motorist, amateur photographer and home-maker.

Health Officials Make Effort To Improve Public Eating Places

Austin, Texas, Aug. 27, 1953. "Texas health officials are making every effort to improve the sanitary conditions of public eating places, and in addition schools are conducted to instruct foodhandlers. Moreover there are laws, rules and regulations requiring the uses of approved equipment and methods in such establishments. Nevertheless, one of the most forceful influences for sanitation is not being used and this is the public's un-

favorable reaction toward dirty and insanitary places," states Dr. Geo. W. Cox, State Health Officer. "The public cannot do the job entirely, nor can health departments bring about desirable and essential practices without the help of the public. As for hygienic practices, persons serving food and drink should be clean; should not cough and sneeze over the utensils and material served; should keep their hands away from their mouth and nose, hair and face; should handle all utensils by the outside instead of putting their fingers on the inside of service utensils. These are conditions a

person can see, and unless these safeguards are practiced, disease may result."

Also, milk served can be appraised by the patron. Texas law requires that a milk bottle cap state grade of milk and whether it is raw or pasteurized. However if milk is brought to a patron in a glass, he cannot know whether it is from a graded supply or whether it is raw or pasteurized, but if served properly in its original container with covered caps and legal label, the patron can secure from the label, the information he should have before ever being willing to drink strange milk. The patron should note sanitation conditions in food establishments. Are the floors, walls, ceiling clean? Are tables and counters clean? Are pies and other ready-to-serve foods protected from the dust dirt, and flies? Are flies prevalent? 'Be assured that what can be seen as a patron at the table or counter usually will be many times better, cleaner, and safer than conditions in the kitchen and other places out of a sight of the patron,' Dr. Cox warns.

MOURNING DOVE—WHITE-WINGED DOVE OPEN SEASONS 1953

MOURNING DOVES

● OPEN SEASON — NORTH ZONE: Sept. 1 to Oct. 10, both days, inclusive. Shooting hours, 12 o'clock noon to sunset.

● SOUTH ZONE: Oct. 1 to Nov. 9, both days inclusive, except in Cameron, Hidalgo, Starr, Zapata, Webb, Maverick, Dimmit, LaSalle, Jim Hogg, Brooks, Kenedy, and Willacy counties where mourning doves may be hunted only on Sept. 11, 12, and 15, from 4 p.m. until sunset, and from Oct. 1 to Nov. 6 from 12 o'clock noon to sunset.

● BAG LIMIT: Not more than 10 per day and not more than 10 in possession.

● McMULLEN COUNTY: Open Season, State law Nov. 1 to Dec. 15, Federal law Oct. 1 to Nov. 4.

WHITE-WINGED DOVES

● OPEN SEASON: September 11, 12, and 15, inclusive, only in area indicated. SHOOTING HOURS: 4 p.m. to sunset.

● BAG LIMIT: Not more than 10 per day and not more than 10 in possession.

● McMULLEN COUNTY: State law, Nov. 1 to Dec. 15, Federal law, season closed.

SPECIAL NOTE:
 Unlawful to take whitewings or chachalaca south of U. S. Highway 83, formerly State Highway 4, in southern tip of Texas marked on the map as "GAME SANCTUARY."

No hunting permitted in game refuges and game preserves.

Shotguns must be permanently plugged to three shell capacity.

Shotguns may not be larger than 10 gauge.

It's certainly plain to see...

Chevrolet trucks must be the best buy!

This year again—for the 12th straight production year—truck users are buying more Chevrolet trucks than any other make. It's plain to see that Chevrolet trucks out-sell all others because they out-value all others!

For the best buy — buy now!

When truck users show a continued preference for one particular make of truck, you can be sure that preference is based on a single sound reason: *It's the best buy!*

Year after year, truck users in every field show a clear-cut preference for Chevrolet trucks by buying more of them than any other make.

Why not drop in and see why so many more truck buyers choose Chevrolet? You'll find, as they have, that Chevrolet trucks offer more of the features and advantages you want... more solid value in every way... yet it's the lowest-priced truck line of all!

University of Texas To Offer Course In Sanitary Engineering

AUSTIN, Texas. — Training in ways to prevent industrial-waste pollution of streams and other water supplies will begin this fall at the University of Texas.

Texas' rapid industrialization during and after World II has forced into most of the state's streams all the pollution they will take. E. F. Gloyna, assistant professor of civil engineering who will teach the course, said.

He pointed out that further industrialization will depend to a great extent on training expert personnel in latest industrial-waste disposal methods. The new study will be the tenth course in the University's sanitary engineering program, offered through the civil engineering department.

Midland Livestock Auction Sales Report

The market at the Midland Livestock Auction Co. Thursday, Aug. 20, was much stronger and more active with most cattle selling \$1 to \$2 per hundred higher than last week.

Fat calves and yearlings, no choice offered. Medium to good sold at \$15 to \$18; culls and commons, \$11 to \$15.

Choice cows brought \$10.50 to \$12; medium \$9.50 to \$10.50; canners and cutters, \$7 to \$9.50.

Bulls brought \$10 to \$13.

Stocker steer calves sold at \$14.50 to \$18; stocker heifer calves \$14 to \$16.75.

Mixed breed stocker calves and yearlings brought \$10.50 to \$14; stocker cows \$8.50 to \$12.

Cows and calves went for \$85 to \$130 per pair.

Diet Curb Hits Deer

Austin, Aug. 27—Some losses to Central Texas deer herds have been traced to lack of nourishment because of the record drought, according to the Director of Wildlife Restoration for the Game and Fish Commission.

He said the fatalities have been limited to areas missed by scatter-near Austin where upwards of 20 ed showers which have revived many ranges during the last six weeks.

The Director said recent stud-

Make Really Good Fudge Every Time

For you this new fool-proof method for making creamy smooth fudge... it's quick and easy in the old iron spider or heavy skillet. Remember you may use either beet or cane sugar in this favorite home-made candy, for they are the same and produce the same results!

SKILLET COCOA FUDGE
4 tablespoons butter or margarine 1/2 cup cocoa
1 1/2 cups milk 1/4 teaspoon cream of tartar
3 cups beet or cane sugar 1 teaspoon vanilla extract

Melt butter or margarine in large skillet; tip skillet to grease sides well. Add milk and heat to boiling. Add sugar, cocoa and cream of tartar, stirring well with a wooden spoon to make sure all sugar is dissolved. Cook gently without stirring to soft-ball stage (see note) (236°F.); remove from heat and let stand, without moving or stirring, until candy is barely lukewarm (this is important for velvet smooth candy).

Add vanilla and beat until candy becomes creamy and loses its gloss, about 8 minutes. Pour into a lightly greased 8-inch square pan. Cut into pieces while still warm. Makes about 1 1/2 lbs. fudge.

Note: When 1/2 teaspoon boiling syrup dropped into a cup of cold water forms a soft ball which can be picked up but flattens.

For the Divinity shown: Send for your free copy of the booklet CANDY AND HOW... not only this recipe but 10 other favorites including Peanut Brittle, English Toffee, and Panocha. Write to Nancy Haven, Western Beet Sugar Producers, Inc., 2 Pine Street, San Francisco 11, California.

ies had centered around a ranch

Austin where upwards of twenty deer carcasses were found. One stricken buck, a five pointer in the velvet, was taken to Texas A & M where Dr. R. D. Turk, member of the veterinarian staff, observed the animal before it died and then conducted an

autopsy.

The Director said the examination showed conclusively that the deer suffered from malnutrition, brought on in the part because the ranges have been reduced by the drought.

"We find that the deer get their stomachs full but there simp-

Flo Darling DANCE SCHOOL

ENROLL SEPT. 2—12:30-1:00 P.M.—SCHOOL AUDITORIUM
CLASSES BEGIN SEPT. 9

ly is not the required nourishment to sustain them," he explained. "This particular deer's stomach contained semi-dried oak leaves, cedar needles, a little dry grass, a few wild grapes and some native bean seed."

The director said the drought's effects seemed to be particularly noticeable among younger deer such as fawns and yearlings.

One trait of deer that is proving costly during the present dry spell, reported the director, is their tendency not to migrate. "In other words," he related, "they remain in the blighted areas even though better food conditions might prevail, say in a river bottom or other low terrain, within reasonable reach."

One Way To End Bathroom Traffic Jams

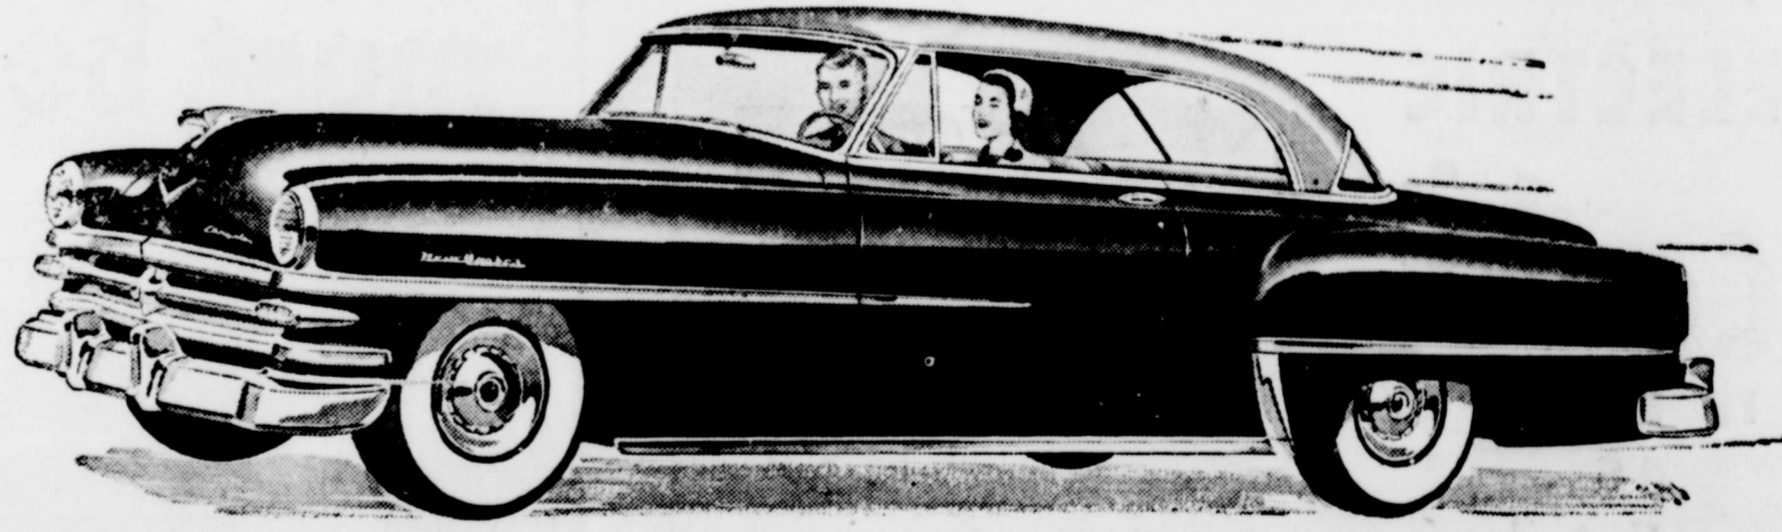

The problem of the morning traffic jam, when everyone in the family heads for the bathroom at the same time, can be solved quite satisfactorily by enlarging the bathroom area and adding additional fixtures.

Such was the purpose in effecting the bathroom modernization shown above. The main bathroom area is planned so that the two powder rooms flank the room containing bathtub and shower combination. By this ingenious arrangement, one of the powder rooms is entered from the master bedroom. The other is entered from a hallway leading to the main part of the house.

The units of this bathroom, while connecting with each other, can be closed off so that three members of the family can use the facilities at the same time in complete privacy. Close grouping of the fixtures so that they share supply and waste piping resulted in important economies of installation. Plumbing contractors have a number of different plans for providing multi-bath facilities to show homeowners interested in making this modernization.

Today's best buy...

...in drive power... styling... safety and control... in true money's worth!

RIGHT NOW, if you are driving one of these new Chryslers, you already know that *near in your entire life* you've invested your dollars more wisely! You possess, and live with, a car of such prestige and quality that no other... regardless of price... can compare with it in basic goodness. You drive a car, right now, which thousands of motorists... who are planning to step up to the Chrysler level... have their eye on and want. For its "years-ahead" engineering. For its delightful, easy obedience to its driver's

directions. For its graceful and gracious beauty in motion and at rest.

You drive the one car that has given American motorists most of the really new driving advantages—first. Full-time Power Steering. Power Brakes. Hemispherical combustion power that extracts more power from each drop of gasoline. Shock absorbers so new in concept that they do twice the job that ordinary types do.

You drive the car that gives you additional fea-

tures, still unavailable or available only at extra cost on most other cars... like Safety-Rim wheels... Independent parking brake... turn signals... Fluid-Matic transmission... undercoating... electric windshield wipers... air cleaner and oil filter.

You drive a car that... or do you? Perhaps you are just in the "thinking stage" about a new car. If so, we invite you to stop in and discover, by driving this great car yourself, that nowhere else will each dollar you spend be so well spent!
