Big Cattle Feeding Operations At Bovina Add to Parmer Farm Income

BOVINA, Nov. 23—One of the biggest cattle feeding operations in this area is being carried out in Parmer county by Triplett and Pringle, cattle feeders and buyers, of Bovina.

At the present time the firm has 7,000 head of cattle grazing on wheat fields in Parmer and Curry counties.

Cost of feeding, rental on the wheat land, and other expenses involve the expenditure of some \$40,000 per month in that area.

Fifteen hundred head of young heifers and steers are now on full feed in the feed lots at Bovina, and will be fed out there before being shipped for slaughter.

Bob Pringle, one of the partners, says that during all the widespread feeding operations during the past five years, there has been no trouble with cattle thieves.

We have learned that good grade Whiteface Herefords do better and yield us better returns than any other grade," Pringle said.

Biggest problem of the firm at the moment is a growing mountain of manure at the feed lots in Bovina, Pringle says he has been unable so far, to dispose of it as fertilizer, and doesn't know what to do with the steadily growing pile.—State Line Tribune.

TULIA SCHOOLS NAME NEW HIGH SCHOOL PRINCIPAL

TULIA, Nov. 23—Sam T. Bryan of Denver, Colorado, has been named principal of Tulia High School, Supt. I. H. Turney announced this week.

Bryan is not a new comer to the Panhandle, having held positions as coach and high school principal at Quitaque, Hale Center, Ralls and Abernathy before the war.

The sweet potato acreage goal for Texas next year has been set at 65,900 acres.

Mr. and Mrs. Jack Kessler, of Bovina, visited his parents here, Sunday.

Another Loud Minority Heard From

A THANKSGIVING VIGIL

A continual prayer vigil is being held in Chicago, as a part of the world-wide program directed by Dr. Frank Lauback, and sponsored by the Layman's Movement for a Christian world.

The object is to enlist three million persons in a crusade for a better world order and for a just and durable peace.

The people of Friona are invited to join in this crusade by pausing for a minute of prayer at 11:00 o'clock on Thursday morning.

Beginning on Thanksgiving morning, the Congregational church bell will be rung each morning until Christmas, to remind people of this prayer vigil and to invite all praying people to co-operate in this spiritual enterprise.

Rev. E. E. Houlette spent last week at Littlefield helping his son, Rev. Ted Houlette.

Friona Girl Has Close Call From Asphyxiation

Betty Ann Stevick, daughter of Mr. and Mrs. Orville Stevick of Friona narrowly escaped asphyxiation Monday night when she was overcome by fumes from a gas stove in the Stevick bathroom.

Betty Ann, 12 years old, had gone into the bathroom, closed and locked the door and closed the window, and lighted a gas heater preparatory to taking a bath.

Other members of the family were alarmed when they heard her labored breathing and called but received no response. A sister crawled through the bathroom window and found Betty unconscious.

She was rushed to the Deaf Smith County Hospital in Hereford for emergency aid.

Mr. and Mrs. Stevick were away from home at the time of the accident.

Mr. and Mrs. H. T. Magness and Mrs. Stanton visited in Farwell, Monday.

Mrs. Coy Bates, formerly of Friona, but now of Amarillo, spent Wednesday of last week here visiting and attending to business.

BUFFALO BAND TO ACCOMPANY GOOD WILL TRAIN

Pictured above are 40 men of the 75-piece West Texas State College Band, which will appear in Hereford Friday, December 6, with the Amarillo Good-Will special train.

Wildorado Man Is Killed

P. T. A. Will Hold Clinic

The Friona P. T. A. has arranged to hold a health clinic at the school building during the early part of December, and Dr. L. B. Barnett of Hereford will have charge of the clinic as medical advisor.

This clinic is being held for the convenience and benefit of all patrons of Friona schools, whose children or any of them, is or may be in need of physical examination or medical or surgical treatment.

The exact date and place of holding the clinic will be announced later.

Artis Fallwell, who has been overseas with the Armed Forces, has received his discharge from the Service and returned home.

George Stowers spent the week end in Memphis, attending to business and visiting.

Mr. and Mrs. Floyd Stowers visited her people at Lubbock during the week end.

Messdames Henry Lewis, Hoyte Smith, and A. A. Crow were visiting in Amarillo, Monday.

Mr. and Mrs. Ed Matlock of Painview, visited here in the homes of Forrest Osborn and Henry White Sunday.

Bill Hadley Buys Witten Produce

A deal was consummated this week whereby Bill Hadley has become the owner of the produce business, that has been owned and operated for the past several months by Mr. and Mrs. R. Whitten.

The new owner has been a resident of Friona for several years, and is therefore well known here.

Mrs. L. R. Whitten, here from Olton, and have won many friends among Friona people since coming here. It is understood that they will return to Olton.

Messdames Henry Lewis, Hoyte Smith, and A. A. Crow were visiting in Amarillo, Monday.

Mr. and Mrs. Ed Matlock of Painview, visited here in the homes of Forrest Osborn and Henry White Sunday.

Speeding Car Plows Through Frame House

O. R. Faust, 60 year old Wildorado garage owner, was burned to death in the wreckage of his own home Monday afternoon after a speeding car, driven by a Kentucky fugitive, had crashed through the wall of his three-room frame house.

Mrs. Faust, who was also trapped in the flaming wreckage, escaped with a broken leg. Their son, Roy, 23, suffered burns and cuts when he attempted to enter the burning house to rescue his father.

Robert May, 23 year old Kentuckian who told officers he was wanted in Kentucky on felony charges, was the driver of the death car. He and his companion, Willie James Shoe, who gave his home as North Carolina, escaped from the wreckage and were arrested when they attempted to flee in a stolen car.

The accident occurred when the 1940 Ford, driven at high speed by May, attempted to pass another car on the highway, went out of control and, jumping the bar pit, crashed into the Faust home.

A kerosene heater in the Faust kitchen exploded, throwing flaming fuel over the wreckage of the frame house.

Mrs. Faust was pinned between the car and the wrecked walls, and was pulled from a flaming house by her son, a friend, Dick Grantham, and two Tucumcari motorists, J. M. Dwight and Bobby Myrich, who were passing the scene when the accident occurred.

A quantity of ammunition in the car exploded and added to the holocaust.

May and Shoe jumped from the wrecked car and began running away. A third occupant of the car, identified as John David Meagher, who said he was a hitchhiker, remained at the spot.

May and Shoe attempted to take a car belonging to G. R. D. Grantham, a Wildorado farmer, but were chased down and arrested a short distance from the wreck.

May admitted that he was wanted in Louisa, Kentucky, on felony charges. Shoe said he was looking for work.

Lady on First Deer Hunt Bagged Her Deer

Mr. and Mrs. J. A. Wimberley just returned Tuesday from a visit to his sister, Mrs. M. M. Riley, at San Antonio.

Friona PTA Buys Books for Library

The Friona P. T. A. is sponsoring the purchase of a number of new books to be placed in the school library and the books have already been ordered, the organization supplying the funds for the cash payment.

The plan is, that the books will be placed at some convenient place of business in the city, and any person desiring to aid the cause of the school library may do so by paying a nominal sum and selecting any one of these books, which will be ascribed to him as the giver or as a memorial.

Each of the books that have been bought have been given the approval of the State Board of Education and strongly recommended for use in school libraries by educators everywhere.

Local Cafe Is Now Opened Under New Management

What was formerly known as "Bill's Cafe", located on 6th Street in the room adjoining the Regal Theatre, and which has been closed for the past several weeks, opened to the public on Wednesday morning.

The new proprietor is Milton (Butch) Blalock, the popular meat cutter at T. J. Crawford's market and "Butch," said only the best of foods will be good enough for his customers, all of which will be properly prepared, and promptly and courteously served.

Mrs. Blalock will have full charge of the cafe and will serve as one of the waiters. Mrs. Della Palmater will be morning and forenoon cook, Mrs. W. C. Norwood, Jr., will be afternoon cook and Mrs. Samuel Sanders will be cook at night.

NOW LIVING AT FARWELL

Mr. and Mrs. Lloyd Brewer are now in their new home, which they recently purchased at Farwell, where they will make their home.

Lloyd is the newly elected County and District Clerk, who will succeed D. K. Roberts, and he will take full charge of the office on January 1.

SEWER SYSTEM

The latest information the Star has regarding the construction of the city's sewer system is to the effect that the city fathers will probably be in readiness to receive bids on the contract shortly after the first of 1947.

E. R. DAY IMPROVING

According to reports received here from E. R. (Emmett) Day, who is in the Deaf Smith County Hospital, he is steadily improving, but it will be some time yet, before he will be able to come home.

Emory C. Burke, president of the Columbians, new anti-Negro, anti-Jew hate organization of Atlanta, Ga., is shown tearing up the organization's charter from the State of Georgia to show that "we don't need a charter to operate."

He's a House Page

Allan Hammond, House of Representatives page boy, gets his leg hoisted during recess at the Washington Ballet School, where he is a student. He made his first formal appearance recently as a supernumerary with the Ballet Russe at Constitution Hall. Lovely girls are Diane Fiane, left, Lucille Collins, Jacqueline Williams.

equal, or perhaps greater, extent with the parents, the home life, and the community influence, as with the delinquent himself.

Since reading that book I find myself wondering whether or not any man should be considered as qualified to sit on the bench of any court where cases of juvenile delinquency are to be tried, without having first read this book or some similar book. I also wonder whether any man or woman should be considered qualified to teach school in any grade above primary, who has not read such a book.

It occurs to me that if each juvenile should be required to take at least a short course of study in juvenile delinquency and if each teacher in the common grade and high schools, and even in the colleges, should also be required to acquaint themselves with the causes of the said juvenile delinquency, it could not help doing a lot of good toward correcting the ravages on society that is being made by this social cancer of juvenile delinquency.

But this would improve the influence of only two or the factors that have to do with removing or, at least, decreasing the effect of juvenile delinquency upon society, and we still have, at least three of the factors of control, to deal with: the parents, the home and community, and as I gather from Prof. Porterfield's book, he has only suggestions to make for handling these three factors, all of which must be good, but are not given as perfect cures for the malady.

As it occurs to me, the first of these factors—the parents and the home—form a sort of combination, since the home is frequently, but not always, very much what the parents make it; but this is not always true, as the home often suffers from circumstances over which the parents have no control, as in the event of the death of one or both of the parents, or through illness or destructive disaster.

In many instances where the home and the parents seem directly concerned, the community is called on for assistance, in checking or removing this social malady, and rightly too, since the community is frequently to blame for its existence and even though this should not be the case, it is just that it should adopt any and all humane measures for its removal, as the community must be and will be one of the greatest beneficiaries from its sure or removal.

But it occurs to me that juvenile delinquency is rather a small matter as compared to what might be politely called "adult delinquency". Take, for instance, the names of John L. Lewis, Caesar Petrillo and a score of others whose names have been flooding the public press almost continuously during the past few years, each one of whom have failed to do the things that were for the good and comfort of society and for the general public economically.

NAVY FIGHTER, MODERN VOGUE

The "Tiny Tim" rocket, a projectile 10 feet long and weighing 1,200 pounds, unmasks a demonstration of the offensive power of the Navy F4U Corsair. The celebration of Navy Day, 1946, focuses attention on a peacetime Navy combining, through the Office of Research and Invention and the Bureau of Aeronautics, ideas and efforts to provide the nation with offensive and defensive weapons of a supersonic age. (OB-114) Navy Photograph.

JATO ASSURES TURTLE RECORD

Official U. S. Navy Photo
* Official Navy photographers made a pictorial record as the Truculent Turtle, a Lockheed Neptune P2V land based patrol bomber powered by two Wright Duplex Cyclone engines, took off from Perth, Australia, in October to establish a nonstop record of 11,236 miles to Columbus, O., in 55 hours and 18 minutes. Com. T. D. Davies, of Cleveland, O., ordered the plane equipped with four Jato units (jet assisted take-off) which enabled him to take off with a 85,500 pound load, the greatest load ever airborne by a two-motor airplane. The above pictures show the Turtle taking off at Perth. It had Jato units, manufactured by the Aerojet Division of The General Tire & Rubber Co., attached to both sides of its rear fuselage, and with each unit developing thrusts equivalent to 330 hp, the big bomber was helped to rise easily into the air for its record-breaking trip. Ascent of the plane is quickly ascertained by noting the trees in the right of the pictures. "The biggest thrill of the trip was the takeoff," Com. Davies readily admits. "After we were airborne the record distance was assured since we had gasoline enough to fly at least to Bermuda."

even bringing distress to innocent people who had nothing to do with their grievances, whether real or imaginary, yet not one of them has ever been haled into court to answer to a charge of delinquency. Neither have they been haled into court charged with any crime.

True there is a difference between delinquency and crime, delinquency being a failure to DO that which is good for society, and CRIME consists in DOING that which is harmful to society. Just which of these terms would most correctly apply to the men referred to in the foregoing paragraph, I shall not say, but it occurs to me that they may justly be charged with both. Yet they have been charged with neither, though they have practically defied the mandates of their own government. Can someone tell me why?

But what gets under my hair

THE REAL LESSON

Which we ALL need to learn is that taught in the old MAXIM: "Never put off until TOMORROW, that which you can do TODAY." Nearly all Tractors, Trucks and Combines will need some OVER HAULING, REPAIRING OR ADJUSTING before the rush of SPRING work comes on. If we ALL wait until we NEED these Machines before we bring them in, then SOME OF US WILL HAVE TO WAIT LONGER. Why not bring them in NOW AND THEY WILL BE READY FOR YOU, WHEN YOU ARE READY FOR THEM.

WE ARE PREPARED TO GIVE YOU SERVICE

Reeve Chevrolet Co.

But that was a splendid sermon I heard Sunday. It was a Thanksgiving sermon, and I have never heard a better one. And have you read the article in the Reader's Digest, entitled "Why a Scientist Believes in God." I believe you will like it, even though you may be an atheist.

"Most important men have their 'Uriah Heeps,' and many of them have their own 'Witch of Endor.'"

A Reminiscence
It is Monday, November 25, just three days before Thanksgiving Day, and it is snowing, just as it did at just about this time of the year away back in the late "teens," as near as my memory can place it, in the fall of 1917, though that may be wrong, but anyway, in the year I have in mind, it snowed just a day or two before Thanksgiving Day that year, and was melting rapidly on that day, but it was not a good day for hunting rabbits, for the sun shown too brightly and the snow was too deep.

But that first snow was scarcely gone when another fell early in December, which lasted until about the middle of December and was not all gone when another came and from that time for seven weeks straight, on until well up in February, the people here did not see the ground again. Snow followed snow in swift successions, and during those seven weeks, hovered pretty close to the zero mark, and it was only on the warmer days and when the sun shone brightly, that the snow melted any.

The summer of that year had been a poor crop year, and as a result very little feed had been produced and much that had been grown was still in the shock in the field, there was comparatively little farming done here then, but everybody had cattle and had been depending on "grass-all-winter" and cotton seed cake to carry their cattle through the winter, thus they were caught unprepared and as a result within a very short time cattle were dying by the hundreds all over this territory, from both poverty and exposure to the severe cold weather.

And this awful loss of cattle life continued throughout the seven weeks of snow, regardless of the fact that train loads of feed were shipped in almost every day, and this feed came in the form of anything a cow would eat, such as hay of all kinds, wheat and oat straw, corn husks, cotton seed hulls, maize pummies and such like.

The death rate among the cattle was so great, that "skinning teams," usually of two men each were organized, who went out into the pastures and fields and skinned cattle all day long, day after day. These hides were brought to town by the wagon load, weighed in the bulk and shipped by the carload, so abundant was the supply.

That was a severe blow to the cattle industry in this territory as all cattlemen were hurt, and many of them were totally wrecked financially and many of them failed to recover from the blow.

As was stated above, it is snowing and is but a few days until Thanksgiving. A certain amount of snow is beautiful and is good for the country, but here is hoping that we may not, this winter nor ever, have a snow so destructive of livestock life, and so fruitful of financial disaster as the one briefly described above but there is one thing

Quintuplets Mark Birthday

The world's only living quintuplet calves look fat and healthy as they pose for pictures at age one, just before shipment from Fairbury, Neb., to the Grand National Livestock Exposition at San Francisco, Calif. At birth they averaged only 32 pounds, but now they average 600. The girls and five cakes make the birthday picture complete.

They'll Lead Majority in Next Congress

Rep. Joe Martin of Massachusetts, third from left, who will become House Speaker when the Republican-dominated 80th Congress opens, talks at Washington with three Representatives competing for the important post of House Majority Leader: Rep. Thomas A. Jenkins of Ohio, left, Rep. Clarence J. Brown of Ohio, Martin, and Rep. Charles A. Halleck of Indiana, who directed the GOP's congressional campaign.

Summerfield Study Club Has Program

"The Peacock Sheds His Tail" was reviewed for the Summerfield Study Club Thursday afternoon when the club met in the home of Mrs. Jim Clark. Mrs. O. B. Sumner reviewed the book. In connection with the book review Mrs. Clark also discussed "International Marriages."

Mrs. Lynn Powelson told of the Ex-appropriation of Oil in Mexico.

The next meeting will be held with Mrs. Lee Curry on December 5. Refreshments were served to Mesdames; Jim Clark, Brit Clark, D. C. Walser, C. R. Walser, Chas. Noland, J. E. Larrick, Ray Johnson, Lee Curry, L. L. Cannon, L. B. Lookingbill, L. H. Lookingbill, Kenneth Nell, Earl Lance Sr., Guy Walser, Walk Boston, Mack Noland and Lynn Powelson.

Lost! use the CLASSIFIED

about our Panhandle weather—it rarely repeats itself—it just usually overdoes itself. And here's hoping for a good winter.

From where I sit ... by Joe Marsh

A Lesson In Conservation

We were sitting on Bill Webster's porch the other night, chatting over a glass of beer—when the talk turns to forest preservation, soil erosion, and other things that affect a farming community.

From where I sit, the Judge is right. All America's great resources, our abundant natural wealth, are lost the minute we lose the right to work them as free people in a free land!

Whenever you see or hear of an encroachment on our rights—whether it's the right to free speech, or the right to vote as we see fit, or the right to enjoy a friendly glass of beer in licensed, law-abiding places... watch out!

Joe Marsh

Veterans Interested in Purchase of Lands Under New Amendment Urged Report Names

All Texas veterans of World II who are interested in purchasing farm or ranch land under the "Veterans Land Bill," which was approved on November 7 as a Constitutional Amendment, are urged to get in touch with Ralph Smith, county Veteran's Service officer.

In a letter from Bascom Giles, commissioner of the General Land Office, this week, Smith received a request to forward the names and addresses of all local veterans interested in the land purchase to the State Land Office.

"I think it well to point out," Giles wrote, "that because this amendment (the Veterans Land Amendment) was not self-enacting, it will be necessary for the 50th Legislature, convening in January to pass enabling legislation outlining the duties, policies, and procedure of the board and its operation. Until this has been done, the Veterans Land Board will have no authority to purchase surplus federal lands, to prescribe methods of sale.

"When this has been done, it will be the policy of the board to move toward consummation of the program as rapidly as possible. In order to save time to be as informative at that time as possible, it will be deeply appreciated if your office will continue its splendid cooperation by forwarding to this office the addresses of all veterans interested in this program, so that when this information is available it can be dispatched to them directly."

The Veterans Land Board, to which Giles refers, is composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. When the newly elected officials take office on January 1, members of the board will be Governor Beauford Jester, Attorney General Price Dunlap, and Land Commissioner Giles.

Giles stated, in his letter to Smith, that he "plans to follow original suggestions to the Legislature to include the provisions that some 10,000 tracts be put up at the first sale; that purchase be made on a competitive sealed bid basis, and that purchasers be permitted to pay as little as ten percent down, with 40 years to pay the balance."

The amendment authorized the Legislature to set up a \$25,000,000 revolving fund to finance the purchase of Texas farm and ranch land for re-sale to the state's veterans.

Maximum purchase by any one veteran is limited to \$5,000 in amount, and one tract. Tracts are not to exceed 2500 acres, and will range from 50-acre farms to 2500-acre ranches.

Purchasers will not be required to homestead the land, and can sell it immediately if they so desire. A 7-8 mineral fee interest on sulphur, and 16-16th mineral fee interest on oil and gas will go with the title to the land purchased, the state retaining the remaining fractional royalties. The program is set up to run over a period of 8 years from the

official end of the war. Land acquired will be Federal surplus real estate, of which there is an estimated 850,000 acres in Texas; prison and other state-owned lands, 500,000 acres of the 1,500,000 acres of public school lands, and such other pri-

MARKETS

Cattle led the gradual upward swing of prices for sheep, eggs, peanuts, wheat and barley at southwest markets last week, according to USDA's Production and Marketing Administration. However, cotton took another tumble, turkeys and sorghums dropped sharply and hogs declined. Other products remained about steady.

Last week saw turkeys drop to a level below that of last year at this time as demand continued to drag. Prices ranged from 23 to 25 cents per pound for young toms. Young hens held a stronger position at about 10 cents per pound higher. Demand strengthened for good fat hens at 22 to 25 cents per pound. Fryers moved fairly well at 37 to 40 cents per pound. Also, eggs went up under increased holiday demand for light supplies. Current receipts were quoted from 42 to 45 cents per dozen depending on the market.

Cotton dropped below 30 cents per pound at some markets last week for the first time since the mid-October collapse. However, activity increased and demand was strong. Moderate offerings of Colorado onions and potatoes moved slowly at dull to slightly weaker prices last week. Also, south Texas citrus and vegetables met with slower demand than the previous week. Tomato prices were off about 50 cents per crate from Monday. Grapefruit prices were lower too but peppers and oranges held about steady. Louisiana and Texas sweet potatoes remained firm.

Southwest peanut harvesting was nearly over last week. Prices received by growers for farmers' stock peanuts ranged from the CCC support schedule to \$15 per ton higher. Wheat and barley gained about a penny a bushel last week, oats and white corn remained about steady, but yellow corn moved downward and sorghums lost about 20 cents a hundred. Feeds continued mostly easy with further declines in shorts and oilseed meals.

Demand for domestic wool was still limited to filling in orders in the process of manufacture. Sales of Texas wools consisted largely of scoured descriptions and some small lots of grease wool. Nearly all fall Texas Mohair was sold. Prices were 62 to 63 cents for adult mohair and 72 to 73 cents for yearling hair.

Southwest sheep and lamb markets reported steady to firm prices for top quality stock but slightly lower prices for common and medium grades. San Antonio quoted medium and good lambs with No. 1 and 2 pelts at \$16.50 to \$17 per hundred and common and medium ewes \$6.75 to \$7.25. Fort Worth moved good and choice fat lambs at \$20 to \$21 and medium and good ewes \$7.25 to \$8.25. Good and choice lambs brought \$22 to \$23 at Denver and \$21.50 to \$22.50 at Oklahoma City.

Hog trading was slow last week with most markets registering losses of 25 to 50 cents per hundred pounds for slaughter grades. San Antonio reported about the only gains. Friday's prices for top butchers were \$25 per hundred at San Antonio, Ft. Worth and Oklahoma City; \$24 to \$24.25 at Wichita and \$24 to \$24.50 at Denver.

Steady to stronger prices and moderately active trading ruled southwest cattle markets last week. However, some cashness showed upon lower grade beef cows and calves. San Antonio sold common and medium gross steers at \$11 to \$12 per hundred pounds and common and medium cows \$9.75 to \$13. Common and medium steers and yearlings brought \$12 to \$15 at Houston and \$12 to \$18 at Ft. Worth. At Oklahoma City good beef cows reached \$17 and medium and good beef steers and yearlings sold at \$15 to \$22. Common and medium cows realized \$10.50 to \$13.50 at Wichita and \$11 to \$14 at Denver where a few loads of good fed steers sold at \$20 to \$23.50 per hundred.

Motley County Is Planning New Court House Building

MATADOR, Nov. 23 — Frank Beauford, architect with the firm of Wyatt-Hendricks, Fort Worth, has been employed by the Motley County Commissioners Court to design the new Motley County Courthouse. Voters of Motley County approved a \$175,000 bond issue last year for construction of the new county seat building. County Commissioners, however, have announced that construction of the new building will not be undertaken at the present time. It is probable that construction will not be started for one year or more.

Turkey meat consumption is becoming less seasonal, as a larger proportion of birds are being consumed in the "off-season"—February to August. Studies conducted by the U. S. Department of Agriculture show that pure 2, 4-D does not harm milk cows.

Good Feeding is Secret of Success In Dairy Production, Says Gibson

COLLEGE STATION, November 24—Dairy cows will do their part if the dairyman does his. That's the slogan of high dairy production, says G. G. Gibson, dairy husbandman of the Texas A. and M. College Extension Service. Regardless of how "good-natured" a milk cow might be, her production level still depends upon two things — natural ability to produce and opportunity to produce. Inherited ability is fixed and there's not much to be done on that score. But every good dairyman realizes that it is his job to make conditions favorable for his cows to produce to the best of their ability. After he does that, and if he does it right, the milk cow will meet him more than half way.

NAVY WEAPONS OF TH

The first peacetime Navy Day in five years emphasizes preoccupation with scientific advancement as a means of the security of the nation it fought to insure between Pearl V-J Day. Highlighting the development of offensive air weapons and devices accelerated by World War II are such as the "Gloomb," "Gordon," and "Gargoyle," heraldic sonic age in which only the mind of man can match the deadly creatures his genius has conceived. Largest motor is the "Gloomb," or glider-bomber (above). The LB-5B vision-controlled aircraft which will stand 300 miles an hour. (Official Navy Photograph)

three parts, by weight of a protein supplement. This same mixture is suitable for feeding along with low protein roughages for cows that don't eat as much as they should. This means that more pounds of grain must be fed to make up the difference. Where there is an abundance of high protein roughages such as alfalfa or good small grain pasture, a 14 percent concentrate mixture is adequate. This can be mixed by using ten parts of home-grown grains and one part of a protein supplement. For Jerseys, one pound of milk grain to three pounds of milk

produced daily is the cow is eating roughage. Holstein milk when it is more than this in order good production the cow is not get value from the ration as the cow's.

MAGAZINES ... The Ideal Christmas

Dear Friends:

Again this year Christmas shopping prove severe headache. Many suitable gift items lying from store shelves. I feel, therefore, I want to know how you can actually sit in your home and finish every last bit of your shopping—without stirring from your chair.

MAGAZINES! Yes, everyone is turning subscriptions this year to solve their Christmas problems. Just think of it—no rushing; no wrapping—in fact, no problem at all!

Just write down the names of the magazines you intend to send Christmas Gifts. The magazine for every name on your list, too, order a good magazine for you. We have made your selections, mail your order. You don't have OFFICIAL PUBLISHERS of the magazines you select, I'll send you the order.

A colorful gift card will be sent, in your name, to arrive in the Christmas mail. Or, if you prefer, Christmas cards will be sent to you so you can give the Christmas tree.

Don't delay! There's a boom in subscriptions and if your gift order is late the publisher is unable to mail first copies until well after the year.

Yours for quick, easy, economical shopping
MARSHALL DEAN
Black, Texas.
P. S. — I'll deeply appreciate your newspaper. The special price now in effect for The Am News is: One year (renewals only) \$10.95. Times—1 year \$4.—New subs. accepted.

WE ARE READY TO GO!

But we will stay RIGHT HERE. But we ARE GOING to be ready to SERVE YOU WITH THE NICE THINGS YOU WILL WANT FOR CHRISTMAS.

We have not been able to get TOO MANY of these things, so it will pay to be prompt. Here are JUST A FEW of the many nice things:

FLOOR LAMPS — TABLE LAMPS — TRICYCLES — SKOOTERS — HASSOCKS — MAGAZINE RACKS — END TABLES — DESKS — GLASS WARE — QUEENS WARE AND TOYS, TOYS, TOYS!

COME IN AND MAKE YOUR SELECTIONS EARLY

Summerfield

BY MRS. GUY WALSER

School dismissed today (Wednesday) for the Thanksgiving holidays. Pupils and teachers enjoyed a Thanksgiving Dinner at the schoolhouse. Mrs. Earl Lance, Mrs. L. L. Cannon, and Mrs. Lee Curry furnished hens for the dinner.

Mrs. Tandy Legg and children, who have been driving from their home near Hereford, stayed here last week-end and plan to stay when the weather is bad.

Mr. and Mrs. Luther Foust and Walter of Plainview spent the weekend in the Lee Curry home.

Rev. Ralph McLean attended the Workers Conference at Oklahoma Lane last Thursday.

Mr. and Mrs. Ky Lawrence returned this week from Hot Springs, N. M.

L. J. Clark, who is going to school in Lubbock, spent the week-end recently with his parents, Mr. and Mrs. Britt Clark.

Mr. and Mrs. Fred Smith and baby of Amarillo spent a few days in the home of Mr. and Mrs. Frank Huckert.

Mr. and Mrs. Henry Behrends and family enjoyed a visit from their son and brother, Private Clarence Behrends of Fort Eustis, Virginia, last week. He is being transferred from Fort Eustis to Camp Stoneman, California.

Eighty-nine persons attended church and Sunday School Sunday morning. Several visitors were present.

Mr. and Mrs. Henry Behrends and Ethel and Miss Sylvia Behrends of Dimmitt and Clarence Behrends were in Amarillo Saturday.

Mrs. C. R. Waiser, Mrs. Jim Clark and Mrs. D. C. Waiser were Amarillo visitors last Tuesday.

Mr. and Mrs. Guy Waiser and family spent the Thanksgiving holidays with her sister, Mrs. Pat Morse and family, at Fort Worth. They also took Donald to Dallas for medical observation, and visited the M. D. Rexrode family.

Partly owned land as the Board may choose to purchase.

The amendment was passed in a special election on November 7, getting a fair majority vote over the state.

Wants Operation

David Ruge, 18, Chicago, is on four years' probation as result of threatening to kill his employer's daughter unless he was given \$1000 for a plastic surgery operation after schoolmates nicknamed him "Monkey Face."

Canyon Planning New Municipal Airport Project

CANYON, Nov. 25 — Revised plans for a new municipal airport for Canyon have been presented to the Civil Aeronautics Administration at Big Spring for approval. Mayor W. A. Warren has announced.

The county and city have completed arrangements for securing land on which the airport will be located. Land has been purchased recently east of Canyon for the new airport, and for the location of the National Guard Company which will be activated in Canyon.

It is believed that tentative approval will be made by CAA as soon as the plans are presented, Warren said.

at Tullia Will Turkey Day Battle

Light in District 1 and 2 this week is fonger Field, where the Tullia Hornets, Dis- s, will meet the District 2-A title holders Champions, the Phillips Blackhawks, in game tomorrow.

t the Hornets have lost one game this an early-season 20-6 set-to—fans are battle when the two teams tangle in p fight.

20. After their slow start, they came back to roll over the Du- mas Demos 26-6 in the conference opener, then dropped a tough 20-14 decision to the Can- yon Eagles.

Since then they have run up a string of successive victories, defeating Dimmitt 33-14, the Amarillo Yarnigans 32-0, Friona 24-0, Dalhart 27-6, and Hereford 14-13.

Game time will go 2:30 o'clock at Younger Field in Tullia.

Spring Football Training May Be Out in Texas

AUSTIN, Nov. 25.—It will be up to the individual conferences in the University Interscholastic League football training, Rodney J. Kidd, athletic director, has announced.

Schools will vote by confer- ences next April on whether to eliminate the spring training, and substitute opening fall practice this school year. Mr. Kidd said, but the rule will be in ef- fect for the 1947-48 session for schools in conferences accept- ing the new plan.

The recommendation to elimi- nate the spring training was made by the League Advisory Council at a meeting early in November, and it was approved by the State Executive Commit- tee at a later session, Dean T. H. Shelby said.

NAVY BOOSTS ELECTRONICS

Navy Day, 1946, heralds a new step forward in the United States Navy's expansion of its electronic development program, which is designed to equip it as a Guardian in Peace, just as electronic progress enabled it to emerge a Victor in War. The Bureau of Naval Personnel has announced that, beginning November 4, 1946, the basic course of Electronic Technicians' Mates and Aviation Electronic Technicians' Mates will be broadened from 30 to 42 weeks under a program aimed at filling 7,989 billets now open in these ratings. There are more than 3,700 different types of modern, complex electronic equipment aboard ships of the Fleet, in Navy planes and at shore stations. Photo shows advanced students at the ETM school in Anacostia, Washington, D. C., using an oscilloscope, a device for demonstrating the functioning of electronic equipment. (Official Navy Photograph)

Panhandle Drops To Class B Grid League Next Year

The Panhandle Panthers of District 2-A, one of the strong- est teams in their district this year, will drop back to Class B football league next fall, accord- ing to reports from Panhandle.

Reason for the drop in classi- fication is the fact that enroll- ment in Panhandle High School this year has dropped below the minimum required for compe-

Gray and Yellow

This casual coat and dress en- semble—recommended in bright yellow and soft smoke gray— has two large patch pockets to accentuate the hipline and tiny waist of the jumper-top dress. The tweed coat features a full sleeve, tight waist.

High School enrollment dropped below the 150 mark this fall. Class A schools are those with high school enrollment be- tween 200 and 500. Schools with enrollment between 150 and 200 may be voted into the Class A. Conference by members teams, but when enrollment drops be- low that minimum figure, the classification is automatically dropped.

Floydada, Spur Battling for District 4-A Title Tomorrow

While Phillips and Tullia are fighting it out tomorrow for the bi-district championship of the western half of Region 1-A, a first-class district championship battle will be going on down in District 4 at Spur between the Spur Bulldogs and the Floydada Whirlwinds.

The Wellington Skyrockets are already safely on top of the heap in District 3, and will play the winner of the Floydada-Spur game in a bi-district battle for the championship of the east half of the Region, with the winners meeting the victor in the Tullia-Phillips tilt for the Regional Championship.

The Bulldogs and Whirlwinds are both undefeated on confer- ence play. The Whirlwinds have lost one game this season, a 26-13 defeat at the hands of the Crow- ell team in the season's opener; and the Bulldogs have lost two non-conference games, drop- ping one to Hamlin 26-7 and the other to Munday, 13-0.

The Whirlwinds invaded Dis- trict 1-A only once this season, defeating the District's co- champion Tullia Hornets 7-6 in an early-season appearance.

Wellington's Skyrockets are undefeated this season in con- ference competition.

Lubbock Symph. Opens Season on December 17th

LUBBOCK, Nov. 25.—The Lub- bock Little Symphony will open its season of four concerts on December 17, when Myron Tay- lor, professor of voice at North Texas State College, Denton, and a noted concert tenor, will ap- pear with the orchestra as guest artist.

Taylor is a former Metropoli- ton Opera artist, and has made a number of concert tours in the southwest. He will appear at Lubbock following a series of ten concert engagements in New Mexico.

He will sing with orchestral accompaniment and piano. Miss Doris Kolb will be presented with the orchestra in the first movement of Mendelssohn's G Minor Concerto.

In addition, the Symphony concert will feature Christmas music, and Tchaikowski's Nut- cracker Suite.

On February 12, Lois Banner- man, outstanding harpist, will appear with the orchestra as guest artist, and on March 25, Mrs. Lewis N. Thomas, soprano, will sing. The final concert will be heard on April 29, when the Symphony hopes to present Jean Watson, Canadian contralto.

Buffaloes Wind Up Season In Victory Over Tempe State

Playing on a mud-soaked gridiron, the West Texas State College Buffaloes wound up their 1946 football season at Tempe, Arizona, last Saturday with a 7-0 victory over Tempe State's Sun Devils.

The final Border Conference game wound up the season for the Buffs, and permitted them to salvage a 500 average out of what started out to be a disas- trous season.

The Buffs had lost three straight games when Basketball Coach Gus Miller took over the team following a drastic shake- up in the Athletic Department which bounced Athletic Director Al Baggett, Head Coach Windy Niklaus, and Assistant Coach Leslie Van Meter out of their jobs.

Under Miller, the Buffaloes have won five of seven starts. The West Texans ran up a total of 14 first downs to Tem- pe's three Saturday, but went scoreless for three quarters of the game as Montgomery, Tem- pe end, sent booming punts downfield time and again to get the Sun Devils out of trouble.

The Buffaloes scored finally in the last period after an 80 yard drive with Greenfield making the last yard for the counter. Melton added the extra point.

With the grid season over, Buffalo Cagers are preparing for their season's campaign. The first home games will be with Texas Wesleyan at Canyon on December 6 and 7. However, with an overflow of students on the campus, few tickets will be sold to non-student fans, since Bur- ton gymnasium will be taxed be- yond capacity by collegians.

Farmers in the U. S. spent about 4.3 billion dollars for the operation and maintenance of power and machinery in 1945.

Tech Raiders To Meet Cowboys at Abilene Saturday

LUBBOCK, Nov. 25.—The Tex- as Tech Red Raiders will be at- tempting to protect a record of not having lost to the Hardin- Simmons Cowboys on the grid- iron since 1932 when they jour- ney to Abilene November 30 for the closing game of the year for both clubs.

Tech, since it began meeting Hardin-Simmons in 1926, has won six games, lost three and tied two. Victories include 19-6 in 1927, 6-0 in 1931, 7-0 in 1933, 13-0 in 1934, 9-0 in 1935 and 7-0 in 1941. The Cowboys won 19-0 in 1928, 21-0 in 1929 and 13-12 in 1932. The first game, in 1926, was a scoreless tie, as was the 1942 game.

Expected to be at stake in the November 30 encounter will be an invitation to the Sun Bowl, which annually seeks to present the Border conference champion against a selected rival. Bowl officials have said it will be Tech or HSU as the host team.

Tech's line has gained a repu- tation as one of the best de- fensive outfits in the Southwest. The Hardin-Simmons attack has brought national recognition to Little Doc Mobley, the nation's leading ground gainer, and to Halfback Al Johnson, who has had no passes intercepted this season. Fans expect one of the most colorful battles of the year for both teams. A crowd of up- wards of 12,000 is expected to pack the Abilene municipal sta- dium to witness this game.
