COMPANY FORESEES LARGE GROWTH FOR WEST TEXAS

WTU Announces Plans For \$51,000,000 Expansion Outlay

West Texas Utilities Company today announced plans to spend an estimated \$51,000,000 during the next five years for construction of new electric facilities in West Texas. Cal Young, WTU President, said the company's expansion plans were based on recently completed surveys and studies which indicate that West Texas will greatly increase its use of electricity by 1961.

New generating equipment for WTU, including one new power plant, is expected to cost over \$22,500,000 and will increase by more than two-thirds the company's system generating capability.

WTU plans to spend almost \$15 million during the next five years for the construction and improvement of distribution facilities. Another \$11,500,000 has been allocated for the building of new high voltage transmission lines connecting WTU power plants and load centers. The remainder of the planned expenditures will be used primarily for general construction and improvement of WTU facilities.

"Electric power undertaking this comprehensive construction program is indicative of our continued confidence in the future of the area we serve," Young said. "We are determined to do whatever is necessary to maintain a dependable and adequate supply of economical electric power for the anticipated industrial expansion of the area as well as for the expected increase in requirements of our domestic and commercial customers."

Since 1946, the number of electric customers has increased 43 per cent from 72,860 to 104,000. The peak load has more than tripled, increasing from 73,400 kilowatts to 243,555 kilowatts. During the decade, the company's generating capability has almost tripled increasing from 88,180 to 250,500 kilowatts.

Estimates of future growth indicate that by 1961 the peak load will increase to 366,000 kilowatts. The new generating facilities covered by this five-year construction program will add 170,500 kilowatts to the company's system generating capability.

The increasing of generating capability is only one part of providing electric power. Transmission lines, substations and distribution system must be expanded and increased in size, capacity and quantity in order to get electricity to towns and customers.

To supplement and strengthen the present 2,652 miles of high voltage transmission lines serving west Texas, WTU plans to have in operation by 1960 a continuous 138,000 volt transmission line from the Oklahoma border near Quanah to San Angelo and another 138,000 volt line from the Rio Pecos plant at McCamey to Val Verde County in southwest Texas.

Mrs. Bill Nix and Mrs. Mary Pierce spent the week end in Pipe Creek, Texas with Jno. R. Johnston, who returned with them for an extended visit. Mrs. Johnston is a former resident of this county, and her late husband was the owner of the first mercantile business in Rankin.

Mrs. T. C. Brown of Lake Jackson Texas visited with her sister and brother-in-law Mr. and Mrs. Linton Clark.

COURT HOUSE SETTLEMENT

There is good reason to believe that the courthouse election contest will be settled shortly.

Reliable information says that the McCamey men who filed the protest and the Rankin group who banned together to defend the election are near agreement whereby some \$200,000 will be set up for work on the courthouse and around \$25,000 for a sub-station for McCamey.

Naturally, any such agreement reached between these parties would have to meet with the approval of the commissioners court since they are the ones who will be spending the money. Just what the court will do on the matter remains to be seen.

LETTER FROM LYNDON

We print the following letter from Senator Lyndon Johnson to prove that weekly newspapers, even in these times of TV, big dailies and radio stations, are still the work-horses of the so-called "grass roots" voters. You can bet that the Rankin News will be sent to the Senator and that he will have our full authority to enter any or all of it in the Congressional Record.

Dear Friend:

Some of my friends in Texas see to it that I receive a large number of weekly newspapers from down there and they are the best source I have found of material to place in the Congressional Record. Almost every day I have outstanding editorials and feature articles from Texas weeklies printed in the Record because I feel they ought to be read by all members of Congress.

If I could afford it, I would subscribe for all Texas weeklies. But there are just too many for me to buy them all. I would like to see every issue of your paper, but the next best thing would be to see an occasional issue. If you could send me a copy from time to time, I would appreciate it greatly. Also I hope you will call my particular attention to anything in your paper that you think might be suitable for insertion in the Congressional Record.

Sincerely,
Lyndon B. Johnson

When James A. Garfield was president of Oberlin College, a man brought his son for entrance as a student, for whom he wished a shorter course than the regular one.

"The boy can never take all that in," said the father. "He wants to get through quicker. Can you arrange it for him?"

"Oh, yes," said Mr. Garfield. "He can take a short course; it all depends of what you want to make of him. When God wants to make an oak He takes a hundred years, but He takes only two months to make a squash."

Upton 4-H Girls Hosts At District Encampment

Forty-eight 4-H Club girls from McCamey, Rankin, Big Lake, and Crane have completed a three day encampment held at the McCamey Park Building on August 5-7.

There were no imported leaders but there were "specialists" on the job. The "specialists" were six senior 4-H club members who taught the various groups and directed the junior girls in their other activities, and from the quality of the work they did they deserve the title of specialist without the quotations.

Joyce Skains of McCamey assisted by Patty Shiner of Crane was in charge of the group on song learning. Before the camp was over Joyce and Patty had not only taught the junior girls a lot of songs but had taught them the art of song leading and had them proving their ability by directing songs in the group meetings for the entire camp.

Jean Shanor of Crane taught a group on folk games and did a similar outstanding job, the junior girls later practicing their ability to direct the games.

Dorothy Abernathy of Rankin and Joyce Woody of Crane taught the group on games with similar results. Each evening the entire camp had a party at which time the junior girls took turns in directing games, songs, and folk games they had been taught to lead. The result was fun for everyone.

Each team of senior girls taught three groups of juniors in turn, so that all of the girls attending the camp attended each group activity in turn. In addition to their work with the girls on recreation Joyce and Pat assisted them in planning and directing vesper services in the evening.

Swimming, free time activities, and craft work filled the remainder of the girls' time at camp. Tuesday morning the girls took an early morning "penny" hike and cooked their breakfast in the park. Other meals were served by the McCamey Home Demonstration Club women.

Adult leaders observing the work and assisting when needed were Myrna Holman, Upton and Reagan

UPTON 4-H GIRLS WIN STATE HONORS

Joyce Skains, Pat Fell, and Joan Lucado of McCamey have won the most coveted state award made to 4-H club members. This is an all expence paid trip to the Junior Leadership Training Laboratory held for one week at the Bastrop State Park.

Certificates signifying the award were presented to Joyce and Uat at the Tri County Encampment in progress in McCamey last Monday night. Joan was away on vacation.

This award is won on the basis of work done as shown in their record books with all counties eligible to compete except the past year winner.

Joyce, Pat, and Joan have not only done outstanding work in their economics demonstrations of foods, clothing, and home improvement but have done outstanding leadership work. All have attended the state Round Up at College Station, won numerous county awards, and competed and won awards in safety, foods, and clothing in district contests.

County Home Demonstration Agent, Mrs. Edith Huges, Crane County Home Demonstration Agent, Mrs. Jim Patton and Mrs. Grady Kellar of McCamey, and Mrs. Jim Kelly from Crane.

Junior girls attending from Rankin were: Carolyn Langford, Annette Herrington, Mary Ann Loyd, Janice Halford, Brenda Kay Glenn, and Kay Abernathy.

NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1957.

HOUSE JOINT RESOLUTION NO. 3 proposing an amendment to the Constitution of Texas adding a section to be known as Section 49-c of Article III, providing for the issuance and sale of bonds of the State of Texas to create the Texas Water Development Fund to provide financial assistance to certain political subdivisions or bodies politic and corporate of the State of Texas in the conservation and development of the water resources of the State; providing for the payment of such bonds; creating an agency to administer said Fund and to perform other duties prescribed by law; limiting the period during which financial assistance may be granted; and providing for the calling of an election and the publication and issuance of the proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of Texas be amended by adding a new section thereto to be known as Section 49-c, as follows:

"Section 49-c. There is hereby created as an agency of the State of Texas the Texas Water Development Board to exercise such powers as necessary under this provision together with such other duties and restrictions as may be prescribed by law. The qualifications, compensation, and number of members of said Board shall be determined by law. They shall be appointed by the Governor with the advice and consent of the Senate in the manner and for such terms as may be prescribed by law.

"The Texas Water Development Board shall have the authority to provide for, issue and sell general obligation bonds of the State of Texas in an amount not to exceed One Hundred Million Dollars (\$100,000,000). The Legislature of Texas, upon two-thirds (2/3) vote of the elected Members of each House, may authorize the Board to issue additional bonds in an amount not exceeding One Hundred Million Dollars (\$100,000,000). The bonds authorized herein or permitted to be authorized by the Legislature shall be called 'Texas Water Development Bonds,' shall be executed in such form, denominations and upon such terms as may be prescribed by law, provided, however, that the bonds shall not bear more than four per cent (4%) interest per annum; they may be issued in such installments as the Board finds feasible and practical in accomplishing the purpose set forth herein.

"All moneys received from the sale of State bonds shall be deposited in a fund hereby created in the State Treasury to be known as the Texas Water Development Fund to be administered (without further appropriation) by the Texas Water Development Board in such manner as prescribed by law.

"Such fund shall be used only for the purpose of aiding or making funds

available upon such terms and conditions as the Legislature may prescribe, to the various political subdivisions or bodies politic and corporate of the State of Texas including river authorities, conservation and reclamation districts and districts created or organized or authorized to be created or organized under Article XVI, Section 59 or Article III, Section 52, of this Constitution, interstate compact commissions to which the State of Texas is a party and municipal corporations, in the conservation and development of the water resources of this State, including the control, storing and preservation of its storm and flood waters and the waters of its rivers and streams, for all useful and lawful purposes by the acquisition, improvement, extension, or construction of dams, reservoirs and other water storage projects, including any system necessary for the transportation of water from storage to points of treatment and/or distribution, including facilities for transporting water therefrom to wholesale purchasers, or for any one or more of such purposes or methods.

"Any or all financial assistance as provided herein shall be repaid with interest upon such terms, conditions and manner of repayment as may be provided by law.

"While any of the bonds authorized by this provision or while any of the bonds that may be authorized by the Legislature under this provision, or any interest on any of such bonds, is outstanding and unpaid, there is hereby appropriated out of the first moneys coming into the Treasury in each fiscal year, not otherwise appropriated by this Constitution, an amount which is sufficient to pay the principal and interest on such bonds that mature or become due during such fiscal year, less the amount in the sinking fund at the close of the prior fiscal year.

"The Legislature may provide for the investment of moneys available in the Texas Water Development Fund, and the interest and sinking funds established for the payment of bonds issued by the Texas Water Development Board. Income from such investment shall be used for the purposes prescribed by the Legislature. The Legislature may also make appropriations from the General Revenue Fund for paying administrative expenses of the Board.

"From the moneys received by the Texas Water Development Board as repayment of principal for financial assistance or as interest thereon, there shall be deposited in the interest and sinking fund for the bonds authorized by this Section sufficient moneys to pay the interest and principal to become due during the ensuing year and sufficient to establish and maintain a reserve in said fund equal to the average annual principal and interest requirements on all outstanding bonds issued under this Section. If any year prior to December 31, 1982 moneys are received in excess of the foregoing requirements then such excess shall be deposited to the Texas Water De-

velopment Fund, and may be used for administrative expenses of the Board and for the same purposes and for the same terms and conditions prescribed for the proceeds derived from the sale of such State bonds. No financial assistance shall be made under the provisions of this section after December 31, 1982, and all thereafter received as repayment of principal for financial assistance as interest thereon shall be deposited in the interest and sinking fund of the State bonds, except that amount as may be required to pay the administrative expenses of the Board may be annually set aside provided, that after all State bonds have been fully paid with interest thereon and after there are on deposit in the interest and sinking fund sufficient moneys to pay all future mature principal and interest, additional moneys so received shall be deposited in the General Revenue Fund.

"All bonds issued hereunder shall be subject to the provisions of the registration by the Comptroller of Public Accounts of the State of Texas and delivery to the purchaser incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas.

"Should the Legislature enact laws in anticipation of the operation of this amendment, such laws shall not be void by reason of their retroactive nature."

Sec. 2. The foregoing amendment to the Constitution shall be submitted to a vote of the qualified electors of the State at an election to be held on the 5th day of November, 1957, and on the 1st Tuesday after the 1st day of November, 1957, at which time each ballot shall have thereon the following words: "FOR the amendment to the Constitution of Texas adding a new section to be known as Section 49-c of Article III, authorizing the issuance of Two Hundred Million Dollars (\$200,000,000) in bonds by the State of Texas to create the Texas Water Development Fund to provide financial assistance to certain political subdivisions or bodies politic and corporate of the State of Texas in the conservation and development of the water resources of the State."

"AGAINST the amendment to the Constitution of Texas adding a new section to be known as Section 49-c of Article III, authorizing the issuance and sale of Two Hundred Million Dollars (\$200,000,000) in bonds by the State of Texas to create the Texas Water Development Fund to provide financial assistance to certain political subdivisions or bodies politic and corporate of the State of Texas in the conservation and development of the water resources of the State."

Sec. 3. The Governor of the State of Texas shall issue the proclamation for said election in the same published as required by the Constitution and laws of the State. The expense of publication of the proclamation for the purpose of the proper appropriation of the law.

An angry man is Sylvester T. Bly,
Who today was sold a piece of "blue sky."
He'd stepped in a showroom—out of the rain,
Was sold a new car before he could explain!

How he hated the styling—so high and square
And in new features it was really bare.
"I got a real bargain—the buy of my life—
But how do I ever convince my own wife?"

Moral: You're paying for a new car... make sure you get one!

When you buy a new car, put your money on tomorrow—not yesterday. Swept-Wing Dodge actually *obsoletes* other cars in its field. Should you invest in high, boxy styling when Dodge offers the low, low look of tomorrow? Should you invest in outmoded coil springs when Dodge offers new Torsion-Aire Ride? Should you invest in an old-fashioned lever-type transmission when Dodge offers the ease of Push-Button Driving? In other things, too—engines, brakes, interiors—Dodge is years ahead. So put your money on tomorrow. See your Dodge dealer. **Join the swing to the Swept-Wing Dodge!**

RANKIN BAND GOES TO ALPINE FOR AUG. CLINIC

Alpine, Texas August 12, Mr. Joe Bellamah of the Sul Ross State College Music Department has announced the date for the seventh annual Sul Ross Band Clinic to be held August 23-28, inclusive. Only complete bands are accepted, and this year's clinic has grown into one of the largest of its kind in the United States.

Fifteen high school bands and their respective directors attending include McCamey, Leonard Rose and Rankin, Fred Prentice.

From 1200 to 1500 band students will participate in daily scheduled musical activities such as marching, concert band, sectional rehearsals, stage band and a 150 piece All-Star Band incorporating the best musicians from each band. This band

will be conducted by Dr. Walter Beeler, Professor of Music and Director of Bands, Ithaca College, Ithaca, New York, who will also be the band clinician.

Mr. and Mrs. A. F. Eades were business visitors in Angelo Monday.

Mr. and Leon Houchins and family left last Saturday on their vacation. They will visit in Bridgeport, Fort Worth and Lubbock.

Miss Maggis Taylor and Miss Myrna Holman left Monday to attend the Bloys Camp.

So happy! Live Better—Electrically

Who takes over when Mother takes off

We bet it's Father and we bet he leans heavily on the family's *Electric Servants*.

And why not? Electric servants draw mighty low wages. Lower, even, than they were 25 years ago. For instance, if yours is the typical American home, you're getting twice as much electricity for your dollar today as you did in 1932. Your electric bill may be higher, but that's because electricity is doing so much more for you now.

• Actually in homes served by WTU, the average cost of a kilowatt-hour of electric service is 20% LESS than it was 10 years ago!

Think about it for a minute. Don't you agree that electricity is the biggest bargain in your budget?

THIEVES TAKE FAMILY'S HEIRLOOMS

Priceless antiques including a two hundred year old gold watch, a diamond lavalier and objects of art that had been handed down through the generations, were stolen from the home of Dr. and Mrs. Aaron Halter, last night by sneak thieves who cut their way through a screen to make entry.

The valuables were in a locked...
