PROVES A POINT—

Everybody says times are hard in the oil patch. We say that there's little opportunity about nowadays.

While most of us stand around with our hands in our pockets making like the wolf is at the door, Ennis Hurst arrives on the scene and starts selling barbecue. Along with his barbecue, he sells a few other items like homemade pies, a good cup of coffee and an occasional special in the way of chicken or meatballs and spaghetti. While doing all this, he has been too busy to hear about how hard times are.

In fact, he has been so busy that he has had to hire some new help, move into a larger location, add a lot of new equipment and enlarge his services. Instead of waiting for the boom to hit, he has gone on about his business as if it was already here.

This seems strange to some and there has been some wagging of heads over Ennis and his apparent disregard for the situation. Some have wondered why he didn't sit tight and wait. Do nothings—just wait for something.

It could be that he has given us all a lesson about sitting on our hands and waiting. I don't know whether or not he is making a lot of money but he is "building a better mousetrap" and he is getting the business. It just might be a lesson on the fact that one never gets very far by fearing the future and waiting.

And, of course, he spends a little money advertising his wares. I hope he has to move again—this time into the biggest building in town.

WOAH, BOY—

Not so. Not so say the readers of last week's issue in which I said it was the first time for Rankin to win anything in State. The reference was ment to include only the State meets held under the present Interscholastic League set up, knowing that Rankin has had some of the best boys and girls basketball teams in the State several years (Continued to Page 3)

did they do in that 120 days that earned them their present salaries, much less a raise.

Can't you just see all of the local Halliburton employees getting a raise from Tulsa for not filling the orders they got during the last 120 days— or Halliburton paying them still more money to go ahead and do the work they were supposed to go to begin with?

Funny, man, funny. The only thing they would get out of Tulsa would be a batch of little slips saying: "Your services are no longer needed". Can anybody think of a reason why the people of Texas ought not give each and every one of the present members of the Legislature a similar slip at the polls next year?

Oh, yes, they did pass some sort of bill supporting Lyndon Johnson for president. Isn't that nice? It will certainly go a long way toward deciding whether or not the little man who is already spending more than he makes to feed his family will be saddled with a sales tax during this special session or whether we have men down there with enough guts to put the bite on where it belongs in spite of pressure from lobbyists and Standard of New Jersey.

They say beer is overtaxed. They say tobacco is over taxed. They say everything is over taxed except the people—we've heard no one say anything about them being over taxed.

Our previous prediction still goes: there will be a sales tax in Texas. Especially if we all sit back and stand for it.

Akron, Ohio—These little tots could do a lot of "wheeling" on this tire, but even with a child's imagination, it wouldn't quite fit their tricycles. It is the world's largest tire, built in Akron, Ohio, by the Goodyear Tire & Rubber Company. The mammoth tire, which stands 10 feet high and is four feet wide, is a research model for a planned line of earthmover and special purpose tires for huge construction machines. With the price of this tire—\$14,000—you could buy a three-bedroom home, and with the nylon fabric used in its construction, more than 7,000 pairs of ladies' hose could have been made. Enough rubber was used to produce 3,200 passenger car tires. Size designation for the tire is 44.5x45, which means the distance across the sidewall is 44.5 inches and the bead diameter is 45 inches. It weighs two tons by itself and three tons when equipped with its rim.

WTU Magazine Is Honor Publication

"The Electric Times", employees' monthly magazine edited by Jimmy Martin of the Public Service Department of the West Texas Utilities Company, was named first place winner in the 1959 Better Copy Contest, sponsored by the Public Utilities Advertising Association.

Cal Young, WTU President, announced recently that WTU again has won outstanding honors in the field of advertising but in a new category. The company has won several first awards in this contest in recent years in advertising and window displays, but this is the first time to win honors in the magazine category. The awards were made May 9 at the annual PUA convention in Dallas.

"The Electric Times" is one of the pioneers in the employee magazine field and is now in its 32nd year of publication. Jimmy Martin has served as publication editor for the past 14 years.

This is the second national honor to be awarded "The Electric Times" in recent years. In 1951 the magazine was awarded the Freedom Foundation Medal for editorials and feature articles promoting a better understanding of the American Way of Life. One was awarded the company, a second to Martin.

More than 2,000 entries were received in this year's Better Copy Contest, which is the 36th annual contest conducted by the association.

Mrs. Blanche Mitchell, Mrs. M. J. Edwards and Miss Grace Roach were week-end guests of Mr. and Mrs. J. P. Rankin at their fishing lodge on Granite Shoals.

TOURNAMENTS—

Those from Rankin, playing in McCamey last week were Ray Boggs, L. Z. Tittsworth, Joe Simpson, Fred Prentice, Ed Cherry, J. K. Colquitt and Billy Mack Varnadore. As far as can be learned, none placed in the winner's circle.

Over in Goldsmith, there were 48 players in three flights. Howard Gibson was the winner. Walter Sneed of Midland and winner of first flight in Rankin, was the 1st flight runner-up in Goldsmith.

This week, all attention will be on Big Lake and what will likely be a king-size tournament. Last year they had a yard full and it is more than likely that this week-end will be standing room only.

LOTS OF PLAY—

Over a year's time, a golf course gets a lot of play—even one no bigger than Rankin's.

Figures would indicate, that, including men's and women's tournaments, close to an average of 8 golfers play 72 holes per day on the local course. That figures out 2,920 players per year with an average of 9 holes of play for a large sized sum total of 26,280 holes per year. How many strokes per hole? That's a good question but considering number 4 and the fact that this includes men and women, about 7 would be close. Put that into the 26,280 holes and you get 183,960 strokes. No wonder there ain't as much brush on that course as there used to be.

Mrs. Bert Browning Hosts Omicron Tau

Omicron Tau Chapter of Beta Sigma Phi met on May 12 at 7:30 in the home of Mrs. Bert Browning. Mrs. Sara Rozean, president, presided at the business session. The Chapter agreed to offer further assistance to the local Girl Scout organization. Mrs. Browning was appointed chairman of the flower fund to replace Mrs. Jim Harkey. The Chapter voted to assist the Exemplar group in raising money to help send Fred Prentice, local band director, to Europe this summer.

Following the business meeting, Mrs. Bill Hood presented a program on "The Art of Thinking" as related to the family and business. She drew attention to the fact that a child's mind is not furnished with the same concepts as an adult. It takes the child years to acquire those ideas that make up an adult's physical, social and moral world; therefore, we should not expect them to have our maturity.

At the conclusion of the program, refreshments were served from a table covered with a brown linen cloth and centered with a bronzed antique bowl of yellow roses.

Lurline Owens Hosts Xi Epsilon Chapter

Mrs. Lurline Owens was hostess to Xi Epsilon Chi Chapter of Beta Sigma Phi on May 12 in her ranch home. This meeting was the last regular meeting of the year.

During the business session, the chapter voted to cast their vote for the Texas Rehabilitation Center of the Gonzales Warm Springs Foundation for the 1959-60 State Project. This Project will be voted on state-wide at the Convention in Fort Worth on May 29-31. The Chapter voted to plant a yellow rose bush at the hospital and on Saturday, May 23rd, will sponsor a bake sale at the post office with the proceeds to be donated to Fred Prentice to use on his trip to Europe this summer.

Lelia Scarborough was in charge of the program and she gave a summary of the programs and of the high points during the year. The meeting closed with the closing Ritual and the Mizpah repeated by members. Refreshments were served to the gathering.

Baptist GA's Conduct Wednesday Services

The Girls' Auxiliary of the First Baptist Church, which has Missions as its primary interest, observed Focus Week which was May 10-16 throughout the Southern Baptist Convention, on Wednesday evening at the church. The girls had complete charge of the evening service.

After opening with a prayer and singing their GA Hymn, a demonstration of one of their meetings was given with ten girls taking part.

Their meeting closed with sen-

tence prayer. Mrs. Tyson Midkiff, president of the WMU, installed the new officers with a candlelighted ceremony. Girls taking part were Annette Herrington, Gayla Wilson, Judy Hale, Ann Moore, Tona Parish, Sue Dishman, Wanna Jean Smith, Beth Fleming, Mary Kay Fleming, and Marsha Hargrove.

Refreshments were served to all present by the ladies of the WMU, sponsors of the GA's.

They now have fourteen members. Any girl between the ages of 9 and 15 may be a member.

Mr. and Mrs. Tyson Midkiff spent last week end in El Paso visiting Rev. and Mrs. Seth Hughes and family and Mr. and Mrs. R. O. Collins.

Bruce Lively, son of Mr. and Mrs. W. W. Carroll is at home from Fort Hood for a visit. He will report to Fort Knox, Ky. where he will attend mechanical school for eight weeks.
