SHORT GRASS—

With the handing out of the diplomas and the closing of school, what is commonly called "Summer Slump" is near at hand. During this time, everybody who can takes to the hills for a spot of leave with the results that Rankin often looks more asleep than if it were situated on the banks of the Sleepy Rio Grande. There just ain't nobody around.

More than likely this year won't be any exception and the already slow pace of activity will get down to a walk. However, there are some things that point to an increase in action in the not too distant future.

Among these will be the Kid Rodeo which always brings a lot of folks to town and creates a right smart of local interest as well. This will be staged June 12-13 and will be a good time for us all to roll out the welcome mat for the visitors.

And then there is always talk of the water-flooding in the oil patch. This subject has become something like looking for a ship to come in but there are signs that the work will be done. The only question that seems to be unsettled is when it is to start.

Mason Shurley, new superintendent at Texas Natural, said the other day that his company is expecting to receive more gas when the program gets underway which will boost their business—at least for awhile. He also has been told that the operating company has been selected so it would seem that slowly but surely, the water-flooding which is expected to give a measure of new life to the local oil business will eventually get started. Over in Reagan County they are already putting in some of the system in the Powell Field.

So, enjoy the leisure of summer—it may be a long, hard winter.

QUESTIONS AND ANSWERS

QUESTION: How is it that a striptease-artist who calls herself Candy Barr and who has been convicted and sentenced to prison for

violation of the Narcotics Laws can take her working clothes in a small sized shoe box and go out to California there to choose around with the big shots on the West Coast—free of most of her clothes and all of her prison sentence while men even as high up in politics as Bascom Giles and Rep. Cook have already gone to prison and have either served their terms or are in the process of doing so.

Just let one of us peasants get

out of line and we're knocked about the head and ears but not so with this stripper bag.

ANSWER: She either has some mighty high-placed friends or is just better equipped to argue the bare facts than was Bascom or Cook.

QUESTION: Now that they have finished the courthouse and got the air conditioning working, are they going to cover the whole thing

up and call it a bad deal.

ANSWER: Aw, Naw— They would not do a thing like that—I don't think.

QUESTION: Are you planning to run for office in 1960?

ANSWER: If you are, you'd better get your shoes on and get busy. The Texas Legislature may vote to hold the thing this year if Lyndon quits running for President any

CHEVY GIVES YOU 7 BIG BESTS

Take it, not from us, but from the published opinions of outside, independent experts and from on-the-record facts and figures: Chevrolet gives you these 7 big bests over any other car in its field!

BEST BRAKES

In direct competitive tests of repeated stops from highway speeds, conducted by NASCAR*, Chevy out-stopped both the other leading low-priced cars—and why not: Chevy brakes are far larger, built with bonded linings for up to 66% longer life.

*National Association for Stock Car Advancement and Research

BEST STYLE POPULAR SCIENCE

magazine sums it up: "The fact is, in its price class the Chevy establishes a new high in daring styling..." It's the only car of the leading low-priced three that's unmistakably '59 in every modern line.

BEST TRADE-IN

Check the figures in any official N.A.D.A.† Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."

†National Automobile Dealers Association

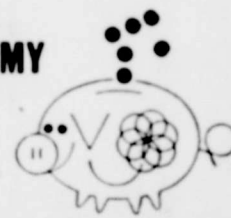

BEST ENGINE

Every motor magazine has given Chevy's standard and Corvette V8's unstinted praise.

As SPORTS CARS ILLUSTRATED puts it: "Indeed, this device is surely the most wonderfully responsive engine available today at any price."

BEST ECONOMY

No doubt about this: two Chevrolet Sixes won their class in the famous Mobilgas Economy Run, got the best mileage of any full-size car.

Official dimensions reported by A.M.A.‡ make this clear: ample, Chevy front seat height is up to 5.7 inches wider than competitive cars.

‡Automobile Manufacturers Association

BEST

PLUS THESE TREMENDOUS

Who'd want to do without Chevrolet's extra luxuries? Like safety Plate Glass in every window, the protection of full wrap-around bumpers, crank-operated window panes, the convenience of key locking, a real over-curved windshield, oil-bath hydraulic valve lifters in standard engine for quiet running, a bigger luggage compartment with side wall lining and the convenience of automatic choke in every model!

Visit your local authorized Chevrolet dealer and see how much more Chevy has to offer!

TEXAS CHAMPIONS OF FREEDOM

"TEXAS JOHN" DUVAL

Historian of the Fighting Times

John Crittenden Duval, Kentucky gen-
tleman and Texas' first man of letters,
was one of three brothers... a soldier,
a jurist and a writer... all of whom
served the Republic and the State of
Texas with honor and distinction. In
1835 the 19-year-old John joined his
brother, Captain Burr H. Duval and
his company of "Kentucky Mustangs"
to fight with Texans against Mexico.
The brothers were with Fannin's army
when it surrendered to Mexican Gen-
eral Urrea. In the Goliad Massacre on
Palm Sunday, 1836, Captain Burr was
killed but "Texas John" escaped... to
live in and write about the wilderness
places and to become the lifelong
friend of Bigfoot Wallace. They were
Texas Rangers together, in Jack Hays'
company. Although opposed to
secession, Duval joined the Confed-
erate Army as a private, refusing a
commission.

But it is not as a fighter that Duval
rendered his greatest service to Texas.

His importance lies in his writings...
"Early Times in Texas," first published
in 1867. "Young Explorers," for boys.
And his greatest work, "The
Adventures of Bigfoot Wallace, Texas
Ranger and Hunter." The cause of
freedom in the Southwest was
strengthened and recorded for history
by "Texas John."

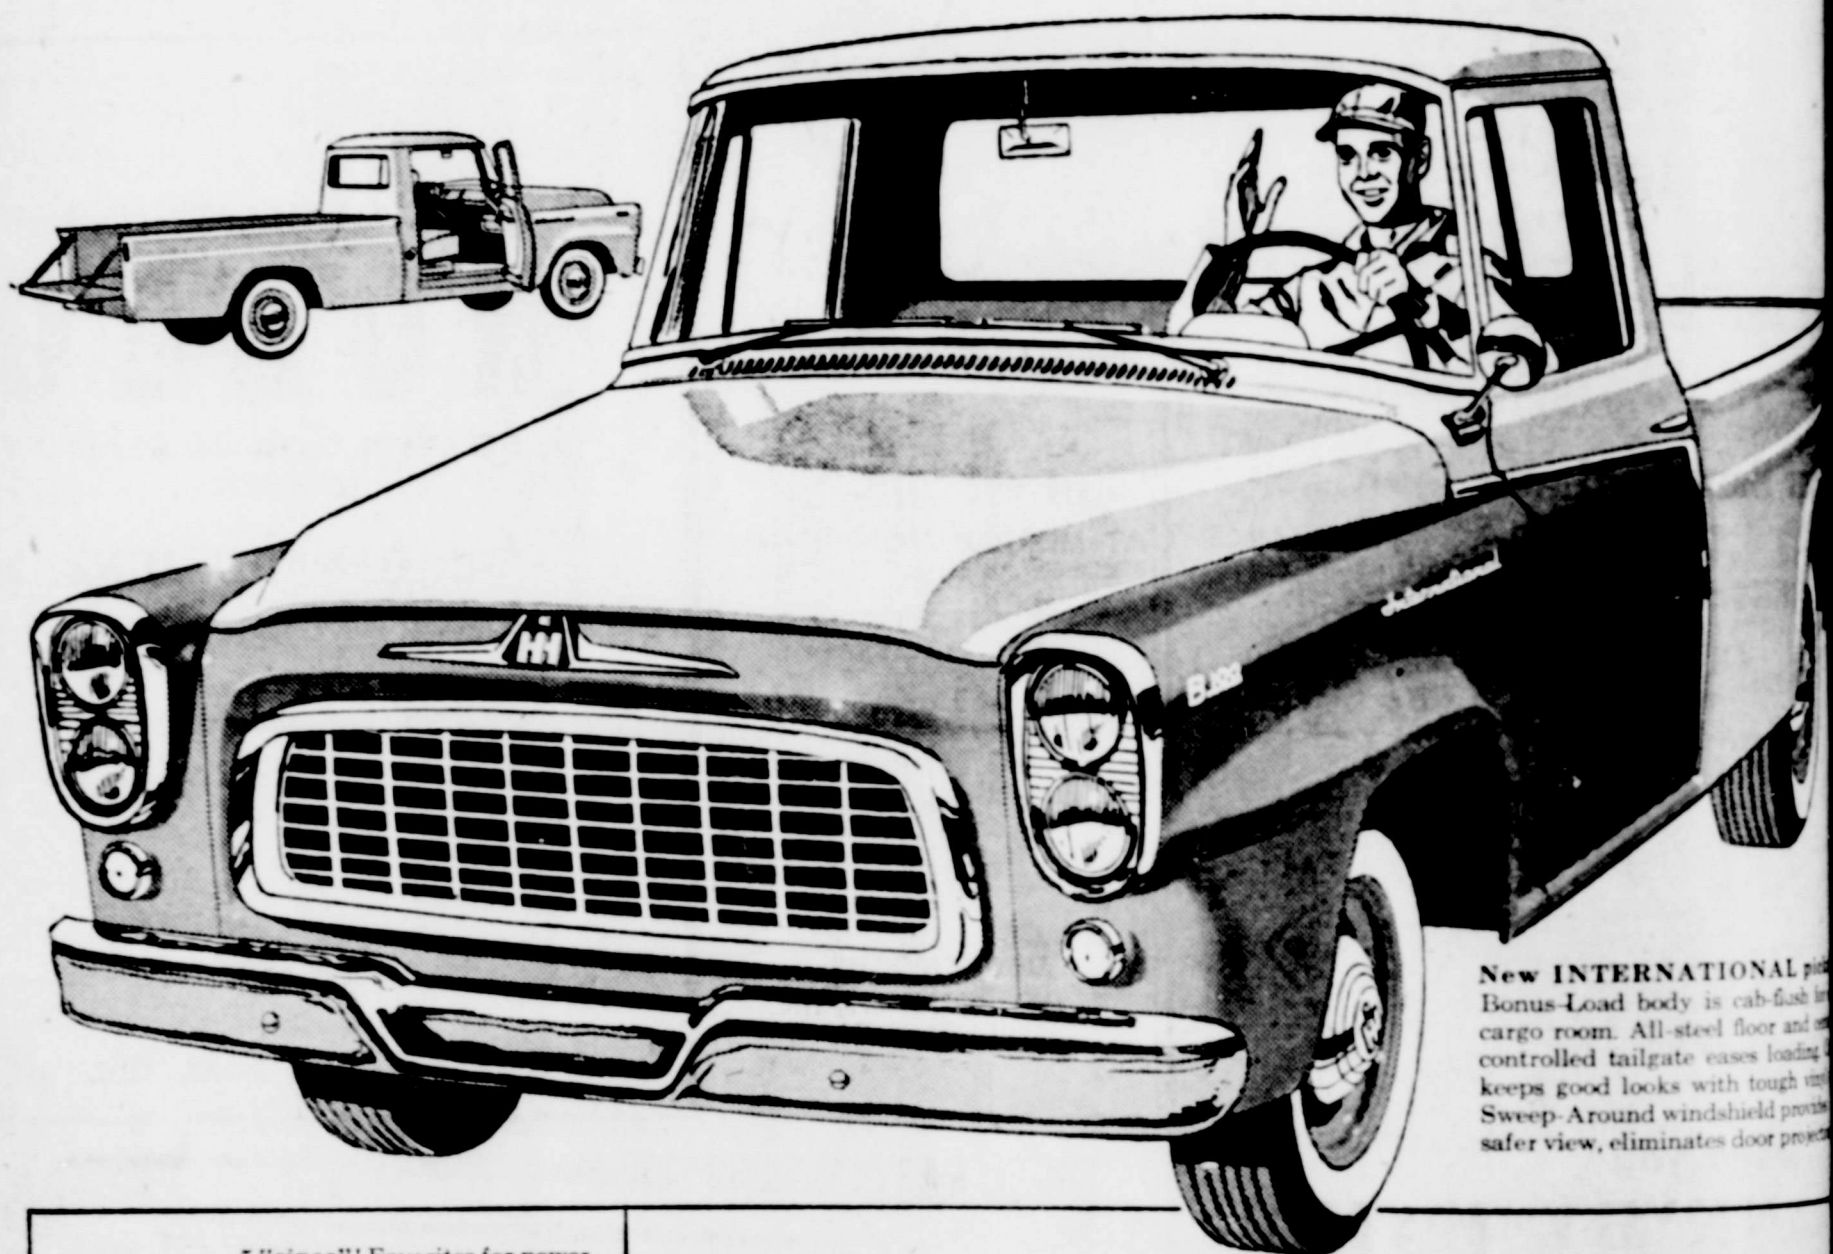

Today Texans still demand and get
their right to choose the way they
want to live. In this vigorous and
freedom-minded homeland... "Beer
Belongs" and this is why the United
States Brewers Foundation works con-
stantly, in conjunction with brewers,
wholesalers and retailers, to assure the
sale of beer and ale under pleasant,
orderly conditions. Believing that
strict law enforcement serves the best
interest of Texans, the Foundation
stresses close cooperation with the
Armed Forces, law enforcement and
governing officials in its continuing
Self-Regulation program.
