

Red Devils Try High-Rated Colorado Eagles Friday

...king up the Golden ... down to their nest ... down 16-25, the Ran- ... devils this week go to ... here they will again ... fathers fly as they take ... rated Eagles. Eldo- ... rated in the top ... teams all year and is ... the team" in this area.

Last year, the Eagles came to Rankin with an unmarked record, not having had their goal line crossed in three previous games. That record didn't last very long once the game got underway and the Red Devils threw a big-sized scare into the Eagles before dropping that encounter.

Friday night's tussle promises to

be a similiar affair. The Red Devils have continued to surprise their foes each week with the power of their offensive game. Those who saw both games say Rankin moved the ball against Crane better than did Class 3-A Monahans the previous week.

With the home-field advantage, plus their high rating, the Eldo-

rado squad is expected to be made the odds-on-end favorite to win over the Red Devils. Local supporters are not so sure.

Rankin is admittedly weak on

"B" AND JUNIOR HIGH

All was not loss for the Rankin football teams last week as the "B" team had a 32-0 romp at O-zona over the Lion "B" while the Junior High squad traveled to McCamey and took an 18-6 win from the Junior Badgers.

At 5 p.m. Thursday, September 21, the "B" team will host the Crane "B" while the Junior High Squad goes to Crane for a game, also at 5 p.m.

defense but has not, as yet, allowed any team to run long gainers against them, forcing the opponents to settle for short yardage on the ground. Pass defense for Rankin, while not being the best, has allowed only one completion that hurt, that in the Crane contest—not taking into consideration the so-called pass interferece call on the goal line.

Eldorado, as usual, will have the benefit of a hefty group of lads Friday night. Following is their probable starting line-up.

Walter Thompson, 30, of the El Paso Dryer Camp in Midkiff, died late Friday in a Big Spring hospital.

Funeral services were held at 3 p.m. Monday in Faith Tabernacle at Midland with the Rev. E. M. Jones, pastor, officiating. Interment was in Fairview Cemetery under the direction of the Newlie W. Ellis Chapel.

Survivors include the widow, two sons, Jessie Ray and Walter Wayne, and a daughter, Darlene Fay; his parents, Charles Thompson of San Angelo and Mrs. Katie Thompson of Midland; 3 brothers, Tommy of Portland, Ore., and Clarence and Richard of Midland, and two sisters, Mrs. Juanita Tisdale and Mrs. Gwenlee Rhyne of Midland.

TAX RATE SET BY COUNTY

In their last regular meeting on September 11, the Upton County Commissioners Court, among other business transacted, fixed the tax rate for the coming year at 95-cents. This is to be divided up between the major funds of the county as follows:

Jury Fund	0
Road and Bridge Fund	0
Road & Bridge, Special	.15
General Fund	.65
Perm. Improvement	.15
TOTAL	.95

The previous tax rate for the county had been \$1.36, this year marking a 31-cent reduction in the rate, made possible primarily by the retirement of road bonds.

In their August 24 meeting, the court, among other matters, voted to cut the salary of the Justice

Says Restraining Order Violated --

McCamey Contractor Files On Commissioners Court

On Monday morning of this week, Russel Arnold of McCamey, through his attorney, filed a suit in the 83rd District Court against all members of the Commissioners' Court of Upton County.

Arnold, a dirt contractor, had previously been successful in obtaining a perminant injunction against the Commissioners' Court, prohibiting them from using any county equipment for the benefit of private citizens such as dirt hauling, scraping off of lots, dragging roads, etc.

In his new suit, Arnold maintains that the Commissioners have violated this injunction and has asked the court to take action o halt the practice.

Specifically, the plaintiff says "that E. K. Bufford, one of said commissioners with the knowledge of the other members of said Commissioners' Court and of said defendant, Upton County, Texas, has violated said restraining order and injunction . . ." and proceeds to list several instances in which the plaintiff claims the defendant, Bufford used county equipment for the purpose of blading off certain lots and hauling dirt and trash from same in McCamey.

The final paragraph of the case states: "WHEREFORE, plaintiff prays that defendant, Upton County, be cited to appear and answer herein by a citation issued to said Commissioners Court with a citation to be served upon each member of said Court and said

County Judge, and that upon hearing and proof of such acts as herein alleged that defendant be adjudged guilty of contempt for violating said order of this Court and such other action taken as this plaintiff may be entitled to, at law and equity."

Clyde Vinson, San Angelo attorney, is representing Mr. Arnold.

The Commissioners Court will meet next Monday for their final

meeting of September and are expected to discuss the matter at that time.

Filed in the 83rd District Court, the case would ordinarily be heard by Judge Pat Patterson of Alpine. However, the judge on the bench at the time the restraining order was handed down was J. H. Starley of Pecos and it is possible that he will return to hear the present letigations.

ANYONE FOR STEADY DATING; WELL, "YES And NO" ANSWER

BY FAYE SCARBOROUGH MIDKIFF REPORTER

This week the parents get in on the act. Question of the Week is:

"Do you believe in teen-agers (ages up to sixteen) going steady and why?"

Mary Acker— Yes. I believe that it teaches them responsibility in early life.

Arlene Wise— No. It leads to marriage at an early age—and I don't think they are mature enough.

Cecil Scarborough— No. I think it brings about emotional problems and emotional disturbances. I do believe in dating though—but I think the "kids" should be properly chaperoned.

Lucille Weed— No. For one thing, I think it causes them to be deprived of dates—they don't have the chance to date a variety of personalities, and they feel too close too young.

Myrtle Keefer— Yes. I think

going steady is another stage in a teenager's life—and I think it should be looked at as it is . . . an amusing stage in their life.

Mildred Thorne— No, they are not old enough.

Mrs. Aaron Gaines— Yes—but really, I think that whether they should or not depends on the individual.

Dorothy Rockwood— I can't say as I haven't had that problem to face yet.

Leone Jones— No. I think marriage and settling down to one person comes early enough in life as it is. I think they should go and meet lots of kids.

Richard Boyd— No. I think that a teenager is too young to be training their sights on one boy or girl.

Carol Riddle— Yes and no. I'd say it depends on how mature the girl and boy is.

O. K., Kids. Next week I promise you—you get to speak your piece.

TAXES AGAIN—

Believe it or not, taxes are not getting any more popular. In fact, right at this moment, the very word causes the hair to bristle on many a Texan.

Grace Roach sent in the following, clipped from her old hometown newspaper, which in turn, had had it submitted by a reader who had clipped it from a newspaper in the 30's. As we all know, now, back in the 30's we never had it so good, taxwise.

TAXES

Tax the farmer, tax his fowl.
Tax the dog and tax his howl.
Tax the hen, and tax her egg.
Let the bloomin' mudsill beg.

Tax his pig and tax his squeal.
Tax his boots, run down at heel.
Tax his plow, and tax his clothes.
Tax the rag that wipes his nose.

Tax his house and tax his bed,
Tax the bald spot on his head.
Tax the ox and tax the ass,
Tax his "Henry", tax his gas.

Tax the road that he must pass,
And make him travel o're the grass
Tax his cow and tax his calf,
Tax him if he dares to laugh.

He is but a common man
So tax the cuss just all you can.
Tax the laborer but be discreet,
Tax him for walking on the street.

Tax his bread, tax his meat,
Tax the shoes clear off his feet.
Tax the payroll, tax the sale,
Tax all his hard-earned kale.

Tax his pipe and tax his smoke.
Teach him government is no joke.
Tax the souls beyond the clouds,
Tax all business, tax the shops.

Tax the incomes, tax the stocks.
Tax the living, tax the dead,
Tax the unborn before they're fed,
Tax the water, tax the air.

Tax the sunlight, if you dare.
Tax them all and tax them well,
And do your best to make life
hell.

The Rankin (Tex.) News— Thursday, Sept. 21, 1961

That was in the 30's and the unknown writer was trying to tell the people even then that they were carrying a heavy tax burden. We have not yet learned.

It really matters not what you tax for it will eventually be every living person who will have to pay his share. Tax oil companies at any place along the line and it is passed on in the price of gas. Put a tax on public services and you know who pays.

Tax where you will but it must be paid by those who earn.

Someday, maybe, we will demand of our governing bodies policies which call for less taxes and more economy—but we have not done so within the last 30-odd years.

FOOTBALL—

Last week was a rough one on picking winners for this column but like I said in the beginning, only a nut would try to forecast football games as witness the San Angelo upset of Ray. As for the Rankin-Crane game—no comment. I said they could beat Crane and I think everyone who saw the game will agree that it was possible. Rankin seems to have an offense that can go against the best but, as the coaches have already pointed out, our defense is not the type that can shove 'em back even though we can hold teams such as Crane to small gains at a time. With the return of Whiteside, provided his arm is back to normal, the Red Devil defense should be improved.

This week it looks like:

RANKIN to upset the Eldorado Eagles. Last year Eldorado had a team that had not been scored on until they met Rankin. This year, Rankin is improved. I'm still with the Red Devils.

WINK wins over Plains. The Wildcats made a believer out of me after that Eunice mess.

Historical Society In McCamey Meeting

The Upton County Historical Society met Thursday night, September 14 at McCamey in the community room of the Security State Bank. Mrs. Anna Wolf, president, presided. The roll was called, minutes read and treasurer's report given.

The report of the nominating committee as given by Mrs. J. L. Clark was as follows: President, Miss E. Eagleton, vice-presidents, Mrs. George Ramer, Mrs. Dee Locklin, E. C. Higday, Mrs. J. L. Clark; secretary-treasurer, Mrs. Jack Smith; corresponding secretary, Miss Maggie Taylor.

A letter was read from the Permian Basin Historical Society inviting the Upton Society to attend a meeting to be held in Odessa Sept. 17.

Mrs. Dee Locklin brought the program. She read a paper by Dinger Barfield on "Operation Coyote".

Visitors were Mrs. Herbert Hurn, Mrs. Zack Monroe, and Mrs. Harry Howard.

The next meeting will be on Thursday, December 14 in Rankin.

SALARIES—

Back in the latter part of August, the Commissioner's Court cut the salary of one of the McCamey J. P.'s to \$1 a month after he was appointed Chief of Police for the City of McCamey.

Whether this was good or bad, I have no idea but it does bring up a point. One wonders if it is really necessary for Upton County to have as many J. P.'s and Constables as we do. Midland County has only two and has more people on one street than we have in the entire county.

Discussions have been held at various times by the court about the possibility of raising the salaries of some of the other county officials—those who have the full time jobs. These salaries have not been changed since back in the early fifties—and there has been a steady rise in the cost of living since that time—resulting in salary cuts actually. It would seem reasonable that some adjust-

Hi ONE AND ALL

BY FAYE SCARBOROUGH

Boy, Hayfever! Have I ever had it this week. I think I have taken every drug this week that has been invented for this cursed disease. None of these new-fangled medicines seem to work. It looks like I am going to have to go back to the "Coonie Country" (that's La.) and get some of the old-timers there to give me some of the home cures that are guaranteed to work. For instance, a pine tree—measure your height, and then take a drill and drill a hole about 1½ inches deep in the tree trunk. Remember, it's important to save the sawdust that comes out of the hole. Then, you cut a lock of your hair—stuff it with

ments are about due for these folks.

Upton County spends nearly a million dollars a year and there would seem to be no call for having people working for sub-standard wages. If some of the more unnecessary offices were done away with, these salaries could be applied to the full-time offices.

I know that's not a popular thing to say but it seems reasonable to me. Folks have peculiar attitudes about preachers and public officials. It seems we feel that they should be able to live on salaries that we, ourselves, would consider too low for the responsibility involved. Upton County should be able to pay good salaries.

the sawdust. Now, as they tell it, go on about your business and when the hair rots, your hayfever and asthma will be gone. Say, will hair rot????

O. K.—so that's enough from Dr. Scarborough—what's been happening around your house? We had company Monday morning. Mr. and Mrs. Norman Wise of the Permian Camp came by for coffee. We got to "gabbing" and found out that Norman has opened a trailer rental place on E. Highway 80. He said they had really been working getting things lined up. The trailers are vacation trailers, all in tip-top shape and ready and rearing to go. All you deer hunters should go out to the Midland Auto Supply and find out just how cheap renting a trailer really is. Better yet, keep reading your Rankin News cause I got a sneaking feeling we've got a new advertiser with us beginning next week.

From trailers to the Army is quite a jump—but think you all would be interested in knowing that David Clay has passed his army physical and is awaiting his call. They told him that he would have to go anywhere between 21 and 160 days.

Did you all know that in Midkiff we have just about three of the most typical Texans that Texas has to offer—namely P. A. Whisman, W. A. Blex and some character named Yarter. Monday I saw them at the grocery store and asked if they had had any luck with their dove hunting. They were very down in the mouth and said if their answer was for publication that they would be truthful and tell all you Rankinites that the dove flight is very poor out here—not a one of them

Kenneth Woodard and assistant
cub master, Robert Holden, had
charge of the meeting. Others
who helped were Mesdames Billy
Brown, H. B. Drummond, Leo
Trater and Murriss Wallace.

Sunday School 9:45 a.m.
Worship 11 a.m.
Training Union 6:30 p.m.
Worship 7:30 p.m.
Teachers-Officers 6:30 p.m.
Prayer Meeting 7:30 p.m.

The Lord blessed us last Sunday with a good attendance, 190 in Sunday School and a full house for worship services. His presence was made evident to us by the decisions made in the service.

We began this week with our study of "Visitation" to prepare each of us for a greater work in the coming year. Monday night we had present a total of 31. We are praying that through this study we might begin a spirit led visitation program within this church that we might reach out into the community in a greater way.

We encourage you to come to our church and find there a place to serve our Master, Jesus Christ.

NOW! A NEW WORLD OF WORTH!

NEW FROM DIESEL TO DAZZLE!

'62 CHEVROLET JOBMASTER TRUCKS!

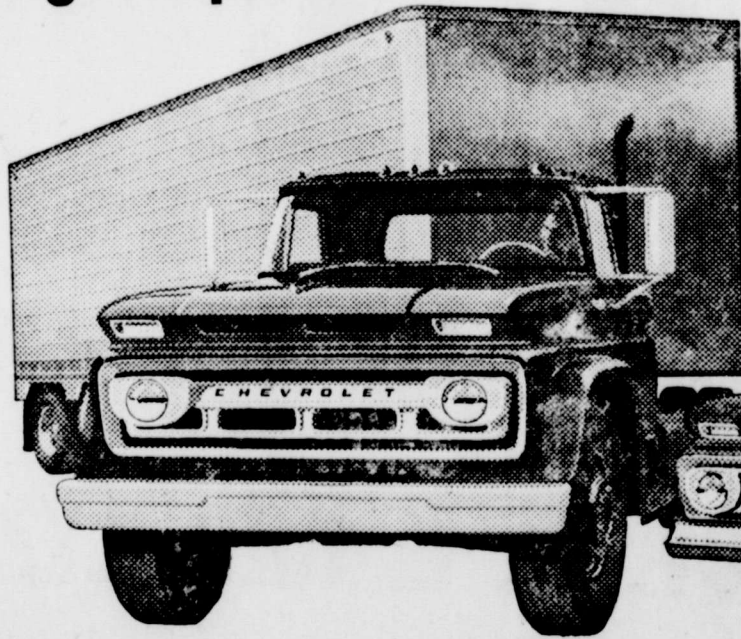

WITH NEW
High Torque Power

Here they are—handsome, functional '62 Chevrolet trucks powered to work harder in every weight class. Hefty new V8's with the highest torque in Chevrolet history. New diesel brawn for medium-duty models. And new power to pick from in light-duty models.

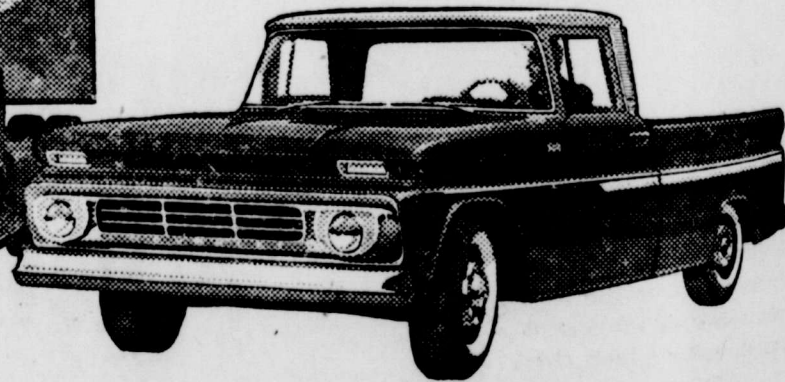

There's a wider choice of power, a wider choice of torque, across the board. For heavies, there's the new High Torque 409 V8*, with 16½ per cent more torque than ever before available from Chevrolet. Big news in the middle-weight class is the new Chevy-GM 4-53 Diesel. It's compact, rugged, high in torque, and backed by years of GM Diesel experience. In the light-duty lineup, the High Torque 261 Six* adds new sock, new savings in extra-tough applications. You can pick from nine rarin'-to-work, ready-to-save engines.

Handsome new work-styling includes forward-sloping hoods that allow drivers to see as much as 10½ feet more of the road directly ahead. Chevrolet's famous Independent Front Suspension gives you a smoother riding, easier working, longer lasting truck. New heavier duty, smoother hypoid rear axles for middle-weights. Rugged new I-beam front axles* of 9,000- or 11,000-lb. capacity are available on Series 80 heavyweights. Mufflers are longer lived on all models.

You'll find a total of 198 models in the new '62 Chevy line—including three work-proved, versatile Corvair 95's. Every model is built to out-haul, out-last and out-value any other truck at anywhere near the price. See your Chevrolet dealer! *Optional at extra cost

first they went to Truth of Con-
sequences, New Mexico, then took
the long way home. They went to
Grants, N. M., picked up their
granddaughter, and then headed
for Cortez, Colorado where they
visited their daughter, Mrs. Ralph
Hutseil and her family. Their
grandchildren, Holly and Steve,
are ex-Rankin students and they
were really anxious to hear about
all their friends. Anyway, they
made it home early Saturday
morning, anxious to get back to
work and "Wham"! They came
down with a virus infection and
have been sick ever since.

Wasn't the football game a good
one? Sure did enjoy it. I'll bet
Carol Riddle will never forget the
fact that Crane has one guy on
the team that can flat kick a ball,
boy, that "gal" was knocked cold
when she was hit in the mouth
by a "wild" ball just before the
game started. But as usual, Doctor
Gossett came to the rescue and
with the exception of a swollen
mouth and a terrific headache for
a couple of days, she was OK.
Congratulations to Sandra

looks are improving with age—so
Jack, load your shot gun—you will
be needing it to hold the boys
off in a few years.

Sharon Lambeth is home again
after a bout with a virus infection
in the Big Lake Hospital.

Oh yes. This story tops them
all! Mr. and Mrs. Harry Weed of
Holly, Colorado decided to look
up some old friends, Mr. and Mrs.
Claud Kinney of the Sohio Camp.
Well, they knew they lived some-
where in or near Midland but
that was all. Well, they called the
utility companies, the police and
all the logical places to inquire
about them. Noone knew any-
thing, so her woman's instinct
came to the rescue and how do
you think she found them? She
called Retail Merchants and they
told her just exactly where she
lived and all about her, even the
fact that she had an A-1 credit
rating. So let that be a tip, folks,
keep your credit good. You can
never tell who may someday be
looking for you.

In closing, think this one over.
Chickens are the most useful ani-
mal there is. You eat them be-
fore they are born and after they
are dead.

Bye now. See you next week?

GROWTH

Keynote of the Center of the Southwest

West Texas Utilities Company's service
facilities are growing as the area we
serve grows.

This service area is the Center of the
Southwest—the very heart of a five-
state region that is growing 25 per cent
faster than the Nation.

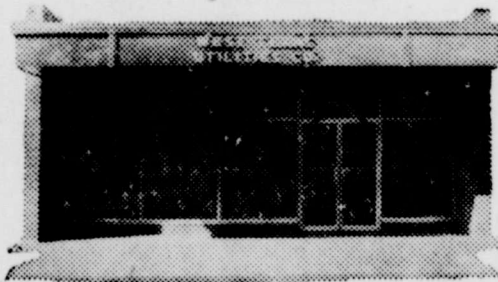

A multi-million-dollar growth program
is now under way, and even more expan-
sion is in the planning stages. Major
examples are our new generating, trans-
mission and distribution facilities, where
much construction is now going on.

Our continuing growth program is seen
also at the local level. Pictured here, for
example, are three of our local offices
which have been remodeled recently.

This Company is convinced that we face
Growth Unlimited. The money we are
spending for expansion today is our
INVESTMENT IN THE FUTURE.

TELEPHONE TALK

TELEPHONE SERVICE NEAR NORMAL AFTER HURRICANE CARLA STRIKES

Hurricane Carla has come and gone, and I know we were all glad
to see her go. Even though we were not directly affected here in Ran-
kin, I'd like to tell you a little of what she did to telephone service
on the Gulf Coast and what Southwestern Bell did about it. It's an
interesting and dramatic story.

As Carla faded northward after her terrible blow at the Gulf
Coast, she left behind:

- damage totalling \$6½ million to telephone facilities
- 144,000 telephones knocked out along a 500-mile stretch of coast-
al front and inland points
- miles of telephone lines and poles flattened in a twisted maze
of wire and splintered wood
- 15 Southwestern Bell exchanges completely isolated, including
Freeport, Bay City, and El Campo, along with 28 other commu-
nities

Telephone people were ready for the emergency. Before the winds
and rains had subsided, Southwestern Bell had men and equipment
rolling to the disaster area to restore crippled telephone service.

An army of 5,400 telephone men from many cities and states was
hastily assembled in the Galveston-Corpus Christi-Victorie area. More
than 900 came from points in North Texas, Oklahoma, Arkansas, Kan-
sas and Missouri.

EQUIPMENT FLOWN IN

At the same time, the company flew emergency generating equip-
ment for electric power into the storm area from many places in our
five-state territory. From other cities in North Texas, special mobile
radio trucks converged on the stricken area to help bridge the gap
left by the silenced telephones, relay emergency messages, and main-
tain contact with the "outside world."

These joined forces with the men, trucks, and other emergency
equipment which Southwestern Bell already had sent into the area as
a precautionary measure when hurricane warnings were first issued.

OPERATORS FROM WEST TEXAS

While repair crews began the work of restoration, 150 telephone
operators from Lubbock, Amarillo, Abilene and other West Texas points
were sent to Houston and other storm-hit cities to help handle the
tremendous volume of long distance calls...many of them vital mes-
sages from police, public health, civil defense, and other agencies.

With skill, determination and co-ordinated teamwork, Southwest-
ern Bell people worked round the clock untill all circuits were restor-
ed and all telephones back in service (where the condition of homes
and businesses permitted.) Telephone service in the disaster area is
now back to normal. It was a tremendous job, carried out under try-
ing conditions at top speed.

When Hurricane Carla struck, telephone people "came through" 100
per cent in the emergency. Southwestern Bell's "telephone team" of
men and women again demonstrated their ability to meet the chal-
enge of the storm in the highest traditions of "The Spirit of Service."

Call by number. It's twice as fast.
