

# March of Dimes Drive To Get Underway In Rankin

1962 March of Dimes Drive  
here this week, according  
Mrs. Zolite Mae Rawlins,  
man for Rankin this year.  
Rawlins stated that coin-

collectors were in the process of  
being distributed and that a full  
schedule of fund-raising activities  
will be published at a later date.  
She said that during the past

year the Foundation has spent  
\$1,361.53 for patient care in the  
treatment of four people in Up-  
ton County, who are receiving  
care under the March of Dimes

Foundation. Upton County gave  
\$582.98 for medical research and  
\$74.48 to the National Foundation.

This past year the March of  
Dimes fund in the county totalled  
\$2,331.93.

Upton County's benefits and con-  
tributions to the National Founda-  
tion is fairly typical of the  
State of Texas, according to a  
financial summary recently re-  
leased.

Three years ago, the National  
Foundation for Infantile Paralysis  
changed its name to the National

Foundation in expanding its areas  
of interest beyond polio to include  
birth defects and arthritis, using  
the scientific knowledge and ex-  
perience gained in the fight a-  
gainst polio.

The new March of Dimes takes  
place throughout January.

Among the fund raising projects  
is to be a house-to-house march.  
Contributions may also be given  
directly to the Fund without soli-  
citation by contacting Mrs. Raw-  
lins or by mailing donations in  
care of the Rankin chapter.

### High School Students Well Above State Average -

# Testing Results Indicate Rankin Schools Above Par

The fall testing program of the  
Rankin Schools has been com-  
pleted and tests scored. Results  
have been received from the com-  
panies which machine score some  
tests. At this time graphs by class  
grade and for the school are com-  
pleted.

Standardized ability and achiev-  
ement tests are one of a num-  
ber of measures used to help de-  
termine whether groups are achi-  
eving well in relation to given a-  
bility, and when used individually,  
are placed along side a number of  
other objective data to help draw  
a picture of achievement against  
ability for the individual child.  
An achievement test or an ability  
test alone may not prove accurate  
at all times and therefore is used  
as one score along with other  
objective data.

Of the test results for grades  
as a whole, the following is most  
evident. Grades 1 through 8 in  
ability are average, although some

### Services Pending for Rankinites Brother

Services are pending for Dee  
Vestal Wood, 57, brother of Mrs.  
H. C. Dishman of Rankin, who  
died of a heart attack in Hermosa  
Beach, California.

Mr. Wood was the son of the  
late Silas H. Wood, also of Ran-  
kin, who succumbed last April. He  
was born in Brown County, Texas,  
in 1905, and lived in that area  
until about 1941, when he mov-  
ed to California.

Other than Mrs. Dishman, Mr.  
Wood is survived by another sis-  
ter, Mrs. E. L. Hoffman of God-  
ley; and two brothers, A. T. Wood  
of San Antonio and E. M. Wood  
of Ft. Worth.

individuals in each grade show  
very high ability and others with  
lesser ability. It is evident with  
those given abilities as compared  
with the results, that many more  
children achieve very high against  
their abilities than those who do  
not achieve as well for their given  
ability. This high achievement  
in relation to ability is perhaps  
due to a number of factors: Par-  
ental attitude, student desire and  
willingness to work, and type of  
work done by the teachers.

The achievement for the grades  
mentioned earlier (grades 1-8)  
showed on the average achieve-  
ment above that for the state as  
a whole.

For grades 9 through 12 given  
tests of educational development  
standardized on a national basis  
in which eight areas of study are  
tested and measured, each grade  
showed an appreciable score above  
that of the average for the na-  
tion. The average for the grade  
showed a score in each area of  
from 25 percent to 49 percent a-  
bove that for the nation as a  
whole. One area in two grades  
showed a score of 9 percent less  
than that for the nation as a  
whole. Here again a scatter-gram  
reveals that more individuals were

over achievers than there were  
those who under achieve.

In a news release summary this  
week of results of achievement  
testing in Rankin Schools, the  
following results and information  
were announced by RISD:

## G. H. "BUD" FISHER SEEKS RE-ELECTION AS COUNTY JUDGE

G. H. "Bud" Fisher, present Co-  
unty Judge and resident of Upton  
County since 1925, authorized the  
News this week to announce his  
candidacy for re-election. In mak-  
ing his announcement, Judge Fish-  
er requested the following letter  
be published:

### "TO THE PEOPLE OF UPTON COUNTY:

"As you probably know, I have  
worked as your County Judge for  
the past 15 years, during which  
time I gained valuable knowledge  
and experience which amply qual-  
ify me to serve you in this posi-  
tion. I pledge myself in the future,  
as I have in the past, to render  
most efficient service to ALL the  
people of Upton County.

"I solicit your vote and support  
purely on my reputation and qual-  
ifications, as your County Judge.  
I will do my utmost at all times  
to justify your confidence and  
loyalty.

"I sincerely hope that the af-  
fairs of the office have been con-  
ducted in such a manner that  
warrant your support. If you think  
so, then I earnestly ask and soli-  
cit your aid and advice during  
my campaign for re-election.

"Thanking you for your thought-  
ful consideration, I am  
Cordially yours,  
/s/ G. H. FISHER  
G. H. "Bud" Fisher."

### Hospital Auxiliary Sets Jan. 30 Social

The Rankin Hospital Auxiliary  
has planned a social at the Ran-  
kin Park Building for January 30  
at 7:30 p.m.

This event is open to the pub-  
lic and one need not be a mem-  
ber of the Auxiliary in order to  
attend. Refreshments will be serv-  
ed and games played.

The Auxiliary, which donates  
its time toward assisting with the  
work at The Rankin Hospital, is  
now in need of additional volun-  
teers and welcomes anyone who  
would care to assist them in their  
efforts.

## SURPRISED, ANYONE?

The administration's Secretary of Labor, Aruthur Goldberg, has been putting in some overtime trying to convince labor and management not to ask for higher wages or to raise prices of products. He points out that the time is not right and that such actions right now would be bad for the country. He may be right.

At the same time, however, it is reported that a move is on to raise the Secretary's annual salary from \$25,000 to \$35,000 per year. That figures. If there's one thing a Washington Bureaucrat dearly loves is to tell someone else how to run his business while doing just the opposite when he or the department is concerned. We need more such leaders—like we need another cold spell.

With all the government advisers now running around loose, it's about reached the point of not having anyone left to advise. Sorta reminds one of the story of the bootleggers in dry counties trying to sell each other their products.

But what's a few thousand to Washington. Over at Best there is maintained a post office—at least it says so on the side of the filling station—the only such enterprise left in Best—and they fly the flag most every day. Now in driving down the highway, you can count possibly six occupied houses in or near Best. To be on the liberal side let's say there's a dozen—or three dozen.

So we have a post office, perhaps not involving much of a salary outlay but without doubt repeated many times throughout the nation—and at Texon which must be all of four miles from Best, we have another post office. Texon post office is considerable ahead of Best in that they may have upwards to 100 customers.

The point is, why 2 small post offices within throwing distance of one another? The answer: the Wonderful Wizards of Washington.

This is just a piddling example. Hardly worth mentioning except that it proves a point. Once a

## The Rankin (Tex.) News— Thursday, January 18, 1962

bureau is formed in Washington, it does everything in its power to hold, grow and become more and more powerful as we shall soon witness when the heat is put on by the Post Office Department to increase the common stamp from 4c to 5c—so that they can immediately take up all the increase by granting raises to the postal employees—who may well be underpaid—but who are not weak in numbers.

## PROVES THE POINT—

Last week the Commissioners Court fixed the salaries for the county employees for the coming year. Most of them remained at the same figure as in the past. One notable exception was that of the McCamey Justice of the Peace who will receive \$1 per month for his services. This is not entirely new for the same salary was fixed for this particular office some several months ago after the elected official was hired by the City of McCamey as Chief of Police.

Actually, this seems a little unfair in that almost all the other Justices and Constables hold outside jobs or are in business for themselves—assuming of course that the court was following this line of thinking when they put the salary at \$1. If the fixed the figure at \$1 for — say political reasons—then that, too would appear a little out of line since the man ran for the office and was elected by a majority of the voters over there with the idea in mind that it paid the salary so stated at the time.

It does prove, however, a point that I have been making for a good while—namely, if the job is only worth \$1 a month—we have not need of it at all. With a county attorney, a county judge and four Justices of the Peace; a sheriffs department, several city policemen in both Rankin and McCamey—plus highway patrolmen and state officers—and four

## Vicki Jo Hood Has Birthday Celebration

Miss Vicki Jo Hood was honored on her 10th birthday Friday, January 12 with a birthday celebration beginning at 6 p.m. in her home. She opened her presents while guests played games, then the group assembled around the birthday cake to sing "Happy Birthday" and witness the blowing out of the candles.

This was followed by a hamburger supper at the Rankin Drug and a movie at the Ford Theatre.

Guests included Debbie and Diane Day, Caye and Faye Collins, Junellen Prentice, Ann Woody, Kitty Sue Gossett, Diane Warren, Deborah Houchins, Debbie Henry, Donna Price, Patricia Fitzhugh, Cynthia Goodwin, Debra Deel, Judy Blyth, Dana Jo Brown and Lou Browning.

grounds. I'm sure the court took all this into consideration and is correct in concluding that Upton County cannot pay higher salaries at this time—but they might if the number of office holders was trimmed to something more reasonable.

MYRNA HOLMAN  
Home Demonstration Agent, Upton County

First of December we send annual reports on work done the year—statistical, narrative, supplements, and all the fact while all that paper going in, we aren't very live with. We love work with the people, but writing it afterwards is another

ray, one of the things we do to do is to give to the in January a brief summary of some of these figures, they are.

ion't always keep track of call, visit, and so on but ng to our records we made ne visits, answered 1603 of-alls, 1479 telephone calls, ut 6400 bulletins, 381 indi-letters, and 172 letters go-

ing to so or more people.

We held 214 meetings with adults contacting 5458 people and 306 gith girls contacting 5616. We work with five adult and 6 4-H groups regularly, not including the special meetings, workshops, and units of various kinds.

Subject matter includes the field of home economics. Among them are organization and program planning, home furnishings, and equipment, home management family economics, clothing, foods and nutrition, health, family life, child development, safety, community development, and recreation.

Well, there are the figures—they have been people to us, however, and not statistics. If we've helped, we're glad. If we've failed to

meet your needs, call on us a-gain and maybe we'll have what you need next time. But do remember that our service is for anyone who wants it—that means you!

### DON'T DO IT—

That is, don't throw away that canned food that was frozen during the "weather" we had last week. We've had a number of calls on the subject and we don't want anyone to go out and dump some good food. Of course if products froze expanded sufficiently to break the seal, they would have to be used before spoiling. But unless the seal was broken, the food will continue to be perfectly good. The worst that could happen would be a possible softening of some of the food because of slow freezing as opposed to quick freezing as one would get in a plant or food freezer.

### THE WEEK AHEAD—
