Serving the Interests of Rankin and Upton County

LXIX—NUMBER 33

RANKIN, UPTON COUNTY, TEXAS

THURSDAY, AUGUST 26, 1965

## SCHOOL BELLS TO RING ON WEDNESDAY

On Wednesday, September 1, classes will be called to order and the 1965-1966 school term will get underway in Rankin Independent School District. Registration, presently underway at the high school and junior high, will likely show an increase over the end-of-school figure for last May.

Rankin system will be fully integrated with all three schools, elementary, junior high and high school having Negro students. Previously, Rankin District had furnished transportation and paid transfer costs to send Negro students residing within the district

have been working hard for the past several weeks and the official opening might prove to be a breather for them. A number of  
(Continued to Page 5)

Also due to be remodeled and re-equipped would be the OB room and the x-ray room. A larger and improved recovery room is planned and a number of other alterations sought. Among these would be new air conditioning and heating, remodeled bath room facilities and other necessary arrangements that would put all fixtures and facilities into first-class condition.

### Hospital Board Puts Architect to Work on Remodeling Plans

Members of the Rankin Hospital Board, in their last regular meeting, instructed an architect to draw up plans for remodeling and adding on to the present Rankin Hospital. This action was taken in connection with plans already approved by the McCamey Hospital Board to build a new hospital in McCamey.

Tentative plans of the Rankin board calls for a 20-bed hospital, 12 of these being private rooms.

In addition to the improvements and enlargements to the present plant, a separate living quarters is called for that would be suitable for housing four nurses. This structure would be located on the West of the present building but would not be a part of it.

No definite date was given as to when plans would be completed but it is assumed that there will not be any lengthy delay since the  
(Continued To Page Five)

### Lions Club Planing Broom and Bulb Sale on Monday

Rankin Lions Club has scheduled their annual Broom Sale for Wednesday, September 1. This event features a number of useful household items such as brooms, mops, brushes, ironing board covers, etc., all made by the Texas Blind and sold through Lions Clubs all over the state. Both the blind of Texas and the Lions get a share of the proceeds with the local money all being spent on an assortment of community projects such as the Lions Club scholarship.

Also, in connection with the Broom Sale, the Lions will feature light bulbs. This is another annual sale the club stages and gives the public an opportunity to save on their light bulb needs while assisting the Lions with their financing. Profits from the bulbs are also used locally.

Sales will open early Wednesday morning from a truck that will be parked on the South side of the post office. Later in the day, probably after 5:00 p.m., a number of pick-ups will be loaded and house-to-house sales will be offered.

### Long-Standing Feud Fail to Pop Monday

In what was to have been another round of the years-long hassle between Upton County and Russell Arnold, no action was taken last Monday in court due to the illness of Commissioner E. K. Buford. Commissioner Buford is in the Crane Hospital and is reported to be quite ill.

Another round in the battle has been scheduled for October 13.

Arnold, a dirt contractor from McCamey, has charged that the Upton County Commissioners on occasion have used county equipment to do dirt work for private citizens, thus depriving him of getting the jobs. Two commissioners have served short jail sentences as a result of some of the actions from the proceedings that have been drawn out over almost six years.

And, for the first time ever, the to the McCamey Schools. This change in policy was voted some months ago in order that the local district might meet the requirements of new Civil Rights legislation passed in Washington. At least one area school, the Crane district, has not been approved by Federal authorities and as a result may fail to get any assistance, plus facing the possibility of Federal court action.

But for some, the Wednesday opening will hold nothing special. Most of the teachers, the custodians, band and football students

### Displaying Plenty of Go Go --

## Red Devils Look Good on Paper; Lack Experience

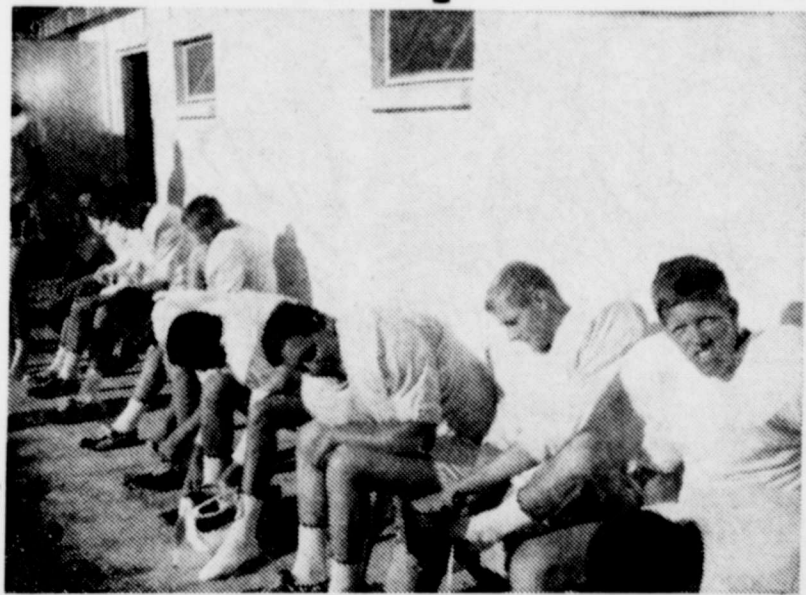

With thirty-six boys presently listed on the roster for the Rankin Red Devils, coach Wayne Mitchell and his assistants find themselves with six seniors, sixteen juniors, four sophomores and 10 freshmen. This is the largest number of juniors to be listed on a Rankin squad in recent years.

Seniors are Sal Aguilar, 134 pound back; Don Brown, 126 lb. back; Kellam Colquitt, 161 pound back; Terry Gray, 134 lb. guard; Jerry Lacy, 163-pound end; and Larry Whiteside, 148 pound back.

Juniors listed are Ricky Barnes, 163-pound end; Kenneth Bean, 180 pound tackle; Billy P. Brown, 141 pound back; Jay Colquitt, 186 pound tackle; Ronald Davis, 146 pound guard; Joe Graham, 137-pound center; Eddie Hale, 193 lb. tackle; Jerry Harris, 142 pound end; Donald Ivey, 163 pound guard; Ronald Ivey, 164 pound guard; Jim Pettit, 145 pound back; John Spencer, 173 pound back; Gary Upham, 183 pound center; Mike Wheeler, 158 pound end; Earlex Williams, 161 pound end; and David Yarger, 188 pound tackle.

Sophomores include Joe Adams, 128 pound guard; Larry Funderburg, 140 pound back; Billy Wayne Hale, 134 pound back; and Mike Turner, 153 pound back.

For the freshmen it is Billy

**SOCK TIME—NOT SACK TIME** as this group of Red Devils park on the bench outside the dressing rooms to get into their socks and shoes prior to a morning workout. Both spectators and coaches have commented on the team's fine spirit.

Bearden, 149 pound back; Sammy Howell, 171 pound tackle; Johnny Kidd, 175 pound guard; Kenneth Lester, 116 pound end; Johnny Smith, 131 pound end; Mike Sproul, 110 pound back; Ricky Taylor, 135 pound center; Tommy Thompson, 136 pound tackle; J. B. Welborn, 86 pound back; and Jerry Reed, 130 pound guard.

Workouts for the squad were continuing at a two-a-day clip

and Coach Mitchell said he was particularly pleased with the way some of the less experienced boys were showing up. He said that, overall, the cub was making progress in getting assignments worked out and that their attitude of the team was good.

On Friday, Aug. 27 at 7:30 p.m., the Red Devils and the Alpine Bucks will play a scrimmage game in Fort Stockton. There will be no admission charge.

# THE SCOOP by Scoop

J. B. Hutchens, Jr., Editor

## GUEST EDITORIAL—

The following article was submitted by a reader in Arizona and was originally published in one of her area newspapers.

### THE SQUARE

"Square, another of the good old words, has gone the way of love and modesty and patriotism. Something to be snickered over or outright laughed at.

"Why, it used to be there was no higher compliment you could pay a man than to call him a square shooter. The ad man's promise of a square deal once was as binding as an oath on the Bible. But today a square is a guy who volunteers when he doesn't have to.

"He's a guy who gets his kicks from trying to do a job better than anyone else. He's a boob who gets so lost in his work he has to be reminded to go home.

"A SQUARE is a guy who does not want to stop at the bar and get all juiced up, because he prefers to go to his own home, his own dinner table, his own bed.

The Rankin (Tex) News—  
Thursday, August 26, 1965

"He hasn't learned to cut the corners or goof off. This nut we call a square gets all choked up when he hears children singing 'My Country 'Tis of Thee.' He even believes in God and says so in public.

"Some of the old squares were Nathan Hale, Patrick Henry, George Washington, Ben Franklin. Some of the new squares are Glenn, Grissom, Shepard, Carpenter. John Glenn says he gets a funny feeling down inside when the flag goes by. He says he is proud that he belonged to the Boy Scouts and the YMCA. How square can you get?

"A square is a guy who lives within his means whether the Joneses do or do not, and he thinks Uncle Sam should, too. He doesn't want to fly now and pay later. The square is likely to save some of his own money for a rainy day rather than count on using yours. A square gets his books out of the library rather  
(Continued to Next Page)

## THE GIRLS

"Henry, I hope you come down with something soon . . . There're more half-filled bottles in the medicine cabinet."

# BOGGS GROCERY AND MARKET

WE GIVE FRONTIER STAMPS

DOUBLE STAMPS ON WEDNESDAY

(Preceding Page)

reads scriptures when nobody's watching and prays when nobody's listening. A guy who thinks that a Christmas tree should be green and Christmas should be hand picked.

"He wants to see America first in everything. He believes in honoring Mother and Father and do unto others and that kind of

stuff. He thinks he knows more than his teen-ager knows about car freedom and curfew.

"So will all of you gooney birds answering this description please stand up? You misfits in this brave new age; you dimly disorganized, improperly apologetic ghosts of the past, stand up and be counted.

"You squares who turn the wheels and dig the fields and move mountains and put rivets in our dreams. You squares who dignify the human race. You squares who hold the thankless world in place!"

**AND OTHERWISE—**

Ever get the feeling that there's nothing much except violence and hatred in the world? Probably like me, you have.

But then somewhere I read about the guy who took pen in hand and did some figuring. I don't recall exactly what numbers he came up with but among the things he found were that:

Some 136 million Americans

were not injured in automobile accidents last year. A whole passel of folk walked down streets at night and were not robbed, mugged or otherwise molested.

Millions of people past 40 are walking around. They never have had nor never will have (1) heart attacks, (2) cancer, (3) arthritis, or any crippling disease and will serve out their time on this earth in peace and tranquility until the Lord calls them home.

A vast majority of people who go into a bank, store or place of business do not enter for the purpose of robbing the place.

Scads of airplanes take off, fly and land every minute of the day and never even spill a glass of joy juice.

Something like 133 nations in the world are not at war.

Several million Russians are not actively spreading Communism in the United States.

A vast majority of the American people belong neither to the far right nor the far left, did not demonstrate last week against a single thing, loved their neighbor and minded their own business.

Almost a like number did not cheat on their income tax, their mates nor desert their families.

About half the pretty girls in Hollywood did not pose in their bathing suits—but then— about

half of them did.

At least a few tv programs were on the air in which no one was slaughtered.

And somewhere in the neighborhood of 97.3 percent of all the teenagers in America did not get into trouble, never will and despite the frug, the Watusi, the belly buster and a few other assorted modern dances, will grow up to be responsible parents who will—in their turn—wonder what the modern generation is coming to.

And all in all, for most of the people of the world, it was just another day in another week of another month . . . and a mighty good time to be alive—when you remember that a lot of the days news was the sensational rather than the usual.

**STOPPERS—**

Conscience is that sixth sense that comes to our aid when we are doing wrong and tells us that we are about to get caught.

Husband: "I suppose you are angry because I came home with this black eye last night."

Wife: "Not at all. You may not remember, but you didn't have that black eye when you came home."

**PATTERNS FOR PROGRESS IN COMMUNITY DEVELOPMENT**

**The Industrial Team selling a community to industry**

When a community prepares itself to attract new industry, a strong industrial team is essential. Industry representatives want all the facts. And only informed team members can sell a community's story accurately plus solving the industry's problems on a new location.

Team members must be thoroughly and completely informed on labor . . . taxes . . . utilities . . . transportation . . . sites . . . insurance . . . city commitments . . . and financing . . . thus indicating a minimum of seven members on the team.

As a PATTERN FOR PROGRESS a permanent Industrial Team is a definite requirement in a community's economic development program.

WTU's area development representatives have information about the organization and operation of an industrial team. This service is available to growth-conscious communities on request through your local WTU manager.

Mrs. Edna Roberts of Rankin, admitted August 12 and dismissed August 24.

Richard Grant, son of Mr. and Mrs. Harley L. Grant of McCamey, admitted August 24 and dismissed August 25.

### Inside Parking at Stadium Explained

Inside parking at the Rankin Red Devil football field will be operated on the same basis as last year, according to Mr. A. C. Copeland, high school principal. Season tickets will not be available. Inside parking will be restricted to the aged or ill patrons of Rankin and of the visiting teams.

Tickets are to be obtained by local individuals on a game to game basis from the high school principal's office prior to 3:45 p. m. on the day of the game.

Prices will be 50-cents per car. There is a limited amount of inside parking available and the administration asks that unless a fan qualifies under the above mentioned limitations, please not to request inside parking.

### School Menu

SEPT. 1-3  
WEDNESDAY

Vegetable Salad, Chicken Fried Steak, Cream Gravy, Mashed Potatoes, Green Beans, Light Bread, Ice Cream, Orange Juice

THURSDAY

FRIDAY

Gelatine Salad, Beef Roast, Brown Gravy, Buttered Corn, English Peas, Hot Light Bread, Ice Box Cookies

Fresh Milk and Butter served with each meal.

### Methodist Schedule November Revival

The Official Board of the Rankin Methodist Church announced plans for a Fall Revival at their regular August board meeting. E. vangelist is to be Rev. Charles Simpson of the First Methodist Church, Three Rivers, Texas.

Dates for the revival were set as November 7-14 with week-day services—Monday through Saturday—at 7:00-7:45 a.m. and 7:30 to 8:30 p.m.

The 7:00-7:45 a.m. services were slated at the early hour in order that working people might attend and still have time to get to their jobs before the 8 o'clock hour. Coffee and doughnuts will be served at the morning devotionals.

Sunday services will be held at regular times.  
"We extend to everyone a most hearty welcome," Rev. Bill White, local pastor has said. "With the date announced this early, make your plans well in advance to attend all services."  
Futher announcements will be made from time to time as the date for the November revival nears.

## Freezer Tips

### FREEZES TOMATOES—

Tomatoes can be frozen successfully. It's true, fresh ripe tomatoes do not freeze well. But if you have a good supply of tomatoes in your garden and space in your freezer, by all means freeze them—stewed or as juice. Follow these directions from food specialists.

**FOR JUICE**—Wash, sort and trim vine-ripened tomatoes. Cut in quarters or eighths, and simmer 5 to 10 minutes. Press thru a sieve. Season with a teaspoon of salt to each quart of juice. Pour into freezing containers with wide top opening, allowing 1-inch space at top of each quart. Seal and freeze.

**STEWED TOMATOES** — Remove stem ends, peel and quarter ripe tomatoes. Cover and cook until tender (10 to 20 minutes). Place pan containing tomatoes in cold water to cool. Pack into a wide-topped freezing container, leaving 1-inch head space per quart; half-inch per pint. Seal and freeze.

**FALL TOMATO PLANTS:** home gardeners can use their disease-free spring tomato vines for fall tomato plants. Simply remove a healthy sucker and transplant it like any young plant with roots.

And, it's time to begin preparation for fall gardens.

## Insecticides are for Killing; Handle Accordingly

BY W. M. (DUB) DAY  
County Agent, Upton County

Any insecticide that has been registered to protect man, crops, and domestic animals against depredation of pest will bear a label that is the best available guide to safe and proper use of the insecticide. Always read the label before applying any insecticide and follow the instructions carefully. These materials should not be used unless the user is prepared to follow the directions on the label.

Insecticide injury to man may occur through skin absorption or by oral or respiratory intake. Let's take a look at how to prevent the insecticide injuries listed above.

Many insecticides are almost as poisonous when they come in contact with the skin or eyes as when taken orally. Such contact may occur through spillage or the deposition of fine mist or dust during application of insecticides.

Liquid concentrates are very hazardous, so load and mix them out in the open. If any insecti-

cide is spilled on the skin or the clothing while mixing or leading the chemical, wash the skin immediately and change to clean clothing. Contaminated shoes are a serious hazard for skin absorption. Bathe at the end of the work period. Wear clean clothes daily. Wear rubber gloves while handling highly toxic compounds. Have a change of clothing and soap and water at hand.

In preventing oral intake of an insecticide, keep food away from direct contact of insecticides. Before eating or drinking, wash exposed portions of the body thoroughly. Do not smoke before washing the face and hands. Do not store pesticides in any unmarked containers or in containers which may be recognized as food containers.

In preventing respiratory intake wear an approved respiratory device when using highly toxic compounds or concentrated forms. Decontaminate the respirator between operations by washing and replacing felts or cartridges at recommended intervals of use.

Also regular users of phosphorus compounds should have blood tests, for their blood cholinesterase level, before the start of the spraying season and periodically thereafter.

Remember that many agricultural insecticides are poisonous.

## Livestockmen Slate Austin Gathering

Senator Dorsey Hardeman this week called to the attention of area livestockmen a meeting con-

cerning meat inspection for 10 a.m. August House Chamber of Control in Austin.

The meeting, called by Agriculture Commissioner in accordance with action authorizing economic effect of on Texas, will be State officials and Texas livestockmen Dorsey Hardeman interested stockmen

ON YOUR OWN TWO

\* Being a Column Dedicated to the Proposition that only a Nut would try to predict Football Scores in Advance.

### SECOND WEEK—

With the Red Devils in their second week of workouts it is getting to be fairly obvious that they are going to be a somewhat better ball club than was at first expected. They are still hurting at quarterback and as several of the more authoritative football prognosticators have pointed out, you don't build a quarterback in two weeks. And it might be added you don't necessarily build one at all. Some boys have the feel for playing the position and some don't. The problem facing any coach who doesn't already

have a quarterback is to find the boy or boys on the club who most nearly fills the bill. You only have to look at some of the pro clubs and their troubles to realize just how important this position is on the modern-day ball club.

And with this in mind, local fans need not expect the Red Devils to look like a million bucks until they get a little further down the road—on offense, that is.

Now as for defense, that could be another story. Here, too, experience has no substitute but a good hard nosed footballer will look a lot better on defense than he will on offense given the same amount of experience. That's not to say that defense is necessarily any easier a position to handle than offense. Nor is it less important. A good defensive man is—always much sought after for it doesn't mean a lot if you can score 28 points but let the opposing team score 30.

This year, in what must be the first time in a long time, the Red Devil roster does not list a single player weighing over 200 pounds. But, and this may be another first, they have fourteen players at 160 or better, plus several up over the 150 mark. These, in addition to about the usual number of good light men, ought to give the Red Devils one of their better balanced squads weightwise in several years. And in most positions, it won't be so thin when it becomes necessary to run in a substitute.

Another pointer in their favor is that the squad contains 22 juniors and seniors. True, some of them haven't played much football but from what Coach Mitchell says, you wouldn't likely know it unless somebody told you. He says they are pushing the more experienced boys hard and that several will definitely see action in games.

So it all boils down to the one ingredient that makes most ball clubs operate: want to. If this group continues to work with the

fire they have shown thus far and continue to apply themselves to the task at hand, they will come out all right. As said before, it's a little hard to beat AA schools when they put as much or more time into practice than you do but such has been done. And if it can be done with any degree of success in this year's race, the Red Devils may well turn out to be the team that does it.

And, briefly on this practice bit, after school starts, some of the members of the district—through schedule arrangements, so-called p. e. classes, etc.—manage to get in from two to five hours a week more practice time than do the Red Devils. Now that may not make much difference in football, it would seem that it would—but I'd just almost refuse to play a golf match with someone who got in that much extra practice each week over me. I'd at least want him to spot me a field goal—or three strokes as the case may be.

## Buie to get Degree At Tech Exercises

More than 100 students have applied for degrees at Texas Tech's summer commencement on August 21.

Dr. Travis White, president of Midwestern University, Wichita Falls, will give the principal address at the 7 p.m. exercises in Lubbock Municipal Auditorium.

The list includes Ronald Paul Buie, geology major from Rankin, who has field for a bachelor of science degree from the School of Arts & Sciences.

### PUBLIC NOTICE

NOTICE is hereby given that the Board of Trustees of the Rankin Independent School District will be in open session at 7:30 p.m. on September 9, 1965 at the School Administration Building and, among other proceedings, will officially adopt the 1965-66 School Budget.

## Guardsmen Raft Bread over Troubled Waters

Engineer troops use skills learned as Army Guardsmen to ferry needed food supplies across a swollen river in coming to the aid of flood-stricken community. This particular incident was recorded during floods which engulfed far western states in 1964, but is one which has been enacted, in one form or another, in every State in the United States, where the National Guard has long been a highly trained and equipped military force available to the Governor in time of civil disaster. Army Guard engineers, familiar with means of transporting tanks, artillery and giant tractors over water obstacles, found this large transport van no problem.

## How to liven up potato salad

Just mix it with Kraft Sandwich Spread! Special perky relishes in a creamy, zesty dressing. Great on head lettuce, too. And it comes in a handy new wide-mouth jar!
