Retirement Plan Gets Approval by County

In their regular meeting, held Monday, November 13, the Up. ton County Commissioners Court voted unanimously for the county to enter a retirement fund plan for all county employees. Action was taken under Article XVI. Section 62, as recently enacted by the Texas Legislature and a Constitutional Amendment and permitting formation of retirement fund plans where the Commissioners Court deems such action to be in the public inter-

Among the provisions of the plan as adopted are those requiring each employee to contribute 7 percent of his wagesalong with a 50-cent per month service charge, to the retirement fund. The 7 percent employee wage contribution is to be match. ed by an equal amount from the

Effective date for the program will be January 1, 1968. After that date, all persons who shall become employees of Upton County-including elected officialsshall become a member at the date of his employment, provided he is less than 58 years old.

Persons who have been employ. ed by the county prior to January 1, 1968, may include this prior service in their retirement program by making application to the county auditor who will verify the length of service.

Other matters handled by the court at the meeting were of a routine nature.

H. WHEELER ASKS FOR RE-ELECTION

H. Wheeler, Upton County Commissioner in Precinct No. 1, announced this week that he will seek re-election in 1968. Running on the Democratic tick. et, his name will appear on the May Primary ballots.

In making his announcement for re-election. Wheeler gave the following statement to the News:

"This will come as no great surprise to most of you and I realize it is a bit earler than usual for this sost of thing but since there have been some rumors that I was not going to ask for re-election, I had better set that business straight.

"I will be running as best I can and of course will be to see all of you as often as you will

"Mrs. H and I apprec'fe more than we can say the way you have treated us in the past and sincerely hope that you can see your way to support us again.

"We will be forever grateful. "So much for this. Now, we wish for you and yours Happy Holidays and forget about politics 'till next year."

THE SCOOP by Scoop

J. B. Hutchens, Jr., Editor

THE SHOOT OUT-

Last Sunday afternoon on the Henry Neal Ranch, a gathering of some of the most outstanding crack shots in the area gathered for a "Hog Drive." They were crack shots in that, given ample ammunition and at a distance of, say, 20 feets on a still day, they could all bust a bottle in three tries.

For those not familiar with the term, a "Hog Drive" is the Javelina version of the old coyote or rabbit drive that once was used by ranchers to clear their land of the unwanted varmits. Javelina hogs had been putting in a good bit of time creating havock with Henry's feeding facilities and he decided that the best answer was to get up a bunch and clear the holdings of them.

So at about 2 o'clock, we gath. ered: one jeep, two pickups, a four-horse trailer, four horses and about a dozen of the aforesaid crack shots, all ambly armed with sufficient firepower to get the job done. With the women. folk and an assortment of child.

ren gathered in the yard to see us off, we departed the ranch headquarters looking somewhat like a television version of "Rat Patrol", with reinforcements.

Picking a likely looking draw, we took up our positions with instructions to "make noises like slop buckets" in order to attract the hogs while the four riders pushed through the brush.

On the first sweep, we didn't stir up anything except a few dozen jackrabbits which decided to seek new quarters.

On the second sweep of still another draw, we again flushed another bunch of jackrabbits—but no hogs. And so it went.

We spent most of the afternoon dashing up one draw and down aonther, always keeping a covey of rabbits stirred up but nary a hog did we see. One fox was dislodged and that brought on a volly of shots after which Junior Beringer admonished the group in the proper way to call

he doesn't find his quarry. We had to call it on account of rain. In West Texas, of all places.

But, I guess that's the way it is with hog drives. As Henry said, "I've lived 67 years now and been on one hog drive." It was an experience.

And speaking of experiences, for those of you who like a little excitement with your buttermilk. I suggest a drive in a pickup—pulling a four-horse trailer, out across a mosquite flat—with Mr. Neal at the wheel. I guarantee he can get you there the fastest and will use the shortest route in doing so.

Anyone for a hog drive? Just one word: try to get the hogs lined up and cooperating before you start out.

GOLD BRICK-

They say that our good buddy, Charlie DeGaulle is trying to break the bank—or U. S. mint by cashing in his dollars for gold. This high finance is way over the head of country editors but there comes to mind at least one question: how did ole Charlie Boy get hold of all those dollars?

Of course it doesn't take a very bright person to figure that one out. We—the U. S.—gave them to him in the form of foreign aid, loans and payment for goods we purchased from France.

Well, that was our mistake and since we didn't have any better sense than to do business with old C. B. in the first place, then we probably are now getting what we deserve. But it should not all be for naught. If we have any people left in Washington who have the sense of a pinch ant, then we'll cut Mr. Charile and his gang off—short. No more nothing and that would mean even as much as the time of day.

And while we are at it we might do well to take a closer look at some others who are getting big hunks of American aid. If one will bite the hand that fed him, there's no reason to think there won't be others.

PROTECT CARPET AGAINST HOLIDAY ACCIDENTS

Extra holiday traffic and entertaining brings accidental spills and tracks to home carpets. But, with today's durability and easy care features, it's much easier for the homemaker to protect carpeting from perman. ent stain and soil damage.

There are three simple rules which pay big dividends in the maintenance and appearance of your carpet during the bustling holiday season.

1. Don't wait until the guests have gone to get busy on that cup of spilled cranberry punch! Act immediately on spills before they dry and "set" or the result may be a permanent reminof your neglect

2. Keep cleaning equipment and supplies on hand for immediate "first aid." Two cleaning agents recommended by the A. merican Carpet Institute for the home use are: (a) one teaspoon neutral detergent in one quart water, plus one teaspoon white vinegar added; and (b) a dry. cleaning fluid or solvent available from household cleaning merchants.

3. Identify the spot or stain to determine the approprite removal procedure Spots that are water soluble may be removed with the detergent solution. On the grease and oil.borne stains, use dry-cleaning compound.

CHRISTMAS PARTY WILL BE HELD DECEMBER 14

7:30 p. m., Masonic Hall, All Masons and Eastern Star members and their families are invited. Bring a present for your

(s) T. H. Spencer, W. M.

Often it is impossible to ident. ify the stain or spot. Use a general cleaning procedure utiliz. ing both the water solution and the dry-cleaning solutions.

When cleaning a carpet, don't get the area too wet. Dry it off after cleaning as quickly and completely as possible.

SO YOU WANT NEW INDUSTRY

PART I

Prepared by the Texas Industrial Commission, Box JJ, Austin, Texas.

Community betterment sounds like a catch all phrase—and it is. Industrialists today are much like homeowners when selecting a new location. Amenities such as schools, hospitals, parks and even symphonies are increasingly more important.

Industry today is more footlose than ever before, no longer tied so closely to natural resources, but rather to the consumer. Because of this, more and more industries are locating plants or expanding facilities in relatively small towns where living is satisfactory, where land costs and taxes are not so high, but where big markets can still be served.

There may be a dozen or a score of smaller communities in the same radius around a major market, each of which could serve an industry's purpose in terms of land costs, taxes, utilities and water, with very slight differences. So how does an industry

The same way that you would choose between homes of the same price: on the basis of attractiveness, cleanliness and neighborhood schools, churches and other advantages. In the final analysis, it will be the total environment that your community offers that will make the difference between landing or losing new industry.

How does a community go about starting a program of betterment?

At the outset it is important to realize that this is not an overnight project, or a one-month or a year's project, but a continuing project that may show results in five years or maybe ten.

Start the ball rolling by pushing modernization of streets, parking facilities, curbs and side. walks. Some towns in Texas still have curbs designed for horse and buggy days. NOTHING LOOKS WORSE THAN GRASS AND WEEDS GROWING UP THROUGH CRACKS in down. town sidewalks. Spur individual merchants to make improvements on their buildings to keep up with the revitalized interest in the town.

Influence the owners of vacant buildings in town to let them fill the street windows of these buildings with merchandise and colorful advertising displays. The building will appear occupied and attractive to visitors.

Hopefully, with this type of activity going on, individual mer-

chants and property owners will be influenced to make overdue renovations of their shops and offices. Wonders can be worked on the appearance of Main St. with some of the new design aluminum facades that are available some wider expanses of glass display window, paint, and perhaps a new front door

Remove old rotting ramshackle, deserted buildings that have served no useful function for years. Put these eyesores to work . . . as firewood.

Look at the entrances to your town on major highways. What sort of greeting have you put out for visitors? Has the sign marking your city limits been there for thirty years? Try making this city limits sign a bright, cheerful greeting. Ask someone from a club to volunteer maintenance of some ladnscaping at this point. Think of a welcoming slogan that means something a bout your city, that visitors will remember like, "Smithville, the pride of all who live here."

Of course, there is much more to the concept of community betaterment than putting a new face on Main Street, or removing the deserted shacks, or planting flowers around the city limits sign. These are all good specific things to do for a start, but the leaders must look deeper.

There must be a long range plan for the city, with goals and working committees to see that these goals are pursued. Consideration must be given to zoning, adequate housing, recreation facilities, health and sanitation, education facilities, police and fire protection. Certainly all of these things will be looked at carefully by any industry that considers locating in your community.

And are not all these ideas for betterment ideas that you would want to implement in your com. munity anyway — regardless of new industry. Of course, they The Rankin (Tex.) N Thursday, Nov. 30

Community Improvements

Nothing marks a community as being progressive more than its attitude toward self-improvement. Rankin should rank high on the list of places that continues to show improvement from year to year and much credit must go to civic-minded groups and individuals who "keep plugging" despite minor setbacks.

APO or FPO Number a Must on Mail for Overseas Servicemen

Postmaster Grace Roach today urged the citizens of Rankin to be sure to use the correct address on their letters and packages going to service men overseas to

Public Notice

PUBLIC NOTICE

OF THE REQUIREMENT FOR RECORDATION AND LIMITA. TION OF CERTAIN CLAIMS OF WATER RIGHTS.

Notice is here given as requir. ed by Section 4 of the Water Rights Adjudication Act of 1967 Artlice 7542a, Vernon's Civil Statutes) that all clamis of riparian water rights, all claims under Article 7500a, Revised Civil Statutes of Texas, 1925, to impound, divert or use public waters for other than domestic and livestock purposes for which no permit has been issued, all claims of water rights under the Irrigation Acts of 1889 and 1895 which were not filed with the State Board of Water Engineers in accordance with the Irrigation Act of 1913, as amended, and all other claims of water rights other than claims under permits and certified filings, must be recorded with the Texas Water Rights Commission. Section 4 does not apply to use of water for domestic and live. stock purposes as the same is defined by Commission Rules.

On or before September 1, 1969, every person claming any water right to which Section 4 applies shall file with the Commission a sworn statement setting forth the nature of the claim of water right. Claims to which the Section applies shall be recognized only if valid under existing law and only to the extent of actual application of water to benefical use without waste during any calendar year from 1963 to 1967, inclusive. However, in any case where any claimant of a riparian right has prior to August 28, 1967, commenced or completed the construction of works designed to apply a greater quantity of water to beneficial use, such right shall be recognized to the extent of the maximum amount of water actually applied to beneficial use without waste during any calendar year from 1963 to 1970, inclusive; provided an additional sworn statement is field on or before July 1, 1971. Failure to file the sworn statement or statements in substantial compliance with Section 4 shall extinguish and bar any claim of water right to which the Section applies.

Instructions and forms for recording claims may be obtained without cost from the Texas Water Rights Commission, P.O. Box 12396, Capitol Station, Austin, Texas 78711.

/s/ JOE D. CARTER

Joe D. Carter, Chairman TEXAS WATER RIGHTS COMMISSION avoid serious delays in delivery.

Postmaster Roach reported that millions of letters and packages going overseas have been delayed because they were insufficiently addressed. One of the biggest problems has been the failure of persons to include the very important 5 digit APO or FPO number in the military address. Mail not containing this number is incorrectly addressed.

Last year more than 9 million pieces of mail were delayed in delivery. Of this number, three and a half million pieces failed to include the complete 5 digit APO or FPO number in the address. This improperly addressed mail had to be sent to a military locator directory where time consuming searches were made to determine the proper addresses.

"As the Christmas mail volume going overseas is expected to
increase up to 30 per cent or
over 4 million pounds above last
year, every precaution should be
taken by friends and relatives of
servicemen to address their letters and packages properly to assure rapid delivery to its destination," the Postmaster said.

There are four essential elements to an overseas military address. They are:

- The serviceman's identity grade, full name, and service number.
- His military unit—complete.
- Gateway post office New York, San Francisco or Seattle.
- APO or FPO a 5 digit number.

When any of these elements is missing, the letter or package will be delayed in delivery.
