SERVING THE INTERESTS OF RANKIN AND UPTON COUNTY

XXXIII—NUMBER 30

RANKIN (79778), UPTON COUNTY, TEXAS

THURSDAY, AUGUST 7, 1969

In Rankin Schools

455 employed, \$3.3 Million Payroll --

AYNES, a native of Rankin, will be the new speech teacher in Rankin Junior High when classes open on September 8. She is a twenty-two year graduate of Harland State University in Abilene.

ROGER DALE GOODWIN, 23-years-old, will be the new 7th and 8th Grade teacher in Rankin Junior High this fall. Goodwin, a native of Gorman, attended Rising Star Public Schools and is a B.S. degree graduate of Tarleton State College.

Married, he is a member of the Baptist Church and has participated in high school football and track.

Twirler wins Arlington

Open, sixteen-year old Mrs. John Rankin was recently winner of the "Beauty Queen" contest among 15-17-year-old age group at the 12th Annual Summer School at the University of Texas at Arlington.

Kindergarten Plans Revealed by Church

Plans are underway for the opening of pre-school kindergarten which will run September through May, 1970.

Enrollment will be confined to children one year away from entering public school, and only a limited number of students will be taken. Mrs. Eddie Autrey will again be employed as full-time teacher. Good facilities will be provided with tuition being \$20 a month. Classes are to be from 8:30 until 11:30 a.m., five days a week.

The purpose of the kindergarten, sponsored by the Rankin United Methodist Church, is to better prepare children for their first year in public school.

For further information, call the Methodist Church at 693-2283 or Mrs. Autrey at 693-2724.

Course Offered to Area Homemakers

Having trouble making that food money stretch? Are your meals hum-drum? Are you confused in today's supermarket?

If the answers to the above questions are yes or even maybe, Mrs. Lou Jeffers, County Home Demonstration Agent has news that may interest you. The Upton County Extension Service will conduct a free correspondence course (Continued to Back Page)

Upton 15th in Texas for Oil and Gas Production

ED: This is the second in a series of reports on oil and gas production in Upton County as compiled by the Texas Mid-Continent Oil & Gas Assn.

Upton County oil and gas wells pumped some \$74.1 million into the county's economy last year, according to a study just released by the Texas Mid-Continent Oil & Gas Association.

Value of production from oil wells was \$66.8 million and from natural gas wells \$7.3 million.

based on the most recent U. S. Bureau of Mines figures compiled by the Association. The county ranked 15th in the state in value of production.

"Output from Upton County is part of this country's domestic oil supply which is endangered by some of the proposals now before Congress," commented Corbin J. Robertson, Association president. "Attempts to destroy percentage depletion provisions of our income tax laws and to nullify present controls over imported oil could

discourage further development of Texas oil resources. Eventually oil markets now shared by the county would be given over to foreign producers."

Last year, the county produced 22.8 million barrels of crude oil and 57 billion cubic feet of natural gas.

Of this total, county landowners and others with mineral interests received royalty payments of \$1.5 million.

The state received \$3.6 million in production taxes with crude oil accounting for \$3.1 million and natural gas \$516,000. A number of school districts in the county lean heavily on oil production for ad valorem tax support, such as Rankin, 90% and McCamey, 95 percent.

Drilling expenditures were an estimated \$4.8 million. Of the 49 wells drilled in the county, 31 were completed as oil wells and 6 as gas wells, according to Ira Rinehart's Yearbook. The 12 dry holes cost \$901,000. There were 8 wildcats drilled.

The Texas Employment Commission lists 455 workers on oil and gas payrolls, which totaled \$3.3 million.

Also adding to the county's economy, the Oil and Gas Journal shows 5 natural gasoline processing plants with a daily capacity of 159.6 million cubic feet.

County Votes Against Five of Amendments

A total of 290 voters — two by absentee—turned out Tuesday in Upton County to vote on five of the nine proposed amendments to the state constitution. The turnout was even smaller than expected but followed the general trend in the state.

- County-wide votes were:
- No. 1: constitutional changes—112 for, 167 against
- No. 2: water: 215 for, 75 against
- No. 3: pay raises: 63 for, 214 against
- No. 4: exempt nonprofit water districts from taxes: 93 for, 185 against
- No. 5: welfare assistance: 171 for, 117 against
- No. 6: removal of interest rate limitations: 77 for, 193 against

No. 7: payment to survivors: 173 for, 111 against

No. 9: one year sessions: 84 for, 193 against

In Rankin, with 140 votes cast, the results were:

- No. 1: 44 for, 79 against
- No. 2: 101 for, 22 against
- No. 3: 37 for, 84 against
- No. 4: 33 for, 85 against
- No. 5: 86 for, 35 against
- No. 6: 36 for, 80 against
- No. 7: 64 for, 58 against
- No. 8: 83 for, 36 against
- No. 9: 42 for, 76 against

Red Devil Band to Open Rehearsals

Gordon Scultz, the new band director for Rankin Public Schools, announced this week that practice sessions will start Monday, August 18 for students grades 9 through 12. Busses will run for the benefit of students living out side Rankin during the rehearsals.

"I'm looking forward to meeting members of the Red Devil Band and feel that we can accomplish a great deal during this period of work," he said.

Scultz is a graduate of Pampa High School and Texas Tech College. He, his wife and son come to Rankin from Tahoka where he has been band director for the past two years.

WORK on Rankin's latest construction project is proceeding at a fast clip just off West Highway 67 where a new business concern is being built by R. C. Quick.

Presently under way is a building containing approximately 2100 square feet of floor space that is to house a drive-inn cafe and a

restaurant. Of tile and brick, provisions are being made to add on to the structure later on according to Quick.

The new eating place will be opened on a twenty-four hour basis at the start, Quick has said.

"The doors have no locks and we have no keys," he explained.

THE SCOOP by Scoop

J. B. Hutchens, Jr., Editor

CAN WE—

Now that we have put men on the moon, the general trend of liberal thinking seems to be: let's get about fixing up the things that need fixing in this country.

"If we can put a man on the moon, we ought to be able to take care of the problems of our poor, of our slums, of the world, etc., etc." seems to be the developing attitude.

Well there's just one little thing wrong with that sort of thinking. Those who are now saying that we must solve all our social problems because we can put a man on the moon are thinking in terms of the government solving these problems but the fact of the matter is, the "government" didn't put a man on the moon. Private enterprise did.

I seriously doubt that the "government" could put together a committee or department that—by itself—could get a kite off the ground, much less put men on the moon.

Oh, sure, the government put up the money—money collected

The Rankin (Tex.) News—
Thursday, August 7, 1969

from the tax payers, who, in turn, are taxpayers because of free enterprise. The "government" produces nothing of market value.

Private enterprise produced the equipment and knowhow that has enabled man to walk on the moon and to plan still further but if it had been left up to the "government", Armstrong and his crew would still be filling out forms in trying to get into the program.

NO PROTEST—

Another sidelight on the moon trip points out the shallowness of much of the protest claptrap that is spouted by a few so-called intelligent college kids when they say that the present generation is a failure. The moon landings were not accomplished by people carrying placards and wearing dirty shirts while they sat on their duffs and protested.

According to one Jean Piaget, (Continued to Next Page)

DOUBLE STAMPS ON WEDNESDAY

It would seem to me that that's about the size of it and when it comes to those who protest with-

out offering solutions backed up by actions—well, who needs them. They are making no contribution—only noise.

Not too long ago, those who did not work were called bums. For some reason we now think of them in terms of being some sort of special class, given to low ideals.

But maybe that's progress.

Good teams are made when everybody works together and I firmly believe that you people are sufficiently dedicated to the game that—as Coach Boal said in his statement to the school board — you can win in a big way.

After all, when you're a Red Devil, you're not just any ball player. You're just a little bit of something special—and that's not a political speech. I've been a-

round football teams since before any of you were born and there's always been a bit of pride and spirit shown by Rankin teams that I've seen no other place.

Red Devil teams don't always win but there has been few times when they didn't try.

And that's about all that can be required of any of us—in football or otherwise.

RANKIN NEWS

THEY GO—

One of the favorite pastimes in Rankin this summer has been trying to guess each morning who is still on the coaching staff at Rankin Schools. Sometimes there are changes before the morning coffee break.

Actually, considering the Red Devils' record last season — plus the potential on hand for the upcoming season, it's a little hard to figure all the coach changing. But then, ours is not to reason—or something of that nature.

Anyhow it looks like we're going to have a lot of new faces this fall in the sports department as well as the band and a number of teaching posts.

Naturally, the one that will get the most attention will be that of head coach George Boal. As yet I have not met Coach Boal but from those who have come the report that they have all been impressed with both his record and his attitude toward the job he is to hold.

I think it can be said without undue comment that Coach Boal will find good, overall cooperation in Rankin, from fans, parents, ball players and his fellow workers and certainly — in our small way—from the News.

Like everyone else, I'm ready to get the season underway. We've got a lot to look forward to.

To the Red Devils, I'd point out this: you don't have to prove to yourselves that you can play football. You did that last year. Although you will have a batch of new coaches with new methods and ideas, you will still have the same talents.

REPORT FROM AUSTIN

BY GEORGE BAKER
Rep., 66th District

This first week of the Special Session became a busy one for both House and Senate after the preliminary of opening. The Senate debated its appropriations bill for the two-year period, beginning September 1, 1969. The bill was adopted 28 to 1 after a brief debate. It totals, \$5,852,262,185 for all state functions for the two years.

The House debated its appropriation bill at length on Thursday, final work day of the first week. The total bill was passed by the House in the amount of \$5,749,410,891, for the two years, with the Senate bill \$102,851,294 higher than the House version. The final version will come from the conference committee later in the session.

One amendment by Rep. Bud Sherman of Fort Worth had much appeal, since it provided for a 10% cut in general fund spending for the two years. It was hard

to vote against an amendment which would effect a cut in the spending, and perhaps allow a lower tax levy. It is much easier to vote for such a proposal than against, but there were many factors to consider and I voted against the amendment.

These are the reasons:

The proposed reduction would not affect a large part of the state's fiscal program—public education, Texas Highway Department and many other areas would sustain no reduction. All of the cuts would have been made in general fund appropriations, from which we pay for mental health and mental retardation, corrective institutions, the small amounts which go to our needy aged and our unfortunates.

Texas ranks 47th among the 50 states in state tax expenditures per capita. I am proud of that standing and cite it to show that Texas lawmakers have not been irresponsible in spending for this state.

People of Texas are not anxious to spend needlessly—nor are they willing to let the state fail to progress through lack of funding of the agencies and prog-

HINTS for the HOMEMAKER

By Mrs. Louie S. Jeffers, County Home Demo. Agent

Freezing in Glass --

Glass containers can be used in home freezing although care in handling is required. Clear glass makes labeling unnecessary. Add only the date of freezing.

If you use jars, here are a few simple steps for handling them:

1. Examine jars to make sure they have no nicks or cracks. Wash them in hot soapy water,

rinse and scald them. Invert jars on a clean cloth to drain and cool.

2. Pack food in clear jars to within 1/2 inch of the top of jar. Pack firmly but not tightly.

3. Place cap on the jar with sealing composition next to the glass and screw the band tight. No special cap is needed for the freezing; use canning lids.

Sue: "Father is pleased to hear that you are a poet."

Jon: "That makes me divinely happy."

Sue: "You see, he tried to throw out my last boy friend and he was a wrestler."

Coed: "Do you think it's the amount of money a fellow's father has that's important?"

Girl friend: "Certainly not! It's the amount of the father's money that the boy has."

grams which Texas citizens demand—good highways, better public schools and colleges, more adequate programs for the mentally ill, the handicapped, the unfortunate.

In the second week the Legislature will consider the tax bills which were given a hearing the first week.

Auxiliary Notes

July Memorials

Rankin Hospital Auxiliary gratefully acknowledges receipt of memorial gifts during the month of July for the following:

IN MEMORY OF Mrs. Mildred Michum from Mrs. T. B. Crow
IN MEMORY OF Mr. R. R. Stevens, father of Mrs. Cecil H. Meredith from Fidelis Matrons and Mrs. Elizabeth Rains.

IN MEMORY OF Mrs. Mary Gladys Davis, mother of Mr. Jake Van Zandt, from Mr. and Mrs. Joe Simpson, Fidelis Matrons and Mrs. Elizabeth Rains.

Mrs. Surber Plans Handicraft Classes

Karen Jo Surber of Rankin has qualified as an instructor in the popular handicraft of "Liquid Embroidery" and will offer classes without charge, to local residents.

The new instructor has been appointed to serve this area for the variety of decorative hobby products manufactured by Tri-Chem, Inc., originators of the ball point tubes of color. She will present sessions at local clubs and community events, as well as at private parties in homes here.

Liquid Embroidery is the internationally used, easy to learn decorative method which creates colorful and stylized design effects on clothing, household linens, and all sorts of fabrics with specially designed tubes of washable color.

Bearing the Good Housekeeping seal, Liquid Embroidery offers the beauty of pain-staking embroidery in a fabric of the traditional time. The method is also applicable to wood, plastic, glass and many other materials.

The newlyweds were driving from the church to the reception. The groom pulled the bride toward him, put his arm around her shoulder, gave her a loving hug and whispered in her ear: "Now, Honey, what's all this jazz about you quitting your job?"

Legally, the husband is the head of the house and the pedestrian has the right of way. Either comparatively safe if he doesn't try to exercise these rights.

KOUNTY AGENT'S KORNER

Bugs in Lawns --

Chinch bugs will soon be a problem in home lawns. Several effective insecticides are available for controlling these pests.

When buying insecticides, an important consideration is the cost for treating a given area. Some of the prices and sizes of containers will confuse the buyer who doesn't read the label carefully.

Find out the amount of dilute solution or dust it will take to treat the lawn and then divide this into the cost of the concentrated insecticide. If the dilute "cheaper" insecticide does not cover as much area, then it stands to reason that it is not really

cheaper. Figure the basis of the label.

The only time is for the homeowner to expensive insecticide is either more effective less danger of excess or is safer for use on plants or animals are
