Of this original amount, all but about \$6,000 has been collected. At least a portion of the remaining amounts will be accounted for in four Sheriff's Sales, to be held Tuesday, July 8. Notice of these sales have been published in the past three issues of The News. They are the results of judgments awarded in court where the property has been ordered sold in order that payment of delinquent taxes may be made.

About a dozen more cases are

pending in the 83rd District Court and are expected to be heard on Wednesday, July 8.

The procedure in the Sheriff's Sale calls for the property to be sold at auction with the stipulation that the owner cannot purchase it at this time However, after one year, he may repurchase the property at a 25 percent penalty above the amount which it brought in the Sheriff's Sale. ### Summer Weight Work to Begin on July 6th

Head Coach and Athletic Director Dwayne Turner announced today that a summer weight lifting program would get underway at the High School Gymnasium beginning Monday, July 6th. Open to all interested students, the activity is on a voluntary basis and sessions will get underway each evening, Monday thru Friday, at 6:00 p.m.

The program will continue thru the summer and will be under the direction of Turner with assistance from other members of the coaching staff.

A similar though more extensive summer recreation program has been sponsored by Rankin Schools for the past several summers. Due to work on the track field, to begin after July 4th, and reconditioning of basketball court floors, only the weight lifting will be undertaken at this time.

"This program is open to all grades-to those interested," the coach said. "An average workout will only take about twenty minutes and can be time well spent for those interested in improving the muscles and general health.'

Turner also said that some new equipment had been purchased for use in the program.

In remarks concerning boys interested in coming out for football this fall, the coach said that he was pleased to see a number of the boys working on outside jobs. "A lot of good sunshine will be helpful for their physical conditioning," he noted.

#### CAPTAINS NAMED

Turner, who has already met

with the Red Devil football team on a "get acquainted" basis, said that the group had picked team captains for this fall. They will be Jim Vick, Bob Parham and Bill Routh, All three are seniors and are expected to give strong leadership to the ball club-

THE REGULATORS-

Down in Austin right now, there is a group working full steam to saddle the taxpayers with another fat-cat state agency. This time the proposal is to set up a commission to regulate telephone rates throughout the state. This regulation is presently carried out by the cities, towns and villages in the state.

It's the same old song and dance used by all those who are in favor of big government: that the individual or the little town is not equipped to deal with the big ole bad telephone company and that the state ought to "take over". Oddly enough, this is the same wolf cry used by the Federal government when they want to grab off something from the states.

The theft is always carried out under the guise of doing something "for the good of all the people".

Well now, it's true, we here in

The Rankin (Tex.) News— Thursday, June 25, 1970

Rankin may not know much about telephone rates in Houston or Dallas—or McCamey or Big Lake. However, we know a great deal more about them in Rankin than any bunch in Austin.

For example, since 1959 my telephone bill here at the News has ran from a low of \$187.29 per year to a high of \$335.21—depending on how much long distance business I've had In 1959, my bill was \$262.17. Last year, it was \$285.13. The ten-year average has been \$265.50.

Aside from perhaps your other locally controlled utilities, do you know of another thing that you buy that has remained that consistant in price over the past ten years? I sure as beck don't.

Now let's look at a little item in which we already have one of these state commissions look-(Continued to Next Page)

## L E T T E R S To The Editor

To the Editor:

As one of the members of the "silent majority" that Mike Wheeler spoke of in a recent letter, I have decided to speak up in my own defense! I do not always agree with your opinions as expressed in your paper but I do respect your right to your own point of view. Indeed it would be a dull world to live in if all of us were so alike that we possessed no individuality. No doubt there are many of us who are not always in agreement with you. Mike says we won't speak up! What does he want us to do form a protest march against you? This is a game for children; for immature people who are not satisfied with having their own opinions. They feel the need to cram them down everyone elses throats!

This generation gap we hear so much about . . . I suppose I'm in the middle of it since the younger generation is composed of all under 30 and the older generation is over 40.

I want to say this to Mike: I am thirty-two, mother of four children, an average citizine, an individual. I refuse to be lumped together with all those you speak of as smoking, drinking, wanting bigger cars, etc; All I want is to raise by children to have respect for the laws of this land in which I live; and to grow up having a firm belief in God and respect for his laws above all. I want them to be able to look upon their lives with pride-not with shame or sorrow. It is sad to see so many of the "younger generation" allowing themselves to became as (Continued to Next Page)

We've had so much "protection" from the state commission that most of us just can't afford the insurance we may need. And if we let them take over regulation of telephone rates, you can look at the record and see that we can expect nothing but an agency that will be a political plum to be

generation, but also the middle generation and the younger generation.

I feel the older generation has no right to condemin the younger generation for their actions. They sit back and moan and groan about what the younger generation is coming to when they read of riots, etc. Do they not realize that they are the very ones who are financing these things? If these young who spend their time in riots and marches had to support themselves they would not have time to go about protesting-instead, they would have to become responsible citizens. Stop supporting their riots. Let them grow up. Let them earn their own keep and learn to be proud of themselves for the ability to do so.

We need them as responsible citizens to help make this world a better place to live. No matter how loud their voice may be now, it will not be heard as long as their actions prove them to be immature. As for me I have faith that those who are ruining the earth will not be allowed to do so much longer.

Thank you.

Sincerely, Mrs. E. A. Richardson Midkiff, Texas handed around, will cost a ton of bemoney to operate, and will grant
raises in rates at about the same
pace as the insurance commission has.

Let's keep control of rates on a local basis. Here we have the Mayor and Councilmen, men we can corner and talk to, men we know and respect, men like ourselves. Let a commission be set up in Austin and I'll give you odds that we'll never see one of its members in Rankin and that should you write them a letter, you would get an answer from a computer.

And with local controll, I can assure you that the telephone company—as well as the utilities company—is very sensitive to the attitudes of local people. They get five papers each week and, in the past, when any local gripes have appeared in print, they've had somebody down here—quick.

Let Austin take over control of rates and what would be the point in anyone giving a good big hoot what people in Rankin felt about service, rates or what have you?

A short note to George Baker in Fort Stockton and Pete Snelson in Midland, expressing your views on this matter would be well worthwhile. Fail to take your stand and you may be paying through the pocketbook from here to eternity and longer for that's how long one of these state monsters lives once it is set up—regardless of the job it does.

#### LETTERS TO EDITOR

June 21, 1970

Rankin News Rankin, Texas

Dear Editor,

Mike Wheeler's recent letters are interesting. We may have a "Generation Gap", but the dedicated parents, teachers and law officials have faith and know the future generation has a great advantage.

Enclosed is an article from The Abilene Reporter-News, Sat., June 20, 1970, "Don't Kick Piano". This expresses my thoughts.

(ED. Due to a lack of space, only portions underlined by the writer of the letter follow).

"When someone suggested to Lord Caradon, the permanent United Kingdom representative to the United Nations, that the United Nations needed a radical overhaul, he replied:

"There's nothing wrong with the U. N. but its members. If the tune is bad, don't kick the piano."

"When Dr. John Bennett, president of Union Theological Seminary refused to accept the student body request that endowment funds be used for Black Panther bail, he remarked . . .

"I think that the seminary exists for this crisis and for many future crises but students often speak as though they believe that this is the final crisis . . . I do not believe that the persons here during a particular year should act in such a way as to sap the strength of the seminary in future years because of an apocalyptic view of contemporary history which may well be mistaken."

Sincerely, Mrs. Harold Kennedy 2206 16th St. Brownwood, Texas
