## Johnson Annual sale to begin Thursday

The one event that lends some  
cooling comfort to the July heat is  
the annual July Clearance staged  
each year at this time at John-  
sons. The big department store  
offers only two bargain sales on  
a store-wide basis yearly.

"We have some real good buys  
for our customers this time," said  
Charlie Wheeler in commenting  
on the sale. "We only ask that  
you come in and see for yourself,  
but we'd advise shopper to come  
early."

Beginning Thursday, July 16, the  
door open at 8:30 a.m.

## HOT STUFF—

Rather warm isn't it? But like the cartoon carried in last week's news: "You were maybe expecting a blue norther?"

On the other hand, it may be just my imagination but July and August seem hotter to me than they did when I was a kid. Now there's the real possibility that as the years go by and I get a littler closer to my three score and ten, the Man is trying to point out that if I don't change my ways, I ain't seen nothing yet.

But if that is the case, I'm not going to be lonesome for just about everyone in Rankin is complaining about the heat. And January, we'll all mouth a bit about the cold.

People may be a little hard to please.

## BAD SHAPE—

One of the more hashed-over topics of the day—as it has been

However it seems to me that television is not nearly as bad as it might be. For example, take all these little ads that warn you about such goodies a dandruff, bad breath, fallen arches, foul aromas, holes in the teeth, tired blood and little pills that don't

other hand, its not very  
en you consider that all  
necessary is for those who  
laws—the people you

and I—voters AND taxpayers—e-  
lect to public office, make the rules  
of the game. Until such time that  
we as voters—and taxpayers—are  
willing to change our attitudes and  
self-selected methods of electing  
our big-time office holders, then  
we can get ready to be clabbered  
with the tax stick to the point that,  
indeed, there will no longer be  
rich or poor in America — only  
poor.

And when we reach that point,  
we can take pride in pointing out  
that—like Communist Russia—we  
are a classless society. I guess  
you could call it pride for we will  
have done it to ourselves and of  
our own free will.

An example of our present way  
of thinking and electing office-  
holders can be found right here  
in our own district. For many  
years we have returned to office  
our State Representative in Wash-  
ington, D. C., the Honorable O.  
C. Fisher. He is noted to be a  
staunch conservative, thinking a-  
long the lines of a majority of  
West Texans—even though I be-  
lieve he did agree to accept the  
fat raise Congressmen voted unto  
themselves a year or so ago.

Although we here in Upton Co-  
unty have not always been in  
Fisher's district, he ran at the top  
of the list as a vote getter in the  
Democratic Primary last spring.

And for the record, he has al-  
ways maintained a strong stand  
against the big spenders—except  
in the case of his salary—ideals.  
In fact, during the time he has  
held office, we've had nothing but

increases and increases in big  
spending so much so that Cong.  
Fisher has had plenty to fight a-  
gainst.

BUT—has he been effective?  
Overall, I think the record will  
speak for itself. We get more and  
more spending.

The point I make has nothing  
to do with Mr. Fisher, the man.  
What I'm saying is that we vot-  
ers will return a man to office  
year after year after year and  
still the big spending trend goes  
on. If Mr. Fisher has not been  
effective in all the years he has  
been in Congress, then we had  
better change him out without re-  
gard to his political thinking. He  
is not getting across the message  
as we in West Texas want it said.

It may well be that the situa-  
tion is beyond hope, that we've  
gone so far toward Socialism that  
no one man or group of men  
elected to our public offices  
can be effective in reversing the

trend. But if we have any chance  
left at all, it would seem to me  
that we're going to have to have  
someone else try their hand for  
a change. As it stands now, the  
situation is rapidly approaching  
the critical stage with proposals  
for big spending that make those  
we already have look like peanuts  
in comparison.

Again I say, this is not Cong-  
ressman Fisher alone. With the

trend of the big spenders win-  
ning year after year, we must do  
a lot of changing all the way from  
Austin to Washington if we're go-  
ing to get anything different —  
and just to prove that this is not  
a party pitch, I'd certainly say  
that the same goes for John Tow-  
er when his term is up. He hasn't  
exactly been holding his finger in  
the dike on this spending bit—not  
effectively.

## New Unit in; Work Underway on Air for the Hospital

Work has been going full blast since Monday at Rankin Hospital as a crew rushes installation of a new air conditioning system. The hospital has been without effective air conditioning for about a month with the result that a number of prospective patients have been sent on to other hospitals and conditions have been far from comfortable for those who were admitted—as it has been for the hospital staff.

Dr. Gossett said that due to the heat generated by the large lights and the lack of air conditioning, it is almost impossible for him to use the hospital's operating room.

But relief is in sight. With a crew composed mostly of local workmen, a strong effort is being made to get the new unit into operation as quickly as possible—a week or ten days was the original estimate of time needed for the installation.

The air conditioning system at the hospital—never noted for being a thing of efficiency—is about 17 years old. Efforts have been made almost on a yearly basis to improve the system with a good portion of new equipment installed earlier this year. But to no avail—the old unit heaved its last effort just as the really hot weather set in.

Estimated total cost of the new refrigerated system has been put at \$15,000 by the Board of Dir-

We've sat at home and watched our earth rise over the horizon of the moon.

A civilization that can accomplish that should accomplish anything.

Wouldn't you think we could keep Earth unspoiled for ourselves and future generations?

We can begin by refusing to litter.

## Dr. James Strange to Work in Israel on Archeological dig

**ED.:** The following is a portion of  
a news clipping from the Daily  
Record, Morristown, N.J., con-  
cerning the son-in-law and daugh-  
ter of Mr. and Mrs. Tyson  
Midkiff, Dr. and Mrs. James  
Strange. Mrs. Strange is the for-  
mer Carolyn Midkiff.

Ordained minister, teacher, lin-  
guist and historian, Dr. James  
Strange will bring all of his in-  
terests, talents and scholarship  
into play next year as an arch-  
eologist in Israel.

The Union College, Cranford,  
history lecturer has accepted ap-  
pointment as area supervisor for  
archeological excavations at Krir-  
bet Schema in Israel, site of a  
fourth or fifth century A. D. syna-  
gogue. The former Baptist minis-  
ter and Morristown resident will  
also be working on early Christ-  
ian inscriptions as the Montgom-  
ery Fellow of the American School  
of Oriental Research, Jerusalem.  
He leaves in July for his one-year  
assignment.

Dr. Strange spent seven weeks  
in Israel last summer digging  
Tel Gezer, an old city that dated  
to Solomon. He found that not even  
his language studies will be wast-  
ed this coming year. His graduate  
school studies in Ancient Hebrew  
makes modern Hebrew easier to  
learn. And when he encountered  
Arabs who spoke no Hebrew, he  
sometimes found they spoke either  
German or French.

Accompanying Dr. Strange to  
Israel will be his wife and child-  
ren, an eight-year-old daughter  
and six-year-old son. Despit the  
Israel-Arab conflicts he anticipa-  
tes no problems for his family.

entering its thirteenth year. It is  
a four year college offering bac-  
chelor's degrees in fourteen major  
fields of study.

## Dr. Gossett Finds That Time Goes By

The good Doctor James Gossett  
may well have reason to check  
with his mirror for a few more  
gray hairs in the next few morn-  
ings. He's had his first experience  
of having delivered both the mo-  
ther at her birth, and now, her  
child.

On July 1, 1953, he was the at-  
tending physician at the birth of  
Yolanda Esparza, who is now Mrs.  
Rosendo Abalos.

Last Tuesday, July 14, at 6:20  
p.m., his services were again in  
demand at the birth of a daugh-  
ter to Mr. and Mrs. Abalos.

The girl tipped the scales at  
6 lbs and 14 ozs.

In honor of this milestone in  
the doctor's medical practice, the  
parents have given him the privi-  
lege of selecting a name for the  
baby.

(Ed. Note: who ever heard of a  
girl with a name like James  
David?)

## Bobby McAlister is Winner of Shotgun

noon. Proceeds derived from the  
drawing are used by the Omicron  
Tau in their various local civic  
undertakings.
