MEMBERSHIP DRIVE PLANNED ---

Seek Bids On Club Building

Plans for Friona's Country Club building have been completed, and within the next week the board of directors will start seeking bids on the structure.

At a general meeting of country club members Tuesday night, in which only 15 members attended, the building plans were showed to the group, and there was a discussion on the proposed plans and just where the club stood in its efforts to complete the golf course and club house.

The proposed club house, on which bids will be sought, will be constructed of brick veneer. Overall dimensions will be a 41x82 feet, and the club house will include a 40x52foot social room, pro shop, cloak room, kitchen, and rest rooms.

Amount of money earmarked for the structure is \$25,000.

Before a bid is let on the building, however, another general meeting will be held at which time the membership will decide on what activities the building will be used for.

It was the opinion of several club members present at Tuesday's meeting that this be worked out prior to letting a contract.

The by-laws of the club stipulate only that alcoholic beverages and gambling will not be permitted. Other activities, such as dancing, have not yet been decided upon.

A motion was passed by the club members, authorizing the president of the board of directors, Andy Hurst, to appoint a committee to work up recommendations on what the club can be used for, and present them at the next general meeting for a vote.

Hurst, who led the discussion at Tuesday's meeting, re-

ported that the club currently has 101 members, and an additional 22 members were needed to raise the necessary \$58,000, proposed costs of the club's facilities.

The breakdown on what the money will be used for was \$18,000 for the land on which the club house and golf course will be located, \$15,000 for the golf course, and \$25,000 for the club house.

Most of the work on the golf course, which included installation of a well and irrigation pipes, and work on the greens and fairways, has been completed. Money spent to date, totals about \$14,000, Hurst said.

Hurst also reported that the board of directors was planning another membership drive in the immediate future in an attempt to gain the additional members.

> for traffic violations and reductions were given to persons who qualified as "safe drivers."

Statistics prove that this program has brought about a loss in premium revenue for agents and companies of approximately \$28 million.

With the rate increase, it is estimated that the deficit will be erased, with about \$30 million to be picked up annually.

One change in the new rate structure will be to the slight advantage of the insurance purchaser, it is pointed out.

Henceforth, minor traffic violations such as running stop signs, which had previously caused penalties, will no longer do so.

Other minor infractions along this line will also be dropped from the list, leaving such items as speeding, reckless driving, driving while intoxicated, and more serious offenses as infractions which will result in penalties.

manager of Friona Wheat Growers, Inc. His overseas trip is being sponsored by the Grain Sorghum Producers Association and part of Drake's mission will be to help promote grain sorghum, a crop which is grown in abundance in the Parmer County area. Here, Drake is shown in one of the maize fields on his farm southeast of Friona, which by the way, is one of the "best crops ever" for this time of year.

Austria As Feed **Grain Consultant**

Arthur M. Drake, manager of Friona Wheat Growers, Inc., has been selected by the Grain Sorghum Producers Association to be a feed grain consultant at two agricultural fairs in Austria, during August.

Drake, who is the second Parmer County man to be selected for such a mission in recent years, will leave Friona shortly after August 1 for Washington, D. C., where he will receive a briefing on his trip.

He will then continue on to Europe where he will attend showings of a mobile feed grain exhibit of the U.S. Feed Grains Council and Foreign Agricultural Services, at Klagenfurth, Austria, August 10-20, and Ried, Austria, August 26 to September 3.

Drake will be an assistant to the director of the U.S. feed grains exhibit, who is already in Austria getting things set up.

The feed grain exhibit, and Drake's activities as a consultant while in Austria, are designed to stress the availability and quality of grain sorghum and other U.S. Feed

(Continued on page 6.)

LIONS CLUB LEADERS talk it over following last Thursday night's installation of officers. At left is Bill Nichols, second vice-president of the Friona club and deputy district governor; Ed Skypala, zone chairman of Hereford; Hollis Horton, newly-elected president of the Friona club; and Kenneth Williams, retiring president of the Friona club.

Auto Insurance Rates To Go Up

Parmer County's automobile owners can look forward to an approximate 15 per cent increase in insurance rates, effective August 1, according to local insurance men.

The rate hike is in line with recent announcement from the Texas Insurance Board, ordering the increased rates across the state. Comprehensive, collision and liability

rates will all be increased, the insurance men point out. Chief reason for the raise is largely due to

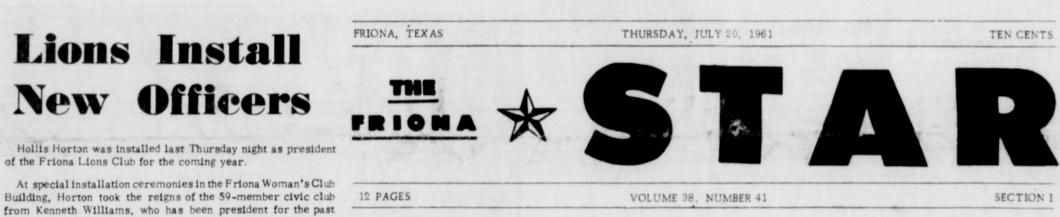

miscalculations made when the rate structure was changed January 1, 1960. At that time it was estimated that around 50 per cent of the state's drivers would come infor an increase in rates rather than a reduction.

It was found out, however, that a much larger number of drivers were eligible for the lowest possible rate under the Safe Driving Insurance Plan.

Under this plan, penalties were assessed

year.

Other new officers installed were Martell Le Veque, secretary; Alton Farr, treasurer; Marty Martinez, tail twister; Ralph Shirley, lion tamer; and Ross Ayers. M.C. Osborn and Newman Jarrell Jr., director. One holdover director from the previous year was Marion Fite.

On hand for the installation ceremony was Ed Skypala, Lions Club zone chairman of Hereford. He was the installing officer

At the meeting, Danny Mac Bainum, retiring treasurer of the club, gave a financial report, and listed the various moneyraising activities and civic undertakings the club had participated in during the past year.

The club also voted to accept the challenge of the Dimmitt Lions Club to a softball game in which all players will be to wear women's clothes. The first game will be played at Dimmitt and the second one will be in Friona. Dates and times for both games will be announced later.

Two Titles Wrapped Up

Don Smith

Herring, Motors Win **All-Star Game Set**

Two championships have already been determined and the third will be decided either tonight (Thursday) or Friday in the Friona summer baseball program.

Herring Implement Company won two games this past week to win the title in the Babe Ruth League, while previously unbeaten Hub Grain was losing two, to drop to second.

Herring handed Hub its first loss this week, and also defeated Chester & Fleming Gin, to finish with a 5-1 record. Besides losing to Herring, Hub also lost to Parmer County Implement and finished with a 4-2 record.

Also winning the championship this past week was Friona

Motors in Pee Wee action. The Motors team defeated Rockwell, Ethridge-Spring and Parmer County Pump to finish with a 7-1 record. Friona Consumers was second with a 5-3 mark.

The Intermediate League championship could be decided tonight (Thursday) when Brookfield Drilling plays Associated Growers. A win for Brookfield would give them an 8-2 record and the title.

However, should Growers win, and then Friona State Bank defeat Reeve Chevrolet, a three-way tie will result between Brookfield, Bank and Growers, each team having a 7-3 record.

Vernon Scott, director of the baseball program, says he does not know what kind of playoff will be worked out should the three teams tie.

Current league standings in the Intermediate League, as

(Continued on page 4.)

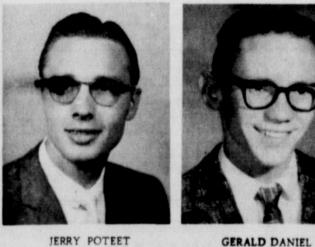

Moms To Play Monday Night

Although players for the second annual Little League Mothers Game have not been selected, this game will be played immediately following the Pee Wee League all star game at Little League Park Monday evening of next week.

The two participating teams will be made up of mothers of Little League players. However, if there are not enough mothers who wish to play, the rosters will be completed by selecting sisters of little league players.

There will be no organizational meeting prior to the game, but all persons desiring to play are asked to report at the park by 8 p. m.

No admission will be charged, but a hat will be passed for donations by anyone desiring to help pay for the snow cone machine which has been purchased.

JERRY POTEET

Youth Led Revival **To Begin Sunday**

Two talented young men will conduct a youth led revival beginning Sunday, July 23 continuing through July 30 at the First Baptist Church. Jerry Poteet, evangelist, will do the preaching and Gerald Daniel will lead singing.

Jerry, formerly of Farwell, is a student at Southwestern Baptist Theological Seminary at Fort Worth and has attended Hardin Simmons University at Abilene.

Gerald, son of Mr. and Mrs. Paul Daniel of Friona, attended Oklahoma Baptist University at Shawnee.

Services are to be at 6:30 a. m. and 8 p. m. An invitation is extended everyone to attend.

Star Baby Contest Winners Revealed

Winners of the baby photo contest, conducted jointly by the Friona Star and Winston B. Lucus, Photographer, were announced this week.

Don Smith, son of Mr. and Mrs. David Smith, won first place in the contest, second place went to Teresa Ingram, daughter of Mr. and Mrs. W.S. Ingram, and third place winner was Eddie Houston, son of Mr. and Mrs. H. G. Houston. The winners were picked by

the photographer, who recently took photographs of the youngsters at the Star office. First place prize was a \$9.50 bronze portrait, second place award was a \$5.75 Sepia Tone Portrait, and third place prize was a \$4.75 portrait.

Pictures of all youngsters who were entered in the contest will start appearing in the Star next week, under the heading of Friona's Future Citizens.

Party Slated

A Dresden painting party will be held at the Black Community Center Building Tuesday, July 25. The party will begin at 9:30 a.m.

The training is scheduled to be concluded July 28. The swimming lessons will start next Thursday, day after

During this training Cadet Douglas is receiving practial experience and instruction in tactical, technical and administrative subjects, with special emphasis placed on the duties of a second leiutentant.

The 18-year-old cadet is a 1960 graduate of New Mexico Military Institute High School and is a student at the college in Roswell

Symbol of Freedom

Back in 1776 in this month of July, the original 13 colonies wrote and signed a Declaration which established them as free and independent states.

In the 185 years since then, the United States of America has grown to 50 states and has become the most powerful Nation on earth.

But of more significance today, in a world filled with turmoil, it stands as a mighty bulwark against tyranny and the threat of oppression.

We of General Telephone join with all freedom-loving Americans in expressing humble pride in our heritage and the principles of liberty for which it stands.

Four Wrecks Last Week In Friona

was reported this week by the Friona Police Department.

There were no injuries, but there was considerable damage to some of the vehicles involved in the collisions, which occurred on separate days, Tuesday through Saturday. The first one was Tuesday

afternoon, July 12, in front of the Friona Star office when a 1957 Chevrolet station wagon, driven by Pudge Kendrick, collided with a 1961 Ford, driven by Eddie Massie.

Kendrick was travelling west on Sixth Street when his vehicle collided with the Ford which was backing away from a curb. The right-hand side of Kendrick's car scraped the bumper of the Ford.

Damage to the Kendrick vehicle was estimated at \$400. Massie's car received no dam-In a freak accident Wednes-

day afternoon, a 1952 Plymouth, driven by Claude Wright of Phoenix, Arizona, hit the back of a 1961 Ford pickup parked in front of Herring Implement.

Wright, who was travelling west on Highway 60, went to sleep at the wheel and his car jumped the curb and hit the parked vehicle, belonging to Jack Briscoe, of Friona. Damage to the pickup was only slight, officers say.

The third accident of the week occurred Friday at the intersection of Summit Avenue and Highway 60, when a 1959 Pontiac, driven by Richard Brocaw,

How would you like to have more complete insurance on your home and at the same time save money? The answer is obvious . . . that's why the new Homeowners Policy has met with such enthusiastic acceptance.

This new, broad policy provides fire and windstorm insurance on your home and personal property, plus theft and comprehensive personal liability coverage in a single package . . and it costs you less.

This saving is made possible because we have only one policy to issue and handle instead of the usual four or more. You get additional savings because it is written for three years. The premiums, however, can be paid in annual installments.

Give us an opportunity to explain the advantages of this money-saving, trouble-saving policy in detail. We'll be glad to call at the time and place of your choice.

NOW'S THE TIME to save more truck dollars on the more-for-your-dollar trucks!

Your truck dollars are worth a whole lot more at your Chevrolet dealer's right now! First off, you get a head start on saving because summer's the saving season. Then, with a harder working, easier riding Chevy truck, you're set to save every mile you haul. And, finally, at trade-in time, you can expect an extra dividend because of Chevy's traditionally higher resale value. What could be better?

Summer's the season to get extra mileage from your dollars on the trucks built to give you extra miles of hauling. With Independent Front Suspension, Chevrolet trucks keep going thousands of miles longer because far less destructive jar and shake are transmitted through the truck. Chevy L.F.S. trucks work harder. too, in areas where other trucks have to be pampered. And, with Chevy's wide choice of thrifty 6 and hardy V8 power, you can tailor your truck exactly to your job. So how can you miss-especially now during the summer saving season?

Hereford,

Drake To Visit Austria---

grains.

Particular emphasis will be placed on developing a better understanding of the U. S. grain trading system and also of our grades and standards, Drake says.

In addition to discussing these matters with grain trade officials, farmers and livestock feeders in attendance at the exhibits, Drake will travel throughout Austria visiting users and processors of imported U. S. grains.

He will assist them with any problems in connection with the use of U. S. feed products and will report his findings upon his return, to government and agricultural groups, Missions such as this help to give impetus and direction to expanding feed grain market development program.

Drake's trip will be financed by the Grain Sorghum Producers Association. The Friona elevatorman and farmer is the 18th in a succession of "diplomats for grain sorghum" who have acted as consultants at International Trade Fairs during the past three years, through arrangements by the Grain Sorghum Producers Association.

Parmer County's first representative on such a feed mission was County Agent Joe Jones, who made a trip to Italy in 1959.

Drake, who had first planned to take his family along, says that he will make the trip to Austria alone. "I was told that it may not be possible for us to travel together, so my wife and daughters have decided to remain at home," Drake

is worth everything, or it is not worth anything. If it is not About worth anything it is unworthy of man's profession. On the 6th, Street Church of Christ other hand, if Christianity is Box 515 -- Friona, Texas worth something - if it is the

inswer to the most urgent desires of the human heart - if it is that refining influence that all men must have before there can be any hope of salvation, then why not put our very best into it Most of us agree that it is worthwhile, in fact a great many of us profess to be a part of Christianity, and that's the extent of it. This, dear friend, is not enough. What do you think of the man who says, "I am a red-blooded American" but refuse: I to support and defend the blessings of democracy? W1 iat then, do you suppose God thinks of the tone who professes Christianity but fever demonstrate s it in his life?

Something To Think

If Christianity is worth anything, it is worth everythir gilt's worth a complete denial of al mrighteousness. It's worth whatever sacrifice we may be called upon to make in her behalf it's worth the set ting aside of the creeds of man and a rejection of modernism. It is worth a revival of the spiri : of the early Christians who "continued ste adfastly in the apostles teaching, and clowship, and in breaking of bread, and in prayers." (Acts 2 (42) The man who neglects his Christanity, will soon have no Christianity to neglect!

The Bible tells us in the book of 1 sike, Chapter 12 of a man whose life was so wrappe

re

co in

one guest, Mrs. Robert Laco-

material possessions that b e lost his own soul.

Six times the man says "I" will do such and such. Five times he says "my" (my fruits, my barns, my goods and etc. Then the Bible tells us that he said "Soul, thou hast much goods laid up for many years, take thine ease, eat, drink and be merry." And then we read "But God said unto 1 dm, "Thou fool, this night thy soul shall be required of thee; then whose things shall thes e be, which thou hast provided?"

Some people are completely will ing to live for themselves and never giving a thought about the Lord and His work. The / say "The church is getting along fine without me." Still there are others who live alo he even though they do attend church. They say "This church couldn't get along without m e. I do too many things for the church, not to mention my financial support ---- ".

The fact is that the church needs everyone it can get, and you need the church. The church can get along without me t, but I can't get along very long without the church. Let's never be guilty of living alone, shutting out the presence of God in our lives. Whatever you need, you will fin 1 an answer in the church of your choice this Lord's Day. As you speak and you obey.

FRIONA WITH JUNE

many Frionans will be taking vacation trips to various spots of interest over the nation. it would be wonderful publicity for our town if each of you would distribute some Texasbeing distributed by members

These cards are available for the asking, so before you take off for any distant point, secure a supply and pass them out along your route. Do hope the Hugh Nelsons took some of these cards on their recent jaunt through the Pacific Northwest and Canada.

... The only Frionan we know who is planning an overseas trip this summer is Arthur Drake. Last week there were two persons planning on making

the same trip. However, according to a story which reached this office, some transportation problem arose and now Luella will be staying at home. Feel sure this was a great

disappointment, but know she had fun making plans and getting new clothes for a trip overseas any way.

Will someone please see that Arthur has some Chamber of Commerce business cards to I have led your sons into battle take with him?

Numbered with the newcomers to Friona are Mr. and Mrs. Porter Johnson, Although the Johnsons aren't new to this area, they are new residents of the town. They recently purchased a new home in the Drake addition and have moved in.

....

The opening of school is only a few weeks away, so parents

During the next few weeks who have children starting to school for the first time should be making plans now. If you don't have a birth certificate for your child who will be a first grader, secure one soon. So many requests are size business cards, which are received by the Bureau of Vital Statistics in August that it of the Chamber of Commerce. is sometimes impossible for all of them to be handled. Get your order in early and avoid the August rush.

....

On the inside cover of the July Grain Producers News the following article appeared. It was written by Thomas E. Wicks Sr. and should be read by every American who is old enough to read. The title is "I Am

Your Flag" "I AM YOUR FLAG"

I am your Flag. I was born on June 14th, 1777. I am more than just cloth shaped into a design.

I am the refuge of the World's oppressed people. I am the silent sentinel of

Freedom. I am the emblem of the greatest sovereign nation on earth.

I am the inspiration for which American Patriots gave their lives and fortunes. from Valley Forge to the bloody ridges of Kores. I walk in silence with each of

your Honored Dead, to their final resting place beneath the silent White Crosses, row upon row. I have flown through Peace and

War, Strife and Prosperity, and amidst it all I have been respected.

My Red Stripes-symbolize the blood spilled in defense of this glorious nation.

My White Stripes-signify the burning tears shed by Americans who lost their sons. My Blue Field-is indicative of God's heaven under which I fly.

My Stars-clustered together, unify 50 States as one, for God and Country.

'Old Glory" is my nickname, and proudly I wave on high. Honor me, respect me, defend me with your lives and your fortunes.

Never let my enemies tear me down from my lofty position, lest I never return.

Keep alight the fires of patriotism, strive earnestly for the spirit of democracy.

Worship Eternal God and keep His commandments, and I shall remain the bulwark of peace and freedom for all

-- Thomas E. Wicks, Sr.

Wedding Vows Read In Anton Church

MRS. KENNETH HARRINGTON

Announcement has been made of the engagement and approaching marriage of Janet Sue Conyer, daughter of Mr. and Mrs. C.E. Conyer of Knoxville, Tenn. to Gordon Wright, son of Mr. and Mrs. C.W. Wright, Friona. Wedding vows will be exchanged in the New Testament Baptist Church at Knoxville on August 6. Both are students at Baptist Bible College in Springfield, Mo

Rev. H. D. Bennett, pastor of the church. Nuptial music was presented by Mrs. Rudolph Shackley of Anton.

The bride was escorted to the altar by her father and given in marriage by her parents. She wore a white street length dress featuring a square neckline, full gathered skirt and matching cummerbund and a cameo brooch belonging to her paternal grandmother, Mrs. W. B. Harper. Her shoulder length veil was attached to a seed pearl tiars and she carried a white lace covered Bible topped with a bouquet of white carnations.

Miss Suzette Bourland of Farwell, cousin of the bride, was maid of honor. She wore a pink street length dress with scoop neckline and bouffant skirt. A circular head piece with a small veil and pink gloves completed her costume. She carried a single long stemmed rose,

Owen Drake of Friona served as best man. Ray Harper, Phoenix, brother of the bride, and Mike Stephens, cousin of the bride, were ushers.

A reception followed in the Fellowship Hall of the church. The refreshment table was laid with a white cutwork cloth over pink and centered with an arrangement of pink gladioli and roses. Assisting with hospitalities were Mesdames Laurance Anderson, Floyd Martin, T. C. Talkington, Gurnery Pool and Misses Sheryl Tidwell and Martha Martin.

Guests attended from Lubbock, Littlefield, Borger, Farwell, Friona and Iowa Park. For her wedding trip to Colorado the bride wore a dark printed two piece dress with white accessories and a corsage of white carnations.

Mrs. Harrington attended schools in Friona and Phoenix and the groom is a 1960 graduate of Friona High School. The couple plan to make their home in Frions.

Lutheran Parish Hall in Rhea Also Mesdames Delton Lewcommunity was the scene of a ellen, Jake Patterson, Carl post-nuptial shower honoring Schlenker and children, Tom Mrs. Gary Goetz, nee Tommy Lewellen, W. E. Stringer, Her-Lewellen, Wednesday, July 12. man Schueler, Howard Duncan

Rev. and Mrs. Hugh F. Blaylock of Dimmitt announce the

engagement and approaching marriage of their daughter, Char-

lotte Bock, to Hal Ratcliff, son of Mr. and Mrs. Glenn Ratcliff,

Dimmitt, Vows will be exchanged August 25 at 7 p.m. in the

Dimmitt First Methodist Church. Miss Bock is a graduate of

Friona High School and a business major at Texas Tech.

Mr. Ratcliff is a Dimmitt High School graduate and is now a

student in T.C.U. Announcements will not be sent locally but

friends of the couple are invited to the wedding and reception.

Shower For Mrs. young

A miscellaneous bridal shower was a courtesy tendered Mrs. Monroe Young, the former Sharon Hicks, Friday, July 14, in the educational building of the First Baptist Church.

The honoree's chosen bridal colors, pink and white, were used in the room and table decorations. Centering the serving table, covered with a white cloth over pink, was an arrangement of gladioli and greenery.

Guests were invited to call from 3 to 5 p. m. and were registered by Brenda Woodruff. Sharon Reeve, planist, presented musical selections.

Hostesses were Mesdames John Wright, Ralph Taylor, Roy Miller, Kenneth Williams, Rudolph Renner Jr., M. P. Bennett, E. P. Woodruff, Joe Douglas, Vernon Roberts, Alvin Askins and James Bailey.

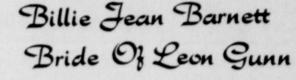

Attending and sending gifts were Mesdames Boyd Pipes, Oscar Baxter, Andy Wilson, W. S. Crow, Joel Landrum, A. W. Wood, Harold Taylor. Troy Young and children, Loyd Shackelford, C. H. Veazey, Sloan Osborn, Roy Young and Brent, Robert Dickey, Calvin Martin, J. L. Stowers, Jimmy Cheser, Larry Martin, Noah Young, Clarence Martin, H. G. Houston, L. R. Capps and Donnie Waller.

Also Mesdames Nora Welch, J. P. Wilson, Kate Brookfield, Louis Baxter, Ella Faye Holcomb, M. L. Howard, W. P. Woodruff, Glenn Floyd, Clyde Scarborough, L. A. Winningham, O. J. Beene, Joe Nottebrock, Sam Green, Mae Magness, Aubrey Rhodes, Rene Snead, H. K. Kendrick, J. T. Ernest England, Bill Gee, Baxter and L. R. White.

Also Mesdames Ike Derickson, Bill Sheehan, Grady Dodd, C. K. Carter, Raymond Milton. J. M. Young, W. P. Young, Pat Busby, Neal Fulks, Clayton Taylor, D. F. Pullivan, Dave Hicks and Misses Andrea Sue Milligan, Celia Weatherly, Cordella Parr, Donna Shackelford,

Friends and relatives of the couple are invited to attend.

How about a **Fair Break** for Railroads?

we're asking your support for equal treatment by government of all carriers, including the railroads

The Association of American Railroads has drawn up a document called "Magna Carta for Transportation."

We're asking for public support of this common-sense statement on public transportation policy, hoping citizens will recognize that an entire industry that serves them is being deprived of its natural rights and will want to help.

What to do? Ask your congressman to help restore to the railroads these "four freedoms"

· Freedom from discriminatory regulation · Freedom from discriminatory taxation · Freedom from subsidized competition · Freedom to provide a diversified transportation service Santa Fe A STREET WALL SANTA FE SYSTEM LINES

THE HIGH PLAINS FARM AND HOME

ROLLING AGAIN early this week, shortly after several soaking rains in the area, were many Parmer County irrigation wells. Reason for cranking up the wells so soon after the rain was due to fast-growing crops, like this one, sapping moisture out of the soil at a rapid pace. To cover all of the ground before some of the fields started "1. ing," farmers had to get an "early start.

provide a 20-percent increase in average crop production per harvested acre above 1956-58. This is not enough to meet 1975 demands, and farmers would require an extra 21 million acres (net).

Additional acres would be associations serving seed disneeded for feed grains (16 mil- tributors, and country and lion more), hay (5 million), terminal elevators and exporttobacco (1 million), and cotton ers. (5 million). Fewer acres would be needed for food grains (4 million fewer), oil crops (1 has foreign offices in Rome, by the USDA to assess the job percent) would be considerably million), and pasture feed (1 Italy, London, England, Rotter-Potatoes, dry beans,

FARM SAFETY WEEK PROCLAIMED

County Judge Loyde Brewer has officially proclaimed July 23-29, 1961, as "Farm Safety Week" in Parmer County, according to Herman Geries presdent of the local county Farm Bureau.

THE HIGH PLAINS FARM AND HOME

President Kennedy and Governor Daniel have previously designated that week on national and state levels as a period to call attention to worthwhile safety practices that can reduce needless suffering and loss of life.

The county farm leader said that failure of rural people to observe safety in their daily living exacts a heavy toll in both economical and physical suffering. He stated that there is a disabling accident every 32 seconds and a death every 45 minutes to farm residents over the nation.

In his official proclamation, County Judge Brewer said: "The economy of our county, state and nation is greatly dependent upon the continued wellbeing and progress of our agricultural population. Accidents from farm work cause needless suffering, distress and loss of life each year among our rural families.

"A vigorous farm accident-

prevention education program week by the Texas Farm and Ranch Safety Council, the Agricultural Extension Service and the Parmer County Farm Bureau," the proclamation continues.

proclamation further The urged all farm families to increase their vigilance against accidents and encourage interested organizations and individuals to participate in this pro-

gram. County Farm Bureau President Geries said that the theme of this year's observance is, "Safety is a Family Affair." He said a different phase of farm and home life would be emphasized each day during the week: Sunday, reverance for life; Monday, safety begins at home; Tuesday, agricultural chemicals; Wednesday, prevent

falls; Thursday, highway safety; Friday, farm machinery; Saturday, recreation safety. The Parmer County Farm

Bureau is cooperating with the Texas Farm Bureau's Safety Department in its efforts to promote "Farm Safety Week" all across the state. County Farm Bureaus are be-

coming increasingly active in safety work, Geries said, This includes cooperating with TFB Safety Department to stage safe driving demonstrations in high schools and by participating in a fire extinguisher project.

Roy Amyx. WITH THE

JOE JONES

The rains were good; the soil is wet, but it won't last long. While you are worrying about your land drying up so you can get in your field, better also be starting your wells. Hot weather and booting sorghum will take out 3 tenths to 4 tenths inches per day. After sorghum reaches the seven leaf stage, the rate of

moisture used goes up rapidly until the grain is set. Good rains always catch you up with your watering, but at the same time gets you behind. Unless you can anticipate the rate of water use and the num-

Under this latter program will be conducted during this Farm Bureau members can purchase 2 1/2 pound, dry chemical extinguishers at a savings of \$9.00 per unit.

research in meeting future needs.

Findings indicate the challenge to farmers in 1975 will not be a lack of resources. but how to allocate them to achieve a better balance between production and market demand. This challenge, the economists believe, calls for research on more efficient use of all resources within agriculture and more effective resource adjustment between agriculture and nonfarm sectors of the economy.

To provide a basis for their analysis, the researchers made several assumptions, including: (1) A 1975 population of 230 million; (2) exports near the

Insects On **Fruit Trees**

In recent weeks an insect has been sucking ripening fruit on the trees in Parmer County. This insect was sent by Miss Ettle Musil, County Home Demonstration Agent, to Lubbock to the Area Extension Service Entomologist, John G. Thomas, for identification and control According to Mr. Thomas,

the insect is closely related the box elder bug, and a close relative to the squash bug. The insect seems to prefer ripe or ripening fruit and for this reason is extremely hard to control. They are also toler-

ant to many of our insecticides. recommended picking He the fruit as quickly as it is ripe. Much care should be used in spraying for the insect. Maladon. thon may be used on cherries but harvest must not be made until three days have passed.

To spray Malathon on peaches, a waiting period of 7 days must pass before harvesting the fruit. This is very important for the safeness of eating the fruit. Other insecticides were recommended with waiting period for harvest as high as 15 days Miss Musil stated that as soon as more information was received about the control of this are urged by the Council and insect it would be passed on to the local programs.

important job any homemaker to take care of themselves. dangers surround a child from the moment it is born.

It is also a well known fact that it is impossible to shield any child from all dangers. Scientists will never be able to develop a vaccine against accidents, so the best substitute is education.

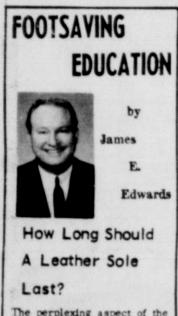

During the first year of any child's life he is unable to judge for himself what dangers are, so it is up to his mother to protect him against all dangers to which he is exposed.

constant dangers is that of suffocation. The first precaution any mother should make is to make sure that there is nothing within a baby's reach that might interfere with his breathing. Eiderdown pillows should never be put in a baby's crib or bed.

In recent years the danger of suffocation has been notably increased by the appearance of plastic curtains, trimmings and other items and a number of new born infants have suffocated from having plastic bags drawn to their faces.

The second great cause of suffocation is food. Every mother should realize that she is running a terrible risk if she allows her baby to be alone while he is taking his bottle. The third great danger of an infant suffocating is from sleeping in the same bed with an adult.

A child soon outgrows the

life of sole leather is that adults' shoes last six months, vear, or more while children who are sitting in school much of the day can go through a good leather sole in four weeks. Recent studies show that sole leather does not wear out -- it washes away. When leather gets wet the oils that lubricate and hold the fibres together ooze out of the leather. Lacking the oils the leather shreds and quickly scuffs off. Silicone Shoe Saver de-

One of the largest and most stage where protection from accidents is enough for him to with children is teaching them survive. It is most important for a child to learn to under-It is a well known fact that .stand the risks he runs and should be given a lot of safety education,

In order for parents to be capable of guiding adequate safety education programs for their children it is necessary for them to know their children very well. Any child's safety education should be geared to his ability to understand.

Road safety should be taught a child from the time he is old enough to play outside alone. It is much better to teach a child the danger of being run One of an infant's most over by a moving vehicle than to depend upon him to obey a command to "Stay away from the street."

Teaching a child to cross a street safely should be done by example first of all. It takes very little time for a small child to learn whether the adults with whom he crosses a street obeys traffic rules or disregards them.

Parents who are sufficiently concerned with their children's safety will teach them the basic fundamentals of road safety before they enter school. In a recent article in a Texas

Health Bulletin safety education should be pursued along two lines: (1) teach the child to disting-

uish between the risks he may take and those he had better avoid; (2) teach him the best way of

dealing with the dangers that cannot be avoided. The same article further stated, "There is no doubt that accidents are fewer following

any efforts to make children realize the risks they are running and to teach them how to meet the dangers they encounter.

Education offers the only hope of, little by little, overcoming this great malady of our times without sacrificing other human values."

At this time of year many American families spend a great deal of time at lakes, creeks, rivers and other outdoor places. It is very important to teach a child to recognize poison ivy and poison

oak and to avoid these plants. In this field in any other phase of a child's education, example is the best method of teaching.

If more rains occur during July and August, the amount of

THE HIGH PLAINS FARM AND HOME

Peak water use for irrigated grain sorghum is reached about ten days before bloom while the plant is in the boot stage. This corresponds to the time that maximum leaf area is developed by the plant and is one of the most critical plant growths stages for irrigation. A well-planned irrigation system should provide about .33 inch of water daily during the peak use period. During a dry summer, water stress at the time of bloom probably will reduce yields more than at the boot stage or soft dough stage. In such cases yields may be reduced as much as 45 per cent. The withholding of irrigation in the soft dough stage may reduce yields about 25 per cent. Under practical irrigation conditions, an ample irrigation at the boot stage will alleviate need for water

at the bloom and soft dough stage. Good yields can often be made with only a preplanting irrigation on grain sorghum. However, highest yields are normally made by maintaining soil moisture at a point not less than one-half the field capacity. Highest efficiency is made by providing sufficient water to keep the plants out of stress. Short season water use may go as high as .4 inch per day but a system planned to provide .33 inch during the boot through soft dough stage of growth will provide adequate water.

As a rule of thumb, the first irrigation of grain sorghum should be made before the top one-foot of soil has been depleted of available moisture below 40 per cent; the second irrigation, 50 per cent; and the third irrigation, 60 per cent. The evapo-transpiration rate for sorghum is quite variable, although most rates are within the range of 21" to 24".

Water use efficiency is greater for narrow rows of grain sorghum than wide row spacings in experiments conducted during 1956-58 at the Southwestern Great Plains Field Station at Bushland, Texas. Total water use in the production of grain sorghum demonstration agent for the averaged about 22 inches county, gave the program on yearly. record books.

so produced more grain per inch of water used than the 30 and 40 inch spacing.

Three planting rates, which established extremes of 61,107 and 152,000 plants per acre, had little influence on grain yield. The higher planting rates produced the higher forage vields. Six to 8 pounds of seed per acre should give sufficient plants for maximum grain yield under most conditions, regardless of the row spacing used.

After discussing world affairs and the state of the nation, the talkative barber observed, "Your hair seems to be turning a little gray, sir."
