With their newest member, Mr. Charlie Fletcher, on hand for his first official meeting, the Upton County Commissioners' Court met in Regular Session last Monday morning at 10:00 a.m. Fletcher was elected as Commissioner of Precinct No. 4, replacing Joe Conger who retired effective December 31, 1970.

Roy's Restaurant to have Anniversary

Roy Rutland, owner and operator of Roy's Restaurant in Rankin, this week issued an invitation on behalf of him, his wife, and staff to friends and customers for free coffee Sunday, January 17. Occasion will the the second anniversary of the opening of the popular eating place in Rankin.

Roy's opened in mid-January in 1969 and has become rather wellknown in the immediate area of West Texas for their fish fries. In addition, the business is open on a 24-hour basis in order to serve the public.

"We appreciate the consideration given us since we have been in business here and would like to have all our friends and customers come by Sunday for coffee," said Mr. Rutland. Common labor wages were put at \$1.75 per hour, truck drivers at \$2.35 per hour and equipment operators at \$2.60 per hour.

In other matters, they approved changes in insurance for certain employees and by mutual agreement, postponed the retirement of H. Wheeler, Gerturde Gibbs, Frank Parr and C. A. Weddle through 1971. County policy requires retirement at the age of 70 or upon the last day of the calender year in which an employee completes 12 years of creditable service. whichever shall last occur, except by mutual agreement between the employee and County in which retirement may be postponed from year to year for a period not to exceed one year at a time.

On another motion, the retirement of Mr. R. H. Lott, custodian at the courthouse, is to become effective July 1, 1971.

As has been the practice in the past years, a tax was approved for 1971 of one-half the state fee for all licenses issued in the county under the Texas Liquor Control Act; some funds were shifted in bank accounts and the bonds of recently elected county office holders were approved, including that of Jacob Allen Moore who is the Ex-Officio School

If you're one who believes that fortunes are foretold in the stars then you'd better take a long, hard look at your moon book and if it says you're in for good timesforget it. The Texas Legislature is to get their collective heads of wisdom together this week down in Austin in what is called a session of the Legislature.

To a great extent these are the the same gentlemen who, the last time they met, said they passed no new taxes-this despite pledging pay increases to school teachers for the next ten or fifteen

Now this year, even before they get around to sessioning, most of the talk isn't about passing a bill for more taxes but how big a bite they will take. Bear in mind, now, they said before that no new taxes were added to the load-this time they say we're going to get it for sure.

And I don't doubt it. The most disagreeable tax that I can think of would be a state income tax; therefore, if you're an odds makThe Rankin (Tex.) News-Thursday, Jan. 14, 1971

ONE TIME_

It's not too often that the San Angelo Standard Times and The Soop agree on a subject other than the day of the month; however, back in December, the Rooster Paper ran an editorial in which I found some merit.

It had to do with county government in Texas and the part that impressed me the most was their opinion that county government needed to be reformed by the legislature, "making counties able to be flexible enough to satisfy the local people's needs and pre-

Now to a great extent we here in Upton County already have a county government that is "flexible" and pretty well satisfies the local people's needs and preferences but that is due more, I feel, to the fact that the men on the Commissioners Court have taken the bull by the horns and made it so. In doing this, it may well be that they've bent a few rules and regulations and this ought not have to be. In counties where the court has not been as responsive, the county government-as pointed out in the editorial in the Standard-Times, is little more than an agent of the state - collecting taxes, keeping records etc. And I think most of

Let's just hope we have enough

us will agree that we already have enough of this sort of thing.

If, by reforms, the legislature could free the counties of at least a part of these bookkeeping chores and at the same time write laws that would enable them to more truly represent the desires of the people they serve, then indeed, the Standard-Times is correct in its call for these changes.

In their last paragraph, the Angelo writers again put forth a very important point. They said: ... what is right for the urban county is not necessarily right for the rural county, and vice cersa . . . "

If the legislature will keep this idea in mind then there can be much support for reform in the county government in Texas-

SCIENCE AND THE BIBLE

"The heavens are telling the glory of God; and the firmament proclaims his handiwork." (Psalm 19:1). Much can be said in regard to the agreement between science and the Bible. Both, for example, combat superstition (Isaiah 44:9-20; Acts 17:16ff). The Scriptures state the uniformity of natural phenomena, and indicates that it is a good thing to study the works of God in creation. Many answers to questions which science cannot settle are found in the Bible: questions of ultimate causes and goals, and questions related to the needs of the spirit within. Science, however, adds to one's appreciation of God's greatness and wisdom.
