

Frlona High School may have come up with a D&D combination that will make the M&M (Maris and Mantle) combination obsolete.

Next year when Coach C. W. Dukes joins the FHS Athletic Department, it will bring together two of the most outstanding (if not the most outstanding) girls basketball coaches in the state of Texas.

In the past seven years, Dukes and Baker Duggins, girls coach at Frlona, have compiled records which would make the old New York Yankees of Casey Stengel look like an average team.

Dukes' seven-year record at Sundown was 187-41. Duggins compiled a 183-26 record during that period. Combined, that makes 370 wins and only 67 losses between them.

Dukes' winning percentage figures out at 82.0. Duggins' is a little better at 87.6. Combined, the two coaches have a 84.7 average, enough to lead just about any league we know about.

Their combined record would be even more impressive except that about 14 of the games in the "lost" column came about as a result of games against each other.

Dukes had three straight state championships at Sundown, and Duggins has had teams at the state tournament two out of four years.

Duggins will remain as girls head coach, with Dukes taking over as boys head coach. Frlonians hope the winning trend will continue for D&D.

We received letters from two city officials this past week advising merchants to use caution if approached by salesmen who claimed to be selling yellow pages telephone directory advertising. The warning from General Telephone was that a group was selling advertising which it called yellow pages, but which was not connected with the telephone directory at all.

Best solution we can think of: just advertise in your hometown newspaper, and you can't go wrong.

When Larry Potts makes up his mind about something, apparently he does it. Larry, an FFA member at Frlona High School, last year was a member of the livestock judging team which placed third in the state contests.

Since he would be ineligible to go to the state meet in the same contest this year, he switched to the dairy judging team, and vowed he would make another trip to the state contest. Last weekend at Texas Tech the FHS dairy team placed second in the area.

The dairy judging team will compete in the state contest at Texas A&M this weekend, and just as he planned, Larry Potts will be right in there.

The livestock team is back for another crack at the state meet, also, giving Frlona two teams at a state contest for the second time this school year. Congratulations to David McVey, Benny Prior and their hard-working FFA boys.

A flood of forged and worthless checks have plagued local law enforcement officers lately. Bill Morgan, Frlona Chief of Police, says people will take anything.

To prove his point, he cites a check which recently was passed in Frlona. A personalized check with the words "J.W. and Willie Beaty--Special," was taken from the Beatys and was passed. It was signed appropriately "J. W. Spectal."

The check not only was passed. It cleared the bank and turned up in the Beatys' regular monthly bank statement.

Some folks asked us what ever happened to the sign, "Future home of Taylor and Sons Super Market" on the Hereford highway. We asked Wilford (Buddy) Taylor of Canyon, manager of the grocery chain about the store's plans, if any, for Frlona.

Taylor and Sons bought the Frlona property about three years ago, and at about the same time built a store in Dimmitt. Now their Frlona plans are indefinite.

"Yes, we have plans for Frlona, but nothing definite, and

**STATE-BOUND AGAIN**

**FFA Judging Teams Leave For Contests**

For the second time this school year, Frlona's Future Farmers of America Chapter will send two teams of boys to a state FFA contest.

This weekend the Frlona High School dairy and livestock judging teams will compete in the state FFA judging contests on the Texas A&M College campus

at College Station. Last December, the junior and senior leadership teams advanced to the state leadership contests, and the senior team brought back the first place state banner.

**Officers Arrest Five For Check Offenses**

Parmer County Sheriff's officers have five men in custody, all charged with forgery or worthless check offenses.

Robert C. Bell, 39, of Crowell

was returned to Parmer County from Montana. He is charged with forgery.

Antonio Flores, 27, of Amarillo, was picked up last week on a warrant. Charged with forgery, he is also wanted in Castro County.

Joe Medina, 18, Bovina, was arrested last Tuesday in Farwell and bound over to the Parmer County Grand Jury for action.

E. B. Morrow, 49, of Salt Lake City, Utah, was returned to Parmer County last Tuesday, and indicted for passing worthless checks.

Bobby Horn, 22, Hereford, is charged with forgery and bound over to the grand jury for action. Bond on each of the five men was placed at \$1,000.

In addition, Bravillo Luna, 18, of Tulia, was picked up in Tulia last Thursday, charged with taking a person charged with a felony out of state, to avoid his arrest. Luna's bond

**BURSTING AT SEAMS**

**Parmer County Hospital Tells Of Need For Rooms**

The need for expansion at Parmer County Community Hospital and a proposed building addition to meet the hospital's needs were discussed at a breakfast meeting in Frlona last Saturday.

Dr. Paul Spring, spokesman for the hospital, said that the hospital needs more private rooms, and it was his opinion that 10 additional private rooms would put the hospital in much better position during the "rush

months." H. E. Barnett, administrator for the hospital, reported that during the peak months of January and February of this year the hospital was filled almost constantly, and every possible space was used to house patients. Places such as the lab waiting room, the doctors' library, the EKG room (a room in the clinic in which electrocardiograph tests are made) and one of the treatment rooms

were often used to house patients. "The doctors probably wouldn't tell you this, but I feel sure that on occasion last winter when we were filled up, patients were treated and sent home who under other circumstances would have been hospitalized," Barnett told the group. "It is the hope of the board of directors that the proposed addition may be started in the near future, so that it will be

ready for the peak months next winter," said G. B. (Pete) Buske, chairman of the hospital board of directors. Barnett said that 10 private rooms could be added to the present hospital plant at a cost of around \$63,000 according to one estimate. It was unanimously agreed that a fund-drive would be instigated to raise the money.

(Continued on Page 2)

DISCUSS PLANS . . . Representatives of Parmer County Community Hospital discussed the hospital's future plans at a meeting last Saturday. In the back are Dr. Paul Spring, Sloan

Osborn and Ross Ayers. In front are H. E. Barnett, hospital administrator, Pete Buske and A. W. Anthony. The hospital board will meet Tuesday to discuss further plans.

**FROM BARREL PAINTING**

**Rainbows Will Collect Money For Child Clinic**

Frlona Rainbow Girls will canvass Frlona this afternoon, accepting contributions for the painting of trash barrels, which was completed Saturday by members of Oasis Shrine Club.

The Rainbows Girls and Shrine Club will split the money which is contributed. The Rainbows formerly painted the barrels as a project.

The Shrine Club furnishes a free noon meal for the doctors, nurses, children and parents.

The barrel painting is a joint effort between Frlona, Dimmitt and Hereford Shriners. If persons aren't at home when the Rainbow Girls come by, they may give their contribution to any Rainbow or Shrine member.

**HAS 1-0 RECORD**

**Irrigation Team Makes Home Debut Friday Night**

Frlona will be seeking its second win of the season when the local nine plays its first home game of the season against Muleshoe at Reeve Field Friday at 8 p.m. The team is in the Irrigation League.

The pitching and hitting of S. D. Baize led Frlona to a 4-3 win in its season opener at Umbarger Sunday. Baize gave up only two hits during seven innings, and collected two hits for his team's cause, including a two-run homer.

Jim Collier started on the mound for Frlona, and was touched for three runs in the second inning. Baize, who started the game at shortstop, traded positions with Collier at the beginning of the third inning, and pitched shutout baseball the rest of the way.

Frlona didn't score until the fifth inning. David Patterson led off with a single. Billy Don Thomas sacrificed him to second, and with two out Baize cracked his homer to make the score Umbarger 3, Frlona 2. Frlona took the lead in the seventh inning. Baize led off

**Benefit Games On Tap Today**

Two exhibition basketball games will be played at Frlona High School this afternoon beginning at 2 p.m. The games will benefit the foreign exchange student fund. There will be a girls intrasquad game followed by a game involving the boys who will make up next year's varsity squad. No graduating seniors will play. Admission price will be \$1 for adults. Tickets will be on sale today at Bi-Wize Drug, Hurst's Department Store, Foster's and Piggly-Wiggly. Tickets may also be purchased at the door.

## Mailbag

To June Floyd and Bill Ellis: The Junior Chamber of Commerce wishes to thank you for the great coverage by the Star for the Junior Rodeo. We did not cooperate too well with the publicity, and should not expect the best newspaper coverage. But you gave us just that -- the best.

Again may we thank both of you for your loyal support to the Junior Chamber of Commerce in helping make the Junior Rodeo the success that it was.

Friona Junior Chamber of Commerce

Dear Sir:

. . . We surely enjoyed our stay in Friona, and appreciate everything you did for us in our district meeting.

Respectfully,  
 Mrs. R. A. Hodges  
 District THDA Director  
 Canyon

## Star Lites--

(Continued from Page 1)

nothing right away," Taylor said.

Ed Foreman, Texas Republican congressman, was recently talking about the Democrats as big spenders. Said Ed: "The folks back home in West Texas are looking for a government handout -- they want the government's hand out of their pockets."

Those of you who have seen S. V. Chitwood's new license plates on his pick-up may have wondered if he was getting special treatment, since the lettering is in red, rather than black as are the rest of the state tags this year.

Fact of the matter is that Chitwood's tags are duplicates. His originals were stolen the night a pickup was taken from the Friona Motors lot, presumably attached to the stolen vehicle. So Chitwood had to apply for more license plates, hence the shiny new ones with red letters.

The boss happened to be standing by the door as Figley tried to slip in 15 minutes late. The boss eyes him coldly. "Er . . . I'm not really late, boss," Figley explained. "I just took my coffee break before coming in."

## Parmer Co. Hosp--

(Continued from Page 1)

"It takes about 98.5 cents of every dollar we take in to pay our operating costs. The rest is applied to the principal on our current debt. So it would be impractical to add to our current obligations," Barnett said.

The hospital has only four private rooms at present, and these become semi-private in emergencies. There are facilities at present for only about 20 patients under normal conditions.

"But, of course, people don't get sick on the average," someone commented.

Certain conditions such as isolation cases, and inability to combine members of the same sex in semi-private rooms and wards often cuts down on the maximum facilities. Young children are almost the same as isolation cases, it was pointed out, so that when a baby is hospitalized in a semi-private room, another bed is lost.

The proposed 10 new private rooms would be approximately 12 by 14 feet with baths. Railings will be installed which would enable the rooms to be easily converted into semi-private rooms, thus giving the addition a maximum capacity of 20 additional beds in emergencies.

"We've been extremely fortunate that no bus or train tragedy has happened near Friona in recent years. We simply would not be able to cope with such an emergency at present," Barnett remarked.

Those present for Saturday's meeting were unanimous in endorsing the fund drive as a means of raising the money. Federal aid, which has never been accepted by Parmer County Community Hospital, was once again discussed as "completely out of the question."

In addition to the new rooms, some additions and improvements will be necessitated for the hospital's kitchen. Barnett said he figured this would cost about an additional \$10,000.

Further plans for the fund drive are expected to be discussed at the board of director's regular meeting May 7.

The original building for Parmer County Community Hospital was completed in 1956 at a cost of around \$200,000. Of this amount, about \$100,000 was made up in donations. The clinic was added two years ago at a cost of \$54,000, which was borrowed. The current debt on the hospital is around \$70,000.

Wanted: Man to work on nuclear fissionable isotope molecular reactive counters and three-phase cyclotron uranium photo synthesizers. No experience necessary.

## In The Courts

JP Court

The following cases were tried before Judge Walter Lovelless in Friona's Justice of the Peace Court, through April 29: Donald M. Lee, no valid driver's license.

Dewayne Edward Vos, no valid driver's license.

Louis Gavin Pierce, no valid driver's license.

Ben Roosevelt Woody, driving an unregistered vehicle while using it for commercial purposes.

William Kirby, unsafe left turn causing an accident.

Clayton Taylor, accident.

Corporation Court  
 The following cases were tried before Judge Thelma Jones in City of Friona Corporation Court through April 29:

Gerald Koelzer, speeding, 50 in 40 mile zone.

Jim Snead, excessive noise, improper start.

Milton Hargus, excessive noise-improper start.

Jimmie David Duncan, altered driver's license in possession.

E. V. Plaster, parallel parking in angle parking zone.

Daniel Carmichael, failure to stop at stop sign.

Charles L. Lokey, drunk in public place.

Randolph Davis, failure to stop for flashing red lights and speeding 65 in 35 mile zone.

Ronnie Joe Harvey, no valid inspection sticker.

Officers Arrest--  
 (Continued from Page 1)

was also set at \$1,000. Jerry Foster, 26, of Clovis, N.M., was tried in County Court Friday on a charge of driving while intoxicated. Foster was apprehended in Friona on Thursday by Chief of Police Bill Morgan. He was fined \$100 and costs and 10 days in jail by Judge Loyde Brewer.

C. G. Mackey, 43, a Muleshoe man, was arrested by Sheriff Charlie Lovelace, while driving a car stolen in Texico. Parmer County officers returned Mackey to Clovis officials where charges were pressed.

The eye doctor patiently tried lens after lens on an elderly woman. Nothing seemed to be right for her.

"Now don't become discouraged," the doctor reassured her. "It's not easy to get just the right glasses, you know."

"It certainly isn't," the woman replied. "Especially when you're shopping for a friend."

## FFA Judging--

(Continued from Page 1)

test will be Saturday. In individual scoring, Larry Potts was second-high individual in the dairy judging contest. There were 327 boys in the contest. There were 109 teams entered, representing all sizes and classifications of schools.

Max Reeve was the sixth place individual scorer in the dairy judging contest.

In the livestock judging contest, Dennis Howell was second high individual in beef grading, a division of the livestock contest. The Friona team was also the highest team in the beef grading division.

Both Pryor and David McVey joined in praising the students for their achievement. "They are interested and really work at it," they said.

## Mayhew Ends Naval Course

Ernest G. Mayhew, son of Mr. and Mrs. Ernest D. Mayhew of Route 1, Friona, completed nine weeks of basic recruit training April 11 at the Naval Training Center in San Diego, California.

The indoctrination to Navy life consisted of physical fitness drills, military drills, seamanship, basic military law, customs and etiquette of the naval service, swimming and survival, and first aid.

During the training, recruits received tests and interviews to determine future training and assignments in the Navy.

In Paraguay there is a firefly called the railway beetle, which flashes a red light at the ends of its body and a green light along the sides.

## Editorial Comment : Here's A Cause To Support

We hope that Friona and Parmer County will get behind the fund drive which will begin soon to finance the addition of 10 new private rooms to Parmer County Community Hospital.

The hospital stands as a monument to free enterprise, and is a continuing example of what Americans can and have done for themselves throughout the history of our great nation.

The Friona hospital, which draws patients not only from throughout Parmer County, but from other counties as well, has caught up with itself, and needs to expand in order to take care of its ever-increasing business.

It is estimated that the addition of 10 rooms will cost around \$63,000. The hospital board of directors wants to raise the money entirely from donations.

As for the possibility of using federal aid, through Hill-Burton funds or otherwise, the hospital leaders, as they have done from the start, say "Nothing doing." To them, we say "Keep up the good work."

The hospital leaders realize that by accepting one penny of federal aid, they would be jeopardizing their freedom of operating the hospital as they see fit. Invariably, where there is federal aid, federal control isn't far behind.

Parmer County is fortunate in having a hospital the caliber of ours. Parmer County Community Hospital has seven registered nurses on its staff. This would place them in the same class of almost any hospital, be it in Lubbock, Amarillo or wherever. In contrast, the Dimmitt hospital keeps only one registered nurse on its staff.

The national average stay in a hospital per patient is about eight days. But at Parmer County Community Hospital, the average is between 3.5 and 3.7 days per patient. That's where better qualified personnel (both doctors and nurses) comes in handy.

We think the people of the area will respond generously to keep our hospital abreast of its situation--and at the same time keep control here at home, where it belongs.

Corvair Monza Club Coupe

## Who needs muscles?

Do you know how easy it is to take a corner with a Corvair or park one? Turn this newspaper sideways and it will give you a pretty good idea. The wheel handles just about that easily.

The Corvair's engine is in the rear, for not only greater traction, but more balanced weight distribution. And that's what makes the steering so completely effortless.

The engine is air cooled, too. No radiator. No water or antifreeze. No boiling over or freezing up to worry about. It takes the weather and the terrain as it comes.

AT YOUR CHEVROLET DEALERS

So think about those trips to the beach this summer, those bright sunny days and balmy moonlit nights.

And besides, looking at it from a very practical point of view, it's Trade 'N' Travel time right now at your Chevrolet dealer's. He's got some beautiful buys.

But you had better hurry before somebody muscles in ahead of you. Spring's here, Summer's coming fast. And with these sporty good-looking Corvairs selling the way they are, he who hesitates will want to kick himself.

### 'Phone Official Warns Of Yellow Page Bilk

R. E. Saunders, district manager of General Telephone Company of the Southwest, warned city officials by letter this week about a group of solicitors that are reported to be going through the area selling what they call yellow page advertising.

"They canvass the towns just prior to a regular telephone directory advertising campaign and leave the impression with the telephone customers that their advertising will appear in the next telephone directory," Saunders wrote.

He went on to say that a particular publication of this type was recently produced by Southwest Directory Company of Abilene, but is not associated in any manner with the Southwestern Bell Telephone Company's regular directory.

"It is recommended that you pass this word along to businessmen who will then be alerted to possible misrepresentation. We would suggest that businessmen request credentials if approached by di-

rectory representatives they are not acquainted with so they may be assured of securing telephone directory yellow page advertising," Saunders concluded.

### Winchester Rites Conducted Saturday

Funeral services for A. C. Winchester, 59, of Houston were conducted from the South Park Memorial Cemetery chapel at 1 p.m. Saturday, Winchester, the father of Mrs. Earl Drake of Friona, died at 8:40 p.m. Thursday en route from his home to a hospital.

Survivors, other than Mrs. Drake, include his wife, his mother, Mrs. M. E. Winchester; one son, Alton Winchester; another daughter, Mrs. W. H. Hartman, all of Houston and six grandchildren.

### Pre-School Day Set Tomorrow

Tomorrow, Friona Elementary School will observe pre-school day, for all youngsters who will be six years of age by September 1 of this year. They are to register at the (east) elementary building in Friona.

All students who are to enter school for the first time are asked to register. Regular first-grade students will be excused for the day.

### NOT FAIR

Conversation between two Los Angeles drivers:

"How'd you puncture that tire?"

"Ran over a milk bottle!"

"Didn't you see it?"

"Naw, the old guy had it in his pocket."

GET SEAL COATING . . . Twenty blocks of Friona streets received seal coats this week. The actual paving was accomplished in one day by Pioneer Pavers of Lubbock.

### Twenty City Blocks Receive Seal Coats

Twenty blocks of pavement in Friona received seal-coating Tuesday, as prescribed recently by the city council.

Pioneer Pavers Incorporated of Lubbock gave single coats to 17 city blocks, and double coats to three blocks (Sixth, Seventh and Eighth Streets between Main and Euclid).

The paving was necessitated by last winter's excessive cold, which caused the pavement to crack and left several holes.

The block in front of the Post Office was especially in need of the new coat, since a water main burst following a cold spell, and the resulting repairs left a sizeable hole in the pavement, which was hard

to patch up.

In other city activity, a four-inch auxiliary water main was being installed on Elm Street this week, in compliance with a request to the city council. The new pipe will be tied into the existing main, giving residents on both sides of the street a better water supply.

The city also laid 376 feet of six-inch pipe and 450 feet of two and one-quarter inch pipe in the Drake Addition, around Blocks 2 and 3.

On May 24, 1890, the first train drawn by a steam engine rolled down 12 miles of track on the B. & O.

### A Report From Bill Clayton State Representative 91st Dist.

We are soon to begin the last month of the session of the Legislature if the session lasts the full 140 days. There are indications that this legislature may finish short of the full time, something that has not been done in recent years. Both Houses have passed their appropriations bills, and a conference committee, made up of members of the two Houses, has begun work on the final draft of the money bill that will pay for the operation of the state for the next two years. It appears that the tax bill passed by the House, and which exempt farm machinery as is presently done, will be passed by the Senate also, and it will provide the additional money that will be required for the next two years. When both of these pieces

of legislation (appropriations and money to cover the appropriations) have been taken care of then the major remaining work of the session will be finished.

The House has had two sessions, and another one scheduled for next week, at which they passed numbers of local and uncontested legislation. These sessions take care of, in a short time, much needed legislation that is either local or corrective in nature, and shorten the hours that would have been used to have passed the same bills. The bills, appearing on this calendar, are submitted to a study committee, and are carefully checked to be sure that they are just what they say they are, "local" or "uncontested," and then they can be processed rapidly.

House Bill 159, having to do with the regulation of obscene motion pictures and obscene literature, passed the House, and I am hopeful that it will result in more careful selection of motion pictures that are shown in public theaters.

The House passed House Bill 164, Representative Bill Dungan's bill concerning the teaching of Americanism vs. Communism in the public schools. The bill was amended in the House, and as it passed it provided that senior high schools should teach, either in American History or Economics, a study which would compare the economic and political systems of the United States with those of the Communist countries.

The House also passed two bills having to do with the equal rights for women. One of these bills provides that the married woman can have separate control over her own personal property, and the other does away with separate acknowledgment in transfer of property.

The House passed Thursday a loan shark bill. This was a similar bill to the Senate Bill in as much as it was a committee substitute for the Senate Bill. It took many hours of debate and discussion on this bill.

The hours per day are getting longer as far as house work and committee work is con-

"COULD WE FLY NOW AND PAY LATER?"

### Classroom Teachers' Association Formed

Teachers from the Tulia Classroom Teachers' Association met with a group of Friona teachers Monday night and helped the local group organize a Classroom Teachers' Association here.

Benny Pryor was elected president of the Friona group. June Rhodes is first vice president, Robert Taylor is second vice president; Martha Bates is third vice president; Joy Morton is secretary; Maurine Dunn is treasurer and David McVey is parliamentarian.

The reason, of course, for the heavy work the last few weeks is that it looks like time for getting bills passed through both the House and Senate is growing late. This being the case more contested and controversial legislation will be up for discussion and many of them will die with the session.

One bill that will be coming up in the next few days that would be a benefit to our area, is the establishment of a hospital for the mentally retarded and handicapped children west of the 100th meridian.

I still appreciate hearing from you, and anytime that I can be of help to you please let me know.

A legislative committee was also appointed. It is made up of Robert Taylor, Mrs. O. J. Beene, Dorothy Rowlett and Wayne Hodgson. This group is to draw up a constitution.

A farmer bought a painting, took it home, and hung it first one way then another. Each time, the effect was confusing. Finally his wife asked: "What in the world is that supposed to be?"  
"Why," said the farmer, "it's a realistic picture of the farm situation. No matter how you look at it, it just doesn't make sense."

## San Antonio Missions Stand As Monuments To Spanish Influence

The crumbling ruins of the Franciscan missions in Southwest Texas are among the most impressive monuments to Spanish enterprise to be found in the United States.

Along a stretch of 12 miles down from the old Presidio of San Antonio de Bexar may still be seen the ruins of five missions.

Often called "Queen of the Missions," Mission San Jose is located a few miles from the heart of downtown San Antonio. Established in 1720, this is the best preserved and most complete mission establishment in the United States.

One can spend several hours touring the buildings and making pictures. The entire outer wall includes the restored Indian houses along it. Also on the compound are the carpenter shop, granary and workshop. An interesting restored old mill

is the oldest in Texas. The Church is beautifully stone carved and contains the famous rose window.

Mission San Jose is now a national historic site and Texas state park. It is open from 9 a.m. until 6 p.m. weekdays, and from Sunday noon until 6 p.m.

In the course of its colorful history, the beautiful old city

of San Antonio has been under six flags: France, Spain, Mexico, the Republic of Texas, Confederate States of America and United States of America. Each has left its mark.

With an average mean temperature of 68.9 degrees, San Antonio is an ideal vacation spot the year 'round. A day, a weekend or a week can be pleasantly spent enjoying the many historic sites in and around the city.

In addition to the mission tour there is, of course, the celebrated Alamo in the center of town which is of interest to visitors of all ages. Texans or not; La Villita, the 300-year-old Spanish village which has been reconstructed and is open, free, seven days a week; the Spanish Governor's Palace, built about 1749; beautiful Brackenridge Park with its zoo, aquarium and Chinese garden; and four important military installations, usually open to the public.

## Troop 56 Holds Board Of Review

Boy Scout Troop 56 held a board of review at the Monday evening meeting at 7:30 at the Scout Hut for Tenderfoot, First Class and Second Class scouts.

Tenderfoot awards were approved for Earl Love, Joe Bill Jones, Troy Bass, Roger Fields, Rex Talley and Donnie Gibson passed Second Class Scout requirements. First Class Scouts passing the test were Joel Osborn and Johnny Barker.

"Firemanship" was the topic of discussion of Ralph Shirley. Kim Buske was elected a nominee for the National Jamboree.

Pete Hollis, Scoutmaster, invites any boy interested in becoming a Boy Scout to contact him by telephoning 9401.

**ELEGANT**—Flower-printed cotton satin inspires a versatile costume dress by Alex Colman of California. The new longer jacket tops a sleeveless matchstick shift that can be worn with or without the tie belt.

The custom of kissing children goodnight has just about died out. Parents can't wait that long for their children to get home.

**Something To Think About**  
6th. Street Church of Christ  
Box 515 -- Friona, Texas

Within and without Christendom there is a widespread belief in the Bible. In many pulpits things are taught concerning the Bible which one hundred years ago were said only by professed infidels. Why is this? Why do so many people question the evidences of Christianity? May we suggest that, for the most part, it is a result of the attitude in which they approach the study of these credentials. Of some it has been said that there is method in their madness, but in this case it is quite evident that there is madness in the method by which they endeavor to evaluate Christianity. It is impossible to evaluate fear and love by X-ray. Neither can a man pick up ideas with forceps, put them in a test-tube, shake vigorously, and produce a system of philosophy from such a combination of thoughts. This approach to the scriptures rules out certain essential aspects of reality and the only results will be failure and frustration, and eventually disbelief. Nicodemus made this mistake, in that he tried to measure the spiritual by the temporal and Christ said to him; "Art thou a master of Israel, and knowest not these things? I say unto thee, we speak that we do know, and testify that we have seen; and ye received not our witness." (John 3:10-11) The apostle Paul also made this mistake but he overcame it and by so doing gave us a wonderful example of the right way to approach a study of the credentials of Christianity. Think about it!!!

## Fire Consumes Farm House

Fire consumed a house and garage on the L. B. Blake farm last Friday. The houses were located six miles north and three miles west of Friona.

The main building, an old two-story house, was being remodeled for an employee of Blake's. The would-be tenant lost a cook stove, a chair, and rugs which he had already purchased for several rooms.

Blake estimated the loss at "around \$4,000." He stated that he was working around an irrigation well about a half-mile away from the house when someone noticed the blaze.

"By the time we got to the house, it was engulfed in flames. It burned faster than anything I ever saw," Blake said.

## SCHOOL MENU

EYE STATE MEET . . . The members of the dairy judging team, which will compete in the state FFA judging contests this weekend at College Station, display banners won at Lubbock's area contest last week. In the back are Max Reeve and Larry Potts. Jerry Cass and Don Collier are in front.

The older man gets the further he had to walk to school as a boy.

Molly Pitcher took her husband's place in the Battle of Monmouth in 1789, as he lay dying beside his cannon.

**TLC Exes Plan Lubbock Meet**

Ex-students of Texas Lutheran College in the Upper Cap Rock Chapter will gather for their annual chapter meeting Friday, May 3, at Picadilly Cafeteria in Lubbock. The time for the meeting is set for 7 p.m.

Speaker at the event will be Dr. Martin L. Cole, president-elect of TLC.

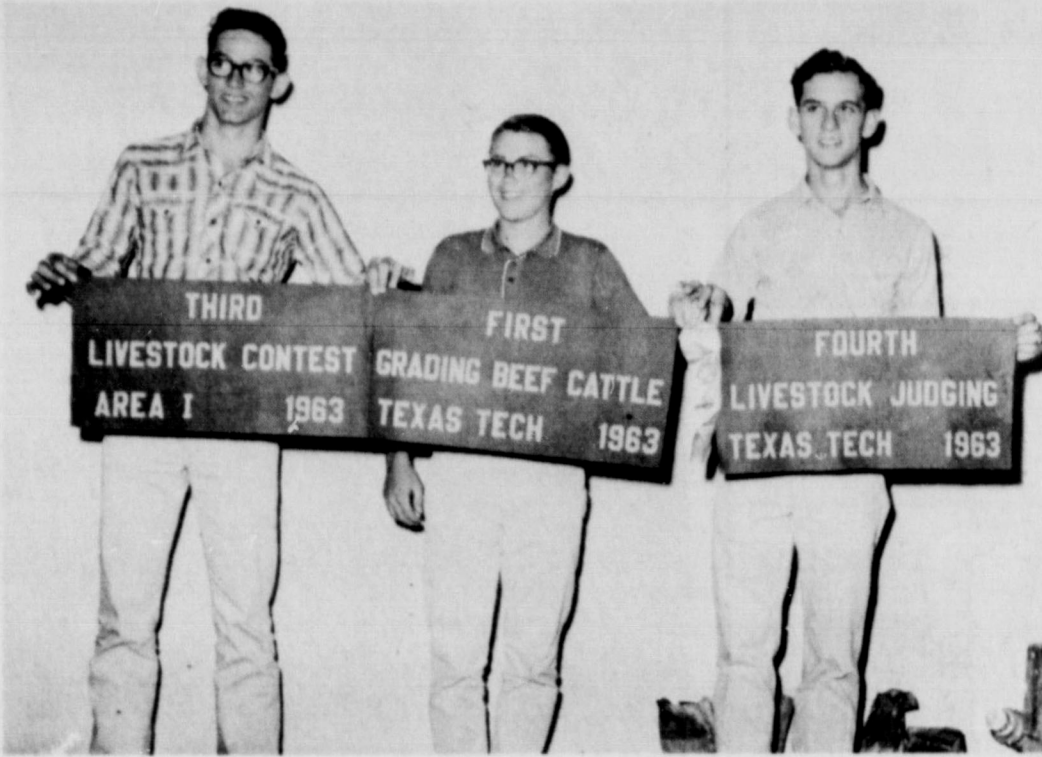

The Upper Cap Rock Chapter is one of about 25 TLC ex-student groups in Texas, Louisiana, and Ohio.

**Selecting Boot Tops**

Don't wear excessively high boot tops when unnecessary. The added weight can slow you down perceptibly on an arduous hunt.

Also, they put additional pressure on the tendon back of the ankle.

For usual wear a seven-inch top, or even a pair of high-top shoes, is ample. Use high-top boots only in swampy, snake-infested areas.

MORE BANNERS . . . Members of the livestock judging team, third in the area contest, and tops in beef grading, display the banners they won at Texas Tech last weekend. Left to right are Tex Phipps, Dennis Howell and Dewain Phipps.

**Driving Should Be Important As Golfing**

It is an interesting contradiction in human nature that many individuals who are sure of their driving skills don't feel so self-satisfied about their golf game. They voluntarily look up the golf pro when they play a bad game of golf to find out why they are slicing or hooking their drives. They accept advice and may practice long and hard to get their golf swing back in the groove.

On the other hand, when they hook bumpers or slice into another car on the highway or street, they blame it on their lack of attention or on the incompetence, or stupidity, of the other driver. They think the solution is simply to be more alert. Yet, if they were as open-minded about driving a car as they are about golf, they probably would admit that careless driving habits finally had caught up with them.

The plain, hard facts are that the majority of injury-producing accidents are caused by self-acknowledged good drivers who are traveling at speeds under 50 miles an hour. Actually, these average drivers who become involved in an accident because of a thoughtless, unsafe maneuver like changing lanes without signaling and looking, probably have done the same thing so many times without having an accident that they

have developed a false sense of security. Drivers who have satisfied themselves that they are safe drivers, even though they often have committed hazardous maneuvers, will be extremely hard to convince that they are heading for trouble.

Of all the skills practiced by mankind, there is none that is used more -- and improved less -- than that of driving an automobile. From the time we first learn to drive, most of us believe we have mastered the art and there is nothing more we can learn. If you, the reader, still doubt the existence of this attitude, gently question the

driving of a friend and you will learn what a good driver he thinks he is.

By adopting a proper attitude, we will analyze our driving mistakes even more carefully than we study our golfing errors. We will resolve to practice better driving habits, knowing that, just as in golf, good results are produced by developing good habits. The difference is that in driving, the successful exercise of good habits, skill and judgment can save our life, and perhaps the lives of loved ones.

Do not forget, that attitudes of every-man-for-himself are unsafe for you and others.

Willy was sobbing bitterly. Between sobs he told the teacher: "I don't like school, and I have to stay here until I am 16."

"Don't let that worry you," consoled the teacher. "I have to stay here until I am 65."

**Parmer's Bond Sales Pass \$23,000-Mark**

Parmer County's bond sales for March totalled \$18,422, placing its total for the first quarter of 1963 at \$23,428, representing 29.3 per cent of the county's goal, according to Frank A. Spring, chairman of the county savings bond committee.

Sales in Texas for the first quarter of 1963 amounted to \$15,387,951, which represents 26.7 per cent of the state goal of \$150,600,000.

"Right now the Freedom Bond Drive is going on . . . this is an opportunity for every family to purchase at least one Savings Bond before the Fourth of July. Buy one at your bank or join the Payroll Savings Plan where you work. I urge all patriotic citizens to join in this drive," Spring stated.

TEACHING MACHINES doubled the efficiency of a class of medical students at Dartmouth College, reports the school's psychiatry department. Learning efficiency was measured by comparing test scores with time spent studying. On material covered by the machine, average efficiency was 1.85 times as great as the score on material presented in the traditional way. . . . PARALYTIC POLIO cases dropped to 864 in 1961, a rate of less than five cases per one million population, reports the National Foundation. This compares with a rate of 162 cases per million population in the period (1945-1954) just before the advent of Salk vaccine.

### Rainfall Doesn't Total An Inch For The Year

A total of .15 inches of rainfall was measured in Friona during April, according to official figures by the City of Friona.

Actually, .07 inches of the total fell on the last day of March after the reading had been made that day, leaving .08 for April, .08 of which was measured April 2 and .02 on the sixth.

That shower that fell on the last of March was the only precipitation for the entire month. There was only .02 inches measured in January, from blowing snow, and .56 inches in February, from light snows.

The total precipitation for the year is still under an inch, standing at .73 for the first four months of 1963.

There was a cloudy and humid day during the past week -- on Sunday, but no rainfall.

	Max	Min
April 25	81	41
April 26	81	57
April 27	76	49
April 28	75	41

April 29	77	43
April 30	74	39
May 1	74	49

### BAG TRICKS

**COVER-UPS**—Sturdy and attractive protectors for tennis rackets and golf clubs can be made from cotton osunburg feed or flour bags, trimmed with Wright's colorful bias tape. Instructions from the National Cotton Council, Bag Dept., Box 9906, Memphis 12, Tennessee.

RECEIVE PLAQUES . . . New members of the Friona Lions Club who received their plaques at the meeting last Thursday include Bill Ellis, Porter McGee, Paul Yarborough and Roy Miller.

Nellie Bly was the pen name of Elizabeth Seaman.

### Check Rules In Social Security

Many people lose money because they don't check on their social security when they reach retirement age, according to Hal Geldon, Amarillo Social Security District Manager. In many cases, these people are still working and believe they cannot get any benefit payments unless they are completely retired.

Geldon stated that workers who earn over \$1200 yearly may still get some social security payments depending on

the amount of their earnings. He cited as an example, a 65-year-old worker eligible for \$100 a month from social security. In this case, the worker could get some benefits even if his yearly earnings were as high as \$2600. If a wife or child were eligible for benefits on his account, the worker could earn more than \$2600 and still collect some social security benefits for himself and his family.

### Tech Finishes Local Action For The Year

Texas Tech's tennis match with Texas A&M here Monday winds up Red Raider sports competition locally.

Golfers entertain Southern Methodist here this Friday to conclude their regular schedule.

Baseball's final date is Saturday, when the Red Raiders play a pair against Eastern New Mexico University at Portales.

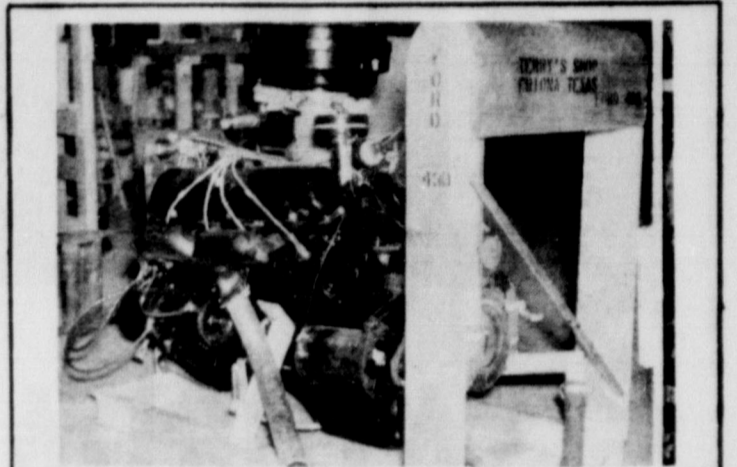

Southwest Conference tournament competition is still in store for the tennis players, at Waco next week, and for the golfers, at Fayetteville, Ark. The SWC track meet is also at

Fayetteville. Four more meets are also slated for track and field qualifiers.

Honoring Texas Tech's participants in seven sports, the Red Raider Club will hold its annual dinner in the Coliseum Tuesday night (7th).

Southern California's John McKay, football coach of the year for 1962, will be the speaker for the social starting at 6:30 p.m.

Tickets, at \$2.50 each, may be obtained from the Red Raider Club, Box 456, Lubbock. The event is open to non-members, said President Verlon Bigham.

### frontier BRAND 400-B

Triple-crossed hybrid developed for heavy grain yields under all conditions... on both dry and irrigated land.

Large heads carried well above leaves for EASY COMBINING. Heads dry rapidly and can be harvested before frost, in many cases. High resistance to drought and milo disease. Matures in 90-100 days.

### frontier BRAND 410-B

Produces good yields on dryland... and yields can be OUTSTANDING under irrigation!

Bred for short stalk and good standability. Heads of light red seed are carried well above leaves - on unusually large, juicy stalks. EASY TO COMBINE! Resistant to milo disease. Matures in 100-110 days.

### frontier BRAND 410-C

A heavy yielder developed especially for alkaline soil and iron deficiency conditions.

Thrives on dryland AND in areas of abundant moisture. Good seedling vigor! STANDS WELL AND IS EASY TO COMBINE! Resists milo disease. Matures in 100-110 days.

### frontier BRAND 400-C

Developed for DRYLAND PRODUCTION and for resistance to iron chlorosis deficiency. PRACTICALLY ELIMINATES YELLOW AREAS IN FIELDS! Large heads stand well for combining. Resists milo disease. HEAVY PRODUCER UNDER IRRIGATION! Matures in 90-100 days.

### NEW frontier BRAND 388

Developed for areas where a hybrid with an earlier maturity is desired.

Frontier Brand 388 is of medium height and is well adapted to short growing season areas. Head is open with good drying characteristics. Seed is hetero yellow type with some increased vitamin A content... is exceptionally palatable... and should be eaten readily by all classes of livestock. Has considerably better lodging resistance than other hybrids of the same maturity range. Matures in 85-100 days.

### frontier BRAND 411

One of the outstanding hybrids on the market! Its standability is far superior to most hybrids grown to date. Short, heavy stalks of even height and unusually large root system lets Frontier 411 withstand lodging under any combination of adverse conditions. Resists milo disease and chinch bugs. EASY TO COMBINE! EXCELLENT YIELD! Matures in 105-112 days.

## frontier

Guaranteed to Stand... or Your Money Back!

### ONE OF THE SHORTEST, STURDIEST HYBRIDS ON THE MARKET!

Stands only 26 to 36 inches high - on a strong, sturdy stalk! Powerful root structure keeps Frontier 410-E firmly anchored under most adverse conditions!

The exceptional standability of Frontier 410-E has been proved so often in the past that - this year - Frontier offers you AN UNCONDITIONAL MONEY-BACK GUARANTEE!

Large red grain can be combined as soon as crop matures - in 105-115 days - WITHOUT WAITING FOR FROST!

\*GUARANTEE Frontier Hybrids, Inc., Scott City, Kansas, agrees to refund the purchase price of the seed for every acre of Frontier Brand 410-E Grain Sorghum that lodges more than ten (10) per cent per individual acre after heading for any reason, except that lodging caused directly by hail, subject to the following conditions:

1. The ten per cent lodging requirement shall apply only to separate individual acres on which lodging occurs, and the acre is the unit upon which the refund shall be based.

2. This guarantee of refund applies only to the 1963 Sorghum Crop, and is in effect until January 1, 1964. All claims under this guarantee must be received by Frontier Hybrids, Inc., before January 1, 1964.

3. This guarantee is in effect only when the purchaser submits, within a reasonable time after lodging and before harvest, a paid receipt showing the variety purchased and a written claim for refund to the dealer from whom the seed was purchased. Frontier Hybrids, Inc., by its agents, shall have the right to make an inspection of the claimed lodged area before decision on the claim.

Jack Carrothers, Manager

Mr. and Mrs. Tulon G. White have announced the engagement and approaching marriage of their daughter, Gayle, to Dwight O'Brian, son of Mr. and Mrs. Kenneth O'Brian. Both are members of the senior class of Friona High School. An early summer wedding is being planned.

## Of Interest To ★ THE WOMEN ★

SENIOR KIDS . . . Members of the Friona High School senior class celebrated "Senior Kids Day" Wednesday. This group of "youngsters" is shown greeting instructor Wayland Ethridge with a song, "Good Morning to You," as the class opened.

### Highway Representative Speaks At Club Meeting

R. D. Rogers, an employee of Texas Highway Department from Dimmitt, presented the program at the Thursday afternoon meeting of Lazbuddie Home Demonstration Club in the home of Mrs. Ben Foster.

His topic of discussion was "Artificial Respiration and First Aid." The importance of keeping poisons and medicines away from children was stressed. First aid was defined as "immediate and temporary care in an emergency before you reach a doctor."

Reports on workshops at the THDA district meeting in Friona last month were given as follows: Mrs. Ben Foster Jr., health and safety; Mrs. Everett Clark, family life; Mrs. Albert McBroom, 4-H Club; Mrs. Joe Briggs, citizenship.

Mrs. James Ward was a guest. Fourteen members were present. Next meeting will be in the home of Mrs. Albert Clark May 9.

Twenty-one guns constitute a presidential salute.

### Shape Of Tomorrow Club Program Topic

"Our todays and yesterdays are the blocks with which we build." . . . Longfellow, was the quotation used to introduce the Friona Woman's Club Wednesday afternoon meeting topic, "Shape of Tomorrow."

"New Forms For New Churches" was the subject of a discussion by Mrs. Dorothy Phillips. Delegate's reports "Guideposts For The Future"

were presented by Mrs. C. W. Dixon and Mrs. Carl Maurer. Mrs. Joe Moyer introduced

Mrs. Troy Ray and her Rayettes. This singing group presented "May You Always," "As You Wish Upon A Star," and "The Way You Look Tonight," with Mrs. Ray accompanying at the piano.

Mrs. Carl Maurer served as program chairman. Mrs. V. R. Jordan directed repetition of the club collette.

Mrs. Bill Stewart, a member of Modern Study Club and chairman of the joint organization of federated clubs finance committee, gave a financial report.

During the business session the resignation of Mrs. Edgar Carney was accepted and Mrs. Joe Moyer was elected to fill the vice-president's office.

Mesdames Bert Shackelford and T. E. Wood, hostesses, served blueberry salad, wafers, coffee and tea to 19 members and one guest during the social hour.

### Hospital Notes

ADMISSIONS TO PARMER COUNTY COMMUNITY HOSPITAL SINCE APRIL 24, 1963

J. M. Bradley, Friona, med.; Mary Alice Merrill, Bovina, med.; Bonnie Vickers, Bovina, med.; Laura Ellis, Friona, med.; Sara Castillo, Friona, med.; Mrs. Johnny Pellham, Earth, O.B.; Mrs. Roy V. Miller, Friona, med.; Lois McCutchan, Bovina, med.; Juanita Dickson, Friona, med.; Mrs. Jack Nelson, Friona, med.; Howard Jones, Friona, acc.; Mike Ellis, Friona, med.; Doyle E. Barnard, Bovina, med.; Thurman Chandler, Texico, med.

Brent Hall, Friona, med.; Josefina Ratz, Hereford, med.; P. D. Barron, Bovina, med.; Gay Jennings, Friona, med.; Mrs. Gussie Miller, Friona, med.; C. R. Elliott, Bovina, med.; Cynthia Bralliff, Friona, med.; Mrs. J. W. Ballard, Friona, acc-surg.; Mrs. Eune Martin, Friona, O.B.; Cayson Jones, Friona, med.

DISMISSALS: Mrs. C. W. Brockett, and baby boy, Winston Pattie, Josh Ensor, Hazel Smith, Sue Moten, Gertrude Renner, Gay Jennings, Sophia Cardenas and baby boy, Jess Pendergrass, J. R. Thornton, Charles Seale, Bonnie Vickers, Chris Frye, Mrs. Roy V. Miller, Mrs. Roger West and baby girl.

Mrs. Jack Nelson, Howard Jones, Mrs. John Crim and baby girl, Sara Castillo, Laura Ellis, Mike Ellis, Mrs. Johnny Pellham and baby boy, Doyle Barnard, Brent Hall, Mrs. Weldon Dickson, Thurman Chandler, Mary Merrill.

### Marriage Licenses Issued

Marriage licenses issued by the County Clerk's office in Farwell recently included the following:

April 19 -- Charles Leonard Bass, Friona, and Patricia Myers, Friona.

April 23 -- Robert Betty, Jr., Clovis, New Mexico, and Toni Jaquette Billingsley, Farwell.

Weekend guests in the home of Mr. and Mrs. Harold Balls and Jeanette were Mrs. Ella Faye Holcomb and Phyllis of Amarillo and Mr. and Mrs. Jerry White and Steve of Lubbock.

Mr. and Mrs. Travis Harrell were weekend visitors in the home of Mrs. Harrell's parents, Mr. and Mrs. R. B. Rosson of Floydada.

FAVORITE VACATION—Improved camping equipment, including lightweight canvas tents, has helped create an unprecedented boom in family camping vacations. Popular this season are tents suspended from exterior metal framework. They can be erected in minutes and tests prove they are sturdy enough to withstand winds up to 135 miles an hour.

### Vacation Family-Style

Millions of families will camp this summer in America's woods and forests, attracted primarily by the sheer relaxation of life in the out-of-doors. Economy, more and better campsites, and improvements in equipment have combined to create the current boom in camping vacations. The stiff, hard-to-manage tents once associated with camping have been replaced with lightweight cotton shelters that can be pitched in minutes. If you plan a family camping vacation this summer, here are tips garnered from tent makers and veteran campers to help you select the tent best suited for your camping plans and family size. They will make "roughing it" simply a matter of trading the stress and strain of city life for the ease and beauty of living in the open.

### Dinner Honors Senior Girls

Senior girls and their sponsor, Mrs. Frank Truitt, were guests of honor at an evening meal in the home of Mrs. Ernest Osborn Monday evening. Features on the serving table were wise owls wearing caps and gowns.

Class members present were Eve Braunschweiger, Mary Knight, Martha Knight, Sandra Hoover, Carol Ray, Clare Savage, Gayle White, Willene Baxter, and June Phillips.

Also Sharon Reeve, Kay Johnson, Andrea Milligan, LaVoyce Burrow, Brenda Deaton, Iva Parr, Cynthia Guinn and Janet Buckley.

Mrs. Osborn's daughter, Karen, assisted with hospitalities.

An informal hour of reminiscing school day happenings from the first grade followed the meal.

### Ladies Host Family Night

Rhea Lutheran Ladies Aid sponsored the regular family night at Parish Hall at 8 p.m. Friday.

Supper was served to members, their families and guests. Highlights of the program were playlets presented by members of the society and vocal selections by members of the young people's organization.

Visiting and game playing completed the evening.

### Jaycee Wives Meet Friday

Eleven members of Friona Jaycee Wives were present for the regular business session in the community room of Friona State Bank Friday evening. Plans were made for proceeds from the Jaycee Junior Rodeo and a discussion concerning purchase of vests with the organization name on them followed.

Mrs. Virgil Phipps was hostess. During the social hour refreshments were served to Mesdames Cotton Renner, Glenn Reeve Jr., Bill Nazworth, C. H. Veazey, Grover Houston, Joe Walters, John Banks, Dale Williams and Robert Zetzsche.

### Juanita Reed Fills District Lodge Post

During the business session of the 60th annual session of Panhandle Association of Odd-fellows and Rebekahs in Pampa last weekend Juanita Reed, Friona, was elected chaplain. Other officers for the coming year are Lydia Hopson, Hereford, president; Betty Reed, Amarillo, vice-president; Jean Allen, Claude, secretary-treasurer; and Rena Glasscock, Shamrock, historian.

Other Frionians attending the convention were Mr. and Mrs. Joe Moyer, Bud Reed, Mr. and Mrs. Bill LaFavers, Mr. and Mrs. Giles Cobb, Mr. and Mrs. Charlie Wise, Mrs. Ed White, Mrs. T. A. Sherley, Mrs. Raymond Adams, Mrs. Floyd Brookfield and Waymon Wilkins.

Plans were made for a secretaries and scribes school to be held in Amarillo May 4. Registration will begin at 10 a.m. at 312 1/2 East Fifth Street.

### Mrs. Bessie Watson Feted With Coffee

Mrs. Bessie Watson, junior high teacher, was guest of honor at a farewell coffee in the home of Mrs. Kenneth Williams Monday evening. Mrs. J. A. Loflin was co-hostess with Mrs. Williams.

Attending and sending gifts were Mrs. Jim Maynard, Mrs. Mildred Chandler and Lyndia, Mrs. James Procter, Mrs. Bill Wooley, Mrs. Granville England and Judy, Mrs. Lee Renner, Mrs. John Renner, Mrs. Glenn Mings, Mrs. R. W. Jones, Mrs. Jess Chesher, Mrs. Marion Fite and Mrs. J. C. Claborn.

Also Mrs. Irvin West, Mrs. Sam Jones, Mrs. Joe McLellan, Mrs. Ralph Shirley, Mrs. Joe Mann, Mrs. W. S. Ingram and Cindy, Mrs. Ralph Smith and Mrs. Floyd Brookfield.

The engagement and approaching marriage of Miss Margaret Hudson, a student at West Texas State University, Canyon, to Leon Wesley of Amarillo has been announced by her parents, Mr. and Mrs. W. E. Hudson, Hereford. Miss Hudson is a 1961 graduate of Friona High School. Her fiancé is the son of Mr. and Mrs. Luther Wesley, Canyon, and is employed in Amarillo.

### International Heritage Is Club Program Theme

The Tuesday evening meeting of Progressive Study Club at Federated Club House was highlighted with a program depicting "Our Children's Heritage." Winifred Hurst discussed the constitutional amendments, "The Bill of Rights," and the origin and adoption of each.

A piano selection, "Surf Board Rider," was presented by Andrea Hurst, Melissa Pruett presented "Waltz of The Dolls," Eve Braunschweiger of Switzerland was a guest speaker.

Roll call was answered by exchanging traditions new and old. Sue White presented the devotional.

Mrs. Bill Stewart gave a financial report on the joint club house fund. Genevra Riethmayer read a letter from the corresponding secretary of Federated Women's Clubs of Texas.

Plans were completed for collection of Betty Crocker coupons to replenish the silverware at the Club House. Anyone who is interested in assisting with this collection is asked by Mrs. Riethmayer to contact her or any member of the club.

Guests were Mrs. Stewart, Eve Braunschweiger, Andrea Hurst, Melissa Pruett, Joyce

Payne, Virginia Rhodes and Rose Mary Powell. Refreshments were served by the hostesses, Doris Barnett and Pat Yarborough.

The following births have been registered with Justice of the Peace Walter Loveless:

April 15 -- Marty Ryn Dean, eight pound, four ounce son of Mr. and Mrs. Lester Butler Dean, Friona.

April 16 -- Mary Jane Chavez, three pound, eight ounce daughter of Mr. and Mrs. Gabriel Chavez, Texico, N.M.

April 20 -- John Lee Brockett, seven pound seven ounce son of Mr. and Mrs. Clifton Winfield Brockett, Needmore.

April 23 -- Lisa Ann Crim, seven pound, eight ounce daughter of Mr. and Mrs. John Norman Crim, Route 3, Muleshoe.

April 23 -- Judy Ann West, seven pound, 12 ounce daughter of Mr. and Mrs. Roger West, Friona.

One of the most informative handbooks I have seen in a long time came across my desk recently. It is a guide for publicity chairmen and contains about two dozen pages of good information concerning publicizing club activities.

Twelve points are emphasized under the sub head "Basic B's For Publicity." Most of them can be applied to reporting any kind of news event. They are as follows: 1. Be the only person from your group to contact news media. Two members calling the same newspaper editor or program director are bound to bring conflict or confusion.

2. Be quick to establish personal contact with the right persons at each newspaper, radio and television station in your area.

3. Be sure to write everything down. Train your memory, but don't trust it.

4. Be prompt in meeting deadline.

5. Be legible. Type news releases. Erase and correct errors. Don't use carbons, except for your own file copy.

6. Be accurate. Double check dates, names, places before you submit your copy.

7. Be honest and impartial. Give credit where due.

8. Be brief. Newspaper space and air time are costly.

9. Be brave. Don't be afraid to suggest something new if you honestly believe you have a workable idea. Media people welcome original ideas when they're practical and organized locally.

10. Be business-like. Never try to obtain publicity by pressure of friendship or business connections. Never ask when a story will appear. Never ask for clippings.

11. Be appreciative of all space and time given your club's publicity. The media giving it also have space and time for sale.

12. Be professional. Members of the press are always invited guests. Never ask them to buy tickets or pay admission. Arrange a special "Press Table"

for large banquets. These rules are, of course, flexible and are not to be accepted literally in every instance. Each news media has rules, regulations and customs of its own, so it would be impossible to compile a set of rules that would be applicable to every one.

If you are the publicity chairman or reporter of your club, you would enjoy and receive many pointers for doing your job more effectively from the handbook. It is published by a nationally advertised firm and copies are available free upon request. I will be most happy to give the name and address of the supplying firm to anyone who is interested in receiving a copy of the book.

A number of Frionans will probably be interested in knowing about J. D. Fry's most recent honor. He is a former director of Friona High School band and has been working with the music department of Lovington High School about five years.

He was named "Jaycee Citizen of the Year" at a recent banquet. This is the kind of honor that makes most of us glad to say, "I knew him when."

Congratulations! Mr. Fry.

Members of Friona's High School band were very excited Tuesday following the announcement by Director Lowell Bynum that this fine organization had received an invitation to attend the State Fair at Dallas this fall.

The entire marching band will be a part of a parade at the State Fair the first Monday in October. Between now and then members of the band will be working to obtain funds for the trip.

This is quite an honor and will be sure to give the town some favorable publicity. Has a Friona High School band ever participated in marching activities of State Fair before?

After Tuesday's street im-

provement project, which included the street in front of the Star office, was completed, some members of the staff decided that being "tarred and feathered" would be a very unpleasant experience from many angles.

Is there a more obnoxious odor than burning feathers? The hot tar had an unpleasant smell and I can imagine that it would have been almost unbearable had feathers been mixed with it.

Does anyone happen to know when the practice of "tarring and feathering" offenders of the law was abandoned? I don't but am glad it went the way of lynchings and other undesirable actions by mobs.

Friona's Main Street hasn't had a new building erected on it in a year or so, but ground-work for one began to take shape early this week. Construction is beginning on a new home for the law firm of Sheehan and Yarbrough.

New modern facilities for this firm will be located between Welch-Carson Real Estate and Friona Battery and Electric. Bill Sheehan must like that section of town. For the past several years he has had his offices on the south side of the Euler building and when they are moved they will be on the north side of it.

The new front on the old Spring building has added much to the appearance of the 500 block on Main. Doug Malloy has completely remodeled the building and it is attractive inside as well as outside.

Count your blessings . . . not your troubles.

### Students Told New Ruling

Students from Friona who are planning to enter an Oklahoma college this fall are reminded of a new ruling in that state regarding out-of-state students.

Anyone entering an Oklahoma college from out of state must be in the upper 50 per cent of their graduating class, or in the upper one-half of the American College Tests (ACT).

The ruling was passed just last week by the Oklahoma State Board of Regents, and will apply for the first time this year.

**Well Preserved**  
ST. JAMES, Mo. (UPI)—Mrs. Ida James hasn't opened a jar of green beans she cold-packed back in 1918.

## Highlights and Sidelights From Your State Capital

AUSTIN -- If the 58th Legislature's final version of a loan shark law is that which passed the House, folks who do business with the money men still would pay charges up to 500 per cent on the smallest, shortest-term loans.

Small-small loans -- those under \$100 -- would be regulated by an amendment to Corpus Christi Sen. Bruce Reagan's bill which provides that on loans from \$19 to \$35, the lender could collect a flat 10 per cent charge plus a \$3 handling charge for each month of the loan, up to no more than two months.

In addition to this, lenders

also could collect \$3.50 per month up to four months on loans between \$35 and \$70, and \$4 per month for up to six months on loans from \$70 to \$100.

The over-\$100 clause sets these rates per year per \$100: \$19 up to \$100; \$16, from \$100 to \$200; \$13 per \$100 between \$200 and \$300. This is scaled to the rate of \$7 per \$100 on loans between \$1,000 and \$1,500.

Rep. Joe Cannon of Mexia called the House-passed bill "a Robin Hood in reverse bill -- it robs the poor and gives it to the rich."

A work-out on the measure

--which carries 19 Senate amendments and 23 by the House -- is expected in a Senate-House conference committee, but it won't take long if Gov. John Connally and Speaker Byron Tunnell have their way. Both want a loan bill passed this session, and neither wants an extended -- or a special -- session.

COLLEGE BILLS -- Governor Connally, Speaker Tunnell and Lt. Gov. Preston Smith all are anxious to see the Pan American and San Angelo college bills passed. Bills finally were pulled out of the House State Affairs Committee, chaired by reluctant Rep. John

Allen of Longview. Allen threatened to resign over the pressure (committee-men kept him from doing so) because he couldn't see the money in sight to support the 20 colleges already in the state family.

NO TUITION HIKE IN SIGHT -- Dallas Reps. Ben Atwell and Dick Morgan's college tuition increase bills may never come out of the House Tax and Revenue Committee. This, even though Atwell is chairman and Morgan is a member of the committee.

Atwell proposed a doubling of state college tuition, as endorsed by the Commission on Higher Education. Morgan offered a compromise of a 50-per-cent increase.

But word already had come "from above" that there will be no tuition hike this year. That virtually ended it.

NO MONUMENT FOR THE 49TH -- A Senate resolution to place a monument honoring

the 49th Armored Division of the Texas National Guard on the State Capitol grounds was all but killed by the House State Affairs Committee, after Alpine Rep. Gene Hendryx called it "a disgrace to every veteran who ever served overseas in every war that Texas ever participated in."

The former Marine said, "The greatest battle this organization ever fought was the battle of the canteen at Fort Polk, Louisiana."

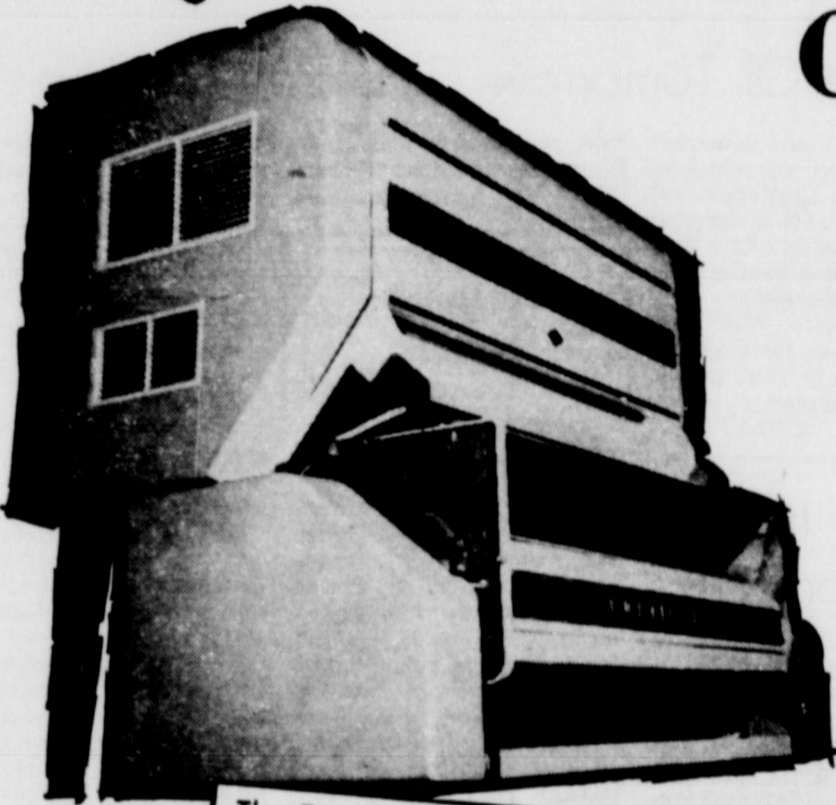

Seguin Rep. John Traeger defended the 49th, but the resolution was defeated by a vote of eight to seven.

However, a spark of life remains, since Rep. Ben Atwell used a device by which the resolution may be called up for another vote.

RAILROAD COMMISSION CHANGE PROPOSED -- A plan to take the railroads and trucks away from the Railroad Commission has been proposed by (Continued on page 3)

## CONTINENTAL GOLDEN COMET GIN

The Tandem Sixteen-D Lint Cleaner installation behind each of these stands gave superior results at all times during our high capacity operation.

MORTON COOPERATIVE GIN  
MORTON, TEXAS

APRIL 22, 1963

CONTINENTAL GIN COMPANY  
LUBBOCK, TEXAS

GENTLEMEN:  
WHEN WE DETERMINED IT WAS TIME TO INCREASE THE CAPACITY OF OUR GIN AND OPERATIONS WE SELECTED CONTINENTAL MACHINERY. IT HAS PROVEN THAT IT HAS THE CAPACITY WE DESIRED AS WE AS YET HAVE NOT USED ALL THIS PLANT HAS.

WE GINNED SOME 4500 BALES ON THE 1-79 CONTINENTAL PLANT AND OPERATED AS SMOOTH AS IN THIS AREA. WE STARTED IN THE MIDDLE OF THE SEASON AND TOOK NO TIME TO MAKE PROPER ADJUSTMENTS.

THE GRADES WERE GOOD AS COMPARED WITH OTHER GINS IN THE AREA. THE SPLIT OVERHEAD GIVES MORE CAPACITY FOR PREPARATION OF SEED COTTON AND THE 79 SAWS WILL CERTAINLY EAT IT UP. THE ARRANGEMENT OF THE SIXTEEN-D LINT CLEANERS WE BELIEVE DO AN EXCELLENT JOB IN OBTAINING GOOD GRADES. WEST TEXAS HAS THE Toughest GINNING REQUIREMENTS OF ANY GINNING AREA AND THIS PLANT REALLY EATS IT UP.

MORTON COOPERATIVE GIN  
MORTON, TEXAS  
J. H. Anderson  
Manager

We have learned to expect almost the impossible from our 119 gins. They have handled all types of cotton and maintained capacity. Their capacity operation on even the heaviest of green cotton, which some of our competitive outfits had turned down, has made us mighty proud of them.

A FEW OF CONTINENTAL'S MANY SUCCESSFUL PLAINS OPERATORS SPEAK.

FRIONA FARMERS COOP. GIN  
BOX 766  
FRIONA, TEXAS

April 19, 1963

Continental Gin Company  
Lubbock, Texas

Gentlemen:

After operating the first full season on our new Continental Comet Supreme outfit we feel that we should advise you of our operation. As you know this group was in operation for its first season to feel that this in part was directly the result of our selection of your machinery.

Our 3-119 saw plant ginned 5208 bales this season. It operated with and produced satisfactory results. The arrangement and problems has proven to be what we needed.

enough about the real capacity potential of your Comet in Gins. They produced good daily volume on an even our high capacity operation. The grades which resulted from the balance of the entire plant were well above the average for our area.

We invite anyone to inspect our new plant at any time. It has been most gratifying for us to have your office and the entire Continental Gin Company show such a personal interest in our operation. We appreciate your cooperation and attention.

Sincerely yours,

FRIONA FARMERS COOP GIN  
Friona, Texas  
Billie Johnson  
President

The grades were good as compared with other gins in the area. The split overhead gives more capacity for preparation of seed cotton and the 79 saws will certainly eat it up.

PRODUCERS CO-OP. GIN  
11 W. WOODWARD, BLDG.  
AMHERST, TEXAS

April 20, 1963

Continental Gin Company  
Lubbock, Texas

Dear Sirs:

Since we wrote you in December about the successful beginning of our ginning operation we have completed our first season's outfit this year and are now even more pleased with it than we stated in our first letter.

Operationally we have had a season that was highly successful. Every piece of your gin machinery performed dependably and under which this crop was made we were able to keep our season, which produced a crop which was rough even for West Texas, in our Continental Comet System.

The unique overhead arrangement using multiple "Little David" stick machines has amazed everyone in its ability to handle the stick stripper action. We have learned to expect almost the impossible from our 119 gins. They have handled all types of cotton and maintained capacity. Their capacity operation on even the heaviest of green cotton, which some of our competitive outfits had turned down, has made us mighty proud of them.

As they have this year. We ginned the entire season on our set of gin saws and they still needed only minimum repair work.

Before, very happy to again inform you that we are pleased with our entire operation. Its dependability have given us the gin outfit we needed, particularly as long as our maintenance costs remain so low as they have this year. We ginned the entire season on our set of gin saws and they still needed only minimum repair work.

FULL LINE REPAIR PARTS IN STOCK NOW

**Highlights --**

Rep. Henry Grover of Houston, who told the House:

"Recent developments indicate that the Railroad Commission is overworked, and has more to do than it can handle."

Grover inferred that these indications are the slant-hole oil well scandals and the conflict-of-interest resignation of former Commissioner William J. Murray Jr.

Grover introduced H. B. 1041, to ease some of the workload by removing the commission's authority over the transportation industry, and leaving it with just oil and gas regulatory authority.

The "Texas Commerce Commission," to regulate railroads, bus lines, truck lines, and so forth, would be made up of three \$15,000-a-year commissioners.

Railroad Commission was set up in 1891 to regulate the railroads. But authority over oil and gas, since 1917, has caused most of its time and attention to turn in that direction.

**CONGRESSIONAL REDISTRICTING --** A crowd of witnesses from the late Speaker Sam Rayburn's 4th Congressional district is due to oppose the Congressional redistricting bill which would abolish the old 4th, and relocate it in South Texas.

Sen. Ralph Hall of Rockwall succeeded in delaying Senate committee action on the measure to May 7, so the opponents can come to Austin.

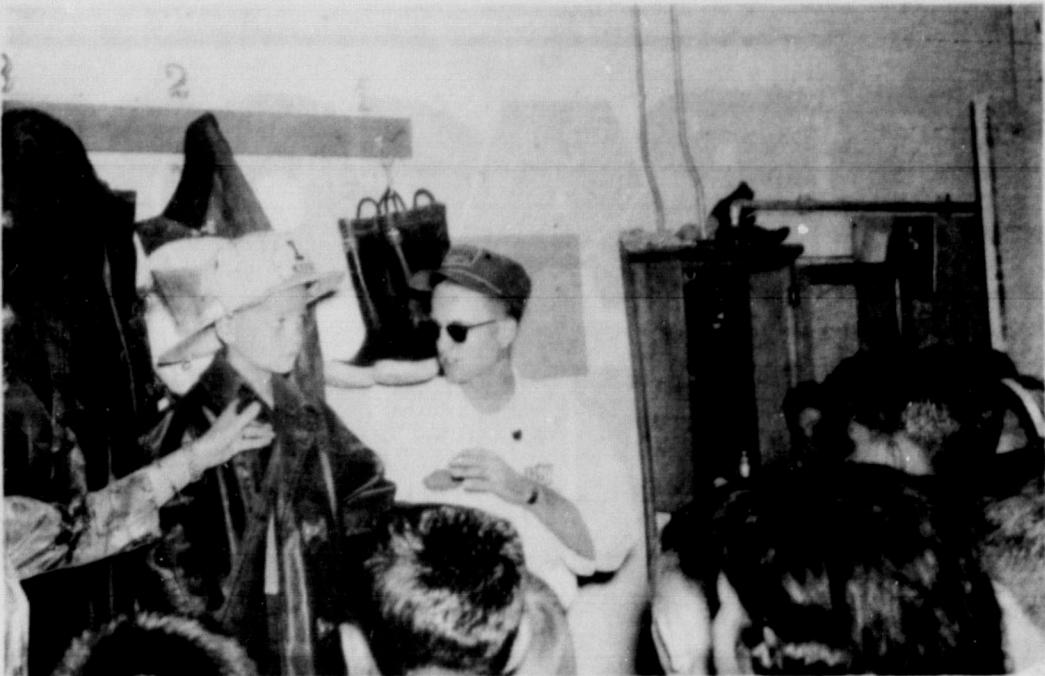

House passed the bill to the Senate, over protests from Rep. Don Hefton of Sherman. Delay on the hearing may put the redistricting proposal, authored by Rep. Rayford Price of Frankston, in jeopardy.

Governor Connally has said he saw no need for Congressional redistricting this session. He thought it could be handled in 1965.

Meanwhile, U. S. Congressman Ray Roberts, who now represents the old 4th, doesn't seem worried about losing his job. He's looking for a press liaison man for his Washington office.

**AT - LARGE ELECTIONS SUGGESTED --** Eighty Texas counties, in which two county precincts or more, represent a fraction of the total county vote, would be affected if a constitutional amendment by Rep. Lindsey Rodriguez of

Hidalgo ever comes to a favorable vote by the public. Under Rodriguez' plan, if the total number of votes cast in two or more commissioners' precincts amount to less than 20

Danny Batnum, representing Friona's Volunteer Fire Department, explains to a group of third grade students, and their teacher, Mrs. June Rhodes the proper technique of starting the fire alarm signal. Members of the class were directed on a guided tour of the station by Batnum.

The necessity of wearing protective clothing when going out to fight a fire was pointed out by Danny Batnum while one member of the third grade section taught by Mrs. June Rhodes posed as a model for the helmet and coat. Batnum also demonstrated use of a resuscitator to the group.

per cent of the total vote cast in the election of all four commissioners, the commissioners in the small precincts would be required to run on a county-wide-at-large basis.

Rodriguez described the most extreme example of a situation he's trying to cure -- that in Kleberg County where two of the county's four commissioners' precincts "are behind

locked gates" on the King Ranch, where 80 voters reside. Witnesses from around the state appeared in favor of Rodriguez' proposal.

But Gaines County Judge Charles Lawrence said the County Judges and Commissioners Association is opposed.

**DOCTORS BEING CALLED** -- State draft boards have issued a call for 60 doctors for the Army, Navy and Air Force, according to State Selective Service Director Col. Morris S. Schwartz.

The 60 physicians would be the state's share of a national call for 1,350.

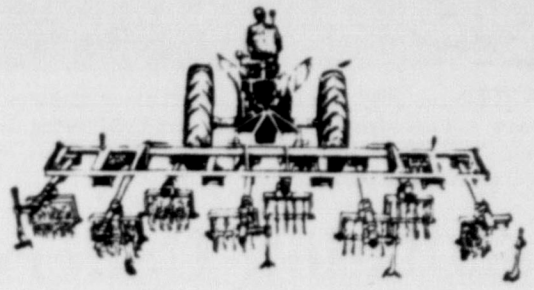

Physicians -- either fathers or non-fathers -- would be subject to call if they were born on or after January 1, 1935.

**ONE - DAY SESSION --** A special, one-day (\$8,000) session of the Texas Legislature would be held on December 1, 1964, under a House-approved resolution by Rep. Bill Dungan of McKinney.

Purpose would be to swear in House members and elect a speaker. Aim is to enable the speaker to make appointments so the 1965 session could get underway immediately.

**EIGHTH REPUBLICAN --** When Charles R. Scoggins of Corpus Christi was sworn in to fill the vacancy created by the recent accidental death of Rep. James L. Lattimore of Corpus Christi, Texas had its eighth Republican member of the current Legislature.

The 31-year-old Scoggins, a geologist by trade, is the second Humble Oil Company employee in the House.

"One of the most remarkable tools I have seen in many years."

One of the nation's top farm editors said that about the Rolling Cultivator. He was right. This amazing once-over all-over machine will break crust, mulch soil, weed crops—even form beds if you want to—in one high-speed operation. That isn't all, but it's enough to give you some idea of the versatility and value of this tremendous money-maker. It's a tractor-sparing, labor-saving tool that belongs on every farm.

Come by and we'll show you why

**Herring Implement Co.**

NEW SIGNS . . . City Manager Jake Outland displays some of the new street signs which are currently being installed. Seventy-five of the signs arrived this week. They are being assembled and installed.

### Installation Underway For New Street Signs

Installation of 75 new street signs began in Friona Tuesday. It is the beginning of a three-year program to equip the city completely with new street signs.

The signs will be a welcome relief to newcomers and long-time residents alike. They are constructed of a non-rust aluminum base, and have a "Scotlight" reflective type appearance at night.

The 75 signs will take care of about one-third of the city. They are being placed on the heavily-travelled streets. It is planned to install other signs during the next two years. Existing poles, such as stop signs, are being utilized wherever possible.

The streets which are getting the signs at present include 11th Street, Main, Grand, Fourth, Eighth and Summitt.

NEW PIPELINE . . . City employees are installing a new four-inch pipeline on Elm Street this week, in order to give residents a better water supply.

# Friona Feed Yard Holds Grand Opening Saturday

## FOOTSAVING EDUCATION

by James E. Edwards

### Do People Still Buy Ill - Fitting Shoes For Children?

People whose first concern for their children is that they grow up with normal healthy feet would find it hard to believe that three out of every four youngsters wear ill-fitting shoes. Parents who buy just anything that will cover their children's feet never tire of telling their conscientious neighbors that their children never complain. They are not lying. Children rarely complain of ill-fitting shoes. That is why the people who manufacture foot comfort pads and appliances do a multi-million dollar business.

**Robin Hood Shoes.**  
Designed for Young America  
Orthopedic Shoes Fitted To Your Doctor's Prescription  
**Edwards' SHOE STORE**  
512 MAIN  
CLOVIS, N. MEX.

One of the most modern feed lots in the nation will stage its grand opening five miles east of Friona Saturday. Favors will be presented everyone who comes to inspect the new Farmer County industry. Friona Feed Yard, Incorporated, which is located di-

rectly on Friona Draw, is opening up the initial phase of what will be the largest feed-lot operation in Farmer County, and one of the largest in the area. As the new feed yard opens, there will be space for 7,000 to 8,000 cattle. It is constructed so that the operation can be

expanded later to handle from 15,000 to 18,000 if the business demands. The new operation is a compliment to the owners, constructed entirely of concrete and steel. More than 8,000 feet of concrete went into the construction of the bunkers. The

pens are all made of steel pipe. Jack Carrothers, who formerly managed a feed lot in Colorado, is manager of the new feed lot. He has been in Friona since last August, helping with the construction at the lot. The feed mill, which was the last step on the construction, was completed early this month. "We used our first feed from the mill on April 21," said Carrothers.

The new business has created jobs for 10 men besides Carrothers. This should be a boost to the economy of the county. "We've tried to do as much business locally as possible," Carrothers said. Carrothers, a native of California, earned a degree in Agriculture from Oregon State University. He and his wife have four children. The three oldest, all boys, are in school at Friona. The youngest child, a girl, is under school age. The new feed lot is expected to create more business for county farmers. Corn, used for ensilage, will become more of a cash crop for farmers. Also, the lot will be in a position to buy cattle from farmers who need

to sell. A natural by-product of feed lots, manure, also will be available in plentiful quantities. "If they can feed cattle up north and out west and make money, we should be able to do it here, since this is where our feed is," Carrothers predicts. There are six feeding alleys in the new lot. The longest alley is a quarter-mile long. The lot was constructed on Friona Draw to take advantage of natural drainage benefits for the pens. The operation will have accommodations for anyone, be he a large cattle owner or a small operator. There will be pens to handle 25, 50, 10, 400 head, or

as many as a cattleman has. Stockholders in Friona Feed Yard, Inc., include W. D. Buske, W. F. Buske, Ranza Boggess, G. B. (Pete) Buske, A. L. Black, Carrothers, St. Darling, Paul Fortenberry, D. C. McWhorter, Owen Seamon and G. E. Tannahill. Black is president of the board of directors, W. D. Buske is vice president, and Carrothers is secretary-treasurer.

# THE HIGH PLAINS FARM AND HOME

## WITH THE COUNTY AGENT

DERYL COKER

In driving over the county I have seen several patches of bindweed, which are in full bloom. With the extreme dry spring, it sure is a good time to locate bindweed. Let's all watch for bindweed, whether we live in town or on a farm and all do our part in controlling that noxious weed. If you should find some bindweed, tell the weed committee of its location, or come by the office and tell me. We must continue to work hard at destroying bindweed, and everyone can help by observing and being familiar with the following points. 1. Locate all patches of bindweed in your area and make sure that the weed committee, or the county agent's office knows its location. This can be done by mail sent to the county agent's office in Farwell or to

the Farm Bureau office in Friona. If you should have any trouble in the identification of bindweed, I would be glad to try to identify it for you. 2. The use of soil sterilants is recommended as the treatment of infested areas, also, regular checks should be made of the area for surviving vines. 3. Farmers are urged to cooperate with the weed committee, state highway department, railroads, county commissioners, and other organizations that are working to eliminate bindweed along right-of-ways. 4. Test labels on seed should be double checked for the presence of bindweed or other noxious weeds. 5. Out of county harvest machinery should be cleaned and the cleaning burned before the machinery is allowed to enter

the field. 6. The purchase of hay or feed grown in infested fields should be avoided. 7. Any farmers who might have bindweed in his cotton field should inform the ginners to burn the burrs from the field. 8. The ASC office under the ACP Program will pay 50 per cent of the approved herbicide cost, not to exceed \$75. per acre. The State Highway Department and railroads will furnish the material and will apply it, if they are told of the bindweed location. The county commissioners will furnish the herbicide for county right-of-ways, if the farmer will agree to kill the weed in the adjoining field and apply the material on the county right-of-way. Remember you can receive help under the ACP Program for killing bindweeds in your fields. Compared to surrounding counties, Farmer County has very little bindweed.

## WILL SERVE COUNTY

# Water District Establishes Field Office At Muleshoe

A new field office of the High Plains Underground Water Conservation District has been established at Muleshoe. It will primarily serve the residents of Bailey, Cochran and Farmer counties. Two employees of the Water District will staff the office. David Cunningham, a new addition to the District staff and a new resident of the High Plains; and Mrs. James Daniel, who will handle the secretarial and clerical work at the new field office. Mrs. Daniel's husband farms near Muleshoe in the Y-L community, and the mother of four

boys, Ronnie 12; Ricky, 10; Randy, 7; and Roger, 4. The three older boys attend school in Muleshoe. Mrs. Daniel is the former Bertha Jones of the Roosevelt community east of Lubbock, and graduated from the Roosevelt High School in 1949. She played on the 1949 Roosevelt High girls' basketball team that won the state Class "B" championship. She was selected that year as a member of the all-state girls' team. The Daniels attend the YL Methodist Church where she teaches in the Nursery Department and serves as secretary - treasurer for the congregation. Mr. Daniel is Superintendent for the Bible School of the Church. Cunningham has just recently moved to Muleshoe from Del Rio. He and his wife, Cecile, and two children, Dorothy 5, and Davie, 3, reside at 502 West 2nd Street in Muleshoe. Cunningham is 26 years old and graduated from high school at the San Marcos Academy. He formerly lived in Yoakum, Gaines, and Kent Counties and worked in the oil fields. He also has a ranching background. He and his wife are members of the Baptist Church.

The Water District field office will be located at 217 Avenue B in Muleshoe, where building space will be shared with the Ray Carter Insurance Agency. Applications for well-drilling permits in Bailey County will be accepted at the new field office, and assistance will be provided to anyone who has a ground-water problem.

## Wedemeyer Speaks At Wheat Meeting

Bill Wedemeyer, director of research and education of Texas Farm Bureau, will be the speaker at a meeting to discuss the wheat referendum at Lubbock High School Auditorium, Friday, May 10, beginning at 8 p.m. Frank Hinkson, chairman of the Farm Bureau's wheat referendum for Farmer County, arranged the program. "We hope every interested farmer will attend the meeting, regardless of their opinion on the referendum," Hinkson says.

# Farmers Hear Discussion On '64 Wheat Referendum

By Bill Ellis

Several Farmer County farmers attended a discussion in Hereford last Thursday by representatives from the Texas Agricultural Extension Service on the 1964 wheat program proposals.

W. W. Grisham, district agricultural agent, served as moderator for the discussion. He reviewed the responsibilities of the Extension Service in providing educational-type programs for farmers on issues which are of interest to them. "The Extension Service is the educational arm of the U.S. Department of Agriculture. It is not the responsibility of the Extension Service to enforce rules of the USDA. It is strictly the educational arm," Grisham commented.

Ben Spears, extension service agronomist, opened the session by reviewing the proposals of the 1964 wheat program. Spears referred to the Food and

Agriculture Act of 1962, with its two alternate programs for wheat.

"Regardless of the vote, one of the programs will be in effect. Producers can also expect the outcome of the referendum to be in effect for one year. Prospects are good for another referendum next year, whether producers vote for or against the program," Spears said.

Under a "yes" vote, virtually all wheat will be affected. If the referendum fails to carry, most restrictions will be eliminated, Spears commented.

This year, for the first time, producers who have 15 acres or less of wheat will be eligible to vote in the referendum. Those who sign up to vote will come under the program if it passes; those who do not sign up will not be under the program.

Tom Aaron, grain marketing specialist, re-emphasized the extension service's role. "We are decision assisters. We are not decision makers. That is your job," he told the producers.

"We in agriculture are often criticized for not getting our heads together on various programs. This is a normal reaction," Aaron said. He listed the four basic causes for differences of opinion:

1. People hold different basic beliefs;
2. All of us have certain biases;
3. Only limited facts are available. (No one has all the information on any one subject); and
4. People lack the

proper analytical tools to analyze certain problems.

"Try to add to your knowl-

edge of the wheat situation before voting," Aaron recommended to the group.

Aaron outlined four possible recourses for the wheat industry to pursue in the future.

These were: demand expansion, supply control, a combination of these, or no program at all.

About demand expansion, Aaron said this was impractical, because as dollar income increases, wheat consumption ordinarily goes down. It is also hard to expand world markets, because of tariffs.

Under the supply control angle, Aaron also listed several objections. These included the loss by farmers of the right to produce as they see fit; and the inadequacies of a program which controls only one facet of production -- land. He said the same objections applied to a combination of the two ideas.

On the fourth angle (no program at all), Aaron said the relatively efficient farmer stood a chance to gain. As to the problems of having no program, he pointed out that productive inputs are not necessarily linked with the farmer's price needs.

James Murphey, area farm management specialist, projected a comparison of the price returns which might result from a "yes" or a "no" vote.

The financial returns may not be the foremost consideration of the producer, Murphey pointed out. Other considerations might be possible loss of freedom in relation to production and marketing as well as changing of the status of the small wheat farmers.

C. H. Bates, farm economist, listed the principal objectives of a "yes" and "no" vote.

The main objectives of the 1964 program, he said, were as follows: 1. An orderly reduction of stocks; 2. Maintenance of adequate reserves; 3. Fair prices to producers and consumers; 4. Regulate crops on diverted land; and 5. Reduction of government costs.

On the "no" side of the ledger, Bates pointed out that op-

ponents to the program say that farmers will not be voting on \$1 wheat as opposed to \$2 wheat. "They say production would rise from 1.2 billion bushels to 1.8 billion, an increase of 50 per cent, and that the price would be \$1.30 per bushel," which would more than offset the difference.

In conclusion, Bates said that

among "non-monetary" aspects of the referendum, the farmers should consider freedom of choice, and whether some restrictions now might lead to more restrictions later; the effect on the "public image" of the farmer; and the effect the vote might have on the world's economic leadership.

## Questions-Answers Presented Regarding Wheat Referendum

(Editor's note: This is another in a series of releases by the Farmer County ASCS dealing with the wheat referendum to be voted on May 21. This week a series of questions and answers is featured)

By Prentice Mills  
Farmer County ASCS

Q - If growers vote against marketing quotas this time, when will another referendum be held? A - The law specifies that marketing quotas would again be proclaimed for the 1965 crop, assuming supplies continue to be excessive, and another referendum would be held before June 15, 1964.

Q - In case the "no" votes prevail, does the program offer less to producers than formerly in case quotas were rejected? A - No. The provision is identical to that in effect since 1949. From 1938 to 1949 the law provided no loans if growers voted against marketing quotas.

Q - Can price - support levels, the percentage of farm normal yield to be covered by Marketing Certificates, or the farm allotment be changed after the official announcements are made? A - They may be increased or suspended entirely. They cannot be reduced. The minimum limits are those in the official announcements by the Secretary and they cannot be made more stringent for the 1964 crop.

Q - Is it a fact that the Secretary can drop the support price of certified wheat as low as 65 per cent of parity, or \$1.59 per bushel? A - To do so would be contrary to the directive from Congress to use the program to maintain farmers' income from wheat. The Secretary has already announced the 1964 price-support rate at \$2 for certificated wheat and the rate cannot now be lowered.

Q - If the referendum fails to gain growers approval, would the government dump

wheat on the market? A - No. To do so would violate the first basis on which Congress enacted the law, that is, "To improve and protect farm income." Further, the prospect of a crop of 1.6 billion bushels -- farm in excess of all needs -- and of relatively few growers qualifying for price - support loans at 50 per cent of parity would undoubtedly drop market prices well below the minimum sales price for CCC - owned wheat (105 per cent of the support price plus carrying charges.)

Q - Will producers who sign up for additional diversion be required to meet this obligation? Yes, if they do not follow through, all diversion payment will be lost. Any producer who fails to meet his voluntary diversion obligation after signing to do so can, however, meet minimum requirements and be eligible to receive price support and certificates.

Q - After the referendum, will it be necessary for all farms to be signed up for certificates, price support, and diversion payments? A - A sign up will be necessary for growers who want diversion payments. Sign up will be for diversion portions of the program only, and will be scheduled near the time the 1964 crop is seeded. Producers with allotments of more than 15 acres, and small farm producers who elect to be allotment growers who do not sign up for diversion will be eligible to receive certificates and price support if they meet allotment, conserving base, and diversion requirements. The law provides small farm producers must sign the Notice of Allotment to get all these provisions.

Q - When will this sign up be held? A - Prior to planting time; for winter wheat, about July; for spring wheat, a period starting about February 1, 1964. These sign ups will be for both large farms and for small farms that were signed up prior to the pre-referendum cut-off date.

This sign up plan gives the small allotment farmer the privilege of decision on the amount of acreage to divert at the same time the large allotment producer is making his commitment.

Q - Will grazing of diverted acres be permitted? A - Yes. Grazing during the five winter months will result in no loss of payment. A winter grazing period of October 1 to March 1, or October 15 to March 15 may be chosen by the State ASC Committee - with DASCO approval -- where conditions make one of those periods preferable to the usual November 1 to April 1 winter grazing period. This selection at the State level will be announced prior to diversion sign up. Grazing during the remaining months of the year will be permitted, with notification to the county committee, and will result in diversion payment at one-half the regular rate. This provision is particularly important to farms with small allotments.

These farms will have small acreages diverted. They will be able to avoid the expense and bother of fencing diverted land. Q - Will the substitute crops -- sesame, safflower, guar, sunflower, castor beans, and flax -- be permitted on diverted acres with partial diversion payment? A - A decision and announcement on this provision of the law will not be made until all possible statistics are available to determine whether or not stocks of these crops are such as to make an acreage increase desirable.

Q - If the operator of a farm signed up for additional diversion and the farm is subsequently sold or divided will the new owners and/or operators be bound by the signed intention? A - No, the agreement will be cancelled. The new operators

will be notified of the amount of diversion under the signed agreement and will be given 15 days from date of notices to sign a new agreement. The diversion amount in the new agreement could be decreased or increased except that no increase would be permitted after wheat planting time.

**TOTAL PERFORMANCE:**

**IF YOU KNEW WHAT HE KNOWS...YOU'D BE DRIVING THE 1963 TOTAL PERFORMANCE FORD**

Ford is traditionally the nation's Number One police car. The reason: **Total Performance!**

When it comes to cars the police don't take chances. Put yourself in a State Trooper's shoes. Every day you must patrol hundreds of miles in your cruiser. Mileage and time grind into a man and his machine, but when the bell rings you've got to be ready. Chase. Turn. Corner. Quick stop. You've got to be able to do it all if you're going to do your job.

Listen to a trooper list the reasons why he prefers a Ford and you realize how difficult it is for any car to measure up to his standards. The car must be strong . . . it has to stand up to big mileage. It must be silent . . . when you practically live in a car a rattle can sound like a kettle drum. It must be swift . . . powerful enough to catch any car on the road. It must be sure . . . dependable even in the face of the unexpected. Strong. Silent. Swift. Sure. A four-word outline of **total performance**. The police demand it. That is why they choose the **total performance Ford**. Why should you settle for anything less?

Whatever your special demands and needs, the **total performance Ford** is the car most likely to satisfy you all the way down the line. You can prove this for yourself.

First, look at Ford's astounding record in open competition this year in the grueling Daytona, Riverside and Atlanta 500's, and in the demanding Pure Oil Performance Trials. Only a car with **total performance** could roll up so many impressive wins.

Second, before you buy any new car, test-drive the solid, silent Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Make this important discovery -- if it's built by Ford, it's built for performance . . . **total performance.**

## Low Calorie Diet May Be Dangerous

Three hearty meals a day is no guarantee of good health. It is "what you eat" and not "how much" that counts. Strangely enough, in the richest agricultural nation on earth, an alarming percentage of the population is deficient in consumption of vital nutrients such as calcium and vitamin C. Even overweight people who eat high calorie foods rarely get a real balanced diet. The current popularity of low calorie foods tends to make

some people thin—as intended—but the person rarely bothers to make certain of a balanced diet, according to studies by agricultural officials. A danger point is approached when these low calorie eating habits prevent a person from getting enough protective foods necessary for good health.

For example, the National Research Council recommends a daily intake of .8 grams of calcium as necessary for good health. Yet, only about one person in six takes that much calcium daily—and calcium is abundant in eggs, milk and cheese. It is well established that vitamin C is important in maintaining health, teeth and gums. Most people are 10 per cent below

normal in vitamin C intake except in areas where citrus fruits are plentiful.

Texas is a big producer of citrus fruits. The diet study seems to suggest that foods rich in vitamin C should be promoted and made more attractive to adults. Frozen and dried citrus concentrates and other dependable year-round sources of the vitamin deserve more attention in the family diet.

Greater calcium consumption increased public education on the value of milk and milk products, and perhaps also through development of new calcium-rich foods. Overeating of the wrong foods may make a person fat, but he still may be striving for the essential nutrients.

## Meat Continues On Plentiful Food List

There'll be meat galore at food stores throughout the state this May. More - than-ample abundance will show up in beef, pork and chicken, as all three are on the U. S. Department of Agriculture's May list of plentiful foods, reports the Texas Agricultural Extension Service.

May plentifuls also include carrots, canned freestone peaches, canned ripe olives, and milk foods.

Beef and pork are features of the list. Prices of both are noticeably lower than they were last winter. Broiler-fryers have carried "budget" prices for many months.

The abundance of southwestern-grown carrots can add color and flair to May menus. The winter carrot crop of six million hundredweight was a near

record. There'll be more than enough fresh milk, cheese, cream, butter, ice cream, yogurt and other delightful dairy foods. Milk production normally reaches a peak in May.

Canned freestone peach supplies are some higher than they have been for the last three years. Prices are lower. They're ideal partners for ice cream or other desserts. And a sprinkling of canned ripe olives can turn spring salads, sandwiches or picnics into something special.

The plentiful foods list is made up each month by USDA's Agricultural Marketing Service, in cooperation with producers and the food trade. AMS keeps constant tab on supplies of all farm-produced foods.

DISCUSS WHEAT... Frank Hinkson, right, Lazbuddie farmer, discusses the coming wheat referendum with Ben Spears, Extension Service agronomist, at a meeting in Hereford last Thursday.

## State Has Taken Strides Toward Brucellosis Victory

Nearly half of the counties in Texas now qualify as modified certified brucellosis areas, and more are in the process of certification, says Dr. C. M. Patterson, extension veterinarian, Texas A&M College.

Counties are granted a modified certified status when the disease has been reduced to not more than one per cent of the cattle and not more than five per cent of the herds, explains

Patterson. He points out that the incidence of the disease in cattle has declined more than 90 per cent since 1954, and believes the disease can be eliminated from the state with the present eradication program.

Also, cases of the human form of the disease, undulant fever, are at an all time low. Once reported by the thousands, only 500 cases were detected in the U. S. in 1962 and fewer still are expected during this year, says Patterson.

An important part of the program is market cattle testing, says Patterson. For this testing cattle are back tagged or identified with the owner's herd through sales records. Blood samples are taken at packing plants and if infected cows are discovered eradication measures are planned by the herd owner and the veterinarian. At present about 97 per cent of the cattle tested in this manner are found free of the disease, he says.

The milk ring test is the method used to screen dairy herds for brucellosis.

With the use of market testing of beef cattle and the milk ring test for dairy animals, Patterson predicts the eventual identification of all brucellosis infected herds and subsequent complete eradication of the disease.

## Nitrate Poisoning Is Danger To Cattle

Nitrate poisoning is a danger to all livestock but poses a particular problem where cattle are grazing plants recently fertilized with high levels of nitrates, says Dr. C. M. Patterson, extension veterinarian. The problem becomes especially acute if the growth of the plants has been stunted by low moisture levels following

the fertilization, he adds. Non-toxic forms of nitrates are reduced to toxic nitrites in the animal's system and enter the blood stream where they tie-up the blood hemoglobin. As a result, the oxygen carrying capacity of the blood is greatly reduced and the animal may suffocate, says Patterson.

Signs of poisoning are a bluish skin color, a staggering gait, rapid pulse, evidence of abdominal pain, bloating, excessive salivation, and labored breathing, he says. Also quantities of nitrate too small to kill an animal may lower milk production or cause a cow to abort, he explains.

Cattle may be poisoned by eating weeds and forage crops that contain high levels of nitrates or pre-formed toxic quantities of nitrites. Oat hay is the most likely of the cereal grains to cause poisoning and the young plants are generally more dangerous than older ones.

Inorganic sources of excess nitrates may be fertilizer bags or fertilizer spreaders left where cattle have access to them, says Patterson. Contaminated water draining from barnyards or bunker-type silos may also be a means of poisoning. Sometimes the combined intake of nitrites from two or more sources can cause a serious problem, he adds.

Patterson recommends that animals believed to be suffering from nitrate poisoning be removed from the suspected pasture and a veterinarian called.

## Hereford Show Needs A Name

The Deaf Smith Chamber of Commerce is sponsoring a contest to provide a name for the Hereford Junior Calf Show, which is being re-organized for the coming year.

The Hereford Rotary Club, which sponsored the show for 17 years, has decided to abandon the sponsorship. A non-profit corporation is being set up, with directors elected to the board from each of the participating counties.

The organization is inviting 4-H Club and FFA members in Deaf Smith, Castro, Parmer and Oldham counties to help them select a name for the show. No name will be considered which identifies the show with a particular county or city -- It should be of area-wide significance.

A cash prize of \$10 is being offered for the name selected. Entries should be addressed to Box 192, Hereford. Names suggested should read "The Junior Livestock Show."

SLOAN OSBORN, president of the board of directors of the Deaf Smith County Electric Cooperative, is shown as he presided at last week's annual meeting at Hereford.

# Parmer County Youths Win At District Eliminations

Three Parmer County 4-H club members will be eligible for the state senior elimination contests at College Station in June, as a result of placing first in the district contests last Saturday at Canyon.

Janis Billingsley and Reba Lesley of Farwell won the blue ribbon in the safety demonstration contest. Gary Foster of Lazbuddie was first in the tractor driving contest. All are eligible to enter the state contests.

Three members of the Lazbuddie junior club won second-

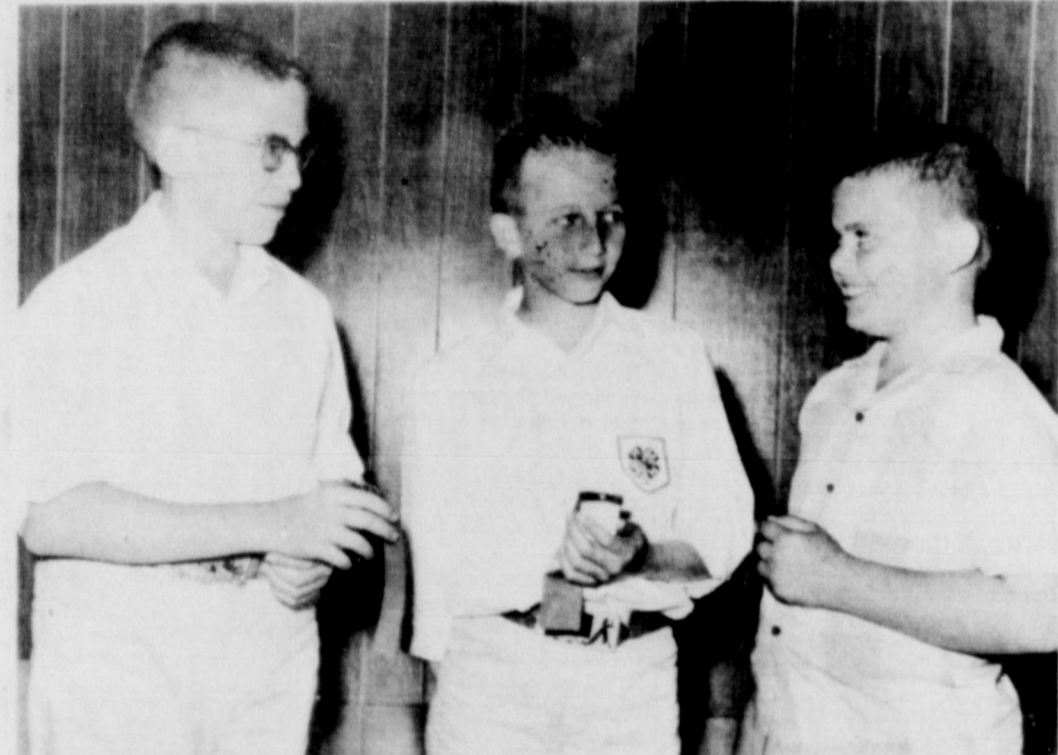

place honors at the district contest. John Gulley and Bobby Redwine, the junior electric team, and Dale Blackstone of Lazbuddie, who entered the foods and nutrition division, all placed second.

In the senior division, Katy Blackstone of Lazbuddie, who entered the milk division of the favorite foods contest, also placed second.

Other county elimination winners who entered the district contests included the senior rifle demonstration team of Bruce Billingsley, Warren Gos-

sett and Gerald Foster of Farwell; Jill Mimms of Lazbuddie (public speaking), Randy Bush and James Gulley of Lazbuddie (junior safety) and Ann Blackstone (junior foods and nutrition).

County Agent Deryl Coker was very complimentary of the contestants from Parmer County. "We had a lot more teams in the district contest than usual," Coker said. He added that there were anywhere from six to eight teams in each contest.

THESE THREE 4-H Club boys from Parmer County won ribbons at the district 4-H eliminations contest at Canyon last Saturday. Left to right are John Gulley, Bobby Redwine, and Dale Blackstone, all of Lazbuddie.

WINNERS AT the district 4-H Club eliminations last week at Canyon were (front) Katy Blackstone, Janis Billingsley and Reba Lesley, and Gary Foster (rear). Miss Billingsley and Miss Lesley, along with Foster will represent the county at the state contests.

## NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Wheat Referendum May 21: There will be a meeting sponsored by your Farm Bureau on this subject on Friday, May 10 in the Lazbuddie School Auditorium, at eight o'clock in the evening. You are cordially invited to attend regardless of your organization affiliations, or whether you have any such affiliation. It will be the intent of this meeting to answer many questions which probably will still be forthcoming regarding the effect of a yes or no vote in the referendum.

There will be a further announcement of this meeting and we hope you will be planning to attend. We can promise you that this is not a brainwashing meeting, but one in which your questions will be frankly answered with substantiation for such answers readily available. We hasten to add, however, that there are some questions that cannot be answered by anyone and that you will have to base your own judgement on history on some of them.

We believe it is not at all out of line for us to suggest here that if you are a Christian, you have your decision on how to vote on what you actually believe to be right. If you are not a Christian, then we would suggest that you base your judgement on what your conscience tells you. And we do not feel that it is at all necessary to go into detail here as to what we mean, because we believe you know as well as anyone. Please do not take this suggestion to mean that we would, if we knew how you voted, (which we will not), consider you un-Christian or without conscience, regardless of how you vote.

We are glad to be able to announce that the Texas Farm Bureau Student Citizenship Seminar will be held at Sam Houston State Teachers College, Huntsville, Texas from August 20 through 23. The necessary 200 sponsored students have been assured. As we have stated before, Miss Linda Rector, Friona High School student, and

Miss Jane Bradshaw, Farwell High School student, will be the two sponsored by Parmer County Farm Bureau. Mrs. Vernon Symcox and Mrs. Walter Kaltwasser have been primarily responsible for the success of this project locally.

CONSIDER THIS: The Lord is far from the wicked; but he heareth the prayer of the righteous. Proverbs 15:29.

A BASKETBALL - SIZE orange metal sphere picked out of the wreckage of a commercial airliner can be to modern-day accident investigators what the magnifying glass was to Sherlock Holmes. It's the flight recorder, a nearly indestructible device which the Federal Aviation Agency requires on all civil turbine-powered planes (jet and turboprop). It continuously records on a thin ribbon of aluminum foil flight data such as barometric altitude, indicated air speed, vertical acceleration, compass heading and elapsed time. With this information, investigators are able to reconstruct events leading up to accidents, near mid-air collisions, aborted takeoffs, missed approaches and the like.

The recorders are built to withstand an impact of 100 G forces, temperature of 1100 degrees C, and immersion in salt water for 36 hours.

PECOS, TEXAS, INDEPENDENT: "We subscribe to the belief that freedom is a gift of God and not a political grant. We believe that freedom is consistent only with Christianity. We believe that our welfare shall depend on our own initiative and ability, we believe in maintaining a society in which the citizen has fullest individual freedom and the government's primary and paramount role is the protection of that freedom."

STEEL production in the U.S. in 1962 was 98.3 million tons, up slightly from the previous year. Record production, in 1955, was 117 million tons.

FRUITS and vegetables are said to keep five times as long as is possible with conventional

refrigeration thanks to a new device called Tectrol (total environment control) generator. The machine produces low-oxygen, high-carbon dioxide air to preserve the fruit. The principle involved is that a deficiency of oxygen in a sealed chamber retards the aging process.

MARKSVILLE, LA., NEWS: "Every elected or appointed government official or board, receiving or otherwise handling public funds, should publish at regular intervals an accounting showing where and how each dollar of taxpayer money is spent.

CAUGHT DURING A DISCUSSION at the annual meeting of the Deaf Smith County Electric Cooperative last week in Hereford were members of the board of directors, Webb Gober of Farwell and Sloan Osborn of Friona, board president.

MARSHFIELD, MO., MAIL: "A year ago when President Kennedy gave his 'State of the Union' message to the Congress he said he was submitting for fiscal 1963 a balanced budget. His budget message promised a surplus of \$500 million. It appears now that the deficit for this period will be 8.8 billions of dollars."

SEA FARMING -- raising plants in water containing essential nutrient salts rather than in soil -- will become necessary when arable land becomes inadequate to feed the earth's growing population, says Philip B. Yaeger of the U. S. House of Representatives Committee on Science and Astronautics. Yaeger, who contends salt water husbandry will come sooner than most people think, says the sea will also be used to store food. He envisions a "revolutionary shift" to sea storage for commodities that must be kept in a cool, stable temperature.

LIKE MARTINIS, some gases are drier than others. For example, when used to shield arc welding, carbon dioxide must be very dry (-40 F, dew point) to avoid spattering of hot metal, reports Cardox, a leading producer of CO 2. (Because it is nearly inert, the gas prevents molten metal from combining with impurities in the air that could cause the hardened weld to be below standard.) To remove moisture, the gas is passed through driers containing absorbent materials such as activated alumina or silica gels. For other uses, such as carbonating beverages, carbon dioxide moisture content is not so critical, the company says.

BUFFALO, WYO., BULLETIN: "... Chairman Harry F. Byrd of the senate finance committee, and the best-informed budget analyst in the nation, is not impressed with the deficit estimate. His own projection is that spending will top \$100 billion and if the Kennedy tax cut is voted by congress, the deficit will be \$14 billion."

WEST BEND, WISC., NEWS: "President John Kennedy is preparing to ask Congress for pay hikes for top-bracket federal employees . . . The truth is, though few bureaucrats will admit it, that the benefits of government service are far greater than the usual benefits of private employment. In retirement benefits, in sick pay, in fringe benefits and in working hours . . . At a time when we are headed toward another large deficit, certainly the time is inopportune to propose bigger top-bracket federal salaries."

LIBERAL, KAN., TIMES: "It's a bit hard to understand how a government now losing money can make money by reducing its income. It's like taking a pay cut to help pay your bills, only the Washington folks say it will work . . . Looks like it's about time Washington goes old-fashioned and decides to live on its income, not monkey with everybody's affairs in the hope some easy miracle of prosperity without effort might be achieved."

TERRE HAUTE, IND., ADVOCATE: "Nobody knows what
