

It's Squaws vs Tulia At Regional Tourney

Fifth Meeting For Teams

By BILL ELLIS
Star Editor

For the fifth time this year, it will be Friona girls against Tulia, this time in the opening round of the Region I girls basketball tournament in Lubbock at 8:30 a.m. Saturday.

Although the Squaws hold three wins over the rival Hornettes this season, this will be the game that counts, with the winner advancing to the regional finals Saturday at 3:20.

Post Falls In 55-53 Thriller

Our Squaws proved what they were made of Monday night. They proved that they are real champions, and that they don't believe in giving up.

In what must rank as one of the all-time great "come from behind" stories in area basketball history, Friona spotted strong Post a 12-point halftime lead, then came back for a 55-53 win, to gain the regional playoffs at Lubbock Saturday.

The Squaws were spasmodic the first half. They were off and on—mostly off, and Post played average basketball, to take a good lead off the floor at halftime, 36-24.

Even the most diehard Friona fan realized that the Squaws would have a long hard climb to shave a 12-point lead from such a strong team as Post in the second half. But they did.

"I still can't believe it," Coach Baker Duggins said after the thrilling win. "It's as if I'm dreaming. Sort of an unexpected dividend from your income tax," he said.

And fans who saw the entire game knew what he was talking about. The Squaws fell behind 8-0 in the first three minutes of play. Charlotte Nettles finally hit a lay-in shot to crack the ice for Friona and make it 8-2.

Tito Jennings, who was cold as the weather outside during the first half, hit her only field goal of the first half to cut the margin to 8-4. But Post responded to the challenge and made it 12-4. With Janet Buckley and Nettles carrying the scoring load, the Squaws trailed by five, 18-13 at the end of a quarter.

Post grabbed a nine-point lead as the second quarter started, 24-15. Nettles scored six straight points for Friona, and cut the margin to three points, closest Friona came the first half, 27-24 with 2:09 to play. But the Squaws didn't score again the first half, and Post, led by high-scoring Nita Wilson, poured on the steam to take its 12-point lead at halftime, 36-24.

The Squaws began the meticulous job of cutting the lead in the third quarter. Charlotte hit a jump shot and two free throws to cut it to nine, 37-28.

(Continued on Page 2)

The tournament will be played in Lubbock Municipal Coliseum for only the second time. Although this is the third trip for the Friona girls to regional in the past six years, it marks the first time they will have played in the Coliseum, home court of the Texas Tech Red Raiders of the Southwest Conference.

"It's not a question of whether we can beat Tulia—we've done it three times this season," Coach Baker Duggins said. "The only question is—will we be able to do it again?" he posed.

In the team's third game of the year, at the West Texas State Tournament, the Squaws slipped by Tulia, 51-49. Then in the finals of Tulia's own tournament, it was Squaws 56, Tulia 45. At Tulia January 15, Friona pulled one out of the fire, 49-48. In the teams' last meeting, at Friona Feb. 1, Tulia finally scored a 56-55 win over Friona.

Tulia has an impressive 25-6 record, with half of their losses, as mentioned, at the hands of Friona.

The Squaws, meanwhile, will carry a 23-7 record into the regional battle. Losses have been to Claude, Sundown (twice), Dimmitt, Tulia, Stratford and Happy, not including two exhibition matches against the Wayland College "Queen Bees."

Although 23-7 is a pretty good "country record," it is just mediocre compared to some of Duggins' other teams at FHA. In 1960, for instance, the last time Friona went to regional, they had a 29-1 record. They won regional, swamping Anson, 59-23 and Coleman, 49-29, but lost in the state finals to Buna, 66-63, to finish with a 32-2 record. Only other team to beat them that year was Claude.

In 1959, the Squaws had their best "percentage" record at 28-1, losing only to eventual state champion Abernathy in bi-district.

Coach Duggins, in his six years as coach of the Squaws, has posted an enviable 193-28 career record. It is even more impressive considering the competition the team has played, including Dimmitt, long known as a girls basketball power, and Tulia. These latter teams were district competitors the past five years, with the exception of Tulia this year.

Other teams in the regional tournament include Hamlin and either San Angelo Lake View or Stephenville in the lower bracket.

ONE-TWO-THREE PUNCH . . . The Friona Squaws' one-two-three scoring punch is shown in action here against Post. From the left, Tito Jennings, who leads

the team with a 19.4 scoring average, Charlotte Nettles, who sports a 17-point average, and Janet Buckley (11.3) are caught scoring points in Monday's bi-

district game. Squaw guards also have been turning in stellar performances lately, and will be depended upon for another good effort in Saturday's regional.

SECTION I

IN CITY HALL ACTION

Moorman Out; Morgan In As Police Chief

Ben Moorman was relieved from his duties as Friona Chief of Police in a special meeting of the City Council Monday morning. Sheriff's Deputy Bill Morgan was named to replace him at the council's regular meeting Tuesday.

In the special meeting Monday, Mayor Raymond Fleming

opened the meeting with a review of the last special meeting as to the operation of the Police Department, the duties of the chief, the cause of a recent vehicle accident involving the city patrol car, and general frictions within the department. A motion was made and passed

unanimously that Moorman be given a letter asking for his resignation. Such a letter was prepared, and Moorman complied Monday. He was granted a month's salary in advance to compensate for prior notification.

It was further stated that the management of the Police Department in the future fall under the City Manager as outlined in Ordinance 310-B, to help reduce operating expenses and improve the overall efficiency

within the department. Motion was made to authorize City Body Shop of Friona to repair the patrol car at its bid of \$550.

Morgan, 30, who has been stationed in the Friona area with the County Sheriff's office for the past two years, was hired as Police Chief, to become effective March 15. He was with the Friona Police Department two years previously. In the meantime, Patrolman Rex Cowart is acting chief.

In other business Tuesday, a contract with L. T. Graves for utilization of city sewerage water effluent for irrigation purposes was finalized, on a one-year basis.

Final approval was made for the re-zoning of Lot 10 and West 17 feet of Lot 11, Block 3 of the Lakeside Addition to Zone "B" from Zone "A."

Expenditures were authorized in the amounts of \$498 for a water valve power tool; \$345 for irrigation pipe for the city park; \$1,467 for street signs and corner marker pipe; and

Sunrise Service Off This Year

The Friona Ministerial Alliance decided in its regular meeting Tuesday to dispense with the Easter Sunrise Service which they usually sponsor this year.

Meeting at Calvary Baptist Church, the group cited poor attendance at last year's service, along with problems in coordinating the service during the busy week as reasons for eliminating the service this year.

KMUL To Carry Tourney Results

Friona area basketball fans will get radio coverage of the Friona High School girls basketball team's progress in the regional tournament Saturday.

Radio Station KMUL in Muleshoe (1380 on the dial) will carry telephone reports at halftime and immediately following the Friona-Tulia game Saturday, and if the Squaws win, the station will carry a direct broadcast of the tourney finals at 3:20 p.m. Saturday.

The broadcast will be sponsored by sports-minded Friona businesses, and will be handled by Bill Ellis, editor of the Star.

Candidates File For Elections

At the deadline for filing for the School Board election yesterday, three names were filed for the two terms which expire. The three men are W. R. Mabry, D. C. Herring and Charles Howell. Terms of Mabry and Herring, who are up for reelection, are expiring.

For the City Council race April 2, which has three terms expiring, three names were filed by last Saturday's deadline. They were J. E. Hicks, Joe Talley and Glen Stevick. So, barring write-in campaigns, these three appear to be enroute to filling the seats being vacated by Wright Williams, Kenneth Williams and Bill Nichols.

Shooting, Car Theft Suspect Nabbed Quickly

An early morning fracas, ending in a shooting and a flight from Friona in a stolen car, ended just two hours after it all began with the arrest about 6 o'clock Sunday of Ronald Mayo, 21, by Clovis police.

He was picked up after a minutes earlier by Parmer County law officers who picked up his trail south of Friona at the home of Leon Smith.

Mayo is charged with assault with intent to murder and theft of both a car and a pickup which he used to attempt his escape.

Sheriff Chas. Lovelace pieces the story together about like this: Mayo and some companions who had been drinking became involved in an argument in a hotel where they were staying in Friona. The dispute culminated when Mayo shot Oscar Scroggins, 62, two times with an automatic pistol.

Scroggins was hospitalized, but the wounds in one arm and one hand were not serious.

After the shooting Mayo left the hotel, stole a car belonging to Mark Asher, and drove it out of town. Asher was awakened when he heard his car being started, and he notified the Friona city police. They had already been advised of the shooting a few minutes before, so the alarm was set out to pick up Mayo in the 1954 Ford.

Roadblocks were set up but nothing developed immediately. Asher theorized that Mayo could not go far in his car as it did not have much gas in it. With this hunch, Sheriff Lovelace, deputy Bill Morgan and policeman Rex Cowart began checking out roads in the Friona area, hoping to find the

stalled car. After a while they came across it, on the bank of Running Water draw south of Friona on the Friona-Muleshoe highway. The car was empty, but they found Mayo's billfold nearby, indicating he had lost it when he abandoned the car.

The officers then began checking houses in the area, and when they came to Smith's home it was discovered that his pickup was missing. This new information was immediately broadcast and within only a few minutes Clovis police intercepted the pickup and took Mayo into custody.

He apparently had swung

around north and came into Clovis on the Pleasant Hill road.

Mayo, a transient worker in the area, had been in Friona about two months. His home is in Greensboro, N.C.

In other activities Saturday night, the Parmer County sheriff's department picked up three Latin Americans and turned them over to Bailey County officers. The three were involved in a shooting in Muleshoe.

They are Pete Mendoza, 30, Jimmy Mendoza, 21, and Santiago Mendoza, 20. All reside on a farm in the Lazbuddie community.

BACK TO SCHOOL . . . Friona parents went back to school this week in observance of Texas Public Schools Week. The high school was host to parents Tuesday night, in special classes for the parents.

Junior Livestock Show Set To Roll

Everything is in readiness for the 7th Annual Parmer County Junior Livestock Show this weekend in Friona.

A total of 208 animals had been registered with the show's assistant chairman, Flake Barber, as of Tuesday, indicating that there will be a few less animals than last year's 279.

Actually, there will be more barrows in the show this year than last, 137 to 130. The steer division suffered the biggest drop, from 69 a year ago to 36. Lambs remained about the same, with 35 entered.

Weighting in of barrows was to begin at 1 p.m. Thursday, an hour earlier than has been the case in the past. Sheep also will be taken Thursday afternoon. Pre-judging of barrows and lambs will begin at 7:30 a.m. Friday, with final judging to follow.

Steers will be weighed in at 7 a.m. Saturday, with the judging of steers to start at 9 a.m. Sale of the champion animals will begin at 1 p.m. Saturday.

The busiest day for the show is Friday, a day all county schools will be closed due to the district teachers meeting. Charles Smallwood, head of the Agriculture Department at West Texas State College, who judged last year's show, will return to act as show judge.

A total of 100 animals are to be sold. The top 10 steers will sell, along with 60 barrows and 30 lambs. All champions and reserve champions must sell.

Dwain Menefee is swine superintendent; Martell LeVeque is in charge of steers and Otho Whitefield heads the lamb department. The show is sponsored annually by the Friona Lions Club.

SCHOOL SECRETARIES . . . Recently employed at the direction of the school board were these two secretaries for Friona principals. Seated is Mrs. Loyd Messenger, high school secretary, and Mrs. Ronnie Castleberry, part-time secretary for junior high and elementary school principals.

Moorman

(Continued from Page 1) \$452.17 for workmen's compensation insurance adjustment.

In his regular monthly report to the council, City Manager Arley L. (Jake) Outland

reported that five building permits were issued, one for a residence in the amount of \$15,000. The other four were for additions or alterations, in the total amount of \$6,000. A total of 7,773,500 gallons

of water were pumped during the month, and 6,962,000 gallons were accounted for in sales, for an efficiency of 89.6 per cent. Moisture received in February totalled .56 inches on seven different days.

Engineering work began on the new water tower site on February 5, concrete was run February 20 and 26, and the con-

tractor moved off the site February 27. Ditching and pipe laying to the new site began on February 25, and was completed on the 27th.

Four fire calls were recorded during January. Three of these were inside the city limits, for a total estimated damage of \$4,000. One outside (southwest of Hub) was for an estimated damage of \$600.

The Police Department reported 25 arrests during the month. Twenty-one were for traffic violations, two for drunkenness, one for disturbance and another for being Absent Without Official Leave.

The park-cemetery department reported that 600 pounds of iron-chelate fertilizer was purchased and placed on the City Park February 19, and thorough soaking watering began the same day.

A load of hot-mix street patching material was purchased at Amarillo on February 4. The nylon street sweeping broom was put into service February 8. The consulting engineer surveyed streets and recommended seal-coating as many blocks as funds will permit. It is hoped to get this work underway by April 1.

Camillo Galacia began work at the City Dump February 1 as a non-payment caretaker. He is to work a reasonable number of hours per day in return for what scrap he can salvage from the dump.

Next regular council meeting will be at 7:30 p.m. Monday, April 8.

Castin--

(Continued from Page 1)

the amount of money you are required to pay for federal use.

All the talk of a cut is fine --if a cut were all there were to it. But there is a list of reforms to be considered also. At least, the list is called reforms. Actually, it is mostly aimed at removing a lot of deductions allowed in the past and which are claimed by a large majority of taxpayers.

One change which would affect most people using the Itemized system is the disallowing of interest as a deduction. Now, we are living in a time when credit is a most valuable asset and one

Squaws

(Continued from Page 1)

28. Jennings then finally snapped her cold spell with two baskets to cut the margin to seven, 39-32, and Janet sank a jump shot with 2:46 to play in the quarter to pare the lead to five, 39-34.

Post got its lead back to eight points momentarily, but Janet scored another basket, and she again scored two consecutive goals, the final one with three seconds left in the quarter, and Friona had made it a close game, 42-44 at the three-quarter mark.

Post had two three-point leads the last quarter. Sharpshooting Wilson, who hit 21

of 23 free throw attempts in the game for Post, gave them a 47-44 lead after Friona had pulled to within a point at 45-44.

But Charlotte drove for a basket with 5:50 to play, and Buckley hit a jumper to put Friona ahead for the first time, 48-47 with 5:07 left in the game. Friona fans then sensed that the Squaws had the game under control, because although they lost two starting guards, Kay Burleson and Glenda McClellan on fouls, the Post girls had become somewhat "rattled" during the Friona rally, and had lost much of their poise.

The Squaws made it a three-point lead, their longest of the game, 50-47 on a basket by Jennings, and duplicated that at 52-49 on a Nettles basket.

Post apparently received a blow with a little over a minute to play when Wilson, around whom their offense is built, received a leg injury. She refused to leave the game, and tied the score at 53-53 for Post with a minute to play.

Friona took the ball, worked for a good shot, and as Nettles went up for a lay-in, she was fouled. The Squaws, who had never had the one-and-one foul with their top free-throw shooter at the line, 32 seconds left to play.

Charlotte didn't let the fans down. Both shots ripped the cords nicely, and Post spent

Enraged because her husband had left his money to someone else, the widow went at once to the monument maker to have the inscription on his tombstone changed.

"Sorry," said the man, "but you ordered 'Rest in Peace' and it can't be changed now."

"Well, then," said the widow, "just add underneath 'Till We Meet Again'."

most of the final 30 seconds vainly trying to get their high-scorer in position for one last shot.

An outstanding team effort brought the win to Friona. Nettles had 26 points, Jennings 15 and Buckley 14. Great guard work by Burleson, Sandra Hoover, McClellan, Shirley Phipps and Carolyn Herring

also sparked the win. Burleson and McClellan fouled out trying to guard Wilson, who took advantage of every break she got in becoming the game's high scorer with 40 points.

Friona guards held Post to only 17 points the last half, after they had scored 36 the first half.

Are you insured with only half an agent?

An insurance salesman represents only one company. After he has sold you insurance for your car or home, you may never see him again.

By contrast, an independent insurance agent represents several companies. His job doesn't end with selling you insurance. That's the Big Difference in insurance --the continuing, personal

attention of an independent agent. He keeps the insurance on your car and home up-to-date. If you have a loss, he makes sure you are paid promptly, fairly.

We are independent agents --professionally qualified to recommend all types of car, home, and business insurance. We'll be happy to give you all the facts about complete insurance protection.

Vision Check Urged
During "Vision Week"

"Supermarket Squint," a characteristic of shoppers with vision deficiencies, is costing business and the housewife millions of dollars a year, the Panhandle Optometric Society says on "Save Your Vision Week."
With more and more emphasis on self-service, errors made in supermarkets, drug stores and other establishments are causing lost man hours in time and operation.
Dr. William Boone, Friona optometrist, notes that many shoppers are not really visually equipped to shop accurately, efficiently and comfortably. As a result, wrong items are picked up, clerks are forced to answer questions and time is lost.

The plight of the visually deficient shopper has become so common that a science of packaging and design has actually developed around the problem. Specialists in design base plans for new packages on the weaknesses of the shopper; the best shape for the astigmatic, the best letter and trademark for those with near-point acuity problems.
"They even select the best colors for those who have difficulty in discriminating colors and hues," Dr. Boone adds. "It may be funny to think of a woman opening a can of peach-

Schools Need More 'All Around' Boosters

There was no actual count, but by estimation, there must have been some 600 persons from Friona who made the near-100 mile trip to Abernathy Monday for the Squaws' bi-district basketball game.

This was a real fine show of school and community spirit. Friona is to be commended on the way it supports the Squaws and other athletic teams.

But Tuesday night, when the main open house was held as a highlight to Public Schools Week, only about 70 people turned up at high school to see how their children's education institution stacks up.

This was little more than one-tenth the number of people who drove the 200-mile roundtrip to Abernathy Monday.

Why are we so disinterested? Many people say that they aren't as concerned with their children's work after they get into high school. But shouldn't they be? The first few years are the vital ones, we will admit, but every grade and every subject is important, from grade one through 12. No wonder students lose interest in school in their latter years, if their parents set the pace.

"We're by no means knocking athletics. Anyone who knows us will vouch for the fact that we would be the very last to curb athletics in any way. But wouldn't it be wonderful if we could generate some of the enthusiasm that we have for the Chiefs and Squaws toward the everyday classwork of the students?"

We'd venture to say that within a few years, if such could be accomplished, our boys and girls would be among the best-educated youngsters anywhere. All they need is that family "booster club," yes, you, Mom and Dad.

--B. E.

BY THE AFS

Carlos Azofeifa Is Removed

Carlos Azofeifa, one of Friona's two exchange students during the 1962-63 school term, was removed from the community by the American Field Service last Friday, school officials announced.

"Essentially Carlos was homesick as much as anything," said superintendent of schools Alton Farr. "The AFS committee in New York felt he wasn't adjusting to the local community properly," he continued.

Farr said that the American Field Service planned to have Carlos in New York for about a week for counseling, and then hoped to relocate him for the remainder of his stay in America, which has four months remaining.

It is possible, the superintendent said, that Carlos may be re-located in a community with other children of his nationality, which might help him feel more at home.

"We knew from earlier reports from the AFS that Carlos was not too happy here at first," Farr said. "But we thought that from all indications things were going all right with him."

High school principal, Raymond Cook, also voiced his surprise at the move. "He would tell us he was 'doing fine, but apparently he wasn't,'" Cook said.

Mrs. Edwin McKay, district AFS representative from Amarillo, picked Carlos up Friday.

Mrs. McKay said she had visited in the D. C. Herring home, and that she knew it wasn't the "foster home" that was at fault, because "anyone should be happy with the Herrings."

Mrs. McKay indicated that about 15 per cent of the exchange students have to be re-located during the year, sometimes because of problems involved in the family which is keeping the student. But in Carlos' case, the New York officials thought more of a change was needed.

It was mentioned that students from South and Central America had found it particularly hard to adjust to the Texas-Oklahoma-New Mexico area.

"Naturally, we are disappointed about Carlos leaving," said Herring this week. "We had grown attached to him. He was like one of the family," he continued. Herring said his family had received no prior notice from the AFS, and wished to withhold further comments until he received further word from the national office of AFS.

★ **7th ANNUAL PARMER COUNTY JUNIOR LIVESTOCK SHOW**

We want to congratulate the members of the FFA and 4-H Clubs on their participation in this fine show. We're proud of your accomplishments in raising fine quality livestock and we know that the experience you gain through the JUNIOR LIVESTOCK SHOW will help you in the years to come when you own your own farms and ranches.

★ **CAPROCK 0-20-0**
SULPHUR ENRICHED

Farmers in West Texas and New Mexico are learning that sulphur is becoming increasingly vital as a plant nutrient. It has been used to reduce soil alkalinity and reclaim saline soils. It has been considered one of the more important stimulants of plant growth.

The plant requirements for phosphorus are about the same as for sulphur.

0-20-0 with about 20% phosphorus and 12 per cent sulphur... is the greatest fertilizer money can buy for this area.

★ **THE WOMEN** ★

Greta Mears Weds Ronnie Armstrong

Wedding vows were exchanged between Greta Mears and Ronnie Armstrong at the Sixteenth and Pile Street Church of Christ in Clovis Friday afternoon. Paul Smith, minister of Sixth Street Church of Christ here, read the double ring ceremony.

Parents of the couple are Mr. and Mrs. Claude Mears and Mr. and Mrs. D. N. Armstrong, all of the Rhea Community.

The bride wore a white two piece suit of embossed dacron and acetate with red and white accessories. Her corsage was of red roses.

Those attending the wedding were Mr. and Mrs. Claude Mears, Mrs. D. N. Armstrong and Mr. and Mrs. Vernon Armstrong.

The couple are at home in the Rhea Community. Mrs. Armstrong is a senior in Friona High School and plans to continue her education.

Anniversary Party Honors R. Sheltons

A surprise party honoring Mr. and Mrs. Ralph Shelton on their Silver Wedding Anniversary, was given in the Kenyth Cass home Saturday night.

Refreshments were served at small tables covered with white silver decorated cloths. China and silver appointments were used.

The couple was presented a silver tea service.

Hosting the occasion were the nine couples present; Messrs. and Mesdames Roy Slagle, Joe Moyer, Guy Latta, J. H. Boyle, Clyde Weatherly, Forrest Osborn, W. S. Ingram, Arthur Drake and Kenyth Cass.

Ladies Aid Society Organized

An organizational meeting for Redeemer Lutheran Ladies Aid Society was held Jan. 30 in the home of Mrs. Dick Habbinga.

Mrs. Bill Brandt was elected president. Other officers elected to serve with her were Mrs. Melvin Sachs, vice-president; Mrs. Carl Schlenker, secretary; Mrs. Norbert Schueler, treasurer and Mrs. Gary Goetz, reporter.

The organization will meet regularly each fourth Wednesday at 2 p.m. at the American Legion Hall. The February 27 meeting was conducted in the Community Room of Friona State Bank. Mrs. Bill Brandt, hostess, served refreshments.

First family night sponsored by the Ladies Aid was at Country Club House February 10. Sixty five persons were present.

Family night will be observed each second Sunday from 4:00 to 7:00 p.m. at the American Legion Hall. Lunch will be served and games for the whole family will be planned.

Next family night will be March 10. Mrs. Brandt invites anyone interested in attending to be present.

It's A Boy For Jeskos

Mr. and Mrs. Larry Jesko of the Lazbuddie community became parents of a baby boy at Parmer County Community Hospital at 9:15 p.m. Wednesday, February 27.

He weighed 7 lbs. and was named Phillip Brian. He is the first child for the couple. Mrs. Jesko is the former Dixie Chitwood.

Grandparents are Mr. and Mrs. Alex Jesko of the Lazbuddie community and Mr. and Mrs. S. V. Chitwood of Friona. Great-grandparents are Mr. and Mrs. Bert Chitwood, Friona, and Mr. and Mrs. L. B. Seaton, Newton, Kansas.

"Sympathy is what one woman offers another in exchange for details."—Ray S. Francis, Cherryvale (Kans.) Republican.

MRS. RONNIE ARMSTRONG

Scouts Have Annual Banquet

Members of Cub Scout Troop 56 and their families met at the school cafeteria Monday evening for the annual Blue and Gold Banquet.

Cubmaster Weldon Dickson introduced the special guests. They were Dan Ethridge, member of the executive board of the Llano Estacado Council; Mrs. Sloan H. Osborn, president of Modern Study Club which sponsors cubscouts in Friona; Also Paul Fortenberry, institutional representative and Ralph Shirley, committee chairman.

The pack charter was accepted by Mrs. Osborn for Modern Study Club.

New registration cards and awards, which had been earned by the cub scouts, were presented.

More than 200 persons were present.

First Boy Born To Bill Bandys

Mr. and Mrs. Bill Bandy became parents of a baby boy at 4:40 p.m. Wednesday, February 27, at Parmer County Community Hospital. He weighed 8 lbs., 2 ozs. and was named William Charles.

He is the first son for the couple. Daughters are Kathy, 12, and Jeannie and Janice, 6. Grandparents are Mr. and Mrs. Charlie Phipps, Muleshoe and Mrs. Viola Bandy, Amarillo.

Mrs. Bandy and William have been dismissed from the hospital and are now at home.

Pope Home Scene Of Lullaby Shower

A lullaby shower honoring Mrs. Lester Dean and Mrs. Troy Young in the home of Mrs. L. D. Pope Thursday afternoon was hosted by Mesdames Pope, Bob Wylie, James Pope, Donn Tims, Leo Bails, Richard Perkins and Ronald Smiley.

A white stork surrounded by an arrangement of white flowers centered the serving table. Refreshments of pink and blue cake and punch were served.

Those attending and sending gifts were Mesdames A. H. Hedley, Boyd Pipes, Ray Vanlandingham, W. H. Evans, Oscar Baxter and Willene, Alta Wylie, Jim Baxter, Gene Bracken, Clarence Martin, Calvin Martin, J. W. Baxter and John Hand.

Also Mrs. Mesdames Elton Wylie, Jim Greeson, E. M. Jack, Hop Lewis, O'Neil Greeson, C. H. Veazey, J. B. Shirley, Grace Hart and Carrie Shirley.

Martins Have Dinner Guests

Sunday dinner guests in the home of Mr. and Mrs. Clarence Martin were Mr. and Mrs. Larry Martin and children, Mr. and Mrs. Louis Baxter, Lynn, Tommy and Steve and Mr. and Mrs. Calvin Martin.

Also Dwayne Baxter and daughters of Bovina. The afternoon was spent visiting and playing games.

Woman's Club Has Americanism Program

"Americanism Yesterday and Today" was the theme of the Wednesday afternoon meeting of Friona Woman's Club at the Club House. The program was based on Abraham Lincoln's question, "With you shall the liberties of this country be preserved to the latest generation?"

Roll call was answered by naming a famous American. Following a salute of the flag, Mrs. Charles Russell directed singing of "America." Mrs. Edgar Carney read "Patrick Henry's Stand."

Mrs. Genevieve Anderson outlined the Lampassas American heritage plan, which is a course of study set up by Jim Petty and his senior class, school faculty and a group of citizens.

Eight motives which are being studied in some of the schools were discussed. They were:

1. We believe and trust God as we understand him.
2. The importance of the individual.
3. Freedom of individuals.

4. The dignity of work.
5. Private ownership of property as guaranteed by The Bill of Rights.
6. The profit motive.
7. Free competition.
8. Government as a protector not as a provider.

"Later Than You Think" was the title of a talk given by Mrs. Joe Moyer in which she explained how Communism is being infiltrated into the United States.

During the business session Mrs. Carl Maurer was elected delegate to the district convention of Federated Women's Clubs in Lubbock March 29 and 30.

Tickets for the style show, which is sponsored by Friona Woman's Club, Modern Study Club and Progressive Study Club, April 22 were given to club members by Mrs. Bill Baxter, secretary.

Mrs. Hudson B. Phillips Sr. was a special guest. Refreshments of cake, nuts, coffee and tea were served by the hostesses, Mrs. J. F. Miller and Mrs. Ed Bogges.

Cordelia Parr Plans March 27 Wedding

Mr. and Mrs. R. W. Parr are announcing the approaching marriage of their daughter, Cordelia, to C. B. Eddins on Wednesday, March 27, at 5:30 p.m.

Wedding vows for the couple will be read in Fellowship Hall of First Baptist Church by Rev. Bill Burton, pastor. A reception will follow.

Invitations are not being mailed locally, but all friends of the couple are invited to attend the ceremony.

Weatherlys Host Dinner Party

Mr. and Mrs. Philip Weatherly were hosts at a dinner-bridge party in their home east of town Saturday evening.

Guests were Mr. and Mrs. Jerry Loflin, Mr. and Mrs. Paul Yarbrough, Wesley Barnett, Jim Roy Clements and Don Reeve.

LOCAL

Sunday night guests in the home of Mr. and Mrs. Calvin Martin were Mr. and Mrs. Lee Carter of Lamar, Colo.

NOW SEE WHAT'S NEW AT YOUR CHEVROLET DEALER'S

SUPER SPORTS—that's the only name for them! Four entirely different kinds of cars to choose from, including bucket-seat convertibles and coupes. And most every one can be matched with such sports-car type features* as 4-speed stick or Powerglide transmission, Positraction, tachometer, high performance engines, you name it. If you want your spice plus the luxuries of a full-sized family car, try the Chevrolet Impala SS. It's one of the smoothest road runners that ever teamed up with a pair of bucket

seats. It even offers a new Comfortilt steering wheel* that positions right where you want it. The new Chevy II Nova SS has its own brand of excitement. Likewise the turbo-supercharged rear-engine Corvair Monza Spyder and the all-new Corvette Sting Rays. Just decide how sporty you want to get, then pick your equipment and power—up to 425 hp in the Chevrolet SS, including the popular Turbo-Fire 409* with 340 hp for smooth, responsive handling in city traffic. *optional at extra cost

Pictured from top to bottom: Corvette Sting Ray Convertible, Corvair Monza Spyder Convertible, Chevy II Nova 400 SS Coupe, Chevrolet Impala SS Coupe. (Super Sport and Spyder equipment optional at extra cost.)

Bruce Kimball Buske, muffler violation.
Janice V. Cunningham, disregarding flashing red light, and ran stop sign.

LISTED ON TCU HONOR ROLL

Robert M. Sherley, son of Mr. and Mrs. W. M. Sherley, Lazbuddie has been named to the Fall Semester, 1962, Dean's Honor List from the school of business at Texas Christian University.

The list consists of students who were enrolled for at least 12 semester hours and ranked in the upper 5% of the majors in their school.

A total of 188 students were named to the list.

Mailbag

Dear Editor
Hats off to John Renner for standing up to be counted. Your letter to the editor last week was of an awakening nature and a reminder not to seriously listen to an out-of-state influenced group. Any farm programs we reject through misrepresentation we have only ourselves to blame and to live with.

I hear it said, "I've gotta belong to Farm Bureau because of cheap reliable insurance it offers." Did you ever think how much it's costing you through misrepresenting your views in Washington and other influential circles? One should think seriously before joining any organizations as by merely being a member you are indirectly helping make policies being good or bad.

To illustrate: An official of an organization advocates certain amendments in a bill. Immediately a lawmaker says to himself: "How many members does he represent?"

In Washington during 1952 to 1960 the American Farm Bureau was consulted first, while now they complain for not even being invited. In the period John mentioned, farm income dropped 25 per cent, yet farm costs rose. Why should they be invited to help formulate present-day farm programs when the Agriculture Department can save time and taxpayers' money by using the Farm Bureau rubber-stamp "no."

Thanks, John, for writing a letter for me.

Sincerely,
Al Reznik

Dog Vaccination Date Announced

Dr. Gene Cope, Hereford veterinarian, will be in Friona two Fridays this month to offer owners of dogs an opportunity to have their dogs vaccinated and get their 1963 license tags. He will be at the City Fire Station the afternoons of March 15 and 29, from 2 to 5 p.m.

According to the city ordinance, all dogs in Friona must be licensed and have a rabies shot each year. A charge of \$2 for the tags, and \$2 for the vaccination will be made, or a total of \$4 per dog.

The city ordinance states that any person who allows his dog to run loose in Friona without a rabies vaccination shall be guilty of a misdemeanor, and subject to a fine not to exceed \$100, and each day's violation shall constitute a separate offense.

1963 Bond Sales Get Slow Start In County

Parmer County, which was among the top counties in the state for percentage of its 1962 U.S. Savings Bond sales, got off to a slow start for the first month of 1963, according to the January statistics just released.

With a goal of 80,000 established for 1963, Parmer County residents bought just \$2,568 in bonds during January, representing 2.8 per cent of its goal, according to Frank Spring, chairman of the county savings bonds committee.

Still, the statewide total showed an increase of \$500,000 over January of 1962, an increase of 3.2 per cent. January bond sales in Texas were \$15,814,670.

In 1962, Parmer County had a goal of \$90,000, and raised over \$163,000, which was 181.3 per cent of its goal.

As a part of a nation-wide Freedom Bond Drive, every family in Texas is being asked to buy at least one U. S. Savings Bond by June 30, 1963.

THE LAST MOVE

There is a painting of a chess game called "The Last Move." The devil is shown grinning at a young man, who is sweating over the game. The youth had gambled with the devil for the joys of the world, and the next move would lose the game and his life.

One day a famous chess champion studied the picture. Then he said: "I'll make the young man's move for him." They set up a chess board exactly as it was on the picture. He made a move which the artist had not seen as possible, by which the devil lost the game.

If such a chess champion had come to save the young man, not in the picture, but in the shocking reality of life, would the young man ever forget his rescuer?

A much greater Champion has come and has saved you when your game of life was hopelessly lost. Your salvation cost Him His life. Are you remembering Him - your Lord and Savior Jesus Christ?

The season of lent is designed to help you remember what Jesus has done for you. Come and worship Him with us.

Something To Think About

6th. Street Church of Christ
Box 515 -- Friona, Texas

Men have a natural tendency to want to speculate, and as a result many are not willing to be guided by the word of God, no more or no less. This unwillingness to stop where the word of God stops is a fertile cause for religious division.

The true Christian must allow Christ to control his life, and His word must be translated into motivation and action. Faith and life are not two unrelated things for Christians must live a life of faith. Faith must not be considered as unrelated to life but as functioning in the control of life. Conduct must spring from faith and we must not sever them, for as the body apart from the spirit is dead even so faith apart from works is dead, being alone (James 2:14-26) He who has merely a speculative interest in the Bible, and ignores its practical demands on life, will gradually harden himself against moral and spiritual influences which would work for the regeneration of his life. Let the Christian, then, never lose sight of that awful responsibility under which the Gospel-revelation places him; abstaining from all unprofitable and presumptuous inquiries as to religious subjects, let him earnestly seek such knowledge as 'is able to make us wise unto salvation, through faith which is in Christ Jesus'.

come to church Sunday

WHAT TIME IS IT?

Upon my desk, always within reach, is a calendar upon which is listed my schedule for the days thereon. Notated there are the things I hope to accomplish, the goals I have set for myself and the responsibilities I have accepted. As I look at the pages representing the months gone by, I see many things. I see many opportunities passed by; many jobs poorly done.

There are many lessons to be learned from old calendars. They remind us of the constant and relentless flight of time. We're a lot closer to the end than we were back when those pages were new.

"It is appointed unto men once to die, but after this the judgment." Someday another will have to turn the pages of the calendar for you will no longer be here.

We will be prepared for that day only if we have made our peace with God through a personal faith in the atonement of Jesus Christ. The time may be short. Are you prepared?

"To Contract New Debts Is Not The Way To Pay The Old Ones."

The Greatest Presidents Of The United States, In Our Opinion, Were Washington and Lincoln.

No Men Differed More Than They. Other Than Their Humble Births And The Office They Held, Their One Common Denominator Was Official Honesty And Frugality.

Of Washington We Know Most From His Diary, And The Meticulous Account Books Which He Kept From His Youth. In The Conduct Of The Nation's Affairs, None Was More Mindful Of The Nation's Accounts Than Was George Washington or Abraham Lincoln.

Frugality Alone Could Not Make A President Nor A Nation Great, But It Is An Ingredient Of Integrity, Without Which No Man Nor Nation Can Continue Great.

FRIONA DRILLING AND PUMP CO. INC.

K. Cass Family Visits Relatives

Mr. and Mrs. Kenyth Cass and Jerry spent Sunday visiting in the home of Mr. and Mrs. George Price and children, Laurie and Russell, at Brownfield. Mrs. Price is the former Gay Cass.

Sunday morning Mr. and Mrs. Cass and Jerry accompanied the Price family to services at First Methodist Church in Brownfield. Rev. J. Lloyd Mayhew, pastor, officiated at christening services for Russell Price.

Joyce Wilkins Receives Award

A certificate for membership in the Gavel Club was presented to Joyce Wilkins by Lauritta Brookfield at the Monday evening meeting of Friona Rebekah Lodge in Oddfellows Hall. Mrs. Brookfield, assisted by Inez Sherley, Juanita Reed, Joyce Wilkins and Mae Holder, also draped the charter in honor of Sister Emmie King Fountain, past president of Rainbow Assembly of Texas.

Fifteen members were present, 35 sick visits had been made and 27 cards had been sent. The hostess, Pat Fallwell, served coffee, hot tea and cookies.

Community Song Service Sunday

The community-wide singing service will be at the Assembly of God Church this Sunday starting at 2 p.m.

"The public is cordially invited to attend this regular monthly event," states Rev. Alvin Askins, pastor of the church and secretary of the organization.

Lubbock Hosts Victor Borge

Victor Borge brings his one-man show, "Comedy in Music," to Lubbock Municipal Auditorium Tuesday, March 19 at 8:30 p.m.

Borge's buffoonery at the piano has captivated audiences all over the world.

Tickets for "Comedy in Music" may be obtained by mail ordered from P. O. Box 5661, Lubbock, Texas. A self-addressed stamped envelope should be enclosed. All seats are reserved.

Seats are: lower floor, \$5, \$4. Balcony, \$5, \$4, \$3, and \$2.

Victor Borge's two-and-a-half-hour show is entertainment for the entire family.

Free Movie Is Tuesday At Hub

The High Plains Underground Water Conservation District cordially invites everyone in Parmer County to see the color sound movie, entitled "Miyah," Arabic word meaning "Water," at the Hub Community Center Thursday (March 7) at 7:30 p.m.

"You'll enjoy this beautiful and informative film about life-giving water in Arabia, which in many ways is also the story of water in the Texas High Plains," a representative of the water district said.

Plans will also be discussed for the 36-section water management study project in the Hub Community. Everything's free--and everyone in the Parmer County area is invited to attend.

Burtons, Allens Set For "Japan Crusade"

By CAROL ELLIS

The next few weeks will be very busy ones for four Friona Baptists who are planning a trip to Japan on April 22. Rev. and Mrs. W. G. "Bill" Burton and Mr. and Mrs. Charles Allen will spend two weeks in Japan under the Japan Baptist Crusade, otherwise known as the Baptist New Life Movement. Their preparations for this evangelistic crusade include inoculations for just about everything; seeing about passports, visas and letters of recommendation; communicating with Pastor Tsurumi Kenji of Koga, with whom they will be associated while in Japan; and trying to reduce all that luggage to just 44 pounds per person.

The purpose of the Japan Crusade is to spread the word of God to the 94 million people of Japan, millions of whom have never even heard of Jesus Christ. The Crusade is being held by the Japan Baptist Convention and is co-sponsored by the Southern Baptist Foreign Mission Board and the Baptist General Convention of Texas. This movement will seek to reach every person in Japan with the Gospel message through radio, television, five central crusades and 145 revivals in principal Japanese cities.

Evangelist Billy Graham will preach in the five central crusades and about 145 teams of pastors, laymen and musicians from throughout the United States will participate in the one week revivals in Japanese cities. Most of the team members are from Texas.

The Friona team will be joined by Dr. W. C. Smith from Carthage. The five-member team will be assigned to the Baptist Church at Koga, Japan. The church is pastored by Tsurumi Kenji, 58. The Burtons and the Allens will be closely associated with the pastor, his wife and three children during their week in Koga. Koga, about 40 miles North of Tokyo, is said to be a large medical and hospital center. The group will spend their first week in Tokyo where they will undergo an orientation period, then on to Koga. Rev.

Burton will be the evangelist, Dr. Smith will be the layman, Allen will serve as music director and Mrs. Allen and Mrs. Burton will speak with the women of the church and probably to school children. They will speak through interpreters, which is quite a lengthy process.

"Our actual sermons will be only 15 minutes in length," states Rev. Burton, "though it will take about 45 minutes to give them through the interpreter. We must speak very simply and directly, as many to whom we speak may never have heard of Christianity."

The Burtons and the Allens are hopeful of getting to stop in Alaska on the way to Japan and in Hawaii on the way home. These will most likely be only overnight stops and there will be no time for sightseeing. They do plan, however, to tour Tokyo following the revival in Koga.

For some time now, the group has been studying up on Japanese customs which they may be expected to follow while in the Orient. The culture of Japan is so ancient that it is difficult for the average American to comprehend it. Through the centuries many customs have taken their place in this aged civilization. To the Westerner some of the customs may seem very mysterious. But the members of the evangelistic teams participating in the Crusade will be expected to observe or at least respect these ways.

Most of the Japanese people worship Shinto and Buddhist gods. Only 400,000 of the 94 million population of Japan call themselves Christians. However, these ancient "religions" have not kept the people from becoming well educated. At the present time the literacy rate in Japan is one of the highest in the world. Compulsory education goes through the ninth grade. Most students try to go on to high school and college but because of limited facilities, highly competitive entrance exams must be passed.

Mass communication techniques are highly developed in Japan. Some Japanese newspapers have the largest circulation in the world. Japan produces more motion pictures each year than Hollywood. One

hundred per cent of the homes have radios and sixty per cent of the homes have television. The man-on-the-street is therefore well informed about world affairs, though still poorly informed about Christ.

The Burtons will leave their children in the care of Mrs. Burton's mother, Mrs. James W. Graham from Houston who will come to Friona to help out in this way. J. Ivyloy Bishop of Wayland Baptist College, Plainview, will assume pastoral duties for Rev. Burton during the two Sundays he will be gone.

Other cities in this area which will be participating in the Japan New Life Movement will be Shallowater, Floydada, Crosbyton, Slaton, Brownfield, Tahoka, Wilson, Lubbock, Post, Lorenzo, Littlefield, Levelland, Plainview, Muleshoe, Amarillo, Canyon, Hereford, Perryton, White Deer, Memphis, Sunray, Stratford, Big Spring, Andrews, Odessa and Midland.

PLANNING THEIR TRIP . . . Rev. and Mrs. W. G. Burton, left and Mr. and Mrs. Charles Allen, right, consult a world atlas in planning their trip to Japan the last part of April and first of May for the "New Life Crusade" in Japan and other parts of Asia. Many Texas Baptists are to take part in the campaign.

PRACTICING UP . . . Rev. W. G. Burton of the First Baptist Church shows how he is learning to use chop sticks for his forthcoming trip to Japan for the Japan Crusade. Burton, his wife and the Charles Allens will make the trip from Friona.

Lubbock Slates Gala Weekend

The Lubbock Chamber of Commerce issued a special invitation to visitors to Lubbock this weekend to take advantage of activities going on in the "Hub City."

The South Plains Coin Club's annual bourse and exhibit will be held Saturday and Sunday at the Holiday Inn--2600 Parkway Drive.

Many Friona area residents are expected to be on hand for the participation of their girls' team in the regional tournament at Municipal Coliseum Saturday. Then, Saturday night, more top-notch basketball is expected

at the regional NCAA college playoffs.

Teams which will play Saturday night in the NCAA elimination contests are University of Texas, Southwest Conference champion, and Texas Western, along with Memphis State and Oklahoma City University.

If the younger generation is going to pot, it's because the generation just ahead of them want first.

--Wayne Rohrs, Boys Ranch Chaplain.

Mary Officer Buried Saturday

Final rites for Mrs. Mary K. Officer, long time teacher in the Texas Panhandle, were conducted from Sixth Street Church of Christ at 10:30 a.m. Saturday by Paul Smith, minister.

Mrs. Officer, who had been a Friona resident since 1943, was born May 1, 1880 in Ohio. She was married to Leon V. Officer at Atoka, Okla. in 1901. The Officer family moved to Turkey in 1906 and Mr. Officer died in 1921.

The deceased had been a patient at Griffith Rest Home almost two years and died Thursday morning.

Survivors include two daughters, Mrs. W. L. Edelman, Friona, and Mrs. Kenneth Poss, Plainview; four grandchildren, Patsy and Jeanne Poss, Plainview, Von Edelman, Dallas and Jan Edelman, Albuquerque.

Honorary pallbearers were J. M. Watson, Nelson Welch,

Ed Boggress and Rene Snead. Active pallbearers were J. V. Houser, John Blackburn, John Renner, Steve Struve, Tom Jar-

boe and Eugene Boggress. Burial was in Friona cemetery under direction of Claiborn Funeral Home.

Batson Slates Austin Meeting

Glenn Batson of Littlefield, who represents the 30th Senatorial District on the State Democratic Executive Committee, will be in Austin March 16 to attend an organizational meeting of the committee.

Governor Connally will be the keynote speaker for the day-long meeting which will be held in the Commodore Perry Hotel, starting at 11 a.m.

State Chairman Eugene M. Locke said members will map plans for "developing a more effective and vigorous Democratic Party in Texas" at the meeting.

Deaton Very Critical After Gun Accident

Bernie Deaton, 16-year-old son of Mr. and Mrs. Everett Deaton, 508 Ashland, has been in a "very critical" condition since last Thursday in the Northwest Texas Hospital in Amarillo.

Deaton was shot accidentally late last Wednesday night when his 22 calibre rifle discharged, the bullet severing his optic nerve and lodging near the brain.

Deaton and three other young men, John Carson, Cary Jackson and Eddie Massey, started out to go fox hunting last Wednesday night. They got about seven and one-half miles north of town, and decided to hook up the spotlight on Carson's automobile.

All four got out of the car and proceeded to mount the light, to be used during the hunt. "Bernie must have decided to get back in the car. The first thing we knew, his gun went off and we realized

he had been shot," Carson said. Deaton was rushed to Farmer County Community Hospital, and then Claborn Ambulance took him to the Amarillo hospital, where he has been ever since.

A Report From Bill Clayton State Representative 91st Dist.

One-third of the time for the regular session of the Legislature has been completed and there has been over six hundred bills introduced in the House and over three hundred bills introduced in the Senate with more to come.

The Appropriations Committee of the House, of which I am a member, has completed hearing the budget requests of all of the State Agencies and Institutions. In a short time now the Committee will have the House Appropriations Bill ready for introduction. The Bill will provide for the financial operation of our State Government for the next two years.

I have met with the other four Committees, of which I am a member, The Conservation and Reclamation Committee,

The Labor Committee, The Municipal and Private Corporations Committee, and the Public Lands and Building Committee. Many bills have been heard by these Committees. I have been appointed to a sub-committee to further consider four very controversial labor bills. Two pertain to the minimum wage to be paid workers, one pertains to the Texas Fair Employment Act, and one relates to occupational safety. These issues have the backing of organized labor, and it is my hope that none of the bills will ever be brought out of sub-committee because I do not believe they would be of any real value to the people of Texas, especially our area of the State.

The House has passed four bills that affect a wide area of our population. Number one is a bill that would allow the speed limit to be increased in areas where the Department of Public Safety thinks it is advisable, from sixty to seventy miles per hour. I helped to sponsor this bill in the House, and the mail I have received from our area indicates that this is a bill that will be welcomed. Number two is the

teacher retirement legislation that allows teachers' retirement allotment to be based on a ten year period, and it will increase the amount of retirement pay that retiring teachers will receive, but this will not cost the State any additional money. I supported this legislation in the House. Number three is a bill pertaining to Padre Island, it allows the Federal Government to develop the Island as a National Park, but retains for the State the rights to the minerals, and allows for no further expansion than the land included in the bill. Number four is a referendum that would allow counties to decide whether or not they shall continue to have an office of County Superintendent. This bill makes it mandatory for the counties to provide for a referendum on the bottom of the ballot in the 1964 general election on the proposition to abolish the office.

After listening to the debate and seeing the votes on these and other measures it is apparent that the House will have a conservative vote throughout the session, as had been previously predicted, with the vote varying ten to twenty votes according to the issue.

Our Committee on Municipal and Private Corporations is considering the very important annexation bill. The bill protects future growth of cities, as well as giving protection to the areas being annexed. I believe this legislation may well be the answer to the annexation problem that has faced prior legislatures.

I am to introduce in the House a bill that will be controversial. I am sure, but which if passed will provide for a central licensing office for all of the agencies that now license from individual offices. This would bring some twenty-two agencies into one office, and would result in an approximate saving of over a million dollars to the State each year, by eliminating duplicate offices, personnel and equipment used for the purpose.

Several Congressional Redistricting Bills have been heard in Committee. Some of these would affect our area. Tuesday evening and Tuesday night the "Loan Shark Bills" were heard before Committee, and were sent to a sub-committee for further study.

We have been putting in some long days, but feel that the session is moving along ahead of schedule.

The Textbook Investigating Committee Report should be out in the next few days. One bill has been introduced by a member of that Committee that provides for a course to be taught in public schools on "Americanism vs. Communism". I think this is a good bill if care is used in the selection of teachers for the course.

Horse racing, liquor by the drink, and longer curfew hours for package stores will be coming up before long, but I don't think any of these will have much of a chance to pass. I hope not, as I am opposed to all three bills, and I know by the mail I have received and the people I have talked with that our district is opposed to these bills.

House Bill 106, a revision of the Sales Tax Bill, has been heard before Committee. The big opposition to the bill, as it is now, is a two per cent tax on farm machinery and removing alcoholic beverages from

two per cent tax. This bill is now in sub-committee.

The bill to merge the Fish and Game Department and the Parks Department has passed the House and is pending in the Senate. There is some question as to how this bill will fare in the Senate.

I am anxious to be of any service I can to the people of my district, and I would like to hear from you when any legislation, in which you are interested, is considered. I would also like to know if you would like to receive any other reports, such as this.

YOUR VOICE IN STATE GOVERNMENT -- BILL CLAYTON

News From LAZBUDDIE BY MRS. C. A. WATSON

Willie and Rex Steinbock, accompanied by Mr. and Mrs. Max Steinbock and boys and Delane Steinbock were in Tishamingo, Okla. over the weekend visiting with friends and looking at ranch land near there. They are planning to buy a ranch in that area.

Don Watson was an overnight guest in the home of Harvey Bass in Muleshoe, Saturday. Bass is an uncle of Don.

Mr. and Mrs. Larry Treider and children of Lubbock, visited in the home of Mr. and Mrs. Juel Treider this weekend.

Mr. and Mrs. Kirby Carroll, Olton visited Mr. and Mrs. John Advedell Sunday. Mrs. Dewitt Tiller, Bula was also a visitor in the Advedell home.

Mr. and Mrs. Tommie Byrd were in Olton Sunday visiting their son and his family, Mr. and Mrs. Edgar Byrd.

Mr. and Mrs. Claud Blackburn visited in Lubbock over the weekend with Mr. and Mrs. Raymond Lester.

Mr. and Mrs. Don Cargile were in New Braunville last week, visiting friends and relatives.

School will be dismissed in Lazbuddie Friday due to the District IX Teacher's Meeting in Amarillo.

Mr. and Mrs. C. A. Watson whose home burned some weeks ago will move back to the farm this week. Mrs. Watson reminds all those with news to call her no later than Tuesday. Her phone number remains the same.

Springlake with 107 points was winner of the Lazbuddie

MINNEAPOLIS-MOLINE
Friona

As anyone who has ever lived here might guess, the biggest item of conversation up and down the street and all over the town is a trip to Austin to see the Friona Squaws play in Gregory Gym. Of course, they have the regional tournament to play yet, but all of us know they will come out on top in Lubbock this weekend.

The last time Friona fans had an opportunity to follow the Squaws all the way to Austin was in 1960, so this will really be a big event. Early Tuesday afternoon tags began to show up all over town announcing to the world that we are backing the local team. These tags are printed on white with red ink and are very attractive.

Friends of Dave McReynolds will be listening for reports on the progress being made this weekend in Gregory Gym by the Stratford Elks. In spite of the fact that a lot of Frionans have bought property in the Stratford area, no former Frionans are listed on the basketball roster.

McReynolds was in Austin boosting the Friona Squaws in 1960 and we know he will be doing the same for the Stratford boys this year.

The annual Chamber of Commerce banquet last week was well attended and those attending had an opportunity to learn more about the various phases of sugar beet growing and utilization of by-products of the crop.

Don't be too surprised if someone tries to sell you some stock in a camel feeding project in the near future. That is really supposed to be a joke, but if there is any place in the Golden Spread that has more to offer for such an enterprise I don't know where it is. Do you?

Three Friona couples really got on a merry-go-round the night of the banquet although none of them attended it. It seems that you really wouldn't expect a Chamber of Commerce banquet, an illness in a family and a three way business deal to be a combination that would result in an amusing incident.

This is the way the story reached my ears. Three local men had a business deal cooking and Mr. A, told Mr. B, and Mr. C, that he and his wife had tickets for the banquet so they would have to postpone further discussion until another time.

Before Mr. and Mrs. A, left for the banquet it became necessary for them to make a visit to the hospital and stay an hour or so.

In the meantime Mr. and Mrs. B, and Mr. and Mrs. C, attended a revival at a local church then decided to call upon the A family. After driving by the school cafeteria and noticing that a crowd was still there, the two couples drove in separate cars to the A home and parked in the drive-way to wait until the banquet was over.

After visiting hours were over at the hospital and before the church services were over Mr. and Mrs. A, went home and decided to retire earlier than usual.

About 10:45 the telephone in the A home rang and the man of the house answered it. The daughter of Mr. and Mrs. B asked if she could speak to her mother. After passing on the in-

formation that Mrs. B wasn't here, Mr. A started back to bed and noticed the cars parked in his driveway.

He told his wife about the parked cars and they decided possibly some of their friends had parked them there while riding around in another car and would return for them and dismissed the matter from their minds and went back to sleep.

A few minutes later the door bell rang and upon answering it Mr. and Mrs. A learned why the cars were parked in the drive. Everyone had a good laugh and it is doubtful than any of the parties involved will forget the incident for a long long time.

Several friends of the Bill Bandys were misinformed last week following the birth of their first son at the local hospital. Early Thursday morning a report was circulated around town that Bill's and Mary's new baby was a girl.

Since the other three children of the couple are girls, a baby boy was number one on their want list, and their friends were hoping they wouldn't be disappointed.

Everyone who had heard the erroneous report was pleased to learn that the baby was a boy.

One of our neighbors is most unusual. Think he lives in or under an old automobile body across the street. It isn't unusual to see him most any time of day if you walk across the street west of the building.

He is a cottontail rabbit and seems very friendly. Several times in recent months I have seen him dash by the front window after dark and one time he hesitated long enough for me to see both his eyes peering up at me.

Guess he hasn't heard our managing editor, Travis Harrell, express how much he enjoys eating cottontail rabbits.

Mrs. Mary Officer's death last week wasn't a surprise to her relatives and friends as she had been seriously ill about two years. She was a retired school teacher and was interested in the activities of the community until she became ill.

Her first teaching experience was when she was a very young girl. She left the home of her parents in Ohio and accepted a teaching position in a government boarding school for Indian girls in the Indian Territory. This was before the Oklahoma Territory and the Oklahoma Territory was combined to make the State of Oklahoma.

Mrs. Officer's store of interesting incidents that occurred during the thirty years she taught was almost inexhaustible. There must have been a lot of happenings that were not amusing, but the amusing ones were the ones she remembered best.

One of her favorites was about a young Indian girl who came in from a reservation near the school with no earthly possession except the clothing she wore.

Upon being admitted to the school each girl was issued five complete changes of clothing. After this particular girl received her clothing allotment, she was directed to go to her room and dress before returning to the dining room for supper.

When she appeared for supper she had on every garment which was included in the five changes.

IN FRIONA

Makeup Clinic Scheduled For Type III Sabin Vaccine

Persons who have not had Type III Sabin Oral polio vaccine will have an opportunity to receive it Sunday in Friona at the Meeting Room of the Farmer County Community Hospital. The makeup clinic will operate between the hours of 1 p.m. and 4 p.m.

County health officials reported that 2,545 persons took the Type III vaccine at three county clinics last Sunday. The number was 642 less than took Type II six weeks ago, and represented about 80 per cent of that total.

"We were told by the people who sell us the vaccine that most places are averaging about 75 per cent participation in Type III, so we were pleased with the turnout," said Dr. Lee Spring, one of the mass immunization officials.

Friona's total showed the biggest drop, percentage-wise. A total of 1485 took Type III vaccine in Friona, Sunday, which was 75 per cent of the total of 1963 which took it on January 13.

Bovina showed a total of 784 taking Type III, which was 86 per cent of the number (905) which took Type II, and Laz-

budie reported 276 persons taking the vaccine, about 90 per cent of it's last turnout of 319 six weeks ago.

"This will wind up the three-year mass immunization program. All persons who have

missed any of the three types of vaccine are urged to contact their doctor and arrange to take them, so as to have complete protection from polio," an official of the Farmer County Medical Society said.

Friona Fire Rate Due Five Per Cent Slice

Friona residents' fire insurance premiums will get a five per cent reduction effective April 1, it was announced by Dan Ethridge of Ethridge-Spring Agency.

"We just received notification this week that Friona's fire record credit goes up from 10 per cent to 15 per cent," Ethridge said, pointing out that this would embrace all fire insurance by all companies writing insurance in the city limits. The fire insurance credit is based on a history of the last five years. In this case, the years included in the "history" are 1958-62.

As an example of how Friona's fire insurance costs

will be affected, if a person had \$100 in fire insurance premiums in 1962, 10 per cent was deducted, since that was the city's fire record credit. Beginning April 1, the deduction would be \$15 per \$100.

The five per cent increase in fire record credit is the most a city's record can advance in any one year. Also, it can suffer setbacks, but no more than five per cent each year. The most credit a city can have is 25 per cent, and the worst penalty it can have is 15 per cent, a 40 per cent spread.

The exact saving the new rate will mean for Friona residents is not available, but it should total several hundred dollars, observers said.

Smith Rites Tuesday

Funeral services for Mrs. Veda Denham Smith were conducted from First Baptist Church at 2:30 p.m. Tuesday. Rev. Bill Burton, pastor, was the officiating minister. He was assisted by Rev. Russell Pogue, pastor of Petersburg Baptist Church.

Pallbearers were Lloyd Shulk, Dick Habbings, Kermit Deaton, Hubert Singleterry, Sam Williams and Roy Beardain.

Mrs. Smith was born June 12, 1890 in Van Alstyne, Texas and was married to J. M. Smith in Hobart Okla. The Smith family moved to Farmer County in 1928. Mr. Smith died here in 1952.

Survivors include two sons, Denver Smith of Friona and Denham Smith of Amarillo; four brothers, Emery Denham, Phoenix, Ariz., Joe Denham, Snyder, Okla., Dave Denham, Oklahoma City and John Denham, Council Bluffs, Iowa.

Burial was in West Park Cemetery, Hereford.

MAN FROM MARS? . . . An unusual appearance the last few days in Friona has been this employee of Southwestern Public Service, who has been busy pruning trees which were obstructions to utility lines. He has made an eerie picture silhouetted against the sky as he went about his business in his "space capsule."

a good beginning. . .

Many a successful career in farming, ranching, livestock management, and related enterprises has begun with the showing of a calf, pig, or lamb in a junior Livestock Show.

Yes, it is in these beginnings that the student so often has learned the value of sound management, selection and care of the project at hand and finally... the growing profits!

MAKING REPAIRS . . . City employees have been busy lately repairing holes in city pavements caused by the recent freezing weather. Here, Pete Hollis is busy making a repair on North Main.

"Never before in our history as in recent years have the American people so complacently accepted handouts and returned to ask for more and more of the

same. We wonder what has happened to the American spirit when our forefathers did not receive tax aid from the Federal government when they

built this country--its roads, schools, homes, hospitals, etc. They used their own savings and they used the taxes collected at the local level.

"This country has been at the present rate, it's slowly ebbing away with the lack of character, respected work and working for self-respect."

NEW BUILDING SITE . . . Granville (Red) McFarland indicates the spot where the new Farmer County Implement building is to be erected. Steel arrived for the new building this week, which will be located on West Highway 60.

Witnesses Host Circuit Supervisor This Week

Boyd Lowery, presiding minister of the Muleshoe congregation of Jehovah's Witnesses, announced the circuit supervisor, M. C. Harbeck, is making his regular visit of the Muleshoe congregation the week of March 5-10.

Highlight of the week comes on Sunday, 3 p.m., when Harbeck gives the public talk, "Is Your Destiny of Your Own Making?" A congregation Bible study using the Watchtower magazine as an aid, and final

remarks by Mr. Harbeck will bring the week's activities to a close. All meetings will be held at the Kingdom Hall, in Muleshoe. All persons of good will are welcome.

Change, not habit, is what gets most of us down; habit is the stabilizer of human society, change accounts for its progress.

FINISHING TOUCHES . . . Workers are shown laying the final concrete for the foundation of Friona's new overhead water tower. Good weather allowed the operation to be completed in relatively short order.

Anthony To Conduct A Session At Amarillo Sorghum Conference

A. W. (Dub) Anthony, Jr. of Friona, past president and current vice president of the Farmer County Sorghum Producers Association, will have charge of the second day's session of the Grain Sorghum Research and Utilization Conference March 12 and 13.

The conference, expected to draw some 300 research and education leaders from more than 25 states and several foreign countries, will be held at the Holiday Inn West in Amarillo. It is sponsored by the GSPA.

Anthony, who is vice president for Research and Education of GSPA, will be chairman of the session which will range from discussion of agricultural engineering to foreign markets and from feed milling to transportation. Producers Grain Corporation's Traffic Manager, Paul Mills, will review transportation in the space age and point out the evolution now underway in grain sorghum distribution.

Elbert Harp, President of the Association said that "the Conference is designed to provide a meeting place for an 'across-the-board' exchange of information on research and development which may lead to expanded research programs and eventually, wider grain sorghum use."

Opening the session under the chairmanship of Dr. H. O. Kunkel, newly named Associate Director of Texas Agricultural Experiment Stations, will be Dr. Philip J. Leyendecker, Dean and Director of the College of Agriculture, New Mexico State University.

A review of the past achievements of research in the de-

velopment of the grain sorghum industry and a challenge to stepped-up future research programs for both production and use will be made by Dr. F. R. Senti, Director of Northern Research and Development Division Laboratory, Peoria, Illinois, and Bill Nelson, Executive Vice-President, GSPA.

The work being done at Texas Technological College on the use of all-concentrate grain rations under the leadership of Dr. Ralph Durham, Head of the Department of Animal Husbandry, will be reviewed by him at the Conference.

Since foundation stocks for the development of most sorghum strains have originated in either India or Africa, the potentials for new developments coming from those areas will be reviewed by Dr. John H. Martin, U.S.D.A., Beltsville, Maryland and Dr. Orrin J. Webster, U.S.D.A., Agronomist, Lincoln, Nebraska.

Allenby White, Chairman of the Grain Sorghum Group of the American Seed Trade Association, and Vice President of Northrup King of Minneapolis, Minnesota will chair the entire afternoon session of official research progress reports of work under way by national U.S.D.A. researchers and those under auspices of individual seed companies in the seed trade industry. These will range all the way from 4-dwarf

sorghums to development of disease-resistant sorghums by speakers from Texas, Arkansas, Mississippi, Kansas and Nebraska.

The only wet-milling process plant in the world is located in Corpus Christi, Texas, operated by the Corn Products Company. Dr. Albert L. Elder of that company will be at the Conference to discuss the process.

(Continued on next page)

THE HIGH PLAINS FARM AND HOME

Sesame Meeting Set Monday In Bovina

The prospect for making bonus profits growing Sesame on diverted feed grain land has caught the attention and interest of area farmers.

To explain the program and sign up Sesame acreage for 1963, a special meeting has

been scheduled for Bovina, Monday, March 11. Meeting time is 7:30 p.m. at the school cafeteria. Robert L. Parker, Executive Vice-President of Texas Sesame Growers, Inc., Paris, Texas, will be on hand to conduct the meeting.

In terms of money, this means for example that a farmer with a 4000-pound base yield signing up 20 per cent diversion can choose to collect \$6.34 per acre and grow a Sesame crop worth probably \$85. - \$90. per acre, instead of simply collecting \$15.84 per acre for

leaving his milo land idle. For added insurance, if a farmer should lose his Sesame stand before June 15, the original full milo diversion payment can be re-instated.

Top Sesame yield for the entire High Plains went to Olton, area farmers Roland and Clyde Ray Green this year. Their Sesame produced 1073 pounds of seed per acre. Average price in 1962 for No. 1 quality Sesame was a record-breaking \$11.12 per hundred pounds.

An added feature at the meeting this year will be color movies showing the new one-man self-feeding combine attachment in action. This new harvester attachment eliminates about 60 per cent of the harvest labor. It was successfully used to harvest more than 1000 acres of shocked Sesame in 1962.

County Agent Deryl Coker will be in charge of the meeting, which is sponsored by Cummings Farm Store of Friona. Everyone interested in the new Sesame program is invited. Coffee and doughnuts will be served.

FOOTSAVING EDUCATION

by James E. Edwards

Did They Get Too Narrow?

One of the difficulties of keeping children's feet well fitted in shoes is the fact that toes don't grow. THEY GROW ONLY ABOUT AN INCH IN A WHOLE LIFETIME.

This means that when the end of the great - toe moves forward in a well-fitted shoe until the "thumb's width" allowed for growth is all used the growth of THE MASS OF THE FOOT HAS PUSHED THE TOES FORWARD.

This same process crowds the widest part of the foot forward into the narrowing part of the shoe. Thus, SHOES THAT ARE TOO SHORT ALWAYS SEEM TO BE TOO NARROW.

512 MAIN
CLOVIS, N. MEX.

WITH THE COUNTY AGENT

DERYL COKER

Those of you who may be interested in growing Sesame can attend a meeting on March 11 at the Bovina school at 7:30 P.M. 1 Sesame can be fitted into your farming operation it could be more profitable than in years past. If Sesame is grown on diverted grain sorghum acres, you can still draw 40% of your diversion payment, and also draw the 29¢ per hundred pounds on your base yield.

March 12 and 13 some 300 scientists and agriculture leaders from over 25 states and several foreign countries will gather in Amarillo at the invitation of the Grain Sorghum Producers Association. This, the third such meeting, is designed to provide an "across-the-board" exchange of information on research and development which may lead to expanded production, marketing, and utilization research on grain sorghum -- and ultimately greater use. All interested are invited to attend the meeting at the Holiday Inn, West in Amarillo.

The Farmer County Wildlife Assn. which is made up of some 75 individuals are trying very hard to speed up the stocking of pheasant in the county. I certainly believe this as a very good thing and hope that all farmers in the county will support and help this Assn.

A great number of farmers are signing up to buy or trade grain for 10 pheasants, and if you are interested, I would be glad to take your name.

If every farmer in the county would release 10 pheasant, no doubt we could have a hunting season in a few years.

It seems that most of us are interested in results, so here is the irrigated Sorghum Performance test conducted at Bushland by the Southwestern Great Plains Field Station.

* Stand poorer than most plots. Poor Stand not necessarily due to variety or seed but may be due to location in test. Test planted June 7, 1962, received 6-inches of rain following planting, resulting in variable stands and high error.

Annual Grain Conference Scheduled March 15-16

Everything from cattle feeding to air conditioning will be discussed at the 9th Annual Grain Drying and Storage Conference, set for March 15 and 16, in the Student Union Building at Texas Tech. The portion of the program dealing with cattle feeding is new this year and was added to help answer questions of the grain dealers as the livestock feeding industry develops on the South Plains. Speakers on this phase will be: Dr. Robert Schoeff, Formula Feed Specialist of Kansas State Extension Service, who will be discussing the Mill and its Technical Services, Tom Simmons, Lubbock cattle feeder and elevator operator, will explain feedlot layout, investments, and materials. Cattle turn-over, source of supply, types and qualities will be reviewed by Dr. Ralph Durham, Head of the Animal Husbandry Dept., Texas Tech and Dr. John McNeely, Agriculture Economics Dept., Texas A & M, will round out this morning session with a summary of the marketing of cattle in Texas.

Two panel discussions in the afternoon will fill the agenda for the first day. The first panel will be entitled, "Elevator Maintenance and Good Housekeeping" and it will cover such subjects as -- inspection and repair schedules on motors, belts, augers, bearings, legs, controls, scales, and other equipment. Maintenance records on equipment will also be aired. Price Hobgood of the Agriculture Engineering Dept., at Texas A & M will lead the discussion with M.D. McKinney of the Garvey Elevators, Henry Flenner of Uhlmann Elevators, and John Odum of Millers Ma-

tual Fire Insurance Co. assisting.

The second panel will have as its subject, "Quality Control". A close look will be given to grain storage, inspections, fumigations, blending procedures, use of aeration and protein level identification. Bill Allen of the Texas Agricultural Extension Service will lead the discussion and he will be joined by Bill Simmons, Producers Grain Corp, Dr. Don Ashdown, Texas Tech, Ray Arntis, Lubbock Grain Exchange, and David C. Weaver, Weaver Grain Company.

B. A. Burquest of the Frontier Chemical Co. will open the second day by reviewing

Interplanting On Skip-Row Cotton Proves Rewarding

Interplanting of other crops in skip-row cotton operations could well prove to be another way to increase individual farm income. This fact is shown by an analysis of skip-row planting tests conducted in 1962 by the High Plains Research Foundation of Plainview. Of ele-

ven different skip-row systems tested, six involved interplanting of grain sorghums, soybeans and castorbeans on skipped rows, and results generally show a higher gross income from these interplanted plots. The tests were conducted in an effort to determine how best to take advantage of the Department of Agriculture's 1962 ruling which permitted farmers to count against acreage allotments only land actually devoted

to cotton in any skip-row system. A similar policy has been announced for the year 1963, but could be changed in any future year at the discretion of the Department. Prior to 1962, any system which skipped less than four rows was considered to be solid cotton for acreage allotment and marketing quota purposes.

In eight of the eleven High Plains tests, both cotton and the interplanted crop showed yield increases over solid planting. Cotton production was increased in all of the tests, as was production of castorbeans. Soybeans showed an increase in all but two of the tests, while grain sorghum yield was improved in all except one. In each test, the skip-row system was followed until a maximum of one acre of cotton was planted. The remaining land in the three-acre plots was planted solid to the interplanted crops or left fallow on those plots where interplanting was not utilized. Obviously such tests do not reflect returns on a total land use basis, but can be used in a general way for adaptation to an individual farm.

The second highest return came from a system using two rows of cotton interplanted with two rows of castorbeans. Cotton in this test yielded 716 pounds of lint, showing a 10 per cent increase over solid planted plots, and castorbeans yielded 2481 pounds per acre, which was 76.7 per cent greater than solid planting yield. It should be noted that insufficient water was available for solid planted castorbeans used for comparison, which could account for at least a part of the large increase shown.

Lowest gross return for any of the interplanted tests was received on a plot where four rows of cotton were interplanted with two rows of other crops.

While the High Plains tests cover only one year, similar results have been obtained by other tests at Texas Agricultural Experiment Stations at Lubbock, Big Spring and Spur. Farmers who wish to consider interplanting should contact any of these experiment stations or Plains Cotton Growers, Inc. of Lubbock for additional details.

Production and harvest costs were not taken into consideration in comparing the various systems in these tests. Costs, grain sorghum base, cotton allotment, irrigation water available, and diverted acreage payments are among the factors that must be considered in choosing the system best suited to a given farm.

PARMER COUNTY WINNER in the 1962 DeKalb Selected Five-Acre Yield contest was Kenneth Christie, (L) with a yield of 8,091.76 pounds with DeKalb F-63. Second-place winner was Keith Brock (not shown), with a yield of 7,997.34 pounds with DeKalb F-63. Third-place winner was J. W. Wright, with a yield of 7,752.93 pounds with DeKalb F-63. Christie and Wright are shown at a recent awards banquet where they received their awards.

Annual Grain--

(From page A)

a research paper on "The Distribution of Gas in Grain Masses." Following will be a panel discussion on the "Use of Conditioned Air for Maintaining Quality of Stored Grain." Participants will be W. E. McCune and Ronny Sorenson of Texas A & M and Pete Whitlow, Manager, Happy Elevators of Happy. There will also be a panel discussion of "Grain Drying and Aeration."

A noon luncheon in the Student Union Ballroom will close the convention. Ray Bowden, Executive Vice-President of the Texas Grain and Feed Association of Fort Worth, will give the farmers, elevator operators and others present an insight into the future at the luncheon when he speaks on "What is ahead in the Grain Business."

Everyone interested is invited to attend all sessions of the conference.

GSPA Pushes Research For Midge Control

The Grain Sorghum Producers Association, through its president, Elbert Harp, and vice president for research and education, A. W. (Dub) Anthony, has begun a push for establishing research leading to control of the midge, according to a recent newsletter published by the GSPA.

Midge -- the pesky little microscopic insect that cost many farmers 20 to 50 per cent of their 1962 sorghum production, also knocked up to 1,000 pounds per acre off expected seed yields of commercial companies.

No studies as to habitat, wintering areas, host plants, insecticide or other factors leading to midge control are now underway by the U. S. Department of Agriculture, or Land Grant colleges in the entire "Sorghumbelt."

Ironically, a representative of the Texas Agricultural Experiment Station asked the association and other industry groups to consider putting forth token funds to initiate such studies as much as five years ago -- ahead of any area damage -- but through complacency on the part of farmers, seed producers, grain dealers and

others now suffering loss -- funds were not generated.

In an effort to help correct this, the seed industry at a recent conference named M. D. Lacy, Waco, to work with GSPA officials in seeking the initiation of the midge control research. Report number 2257 of the TAES, Lubbock, says, "With the exception of the early-maturing hybrids, all other hybrids planted (after April and May) suffered grain damage." The need for producer-trade-industry push for midge control is here.

A special account has been established by the GSPA to receive trade and industry funds as a voluntary investment along with our producer funds to initiate interim studies in accordance with a USDA-TAES project expected to be submitted for approval within the next two weeks.

Antohny--

(From page A)

tential for further industrial expansion in the utilization of grain sorghum.

The United Kingdom has consistently been one of the large foreign users of grain sorghum. W. R. Muir, Esq., B.Sc., Chief Nutritional Adviser, Glaxo Laboratories, Ltd., Greenford, Middlesex, England, will relate the experiences in the use of grain sorghum in the United Kingdom.

One of the highlights of the entire two-day session will be an Awards Dinner Tuesday at 7 p.m. at which five individuals who have made outstanding contributions to the grain sorghum industry will be named and presented awards by the Association.

cost \$150.00 cost \$36.00

Twelve Geese do Work of One Man

It has been estimated that twelve young weeder geese, properly managed, will replace the work of one man and hoe. Substitute your cost for hand labor (\$150.00 is probably low for most sections of the country) to obtain an idea of how much you can save. Cost of \$36.00 for twelve geese includes costs of purchasing goslings, brooding, supplemental feeding, etc. for an average cost of \$3.00 per goose per season. The returns from marketing the geese should be deducted which will make the actual cost far less than this figure. (Courtesy J. H. Williams, Natchitoches, La.)

BIG REASON FOR ■■■ ELECTRIC CLOTHES DRYING LABOR SAVING!!

Lugging, tugging, stretching and straining on a windy, cold day isn't the best way to dry clothes. Certainly, you'll agree that it's easier to pass the clothes a step or two from your washer to your electric clothes dryer -- no effort at all. And, it's so nice to dry clothes when YOU want to. An electric clothes dryer lets you do just that.

Now, here's a "plus" -- buy your electric clothes dryer now at your participating Reddy Kilowatt dealer and get the Toastmaster steam and dry iron and the portable ironing board that folds flat -- fits in a suitcase. Available to Southwestern Public Service Company customers.

Efforts Intensified To Help Farmers Conserve Water

Efforts are being intensified by the High Plains Underground Water Conservation District to meet and work with irrigators throughout the District who have trouble keeping water on their land.

According to Tom McFarland, General Manager of the High Plains Water District, it is difficult to irrigate excessively sloping land. At the same time, a farmer who owns excessively sloping land and still has strong wells, feels that he must produce an irrigated crop on the land to make it pay dividends.

McFarland points out that here is where the problem lies - how can the irrigator ade-

quately water his land and at the same time retain the irrigation water on his own farm.

The Water District has been working on this, a major problem facing many irrigators, for several years, but especially during the past year.

McFarland says that many methods are presently being used by farmers in the area to alleviate waste water problems. Even though he knows that each farm has individual and distinct problems, by utilizing one or a combination of the several methods of conservation which are being successfully used, he

believes that waste water problems can be minimized.

Wayne Wyatt, District Field Representative, and McFarland have been spending much time in Bailey, Castro and Farmer Counties where heavy soil and large capacity wells are prevalent and conducive to waste problems, visiting with irrigators in an effort to help solve waste water problems. They have expressed their anxiety for all those in the Water District who have waste water problems, to meet with them in an attempt to make water use more efficient on individual farms.

To prolong the irrigated-agriculture economy of the southern High Plains is the desire of all who live in the area. Working together on the problems that would tend to shorten the economic life of the supply of underground water is just good common sense, which is after all, "water conservation."

Hart Animals Get Rare Certificates

Three Performance Registry International Certificates, certifying Performance Gains have been received by Dale & Laura Hart on three of their Registered Polled Milking Short-horn calves, P. R. I. of Denver, Colo. states that this is the first herd of Milking Short-horn or of Dual-Purpose Breeds to ever be entered in P. R. I. These three Hartsdale calves was also the first Dual Purpose animals to qualify for and receive the Performance Registry certificates.

The three, two bulls and one heifer had an average weight per day of age of 2.38 pounds. They weaned at an average of 239 days at 570 pounds with an actual daily gain of 2.09 lbs. Their adjusted daily gain was 2.19. These all surpassed the P. R. I. Standards by a good margin. The two bulls each received a 99 and the heifer 102. Hartsdale Polled Milking Shorthorns are to be featured in a coming issue of POLLED PROGRESS, a nationally circulated Triton publication of Polled Cattle.

WESTERN TIME
1316 Main - Clovis

An old farmer made a trip to the city and decided to startle the wife by appearing in brand new raiment. To save wear on the new suit he placed it in the back of the wagon. A few miles from home he took off his old clothes and tossed them off a bridge into the river.

Reaching for the new clothes, he was surprised to see that they had dropped out of the wagon and were floating down the river. "Giddap, Maude," yelled the old man, pulling down his shirt-tail as he realized his plight. "We'll surprise her anyhow!"

Careful Use Of Agricultural Chemicals Is Recommended

The "secret" of avoiding poisoning farm animals, or any other crop, with agricultural chemicals is to follow directions on the container, a Texas A&M College veterinarian says. This tongue-in-cheek advice comes from Dr. R. D. Turk of the Veterinary Parasitology

MEMBERS OF FRIONA FFA display the plaque they won for being the second-place judging team in their division at the Southwest Duroc Congress at Lubbock recently. The chapter

also was awarded a fine Duroc gilt, which will be presented to a chapter member who enters the best essay in a forthcoming contest.

Put stale or dry rolls in a pressure cooker with a very small amount of water. Bring the pressure up and let it cool before you remove the rolls. This makes them fresh-tasting again.

"Sorry, sir," said the ship steward, "but you can't be sick here." The passenger regarded him weakly for a moment. "Watch," he said.

Department, a speaker at the 12th annual Texas Agricultural Aviation Conference held at A&M.

Dr. Turk paraphrased the old axiom: "When everything else fails, try following the directions."

But then there are always persons who feel that a little bit is good, a little more is better, he said.

"We have the cropduster who turns over a lake without shutting off the spray or dust, and dead fish result," he said. "We have them turn over pastures where cattle are grazing, or over fields of forage crops, and we even have some who poison themselves. However, these incidences are becoming fewer and fewer."

Referring to current unfavorable publicity about alleged effects of pesticides upon humans, livestock and wildlife, Dr. Turk posed this question to the 200 persons attending the conference: "Do we need chemicals?"

"If you have ever seen a many bull, a bollweevil infested cotton field, or a good pasture eaten up by army worms, the answer must be yes," he said. "Some persons say we don't need chemicals.

Actually, we don't need meat, clothing, automatic washers, and many things."

The veterinarian cited statistics showing how chemicals have made U. S. farm production the world's best, and how chemicals have improved human health. But he added that chemicals can be improperly used.

"Certainly chemicals are dangerous. So are automobiles, airplanes, electricity and even bathing. Did you know that last year twice as many deaths were caused by misuse of aspirin as from agricultural chemicals. There were a few dozen people killed by chemicals. More than 35,000 deaths were caused by automobiles," Dr. Turk said.

The seven-year-old fisherman aspirant accompanied his father to a stream and wandered off for a walk. A few minutes later the father heard a strange cry of anguish, and found a man hopping on one foot, caressing the other foot, and groaning with pain.

"What's happened?" asked the father.

"I guess it's my fault," said the seven-year-old. "This man told me he hadn't had a bite all morning - so I bit him."

Cattle Market Continues On Its Downward Trend

The fed cattle market continued on a downward trend in February.

A slackening in demand for beef appeared to be the primary factor in the lower market, according to the latest monthly summary published by the Cattle Feeders Division of the Texas and Southwestern Cattle Raisers Association.

Lloyd Bergsma, director of the Cattle Feeders Division, said supplies have not been particularly burdensome under normal conditions, but reports from packers indicate that beef is difficult to move. There has been an air of pessimism in all segments of the beef industry, and price forecasts for the next 90 days have been mostly toward lower prices.

Markets in Texas have not been as depressed as in the Midwest, and this has resulted

in rather heavy shipments of both dressed beef and live slaughter cattle.

Good and choice slaughter steers weighing 950 pounds and up declined \$2.50 to \$3 per hundred weight during the month. Fed calves have been in best demand but this class of cattle has also been affected by the price declines, and packers have generally become more weight conscious in purchasing fed calves. Calves under 600 pounds were in best demand. Standard and good calves were bringing mostly \$22 to \$24.50 the fourth week in February with special sales up to \$25. Good and choice steers 950 pounds and up were moving at \$22.50 to \$24.50 during the same period.

Wholesale beef prices have been generally lower during the first four weeks of February.

The undertone of the market has been weak and even lighter supplies have failed to push prices upward to any degree. The fourth week of February, choice steer beef 600-700 pounds was selling in Omaha at \$38 to \$38.50 compared to \$41.50 to \$42 four weeks earlier. Choice heifer beef at Omaha was down \$2.50 and good declined \$2.75 during the same period. At Denver, choice heifer beef was down to \$37 to \$37.50 compared to \$41 to \$41.50 at the close of last month. Steer beef at New York, choice 600-700 pounds, moved at \$40.50 to \$41, down \$4 to \$5 during the first four weeks of the month.

At Houston, choice steer beef, 400-700 pounds, sold during the same period at \$42 to \$42.50, down about \$3.50 per cwt, during the four week period. Calf at the same market sold at

\$41 to \$43.50 for good 200-375 pound carcasses. This compares with \$42.50 to \$44 four weeks earlier. Standard calf during the same period declined \$1.50, all on the top end of the quotation.

Feeder cattle prices have not followed the lower price trend of slaughter cattle. There has been some price weakness in feeder cattle prices, but only on the heavier weights and lower grades. The lighter weight, good quality calves have been fully steady to strong during the month.

BEWARE FLYING golf balls. A nationwide survey made by the Institute for Safer Living reveals that more than 15,000 golfers, caddies and workmen were hurt in golf accidents in 1961. Swinging clubs, heat prostration and lightning bolts took their toll but, the report states, at least half the injuries were caused by the golf ball itself, striking victims at speeds around 200 m.p.h. . . . TWIST marathon dance championships in Harlow, England are supervised by an "official Twist Board of Control." The board lists minimum movements and sets official standards.

"Cross-Compliance" Provision Is Important In F-G Program

The "cross-compliance" provision of the 1963 feed grain program is important to producers, stated Prentice Mills, office manager of Farmer County ASCS this week. Growers participating in the program will be required to meet the cross-compliance provisions in order to qualify for any of the Program's benefits.

The term "cross-compliance" means that a farmer taking part in the 1963 feed grain program will not only reduce the feed grain acreage on the participating farm by at least the minimum 20 per cent of the feed grain base acreage, but he will also not exceed the feed grain base acre-

age on other farms in which he has an interest in any of the three feed grain crops.

A farmer (this also includes the landlord or owner) who has an interest in the corn, grain sorghum, or barley crops on more than one farm would not have to divert feed-grain acreage into a conserving use on all his farms in order to qualify for payments and price support on one farm. But, if he wishes to obtain the benefits of the feed grain program by diverting acreage on any one farm, he will have to hold his acreage of the three feed grains on his other farm within the base acreages of those farms, Mills said.

Failure to cooperate with the cross-compliance provisions of the feed grain program, would result in loss of the diversion and price-support payments, as well as loss of eligibility for the regular price-support loan

on corn, grain sorghum, and barley.

Producers who are giving thought to participating in the program are urged to get in touch with the ASCS office at an early date. The program sign-up is now under way. Approximately 70 per cent of the producers in Farmer County have signed to-date. Deadline for signing up under the program is March 22.

Beef Team To Attend Convention

The state winning 4-H club beef business demonstration team will delve into the whys and wherefores of the beef industry in the Southwest in a 4-H demonstration which will highlight the Tuesday morning session of the Texas and Southwestern Cattle Raisers Association's annual convention in San Antonio, March 18-20.

Team members Dewey Smith, Jr., of Edinburg and Walter McCay of La Blanca followed the movement of beef from the ranch, to the feedlot, through the market, to the packers and into the meat counter in gathering information for the demonstration.

Their findings will be described and illustrated in the demonstration which last year was judged best in the state. The team is coached by Mr. and Mrs. Dewey Smith of Edinburg.

The 4-H members' presentation will be one of several pertinent subjects which will be covered by leading livestock authorities at the convention, according to Joe Fletcher, TSCRA secretary - general manager. Headquarters will be in the Gunter Hotel.
