

Since "Beatlemania" has been sweeping the country for the last few weeks, we'll have to get our two-bits in on the subject. After seeing and hearing England's four youthful ambassadors on TV shows lately, we think they might be pretty good if given half a chance.

In the first place you can hardly hear them over the screeching and wailing of America's young girls. They just didn't affect us that way... maybe we're showing our age.

It seemed that it might be nice, just once, to sit back and listen to the Beatles good rhythm (or "beat" as it's known in less-square circles) and sort of enjoy the music without all that ear-piercing screaming.

Personally, we'd like to hear them try some folk ballads along the line of the Brothers Four or the Journeymen. With their unique rhythm and harmony they should do all right in the ballad field. England has a good backlog of folk music for them to work on and it might be interesting to hear some of the old English folk tunes modernized.

We've been wondering just how welcome the Beatles have felt on American shores. Since they stepped off the plane, they've been besieged by wild kids trying to tear off their clothing for souvenirs and they've been the subject of much criticism from the country's older generations.

We don't see how either extreme could be very comfortable for these four nice looking fellows with the English sheep-dog haircuts. Except for their shaggy hair-dos, they seem much like any other fairly-talented group in show business.

But whoever heard of a group of teen-agers screaming and palpatating over the Crosby Brothers or the Four Lads. We didn't realize a hair-cut (or lack of one) could make that much difference.

Anyway, it seems that Beatle wigs are the latest thing sweeping the markets in larger towns. It looks like it would be a lot easier and less expensive just to skip your next three hair-cuts, but by that time "Beatlemania" may be a fad of the past and anyone sporting a shaggy head would be considered a "drag."

We would like to take space here to thoroughly disagree with other members of the press who compared the Beatles to Elvis Presley at the peak of his popularity.

The vulgar gyrations and blubbering sounds of that young man should in no way be connected with the Beatles who do little more than pat their feet during the course of a performance.

There's about as much similarity there as there would be between Bobby Darin and the Mitch Miller Gang.

If England's young girls act the same way as America's, probably the Beatles have felt right at home. If not, just think what wild tales they'll tell in England about the savage kids that inhabit the Colonies.

And of course, what America's children do reflects on the parents. What the parents let their kids do reflects on the country as a whole.

We'd like to put in a good word here for good-old-fashioned applauding. We'd even sanction a nice loud two-finger whistle if the performance is good enough... and, from what we've seen of the Beatles, they're good enough.

One thing we haven't mentioned much concerning the Friona Squaws which is the fact they have been rated the number one team in the state for Class AA by the Texas High School Girls Basketball Coaches Association.

They were rated first as early as December, and the latest issue of their state publication still had the team in the number one spot.

So far, the team has lived up to its billing in fine fashion.

Speaking of the Squaws, Coach Duggins points out that Nita Wilson, the Post star (averaging 30 points per game), has had a personal ambition for several years to beat Friona. Last

NEW CONTRACTS . . . The three Friona school principals and counselor Baker Duggins receive new two-year contracts this week. Shown with Superintendent Alton Farr, they are, left to right, Tom Jarboe, J. T. Gee, Raymond Cook and Baker Duggins.

TO ACT MONDAY

Commissioners Postpone Action On 'Bookmobile'

Parmer County commissioners, meeting in special session Tuesday, failed to act on a proposal which would give the county more than two years of free library service through the Texas State Library and its bookmobile program.

The commissioners deferred action on the proposal until its regular meeting Monday.

Charles Gholz, field consultant with the Texas State Library, explained to the court that it would be under no obligation to accept the permanent

bookmobile program at the end of the two years. Parmer County is merely being asked to give the program a two-year free trial.

Bailey County commissioners approved the program at its special meeting last Friday. The TSL officials are hoping to get four or five counties in the area to endorse the program and receive the bookmobile service.

However, Gholz emphasizes, each county is its own judge as to whether it wants to un-

dertake its share of the yearly expenditures at the end of the two-year "demonstration" period. If a county didn't feel that interest in the bookmobile service warranted its participation, it would not have to accept the program.

Gholz explained that by accepting the proposal as quickly as possible, Parmer County could begin receiving bookmobile service within the next two months, extending the "demonstration" period to more than two years, including the balance of the year 1964.

"You've been paying for this service all along, through tax money to the Texas State Library. You'd be foolish not to begin reaping some of the benefits of the program," Gholz told the commissioners.

Commissioners felt that it would be best to delay the decision for a few days to give them an opportunity to hear views of county residents. Several organizations endorsed the plan through representatives at the meeting, including Friona Chamber of Commerce,

Friona Modern Study Club, Parmer County Home Demonstration Clubs, Farwell Study Club, Bovina Woman's Study Club and Parmer County Farmers Union. Gholz told attendants that one of the missions of Texas State Library is to improve libraries over the state. The demonstration, as the program is called, is paid for by tax money.

If the county accepts the proposal, the Texas State Library foots the bill the first two years; the third year, the counties assume the purchase of a bookmobile, books and materials and gas and oil for the vehicle and the state agency handles salaries, supplies and processing of books.

The fourth year, the program is assumed by the counties, with the state supplying the consultant service if needed. Also, for every dollar spent on books, the state will match it, says the representative.

According to Gholz, five (Continued on Page 2)

COACHES RE-HIRED

Three Friona Principals Given Two-Year Pacts

The Friona School Board set the annual trustee election as April 4 at its regular monthly meeting Monday night. Deadline for filing is March 4. Three members of the board have terms expiring. They are Glynn Don Hughes, Cordie Potts and Ralph Shelton.

The three school principals and counselor Baker Duggins were given new two-year contracts. The principals are Raymond Cook, high school; Tom B. Jarboe, junior high; and J. T. Gee, elementary school.

The three high school coaches, Don Light, C. W. Dukes and Bob Owen, had their contracts renewed for a year.

In other business, Bill Boykin of Columbia Securities Bonding Company met with the board, and gave several schedules for the board's consideration in connection with the school's proposed building program.

The board called a special meeting for Friday afternoon, at which time it will meet with architects to discuss possibilities in the building program.

Cook, Jarboe and Gee have been in the Friona School system a combined total of 57 years. Cook is in his ninth year as a principal, and has been in the system 15 years. Jarboe is in his eighth year as principal and his 13th year with the Friona schools.

Gee is currently in his 29th year with the local school system. He has been elementary

school principal the past five years. Duggins is in his ninth year with the school system. He has held the counseling position the past five years.

Contractor George Taylor appeared before the board and requested that the school cooperate with paving a block on Etta Avenue north of West Sixth Street. The board agreed to consider this request at its next meeting.

It was noted that the school's usual policy on paving requests was to go along with other property owners. However, the board requested the additional time to consider the request in light of the proposed building program on its property adjoining Etta Avenue in the west part of town.

Tax assessor-collector Dan Ethridge reported that tax collections in February amounted to \$81,415.44. Total tax col-

lections for 1963 taxes now amount to 96.5 per cent of the total.

Concerning the school board election, George Baker was appointed election judge. Clerks appointed were Mrs. Bessie Holt, Mrs. R. B. McKee and Jake Lamb. Petitions for prospective candidates are available in the superintendent's office.

Filing Deadline Is Approaching

The final date for filing for the city council election is some two weeks away, and as yet, no one has filed, according to City Manager Jake Outland.

The deadline for filing is March 7. The city election is April 7. Three councilmen's terms are expiring.

JARVIS TO SPEAK

Chamber Banquet On Tap Monday

The annual Chamber of Commerce and Agriculture banquet will be held Monday in the School Cafeteria, featuring Dr. Charles W. Jarvis, humorist,

as the main speaker. Also included on the program will be the installation of the new C-C&A officers, the presentation of the Friona's "man of the year," "woman of the year," and "most courteous employee."

Newly elected officers of the chamber are Raymond Cook, president; Elvie Jennings, vice president; and Gary Brown, secretary.

Porter V. Roberts, manager of the Friona Chamber of Commerce and Agriculture, emphasized the fact that the banquet is not a "members only" affair, but that everyone is eligible and invited to attend. Tickets are \$3.50 each.

Dr. Jarvis, a full-time dentist in San Marcos, believes in the humorous approach to life and his presentations are loaded with humorous stories, jokes, anecdotes, but at the same time carry a message of human relations, public relations, spiritual reward and success.

Some of the groups he has spoken to, and their comments, are as follows:

Downtown Lions Club, San Antonio: "Dr. Jarvis received a standing ovation—something seldom seen in our club. To say our club enjoyed the talk is an understatement."

Texas Consumer Finance Association - "Everyone expressed the same sentiments—thoroughly enjoyed every minute of the address."

Texas Bankers Association - "Impossible to say how well Dr. Jarvis went over at our Annual Bankers Convention recently. Not a dry eye in the place—splendid performance."

CHARLES JARVIS

Some Offices Close Saturday

Some Friona offices will be closed on Saturday in observance of Washington's Birthday.

Among those planning to close are the Friona State Bank and the Post Office.

Postmaster Wright Williams states that while the Post Office windows will be closed, the first class mail will be dispatched as usual, and incoming mail will be placed in the boxes as to the regular schedule.

School Benefits To Wind Up Dimes Drive

Friona's March of Dimes drive hit \$247.28 this week, and will wind up with a benefit basketball game and "Chinese Cake Auction" sponsored by the Friona High School Student-Faculty Congress Friday afternoon.

Last Thursday's coffee day in Friona added \$74.74 to the city's drive. The Mothers' March last week brought in \$167.54.

Friday at the high school gymnasium, the Friona High School seniors will engage the faculty in about "one-half" a regulation game, beginning at 2 p.m. Raymond Cook, high school principal, states that the game would be longer, but that faculty members "did not want to overtax the seniors."

Immediately following the game, the cake auction will be held, with class members competing for cakes.

Ethridge Resigns As School Tax Collector

Dan Ethridge, who began duties as tax assessor-collector with the Friona Independent School District 30 years ago, is resigning the position effective at the end of the current school year, it was announced at the regular meeting of the Friona School Board of Trustees Monday.

Ethridge, in a prepared letter to the board, stated that he desired to devote full efforts to his insurance and loan business.

"I have no ill feelings whatsoever in the matter. We have had wonderful relationships in our dealings with the various school boards which have served the Friona schools," Ethridge said.

When Ethridge compiled his first tax roll for the Friona Independent School District in 1934, it totaled around \$25,000. Today, the district has some 2,000 taxpayers, and the total roll is in the neighborhood of \$264,000.

Ethridge states that he has contemplated the move for some time, and had discussed it with school officials.

"It is with much regret that we accept the resignation of

this public servant. An idea of the thoroughness with which Dan performed his job can be seen in the low list of delinquent taxes on the roll," stated Superintendent of Schools Alton Farr.

The school board is seeking applications for the tax assessor-collector's job.

MARCH 2

Squaws, Post To Vie At Plainview

Friona High School's bi-district girls basketball playoff game with Post has been scheduled for Monday, March 2 at Plainview. The game will start at 8 p.m.

The site will be the high school gymnasium. This is the same gym in which the 1959-60 Squaws met Abernathy in their bi-district game. Coach Baker Duggins said, as an aid to help Friona fans locate the gym.

In the meantime, practice games have been lined up to keep the Squaws in competitive shape. The team will go to Sudan tomorrow night to battle the District 3-A champions. Next Tuesday, the Sudan teams will return the game. Friday's game, a single affair, starts at 7 p.m.

Coach Duggins hopes to have another game scheduled for next week. He has talked with Claude officials, and will play the class B powerhouse if details can be arranged.

The meeting with Sudan tomorrow will be the first since the 1961-62 season, when the Squaws took a pair of two-point

wins from the Hornettes. The latter win was a 48-46 overtime decision in the Tullis tournament. Charlotte Nettles, a sophomore that season, scored the winning basket for Friona in the latter seconds of the overtime period.

About the game with Post for the bi-district championship, Duggins says he looks for the same rugged competition the Squaws had last year when Friona edged the South Plains sextet, 55-53.

"Physically speaking, they look to be the best team we've faced," Duggins said. "They are capable of playing great basketball, but then again, so are we."

Post is led by senior Nita Wilson, who sports a 31-point per game scoring average. The Does have lost just two games this season, one to Idalou in their season opener, another to rival Slaton in the latter's tournament.

The Post team more than avenged the latter defeat, trouncing Slaton twice in district play when their star, Miss Wilson, was out with a case of pneumonia.

DISTRICT CHAMPS . . . The Friona High School Squaws won their district championship for the second straight year and sixth in the past eight years with a perfect 8-0 record. In the back are Glenda McClellan, Wessie Hand, Shirley Phipps, Janet Rushing, Coach Baker Duggins, Tito Jennings,

Charlotte Nettles and Lois Moyer. In the second row are Sharon Dean, Sheryl Long, Carol Struve, Carolyn Herring and Merylene Massie. Sitting are Linda Davis and Rose Ann Greeson.

Black Presides At Amarillo SCS Meet

A. L. Black, vice president of the Association of Texas Soil Conservation districts, presided at a meeting Tuesday involving Soil Conservation supervisors in the Panhandle and South Plains areas.

The meeting Tuesday was in Amarillo at the Holiday Inn. A similar meeting is scheduled today at the Plains Coop Oil Mill in Lubbock.

"Purpose of the meetings is to inspire supervisors and to impress upon them their responsibilities to their Soil Conservation Districts to promote soil conservation," Black said.

Appearing on the program were Harvey Davis, Temple, executive director of the State SC Board. He discussed the organization and responsibilities of the state board.

Also, Aubrey Dairymple, Lubbock field engineer, whose topic was organization and responsibilities of Soil Conservation Districts; A. L. Bading, Temple, executive director of the Association of Texas Soil Conservation Districts, who spoke on the organization and activities of Texas Soil Conservation Districts, and H. N. Smith, Temple, state conservationist, speaking on common problems of the Soil Conservation Service and Soil Conservation Districts.

Frank Gray, Lubbock, state SCS board member, concluded the remarks. Also attending the Amarillo meeting from Friona was Steve Messenger, secretary to the Farmer County SCD.

Star lites --

(Continued from Page 1)

year's defeat by Friona has probably just caused her to want the bi-district win even more.

One of her first basketball coaches was Don Watkins, who also started many of the current members of the Squaws on their road to success.

The other night, Coach Duggins went to scout the Post team. Nita remembered him and struck up a conversation. "I've had pneumonia, and I intend to breathe all over Tito (Jennings)," Miss Wilson told him.

City Pavement Damage Noted

Approximately 17 blocks of pavement in Friona were damaged as a result of the recent heavy snowstorm, it was announced this week by A. L. (Jake) Outland, city manager.

Outland said it was hard to place a dollar figure on the damage. He stated that approximately one-third of the damage had been repaired, but that the city was running low on patching material.

Commissioners

(Continued from Page 1)

according to population of the counties are asked to consider the plan along with Parmer. Bailey County has already voted "yes" to the proposal and has offered to provide a suitable headquarters building with shelving for books, and to pay utilities and janitor service. This is a responsibility for the counties. The bookmobile carries books, and stops are set up in participating counties according to the number of people who use a stop.

Briefly, for the first two years, the cooperating counties provide the headquarters facilities. The Texas State Library provides the bookmobile and all expenses for operation of the vehicle, a well-balanced stock of 8,000 to 10,000 books, the bookmobile librarian and salary and driver and salary and consultative services. If enough money is available, a clerk and salary is sometimes included.

All the books aren't shipped at once -- about 100 a month are added, giving the library new books all the time. Books average about \$5 each, says Gholz.

Actually, if the plan is accepted here, this portion of the demonstration would run for two years and eight months, since a previous demonstration purchased their own bookmobile, releasing a vehicle for use ahead of schedule.

The third year, participating counties together raise a \$14,000 budget, with cost shared

according to population of the counties involved. The budget will include purchase of a bookmobile, \$10,500; gas, oil, \$800; and books and materials, \$2700. Parmer County's share of such a budget could not be determined until it is learned how many counties are included in the plan.

The State Library provides salaries, supplies and book processing, this year also.

The fourth year, however the counties-owned bookmobile is paid for, and the \$10,500 in the \$14,000 budget is then used for salaries, and the counties involved take over the full operation of the service. Gholz says no charge is made to check out books, but users of the service are responsible for loss or damage to books.

He noted that most demonstrations appoint a library board, with one person from each commissioner precinct sitting on the board. Usually, a person is appointed at each stop to be responsible to the board.

Gholz says the state library has had 16 such demonstrations and has five bookmobiles, with the five in use at once in various areas. Roy Davis of Muleshoe Chamber of Commerce, accompanied Gholz to Parmer County.

About 60 people from over the county turned out for the meeting, with representatives from Bovina, Black, Lerist, Oklahoma Lane, Hub, Lazbudie, Friona, Farwell,

Joyce Rodgers Is DAR Good Citizen

Friona Daughters of the American Revolution have named Joyce Rodgers "Good Citizen of Friona High School."

She is sponsored by the Mary McCoy Baines chapter of the Texas Society Daughters of the American Revolution of Plainview.

Selection of the DAR good citizen is a nationwide project with the approval of the National Association of Secondary School Principals. A certificate is presented to the recipient by the national group and a good citizen's pin is presented by the sponsoring chapter.

Miss Rodgers was chosen for the honor on the basic qualifications of dependability, truthfulness, honesty, punctuality, service, cooperation, helpfulness, responsibility, leadership, personality, self control, initiative, patriotism and unselfish loyalty to American ideals.

A senior student in Friona High School, Miss Rodgers is a member of Future Homemakers of America, Future Teachers, National Honor Society and the high school choir and was chosen as Girls State Representative last

JOYCE RODGERS

spring. She is a member of Reorganized Church of Latter Day Saints and is president of her Sunday School class and a teacher of M. I. A. She plans to attend college and major in English or social studies.

Miss Rodgers is a part time employee of Friona Lanes Snack Bar and is the daughter of Mrs. Ollie B. Rodgers, also of Friona.

Girl Scout Troop Has Court Of Awards

A court of awards was held by Girl Scout Troop 268 at the American Legion Hall Monday afternoon. The girls repeated the Girl Scout promise and laws and then were awarded badges they have earned throughout the year.

Nergis Yazgan was guest speaker of the afternoon. She talked about her native country, Turkey, and discussed recreation and school work. Following her talk, Miss Yazgan made Turkish coffee, which was served with cookies to the leaders, Mrs. W. M. Massie, Mrs. Louis Welch, Mrs. Watson Whaley and Mrs. Kenneth Pearson and the following Girl Scouts.

Lupe Hernandez, Denise Cudd, Gay Welch, Barbara West, Susie Spring, Ann Spears, Nancy Scales, Linda Perkins, Patsy McVey, Jayn Massie and Janie Hernandez. Also Amy Renner, Susan Floyd, Jonnye Cudd, Cindy Campbell, Gloria Brown and Regina Duke.

Janice Miller Joins Faculty Of Wayland

A new instructor in mathematics at Wayland Baptist College in Plainview during the spring semester is Janice Miller, daughter of Mr. and Mrs. Roy V. Miller Sr., and a 1957 graduate of Friona High School.

Miss Miller arrived in Plainview recently from Austin where she had been teaching and working on her master's degree at University of Texas, Dean Robert G. Collmer has announced that she will receive her master's this month. Title of her thesis is "Spacing of Information in Polynomial Regression."

She holds a B. A. degree

with a major in mathematics from Colorado State University at Fort Collins, where she was an assistant in the statistics laboratory. At the University of Texas she was a mathematics major and statistics minor. She taught classes in college algebra, trigonometry, algebra with business application and mathematics of finance.

Miss Miller was valedictorian of her graduating class and attended Wayland Baptist College two and one half years before enrolling at Colorado State.

JANICE MILLER

Bridal Shower Fetes Mrs. Larry Moyer

A miscellaneous shower in Fellowship Hall of First Baptist Church from 2 to 4 p. m. Saturday was a courtesy for Mrs. Larry Moyer, who was Virginia Hickman, before her recent marriage.

Valentine motifs and other decorations in red and white were carried out in table and other decorations. Pianoselections were presented by Lois Moyer and Mrs. Dale Smith throughout the entertaining hours.

Guests were registered by Mrs. Jarrell Wright. Refreshments of hot cranberry punch, cake, nuts and mints were served. Hostesses were Mesdames Ralph Smith, Lewis Smith, Lloyd Prewett, T. E. Lovett, John Wright, Jarrell Wright, Lloyd Stephens, Spencer Hough, John Gaede, L. R. White, John L. Ray and Ross Terry.

Those attending and sending

gifts were Mesdames Ira Parr, Johnny Mars, C. W. Dixon, Bruce Parr, Ross Anderson, Roscoe Parr, Earsel Taylor, Ed Hicks, Calvin Talley, Harry Hamilton, M. C. Osborn, Monroe White, Laura Thomas and Leonard Coffey.

Also Mesdames Jim Dixon, George Brock, Curtis Murphree, M. P. Bennett, Charles Allen, Ray White, Joy Moyer, Earl Drake, Clyde Tims, Jimmy White, Virgil Nowell, Dale Smith, Sam Williams, Wesley Hardesty, Jim Roy Clements and C. W. Wright and Janice.

Also Mesdames Charles Russell, L. W. Loafman, Joel Landrum, Roy Miller, Ralph Taylor, Albert Rolan, Dan Lacey, W. G. Burton, Dorothy Hough, W. F. Buske, G. B. Buske, Leon Hart, T. E. Wood, Joe Talley and Dale Hart.

Also Mesdames Claude Osborn, Bud Reed, T. A. Sherley, Velden Carroll, Clyde Hays, John Burrow, Roy Clements, M. E. Hickman Sr. and O. B. Moyer.

Also Lois Moyer and Patsy Hough.

Donna Lewellen Feted With Party

Mrs. Delton Lewellen honored her daughter, Donna, who was observing her ninth birthday, with a party in the family home Saturday.

The serving table was centered with a white heart shaped cake with pink decorations. Individual cup cakes and punch were served following a game session.

Others present were Debbie Benge, Patricia Phipps, Teresa Bingham, Carolyn Murphree, Nancy Martinez, Katie Lewellen, Tonja Goetz, Randy Lou Kelley, Bobby, Donnie, Jody, Jay and Pam Lewellen.

Jeffery Jesko Born Friday

Mr. and Mrs. Larry Jesko of the Lazbuddie community became parents of a baby boy at Parmer County Community Hospital at 6:17 p. m. Friday. He weighed 5 lbs. 5 ozs. and was named Jeffery Stephen.

The Jeskos have another son, Phillip Brian, who is one year old.

Jeffery's grandparents are Mr. and Mrs. Alex Jesko of the Lazbuddie community and Mr. and Mrs. S. V. Chitwood, Friona. Great-grandparents are Mrs. and Mrs. Bert Chitwood, Friona, and Mr. and Mrs. L. B. Seaton, Newton, Kansas.

Mrs. Jesko is the former Dax Chitwood. She and the baby were dismissed from the hospital and returned to their home early this week.

Mrs. Eugene Boggess returned home early Sunday after spending a week visiting in the home of Mr. and Mrs. Guy Welch and daughter, Lisa Lynn, in Houston.

Art Show, Silver Tea Slated For March 1

Plans have been completed for a joint art show and silver tea to be held in the lobby of Parmer County Community Hospital Sunday, March 1 from 2 to 5 p. m.

Works of art by Friona students of Jeanne McGee Studio

of Hereford will be on display. Mrs. McGee, instructor will be the guest artist. There will be a special showing of rural water color scenes by Ben Kosis of New York.

This event is being sponsored by Parmer County Community Hospital Auxiliary.

Mikie Welch In Social Club

Mikie Welch of Friona was recently accepted as a member of Ko Jo Kai Social Club at Abilene Christian College.

Miss Welch, a junior home economics major, is a member of the band and majorette at Abilene Christian College.

The 1962 graduate of Friona High School is the daughter of Mr. and Mrs. Nelson O. Welch, 1001 Maple Avenue, Friona.

Gleaners Class Has Party

Members of the Gleaners Sunday School Class of First Baptist Church entertained their husbands with a valentine party in the home of Mr. and Mrs. Lloyd Prewett in the Black community Thursday evening.

The meeting was opened with a devotional "Helpmate of Man" by Wesley Hardesty. Following a game session refreshments were served.

Those present were Mr. and Mrs. Clyde Hays, Mr. and Mrs. Ed Hicks, Mr. and Mrs. John L. Ray, Mr. and Mrs. Grover Goggans, Mr. and Mrs. Spencer Hough, Mr. and Mrs. Wesley Hardesty and the host couple.

Miss Jimette McLean, a sophomore student at McMurry College in Abilene is a member of the McMurry College Chanters, an A Cappella group, which will be on a nine day spring tour Feb. 22 through March 1.

This group will travel to Corpus Christi, Fort Worth, Galveston, Hamlin and several other towns and will sing in churches and schools in a number of places.

Miss McLean is the daughter of Mr. and Mrs. J. C. McLean and is an elementary education major. She was employed as youth director of Hart Methodist Church last summer and will fill the same position this summer.

She is a 1962 graduate of Friona High School and is a member of Theta Chi Lambda and on the dorm council.

See Home Scene Of Sweetheart Party

Twelve members of the Faith Sunday School class of Friona Methodist Church attended a

Valentine sweetheart party in the home of Mr. and Mrs. J. T. Gee Friday evening. Mrs. Gee is teacher of the class.

Red and white valentine decorations were used and refreshments were served to Mr. and Mrs. Gary Brown, Mr. and Mrs. Mike Ellis, Mr. and Mrs. John Loehr, Mr. and Mrs. Danny Smith, Mr. and Mrs. Billy Raybon and Mr. and Mrs. Jerry London.

Foods, Nutrition Studied Thursday

Topic of study at the Thursday afternoon meeting of Rhea 4-H club was "Foods and Nutrition," Mrs. Walter Schueler, in whose home the group met, was leader of a demonstration of making Easy-do Chocolate Fudge.

Those present were Wayne Allen, Vickie, Shirley, Danny, Darrel and Dianne Schueler and Rhonda Bauer.

Next meeting of the group will be in the Walter Schueler home February 20. A demonstration on sandwich making and milk shake making will be presented.

Discipline

Normally, we think of discipline for an unruly child; but adults need discipline of one kind or another, too. Here is a personal "check-up" which might be helpful in our thinking on this subject:

1. Have I expected more of others than I do myself?
Have I criticized others severely, but been lenient with myself?
Have I treated others in an unworthy manner?
2. Have I shown any genuine concern for others?
Have I in the recent past made any real sacrifice to help anyone in need?
3. Have I been honest and sincere in all my relationships?
Have I made excuses for myself, which I would discard if they were made by anyone else?
4. Have I kept myself under control at all times?
Have I spoken in haste, making life more difficult for others?
Have I been jealous of the success of others?
5. Have I put God first in my life?
Have I responded to the promptings of God, or have I let myself be influenced unduly by pride, comfort or selfishness?
Have I been faithful in my appointments with God, seeking him regularly in family devotion, personal prayer and public worship?

Good Luck To Team Member **Charlotte Nettles** Senior Forward

To All The Squaws, And To Their Coach, **Baker Duggins.**

Keep Up The Good Work!

PARMER COUNTY IMPLEMENT CO.

Bookmobile Project Outlined At Council Meeting

Fourteen members of Parmer County Home Demonstration Council, representing six clubs, were present for the Monday meeting in the courthouse at Farwell.

Visitors were Roy Davis, manager of Muleshoe Chamber of Commerce, and Porter Roberts, manager of Friona Chamber of Commerce. Each guest spoke briefly concerning plans for a bookmobile for Parmer County. Club members are being asked to assist in creating

interest in the project.

Mrs. Gilbert Kaltwasser, THDA chairman, gave a report on a training meeting at Wheeler.

Delegates elected to attend the district convention in Perryton were Mrs. Gilbert Kaltwasser, Mrs. Ralph Price and Mrs. A. H. Boatman. Mrs. Gene Welch and Mrs. T. A. Sherley were elected alternate delegates.

Next meeting of the council will be March 2 in Farwell.

Local Organization Presented Charter

Highlight of a meeting in Friona Country Club house Monday evening was acceptance of a state charter by Mrs.

Katie Blackstone Directs Study

Katie Blackstone directed a cooking session and lesson on nutrition for a group of 4-H club girls in the fourth, fifth and seventh grades of the Lazbuddie school Tuesday afternoon.

Girls present were Rhonda Treider, Marsha Johnson, Regina Treider, Marilyn Fred and Juanita Pierce.

Attend Meeting

Members of the Woman's Society of Christian Service of Friona Methodist Church who attended the sub-district meeting at the Methodist Church in Wildorado Tuesday were Mesdames Kenyth Cass, Roy Slagle, Dorothy Hough, Arthur Drake, Russell McAnally, Ralph Shelton and G. E. Tanshill.

Theme of the one day meetings was "Witness through service."

WMU Meets

Nineteen members of Woman's Missionary Union of First Baptist Church met in the home of Mrs. Bill Burton for Bible study Tuesday afternoon. Mrs. Roy V. Miller Sr. is teaching. "The Harmony of the Gospels."

Marriage Licenses Issued

Four marriage licenses have been issued from the office of County Clerk, Bonnie Warren, in recent days. The licenses were issued to: Albert Leo Reckwith and Ginger Delois Polk; Gary Don Ratliff and Billie Jo Gillis; Ardith Dale Roien, and Dorothy Laree Vaughn, all of Friona and to Conley Howard Woltman, Bovine and Linde Kay Nelson, Farwell.

Past Matrons Meet In Akens Home

Mrs. Eula Akens was hostess at the Friday afternoon meeting of Kinsley Past Matrons Club in her home. Members answered roll call by quoting a verse of scripture.

The devotional was presented by Mrs. Florence Guinn. Mrs. Vera Bainum conducted a Bible quiz and Mrs. Pearl Kinsley read a poem entitled "The Starless Crown." Decorations were in red and white and valentines were used for favors.

Refreshments of angelfood cake, coffee, nuts and mints were served by the hostess. The next meeting will be in the home of Mrs. Bessie Boggess the first Friday in March.

Those present were Mesdames Akens, Bainum, Kinsley, Guinn, Ethel Chitwood and Marie McKee.

PARTY PERFECT—For her first party, the fashion-conscious little miss chooses a long-waisted dress of filmy white cotton organza with Swiss embroidery. Small pale flowers circle the sleeveless bodice above a lightly sashed bell skirt.

Lazbuddie 4-H Club Enrolls Thirty-Two

At the first meeting of the year for the Lazbuddie Joint 4-H Club in the school cafeteria recently thirty-two members were enrolled. The 4-H pledge was directed by Dale Blackstone and Katie Blackstone read the minutes of the previous meeting and gave the treasurer's report.

Meetings of the club are held at 4 p. m. each third Monday in the month at the school cafeteria.

Members of the club are Wanda Treider, Jimmy Broyles, Judy Koelzer, Bobby Gleason, Christy Ivy, Bobby Redwine, Charlotte Davis, Regina Treider, Steven Foster, Maxine Broyles, Loy Dale Clark, Marilyn Fred, Marsha Johnson, Jeannie McGehee and Juanita Pierce.

Also Ann Blackstone, Mario Dominguez, Randy Bush, Karen Paul, Stanley Burleson, Patsine Broyles, Sonny Dominguez, Larry Davis, Susan McBroom, Sarah Gammon, Larry Cox, Mike Fred, Ernestine Templar, John Gulley, James Gulley, Dale Blackstone and Katie Blackstone.

Husbands Guests At Circle Party

Members of the Mekka Circle of Woman's Society of Christian Service of Friona Methodist Church honored their husbands with a valentine party in Fellowship Hall of the church Friday evening.

A covered dish dinner was served at 7 p. m. Valentine decorations were used. A game session followed the meal.

Those present were Messrs. and Mesdames Andy Hurst, Joe Collier, David Moseley, Russell McAnally, Russel O'Brien, W. C. Osborn, Billy Sides, Bill Spencer and Robert, A. L. Outland and Mrs. Roy Slagle.

Special guests were Mr. and Mrs. Kenyth Cass.

HIKING AVERAGES . . . Opponents of the Friona High School Squaws probably feel that Charlotte Nettles (on ladder) and Tito Jennings couldn't have had much better scoring averages if they had resorted to using a stepladder. One thing for sure -- they couldn't be much closer in scoring if they had planned it that way. Figures on the basketball indicate the season scoring average of each player.

NETTLES, JENNINGS

Squaws Blessed With Terrific 1-2 "Punch"

After 25 games, you would expect one player to emerge as the most prolific scorer for a basketball team. Such is not the case, however, with the Friona Squaws. The team is blessed with not one, but two prolific scorers, and according to season statistics, there's not much difference in their scoring averages.

Adding up the team's statistics this week, Star Editor Bill Ellis was astounded to find that through 25 games, senior Charlotte Nettles has scored 513 points, while junior Tito Jennings has tossed in 510 points.

That gives the team two 20-point average scorers, Miss Nettles has a season average of 20.5 points per game, and Miss Jennings is close behind at 20.4--just a tenth of a point difference in scoring.

The two have been close all year. Another indication of the way they compare is in district competition. There, Miss Jennings held a narrow two-point edge over her teammate, scoring 171 points to Charlotte's 169.

Nor are these two players the only ones who are scoring consistently for the Squaws. Linda Jo Davis, the third starter, has scored 233 points during the year, which figures just shy of 10 points per game. In district play, she averaged 11.6 points per game.

While Nettles' and Jennings' point totals are very similar, they arrive at their totals quite differently. Almost half of Nettles' points have come from the free throw line. On the other hand, Jennings scores 80 per cent of her points from field goals.

Nettles continues to lead the team with a glittering free throw percentage. Currently, she has collected 235 shots of 289 attempts, for an 81.3 completion average. Jennings is perhaps the most improved player on the team in this department. She currently is second, hitting 73 per cent, 108 points for 148 attempts. This is much better

than her percentage of last year. The team's overall free throw percentage dipped somewhat during district play, figuring out to 68.4 per cent on good shots. For the season, the Squaws are still hitting at a respectable 70.7 per cent from the

free-throw line. Highest single score by Jennings has been 37 in the season opener at Happy. Nettles' high game has been 30 points against Muleshoe at the Farwell Tournament. Most points scored by the

team has been the 75 scored at Farwell last December 3 in the third game of the season. The team also scored 72 against Roosevelt in the Tulia tournament finals.

Most field goals in one game came in a district contest at

Olton, when the Squaws pumped in 27 shots from the field. Most free shots in one contest (43) came in the game at Farwell mentioned previously.

Least points scored by the Squaws has been 44, and this happened in two consecutive games at the Farwell tournament against Morton and Muleshoe. Fewest field goals in a game has been 15, against Spearman in a game at the Tulia tournament, won by the team 53-50. That has been the team's closest call to date.

Fewest free throws in one game, eight, came in district games against Muleshoe and

Vehicle Inspections Are Slow

Motor vehicle inspections are lagging behind with less than thirty per cent of the required vehicles in Region 5 displaying a 1964 inspection sticker, according to Captain Alan Johnson, Motor Vehicle Inspection supervisor of this area for the Texas Department of Public Safety.

"With the deadline for obtaining inspection stickers drawing near only 19 per cent of the vehicles in Parmer County have been inspected," the Captain said. "If this trend continues, vehicle owners can expect to have to wait in line in order to get their vehicles inspected by the April 15 deadline."

Some 5,000 official inspection stations over the state are ready and capable of handling the inspection of Texas registered vehicles without delay if owners will not wait until just a few days before the deadline.

Captain Johnson called attention to the fact that since the beginning of the inspection program, vehicles having a defect that was a causative factor in fatal accidents decreased from 13 per cent to four per cent. "The purpose of the motor vehicle inspection program is to discover any maladjustment which might become a link in a cycle of events leading to an accident and by removing the link, prevent the accident," the DPS supervisor said.

Troop Leaders Are Announced

Friona Boy Scout Troop 56 recently installed new troop leaders.

The new leaders are Johnny Barker, senior patrol leader; Joel Osborn, patrol leader; Randy Farr, assistant patrol leader; Gary Shirley, scribe and Joe Bob Mann, quartermaster. Pete Hollis is scoutmaster. The troop has made plans to visit one Friona church each month in the future.

Our sincere congratulations this week go to Coach Duggins and the Squaws upon winning all their games this season and being district champions. It just couldn't happen to a finer group. Fans, and that includes just about everybody in town, are very proud of the girls.

As usual at basketball games, parking space was at a minimum when the Friona teams met teams from Olton in the local gym Thursday evening. Some strong man or men arrived at the game a little bit late and there just wasn't parking place in sight.

Or, at least that's the way it looked. Not wanting to miss any of the game that was in progress, it was necessary for some resourcefulness to be used. A Volkswagen, which had been parked earlier by the Arthur Drakes, was moved from its parking space near the curb to the yard of the G. B. Buske home.

Of course, this left a vacant parking space. The unknown basketball enthusiast (or possibly more than one) parked and attended the game.

As the crowd was leaving, someone was heard to remark, "There ought to be a law, etc., etc., etc." The Drakes (Continued on Page 12)

"LET'S GO!" ... to the Texas tropics in General Telephone Country

The sunny Rio Grande Valley

General Telephone invites you to visit the Rio Grande Valley where we serve the flourishing towns of Raymondville, Lyford, Santa Rosa, La Feria, Weslaco, Roma and Rio Grande City. The palm-lined, semi-tropical Valley — the citrus fruit center — boasts a benevolent sun which creates a winter haven for those who flee the cold. It is one of the many places to go, things to see in General Telephone Country. If your community has visitor attractions, perhaps we can help you develop them. Write Community Development Dept., Box 1001, San Angelo, Texas.

GENERAL TELEPHONE
OF THE SOUTHWEST

HAUNTING HIM . . . Gene Weatherly of the Friona Chieftains fakes before getting a shot away, and his Olton guard takes on a "spooky" look as he tries to guard against the shot.

Lazbuddie Slates Volleyball Tourney

Plans have been completed for a volleyball tournament to be held in the Lazbuddie High School gymnasium February 28 and 29. The tournament will be open to any team desiring to participate. Entries must be in by Friday, February 21 and may be mailed to Volleyball, in care of the Lazbuddie school. Telephone calls may also be made to the school.

There will be competition for men and women. The tourney is being sponsored by Future Homemakers of America and Parent Teacher Association. All proceeds will be used for tennis courts. Schedules will be mailed to all teams entering.

Freshman Teams Win Trophies At Dimmitt

The freshman boys and girls basketball teams closed out their 1963-64 seasons last weekend by winning the consolation championships of the Dimmitt Invitational tournament.

Both teams lost to Tulia in the opening round. The boys dropped a 40-38, and the girls lost, 36-34 in the openers. The boys came back to drop Sudan, 24-23, and Kress, 39-14. The girls stopped Canyon, 57-22, and Springlake, 33-20.

Cindy Ingram was high point girl in each game, getting 66 points in the three games. High individuals for the boys were Bobby Jordan, Alvin Ruffins and Danny Balze.

The girls finished with a 14-2 season record, and the boys were 6-10.

Squaws --

(Continued from Page 6)

Olton.

Most points scored against the Squaws in one game were the 61 by Class B Roosevelt; fewest were the 25 by Morton in the Farwell meet.

The most field goals allowed an opponent this year have been 23, by the Olton girls in a game at Olton. However, that team scored just four free throws in that particular game, a season low mark by Squaw opponent.

The 29 free throws by Olton here in the district climax are the most any one team has scored against Friona this year. The six field goals by Farwell is lowest in that category, making that game quite a record-setter.

Junior Teams Finish Basketball Seasons

The Friona Junior High School "Braves" finished their basketball seasons at Hereford Monday, splitting games with the Junior Whitefaces.

The eighth graders dropped a 37-27 decision, but the Friona seventh grade took a 38-19 win. At Muleshoe last Thursday, the eighth grade team took a 29-17 loss, but the seventh grade responded with a 31-24 victory.

Eddie Wood led the eighth graders at Hereford, scoring 10 points. Delbert Davis topped the team in scoring at Muleshoe, with six points, all in the first quarter. Davis was injured early in the game, and when he went out the team "went to pieces," according to Coach Robert Taylor.

For the seventh grade was led by Joe Perez in the Muleshoe game, with nine points. Wilson Ruffins led the scoring parade against Hereford with 10 points as every player saw action, and a total of ten players scored.

The eighth grade finished with a 9-6 season mark, and the seventh grade would up with a 7-3 record.

BEAT POST! CHESTER AND FLEMING GIN

Friona

BOTH TEAMS WIN

Games With Olton Teams Proved To Be Thrillers

Fans attending the last regular-season basketball double-header here last Thursday against the Olton teams really received their money's worth. The Friona High School Squaws wrapped up a perfect district record, and the Chieftains ended the year on a winning note.

The Squaws outlasted the determined Olton girls, 62-51. Had Olton beaten the local girls, a playoff would have been necessary. The Chiefs also had to hang on for dear life to win their season finale, 66-60, and snap an 11-game losing streak.

The Squaws never trilled in their all-important game, and built up a 20-point lead in the second half, but Olton trimmed that to its final margin of 11 points late in the game.

Tito Jennings, rising to the occasion with a 30-point performance, got the team off and running with a free throw and a field goal for a 3-0 lead. Olton tied it at 3-3, but that was to be the last time the Olton lassies were that close.

Jennings got another jumper, Linda Jo Davis a layup and Charlotte Nettles canned two free throws and a layup to spark

Friona to a 13-3 lead by the midpoint of the first quarter. The Squaws in general, and Nettles in particular, continued to hit with regularity, and the team grabbed a 15-point lead, 22-7, by the time the first quarter ended.

The teams swapped baskets in the second quarter, with Davis getting a layup in the last 10 seconds of play, shooting the Squaws out front at halftime, 38-22.

The third quarter was slow-moving, with neither team doing much scoring. The Squaws outpointed the visitors, 10-6,

though, and had their longest lead of the night, 48-28, as the last quarter began.

Olton didn't roll over and play dead, however. The Squaws lost two starters on defense, Merylene Massie and Glenda McClellan, and Olton used numerous fourth-quarter Friona fouls to good advantage, to cut the Friona margin. They trimmed an 18-point lead with three minutes to play to the final score of 62-51.

The Chieftains fought for the lead early in their game, took a sizeable margin, and then had to stall out the game in the fading minutes.

Gene Weatherly sank a jump shot for Friona's first lead at 4-2. Olton regained the advantage, but Travis Graves made good on three consecutive jump shots, for a 10-9 Friona margin.

The lead changed hands five times in the first quarter, and was tied four times, including at the buzzer, 16-16.

Larry Buckley gave the Chiefs the lead once again with a layup shot after stealing the ball to open the second period. Friona then took a five-point lead at 28-18, but had it trimmed to two points, 23-21. Graves then scored five points, including a three-point play with 3:21 left in the half, for a 28-23 lead.

The pesky Mustangs, whose only district win was over Friona, again cut the margin to

(Continued on Page 10)

NEW "BEAT" . . . Olton's Gayle Nicholas, left, appears to be getting in some foot-patting while trying to solve the Friona defense. Guarding is Wessie Hand of the Squaws. At the right in the background is Merylene Massie.

(Continued from Page 9)

two points, 29-27, but three points each by Buckley and Graves sparked Friona to a six-point halftime lead, 37-31.

Friona upped its margin to 10 points as the second half began (41-31), and led by 14, 45-31, with 5:22 left in the quarter, as Olton opened cold. Score after three quarters was 57-44.

Friona scored two baskets to start the fourth quarter, and registered their longest lead of the game, 61-44. However, the picture soon became anything but rosy.

Buckley had fouled out of the game before the third quarter ended, joining Weatherly on the sidelines. The Mustangs suddenly caught fire, and trimmed the lead to nine points, 61-52, midway of the final quarter, and with Friona still unable to score, chopped what had been a 17-point lead to five, 61-56, with 2:46 to play.

The Chiefs finally added to their point total, taking a 63-58 lead, but the Mustangs cut that to 63-60 with just under a minute left. Danny Murphree's free throw with 30 seconds to play helped cushion the lead, and Milton Hargus made two more after time had run out for the final margin.

INSPECT "LIBRARY" . . . Friona Chamber of Commerce Manager Porter Roberts examines a book in the bookmobile during its stop in Friona last Saturday. Looking on is Carlton Harris, driver of the mobile library.

The Alamo Cenotaph, located in front of the Alamo, was erected in 1939 by the U. S. Texas Centennial Commission.

Patrol Reports Eight Accidents In County

The Texas Highway Patrol investigated eight accidents on rural highways in Farmer County during the month of January, according to Sergeant W. E. Wells, Highway Patrol Supervisor of this area.

These wrecks accounted for three persons injured and an estimated property damage of \$10,870.00.

The Sergeant reminded motorists that Texas along with every other state in the nation many years ago enacted a safety responsibility law to meet the problems created by irresponsible operators of vehicles on our streets and highways. This law is intended to encourage all motorists to become financially responsible and to promote highway safety by identifying those drivers and owners of motor vehicles who will not assume their moral and legal obligations to society and therefore should be re-

moved from the highways. "More stringent provisions of this law--requiring drivers and owners to be able to pay for damage to others in traffic accidents -- became effective January 1, 1964," the Sergeant said. "In any accident in which damage amounts to at least \$25,00 or more, the operator of every motor vehicle is required to report the accident in writing to the Texas Department of Public Safety. If the accident involved death, injury or damage to one person's property of at least \$100,00, the accident then comes under the Safety Responsibility Act and its requirements must be met," he explained.

REGISTERS FOR PRIZE . . . Billy Wayne Stason, right, who farms north of Friona, is shown signing up for the free door prize at last Saturday's Grand Opening of Friona's Red Barn Chemical Company. Signing him in are Mrs. Roy Young and Mrs. Maurice Young.

"LITTLE SHEPHERD"

Rehearsals Underway For Senior Play

Members of the senior class of Friona High School are in the midst of rehearsals for their class play "The Little Shepherd of Kingdom Come," which will be presented the evenings of February 28 and 29.

The play concerns a mountain lad who comes to live with a distinguished Southern family, and all the complications which arise.

Chad, the little shepherd, is played by Edwin Taylor. Major Calvin Buford, portrayed by Bob Welch, and his sister Lucy (Kay Neel), are the socialite Kentuckians who host Chad.

Other characters include Nathan Cherry (S. D. Balze), Betsy Cherry (Cathy Bailey) and Melissa Turner (Mary Ethel Wilson), who are friends of Chad's from the hills.

Old Tom (Tommy Baxter) and Thanky (Dianne Taylor) are the Buford's Negro servants. Diane Jennings plays Mrs. Caroline Dean, and Cheryl Neill is her daughter, Margaret. Richard Hunt, played by Gary

Renner, Nellie Hunt (Myrna Bennett) and Jeanne Overstreet (Kay Coffey), are guests of the Deans.

The play takes place near the turn of the century in the Buford home near Frankfort, Kentucky.

Student directors are Carolyn Guinn and Lynn Frye. Committee members include: make-up and costumes—Charlotte Net-

ties, Wessie Hand, and Patsy Hough; lights and sound effects, Numan Loafman and Ronnie Proctor; stage crew—Bobby Hodges, Jerry Parker, Aaron Drager, Greg Jarrell, Danny Black, Ronald Awtrey, Bill Edelman and Everest Gee; programs and tickets—Diana Taylor, David Carson and Nergis Yazgan.

Ushers are to be Judy Kirby,

Lois Moyer, Patsy Hough, Helen Stowers, Karyl Williams, Linda Beatty and Pat Floyd.

Tickets may be purchased from any member of the senior class. General admission is 75 cents and reserved seats \$1.00.

Class sponsors and supervisors of production are Mrs. Frank Truitt and Wayland Ethridge.

MAP PLAY STRATEGY . . . Students charged with directing jobs for the Friona senior class play discuss technical problems. From the left are Carolyn Guinn, and Lynn Frye, student managers, and Ronnie Procter, lighting manager.

Women Golfers Meet Thursday

The Friona Ladies Country Club Association will hold its regular monthly meeting today at the country club.

On the schedule are bridge, a luncheon, and golf, weather permitting.

Bridge will be played beginning at 10 a.m. Luncheon is scheduled at 12 noon. All members are invited to attend.

I have called you friends. —(John 15:15).

If we but realize that most people want to be friendly we will be able to make many friends by performing small services for others. It is the friendly spirit that draws people to us and adds much to our happiness.

Official Urges Care In Filling Out Forms

"When will I get my refund?" is one of the most frequent tax questions according to Ellis Campbell, Jr., District Director of Internal Revenue. He said that the failure to receive a refund -- check or savings bond -- is usually caused by illegible names or addresses. Mr. Campbell said that it is

permissible to sign your name at the bottom of the return the way you always sign your name, even if your signature is a hurried scrawl. At the top of the return, however, your name should also be carefully printed or typed along with your social security number. In other words, eliminate any doubt as

to who you are and where you live.

Each year thousands of refund checks are returned to Internal Revenue offices because the postman cannot deliver them.

Director Campbell said that if the taxpayer has moved, he should show his new address to promptly receive refunds and other mail from Internal Revenue. If he moves after filing, a forwarding address should be left with the post office.

In And Around --

(Continued from Page 7)

were as surprised as the next person to find their compact parked in the Buske yard.

Never before have I had an opportunity to walk across a snowdrift to get to the car before coming to work each morning for two weeks or more. The early February snowstorm left a drift that was six feet deep or more in the Floyd yard.

It has melted some each day and I could have easily walked around it, but didn't want to miss such a pleasant experience, so just put on my snow boots and waded right through.

Men or women who enjoy playing volleyball should get together and practice a few times during the next week then enter the tournament which is to be held at Lazbuddie Friday and Saturday, February 28 and 29.

Entries are being accepted and schedules are being worked out. Tentative plans are for the men to play in the evenings if possible. All proceeds from the tournament, which is being sponsored by the Lazbuddie FHA and PTA, will be used for tennis courts for the school.

One morning this week I noticed more ducks than usual on the lakes in our neighborhood. In some places the ice was too thick for the ducks to swim, so they were huddled close together in the open spaces.

The same day at noon the sun was shining brightly, it was still warm, most of the ice had melted and there were no ducks on the lake. It wasn't deserted though. Two fishermen had lines in the water and were sitting patiently waiting for bites.

Where, except in West Texas, could you see a winter scene complete with flocks of wild ducks in the morning and have it replaced by a summer scene with fishermen four hours later?

Good intentions are, at least, the seed of good actions; and everyone ought to sow them, and leave it to the soil and the seasons whether he or any other gather the fruit.

Yarborough On Dimmitt Program

The Annual Banquet of the Castro County Chamber of Commerce featuring as Guest Speaker the Honorable Ralph Yarborough, Senior U. S. Senator from Texas, will be Friday March 13, 1964 at 7:30 p.m. in the New High School Gym, located west on Highway 86 Dimmitt, Texas.

Tickets are on sale at the Chamber office Box 924, Dimmitt, Texas. Ticket reservations should be made no later than Saturday March 7th.

SUGAR BEET PLANTING NEARS

Sugar beets as a major money making crop on the High Plains will be tried for the first time this year with Parmer County farmers allotted 4,800 acres, or approximately one fifth of the beets to be grown in a five county Texas area including Lubbock, Castro, Deaf Smith, Hale and Parmer Counties. An allotment has also been set aside for Curry County, New Mexico.

Prior to this year only about 90 acres of the 1,800 acres of beets grown in the five counties have been raised in Parmer County.

All acreage to be grown in the county has been contracted to sugar companies with most of the acreage to be grown for Holly Sugar Company, which is in the process of building a \$21-million plant in Hereford. The company will also construct receiving dumps at Bovina and Friona. In addition a dump will be in operation in the Summerfield area in the eastern part of the county.

Planting of the beet crop is due to begin in the next few days with planting to be completed by March 15 or shortly thereafter, says Dave Edington, field man for Holly who has offices in Friona. Edington says his company is shooting for a 20 ton per acre average on fields in this area.

Varieties to be planted in Parmer county will be determined by the grower and the sugar company with whom he has a contract; however most of the beets raised on the High Plains in former years have been of the U. S. 35 variety. Holly Sugar officials think the U. S. 35 variety may be replaced by monogerm varieties that have good curly top resistance and more seedling cold tolerance. The newer varieties also have a good yield potential.

Growing of sugar beets may be of much benefit to farmers in the area in many ways, says County agent Daryl Coker.

"The crop can only be raised on the same land one time in a five year period and for this reason rotation of crops will be necessary and will prove beneficial to the soil."

The best tops can be used in the feeding of cattle with the food value compared to that of alfalfa. The beets may be grazed prior to harvest or they may be topped and the tops put up as ensilage to feed stocker cattle through the winter.

Cost of raising the beet crop is compared to that of cotton and the returns are approximately the same with price of the crop determined by the quality of beets, sugar content and the retail price of sugar at time of harvest.

Harvest usually starts in October and should be completed by early December, depending on weather conditions.

Kenneth Neill, who has been the lone raiser of sugar beets in Parmer county for the past 15 years, says he has realized good profits from the crop and has averaged some 18 tons per acre each year.

Neill, who is manager of Friona Growers and Shippers, says some 400 acres of potatoes and 250 acres of carrots will be grown in the area this year; however he adds that few onions will be grown in Parmer county. A few acres of additional produce crops will also be grown in Parmer County, says Neill.

Lumpy jaw, a serious problem in cattle, is now believed to be affected by heredity, according to research at the Ohio Agricultural Experiment Station. The work shows that heredity has much to do with the animals' ability to resist the organism causing the disease.

The pitch fork is still as important as insecticides in controlling flies. The two tasks of cleaning-up manure piles and spraying around the farm are both essential to rid the farm of these pests.

Though scientists don't know why as yet, research at the University of Arizona shows that adding common aspirin to poultry rations causes hens to lay six per cent more eggs.

THE HIGH PLAINS FARM AND HOME

Weed Control Meeting Set For Area Farmers At Hub, Feb. 25

A meeting will be held at Hub Community center, Tuesday, Feb. 25, 1:30 p.m., to discuss the use of Propazine, Karmer, DMSA, and other chemicals that

can be used in controlling weeds in grain sorghum and cotton. Weed control has been one of our most severe problems, says Deryl Coker, county agent, and

it is hoped that all of us can learn to use them, and make them work for us.

Elmer Hudspeth of the Lubbock Experiment Station will discuss the use of these herbicides and how they can best be used. Also, Bill Gunter, Agronomist for the extension service, will bring the farmers up to date on fertility.

With the employment situation like it is, "We should certainly make it a point to learn how to cut labor costs, increase yields and take advantage of everything possible, to better ourselves," said Coker.

In addition to the above mentioned subjects, Prentice Mills of the ASCS Office will present a short discussion of eligible skip-row plantings.

At Home In Parmer County

By CRICKET B. TAYLOR
County HD Agent

By Cricket B. Taylor

A total of 75 homemakers in the four county precincts are registered in clothing workshops that are now in progress. I was sorry that some were not able to participate due to the deadline for registration. Classes will be held at Black Community Center, Hub Community Center and Farwell Homemaker Cottage throughout the month of March.

The program on Use of Equipment and Carpet Care was attended by 91 homemakers in the county. The program included information on "Buying Carpet," by Mrs. Muriel Bridges, Director of Home Service of the Southwestern Public Service Co., who did a fine job. This was especially interesting to those planning to replace and buy carpet. The "Spot Removal" demonstration seemed from survey, to be needed and useful to all. Many women did not know that there is an electric floor mop until this demonstration. This really

seemed to create a great deal of interest. After all, what woman likes to squeeze and ring out mops and mop floors? The "floor mopper," really created interest as well as the electric "home shampooer."

Those that missed this program are truly the "losers," because as many said after the meeting, "It was a wonderful lot of information and all of it usable."

Some booklets are still available so come by my office, in the court house and get a copy.

Nearly 500 million tons of agricultural products are harvested annually in the United States. Since each of these products is handled an average of four to six times, effective processing and distribution depends on the use of modern techniques and methods.

Mesquite, which is becoming a problem in parts of Texas where it was previously unknown, is sometimes spread by animals. Animals transported from infested areas carry the mesquite beans in their digestive systems. Confinement of animals to a drylot for three to five days after they arrive in a new area will allow mesquite seed to be eliminated from their systems.

SCD Meetings Set Next Week

Two meetings of interest to 235 Soil Conservation District Supervisors in the Panhandle area are scheduled for next week. On February 18 at the Holiday Inn West in Amarillo, and on February 20 at the Plains Coop Oil Mill in Lubbock.

The purpose of the meetings is to have a class of instruction on duties, responsibilities and obligations of District Supervisors. The activities and responsibilities of the State Soil Conservation Board and the Association of Texas Soil Conservation Districts will be discussed. Soil Conservation District and Soil Conservation Service working operations will be brought out in the program.

Frank Gray of Lubbock, State Soil Conservation Board Member for the Panhandle area; and J. Earl Laney, of Hale Center, President of the Association of Texas Soil Conservation Districts, will assist in holding

the classes of instruction.

Also attending the meeting and taking part in the program will be Aubrey Dalrymple, Lubbock, Field Engineer, and Harvey D. Davis, Temple, Executive Director of the State Soil Conservation Board; A. L. Black, Friona, Vice President, and A. L. Bading, Temple, Executive Director of the Association of Texas Soil Conservation Districts; and H. N. Smith, Temple, State Conservationist of the Soil Conservation Service.

The meetings will begin at 10:00 A.M. on the above dates, and will end at approximately 3:00 P.M. All Soil Conservation Districts are urged to have at least one member present but sponsors of the two meetings are hopeful that each Board will be represented by 100 per cent attendance.

Supervisors that have served for many years on Boards, as well as those elected last October will have the opportunity of learning more about District operations and responsibilities.

Value Of Soil Tests

More and more farmers and ranchers throughout Texas are recognizing the importance of adequate fertilization of crops and improved pastures, says Charles D. Welch, Extension soil chemist at Texas A&M University. This is reflected in numerous reports which show that proper fertilization and liming means more profit. For example, Elmo Cook, Travis County, agricultural agent, recently reported that an investment of \$5.40 gave Milford Olson of Elroy a net return of \$14.97 per acre on grain sorghum in 1963. The fertilizer increased the yield 784 lbs., valued at \$1.91 per bushel.

Welch points out that proper fertilization has been shown to increase the capacity of a crop to use soil moisture. Some of the highest returns from fertilization have been realized under conditions of below normal rainfall.

A soil test can provide valuable information about the lime status and fertility level of your soil and serve as a guide for adequate fertilization and liming. Your county agricultural agent can provide additional information about soil testing.

Twenty outstanding Texas 4-H Club members -- along with Future Farmers and Future Homemakers -- will be recognized during the annual Youth Honor Banquet the evening of February 7 in conjunction with the opening of the San Antonio Livestock Exposition. Banquet speakers will include Alan Dale Dreesen of Jefferson, chairman of the state 4-H Council, and Ann Falkenberg of New Braunfels, vice chairman. The 4-H members also will be guests of honor during Youth Day activities at the exposition, February 8.

FOOTSAVING EDUCATION

by James E. Edwards
Desegregate Health Education?
The steady increase of automation in industry makes it quite obvious that recreation, on a huge scale, is going to be essential for the safety of our country. The energy of youth cannot be suppressed. It will find release in wholesome sports or, as we now see in other countries, in various forms of mob violence.

In spite of criticism from many sources our schools have been and are doing wonderful work in teaching recreational activities that our youth can enjoy most of their lives. If you don't believe that this teaching is effective you haven't tried to get on a public golf course or tennis court. They are jammed.

To a shoeman there is still one sad note -- the absolute refusal of health educators to admit foot health education to their curricula.

This is not a criticism of modern education because, for hundreds of years, now, we have been plausibly reciting "sound minds in strong bodies" and neglecting to add "on needlessly deformed foundations". Good foot health is important in recreation even if it is just walking. Wouldn't it be a good time to desegregate -- feet are socially acceptable, it is the deformities we hate.

TO BETTER SERVE YOU Pictured above is the new home of O.K. Tire Store which is owned and operated by Jake, Arthur and Bob Snipes. Construction will begin immediately and will be located at Seventh and Jones. General contractors will be B & C Builders, Inc. of Clovis and Muleshoe.

O. K. Tire Store, formerly known as O. K. Rubber Welders, was first formed in 1937 by two brothers, Jake and Ivan Snipes, with the former still associated with the business. In recent years, Arthur and Bob Snipes, sons of Jake, have joined the firm and have formed a corporation known as Jake Snipes and Sons, Inc.

Nothing has been spared to offer our customers the most complete tire store in Eastern New Mexico and West Texas. Along with the present tire and battery facilities, we are adding a front-end alignment and brake department.

All office and sales areas will be cooled with refrigerated air. A snack bar will be included in the main sales room. Large amount of glass will be used in the interior to allow constant observation while your car is being serviced.

Recapping facilities will be enlarged with the addition of two new molds to give our customers a more complete selection of modern designs and sizes. Our expanded recap facilities will offer a capacity of approximately 50 tires per day. One of the new molds will be capable of retreading all commercial size tires with the very latest tread designs.

Ten service bays will allow quick serving of all tires and vehicles. Five hydraulic lifts will be installed to gear our operation with this better and quicker services because time is valuable, time is money, and it is our desire to save you money through service.

We say THANKS to our customers for their past patronage, we are grateful for and appreciate the congenial relationships we have established. We extend a cordial invitation to everyone needing our product or service to give us an opportunity to better serve you. The skill and knowledge obtained from 132 years of combined experience of our employees is, at our customers disposal. PLEASE LET US SERVE YOU. LOOK TO OK FOR MORE IN SIXTY-FOUR.

Eight Accidents During January

The Texas Highway Patrol investigated eight accidents on rural highways in Parmer County during the month of January, according to Sergeant W. E. Wells, Highway Patrol supervisor of this area.

These wrecks accounted for three persons injured and an estimated property damage of \$10,870.

The sergeant reminded motorists that Texas along with every other state in the nation many years ago enacted a safety responsibility law to meet the problems created by irresponsible operators of vehicles on our streets and highways.

This law is intended to encourage all motorists to become financially responsible and to promote highway safety by identifying those drivers and owners of motor vehicles who will not assume their moral and legal obligations to society and therefore should be removed from the highways.

"More stringent provisions of this law--requiring drivers and owners to be able to pay for damage to others in traffic accidents -- became effective January 1, 1964," the Sergeant said. "In any accident in which damage amounts to at least \$25.00 or more, the operator of every motor vehicle is required to report the accident in writing to the Texas Department of Public Safety. If the accident involved death, injury or damage to one person's property of at least \$100, the accident then comes under the Safety Responsibility Act and its requirements must be met," he explained.

"The Department of Public Safety is required by the new law to suspend the driver licenses and all motor vehicle registration plates of both the operator and owner of vehicles involved in accidents coming under the Safety Responsibility Law unless the owner and operator meet one or more of the following requirements."
1. Liability insurance cover-

age in minimum amounts of \$10,000.00 for one injury or death, \$20,000.00 total injury and death and \$5,000.00 property damage.

2. A release signed by the damaged parties.

3. Signed installment agreement for damages.

4. Operator and owner found not to be liable in a court of jurisdiction.

5. Operator and owner posting cash or bond security in amounts sufficient to cover liability incurred.

"If in doubt as to the amount of damage send in a report and be on the safe side, or if additional information is needed contact any member of the D P S," the Patrol Supervisor concluded.

IT'S A LIVING -- by Al Johns

"PETER! THE MAN DOESN'T WANT IT PLUGGED IN."

NOTICE

The dumping of refuse such as garbage, rubbish, beer containers, junk, dead animals, and all other decayable or non-decayable waste upon or along the public roads, streets, or highways is a violation of Texas Penal Code, Articles 696-696A, and punishable by a fine up to \$200.00. There is much evidence of widespread violation of this law in Parmer County, and steps are being taken to assure enforcement. The Parmer County Commissioners' Court asks your cooperation in this matter.

THE PARMER COUNTY COMMISSIONERS' COURT

Farmers Discover Increased Need For Phosphorus

One of the significant changes in fertilizer use in the Northern High Plains of Texas is the increased need and use of phosphorus fertilizers this past year. This trend in fertilizer use will continue to increase at an accelerated pace.

This increased use of phosphorus has resulted from the depletion of our native soil phosphorus. Our rates of nitrogen over the past four to six years has resulted in high yields of milo, wheat and cotton with a resulting depletion of phosphorus levels in the soil.

A common comment by farmers is that "My nitrogen fertilizer is not doing the job that it used to do." In many cases, this has been due simply to the depletion of soil phosphorus to a critical level. The addition of a phosphorus fertilizer will usually result in better use of the nitrogen which is applied. Proper nutrient balance continues to be one of the most important aspects of fertilizer use.

Many sources of phosphorus are available and several different methods of application are currently being used. Ammonium phosphates, either liquid or dry, such as 7-21-0 or 11-48-0, are excellent sources of phosphorus.

Their main advantages are the high degree of water solubility and the fact that they contain a small amount of nitrogen to go with the phosphorus which is applied. The super-phosphates, 0-20-0 and 0-46-0, are adapted to broadcast applications of phosphorus. Various other mixed fertilizers containing phosphorus are

available. Method of application can often be important in phosphorus utilization by plants. A banded application placed approximately four to six inches below the seed and one to four inches to the side would be considered an ideal method of phosphorus fertilizer placement for most efficient use.

A common method of application in this area would be the dual application of liquid 7-21-0 plus anhydrous ammonia on 20 inch centers. Dual application of dry 11-48-0 plus anhydrous ammonia is also a good method of fertilizer appli-

Wilt Research Gets Boost

Cotton growers' battle against verticillium wilt and similar profit-cutting diseases has been boosted by a research grant to the University of California at Riverside.

Announcement of the \$42,000 grant for research on verticillium wilt and other vascular diseases of cotton was made by Roy B. Davis, Lubbock; Leroy Durham, Plainview; Roy Forkner, Lubbock; and Jack Funk, Harlingen, Texas trustees for the Cotton Producers Institute.

Aim of the project is to find chemicals that will move inside the sap stream of the cotton plant where they can work to fight the diseases.

Specifically, scientists will (1) evaluate chemicals for their ability to move within the plant and exert a toxic effect on the diseases and (2) determine the basic mechanisms through which chemicals control the diseases, either preventing entry into the roots or inhibiting growth of fungi after they have gained entry.

The project complements work on verticillium wilt being carried out by New Mexico State University under another Institute research grant.

Verticillium wilt is a serious problem every year in large areas of the West, most years in northern limits of the Southwest and Mid-South and occasionally in the Southeast. Other vascular diseases are present in varying degrees in every cotton producing state in the U.S.

Funds to support such research are made possible by producers who participate in the Institute. Projects are serviced by the National Cotton Council.

cation. Broadcast phosphorus normally will require about 50% more phosphorus to be equivalent to a banded phosphorus application. Where 40% of P2O5 would normally be supplied for a milo crop in a banded appli-

Phosphorus moves very little from its point of placement in the soil. Because of this, it is desirable to place it so that it will be within the root system of the young plant, but still sufficiently deep to stay in moist soil throughout the growing season.

Since phosphorus moves very little from the point of placement, it can be applied well in advance of planting and still

Trade And Farm Policy Conference Set

A Southwest Agricultural Trade and Farm Policy Conference, involving delegates from Arkansas, Louisiana, Oklahoma and Texas, will be held in Texas A&M University's Memorial Student Center, February 26-27. Conference theme will be "Farm Policy, Foreign Trade and You."

Because of space limitations, attendance will be limited to 200 invited participants, said J. E. Kirby, economist-marketing and policy for the Texas Agricultural Extension Service and chairman for the conference.

The delegates, Kirby said, will represent every phase of agrifusiness from producers to retailers. They will participate as individuals and not as representatives of organizations, agencies, businesses nor firms, he added.

Speakers will include the top talent in the nation. They include Drs. Arthur Mauch and L. W. Witt, Michigan State University; Dr. J. A. Schmitter, U. S. Department of Agriculture; E. N. Holmgreen, (ret.) Food and Agri. Office, Foreign Aid Program.

Also Drs. Don Paarberg and J. Carroll Bottom, Purdue University; Dr. M. K. Horne, Nat'l Cotton Council; Dr. Everette Peterson, University of Ne-

braska; Drs. H. J. Meenen, University of Arkansas; J. S. Plaxico, Oklahoma State University and C. E. Bishop, Agricultural Policy Institute and North Carolina State College.

Discussion leaders include Dr. Wayland Bennett, Texas Tech College; Dr. R. J. Hildreth, Farm Foundation; Kirby and Drs. Tom Aaron and M. L. Fowler, Texas A&M and Dr. G. S. Abshire, Oklahoma State University.

President J. Earl Rudder will welcome the group to A&M and Dr. T. R. Timm, head, A&M's Department of Agricultural Economics and Sociology will follow with his "Setting the State" discussion. Presiding officers for the four sessions include Texas Extension Service Director John E. Hutchison, and three well known Texas farm magazine editors: Sam Whitlow, Farmer Stockman; C. G. Scruggs, Progressive Farmer; and Charles E. Ball, Farm Journal.

The conference is sponsored by the Texas Extension Service, Agricultural Policy Institute, North Carolina State College and Department of Agricultural Economics and Sociology, Texas A&M University.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

It has not been decided whether or not there will be a regular membership drive for Farmer County Farm Bureau as yet. Some consideration is being given to dispensing with it on an experimental basis to save the expense involved, and possibly having a banquet some other time during the year in which more people than just the workers would be interested.

Some people are not impressed with the figures listed by a conservative group showing the Quotient Liberal vote of congressmen. Here, however, is one from the Americans for Democratic Action (ADA), which is the Fabian Socialist Organization of America, according to Joe Ealy, who spoke to the Texas Farm Bureau Institute last year.

In the ADA World Publication of January, 1964, appear the following "Quotient Liberal" scores for Texas congressmen: Beckworth - 67; Brooks - 92; Burleson - 17; Casey - 20; Dowdy - 17; Fisher - 0; Gonzales - 100; Kilgore - 17; Mahon - 25; Patman - 73; Poage - 42; Pool - 8; Purcell - 55; Roberts - 33; Rogers - 42; Teague - 42; Thomas - 91; Thompson - 73; Thornberry - 83; Wright - 67; Young - 92; Alger - 8; and Foreman - 0. Senators were rated as follows: Yarborough - 76 and Tower - 0. The higher score gives the support of the ADA a boost, as you can see. We thought you would like to know these scores regardless of your preference.

President Johnson vetoed a bill passed by the Congress that would have required the labeling of imported items with the country of their origin. President Eisenhower vetoed a similar bill in 1961. We are glad to know that Congress wants such a bill and sorry to know that presidents of both parties don't. The effect of the vetoes is to permit Communist countries and others to send goods into

(Continued on Next Page)

Food Stores Offer Variety, Abundance

Food stores offer more variety and abundance for their customers than ever before. A recent survey in one food market showed that 85 different cuts of meat or poultry were offered, and 110 different varieties of canned green beans, not to mention fresh and frozen green beans. One store in the survey offered 262 different combinations of can sizes, brands and varieties of vegetables alone.

Variety isn't the only service consumers enjoy from modern food stores, the specialist says. Convenience is another. "Consumers have come to expect convenience in the form of late hours and seven-day service, and convenience in the form and package of the food," Mrs. Clyatt says.

Tansy Mustard Can Cut Wheat Yields

Recent studies at the Southwestern Great Plains Field Station indicate that a single tansy mustard plant per square foot in dryland wheat fields reduced yields by about 10 percent.

Agronomist A. F. Wiese and Assistant Economist J. S. Wehrly of the Texas Agricultural Experiment Station staff conducted the studies and developed a guide farmers can use to determine whether control of tansy mustard will be profitable. Tansy mustard is the most common weed over much of the Texas dryland wheat producing area.

It has been known for some time that the weed did not compete with wheat for moisture when controlled with 2,4-D ester. The recent studies thus pinpointed the damage caused by the weed in dryland wheat.

The scientists suggest that farmers watch their wheat fields in February or March, count the weeds--on a square foot basis--and make an estimate of potential wheat yield. Then by taking the 10 percent damage for a single weed per square foot and varying it up or down depending on weeds

counted and using an assumed value of \$1.75 per bushel for the potential yield and figuring the cost of applying a half-pound of chemical per acre at \$1.50 (custom rate), farmers can determine whether control of the weed would be profitable, Wiese and Wehrly explain.

The half-pound of 2,4-D ester should be applied after the wheat is fully tilled but before vigorous spring growth begins usually between February 15 and April 1, the scientists emphasize.

With one weed per square foot and a potential yield of only 5 bushels of wheat an acre, control would not pay. But if the yield were 20 bushels, the profit would be \$2.00 an acre. On fields with a potential yield of 20 bushels an acre and a weed population of 4 per square foot, control would increase profit by \$12.50 an acre. The scientists conclude that if a farmer does his own spraying, the cost could be considerably less than \$1.50. It also would be profitable to treat fields with lower potential yields or weed numbers than when higher spray costs are required.

Beef And Pork In Good Supply

Liberal supplies of both beef and pork offer continued good buys at meat counters this week, says Mrs. Gwendolyn Clyatt, Extension Service consumer marketing specialist.

Smoked pork cuts are featured at many stores, and ham is a good choice. Prices of smoked ham do not fluctuate as much as prices of fresh pork cuts, so compare before buying, the specialist says.

Hams offered in most retail stores today are the fully-cooked type and the cook-before-eating hams. The cooked hams can be served cold or may be reheated. Canned hams are cooked and may be reheated or served cold according to taste preference.

There is no great change in supermarket vegetable supplies from a week ago. Cooking greens -- including mustard, turnip greens and collards -- are moderately plentiful. Make good use of the turnip as well as the tops, the specialist reminds.

Plentiful vegetable choices this week also include carrots, cauliflower, celery, acorn squash, sweet potatoes, and red potatoes. Supplies of canned corn remain at record levels, and canned tomato products also are plentiful. It's a good time to stock the pantry shelves with these two items.

Quality varies on a decreased but adequate supply of bananas, apples and medium size oranges. Fresh dates are available, and pecans continue plentiful. Avocados are featured in some stores.

Farm Bureau--

the United States without the consumer knowing where merchandise he buys is manufactured. It seems that the consumer should be given the choice.

According to the Shreveport, La. Journal, it costs industry approximately \$20,000 to provide a job. The Federal Government must spend about \$45,000 to create a job through increased spendings.

CONSIDER THIS: Anhyprocritic with his mouth destroyed his neighbor; but through knowledge shall the just be delivered. Proverbs 11:9

Three additional research projects designed to help answer questions about the role of diet in cardiovascular diseases will be sponsored by the Special Dairy Industry Board during 1964. Representatives of the 10 United States and one Canadian dairy organization financing the board's work approved the new projects and also extended several other projects at a recent meeting in Washington, D.C.

Protection From Radioactive Fallout

Third in a Series on Civil Defense By T. G. Hollmig and Bobye Riney

A nuclear bomb is a fearful and devastating weapon. However, should our nation be attacked with this weapon, the greatest danger and our greatest need for protection, would be from radioactive fallout.

Protection from nuclear fallout entails three general principles. They are distance, time, and shielding. The principle of distance is simply that the greater the distance from the source of radiation, the greater the protection. When this distance is doubled the intensity of the radiation is reduced to 1/4 and with three times the distance it is reduced to 1/9th.

Time is another important principle in protection from fallout. Radioactivity from a nuclear weapon begins to lose its energy soon after the explosion through the process known as radioactive decay. A formula, important in determining decay, is that with a seven-fold increase in time there is a ten-fold decrease in dose rate. For example, if one hour after a blast the radiation intensity measures 1,000 roentgens per hour, it will decay to 100 roentgens per hour in seven hours, in 49 hours it will decrease to 10 roentgens per hour, and in 343 hours, or about two weeks, it will decay to 1 roentgen. Thus it would be safe to leave shelter after two weeks.

Shielding is really the only effective method of protection from radiation, and everyone should have some type of fallout shelter. These shelters will be discussed in future articles on civil defense.

same amount of protection. Three feet of earth, 24 inches of concrete, 2 inches of lead, and 90 inches of wood, give excellent protection.

Shielding is really the only effective method of protection from radiation, and everyone should have some type of fallout shelter. These shelters will be discussed in future articles on civil defense.

MEN WANTED to meet the growing need for CLAIMS ADJUSTORS Earn \$450 to \$1,000 a month

We train you at home in your spare time for a job that can pay you a big income, provide your car, pay your expenses and give you lifetime security. Opportunities in the field of investigating auto accident claims for insurance companies or from your own office are wide open for men who want extra income or a full time, fascinating career. Nationwide placement assistance given. Write today to: NATIONWIDE CLAIMS ADJUSTORS Training Division 5904 E. Colfax, Denver, Colo. 80220

Egg Cookery In The Spotlight

Texas' annual egg cooking and recipe contest is scheduled February 15-April 1 for non-professional cooks.

This word comes from T. A. Hensarling of Stephenville, executive secretary for the Texas Egg Council, a sponsor for the event in cooperation with the Poultry and Egg National Board of Chicago.

Homemakers may enter recipes for their favorite egg dishes. Entry forms and rules may be obtained by writing Hensarling at P. O. Box 251, Stephenville, or by contacting Mrs. Gwendolyn Clyatt, Extension Service consumer marketing specialist, 401 Caroline, Room 501, Houston.

State judging will be in Houston in May. A senior division winner will be selected to represent Texas in the National Egg Cooking Contest in

Chicago, September 14-15. In order to qualify for the senior division, a person must be 18 years of age or older by February 15.

"An important thing to remember is that the entry form must be attached to each recipe and mailed to the Poultry and Egg National Board before the deadline," Mrs. Clyatt says.

The Texas winner will receive an expense-paid trip to Chicago to compete in the national cook-off. Top award for the best national senior division cook will be a \$1,000 Series E United States Savings Bond.

Judging at the national finals will be conducted by a panel of food experts. Winning recipes and entries will be selected for originality, flavor and appearance, completeness of steps, simplicity and awareness of basic principles of egg cookery.

What They Wore... by PHYLLIS JOYCE

WHEN GEORGE WASHINGTON WAS PRESIDENT THE FRENCH INFLUENCE WAS APPARENT IN LADIES' DRESS. TYPICAL WAS A GOWN OF FLOWERED SILK DRAPED OVER FRAMEWORKS CALLED PANIERS WITH AN UNDERSKIRT OF PLAIN COLOR TRIMMED WITH BOX PLEATING

OUT OF DOORS A LADY WOULD OFTEN WEAR A LONG OUTER GARMENT CALLED A PELISSE (SHOWN AT RIGHT) MADE OF SILK WITH A QUILTED BORDER AND A DRAWSTRING JUST UNDER THE BOSOM

CHILDREN'S CLOTHES, SUCH AS THIS SHEER MUSLIN GOWN TRIMMED WITH APPLIQUE EMBROIDERY WERE ELEGANTLY MADE AND COPIED FROM THE GARMENTS OF THEIR PARENTS.

TODAY WHEN BUYING WOMEN'S AND GIRLS' APPAREL LOOK FOR THIS LABEL... THE SYMBOL OF DECENCY, FAIR LABOR STANDARDS AND THE AMERICAN WAY OF LIFE

A proposal to amend the Federal Meat Inspection Regulations to permit use of smoke flavoring in curing additional meat products has been made by the U. S. Department of Agriculture. The amendment would permit addition of smoke flavoring and artificial smoke flavorings to a greater variety of meat products than present regulations allow. Identification of both types of flavorings will be required on the labels of products to which they are

added, industry spokesmen report.

All consumers benefited in many ways during the past year from services provided by the U. S. Department of Agriculture. These services helped householders in virtually every phase of daily living and were in addition to USDA's work to help increase efficiency of production and marketing of farm commodities.

SIDE BY SIDE

- Heavy Duty Laundromat® Washer LTF700
- 2 Automatic Washing Cycles for regular and delicate fabrics.
- 3-Position Water Saver adjusts water input to size of load.
- Automatic Self-Cleaning Lint Ejector with no filters to clean.
- Two Deep Rinses -- an exclusive Westinghouse feature.
- Giant Capacity washes 12-lb. load or more.
- Heavy Duty Electric Dryer DTF700
- Automatic Time Control dries clothes perfectly, then shuts off.
- 2 Temperature Selector for regular or low heat.
- Large Capacity Lint Collector is easy to reach, easy to clean.
- New Balanced Air Flow Drying eliminates possibility of hot spots.

UNDER THE COUNTER

Feed Grain Program Gets Underway In Parmer County

Farmers started on Monday, February 10, signing up in the feed grain program for the coming crop and the ASCS office has been a rather busy place since that time. But, not as busy as the early days of the sign-up period have been in past years since the inception of the program.

There were 210 farms signed up during the first four days of the sign-up period. The record to-date would indicate that there will be a larger participation in the program on the average farm acreage-wise than there was in the past year. At the closing of business on Thursday, February 13, there had been 210 farms signed-up to participate in the program.

There is a total of 42,220 acres of feed grain base acreage on these farms. The producers on these farms have indicated that they will divert (lay out) 14,307 acres for an average of approximately thirty four per cent of their acreage. This is a higher percentage of diversion indicated at this point than that of a year ago. The average feed grain diversion under the 1963 program in this county was approximately twenty four per cent, if the present trend continues, there will be approximately ten per cent fewer acres of feed grain in the county this year than there were last year.

Total advance payments made to producers as of Thursday,

February 13, amounted to \$547,133.00. An average per farm payment of \$2,605.00. "We would like to urge those feed grain producers, who have not already done so, to come on in now in order to avoid the last minute rush in signing up," says Prentice Mills. The final date for signing an intention to participate in the 1964 program is March 27, 1964.

U. S. Exports of Sorghums Are Best in History As Foreign Buyers Recognize Its Value as Feed

Washington, D.C., Jan. 13, 1964 — In 1963, U.S. exports of grain sorghums were at a record high of over 3 million metric tons. These large shipments helped reduce stocks for the second successive year. They also seem to point to a fairly good future for this important U.S. crop which has been in surplus for the last 8 years. Abroad, as well as at home, buyers are becoming more familiar with the feed value of sorghums. Also, the world demand for livestock feed is mounting rapidly.

As early as 1955, over a third of the U.S. sorghums crop was being sold to CCC. Production, which in the prewar period had been under 100,000 bushels annually and which by 1956 only slightly exceeded 200,000, had tripled to over 600,000 only 2 years later. This was largely the result of research, which had increased yields from less than 22 bushels per acre in 1956, to 36.7 bushels, or almost double that figure, by 1958. Over a much longer time, acreage had also increased to a high of 19 million, before production was curtailed by the Feed Grain Program.

Both in the United States and abroad new markets were needed for this relatively unknown product. (Of the small prewar U.S. production, only negligible amounts — a few thousand bushels per year — had been exported.) To move sorghums into new areas and increase its attractiveness in others, a 7- to 10-per cent differential in price with the familiar feed, corn, has been maintained. At home, the possibility of raising large quantities of the product in the cattle-ranching areas of the Southwest, thus reducing freight costs, proved a selling point.

The first great growth in the overseas sorghums market came in Western Europe. War-devastated Europe had faced the postwar period with feed shortages at the same time that recovery and rising consumer incomes encouraged the growth of livestock industries. The climate was favorable for exports of U.S. sorghums, and by fiscal 1960 Europe was taking over 2 million metric tons out of total U.S. world exports of about 2.5 million.

Since 1960, imports of U.S. sorghums have fluctuated from year to year. They have continued to rise in the Netherlands, an important dairy and trading country — from nearly 574,000 metric tons in 1960 to 701,000 tons last year. They have been well maintained also in Belgium-Luxembourg — where they are still at 450,000 metric tons compared with a high of about 529,000; but in West Germany sorghums imports have dropped to 172,500 tons from 224,000.

In the Far East, Japan has become an important market. Last year the country took 566,000 metric tons, double the former year's purchases of 294,000 tons, and it is anticipated that next year's imports may go as high as 800,000 to 1 million tons. This rapid rise, in a country with growing livestock and poultry industries and too little land for raising feed, is being effected by U.S. market development efforts plus Japan's setting aside of funds for purchase of sorghums.

A North American market showing considerable promise is Mexico. From around 7,100 metric tons 2 years ago, imports of U.S. sorghums rose to nearly 41,000 in 1961, and 173,000 this past year. In Mexico, corn is reserved for human use, and does not compete with sorghums as a feed. In addition, Mexico usually does not import corn. As the country's livestock and poultry populations grow, U.S. sorghums sales may be expected to increase.

In Eastern Europe, Poland took nearly 378,000 metric tons of U.S. sorghums during the past year, after receiving none the year before. This transaction depended on negotiated sales, which may not be repeated. However, the Soviet Bloc's great potential for the raising of feed grains suggests that in the long run it may become self-sufficient in these products.

For 1964, a record-high world corn crop just achieved in 1963 will offer greater competition with sorghums as a feed, but forecasts are for another good export year.

Insect Experiment Near Snafus Mark

Texas and federal insect experts stood by and watched with scientific detachment recently, while clouds of Mexican fruit flies swarmed over Rio Grande Valley citrus groves.

Usually a matter of grave concern to citrus growers, the fruit fly invaders were products of a Mexico City laboratory where they had been sterilized for safety and color-dyed for easy identification.

"These flies are the latest word in 'migratory workers' from South of the Border," explained Agriculture Commissioner John White. "By comparing the color-coded flies

later caught in traps with their original release points, we can learn a great deal about their traveling habits. The information will be useful in establishing new insect control measures to protect our citrus crops."

The artificial infestation is being tried initially on 80 acres of citrus trees in Hidalgo County, with releases varying from 10 to 100 flies per acre. Commissioner White assured growers that sterilization had made the flies incapable of laying eggs which would normally develop into the destructive larvae.

The program got off to a slow start when the laboratory technician transporting the flies from Mexico City was delayed at the border by U. S. Customs officials. He had left some necessary papers in his lab and was not permitted to enter Texas until identified by TDA District Supervisor J. C. Walling of Pharr.

"We had one bad moment when a border guard wanted to open the box of flies for inspection," said Walling.

Grain Price-Support Activity Through December 1963

Washington, Jan. 17, 1964: The U. S. Department of Agriculture today reported that farmers had put 156,327,657 bushels of 1963-crop corn under price-support loans and purchase agreements through December. The report also includes support activity on other grains through the month.

Of the 156.3 million bushels of 1963-crop corn put under support, 145,380,117 bushels were farm-stored, 10,576,999 bushels warehouse-stored, and 370,541 bushels under purchase agreements. This total compares to the 135,348,861 bushels of 1962-crop corn put under support through December 1962 and to the 82,855,069 bushels of 1961-crop corn put under support through December 1961.

The quantity of corn put under support from the 1963 crop increased 115,298,831 bushels in December. This compares to the increase in December 1962 of 106,777,086 bushels from the 1962 crop and in December 1961 of 71,194,018 bushels from the 1961 crop.

Through December, farmers had put 146,909,294 bushels of 1963-crop wheat under support. This compares to the 215,713,098 bushels of 1962-crop wheat put under support through December 1962 and to 247,441,589 bushels of 1961-crop wheat put under support through December 1961. The quantity of 1963-crop wheat put under support increased by 2,230,070 bushels in December. This compares to the 5,740,789 bushels put under in November 1963 and to the 10,154,659 bushels of 1962-crop wheat put under in December a year earlier.

Tables showing the 1963-crop corn and wheat put under support by States follows in this release.

	Warehouse- Stored Loans	Farm- Stored Loans	Purchase Agreements	Total Put Under Support through Dec. 31, 1963	Total Put Under Support through Dec. 31, 1962
Barley, bu.	2,846,931	15,930,796	450,648	19,228,375	24,888,322
Corn, bu.	10,576,999	145,380,117	370,541	156,327,657	135,348,861
Flaxseed, bu.	8,131,233	2,173,675	128,313	10,433,221	9,802,230
Oats, bu.	2,098,748	25,980,648	346,501	28,425,897	24,239,200
Rye, bu.	787,205	684,303	23,463	1,494,971	5,026,001
Soybeans, bu.	23,540,193	26,546,953	215,139	50,302,285	48,633,159
Wheat, bu.	87,434,524	57,846,646	1,628,124	146,909,294	215,713,098
Dry beans, cwt.	2,252,442	64,994	3,808	2,321,244	2,004,327
Gr. Sorghum, cwt.	49,317,672	4,460,101	87,868	53,865,641	78,333,380
Rice, cwt.	3,222,382	2,117,989	53,147	5,393,518	4,973,489

Following are quantities of 1963 crops put under support through December and November 1963, compared to 1962 crops put under during December 1962:

	December 1963	November 1963	December 1962
Barley, bu.	948,045	2,470,815	3,109,014
Corn, bu.	115,298,831	38,798,097	106,777,086
Flaxseed, bu.	371,492	1,566,542	605,526
Oats, bu.	2,053,013	4,600,917	1,938,768
Rye, bu.	30,996	47,788	449,410
Soybeans, bu.	14,299,763	21,044,628	16,426,765
Wheat, bu.	2,230,070	5,740,789	10,154,659
Dry beans, cwt.	276,826	539,806	144,833
Grain Sorghum, cwt.	10,878,534	20,160,879	20,757,664
Rice, cwt.	878,209	2,282,395	1,089,661
