The Culture of the Imagination.

THERE is no faculty of the mind which has more direct influence on the building of character and the shaping of self than the imagination. And yet in most schemes of education the culture of the imagination is either neglected altogether or it is directed solely to the enriching of that faculty as a mental rather than as a moral power.

Imagination is mental picture-making; the faculty of the imagination is the power which the mind has of picturing to itself things that are without and things that are within; things that are, and things things that are not; things that are past, that are present, or that are to come.

TAKING THE MONEY

AND THE BLOOD

Teachers think that if the boys and girls committed to their charge are quiet and thoughtful, there is little danger of their healthy mental and moral growth.

Imagination is mental picture-making; the faculty of the imagination is the power which the mind has of picturing to itself things that are without and things that are within; things that are, and things things that are not; things that are past, that are present, or that are to come.

Imagination is the power which the mind has of picturing to itself things that are without and things that are within; things that are, and things things that are not; things that are past, that are present, or that are to come.

position looking to Texas for a long period for its highest scholastic institutions. Then there are the Mexican states and New Mexico, looking to us for the higher instructions of their youth.

Governor Ireland then delivered an address, paying a tribute to the wisdom of the fathers of Texas in providing for a great free university for the south of Texas. He said he had thought and still believed it would have been better to have postponed the opening at least another year, or until the available fund accumulated, the buildings completed and preparations made for opening the medical department. He said he had full confidence in the integrity and ability of the faculty, and felt that the youth of Texas were in safe hands. He gave his law students good advice, and assured the regents and the faculty that they should have his earnest support in all matters tending to promote the prosperity of the university.

Prof. Mollett, in a short address, warned the regents and people that the growth of a university was slow. He asked them to give the faculty a reasonable amount of confidence and to exercise patience. Alluding to the Texas boys, he said in an experience of fifteen years he had never met brighter minds or more upright characters.

News From Far and Near.

The Henrietta jail is empty. The Rangers have been sent to Henrietta to keep peace.

The El Paso County Medical Society was organized the 14th, with Dr. Beall president and Dr. Stone as secretary.

Two hundred and fifty cars of grain have been shipped from Allen this season.

Five hundred bales of cotton were shipped from Corsicana the 11. A heavy rain at Texarkana the 15th, the first since the 10th of June.

The State University opened with nearly one hundred students. The cotton receipts at Dallas up to the 19th were 1,100 bales.

The cutting of wire fences continues in most places wherever there are large pastures.

A Brownsville dispatch says heavy rains and high river have caused considerable loss to stock and sheep men.

The Texarkana oil mill, covering an area of nine acres, was completed the 14th.

The Gulf, Colorado & Santa Fe paid \$175 passenger tax for the quarter ending June 30th.

It is said that a company has raised \$50,000 to establish a crematory at Fort Worth, with the object of having the bodies of those who die of contagious diseases incinerated.

A San Antonio dispatch says there is an abundance of water in the southern counties. The cattle that have kept around one spot, owing to the scarcity of water, are now spreading into the back pastures, and the grass is sprouting up in fine condition on the ranges.

At Birmingham, England, the Trades Union congress adopted the only original resolution of Joseph Arch. It declares that considering the large amount of waste land in the kingdom capable of cultivation, radical changes in the land system of the country are required in order that the land may be put under productive cultivation for the benefit of the community, thereby offering a check to the excessive immigration. The amendment calling upon the government to declare lands government property, was rejected.
