Publisher Tom Anderson of Farm & Ranch magazine writes: "One of the eternal verities is that there is no such thing as equality. All men are deserving of equal treatment before the law and are equal in Heaven and Hell, but not in between. Hitler, Tito, Mao Tse Tung, Castro and Bobby Kennedy have tried to make all men equal -- under them. Free men are not equal, and equal men are not free. As Bobby Kennedy's assistant, J. Edgar Hoover has said, "The Negro situation is being exploited fully and continuously by Communists on a national scale."

In the view of the Pharmaceutical Manufacturers Association, Food and Drug Administration's proposed regulations requiring a comprehensive review of all drugs for effectiveness are, in principle, reasonable, given the law under which they were written; but the proposed record keeping and reporting provisions present an unreasonable burden on the industry and the government, promise no counterbalancing benefit for the public health, and, in part, go beyond the intent of Congress and the law.

The Equalization Board Will Meet At The High School June 6, 1964 To Review School Taxes And For Any Person To Come Forward And Show Just Cause Why He Should Not Be Taxed At The Present Value.

Honor Roll--

(Continued from page 1)

SIXTH GRADE

All A's -- Susan Vestal, A's with one B -- Risa Howell, Danny Kendrick, Janet Mingus, Rhonda Ragsdale, Kay Riehm-mayer, Bill Ruzicka, Sherrie Shelton and Bobby Thomas.
A's with two B's -- Steve Carrothers, Gayette Gable, Gail McAllister, David McFarland, Becky Neill, Jane Rushing and Mike Schwab.

SEVENTH GRADE

All A's -- Brenda Blackburn, Janice Clark, Doris Ferguson and Darla Perkins.
A's with one B -- Kathy Bandy, Patti Cannon, Paula Fortenberry, Carolyn Hutson, Shirley Johnson, Joel Osborn, Mike Pavalus, Vickie Renner and James Schlenker.
A's with two B's -- Linda Carson, Sherry Gibson, Bennie Hannold, Barbara Latham, Deloris Phipps, Shirley Schueler, Connie Stone, Connie Whaley and Scotty Wooley.

EIGHTH GRADE

All A's -- Sharen Awrey, Becky Coffey, Crista Evans, Rickey Hurst, Belinda Mabry, Verly Morris, Johnny McFarland, Patti Ragsdale, David Reeve, Mike Reznik, Kara Beth Sides, Mary Smith, Larry Truitt and Mike Wooley.

A's with one B -- Ann Ayers, Joan Gail Brookfield, Ruben DeLeon, Judy Edelman, Randy Ellis, Susan Mills, Karene Miller, Kathy Renner, Celta Vestal and Eddie Wood.

A's with two B's -- Sammy Bailey, JoAnne Jennings, Jan Shirley and Linda Stone.

Mrs. Hight Is New Teacher

Mrs. Jackie Hight, the former Jacquelyn Magness, has signed a contract to teach in the Friona school system next year.

Mrs. Hight, a 1960 graduate of Friona High School, received her bachelor of science degree in elementary education at Panhandle A&M, Goodwell, Oklahoma. She will be assigned to her position at a later date.

The Hights have two children, Joel, 18 months, and Jill, five months old.

RECORD LISTED FOR EHS SENIORS

More than one half of the graduates have done all their school work in the local school, and all except four have done all their high school work here.

BEST CITIZEN AWARDS . . . Fourth grade students receiving the awards were Vicky Beck, Vicky Schueler, Richard Perkins and Dianne Day.

Senior Class Members Reveal Future Plans

Thirty-four of the forty-seven members of the 1964 graduating class are making plans to continue educational programs beginning this fall and summer. Thirty-one class members plan to attend college, one plans to enroll in a business college and two are making plans to enter beauty school.

Texas Tech is the college preferred by more students than any other and Lubbock is the town more students chose to spend much of their time in during the coming few years.

David Carson, Carolyn Her-ring, Wessie Hand, Bobby Hodges, Eric Rushing, Tex Phipps, Numan Loafman, Lynn Phipps, Rex Nelson and Greg Jarrell plans to enroll at Tech this fall.

Students planning to enroll at Lubbock Christian College are Ronnie Procter, Bob Welch, Kay Neel, Diana Taylor and Mickey Wilson. Mary Ethel Wilson plans to attend South Plains Junior College at Levelland.

Joyce Rodgers plans to go on a mission for the Church of Jesus Christ of Latter Day Saints, commonly known as Mormons, for 18 months before enrolling at Brigham Young University at Salt Lake City.

Plans for enrolling at Wayland Baptist College at Plainview are being made by Carolin Guinn, Myrna Bennett and Cheryl Neill. Lois Ann Moyer

and Patsy Hough plan to attend Hardin Simmons University at Abilene.

Charlotte Nettles plans to attend Abilene Christian College. Lynn Frye and Kay Coffey have chosen North Texas State University at Denton and Gary Renner will be going to Texas A&I at Kingsville.

Rose Ann Greeson, Edwin Taylor and Russell Scales, who have been members of the same class since the first grade, will be classmates at West Texas State University at Canyon. Dianne Jennings will be going to Amarillo Junior College.

Nergis Yazgan will be attending a university in her home country, Turkey. Pat Floyd and Judy Kirby plan to attend beauty school in Lubbock and Eva Vin-son has made plans for enrolling at Draughon's Business College.

Late summer or early fall weddings are being planned by Dianne Taylor, Brenda Wood-ruff and Cathy Bailey. Aaron Drager, Ron Awrey and Tommy Baxter plan to farm.

Billy Edelman has enlisted in the United States Air Force and will leave today for Camp Polk, La. for basic training. He recently made a score of 118 out of a possible 120 in a general electronics exam.

Class members who plan to work in Friona or are undecided about future plans are Helen Stowers, Larry Stevick, Linda Beaty, George Grant and S. D. Batze. Jerry Parker will work in Amarillo.

Former Secretary of State Christian Herter, who is now our Special Representative for Trade Negotiations, says: "The most difficult and complex of the problems that face us is that of trade in agricultural products . . . Agriculture and industry are interwoven at every point in our economy. Farmers buy a great many of your products, and farmers are more dependent upon export markets than any other major segment of the American producers. The crops on one out of every five acres cultivated here are shipped abroad. Farmers derive 15 per cent of their income from exports -- whereas the United States as a whole exports only 3.8 per cent of its gross national product. Moreover, total farm exports, running at \$5.6 billion a year, amount to 27 per cent of our exports as a whole."

According to the National Research Bureau the cost of a college education will be doubled by 1970. It estimates that, by that year, a four-year education, including tuition, books, fees and board, will cost from \$14,400 to \$20,000 at a private school and from \$9,600 to \$12,800 at a state university.

THE FRIONA FARM NEWS

PEGGYE McNAIR

"Miss Wool Of Texas" Visits Whitefields

It was quite a "natural" last week when Peggy McNair of Wichita Falls visited Otho Whitefield's ranch in the Lakeview community.

For, Miss McNair is the current "Miss Wool of Texas," and Whitefield is very prominent in the sheep-raising business, currently serving on the board of directors of both the Columbia Sheep Breeders of America and the Texas Columbia Breeders.

Miss McNair, a 5-7 brown-haired beauty who is a senior at Midwestern University, was a good salesman for the job she holds as "Miss Wool."

"I'd like to encourage the girls in the Friona area to enter the contest this year, which will be held in Odessa in July," Peggy said. She stated that entrants did not have to come from a big sheep-raising area, nor for that matter be directly connected with sheep-raising.

She cited herself as an example. "Practically the only sheep I had ever come into contact with prior to being chosen 'Miss Wool' last year

was a pet lamb I had as a child," Miss McNair said.

She pointed out that the "Miss Wool" contest originated in Texas at San Angelo some 10 years ago. Formerly the girl chosen "Miss Wool of Texas" also automatically had the title "Miss Wool of America." However, today the contest has grown so that it includes 28 states.

Some of the honors connected with the "Miss Wool" title included a beautiful wardrobe of woolen clothing, a seven-week tour of the major cities in the state, and a new car to drive during her year's reign.

At the Whitefield place, Peggy was enchanted by a pair of twin lambs which were less than a week old. She was informed that the Whitefields have been in the sheep business in Parmer County for 38 years.

Otho Whitefield's father, E. B. Whitefield, brought the first sheep to the Lakeview community spread in 1928. The number of sheep on the Whitefield place varies. At peak sea-

sons, there are as many as 500 head.

"We try to keep around 100 breeding ewes, and usually have around 400 head on our 700-acre spread," Whitefield said. Whitefield currently is serving as vice president of the Columbia Sheep Breeders of America, an organization he has been connected with as a member of its board of directors since 1946.

He raises registered Columbian sheep, and exhibits them at state and regional fairs. He is the only sheep breeder in Texas who raises purebred Columbian rams.

Whitefield is a past president of the Texas Columbia Breeders, and also served that organization as vice president. Other organizations of which he is a member include the Texas Sheep and Goat Raisers Association and the Texas Purebred Sheep Breeders Association.

The start of Whitefield's Columbian herd came in 1945 when he bought some 40 ewes from the White Ranch in Montana.

The Whitefields have received several honors in their sheep-raising endeavors, but from their reactions, a signal event was the day of May 29, 1964. That was the day "Miss Wool of Texas" visited their sheep ranch.

"Willie," said the teacher, "can you name the principal river of Egypt?"

"It's the Nile, ma'am." "That's right. Now can you tell me the names of some of the smaller tributaries?"

Willie hesitated, then smiled. "The juveniles!"

LUCKY LAMB . . . Peggy McNair, the reigning "Miss Wool" of Texas, acts as though she would plant a kiss on the nose of a twin lamb on the Otho Whitefield place. Whitefield, holding the twin lamb, beams his approval.

Former Secretary of Agriculture Ezra Taft Benson says: "What are the fundamental principles which have allowed the United States to progress so rapidly and yet remain free? First, a written Constitution clearly defining the limits of government so that government will not become more powerful than the people. Second, an economic system characterized by: Free enterprise -- the right to venture, the right to choose. Private property -- the right to own, develop and enjoy. A market economy -- the right to exchange and to profit."

According to an article in Saga magazine written by a retired Army officer, 389 American servicemen captured by Communist Chinese and North Korean forces during the Korean War are still imprisoned in Russia and Red China. It is charged that the U. S. government has done nothing to obtain the freedom of these men since the Korean truce of 11 years ago.

Railroads have multiplied their shipments of new motor vehicles from factories to dealers by five times in the last five years, the Association of American Railroads reports. Using new equipment and deep freight rate cuts, the rails hauled 2,521,000 of the vehicles in 1963, a postwar high for such shipments by rail.

AGRICULTURAL BRIEFS

Micronaire readings, commonly referred to as "mike," will be included as additional quality factor for upland cotton going under price support loan beginning with 1964 crop. Producers will be required to furnish, at their expense, mike reading as determined by cotton classing offices of the Agricultural Marketing Service for each bale of 1964-crop upland cotton on which price support is requested. Local county agents have additional information on the subject.

WARNING!

THE BOLL WEEVIL IS HERE!

A SERIOUS PROBLEM:

- BOLL WEEVILS, virtually unknown on the High Plains in 1960, have made their move. In 1963 they caused from 10 to 50 per cent damage to 130,000 acres of cotton in seven of the 23 High Plains counties.
- BOLL WEEVILS have proven their ability to live through the winter. They did survive the winter of 1963-64.
- BOLL WEEVIL control in infested areas of the cotton belt costs from 5 to 6 cents per pound, or \$25 to \$30 per acre.
- BOLL WEEVILS where they are established, cause average yield losses of 12 percent despite control efforts.
- BOLL WEEVILS have practically stopped cotton production in some areas.
- BOLL WEEVILS threaten THE ENTIRE HIGH PLAINS. THEY MUST BE STOPPED!!!

A PRACTICAL SOLUTION:

- DIAPAUSE CONTROL, according to the most eminent authorities in the U. S., CAN PROTECT THE HIGH PLAINS from the boll weevil.
- DIAPAUSE CONTROL has been proven effective in commercial operations at the Texas Prison Farm and in the Presidio area of Texas.
- DIAPAUSE CONTROL kills weevils in the fall of the year when they are "diapausing," or preparing for hibernation. A dead weevil can't hibernation through the winter and come out biting and scratching in the Spring.
- DIAPAUSE CONTROL is cheaper than in-season control, the need for which will be greatly reduced after 1964.
- DIAPAUSE CONTROL does not kill beneficial insects.
- DIAPAUSE CONTROL, carried out over ALL infested acreage back to the range land to the East, can reduce the weevil problem to a small patrolling operation in just a few years.

A comprehensive plan for getting the boll weevil out of the PCG area . . . and keeping him out . . . is near completion and will be announced soon. Watch for it!

On The Farm In Parmer County

BY JOE VAN ZANDT County Agent

BRUCELLOSIS RECERTIFICATION

Parmer County must be recertified as a Brucellosis free county before November 20, 1964.

Testing of cattle in Parmer County has already begun under the direction of Bob Bennett, Federal Livestock Inspector.

In 1961 there were 14 reactor herds and 23 suspect herds in the county and Bob will need to test 100 per cent of the cattle in these same herds.

Jack McCracken, Livestock Committee chairman and the other members of the committee are going to help keep the testing of cattle running smoothly.

Bennett has started testing the herds located in the south east corner of the county around Lazbuddie and plans to move in a clockwise direction around the county.

If you have cattle you want tested contact one of the above line up men or the County Agent's office.

Under present regulations, if 15 per cent of the cattle in a county is back tagged and tested as negative at the slaughter houses in a three year period in-the-premise testing would not be required of a county to maintain its modified-certified brucellosis-free certification.

tag program is that the owner will receive credit for negative tuberculosis tests on the back-tagged cattle tested at the slaughter house.

Two other benefits of the back-tagging program is that you don't have to open your cattle and run tests every three years if you back tag at least 15 per cent of your cattle in the three year period.

Supplies and information for back tagging and the testing of herds for recertification are available at the county agent's office.

Intolerable "Walter," called an elderly, rouged lady. "There's Rock Hudson by the bar and he's annoying me."

Dear Editor: How many organized nudists are there in the U. S.? -- Fred E.

Dear Fred: Not as many as you might think. Probably not more than a bare 50 or 60 thousand.

During the period of the Texas Republic land promoters advertised that it was cheaper to raise a cow in Texas than a chicken, and it was.

Another advantage of the back

Large Crowd Attends Co-op Plant Opening

More than 2,000 farmers and their families attended the May 23rd dedication of the High Plains' newest Anhydrous Ammonia Plant, 2 miles East of Plainview on the Lockney Highway.

Lt. Governor Preston Smith, dedicatory speaker, said the Plant "is an example of the industrial growth in Texas, and a Plant such as this benefits all of us in the State".

Loyd said the completely farmer-owned Plant is the first built in Texas under a Cooperative program and stands as a monument to the agricultural people in this area.

The Plant's capacity of 21,000 tons of ammonia a year will supply the requirements of twenty-one High Plains Cooperatives for the next five years.

Mr. Tom C. Jones, General Manager of the Southern Farm Supply Association, of Amarillo, said that the payroll and refunds to farmers, totaling \$1 million, will remain in this area and end up in Panhandle cash registers rather than those in New York or Dallas.

Others on the dedication-day program included Jack Tompkins of Amarillo, Master of Ceremonies; Charles Young, manager of the Plainview Chamber of Commerce; and Dr. Roy C. McClung, President of Wayland Baptist College.

The mockingbird was designated the state bird of Texas by the Texas Legislature on January 31, 1927.

Mustangs were being ridden by Indians in Texas before the first explorers came into the area.

At Home In Parmer County

By CRICKET TAYLOR County HD Agent

The outdoor cooking season is again at hand. You'll avoid last minute scurrying around, cooking delays, and have more delicious food served more attractively if you organize your work.

Production of all-cotton stretch fabrics may reach 57 million linear yards in 1964-- an increase of more than 300 percent over last year's production.

Others on the dedication-day program included Jack Tompkins of Amarillo, Master of Ceremonies; Charles Young, manager of the Plainview Chamber of Commerce; and Dr. Roy C. McClung, President of Wayland Baptist College.

He added that "the building of the Plant is a prime example of the advantages of farmers working together through their Cooperatives to become primary producers of one of the basic items required on their farms".

Plainview was chosen as a site for the Plant after a careful study of freight rates, gas supply, rail and highway connections and water supply.

The Plant's capacity of 21,000 tons of ammonia a year will supply the requirements of twenty-one High Plains Cooperatives for the next five years.

Lt. Governor Smith, dedicatory speaker, said the Plant "is an example of the industrial growth in Texas, and a Plant such as this benefits all of us in the State".

Weed Meeting Next Thursday

A weed control meeting is to be held Thursday, June 11, at 8:30 p.m. in the Security State Bank, Farwell.

This meeting was planned by the Parmer County Weed Committee to bring everyone interested in weed control, particularly bindweed, up to date.

The program will include Dr. Allen F. Wiese, Agronomist with the Southwestern Great Plains Field Station, Bushland. He will discuss the latest information on weed control.

progress it has in the last several years but a lot more work remains to be done in controlling bindweed. All the good work can go for naught if we fail to keep up the eradication work.

Herman Gerles, chairman of the weed committee, invites everyone who has bindweed to attend the meeting Thursday night at the Security State Bank.

The main purpose of the meeting is to kick-off an intensified bindweed eradication program. Parmer County is fortunate in having made the

JOLYNDA STOKES

Friona Graduates

Jolynda Stokes, a 1960 graduate of Friona High School, and daughter of Mrs. Lucy Mae Stokes, was a member of the graduating class of Northwest Texas Hospital School of nursing.

Commencement exercises for the school were held Monday, May 25 at 7 p. m. Miss Stokes received her registered nurse's degree and has been employed in the medical-surgical division of the hospital.

At the present time she is vacationing in New York City.

COUPLE TO BE UNITED . . . Miss Judy Smith, Friona, and Louis D. Ponthieu, Houston, will exchange wedding vows at St. Anthony's Catholic Church in Hereford at 10 a.m. Tuesday, August 25. Parents of the couple are Mr. and Mrs. Ralph Smith, Friona, and Mr. and Mrs. J. W. Ponthieu, 7111 Shavelson Drive, Houston. Invitations are not being mailed locally, but friends of the couple are invited to attend the ceremony.

JUNE WEDDING PLANNED -- SSGT. and Mrs. G. D. Lowe Jr. of Lompoc, Calif. have announced the engagement and approaching marriage of their daughter, Judy Meacham, to Wayne Rhodes, son of Mr. and Mrs. O. C. Rhodes of Friona. The bride-elect, a 1962 graduate of Bovina High School, is a former employee of General Electric Company at Vandenberg Air Force Base, Calif. Rhodes is a 1959 graduate of Friona High School and is currently serving with the U. S. Army Reserves at Fort Benning, Georgia. A June wedding is being planned.

Area Young Homemakers Plan For Organization

Plans have been completed for organization of an Area Young Homemaker's Club in Friona Tuesday, June 9. The meeting will begin at 4 p. m. in the homemaking department of Friona High School.

Mrs. David Brumley of Hereford, Area I president, will meet with all interested young women. Any young woman no longer enrolled in high school who is 35 years old or under and is interested in better homemaking as a group project is invited to attend.

FHA members will serve as baby sitters for the younger babies and small children of persons interested in attending the meeting. Any members of the Friona FHA chapter who would like to assist with the baby sitting is asked to contact Mrs. David Eddington for further particulars.

The Young Homemakers Clubs, which are being organized all over the state serve as "big sister" organizations to local FHA chapters but the primary purpose is to improve homemaking skills in crafts, clothing selection and construction, food preparation, home furnishings and decoration, family relationships and child care.

This group will be sponsored by the Friona High School homemaking department under the guidance of vocational home-

making teachers. Anyone interested in obtaining additional information is asked to contact Mrs. David Eddington at 5581. Regular meeting dates will be decided upon at the initial meeting.

Hospital Notes

New Admissions to Parmer County Community Hospital since May 27, 1964.
