NUMBER 51

WOODWORK BY DALTON

WE HAD small fire at the rear of the newspaper office building last Friday, and we do appreciate the efforts of the volunteer firemen in putting out the blaze before it got inside the building. (How were they to know how much insurance we had?)

Also, right after the blaze, a fellow worker offered to bet me \$10 that this week's Woodwork would contain some reference to the fire! He backed out, though, as you might guess from reading this. For less than ten bucks, I wouldn't even write a column.

Better hurry down and get your smoke-damaged subscriptions while they last.

ANYONE WHO was dreaming of a White Lincoln's Birthday had his wish this week. It is our biggest snow this winter.

GEORGE DOLAN, who writes a column "This Is West Texas" in the Fort Worth Star-Telegram had a good yarn in Monday's paper. For the benefit of those who take the Amarillo paper instead, I'll repeat it.

It seems that SMU coach Hayden Fry was speaking at the Graham football banquet and told about taking a coach from the midwest to East Texas to interview a Negro high school prospect.

The visiting coach asked the boy what he did on offense.

"Well," said the player, "they says I runs better than Jimmy Brown of the Browns, I passes better than Johnny Unitas of the Colts and I kicks farther than anybody in the area."

The coach asked him about his defensive play.

"Well," said the player, "I just lets the statistics speak for themselves. Last year, I was credited with 232 unassisted tackles, 305 assisted tackles, 18 knockouts and an untold number of limp-offs."

Later Fry asked the boy if he had any weaknesses at all.

"Well," said the player, "I has been known to lie a little..."

BAND PARENTS PLAN CANDY SALE

Members of the Band Parents organization met Thursday evening when plans were made by the group to sell candy.

Presiding was Raymond Maxwell, vice president, who introduced the new band director, Michael Mente.

Sudan To Be Site Of Irrigation Workshop

Farmers, implement dealers and others connected with agriculture in Lamb and Bailey counties are invited to an all-day irrigation workshop and free lunch at Sudan school Feb. 26, sponsored by Lamb and Bailey County Electric Cooperative Associations.

Also joining in sponsorship of the program from 9:30 a. m. to 3 p. m. will be the Young Farmers chapters of Sudan, Bula, Littlefield, and Muleshoe, the Texas Agricultural Extension Service, Texas Agricultural Experiment Station, Soil Conservation Service, Texas Tech College, REA, and irrigation equipment dealers.

Sudan Girls Also Advance In Tourney

Hornet Boys Upset Kress!

BY LINDA WILLIAMS

The opening of the district tournament in Hale Center Tuesday night also opened new horizons for the Sudan Hornets when they won their first district game of the season, downing Kress 56-43.

At the half, the Hornets, pulled themselves up to a 4-point lead, 26-22, and led 36-33 by the end of the third quarter. It was in the last quarter that they really put pressure on the Kangaroos when they scored 20 points after successfully stealing the ball many times.

Mike Mudgett scored high for the Hornets with 19, and Mike Smith came in second with 15. Most of the scoring for Kress was done by Mike Freeman who had 19 points.

The Hornets clinched play in the finals Friday night when they stung the Farwell girls.

In the first quarter, the game

was held to a close 15-11, but the Hornets broke away, leading 36-19 at the half. Sudan went into the final quarter with a 13-point lead, and by the time the last buzzer sounded the girls had a 62-49 victory.

Glenna Gatewood scored 23 points, and Judy Sterr had 21 for Sudan.

Key Kaltwasser led Farwell with 30 points.

Last Friday the visiting Hornets split with the Farwell Steers when the girls won 58-37, and the boys lost 34-63.

Candace Mudgett, with 20 points, was high scorer for the Hornets. Following close behind with 19 points each was Glenna and Judy.

Mike Mudgett's 18 points topped Sudan's scoring for the boys. The boys play tonight (Thursday). Finals are Friday.

LOOK WHAT I FOUND! — Jane Newman, secretary for an insurance agency here, shows a double handful of the stuff which everyone found in abundance in Sudan Monday and Tuesday. About 4 inches of snow fell Sunday night and another snowfall came Monday night. Temperatures dropped around zero, and school was not held Tuesday. (Beacon-News Photo)

Livestock Show Winners Named

Saturday, the Sudan FFA and 4H and the Amherst FFA and 4H organizations gathered their animals together for a project show at the Sudan FFA barn.

Everyone associated with the show felt that it was a big success largely attributed to the excellent facilities furnished by the community under the sponsorship of the Young Farmer Chapter. Ideal weather just 24 hours ahead of the snowstorm also contributed to the success of the show.

Ollie Limer, Hale County agricultural agent, was asked to judge the show but was called away at the last minute. Limer recommended a former assistant, Payton Scott, to take his place, and Scott agreed to do so.

Dyanne Curry, Littlefield district FFA Sweetheart from Sudan awarded all the trophies and ribbons to the winners. It was estimated that there were 100 to 125 spectators attending the show.

The Young Homemakers, a newly formed organization in Sudan, operated a concession stand which added to the comfort of the show.

The show officials included: General Superintendent, Marvin Bowling; Swine Superintendent, Ken Burgess; Beef Superintendent, Jerry Ray, and Sheep Superintendent, Raymond Duvall from Amherst. Although these listed were the heads of the departments much of the work fell on many of the others of the Young Farmers. They set up pens, weighed and classed the animals, furnished bedding, saw to it that the classes were ready to show and many other jobs which needed their attention.

SWINE DIVISION

Grand Champion of the Swine Division was a Duroc sow and litter shown by James Barker of Sudan FFA. These animals

were placed over a class consisting of all the champions of each division. Other winners were: Light Barrows—1st place, Alan Black Sudan 4H; 2nd place, Dick Black Sudan 4H; 3rd place, Bill Boyles, Sudan FFA; and 4th place, Larry Shuttlesworth, Sudan FFA.

Heavy Barrows—1st place, Bill Boyles, Sudan FFA; 2nd place, Nancy Williams, Sudan 4H; 3rd place, Bill Black, Sudan FFA; and 4th place, Nancy Williams Sudan, 4H; 5th place, Joe Rivas, Sudan FFA.

Dry Sows—1st, Bill Boyles, Sudan FFA; 2nd, Michael McWilliams, Sudan FFA; 3rd, Ben Kelton, Amherst FFA; 4th, Jay Elms; Amherst FFA.

Sow and Litter—1st, James Barker, Sudan; 2nd D. W. Muller, Sudan.

Light Gilts—1st, Bill Boyles, Sudan; 2nd, Bill Boyles, Sudan; 3rd, Al Alexander, Sudan; and 4th, Nancy Casata, Sudan.

Heavy Gilts—1st, Tommy Rome, Sudan; 2nd, Mickey Gilbert, Sudan; and 3rd, Jimmy

Blair, Sudan.

SHEEP DIVISION

Mutton Class—1st, Mark Parrish, Amherst; 2nd, John Stokes, Amherst.

Finewool Class—1st, John Stokes, Amherst.

Champion of the sheep division was won by a crossbred lamb owned by John Stokes, Amherst FFA, weighing 76 lbs.

BEEF DIVISION

Champion of the division was won by Rodney Bowling of Sudan 4H, with an angus steer weighing 975 pounds.

The winners of the respective classes are as follows:

Beef Heifers—1st, Rodney Bowling, Sudan; 2nd, Tim Tapley, Amherst; 3rd, Chris Eady, Amherst; and 4th, Quenton Pierce, Amherst.

Hereford Steers: 1st, Judy Tapley, Amherst; 2nd, D. W. Muller, Sudan; 3rd, Gerry Adams, Sudan; 4th, Sue Noles, Amherst; and 5th, Jimmy Blair, Sudan.

Angus Steers: 1st, Rodney Bowling, Sudan; 2nd, Tim Tap-

Voters To Decide School Tax Issue

Few members of the public turned out Monday night for a public meeting on the school tax election coming up Saturday, but those who were there did ask plenty of questions about the election and other school matters.

A total of 18 persons, including school board members, attended the meeting on a cold, snowy night, and these spent two and a half hours discussing school finances, what Saturday's vote will be all about, and what will happen if the proposal to raise school taxes is approved or rejected.

If approved, the school will start operating its finances under a plan labeled "Senate Bill 116" and the school board will have authority to raise the maintenance tax to as much as \$1.50, if they wish.

(Board members indicated, however, that they favor raising the tax to only \$1.35 now — making a total levy of \$1.60 to be paid by property owners — in order to pay off a \$34,000 deficit within three years. The members hinted at a possible reduction in the tax rate once the debt was paid off.)

Because some interested persons were not able to attend Monday night's meeting, the board presented for publication some of the pertinent questions and their answers regarding Saturday's election. These may be seen on page four.

At present the school district levies a tax of \$1.50, with \$1.25 used for maintenance and 25 cents put into the interest and sinking fund. Under the proposal, the school board could levy a tax up to \$1.50 for maintenance alone, which, with the 25 cents for bonds added in, would

levy, Amherst; 3rd, Judy Tapley, Amherst; 4th, Guy Hufstetler Jr., Amherst; and 5th, Danny Allen, Sudan.

Showmanship award was awarded to Alan Black of the Sudan 4-H.

L. D. Walser Funeral Held

Funeral services for Lloyd David Walser, 40, who died Sunday night at a J. N. M. hospital following a long illness, were conducted at Sudan Baptist Church at 2:30 p. m. Wednesday. The Rev. Willie Hazel officiated, assisted by Mickey Blake, minister of Sudan Church of Christ.

Burial was in Sudan Cemetery.

Walser, an employee of El Paso Natural Gas Co., moved to jail from Littlefield two years ago. Survivors are his wife, Claudine; a son, Lloyd David Jr.; his mother, Mrs. Birdie Walser of Sudan; a sister and two brothers, including Buford Walser of Sudan.

boost the total tax to a maximum of \$1.75. However, if the school increased the maintenance amount by only 10 cents per \$100 valuation, this would mean \$1.35 for maintenance and with the 25 cents added in, a total tax levy of \$1.60 which the taxpayers would face, instead of the present total \$1.50.

One taxpayer at the meeting posed this question to Wayne Whiteaker, school board president: "Suppose we go ahead and pass this measure Saturday, and you raise the tax. Won't you have to turn right around and raise them again to take care of the Negroes (in the Collins School)?"

Whiteaker replied that something probably will have to be done about the Negro school regardless of the outcome of Saturday's election. But, he said, if voters reject the Senate Bill 116 plan Saturday, the school will have to increase its interest and sinking fund by taking away from the present maintenance rate of \$1.25, because the present financing plan under which the school operates limits the total of both funds to \$1.50.

He explained that the interest and sinking fund amount would have to be raised because the school probably would have to vote some bonds either to add to present facilities at Collins school or to add elementary classrooms in the Sudan grade school.

An effect of this would be to cut the present maintenance tax below \$1.25 per \$100 evaluation, and this would make it "impossible to operate the school up to the present standards," Whiteaker said.

All of this would be contingent upon the expected action of the state accreditation committee this year. Sudan already has been warned repeatedly about the lower standards of Collins school, and it is expected that the state will issue an ultimatum of "integrate or create equal facilities."

In a direct reply to the question of another tax raise coming up soon, Whiteaker explained that any raise in interest and sinking fund (that is, any building done to take care of the Negroes) would have to be voted on by the taxpayers in another election.

Approval of Saturday's vote would give the board the power to raise the maintenance tax up to as high as \$1.50, but the 25 cents interest and sinking fund cannot go higher without a vote of the people.

School board members said they would be happy to take time out to go over the problem with any interested person who will contact them individually before Saturday's election. Board members are Whiteaker,

Lee Roy Fisher, Bill Gore, W. C. Masten, Gus Walden, Nolan Parrish and W. B. Jones Jr.

In a regular school board meeting following the public meeting, the board called an election for two trustees for April 6. Terms of Whiteaker and Parrish are due to expire then.

SHEEP CHAMPION — Mark Parrish of Amherst is shown here with the champion of the sheep division in last Saturday's 4-H and FFA project show at Sudan livestock show barn. Behind Parrish is Dyanne Curry of Sudan, Littlefield District FFA Sweetheart, who presented awards to the winners.

DEVOTIONAL

Scripture: St. Matthew 7:1-5; 23:23, 15:7-9; 10:32. "Woe unto you, scribes and Pharisees, hypocrites!" Hypocrites - none of us like to be called a hypocrite. It was a terrible name to be called in Jesus' day, and it is just as terrible today. Yet sometimes the term applied to those claiming to be a Child of God seems to be justified. However, you notice I said "seems to be," for before I would call another human being "hypocrite" I would be very sure it was God's Holy Ghost speaking through me, for only God can discern what is in the heart of man. But the term as applied by Jesus to the scribes (who were copiers of the Scriptures and eventually had become self-appointed interpreters) and Pharisees (the strictest sect of Judaism, adding to the already numerous laws, new ones to be kept to the letter) causes Christians to take a look at themselves in order to search out how

we "measure up" to Jesus' standard. Remembering that Jesus looks only at the inward man, how do I appear today before my Lord?

Sometimes I hear someone say "I would do this, or I would join this church, but there are just too many hypocrites in it. Why, I'm as good or better than they are, I can tell you." (Have you ever made a similar remark?) But, will you hear this? We are not to measure ourselves by others, but we need to get over and over again, "How do I measure up to Jesus?"

Hypocrites in any church are a shameful disgrace, bringing no honor to the name of Christ. But, if you are using them as an instrument to keep you from joining any church of Jesus Christ, you are doing exactly what the devil wants you to do. Just ask Jesus, search the Scriptures, and pray, and I believe you will get that answer.

So I plead with you today, not to look at what you consider a fault or a sin in your neighbor, but to seek out the answer of "What am I in the sight of God?" For, as much as we want the love and fellowship of others, it is only Jesus who can give us eternal love, joy, peace, and eternal life! Then -

"If you are tired of the load of your sin, let Jesus come into your heart."

GO TO CHURCH SUNDAY

Glyna Masten On Honor Roll

FLASHVIEW (Special) - Miss Glyna Masten, senior at Wayland Baptist College and daughter of Mr. and Mrs. W. C. Masten, Hwy. 308, is among 25 students listed on the first semester Dean's Honor Roll with a grade-point average of 2.50 or above. She posted a 2.52 on the list.

Miss Masten, physical education major and English minor, is president of the Physical Education Major and Minor Club and is a member of the Women's Council and Sigma Tau Delta, national honorary English fraternity. This year she was a Who's Who in American Colleges and Universities selection and was chosen by her classmates as Senior Favorite. Miss Masten is in her fourth season with the internationally famous Flying Queens, women's basketball team of Wayland.

Your Directors Here European Guests of U. S. Retirees

Miss Luciana Cantoni and Miss Karin Lichtenberger enjoy their first view of New York. They are visiting the United States as guests of the hundreds of older Americans who have toured Europe under their guidance.

Two attractive young European women, both under 30, are visiting America for the first time as guests of the 600,000 member American Association of Retired Persons and the 200,000 member National Retired Teachers Association. Miss Luciana Cantoni, Milan, Italy, and Miss Karin Lichtenberger, Stuttgart, Germany, have been guiding European tours planned and sponsored by these two nonprofit associations since 1958.

At a luncheon in New York, Mrs. Ruth O. Lann, NRTA-AARP Consultant and Coordinator, National Services, presented the young ladies with honorary membership in both associations. She stated that their "knowledge, sympathy, language ability, unflinching tact and sense of humor has endeared them to hundreds of members who have enjoyed Europe with their help." Miss Cantoni said that she and the 20 other Association Tour Directors, are constantly amazed and delighted by the energy, enthusiasm and vitality of older Americans. "Older

Americans make much better tourists than Europeans in the same age bracket", Lann stated, "because they are so much more friendly, eager to learn new things and are so relaxed and informal."

Miss Lichtenberger, a graduate of the Sorbonne and the Munich Interpreter's School, told the audience: "I felt I knew America even before I came here, because of the wonderful people I met on the tours." Mrs. Lann announced that in 1963, NRTA-AARP is offering more than 100 tours to all parts of Europe, and for the first time, 65-day round-the-world tours, first of which will be conducted by Miss Cantoni. NRTA-AARP Travel Service headquarters are at 525-A Madison Ave., New York 22, N.Y.

1955 CLUB MEMBERS HAVE CHILI SUPPER

Members of the 1955 Study Club, their families and guests, were entertained with a chili supper Monday evening in the home of Mr. and Mrs. R. D. Wm. ...

These present were Mr. and Mrs. Green, Mrs. Bennett, Mrs. Green, Mr. and Mrs. S. D. Hay, Mr. and Mrs. C. E. Nichols, Mr. and Mrs. W. V. Toney, Mrs. Marvin Tollett and Durdie, Mrs. Donald Wiseman, Mr. and Mrs. Kenneth Wiseman and Belet, Mrs. J. S. Smith, Mrs. R. W. Bowman, Sam Wood, Mrs. W. H. Lyle, and Mr. and Mrs. Milton Wiseman.

Science Briefs

High Life: Recent balloon tests have revealed that a family of bacteria already well-known on the ground also lives 10 miles up in the air, a U.S. scientist reports. Now the question is: Where does it go for its lunch?

Genetic Link: The relatives of lung cancer patients have a higher risk of getting the disease than do their healthy neighbors, a government study has reported.

It's Cold, Too: There are more than 100 flowering plants in the Arctic, but in Antarctica, an explorer-botanist notes, only three have been found.

Better Than Spunk Water: The benign tumor called the wart has been proved to be caused by a virus by two Philadelphia dermatologists.

Grain Program Changes Little

The sign-up period for the 1963 Feed Grain Program has been set from Feb. 1 through March 22, 1963.

The voluntary diversion program for feed grains are generally the same as in 1962 and 1962. A few provisions are slightly different but the principal one is the price support payment which will be available to farmers participating in the program in addition to the regular price support loans and purchase agreements.

For small farms with total feed grain base acreage of 25 acres or less, on which the producer diverts the entire feed grain base acreage, the payment rate will be on the maximum payment rate for the farm.

For other feed grain farms, the payment on the first 20% reduction from the base acreage will be the minimum payment rate and on any acreage diverted above the minimum requirement, payment will be maximum farm payment provided the intended acreage signed up is above 20%.

The average payment per acre for Lamb County for the following commodities is:

SENORS TO BE HONORED BY W. M. U. BANQUET

The W. M. U. of the First Baptist Church will entertain members of the Senior class of Sudan High School with a banquet Monday evening, Feb. 18, when the event will begin at 7 p. m. The banquet is sponsored annually by the W. M. U. group.

Dr. Charles Wood of First Baptist Church, States, will be the speaker.

Mr. and Mrs. W. V. Terry were in Lubbock Thursday.

Mr. and Mrs. Guy Walden visited in Quanah last week.

Visiting recently in the home of Mr. and Mrs. Leroy Young were his brother and family, Mr. and Mrs. Ray Young and sons of Clovis; and his sister and family, Mr. and Mrs. Chester Harrison and daughter of Hereford.

Mr. and Mrs. U. H. Miller visited the first of the week with Mr. and Mrs. R. D. Nix.

RELIGION AWARDS TO BOY SCOUTS

New Brunswick, N.J.—There is one series of awards in the Boy Scouts of America just as coveted and frequently more difficult to earn than the famous Eagle Scout Award — the religious awards.

These are not actually Scout awards but have been developed by the major national religious bodies for Scouts of their faith to earn.

The Scout works under the direction of his own minister, priest, rabbi or other religious leader for the award. It may take up to four years to earn.

While the individual requirements vary between religions, they all have in common study and projects on the history of their faith, service to their faith, and active practice of their religion.

Of the nine religious awards now in existence for Boy Scouts, the first was the "Ad Altare Dei" Award developed by the Roman Catholic Church for boys of their faith in 1941. Last year approximately 14,000 boys earned this award, and an additional 8,000 "Harvard Dei" Awards were earned by Roman Catholic Cub Scouts.

"For God And Country" Study, experience and service in Christian faith, Christian witness, Christian world outreach, Christian citizenship and Christian fellowship constitute the requirements for the Protestant "For God and Country" Award established by a committee representing the National Council of Churches, The National Association of Evangelicals and a large number of independent Protestant churches. About 12,000 were earned last year.

Other Protestant Scouts earned the "Pro Deo et Patria" Award of the Lutheran Church and the "God and Country" Award of the Episcopal Church.

Scouts of the Jewish faith can earn the "Ner Tamid" Award. There is the "Sangha" Award for Buddhist Scouts, the "Duty to God" Award for Scouts of the Church of Jesus Christ of Latter Day Saints, the "Alpha Omega" Award for Greek Orthodox Scouts and the "In the Name of God" Award for Moslem Scouts.

The newest award is the "Religion in Life" Award created in 1960 by the Unitarian-Universalist Church.

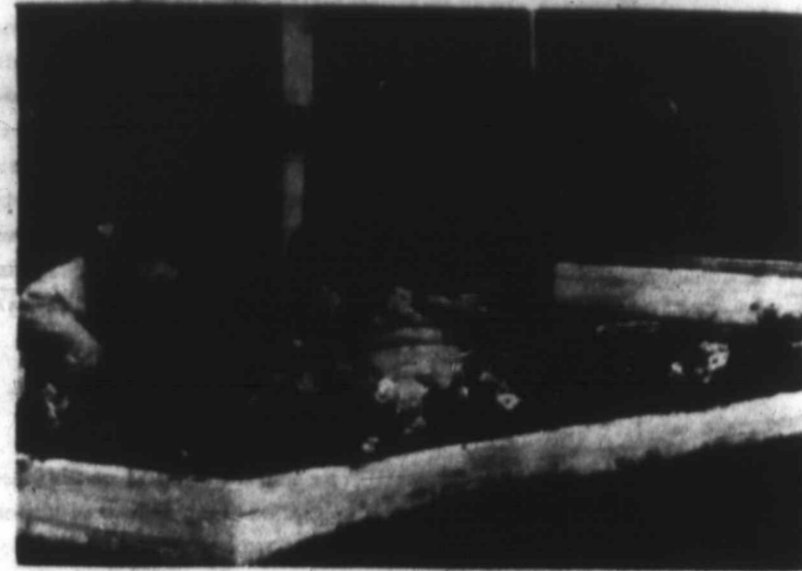

While some may worry about the religious attitudes of modern youth, the number of boys completing the difficult requirements for the Scouting religious awards grows each year, and last year approached 40,000.

Since its beginning in 1910 — 53 years ago — the Boy Scouts of America has encouraged boys to grow spiritually as well as mentally and physically. In the Scout Oath a boy pledges to "do my duty to God and my Country." "A Scout is Reverent" is the 12th part of the familiar Scout Law.

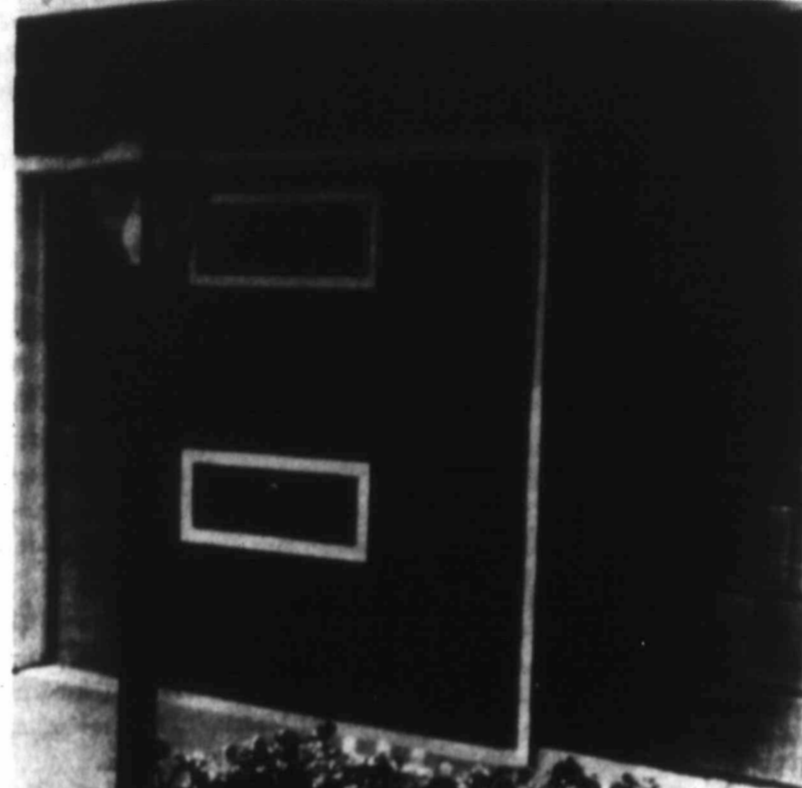

Church leaders have long recognized the asset that Scouting can be in helping youth develop. Figures just released by the National Council, Boy Scouts of America show that just over half, or about 87,000 of the nation's Cub Scout Packs, Boy Scout Troops and Explorer units are sponsored by local religious institutions.

A Picture Story

Any Place is Perfect For Petunias

It isn't often that you see petunias planted around a sand box, but the leftover petunias are as much at home there as a variety Pink Magic is atop the wall by the house in back.

A lamp post next to the path leading from garage door to house is quite usual. Unexpected in the planting of Glitters petunia in angle of driveway and path, protected by pickets.

Ray Martin of San Angelo visited last week in the home of his sister and family, Mr. and Mrs. Lynn Olds. While he was here the Olds entertained with a fish dinner Thursday when others present included Mr. and Mrs. Dean Slaughter and son and Mr. and Mrs. Lewis Fields and family.

The Old Timer

"Let me put it this way—if your car were a horse, it would have to be shot."

A Do-It-Yourself Public Service?

CHICAGO—To those home craftsmen who become mesmerized with ecstasy while planing wooden doors, shutters, storm windows and other do-it-yourself projects, this picture is presented as a public service.

It shows what could happen if the hypnotism took hold permanently and a do-it-yourselfer reduced a piece of wood to its lowest common denominator — chips. With the pictured Model 930 electric hand plane, just introduced by Wen Products, Inc., Chicago 31, Ill., a tester completely planed an 84-inch high by 36-inch wide wooden door. The result was a pile of 193-536 individual shavings, each of which was 1/4 of an inch long and 1/16 of an inch thick. The new and unique twin-water assembly of the Model 930 proved to be an important time and labor saver, especially when compared to the old-fashioned non-electric hand planes. Overheating was no problem in the continuous planing operation. The 2-inch diameter cutter assembly was driven at a speed of 14,500 R.P.M. by the plane's 1/2 HP Universal motor, but the welded burn-out proof armature allowed the unit to run cool. Lightweight (7.34 pounds total), and compact (only 7-1/2 inches high, the Model 930 is the first professional electric hand plane priced below \$50. It is comparable to planes costing more than twice as much. The aluminum plane has a 16-inch shoe length and is controlled by a finger trigger switch built into the comfortable, man-size handle. When the tester was finished, though, he had one problem. What to do with the pile of shavings. Any suggestions?

THE WOMAN'S TOUCH

This motorist is having his car checked by a Serv-ette, an attractive young lady who is part of a team of girls working in Cities Service stations in the Treston, N.J., area. The Serv-ettes, part of a Cities Service experiment to reduce the burden of its busy service station operators and mechanics, pump gas, check oil, clean windshields and handle minor repairs. The girls have been trained in car attention as well as salesmanship, and are a big hit with motorists. Part of their duty is to call at homes to inform customers about Cities Service products and local service stations.

CHILDREN'S PHOTO CONTEST

PRIZES TOTALING \$20.00

- 1st—\$9.50 Large Bronze Portrait
- 2nd—\$5.75 Sepia Tone Portrait
- 3rd—\$4.75 Portrait

Pictures Of Every Child Photographed Will Be Published In Sudan Beacon-News

EASY TO ENTER—Simply have your child's photograph taken by WINSTON B. LUCAS PHOTOGRAPHER at NO COST to you. They will show proofs from which you may choose the pose you wish entered in the contest and your child is automatically entered; and at this time you may order photographs for gifts or keepsakes if you wish. (Postage and handling 25c) but this is entirely up to you. WINSTON B. LUCAS, of Irving, an expert child photographer, will be here to take pictures, with all the necessary equipment to take nice portraits for this exciting event. There is no age limit to this contest — even the tiniest tots enjoy being photographed by our photographer.

Pretty Punch for a Party

By Betty Barlow

TRY a new flavor combination in your next party punch. A blend of quality instant coffee and chocolate syrup with milk and cream makes a delicious beverage. For an added flavor fillip, float small scoops of green pistachio ice cream on top. Terrific!

Mocha Punch with Pistachio Flavors

6 tablespoons instant Maxwell House Coffee 2 quarts milk 1 1/2 cups chocolate syrup 2 cups whipping cream 2 quarts pistachio ice cream

Combine instant coffee and 1 cup of the milk in a punch bowl. Beat until coffee is completely dissolved. Add remaining milk, the chocolate syrup, and the whipping cream. Stir well to blend.

Ladle punch into serving portions of 1 1/2 cups each. Top each portion with a small scoop of pistachio ice cream. Makes 24 servings.

Just what could occupy the mind, Point out the type or name the kind, That equals service we can give, To prove the life we choose to live, Not just a service for a few, But service for no matter who, Our service equals all that we, Can ever claim or hope to be.

QUESTIONS AND ANSWERS CONCERNING MAINTENANCE TAX ELECTION

SUDAN INDEPENDENT SCHOOL DISTRICT
SUDAN, TEXAS

- QUESTION:** What does this maintenance tax election authorize?

ANSWER: If a majority of the voters of the District approve this election, the School Board will be authorized to levy a maintenance tax rate up to \$1.50 per \$100 Assessed Valuation.
- QUESTION:** What is the Maintenance Tax used for?

ANSWER: Monies collected from the Maintenance Tax are used for the general operation of the School System such as: teachers' salaries; teaching supplies; utilities; repairs to school plant; purchase and repair of equipment; pupil transportation; expenses of and assessing and collecting taxes, etc.
- QUESTION:** What is the present tax rate authorized for the School District?

ANSWER: The District is now operating under an authorized Tax Rate of \$1.50 per \$100 Assessed Valuation. Of this \$1.50 Rate, 50¢ can be used to retire the bonded indebtedness of the District. At the present time, \$1.25 of the Tax Rate is being used for maintaining the school system and 25¢ for retirement of the outstanding bonded indebtedness.
- QUESTION:** Why is this Maintenance Tax Authorization needed?

ANSWER: The School Board has been operating the School System as economically as they feel it can be done and meet the minimum requirements of the Texas Education Agency in Austin. They have been able to keep current expenditures within current receipts. In fact they have been able to liquidate better than \$34,000.00 of a \$69,108.80 indebtedness in Operating Funds incurred during the last building program and in addition pay off a \$20,000.00 term bond voted in 1922 and maturing in 1962.

Operating under the Gilmer-Aiken School Laws of Texas, which assign a portion of the Operational School Costs to the local district in accordance with their ability to pay, the LOCAL FUND ASSIGNMENT for the Sudan Independent School District has been constantly increased from \$34,760.00 in 1956-57 to \$101,943.00 in 1962-63. The District has reached the point they can no longer operate the school and at the same time liquidate the remaining \$34,777.20 debt in Operation Funds.
- QUESTION:** Will the School Board be empowered to issue bonds under this authorization and can the monies derived from this maintenance tax be used to retire bonds?

ANSWER: No, the School Board will not be empowered to issue bonds and no monies received from the Maintenance Tax can be used to retire any bonded indebtedness. The only way additional bonds may be issued, is by majority vote of the taxpayers at a separate election held for that purpose.
- QUESTION:** What will result in case the voters defeat this Maintenance Tax election?

ANSWER: The School Board sees no alternative in case the Election is defeated, than to reduce the budgeted expenditures for maintaining the School System. This will result in the lowering of the standards of the School, the High Standards the Board has been striving to maintain.
- QUESTION:** Who may vote in this Maintenance Election?

ANSWER: Any qualified taxpaying voter who resides within the School District, and who has rendered either personal property or real property on the tax rolls of the District.
- QUESTION:** WHEN and WHERE will we vote?

ANSWER: WHEN: Saturday, February 16, 1963, from 8:00 A. M. til 7:00 P. M.
WHERE: The Community Center Building, Sudan, Texas.

Mrs. W. F. Lynch Rites Thursday

Rites for Mrs. W. F. Lynch, 81, a former Sudan resident, will be at 2 p.m. Thursday in the Sudan Funeral Home. She is being cared for by the Rev. Wayne Perry, pastor of the Redeemer Baptist Church, officiating.

Burial will be in City of Littlefield Cemetery.

Mrs. Lynch died Tuesday morning at the home of a daughter, Mrs. Frank Dooly, 1212 1/2 St. She had been in ill health for the past several years. A native of Franklin County, Ark., she had been living with her daughter and son-in-law, Mr. and Mrs. W. F. Lynch, 1212 1/2 St. for the past several years.

Survivors include five daughters, Mrs. Hargis and Mrs. Dooly; Mrs. Minnie Hawkins, Newton, Pa.; Mrs. L. L. Gibson, Priddy, Okla.; and Mrs. Leah Pope, Los Angeles; two sons, L. W. Lynch, Jr., Houston; and W. F. Lynch, III, Dallas; and a grandchild, Mrs. L. L. Lynch, Dallas. She was preceded in death by her husband, W. F. Lynch, who died in 1934.

Funeral services will be at 2 p.m. Thursday at the Sudan Funeral Home. Burial will be in the American Legion Auxiliary at Littlefield.

Let us press on unto perfection. —(Heb. 6:1).

A balanced life is what makes for contentment as well as growth. If we had been meant to be only physical, only mental, or only spiritual, we would have been created differently. We are created three-fold beings and as we pray and work toward establishing perfect balance, we more and more express the perfection God means for us to express.

Anyone want to nominate the national sport fish?

A question like that would probably raise the interest of then the fish of something like 30 million anglers in these United States.

But, note Mercury outboards fishing observers, the selection would gradually boil down to two general fish, trout and bass. And, while the difference between species of each general type would be important, eventually black bass would sweep the field—perhaps not with loud acclaim but certainly on the basis of total vote.

The black bass is well entrenched in the traditional warm water areas of the south, as well as in much of the eastern two-thirds of the nation. And even in the west where "rainbow" competes with rainbow trout he's steadily attracting more and more followers.

The reasons for this growing popularity are many. New impoundments and farm ponds are expanding the distribution of bass. Greater fishing pressures force more anglers to test new fishing opportunities. And, as fishermen are introduced to largemouth bass, their admiration for this tenacious scrapper develops.

Catching, pugnacious and boasting a voracious appetite, the bass's table fare runs the gamut from large birds on occasion down to insects. Despite his culinary indiscretions he can be extremely choosy when taking a lure, thus making him a more esteemed prize.

Summing up, Mercury says the black bass has everything in his favor: sturdiness, unpredictability and a tendency to be as good in the frying pan as he is on the end of a line.

How do you vote?

30 ATTEND COFFEE AT BACCUS HOME

Mrs. L. W. Baccus entertained with a coffee Thursday morning when approximately 30 attended.

Out-of-town guests present included Mrs. C. C. Williams of Dimmitt; Mrs. Clois Faust, Mrs. Clarence Nichols, Mrs. Green, Mrs. Thomas Moss all of Littlefield, and Mrs. Ray Shafer of Pecos.

WAYLAND GROUP TO GIVE PROGRAM HERE

The Mission Band of Wayland College of Music will appear on the program at the Sunday evening services of the First Baptist Church.

The band will present a drama, "The Challenge of the Cross", and will direct a Young Peoples Fellowship service at the close of the evening.

The program will start at 7:30.

W M U CHANGES MEETING DATE

The W M U of the First Baptist Church met last week for a business meeting with Mrs. R. E. DeLoach, vice president, presiding.

The meeting day was changed from Tuesday to Monday afternoon with the time being set at 3 p. m.

Present were Mesdames DeLoach, Willie Hazel, J. P. Arnold Sr., Halbert Harver, John Bush, Homer Morris, L. F. Meeks, and Miss Ruby Mince.

Mrs. Noel Lumpkin and Mrs. Bobby Jack Mankham were Lab-visitors. Saturday.

Mrs. Hattie Hankey of Littlefield visited during the weekend in the home of her daughter Mrs. Joe Salem and family.

Mr. and Mrs. S. D. Hay and Mr. and Mrs. W. V. Terry were in Amarillo Friday to attend a Texas Panhandle Heritage Foundation meeting. Mrs. Terry is a Lamb County Board member of the foundation and Hay is the Sudan projects chairman.

SHIRLEY MATHEWS HAS BIRTHDAY PARTY

Shirley Mathews was entertained with a birthday party Friday afternoon held in the home of Mrs. Jimmy Carpenter.

Those attending were Eloise Egan, July Sten, Dyanne Curry, Patricia McCurry, Kandy Miller, Sharon Walker and Janice Mathews.

Nancy Williams was confined last week to a Littlefield hospital.

VALENTINE MISSIVES

that express sentiment informally like the Norcross card shown above will be the trend this year when Americans will exchange more than half-a-billion Valentine cards. Based on the latest census figure of 186-million Americans, each one of us is destined to receive about 3 Valentines each.

Delicate lace designs on parchment papers spell out traditional romance on other cards of keepsake quality.

Valentines were the first greeting card and predate the Christmas card by some 200 years. They originally came into being as a means for ardent swains to declare their true and undying love for the girl of their heart.

America's 15-million bachelors will mail their epistles of love, but where will the other half billion Valentines go in 1963? Well, about 50-million Mothers will be honored on February 14; 90-million married couples will exchange Valentines, and more than 53-million children under 14 years are slated to send out a dozen each to classmates and teachers. It looks like we love love.

CHEVROLET TRUCK QUALITY

You can see the difference wherever you look

If you believe various makes of trucks are pretty much alike, you aren't doing justice to your pocketbook. There are differences.

A Chevrolet truck welcomes comparison. Look at the little things on it—latches, hinges, stitching in the upholstery. Notice how strong the tailgate is, the rubber encased chains that keep it from sagging.

The body floor is made of select wood to eliminate the rust problem and give you better footing. The lower side panels are double-walled; you might dent the inside but it won't show through.

Chevrolet designs suspension systems to fit your need. The light-duty type is strong on comfort. Another kind for heavier trucks stiffens up as you increase your load and vice versa. Make sense?

If you are going to need a new truck this year, you should look at the quality Chevrolet has to offer. May we bring over a new '63 so you can examine it?

NEW 6-CYLINDER ENGINES

New High Torque 230-cu.-in. Six is lighter but more powerful than its predecessor. It is standard in Series C60 through C66 models.

New High Torque 295-cu.-in. Six—most powerful truck 6 Chevrolet has ever built! Standard in Series C66, optional at extra cost in lighter models.

TO EVERY NON-COMMUNIST

EVERYWHERE MEN ARE HUNGRY FOR LIVING BREAD. They are fed stones that glitter but do not satisfy. They long for the hope of a new world. They are offered the fear of world destruction or world dictatorship. In their hearts they know that if men continue to live like clever, greedy beasts, sooner or later they will be caged or shot.

Man's attitude must change. The apple in the Garden of Eden was good. Somebody's attitude to it was wrong.

Science is good. But much of it now seems devoted to the art of destruction.

Education is good. But education nowadays seems to justify moral and spiritual bankruptcy and to destroy faith.

Wealth is good. But when it becomes the aim of great societies, the character of people decays.

More wages, shorter hours, better social and economic conditions are all good and all necessary. But in the hearts of millions of workers, white, black, yellow and brown, is a gathering disillusionment.

Freedom is good, and is coming like a flood to Africa. But where yesterday black men hated white, now black fears black. And tomorrow may see black or red imperialism where white imperialism reigned yesterday.

Asia hoped to teach the West the art of unity. For years India practiced a policy of "neutrality," which was praised to high heaven by the Red Chinese giant. Now that giant has crossed the nation's frontier and swallowed 30,000 square miles of Indian soil. The feet of invaders march on land that was successfully defended during 200 years of British rule.

The Communists say that the free world is divided within itself. That is true. But has the Communist world an answer? A Communist Ambassador from Eastern Europe said recently,

"There is deep division in the Communist world. Khrushchev has moved beyond Stalin. He does not want to force his ideas on humanity by pointing a bayonet at their bellies. But Mao Tse-tung believes war not only inevitable, but necessary, in order to carry mankind into Communism. He has told us we must risk 300,000,000 lives to do it."

Khrushchev thinks the most dangerous anti-revolutionaries are the Chinese. Mao Tse-tung thinks the most dangerous anti-revolutionaries are the Russians. And this peril is projected into Europe where Albania and Yugoslavia growl and bare their teeth as they follow their separate paths.

Ordinary men look on the policies, or lack of policies, which brought the world to the brink of war over Cuba as insanity. They would cry "Halt," but do not see the way.

The answer lies in the character of men.

It remains true that unless we deal with human nature drastically and thoroughly on a colossal scale, man will follow his historic path to violence and destruction. Capitalism, free enterprise and democratic socialism have failed to cure the selfishness that permits too few to have too much, while too many have too little. The Communist states have failed to answer the hate and bitterness that drive men into danger.

Hating Russia or hating America or hating another class, color, race or country multiplies the problem and cures nothing. The free world as well as the Communist world needs help, not hate.

Squatting in the streets, protesting about the atom bomb and running to a safer place when danger threatens does not seem an intelligent reply to the challenge of the century.

Those who would be willing to die for their country in war but meanwhile insist on living comfortably, selfishly, undisturbed, do not answer the challenge of world revolution.

Men who at international conferences talk about unity when at home family life, politics and industry are divided by ambition, fear, jealousy and greed, do not convince or change anybody.

Some criticize the "godlessness of Communism." But they make excuses for promiscuity, homosexuality and indulgence in high places. This increases security risks. It also confirms the cynicism of those who look from outside at self-styled, God-fearing Christian societies that have become corrupted. Men deny the power of God to cure the disease because they are in love with the disease itself.

An answer is at large in the modern world.

It is moving massively throughout the world and changing the outlook of continents.

Japan—"New men, new nations, a new world"

Prime Minister Ikeda of Japan in October opened a new Moral Re-Armament center at Odawara. He told the conference that his objective as Prime Minister is to double the national income. He said, "The foundation for this should be new men who are right and true. MRA is working to create new men, new nations, and a new world." Japan's senior post-war statesman, Shigeru Yoshida, said, "I want to study MRA so that I can make it my own and become a part of it."

To Odawara came 6,500 people from 42 nations. One of them was Colonel Kim Chong Pil, second man in Korea, a country with a 60-year-old hatred of Japan. *Yomiuri Shimbun*, Tokyo daily, said, "Japanese-Korean negotiations are at an impasse. This meeting between Ikeda and Kim will be a climax to lead these negotiations to a conclusion." Colonel Kim said at Odawara, "You have demonstrated the possibility of creating one world, family by transcending political, national and racial barriers. Coming here has recalled me to God's purpose for my life—to restore the moral standards of my country. I pledge myself that I will always be with you, any time, whatever the circumstances."

Italian workers, almost entirely Communist, absorbed in the Latin American play *El Condor*, near Naples, November, 1962.

"Space Is So Startling"

Leaders of Japan planned for the new space-age musical, *Space Is So Startling*, to travel the land. A special train was contributed free by the National Railways for this journey. The play drew crowds to the theaters in Tokyo, Hokkaido province, Osaka and Yokohama. Millions across Japan saw it on television. *Mainichi*, with its four million circulation, writing under the headline "Setting Theatrical Precedent," described the staging, music and choreography as unique and said, "The play shows the road that humanity should choose."

The leaders of the Zengakuren students, men who thought Khrushchev and Stalin as reactionary as the leaders of the West, came to picket the theater in Hokkaido. They were out to cause a riot. But they were stunned to silence by the passion of the MRA force for a social, economic and global revolution far swifter and more penetrating than their own. They called off the riot and saw the play instead. They filled the theater with their friends. They were still talking with members of the cast two hours after the final curtain. In the dormitories where Marxism and rioting were discussed until 4 a.m. they now discuss Moral Re-Armament. These students organized showings of the MRA films in their university. With the money made they travelled 712 miles by train to Odawara for training in MRA.

The world longs for unity. In Japan Socialists and Government supporters, trade unionists and industrialists, the youth in universities and armed forces are accepting the discipline of unity necessary to enlist both the Communist and non-Communist worlds in the greatest revolution of all time.

India—"Every division can be solved"

From the Odawara Assembly, seven members of the Parliament of the South Indian State of Kerala returned to a country at war and "waking to reality." They were some of the men who wrested the State from Communist control three years ago, at a time when many in New Delhi were out of touch with reality. These seven men, representatives of bitterly opposed democratic factions, now say, "Anti-Communism united us to throw out the Communists, but within two months of victory we were fighting each other, again. Anti-Communism is no basis for permanent unity. We needed a superior ideology, and this we found in MRA."

These men of Kerala saw Archbishop Makarios, President of Cyprus, who was on a state visit to India. K. M. Cherian, Chief Editor of the largest Kerala newspaper, told him, "We bring you a message of hope—that through MRA every division and problem can be solved. This has been our experience in Kerala." Archbishop Makarios replied, "I greatly appreciate the action and purpose of Moral Re-Armament which is at work in our country also. You have our blessing. Yours is a right and just struggle."

Italy—"A complete Revolution"

In Italy, the home of the Church and of the largest Communist Party in Western Europe, a Latin American force is carrying MRA from city to city. The force includes students who were militant Marxists planning bloody revolution. Also generals, industrialists and workers' leaders. Thousands are massing to their support in towns and villages where poverty and bitterness have ruled, to hear them and see their play *El Condor*.

In Naples, where some of the audiences were 80 per cent Communist, a Communist Professor of Philosophy said, "MRA takes half-hearted Christians and bitter Marxists and enlists them both in a complete revolution."

The Naples paper *Roma* headlines a page on the world development of Moral Re-Armament, "A Banner of Hope—Millions in the World Fight for Moral Re-Armament."

The Secretary-General of the Communist Party in one town

said, "What these people say is exactly what I would like to do for the world. Socialism and Communism are not the final thing. The final thing is what I have seen here."

Britain—"Next step for our people"

To Britain on December 19 came the new musical, *Space Is So Startling*, direct from its Japanese journey. It will be shown for six weeks at the Westminster Theatre. During the last year 160,000 people have paid to see plays which are doing for Britain the job which the musical play has been doing in Japan.

Miss Nora Swinburne takes the leading role in *Music at Midnight*, which had its 219th performance in Britain and is shortly to be launched as a play—and later filmed—in the United States.

Miss Swinburne says, "People from all over Britain write to me and say how much the play has meant to them and what a difference its spirit is making in the country. It is a play for every country."

The Vice-Chairman of 10,000 miners in a North-Eastern coalfield of England said after seeing this play, "I am absolutely prepared to put the same effort into the fight for the Moral Re-Armament of my country that I put into the Communist Party for twenty-six years. None of the major political parties has what our country needs. The workers are disillusioned with their leadership. What I have seen here convinced me that this is the next step for our people."

The American premiere is January 10th in Los Angeles Biltmore Theatre, followed by a national tour that includes La Jolla, Palm Springs, Santa Barbara, San Francisco, through the Southwest and across the nation.

MRA gives the worker, the housewife, the statesman, the businessman and the ordinary man everywhere the chance to make modern history. Its aim is a world where all hungry are fed, all homeless housed, and where every color, class, race and background has a proper chance to work together in rebuilding the world.

The world will not stay the same. It will either be destroyed or changed. Many sincere Communists think force is the only means to change the system. Non-Communists, willing to create a revolution swifter and deeper than a revolution of force because it changes men, will offer a greater revolution to enlist the sincere Communists and bring hope to humanity.

Housewarming Honors Couple

Mr. and Mrs. Ed Bellar were honored Sunday night when friends called at their new home. The occasion was a housewarming.

Hostess gift to Mr. and Mrs. Bellar included a pole lamp and bath room set with towels to match.

The Valentine theme was used for party decorations and the serving table featured a red net cloth over red felt.

Hosts and hostesses for the event included Mrs. Beulah Wiseman, Mr. and Mrs. Weaver Barnett, Mr. and Mrs. Bernard Wilson, Mr. and Mrs. C. E. Nichols, Mr. and Mrs. R. S. Gatewood, Mr. and Mrs. Albert Simmons, Mr. and Mrs. G. W. Masten, Mr. and Mrs. W. C. Masten, Mr. and Mrs. Bob Masten, Mr. and Mrs. Early Bartley, Mr. and Mrs. Oscar Bartley and Mr. and Mrs. Raymond Hanna.

Mrs. M. C. Engman and Geneva Ingle were in Dallas the first of the week to attend a state beauticians meeting.

Stepping Out in Carefree Organdy

A young party girl will step out in style in this or any season when wearing a sprightly bouffant yellow dress of fine pedi-swiss organdy. The V-shaped, lace-trimmed bodice joins the waist at a crisp bow. Wee Togs such as this offer an extra bonus for mothers. Since the fabric is made of "Dacron" polyester and cotton it washes easily, needs little or no ironing, and still retains its crisp, bandbox look.

REV. FRANK WEIR GOES TO MEXICO

Rev. Frank Weir left the first of the week for Mexico where he was to be a member of a mission tour. The 23-member group left Dallas Tuesday by air with the first stop in Monterrey. From there the group went to Mexico City and made tours and visits from the city.

Rev. Weir will be gone nine days and the trip is being sponsored by the Methodist Church Board of Missions.

PERSONALS

Doyle Bacon was in Dallas the first of the week.

Mrs. E. L. Crow returned Friday from visiting a sister in Brownwood.

Rev. and Mrs. Frank Weir were in Children last week to visit in the home of relatives including his sister and family, Mr. and Mrs. A. J. Johnson, and his brother and family, Mr. and Mrs. George Weis.

Dr. and Mrs. Robert J. Salem and children of Lubbock were Sunday guests in the home of his parents, Mr. and Mrs. Joe Salem.

Mrs. Kenneth Bugen was confined the first of the week to a hospital in Littlefield.

The Fisherman's Club met Monday evening at the First Methodist Church when guests were present from Earth. A film was shown those attending. Presiding was president E. C. Minyard.

Mrs. C. M. Feneaux returned home the first of the week from a Littlefield hospital where she had been confined for a check-up.

Mr. and Mrs. W. O. Willingham left Saturday for an extended trip along the coast and will visit in Mexico City and other points.

Dr. and Mrs. Nelson Nichols and family of Lubbock visited during the weekend with relatives here, including his mother, Mrs. J. S. Smith.

Visiting in the home of Mr. and Mrs. R. F. Markham is their grandson, Reed, of New York. He is the son of Mr. and Mrs. H. A. Markham.

Balance Your Budget

The house is small, but the vegetable garden is large in this picture. However, even a small home garden will give your family many delectable, full-flavored meals of vegetables.

The recent freeze in the southern states has upped vegetable prices as well as those of citrus fruits. You can, however, recoup the extra dollars spent for the all-important, vitamin-laden greenstuffs you feed your family this winter. Simply and easily the money can not only be regained but supplemented by planting a home vegetable garden as soon as the weather permits.

Even a tiny space will yield many meals of vegetables. Consider that area behind the garage. If it's in sun almost all day, it can be converted to a vegetable garden this year. Or a long strip on one side of the back yard or a border surrounding the patio will serve as well.

A simple plan for an area only 4 feet wide and 10 feet long would provide for 4 rows, each the length of the area.

One of these might be planted half to carrots and half to beets, with radish seeds sown between beet and carrot seeds; radishes to be pulled and eaten before the other crops grow large.

A second row might be devoted to broccoli or cabbage if your family likes these vegetables. Otherwise, how about bush type squash?

A third row could be used for half a dozen tomato plants

staked and trained to a single stem each. Between the tomato lettuce might be grown, planting only 3 feet of row at a time so as to have fresh, young lettuce for a long period.

Swiss chard, the green that yields most over a long harvest period, would be a good choice for that fourth row. But, if your family prefers spinach, then plant spinach very early and, when it has been eaten, plant turnips for a later crop.

Plant early so as to get the most yield from the area used. Don't grow any vegetables that your family doesn't like.

Cover over the ground between rows with layers of newspaper or something equally inexpensive just as soon as the vegetable seedlings are well above ground. This makes weeding a minor chore.

Above all, pick the vegetables when they're young and tender — don't let them get old and tough. And have fun!

Little Known Facts About Space Flight

NEW YORK — Space is a funny thing: To get there about 40 cents of every dollar spent has to pay for things that aren't going anywhere at all — ground support equipment like the 4-million dollar gantry for the United States' manned moon mission.

Steelways, official publication of American Iron and Steel Institute in reporting on this as a major new market for steel has tracked down some of the fascinating hardware that the taxpayer's dollars are buying these days.

Insulated steel tanks that could keep boiling coffee too hot to drink for two years but are actually used to store liquid hydrogen — major rocket fuel

BIRTHDAY DINNER HONORS MRS. GUNN

A birthday dinner honoring Mrs. R. L. Gunn was held Sunday in the home of Mr. and Mrs. Darwin Reid of Clovis. Mrs. Reid is the granddaughter of Mrs. Gunn, a pot luck dinner was served and afterwards Mrs. Gunn opened her many gifts.

Those present were: Mr. and Mrs. Hurdell Gunn, Betty Craig and Carolyn Dimmitt, Mr. and Mrs. Leon Gunn of Dimmitt, Mr. and Mrs. W. A. Reid of Clovis, Mrs. R. C. Burnett of Sedan, Mr. and Mrs. John Burnett, Charles and Carl of Sudan, Mr. and Mrs. Dale Burnett, Stefan, Mr. and Mrs. Don Cook and Dale Ray, Dimmitt; Mrs. Donnie Presley, Dimmitt; Mrs. and Mr. P. E. Boddaw and Oreda of Dimmitt. The host Mr. and Mrs. Darwin Reid, and the honoree and her husband, Mr. and Mrs. R. L. Gunn.

at 423 degrees below zero. A multi-million dollar space simulator for testing vehicles in an atmosphere about one-billionth that here on earth at sea level yet this is but a billionth the vacuum that exists in actual space!

Miniaturized steel ball bearings for instrumentation that are so small that it takes 37,400 of them to make a pound and that pound would cost more than \$182,000 though the special steel the bearings are made of costs about \$2 a pound.

Little wonder that satellite launching costs are currently estimated to run \$1,000 to \$2,000 for each pound of payload in a 300-mile orbit.

Steelways points out that one of the most incredible aspects of the entire space effort is the demands made on human perfection. Each of a rocket's component parts can have a reliability rating of 99,9995 yet when the thousands of components are joined resultant total reliability can be brought down as low as 50 percent.

When a rocket does go off as for instance in the case of Titan II, it is the equivalent of simultaneously triggering about 22,000 average standard-sized auto engines equal to an aggregate 45 million horsepower or 430,000 pounds of thrust.

As Steelways reports: "There is only one thing more bewildering than space and the galaxies of unanswered questions studying that dark and infinite vacuum — and that is man's effort to get there."

FISHING LINES

By DICK WOLFF

To get the year off to a good start and set the pace for the next 12 months, a recently released study of recreation preferences among Americans affirms conclusively that fishing is the nation's most popular and widely practiced sport activity.

The study by the Outdoor Recreation Resources Review Commission determined that about 36 per cent of the U.S. population 12 years of age and over fished at least once during the period June, 1960 to May, 1961. These 67,600,000 anglers fished an average of 11.9 days per year.

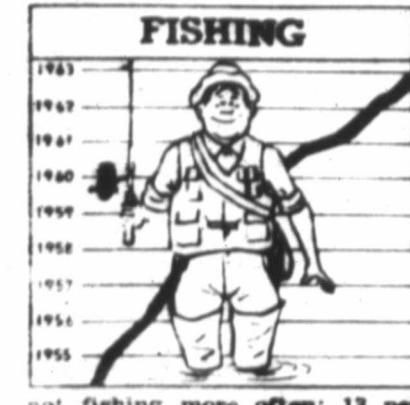

The survey turned up the fact that fishing is preferred by men (47 per cent) over any other outdoor activity. It is highest in the 25-44 age group.

The new study, Report No. 19 by the OORRRC, determined that fishing is by far most popular in the South where 44 per cent of the population expressed a preference for fishing over all other recreation in the North Central states, fishing is second only to swimming as a favored recreation in the West. It is equalled in preference only by swimming in the Northeast, picnicking, driving for pleasure, and swimming were preferred before fishing.

One-fourth of those who prefer fishing reported they participated as freely as they would like. Forty per cent mentioned lack of time as a reason for not fishing more often; 13 per cent stated that facilities were too crowded, inadequate or distant; 12 per cent listed lack of skill, and 7 per cent lack of money.

While no statistics are yet available, we would estimate that spinning tackle is the most popular type of gear used with Spincasting, baitcasting and fly fishing gear used in that order.

To our view, the introduction of easy-to-use spinning gear in the late 1940's — the Mitchell spinning reel was first marketed in the U.S. in 1949 — led to the great revival of fishing and to its preference over all other active sports today.

"ALL MOTHERS WANT THE BEST FOR THEIR CHILDREN AND SO EVEN MY PLAYHOUSE IS ELECTRICALLY HEATED," says Tammie Alderson,

5217 WEST 7TH ST., LUBBOCK, TEXAS

Tammie is as proud of her electrically-heated playhouse as her parents are of their completely all-electric home. Both houses give true comfort during the winter months. The Alderson home is heated by an electric heat pump which also cools during the summer months. You, too, can enjoy the true comfort of electric heating whether you are building a new home or remodeling your existing home. There's an electric heating method to fit your requirements.

PUBLIC SERVICE

The Aldersons enjoy time invested with their children. Together they play such games as croquet and Chinese checkers. Tammie colors in her book, while son, Craig, age 11, coaches mother on best way to win over daddy.

Below, Mrs. Alderson "supervises" while Mr. Alderson places another rock in their garden fountain. The Aldersons built the unique fountain as focal point of their attractive flower garden.

Craig is encouraged in his pursuit of hobbies. One of his favorites is model-building. As we watch him here he is busy building a model of a Jaguar racer.

Smart Pooch Pulls Strings

"Brigitte" jumped right into flight bag when the people she lives with packed for European vacation recently. The family's competent veterinarian, however, advised that the disorientation of a short stay overseas might be unkind to the animal. For a longer period of time, however, animals can travel abroad and SABENA Belgian World Airlines - Europe's Most Helpful Airline - has transported thousands of pets. Information about traveling with a pet can be obtained from the consulate of the country you intend to visit. The United States requires a health certificate and an anti-rabies inoculation for presentation on the return flight. In Belgium the requirements are also relatively uncomplicated: a health certificate and a rabies shot administered not less than 30 days nor more than one year prior to entry.

Personals

Robert Earl Williamson has returned home after being confined to a Littlefield hospital.

A YWA Houseparty will be held at the First Baptist Church in Littlefield this weekend. Sponsor of the local YMA group of the First Baptist Church here is Mrs. Don Dykes.

Mr. and Mrs. Corey Rudd have moved into the house formerly occupied by the Dan Woods. Mr. and Mrs. Wood have moved to a farm they recently purchased.

Mr. and Mrs. John Nix of Texline visited during the weekend in the home of Mr. and Mrs. R. D. Nix.

Mr. and Mrs. Jay Miller were weekend guests in the home of Mr. and Mrs. Harold Close in Clovis.

FOR RENT

Two Bedroom Trailer house, at Sands Motel, \$15 per week. All bills paid. Phone 227-3291.

Cozy Sleeper

The youngest member of the family will be snug as a bunny all winter long, tucked into this adorable sleeper made in a new brushed knit fabric of "Orlon" acrylic fiber and stretch nylon. The blanket-weight fabric actually stretches in both directions, so that the garment grows as the little one grows. Called "Bouffie", this cozy-warm garment designed by Kapart is exceptionally well made. There are no shoulder seams and one continuous piece of fabric is used for the front, sleeves and top of the back. The sleeper, which comes in yellow, blue or pink, washes easily by hand or by machine, and dries as soft and fluffy as down.

Shopping Scene

The Department of Agriculture's Extension Service predicts little price change in such fresh vegetables as carrots, potatoes, broccoli, celery, head lettuce and sweet potatoes. Pork is approaching its seasonal low; and spring lamb is another thrifty buy.

The D & D Company of Greeley, Colorado, packagers of Big D's Great Northern beans, suggests you take a tip from New Englanders and serve Saturday night's baked beans on Sunday morning... perhaps with codfish cakes and brown bread.

And to add a touch of the Old South to your winter menu, buy loose-frozen speckled butter beans, cut okra, blackeye peas, lady creme peas, field peas with snaps, crowder peas, whole okra and cut pole beans. They're packed in polyethylene bags by Southland Frozen Foods, Inc., New York.

Shell color doesn't affect the food value you get from eggs, so buy the less expensive ones. And choose lower-grade eggs (B or C) for scrambling, omelets, cooking or baking. Buy Grade A for cooking in the shell, frying and poaching.

We've found a new spot remover that's effective, convenient and safe for pocket or purse. Called "Spot-Chief", it's a small cloth saturated with a non-inflammable cleaning fluid. Each pad is packaged in foil, with eight pads packaged in a plastic box or flexible, wallet-type pouch. "Spot-Chief" even removes lipstick stains, too!
