THIRTY-NINTH YEAR

SUDAN, LAMB COUNTY, TEXAS THURSDAY, SEPTEMBER 12, 1963

NUMBER 28

WOODWORK BY DALTON

THERE WAS this fellow the other day who dared to speak out against the idea that people nowadays are softer than they were in the old days, and less courageous. (I've said this myself, and so have lots of other people.)

He said this "You hear a lot about how brave the settlers and the old west pioneers had to be, but they didn't have half the trouble most of us have today. Fighting Indians occasionally was tough, but it was nothing like having to get up every morning and know you're gonna have to fight those bill collectors all day!"

I guess most of us would be willing to concede he has a point there.

LAST WEEK we received our annual letter from J. E. Dey of Children. Some of you may remember a couple of three years ago I wrote a column about Mr. Dey, whom I've never met, but who sends letters to newspapers around the area, enclosing 10 cents in stamps for "a new late copy of your newspaper to see and read now at once, you see."

We always send him copies of the paper we publish, as soon as we get around to it, especially since he always threatens "to put the matter in the hands of higher officials for action if you don't send me a new late copy of your newspaper to see and read now at once - you see or refund my 10 cents now at once."

We forgot to send it last week, and this week received a second letter, which didn't threaten as further, but did chide us about being slow, saying in part:

"Dear Sir, I'll write you this to tell you all that I see that you all never did mail my new late copy of your paper to me at all that I sent the ten cents in stamps to you all for last week you see and so I'll ask you all again kindly to please mail the new late copy of your paper on to me now at once to see and read so I can get it now at once you see to see and read."

Apparently Mr. Dey is an elderly person who enjoys reading area newspapers, and we are mailing him a copy now at once you see.

We're happy to oblige him, but can't help noticing that he has the same affliction a lot of other

High School Enrolls 153

Enrollment in Sudan High School reached its highest point in several years this semester as 153 have signed for classes.

In addition, the grade school has 410 students and the six-grade colored school 57, to make a total of 620 in Sudan Public Schools, it was reported this week.

Twelve Negro students are enrolled in Sudan High School this first semester of integration in the upper grades. A total of 31 Negro students are enrolled in the formerly all-white school, with the breakdown as follows:

Ten in seventh grade, nine in eighth grade, five freshmen, four sophomores, one junior and two seniors. School officials said the colored students have been well received by the other students.

Total enrollment in Sudan High school last year was around 120.

SCHOOL ADOPTS BUDGET FOR COMING YEAR

A budget calling for expenditures of \$351,521 was adopted by Sudan Schools Monday night following a budget hearing. This includes allowance of \$34,500 to pay off the existing short time debt, it was reported. The current operational budget calls for expenditures of about \$319,000. Revenue anticipated for the year was reported at \$354,793.

folks have - of wanting everything done right now (at once).

LAST WEEK, the first of the football season, I started off well by not missing any predictions in the paper. I didn't make any. This week, I can't neglect my duty, with hundreds of readers waiting for my choices of the winners, so they can bet on the other team.

HAROLD MILLER RITES HELD IN DIMMITT

Funeral services for Harold Miller, a former Sudan area resident and son-in-law to Mrs. Ola Baccus, were held last Thursday morning at First Baptist Church in Dimmitt.

Among those going from Sudan were Mrs. Baccus, Mr. and Mrs. Doyle Baccus, Mr. and Mrs. E. L. Crow, Mrs. Mackie Seymore and Mr. and Mrs. Bill Humphreys.

Young Farmers To Join Field Day

Sudan Young Farmers will send 10 members to the annual Field Day program and barbecue at the Halfway Experiment Station, Friday, Sept. 13.

The Young Farmers were invited to take part in the program and the following members were selected to participate: Tractor drivers, Wayne Swart, S. A. Farmer, Robert DeLoach, Marvin Bowling, Pudd Wiseman, Guides, Alvin Mennamore, James Withrow, Calvin Wiseman Jr., Ken Bugen, Don Ham and Jerry Ray.

On Saturday, Sept. 14, there will be an area convention of Young Farmers and Young Homemakers at Flatview, at which all members are invited to be present. Plans have been made to send eight couples and Miss JoAnn Henry, home economics teacher. Mrs. Ruth Ham is delegate for the secretary-treasurer's post.

By DALTON WOOD

With former alternate quarterback Mike Smith suddenly blossoming out as a top-notch pass receiver and halfback, and with senior quarterback Tommy Thomson throwing better than ever before, the Sudan Hornets Friday night won a 20-12 opening game victory over the towering Morton Indians.

Contributing mightily to the win was sparkling defensive play by halfback Pat Brown, tackle Kemal May and Tommy King, who played center, guard, linebacker and fumble-grubber.

King, a 140-pounder who played only on offense last season, made the most of his first opportunity on defense, cutting down the big Morton backs all over the field. He was in on 17 tackles, six of them unassisted, twice was the direct cause of Morton fumbles, and grabbed one fumble in the air.

May, playing against tackles outweighing him by more than 50 pounds, still refused to be taken out of the play, and was in on 13 tackles. Near the end of the first quarter, after Morton's big No. 10, Sherrill Griffith, intercepted a pass and broke into the clear, May overhauled him from behind to save a sure touchdown.

Brown also saved a TD almost single-handedly when he made three out of four tackles after Morton had a first down on the Sudan 10 in the fourth period. He was credited with 11 tackles.

Although Morton was probably the biggest team the Hornets will face all year, they will run up against a faster, more determined eleven this week, when they go to Friona. The Chiefs snapped a 27-game losing streak last Friday

by socking another big team, Farwell, 26-13, and scouts reported that red shirts swarmed all over the field on every play to stop the Steers.

Although the Hornets came out of the Morton game somewhat battered, Coach Hank Brown expects most of the boys to be ready by Friday night. Fullback Roy Roberts had a swollen knee suffered on an out-of-bounds pile-up, and Mike Smith had an arm injury, but both should be okay. Biggest blow to the Hornet hopes was a pre-game injury to second team all-district tackle Robert Williamson, Sudan's biggest player at 174 pounds. Williamson has an injured knee cartilage, and it now is questionable whether and it now is questionable whether he'll play any this season.

Smith scored two touchdowns in the first half, and Roberts bulled over for the clincher in the fourth period for Sudan Friday.

Sudan took the opening kickoff and drove 61 yards to score, with the biggest play being a 32-yard pass from Thomson to End Danny Allen to the Indians 26. Roberts was the workhorse then, gaining 20 of those yards on four carries, and Smith took a pitchout off left tackle to score from 2 yards away. Thomson passed to Allen for 2 points and the Hornets led 8-0.

In the second quarter, with Griffith and HB Charles Ledbetter doing most of the damage, Morton drove 42 yards to score, Ledbetter carrying across from the 3. A pass was incomplete, and Sudan still led 8-6.

It took Sudan just 31 seconds to score again as Morton kicked off, Thomson threw one incomplete pass, and then tossed a perfect strike to Smith, who caught it waist high about 20 yards downfield, then, with end Danny Allen keeping him company, raced the rest of the 61 yards to a Hornet TD. This gave Sudan a 14-6 lead.

Morton took the second half kickoff back on a 42-yard drive to score, with FB Bobby Dobson shirting end for 14 yards and the tally. A pass try was short, and

the score was 14-12 Sudan.

Late in the third, Sudan started a drive on its own 45 which paid off with a touchdown early in the fourth. Brown and Smith carried most of the offensive load here, and Smith also caught a 13-yard pass. Roberts crashed over from six inches away after Smith carried from the 4 to that point.

That finished the scoring, although Sudan had to hold Morton on downs twice deep in Hornet territory.

Thomson completed six of 10 passes for 124 yards, had two intercepted, and also was the leading rusher with 41 yards on eight carries. Smith caught four of Thomson's passes for a total of 92 yards and also ran 10 times for 32 yards.

Three District 3-A teams opened up with victories last week, but Farwell was upended 26-13 by Friona and Hale Center was downed 20-6 by Class AA Lock-

ney. Kress won a little easier than expected, 26-6 over Anton, and Springlake proved its favorite role by rolling over Bovina 25-6. For the Wolverines, QB Jerry Breen sparkled, running 12 and 28 yards for touchdowns and passing for two others.

FRANCIS SCOTT KEY witnessed the British bombardment of Fort Mifflin during the War of 1812, and when the terrible night had ended, Key saw the American flag flying high over the ramparts in the morning mist. There was a gaping hole shot through the fort's stars. The flag was still there. Out of this experience came "The Star Spangled Banner." His portrait will be among 17 paintings in the "Faces of Freedom" exhibit in the Varied Industries Building during the 1963 State Fair of Texas, Aug. 5 through 20 in Dallas.

Booklet Shows How Industry Fights Pollution

The way in which industry is working closely with local, state and interstate regulatory agencies to achieve conservation of water and water pollution control is graphically described in a new booklet issued by United States Steel. Titled "A Study in Water

Conservation - Fairless Works, United States Steel," the booklet, which is profusely illustrated, depicts the many and extremely costly engineering features that were installed in the Fairless Works to conserve water and prevent its pollution. (Editors may obtain copies of the booklet by writing to the Public Relations Department, United States Steel, 71 Broadway, New York 6, N.Y.)

All summer the doors of the red school house at Six Flags have been nailed shut with a sign saying "School Closed, Good Cotton Picking." The cotton has all been baled and school bells are ringing for many of the Park's hosts and hostesses. Back to school marks the end of summer vacation, and the beginning of Saturday and Sunday only operation for the giant family Park.

SIX FLAGS BEGINS SATURDAY AND SUNDAY OPERATING SCHEDULE

Labor Day marked the beginning of Saturday and Sunday only operation for Six Flags Over Texas, and that means that a great many of the Park's collegiate hosts and hostesses will be carrying their happy smiles and courteous manners into the classrooms of dozens of universities and colleges throughout the United States. The 1,200-plus student staff who manned the 115-acre family funland every day during June, July and August, has been adjusted with additions of new personnel and deletions of those students who attend school too far distant from the Park to work during the fall when Six Flags is open only on Saturday and Sunday. Beginning the weekend of September 7, Six Flags will be open from 10 a.m. until 10 p.m. on weekends only. Labor Day marked the end of seven day a week operations for the Park. Thus far during the 1963 season, which opened April 20, 1,300,000 guests have enjoyed Six Flags and its over 70 rides and attractions. All rides, shows and attractions will remain in full operation until Six Flags closes for the season on December 1.

Money that stands up to be counted

A lot of Communist eyes are watching the financial strength of our government and of our people like hawks. That's because their leaders have said they would "bury us" economically—and they're waiting for it to happen.

It must be a continuing disappointment to them that, year after year, U.S. savers put so much of their savings in U.S. Savings Bonds.

This stake that Savings Bond owners now have in the strength of our country is more than \$45 billion—an all-time high.

And because savers can get their money back when they need it, that's financial strength for mil-

lions of individuals and families.

Your dollars in Savings Bonds do stand up to be counted—as a measure of the strength of our country and our people.

Help keep yourself and your country strong by regular buying of U.S. Savings Bonds, through the Payroll Savings Plan where you work, or from your bank.

- Quick facts about U.S. Savings Bonds:
- You get \$4 back for every \$3 when your Bond matures
 - Your Bonds are replaced free if lost or destroyed
 - You can save automatically on Payroll Savings.

'Pistol Pete' Convinces Skeptics Of His Ability

Canyon, Texas (Special)—When a football player with the nickname of "Pistol Pete" comes along, it's a genuine bonus for the working press. When a football player with a good "copy" nickname shows up and does more than you can write about, then you really have a bonus. This is the present case at West Texas State University.

The novelty monicker belongs to Peter Charles Pedro, a native of Lynn, Mass. The bonus belongs to the sportswriters of the Southwest, and they have made use of it. Pedro has placed West Texas State and the Panhandle area on the nation's gridiron map. He has gained yardage in enormous chunks, scored TD's almost at will and brought fans out to the ball park who previously wouldn't have dreamed of leaving the friendly confines of their living room and TV set.

In two seasons, Pedro has gained 1797 yards, scored 30 touchdowns and led WTSU to 16 wins in 21 outings and a victory in the 1963 Sun Bowl at El Paso. While completing these chores, Pete has been named AP "Back Of The Week" (Sept. 30, '61), and made the NEA All-American as a sophomore.

Last year Pedro was injured part of the season but still managed

to rack up 831 yards in only 134 carries for 6.2 average. Pete doesn't carry the mail as much as other national leaders, but he is always near the top in yards gained and average per carry.

Reams of copy have been sent to the press rooms of the nation's newspapers and magazines containing stories and quotes about the fabulous "Pistol Pete". Here are a few of those quotes.

JOE KERBEL, West Texas State Head Coach: "Pete has to be the finest running back I have ever coached or seen. His credentials speak for themselves. He is an All-American in every sense of the word."

PAT TRULY (Ft. Worth Star-Telegram sportswriter), after watching Pete gain 116 yards against arch rival Texas Tech: "Every time he went wide against Tech, he appeared on the verge of running all the way back to Massachusetts. He starts like a man stung by a hornet. He follows any blockers who happen to be able to stay in front of him as though he used radar. He may be the fastest thing in clematis."

BOB ST. JOHN (Lubbock Avalanche-Journal): "In case you've been in space or somewhere, Peter Charles Pedro plays halfback for West Texas State University better than most halfbacks play for anybody."

HANK FOLDBERG, Texas A&M head coach: "Pedro is the best running back I've seen since Glenn Davis."

SAM BLAIR (The Dallas Morning News sportswriter): "A quiet, almost shy person off the field, Pistol Pete is a quick-starting, twisting runner who weaves through a broken field as if it were filled with broken glass."

CHUCK WHITLOCK (Sports Editor, El Paso Times): "He's the finest running back I've seen in a long time. I have to go back a long ways to think of anyone to compare with him."

The name is Pedro. The quotes and accomplishments have been recorded. The rating is "All-American", 1963.

"The human race must be getting stronger. A few years ago, it took a strong man to carry 10 bucks worth of groceries home. Now, any six-year-old can do it."—**Russ Metz**, Owingsville (Ky.) Bath County News-Outlook.

Military Waste Cited by GAO

WASHINGTON — In attacking the "waste, duplication and excesses" of the Defense Department, Rep. Thomas B. Curtis (R-Mo.), cited these examples that were unearthed by the General Accounting Office:

A total of \$1.2 million in spare parts was ordered for planes no longer in use.

The Air Force bought \$365,000 in new trucks although the Army had new trucks as surplus and available for transfer.

\$65 million in excess and surplus property could have been obtained by the various branches of the military which needed the identical equipment—but it went unclaimed.

The Army Corps of Engineers disposed of 25, 10-ton crane shovels costing more than \$500,000—which were new or in economically repairable condition — while planning to spend 12 million to replace them with similar crane shovels.

The Defense Department spent \$13 million to transport personnel and baggage overseas on commercial flights even though scheduled military planes to the identical designations had room for most of the passengers.

Another guide I know carries along a pint sized vacuum bottle of coffee for each fisherman in his boat. Along about 8 o'clock he stops for coffee and urges them to do likewise. At noon he refills each bottle with lemonade, orange juice, or milk.

With individual vacuum bottles each fisherman can take time out from fishing for a refreshing drink, then get going again. And without disturbing anyone else for a bottle opener, or rocking the boat while he rummages around in an ice chest.

A friend who recently made a float trip told me how that trip worked.

Each person also had his bottle of coffee. At 10 o'clock there was some fruit for them. At noon they pulled into the bank and spread out a picnic lunch.

Then they leaned back against a big tree trunk and just relaxed and talked or caught an hour of shut-eye. As a result they started out fresh again for the afternoon.

Of course, are they didn't miss a fish during the time they were resting.

When night came they were not exhausted from beating the water with their oars. The trip was refreshing.

Instead of a day of hard work they got full enjoyment from it.

We heartily recommend that you take along refreshments on that fishing trip—be it hot drinks or cold ones. They are fine for morning or mid-afternoon pepper-soups.

Also, don't overlook that Mexican curried known as a cacha. A little nap can add a lot to the enjoyment of a trip and to your physical condition at the end of the day.

Gobbledegook No. 6718967W

Outlandish examples of the extent to which some bureaucrats will go in their insistence on red-taped procedures are constantly coming to light in Washington.

But the instance reported by Rep. Joe M. Kilgore (D-Tex.) astonished even those inured to bewildering practices in federal agencies.

Rep. Kilgore said that a government clerk one day received a form from another department which got mixed up in his pile. He read it, initialed it, and put it in his "out" basket. Two days later it came back with this note attached:

"This document was not designed for you to handle. Please erase your initials and initial the creature."

"The road to success is always under construction."—**W. M. Guy**, Haskell, (Okla.) News.

Some of us work so hard at fishing, we take all the joy out of it.

We spend so much of our time trying to catch a fish, or just covering the water, that we fail to get the complete relaxation that a fishing trip should provide.

Recently I was pleasure fishing on a central Texas lake when I saw three fishermen, all of whom I knew. Each was working the shore line with his pole.

They had hooked a few fish in the two hours of the morning. But they hadn't caught a fish in more than two hours.

Nevertheless, they were still hard at it—with the hot summer sun beaming down on them.

Before I got to their boat I could tell that each cast had lost its vigor. The men were tired. They admitted they had not stepped on shore all day.

I had a few bottles of soda pop in my ice chest so I pulled over to the shore, got out and offered each a drink and a chance to stretch his legs.

They had been sitting in a cramped position in the boat

so long they could hardly stand. Their fish had been caught long before noon, but still they were plugging.

Too many of us fish that way. Most of the time we have but one day a week—sometimes only one a month—when we can get out and fish. Then, of course, we try to crowd everything into that one day.

So we fish without regard for rest, or even food or drink.

I know a guide on a nearby lake who explains that his customers take them out to rest.

He gets them out at the crack of dawn, when fishing is at its best. About 10 o'clock he tells them they'll have just 30 minutes more of fishing. By 11 o'clock they are back at the dock.

He tells them to get into some lounging clothes, eat a good meal and meet him back at the dock at 3 o'clock. Then they will fish until sundown.

Once they've had a good meal, and their arms and bodies have had a chance to fully relax, they can fish hard the remainder of the afternoon and finish up at a time when the sunset is beautiful.

Scripture: Isaiah 5:20; St. John 3:16; St. Matthew 9:35-38; 10:24-33.

"The Harvest truly is plentiful, but the laborers are few."

With all that I am and have I seek to write words that will cause you to stop, to turn, to look at Jesus and live — to live now and to live eternally! And I know I can only say what God wants said to you who read if His purpose is to be fulfilled in this writing. Then if God has a "purpose" to be fulfilled, does it not make sense that both you and I should listen and hear what He has to say, and to be obedient to His call?

And God is calling to us! Think of that! The Great Almighty Creator is deeply aware and loves with an undying love even me!

God help me now to hear and to write — and God help you to hear Him.

Do you feel a need for more cause to hope, for more guidance, more wisdom, more joy, more fellowship, more delight, more comfort, more light, more power over temptations, more patience, more meaning for being here, more understanding, more courage, more love? You can find it in Jesus! Only in Jesus. Do you know Him? Or, do you just know something about Him?

Jesus is the only begotten Son of God, sent by God the Father to redeem and to save from death and hell into eternal life and heaven, all who will believe in Him. Jesus is a person! He is a personal Savior, though, and you must accept Him as Redeemer and Savior of you, if He is to be yours. Jesus came, suffered and died in giving Himself for you and me that we, too, might have eternal life. He arose from death and ascended back to the Father's throne, where He sits at the right hand to live and make intercession for us who love Him.

God's plan for your salvation from sin and death and hell is complete — Jesus was obedient to fulfill all God's will for His plan to save us. Now the choice is ours to make. But Jesus did even more — He sent back the Holy

Ghost (the Spirit of the Great I Am!) so that once we believe God's promise in Jesus to save us and give us life — we have Him with us now that we do not have to find our way to heaven alone! The Holy Ghost is here to guide, direct, comfort, empower, and be with us that we shall never be lost or lonely again even in this world!

If you feel inside of you a need, come to Jesus now. Jesus loved sinners enough to die to save them, so if you have a sin that has you tripped and enslaved, call on Jesus who has all power in heaven and in earth. For it is God's seeking us that makes us feel we need a Savior.

Jesus is calling — Hear Him today. Listen, look, hear, trust and obey. Ask Jesus to forgive you, and He will. Ask Him to help you, and He will. Ask Him to save you, and He will! For He wants you and me as His own, to labor in His cause to tell the Good News of salvation through Jesus to all the world. He has entrusted this Cause to all of us who believe and love Him, and given us a place to share with Him now in serving, and then to share with Him in His eternal Kingdom.

What a glorious honor is ours as Christians! Slaves, do you love my Jesus? If you love Him, why not serve Him? Confess Jesus before men now, that Christ will confirm you one day to the Father. Jesus is the One! Jesus Saves!

The Civil War budget of President Lincoln — roughly 100 million — would run the present government just about 8 hours.

CITATION BY PUBLICATION
THE STATE OF TEXAS
TO: EVA MAE TENNELL, Defendant, Greeting:

YOU ARE COMMANDED to appear before the Honorable District Court of Lamb County at the Courthouse thereof, in Littlefield, Texas, by filing a written answer at or before 10 o'clock A. M. of the first Monday next after the expiration of sixty-two days from the date of the issuance of this citation, same being the 7th day of October A. D. 1963, to Plaintiff's Petition filed in said court, on the 22nd day of August A. D. 1963, in this cause, numbered 5411 on the docket of said court and styled M. B. TENNELL, Plaintiff, vs. EVA MAE TENNELL, Defendant.

A brief statement of the nature of this suit is as follows, to-wit:

This is a suit for divorce, alleging cruel treatment to such an extent as to render plaintiff and defendant further living together as husband and wife wholly insupportable, alleging that there is no community property, real or personal, owned by plaintiff and defendant, and alleging that there were five (5) children born of the marriage of plaintiff and defendant, said children being Doris Jean Tennell, a girl, seventeen (17) years of age, Jackie Tennell, a boy, sixteen (16) years of age, Daniel Tennell, a boy, thirteen (13) years of age, M. B. Tennell, Jr., a boy, six (6) years of age, and Billy D. Tennell, a boy, two (2) years of age.

Praying for divorce and dissolution of the marriage relations now existing as between plaintiff and defendant, and for general relief as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates thereof, and make due return as the law directs.

Inwitness and given under my hand and the seal of said court at Littlefield, Texas, this 22nd day of August A. D. 1963.

Attest: Harold L. Overton, Clerk,
District Court
Lamb County, Texas.

Wedding Vows Read

Grace Lee Cardwell and John Lewis Drake were united in marriage Monday when the ceremony was performed in Clovis.

Parents of the couple are Mr. and Mrs. Hal Cardwell and Mr. and Mrs. John Drake.

Accompanying the couple were Mrs. Cardwell, Mrs. Drake and Hallie Rowan of Lubbock.

Immediately following the ceremony, the couple left for Texoma where he is employed.

Topping Off—Florida Style

When builders finish the roof of a building, it is traditional to hold a "topping-off" ceremony with the workers hoisting a roof tree and a few beers. But in Florida they do things differently. At the topping-off of the 16-story Royal Admiral apartment house in Fort Lauderdale, a contest was held to show that the building is only a stone's throw from the surf. Judith Ann Peters, reigning beauty queen of the city, engaged in a stone throwing duel with Don Semon, star pitcher of the Ft. Lauderdale Yankees.

PERSONALS

Attending a District Methodist Youth meeting Sunday at Y. L. were Cynthia Parrish, Brenda Drake, Morsalene Pierce, Corley Baker, James Parrish, Tommy Thomson and Mrs. Jay House, counselor.

SCIENCE SKETCHES

THE NEXT TIME someone calls you hot-headed, don't doubt him. It's a scientific fact. The hottest blood in your body, say University of Wisconsin researchers, is in your liver and brain.

MOLECULES of hydrogen gas can crack hardened steel, reports Alloy Rods Company. The gas, present around a welding arc, diffuses through the pores in the metal and accumulates in pockets. Since the hardened steel cannot stretch, it cracks. Iron powder electrodes which supply an atmosphere low in hydrogen are used to prevent faulty welds.

A HIGH CONCENTRATION of poisonous nitrogen peroxide gas in its atmosphere makes existence of life on the planet Mars highly improbable, says the National Bureau of Standards. The gas was discovered by spectrum analysis of Martian light.

The 1963 National 4-H Club Congress and the International Live Stock show the first week in December are destined to be one-in-a-lifetime experiences for a 4-H beef project winner.

An all-expense trip to Chicago awaits the state's top prize winner. The boy or girl also will be considered for one of six \$300 college scholarships presented to the highest ranked 4-H beef cattle producers in the nation.

This year marks the 5th anniversary of the beef program sponsored by E. I. du Pont de Nemours & Company. During the last five years participation and awards money 4-H'ers have increased markedly.

Extension Supervised
Supervised by the Cooperative Extension Service, the program in 1962 attracted more than 145,000 boys and girls in nearly every state.

Awards Not Easy
Progress reports, personal development and service to the community are considered when 4-H award winners are selected. Those girls and 21 boys already have claimed scholarships and next December six more youths will join this elite group.

Home economists say a refrigerator should be eleven cubic feet for a family of three, with an extra foot for each additional member of household. Porcelain-on-steel inside liners are recommended for durability. Their hard coating of glass permanently fused to steel makes them resistant to chips and cracks. Easy to clean, porcelain-on-steel won't stain, retain food odors or scratch, whether or not a cleaning compound is used.

Farmall Offers Warranty

International Harvester Company's Farm Equipment Division has announced a new warranty effective Sept. 1, 1963, on its entire line of new tractors and farm machines sold under the "McCormick" or "International" trade names. The new warranty is for 12 months or 1500 hours, whichever ever occurs first. It applies to tractors and machines used in regular farm service and is believed to be the first such extensive warranty made by any major farm equipment manufacturer to its farm customers. The previous warranty period was for six months or 1500 hours.

37 JOIN TRIP TO IH TRACTOR SHOW

Thirty-seven persons from the Sudan area, most of them farmers, took a chartered bus to Amarillo Aug. 28 to view the new 806 and 706 Farmall tractors and IH equipment. The trip was sponsored by Wayne Broad, IH dealer in Sudan, who said he wanted to offer the trip because he felt the "closeup look at this entirely new line of tractors, which carries a new warranty policy, will convince the farmers of their worth."

The new 806 is the largest row crop tractor on the market today, he said.

Visiting Sunday in the home of Mrs. H. W. Qualls were Marvin Qualls of Fieldton and Mrs. Leo Mann of Littlefield.

The warranty guarantees each new "McCormick" or "International" tractor or farm machine to be free from defects in material and workmanship under normal use and service. It provides the original user-purchaser with repair or replacement of any defective part or parts free of charge during the warranty period. Installation of such parts will be performed without charge by any authorized International Harvester dealer.
