Historical Group Meets In Sudan

THE STATE has approved use of several textbooks which a bunch of people, including ministers, objected to, claiming atheism, communism and several other badisms were being suggested by the books.

Although I haven't read any of the books in controversy, my first reaction was that they probably were kicking up a lot of fuss about nothing, and apparently the state group thought so, too, or they never would have approved the list.

Approval of the list doesn't mean that the local board has to use these books if it doesn't want them; there are several choices of approved books in each subject.

Besides, if most students pay no more attention than mine apparently do, they're not likely to get any ideas from the books.

I'm reminded of the story about the college class which was boning up the last day before the crucial final examination, and the professor said, "Now, class, we've gone over this thing backward and forward, and if you have any questions at all, now is the time to ask them." This one student held up his hand, the professor nodded, and the student asked: "What's the name of this course?"

OFFHAND, it would seem to me that the best business a guy could get into would be to build a college. I always knew colleges and universities were crowded, but that story in Wednesday morning's Lubbock Landslide is astonishing.

The University of Illinois already has an enrollment of 34,500 and turned away 5,000. I didn't know there were that many people in Illinois. There were 10,000 freshmen wanting into the U. of Massachusetts and 14,000 applied for admission as freshmen at the U. of Arizona. Each of these schools turned away all but about 2,500.

Any school with more than 10,000 enrollment should be required to field two varsity football teams.

LAST WEEK I guessed 10 winners correctly and missed only the SMU-AGM game. This gives me a record of 71-28, batting .717. This week, Hale Center 20, Sudan 8; Farwell 35, Springlake 17; Kress 19, Silvertown 13; New Deal 20, Anton 12; Friona 24, Floydada 14; Sundown 24, Whiteface 8; Texas Tech 20, Wash. State 14; Tulsa 55, North Texas 3 (it's high time we Eagle exes requested a coaching change); Texas AGM 14, Rice 7; Arkansas 14, SMU 0 (but here would be the ideal spot for an upset); Texas 20, TCU 6.

Lynch-Garrett Vows Exchanged In Lubbock

Second Baptist Church, Lubbock, was the setting for the wedding of Miss Lawana Sue Lynch of Lubbock and Mr. and Mrs. Robert Hearn, pastor of Second Baptist Church, officiating at the double ring ceremony.

Parents of the couple are Logan Lynch of Sudan, Mrs. Susie Lynch of Lubbock and Mr. and Mrs. Carl Garrett of Route 4, Lamesa.

The bride, given in marriage by her father, was attired in a wedding gown of white French

lace and nylon tulle ruffles over net and satin. Her gown was designed with a portrait neckline outlined with scalloped lace embroidered with iridescent sequins and seed pearls. The fitted lace bodice had long sleeves ending in points over her hands. The skirt, ruffled tiers of pleated tulle with panels of lace at front and back, swept into a full train. A veil of silk illusion was attached to a pillbox of lace with iridescent sequins and seed pearls. The bridal bouquet was white rosebuds.

Attending the bride as matron of honor was her sister-in-law, Mrs. Charles Lynch of Lubbock. She wore a street length dress of antique gold satin with a beige chantilly lace top and carried a long stem white rose.

Walter Cunningham, cousin of the groom, served as best man with Bob Colvard and Max Lynch, brother of the bride, acting as ushers.

Dr. Judson Maynard provided wedding music and Mrs. Bob Lynch, sister-in-law of the bride was soloist.

The reception was held in the church parlor.

For traveling, the bride wore a peacock blue suit with the corsage from her bridal bouquet.

After a wedding trip to Cloudcroft, the couple are at home at 2624 B 2nd Place in Lubbock.

The bride is a 1962 graduate of Sudan High School and is a junior elementary education major at Tech. The groom is a 1962 graduate of Klondike High School and attended Tech. He is now employed by Plains Cotton Co-op in Lubbock.

Mr. and Mrs. Jim Eddins of Crosbyton visited during the weekend in the homes of their parents, Mr. and Mrs. Elgan Baccus, Mr. and Mrs. W. O. Eddins.

Mr. and Mrs. C. W. Ronson spent the weekend in Laws and while there attended the wedding of a niece.

TO MARRY—Mr. and Mrs. J. E. Anderson of Fort Payne, Alabama, announce the engagement of their daughter, Donna Jean, above, to Jackie Milton Wilson, son of Mr. and Mrs. B. M. Wilson of Sudan. Both the bride and groom-elect are seniors at Abilene Christian College, where she is a home economics major and he is a math major. The wedding is planned for 7:30 p. m. Dec. 22 at the Church of Christ in Fort Payne. All friends of the couple are invited to attend.

The Sudan Hornets lost a 28-0 encounter with the tough Farwell Steers Friday night as sophomore QB Bobby Field riddled the Hornet defense with 15 passes out of 28 efforts and three touchdowns. But the Hornets gave the Steers a real tough fight on defense, and despite the score, looked better than they had in weeks.

The game was tight until Farwell broke it open in the fourth period with two touchdowns, and each team had a touchdown called back in the fourth.

Again, Sudan's offense was inadequate, although the line, led by guard Ronnie Brown, and linebackers Kentel May, Robert Williamson and Tommy King, did stout service.

Farwell end Butch Ford scored a touchdown and four extra points on offense, but he probably never has been blocked out so effectively as he was by May and King each time the Steers had to punt. The two Hornet seniors double-teamed Ford and almost rolled him out of the stadium, knocking him back down each time he started to get up.

After an early Sudan fumble, Farwell scored on a Fields to Jerry Fields pass of 17 yards, but this was to be all for the Steers in the first half, which wound up 8-0. In the third, Farwell put 6 more points on the board as HB Danny Huffaker dived

inches across the stripe. In the fourth, passes to Ford and Jerry Childs, who made an unbelievable catch in the end zone, netted touchdowns.

Farwell's Larry Donaldson intercepted a pass in the fourth and raced across the goal line, but the official had blown the play dead, thinking the pass was incomplete. Later, Sudan was offside, and QB Mike Smith tossed a neat scoring pass to end Marcy Cantu, but it didn't count.

Corley Baker, who started out at quarterback, was injured and had to leave the game, and HB Mike Bellar went out with an injury after traveling north 26 yards with a Smith aerial.

Also injured was FB Danny Masten, but he returned to action.

Masten had 36 yards on 7 carries, mainly on a 27-yard run, and caught two passes for 18. Smith gained 49 in 12 efforts. Danny Martin ran 9 times for 17 and caught a pass for 13.

Leading ground-gainer in the contest, however, was the referee, who had 190 yards in 16 carries. Farwell drew 10 of these penalties for 130 yards, and the fans from the northwest booed the officials on at least two occasions.

On defense for Farwell, Charles Dannheim looked good, but the best Farwell defender was a linebacker, a mysterious number 51, who was not listed on the program.

Smith, May, King, Williamson, Masten, Tommy Taylor, James Barker, D. W. Muller and Bill Boyles will be playing their final games for the Hornets Friday night as Sudan goes to Hale Center. At the same time, Farwell and Springlake will be settling just who is to be champion of the district.

NEWLY FORMED SUDAN RIDING CLUB MEETS

METHODIST MESSENGER

VOLUME 3 NOVEMBER 11, 1964 SUDAN

FROM THE LIFE OF RILEY:

It was my privilege Sunday to preach two sermons based on the story of the prodigal son, Luke 15: 11-32. I used a story written by John Andrew Holmes for the Sunday evening service. It was entitled "The Prodigal Son Ten Years Later". The general theme was that we saw the prodigal on the high day of his return and we often fail to note that his "wasted opportunities were gone forever and he still lacked what he might have been".

The person telling the story of his interview with the prodigal who was in the field plowing, a bent old man for his years said, "I had only thought of how his loving father had met him more than halfway with pardon, I had failed to consider that forgiveness might include neither health nor riches, nor education, nor a happy memory of a wisely spent past, nor the respect of neighbors, nor the enjoyment of good society, nor the delights of a happy home of one's own, nor even the security against further wanderings. But now that I beheld with my own eyes, I saw that even his father's forgiveness had its limitations."

Society could prevent some of the youths from journeying into the "Far Country" and he decides to warn young people against this by saying, "I will tell them that it is possible to lose what even a father cannot restore."

"He who has ears to hear, let him hear."

SAN JACINTO . . .

in 18 Minutes—Blessed Freedom!

At 3:30 P.M. on April 21, 1836, General Sam Houston launched his attack. So sure was Mexican Army Commander Santa Anna of his troops' superiority that he did not even post sentries during the customary afternoon siesta.

The freedom-inflamed Texans, shouting "Remember the Alamo!", sprang upon the enemy. In the incredibly short space of 18 minutes Texas' freedom was won.

Santa Anna was captured. Six hundred and thirty officers and men were killed; the rest taken prisoner. Texas lost only nine men killed or mortally wounded, with 30 less seriously wounded. When the captured Santa Anna ordered his troop commanders to leave Texas, the last threat to peace was removed. Texas was free!

FREE MEN DEPEND ON US!

Today, we cannot—with one decisive stroke—wipe out the threats to freedom that are all around us. Instead, we must join together for an almost unending task of holding at bay those who would destroy the liberty we hold so dear.

Our dollars, banded together in U.S. Savings Bonds, help keep our defenses strong—making sure that no enemy will smash through to victory over freedom.

You can be an active partner in defending freedom by buying U.S. Savings Bonds at your bank or on the payroll savings plan where you work.

PLANS ANNOUNCED FOR CENSUS OF AGRICULTURE

Plans for taking the 1964 Census of Agriculture in Lamb County were announced this week by Maryia Vann, newly-appointed census crew leader for the county.

The job will be done in three stages, the crew leader said. First will come recruitment and training of enumerators to count all farms in the county. About one enumerator for each 150

farms will be needed.

Shortly after November 19, the Bureau of the Census will start the second stage by mailing agricultural census questionnaires to all rural boxholders in the county. This will give farm and ranch operators, who are required by law to fill out the forms, a period of time to consult their records and fill in answers to the questions.

In the final stage, enumerators will visit each farm in the county to collect the questionnaires. At the time of this visit, the enumerators will help farmers complete answers to any questions the farmers may have had difficulty with. Enumerator visits are scheduled to begin in this county on November 23. Enumerators will take about three weeks to complete their work.

WATKINS GIN HAS THE NEW K-B (KIMBELL-BISHARD) COTTON CLEANER AND GREEN BOLL SEPARATOR. THIS UNIT MEANS TO YOU:

- 
BETTER GRADES: Earlier harvesting of the cotton before weather damage and deterioration of staple and grade. The K-B removes green bolls and preserves the quality of the lint. Dirt and trash are also removed in the first gin operation instead of the last operation as previously.

NO INJURY TO FIBER: All cleaning is done by air. The K-B unit does not break or damage the fiber as is done with beating cylinders, etc. Fiber damage means shorter staple and lower micronaire.
- 
MICRONAIRE NOW PART OF GRADE: Removal of immature bolls means better micronaire. Reduces number of wadies and barkies, which can mean up to \$15.00 per bale more to you.
- 
BETTER TURNOUTS: Through the return of green bolls to be ginned later after they open. This can up the turnout by as much as 5 per cent.

Scripture: St. John 3: 16; Exodus 40: 34-38; II Corinthians 12: 8-10.
God, who made the clouds, also make the sun to shine. God, who made the wilderness, also made a cloud by day and fire by night to guide His children through the wilderness into

the Promised Land.
God, who made man, also provided a means to save him from his sin. God, who allows temptation, also supplies His grace which is sufficient for man's overcoming any and all his temptations.
—God, whose word declares His

grace is sufficient for thee, also declares that His strength is made perfect in weakness.

Paul said he took pleasure in infirmities, in reproaches... in distresses for Christ's sake: "for when I am weak, then am I strong."

So, in our weakness, God provides His strength for us.

What is in the wilderness? Thorns and briars of sin, dark clouds of doubt, temptation, cold and heat, hunger and need, poverty, work and weariness, rebukes and harsh cruelty, hatred and greed, ridicule and misunderstanding, pain and sorrow, horror and fear, hopelessness—this is the wilderness of natural man. Man, who was created in God's own image yet chose Satan and sin and died spiritually in that moment. So natural

man (as in Adam all die) is lost and separated by his own sin from God, his Creator, lost without hope in the wilderness.

But God provided a way of salvation for man from this wilderness and separation from Him—He gave His son (even so in Christ shall all be made alive) Jesus Christ to die that sinful man might live—eternally with God! Yes, God loves you and me.

So, the Lord knows the way through the wilderness! He has been all the way through, for all who will repent of their sin, and accept Him as Savior and Lord, He will guide and comfort and abide with all the way on the journey Home!

Jesus is the one, and He will shine as the sun amid the dark clouds of doubt, dispelling them; He will strengthen us, comfort

us, guide us, never forsake us or leave us alone, and give us joy in pain and want and sorrow, and give us the Blessed Hope that He will come again for us; that we shall live an abundant life with Him forevermore. And the victory that overcomes the world (the wilderness journey) is our faith to believe in Him.

Yes, the Lord, He is God, and the only One who knows the way! All we have to do is: Follow Him.

Do you have Jesus? Make your choice now. Is He "in the sight" of you?

Play It "Cool" the Warm Way

Mothers have a real worry in winter when toddlers toddle all over the house and most of the time on draft-ridden, cold floors. Teachers, too, in nursery schools and kindergartens have the same problem. It's just not too healthy for the kiddies.

But when homes and schools are equipped with steel pipe radiant heating systems, no draft or cold floor problems exist. Why? Well, for one thing, the steel pipe heating panels are installed beneath the floor so tiny toddlers can play to their hearts content on a comfortably warm floor that's draft-free. For another thing, there are no exposed radiators or warm air grilles that may cause painful burns. And temperature from floor to ceiling varies only by a degree or two.

Installing a steel pipe radiant heating system is a simple matter in new construction. Coils are pre-bent into hairpin shapes, then welded together at the building site into a continuous grid. After a final test-

ing to be sure the system is water tight, the panels are covered over with the subfloor or, in the case of many buildings, embedded in concrete.

But homes and schools are not the only structures which find steel pipe radiant systems the most comfortable heating source. According to the Committee of Steel Pipe Producers, hospitals, public, commercial and industrial buildings, too, are turning increasingly more to this heating method. In fact, at the nation's new Air Force Academy in Colorado Springs, practically all buildings, including its chapel, are radiant heated. Allegheny Airlines' twin maintenance hangars, at the Greater Pittsburgh Airport, are heated, too, with steel pipe radiant panels.

So, if you're planning a new home or other building, play it "cool" like the kiddies above and look into the many advantages of a steel pipe radiant heating system.

THANK YOU

I am deeply grateful for the support which you have given me.

Thanks very, very much.

New Tradition for Parties

Photo by Carnation Co.

Introduce a new tradition at your holiday parties by serving deliciously different Minty Mocha Punch. The velvety smooth hot drink is made with coffee, melted chocolate and Coffee-mate, the dry instant non-dairy coffee creamer.

Truly a versatile product, Coffee-mate first was developed as a creamer for hot beverages. It dissolves instantly and completely with just a flick of the spoon. And since it stays fresh without refrigeration, Coffee-mate is the perfect companion for sportsmen on skiing, camping, hunting and fishing trips.

MINTY MOCHA PUNCH
(Makes 12 servings)

- 4 squares unsweetened chocolate, grated
- 2 cups strong coffee
- 6 tablespoons sugar
- 1/4 teaspoon salt
- 6 cups hot reliquefied Coffee-mate (according to jar directions)
- 1 1/2 cups dry Coffee-mate
- 1/2 cup cold milk
- 3 tablespoons sugar
- 1/2 teaspoon mint extract

Mix together chocolate, coffee, 6 tablespoons sugar and salt in top of large double boiler; place directly over heat and boil gently about 2 minutes. Place over boiling water; stir in reliquefied Coffee-mate. Remove from hot water; beat with rotary beater until frothy. Meanwhile, chill bowl and beaters in refrigerator for 15 minutes. Blend remaining ingredients in chilled bowl. Whip until soft peaks form (3 to 5 minutes). Pour mocha mixture into serving cups; top with minted whipped topping.

Bill Provides Medical Care For Fishermen

A special medicare bill for fishermen, described by Rep. Richard Roudebush, (R-Ind.), as one of the strangest pieces of legislation in history, was passed by the House at the last session.

The legislation which provides free medical care for fishing boat owners' will cost \$1,824,200 per year. The main argument used by proponents was that deep sea fishing is a hazardous occupation. But opponents pointed out that on that basis miners, athletes and lion tamers—among many others—would also qualify for special medicare legislative protection.

SHORT AND SWEET

The number of phonograph records sold in the United States last year would, if laid end to end, make a belt about 37,000 miles long, according to the Record Industry Association of America... When nylon was first sold on the American market 26 years ago all the available quantities went into the making of women's hose... Today hosiery uses only 45 million pounds of nylon being outranked in pounds by tire (210 million).

carpets (100 million) and dress fabrics (75 million).

"Thanks to our electric heating - we never worry about Shawndi kicking off the covers!"

Individual room control gives the Danny Smith family of Earth, Texas comforting assurance of desired warmth!

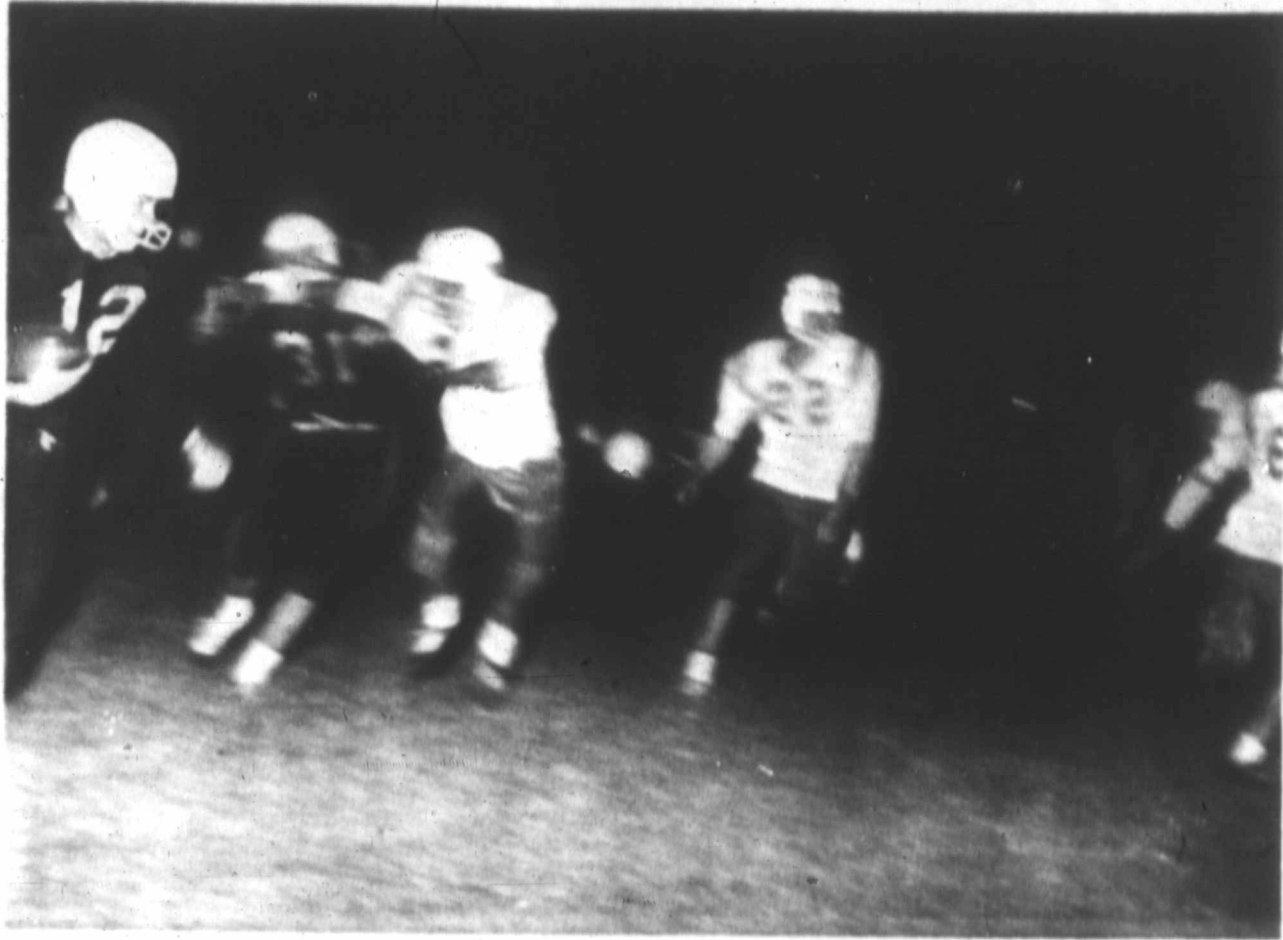

Mr. and Mrs. Smith specified ceiling cable electric heating when they built their Gold Medallion home because they could have a thermostat in each room to insure individual room control. The Smiths set the thermostat in their bedroom at 60 degrees; in Shawndi's room 70 degrees; with appropriate settings in other rooms. So even is the temperature and so accurate that Mrs. Smith's tropical fish (in the family room) have not required auxiliary heating. In short, the Smiths enjoy comfort for all, all through the house.
