WOODWORK JAYCEE GAME SET TONIGHT

BY DALTON

LAST YEAR, according to a filler I read in a daily newspaper, there were about 264 million pounds of pecans harvested, enough for one and a third pounds for every man, woman in the country.

Like a lot of newspaper reporting these days, this statement leaves a few questions unanswered. For example, are these pounds before or after shelling? It could make a difference, especially to the person trying to eat them.

As a pecan eater, I sincerely believe I have no superior. As a result, I immediately challenged the statement of a friend made recently that he could shell pecans faster than a person could eat them.

To me, this sounded most ridiculous, even after he explained he uses one of these fancy pecan shellers. I challenged him to a 15-minute contest, but it never did come off. Of course, if the event went on for two hours or so, naturally he could win. But this would only prove that he could shell more than I could eat, not that he could shell faster than I could eat.

The whole idea was absurd, and I told him so. I even offered to include a couple of ice cream while I was eating the pecans. But even though he still insisted he could do it, we never did get to try it.

Maybe some day the event will take place.

SEVERAL TIMES I have mentioned my dislike of royalty in general and the British system in particular, even poking fun at Queen Liz and Prince Philip. But a recent story on Prince Philip reveals that he may have more personality than suspected.

For example, when asked if he was looking forward to a two-week, sell-Britain tour in the U. S. starting March 9, he laughed and said, "No, would you?"

Such honesty I can appreciate. Also, he is said to have pelted reporters with peanuts while on a tour of Gibraltar. At least it wasn't pecans.

WITH COMPUTERS doing nearly everybody's work these days, the Income Tax people, who are submitting all the returns to a scanner, say your return will be automatically rejected if you fail to put your Social Security number in the upper right hand corner of your check sheet... er, tax return. This could cause untold anguish, especially to anyone seeking a refund.

One way to get even might be to tack a bunch of extra numbers on the end of your Social Security number, like your ZIP code, area code, sales tax number and your wife's age.

Such a figure probably would give the machine an electronic headache.

SENIOR CITIZENS CLUB TO MEET FRIDAY

The Sudan Senior Citizens club will meet Friday afternoon, March 11, at 2:30 p. m. in the Community Center. In charge of the program for the day will be the ESA.

JAYCEE GAME SET TONIGHT

The Sudan Jaycees are sponsoring two basketball games and a tumbling exhibition tonight (Thursday) in the high school gym.

The first game will begin at 7 p. m. between the fifth and sixth grade boys. The second game will match the outstanding skills of the Sudan school faculty members against the equally skilled Jaycees.

The tumbling exhibition presented by the fifth and sixth grade boys will be presented during game intermissions.

Admission will be \$1.00 for adults and 50 cents for students.

Proceeds will be divided between the senior class and the Little League Fund.

Al Carlock, spokesman for the Little League, announced that if Sudan continues to be represented by outstanding Little League teams, much financial and moral support is needed. He said that organizations are needed to sponsor the three teams to be organized this spring. The amount of money needed is uncertain, but Carlock reported that at least \$800 will be needed for the upcoming season.

This will be used for equipment, uniforms and the team's official state entrance fee to the Little League Organization. Last year each team in the Inter-City Little League was required to have \$275 in their team fund. The amount for this year will be set March 17 at the meeting of the Inter-City Little League directors.

Officers for the board of directors will be elected at that time.

Sudan's three teams are the Cardinals, Angels and Dodgers.

Registration Certificates To Be Issued Here

CROWD THRONGS VICTORS - Shown above is the crowd following the Amherst-Three Way girls bi-district basketball game played in Sudan Tuesday night. Amherst was the victor 64-56, and will play in the regional tournament Saturday at Canyon.

Herbert Dunn, Lamb County Tax Assessor-Collector reported that registration certificates will be issued starting today, March 3, throughout the county.

The two week period will end March 17 with the only class of

persons eligible to register during the temporary registration period are persons subject to payment of the poll tax levied for the year 1965 who have not obtained a poll tax receipt. That is, persons who were 21 years of age and not 60 years of age on January 1, 1965.

Persons who have obtained a poll tax receipt are registered voters and need not and may not register during this period. No refunds will be given on poll receipt recently purchased.

Residents of Lamb County who were 60 years of age before Jan. 1, 1965 will not need an exemption certificate, a Poll Tax receipt or registration certificate for voting this year.

Registration certificate may be obtained at the City Hall in Sudan or Amherst. There is no charge for registering.

Four File For School Board

W. E. Hancock, school superintendent announced that four candidates have filed for positions on the Sudan Independent School Board.

They are Byron Ford, Wylie Mudgett, Dexter Baker and Dick West.

Mudgett is seeking re-election with the other position to be vacated by Nolan Parrish.

Deadline for filing was midnight last night, Wednesday.

Hancock stated that absentee voting will begin March 14 and last until March 28. Ballots can be cast with Mrs. Lucy Kent in the superintendent's office Monday through Friday from 8 a. m. until 5 p. m. daily.

The same qualifications exist as in previous elections in that to be eligible to cast a ballot in the election, you must be a registered voter and must have lived in Lamb County at least six months.

The regular school board election will be held Saturday, April 2 with Fred Meeks as presiding judge.

HEART FUND DRIVE COMPLETED HERE

Mrs. J. W. Olds, local chairman for the Heart Fund drive announced today that the drive was very successful. There was no quota for this drive but the drive but the community donated \$306.00.

Mrs. Olds expressed her thanks to each one who contributed and to all who assisted with the drive which was under the sponsorship of the 1935 Study Club. A very special vote of thanks was given to the local FFA organization and their sponsor, Don Ham, for their very able assistance in the house to house canvass for the Heart Drive. These young men volunteered their help as a community service and it was greatly appreciated.

Public School Week To Be Observed Here March 7-11

W. E. Hancock, superintendent of Sudan Public Schools, announced this week that plans have been completed for an Open House to be conducted Tuesday beginning at 7 p. m.

This will highlight the activities held next week during Public School Week.

All faculty members and school

employees will be on hand to welcome all visitors. Hancock suggested that all parents take this opportunity to visit the classrooms and teachers.

Refreshments will be served in the cafeteria and a special program will be presented at 7:45 p. m. in the cafeteria.

Hancock pointed out that visitors are welcome anytime during the week with classes be-

ginning at 8:30 a. m. School dismisses at 3:55 p. m. with the lunch hour staggered from 11:15 to 12:30.

Visitors will be allowed to eat in the lunchroom next week at the regular student price. The lunchroom supervisor needs to know in advance how many extra people will be present, so all are asked to call the school before 9 a. m. on the day they intend to eat in the cafeteria.

Booster Club Launches Membership Drive

The Sudan Booster Club met Monday night in a regular meeting. Coach Cain and several students demonstrated the use of some new tumbling equipment received recently to be used in Physical Education classes.

The business session was presided over by the president, Mickey Blake, with different projects being discussed.

It was decided to launch a major membership drive beginning Monday, March 7. Ken Minyard, club spokesman, said

that plans are being made to contact every citizen in the Sudan School District and give them an opportunity to join. He also pointed out that all residents are needed as members and that the club not only supports all athletics in the community, but backs several civic activities as well.

The annual membership fee is \$2.50.

Minyard added, "We need your support to make Sudan and the surrounding area a better place to live."

Schools Will Close Friday

W. E. Hancock, school superintendent, reminds the parents that school will be dismissed in Sudan tomorrow, Friday, due to a state teachers meeting in Lubbock.

BOOKMOBILE SCHEDULE

The Texas State Library High Plains Bookmobile will be in Sudan tomorrow, Friday, from 12 to 4 p. m.

MISS SOMMERVILLE TO SPEAK HERE

Miss Barbara Sommerville will be guest speaker Sunday night, March 6 when the First Methodist Church concludes the study "Missions: The Christian's Calling".

A salad supper will be held at 6 p. m. in the Fellowship Hall. Miss Sommerville is from the Goodhope Center in Lubbock.

KIDS CORNER - Shown above are pictures taken recently in a Children's Photo Contest. Top row, left to right, are Bryant Hunter, son of Mr. and Mrs. Bill Hunter; Rickey Fisher and Jerry Fisher, children of Mr. and Mrs. Edward Fisher; Amanda Gatewood, daughter of Mr. and Mrs. Ronnie Gatewood. Bottom row, left to right, Michael Gatewood, twin of Amanda Gatewood; Keenan Masten, son of Mr. and Mrs. Danny Masten; Johnny and Donnie Nelson, twins, and Debra Nelson, children of Mr. and Mrs. Bob Nelson.

PTA NEWS

The PTA will meet Tuesday afternoon, March 8, in the school cafeteria when "Views of School Board Candidates" will be heard.

Preceding the meeting, an executive meeting will be held at 2:30 p. m.

The Rev. Jack Riley will give the devotional. Hostesses will be seventh grade parents.

BRIDGE CLUB MEETING HELD

Mrs. Tom McKinzie was hostess for a bridge club meeting Tuesday. Present were members Mrs. Gerald Chisholm, Mrs. Audrey West, Mrs. Jack Scott, Mrs. Richard Powell, Mrs. Bill Palmer, Mrs. Keith Clover, and Mrs. Ves Patterson.

Saving Bond Interest Hike Outlined By President

President Johnson recently announced a new and higher interest rate to be paid holders of all U.S. Savings Bonds. The new rate is 4.15 per cent.

In announcing the interest hike, President Johnson emphasized that it will benefit holders of all bonds.

The interest rate is effective as of December 1, 1965, and it applies to all Series E and H Savings Bonds outstanding for their remaining period to maturity, as well as those to be purchased in the future.

The new rate will reduce the maturity period for Series E Bonds (those most frequently purchased) to seven years. Under the old 3 3/4 per cent rate, a bond purchased for \$75, for example, could be redeemed at \$100 at maturity — seven years and nine months. For Series H Bonds, which are bought at face value, the interest is paid semi-annually, and those payments will simply be increased to the 4.15 per cent rate.

Mr. Johnson noted that between 30 and 40 million Americans who hold more than \$49 billion in Savings Bonds will automatically enjoy the rise in

interest. The President pointed out that this year marks the 25th Anniversary of the Savings Bonds program. It was May 1, 1941, when President Franklin D. Roosevelt bought the first Series E Bond from Secretary of the Treasury Henry Morgenthau.

Savings Bonds originally paid 2.9 per cent. They were redeemable after a 10-year maturity period at a face value 1/3 higher than the original purchase price.

As the interest on similar investments increased through the years, the yield on Savings Bonds was also raised.

The first increase came in May, 1952, to 3 per cent. The rate was raised again, in 1957, to 3 1/4 per cent; in 1959, to 3 3/4 per cent.

Those increases were accomplished by reducing the maturity period of E Bonds and raising the semi-annual earnings of H Bonds.

All other features of Savings Bonds continue in force. These include replacement in case of loss, mutilation or theft, and the absolute guarantee of principal and interest. Savings Bond interest is exempt from state or local income tax, and Federal tax on accrued E Bond interest may be deferred until the bonds are redeemed.

Study Club Meets

"Progress in Space" was the subject topic for the meeting Monday evening of the 1935 Study Club held in the home of Mrs. R. S. Gatewood. Mrs. Jack Riley appeared on the program and showed films and discussed "NASA's Space Flight Center".

Mrs. Weaver Barnett, program director, gave the motto "Pol-

itics and space become more intermingled than usual during 1965, especially in the United States", Encyclopedia Britannica.

Roll call was answered by Mrs. Gordon Taylor who discussed "Conservation". Mrs. J. S. Smith gave the topic "The Arts of America and Mrs. Jack Riley gave the topic "Science".

A candlelight initiation service for Mrs. Harold May was held and routine business discussed.

Present were Mrs. Weaver Barnett, Mrs. W. E. Hancock, Mrs. Beulah Wiseman, Mrs. R. S. Gatewood, Mrs. S. D. Hay, Mrs. R. D. Nix, Mrs. Sara Woods, Mrs. J. W. Olds, Mrs. Jack Riley, Mrs. Kenneth Wiseman, Mrs. J. S. Smith and the new member, Mrs. May.

meeting held at the Wayland Baptist College.

Mr. and Mrs. Ray Shafey and children of Abilene visited during the weekend in the home of her parents, Mr. and Mrs. Marvin Tollett.

Mr. and Mrs. Ray Hamilton of Abilene visited during the weekend in the home of her mother, Mrs. Thelma Shaffer.

Mr. and Mrs. Connie Powell of Levelland visited Sunday in the home of Mr. and Mrs. Richard Powell and family.

MATHEWS-STANLEY VOWS EXCHANGED

Mrs. Johnnie Loreta Mathews and Kenneth Eugene Stanley exchanged wedding vows, Thursday Feb. 10, in Littlefield.

Mrs. Stanley is the daughter of the late Mr. and Mrs. W. O. Wright and her husband is the son of the late Henry Stanley and Mrs. Henry Stanley.

The couple will make their home in Sudan.

Mrs. S. D. Hay and Miss Sara Woods were Lubbock visitors on Monday this week.

Mr. and Mrs. Charles Newton Woolard of Houston, Calif. visited during the weekend in the home of his aunt, Mrs. R. S. Gatewood.

Mr. and Mrs. R. D. Nix and Mrs. H. O. Carson were in Lubbock Tuesday afternoon to attend the funeral service of a cousin, Mrs. C. R. Nix.

Fishing at Lake Buchanan this week are Matt Nix, Dub Nolan, Raymond Nix and R. S. Gatewood.

The Rev. Willie Hazel was in Plainview Monday and Tuesday to attend a Pastor and Laymans

PERSONALS

Bill Olds and Ed Williams returned last week from Falcon Lake where they reported a successful fishing trip. Mr. and Mrs. B. P. Wiseman and Mr. and Mrs. Weldon Wiseman have also been fishing at Falcon.

Miss Bertha Vereen returned to Dimmitt this week where she is employed by Dr. Bill Murphey.

The Rev. and Mrs. Willie Hazel and Tommy visited Saturday in the home of the Rev. and Mrs. S. L. Yelding, Friendship.

Devotional

By HAZEL HOUSE

Scripture: St. John 15: 17.
 Forgiveness—to be forgiven is such a good feeling! Forgiveness does not mean that I am merely saved from sin, but that I am re-created; that I am forgiven into a new relationship with God. I am His Child!

Do you think God's forgiveness includes dealing with your past and making it as though it had never been? We either do not believe God can do so, or we do not want Him to. "Ye must be born again" Jesus said... a new creation. "Go, and sin no more" Jesus said and then gives that power which enables one to go and do that sin no more—by what He did on the Cross.

Can God truly remake not only my actual past and present life, but also my mind and my dreams? "With God all things are possible", Jesus said.
 How? It is not that God won't save us because we do not believe, but because we must be committed (Give myself) to Him in order to have the right, the essential relationship with

God. "Commitment" is our response to what God has already done, and is offering to us. Commitment is a part of the necessary relationship of child and Father. We must be His own child.

"Ye must be born again". Did you think about how you would live, make plans or worry about it, before you were born? Of course not! Jesus said that we must become as a little child—new, unselfconscious, full of wonder, trusting, obedient to the Father.

We cannot enter God's Kingdom by our mind, by our education or great knowledge. We enter as a child, by faith—believing in Jesus Christ, accepting God's plan to give us new and eternal life. In faith, we give our self to Jesus, and wonder of wonders, He saves us! He makes us a new creature, and as we walk and talk and live with Him (He in us, and we in Him)—we "grow up". We truly do live and move and have our being in Christ Jesus. Acknowledge Christ in all thy ways, and He shall direct thy path. (Proverbs 3: 6).
 Make no mistake; we cannot

work or earn our entrance into God's household. Someone has said that we should not mistake perspiration in service for dedication in devotion. We do work, because we have seen the evidence of God's love for us, and we delight to do His service—we are devoted to Him.
 Love—is the way; for God is love.
 Jesus gave only two commandments for His followers: Love God first with all you are, and your neighbor as yourself.

Do you not believe that Jesus can save you into abundant eternal life? Or do you not want Him to change your way to His way?

"If ye love me, keep my commandments".

HOSPITAL NEWS

Patients this week in the South Plains Hospital at Amherst included the following:

- From Sudan—Lionie Horn, John Dean, Ivan Clawson.
- From Amherst—Gene Campbell, James Holland, Master Bobby Allenworth, Ben Fisher, Antonio Zapata.
- From Clovis—Jack Mixon.
- From Littlefield—Master Danny Chronister, Mrs. Glenda Van Ness.
- From Earth—Mrs. Eula Whitford, Mrs. Cornelis Truelock.

4-H NEWS

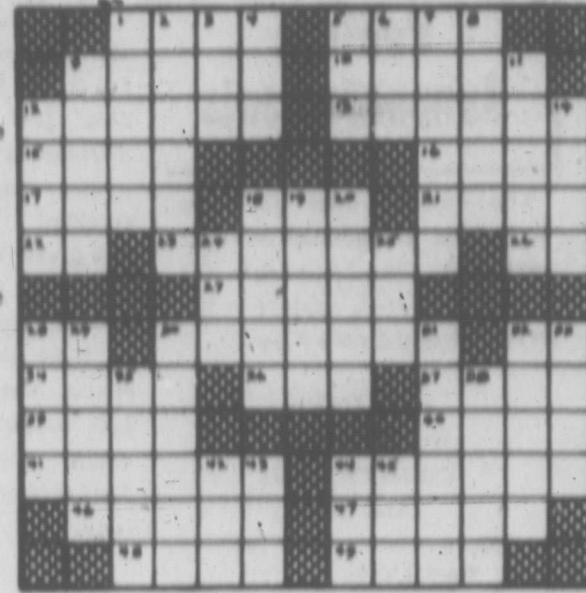

Mrs. Don Ham, 4-H leader, reported that four Sudan girls have completed the 3-year basic foods project and will compete against other 4-H members in a "Favorite Foods Show" to be held in Littlefield Saturday, March 5.

Connie Ham, who has completed the first year of the foods project, will also compete in the county show, Saturday, 5.

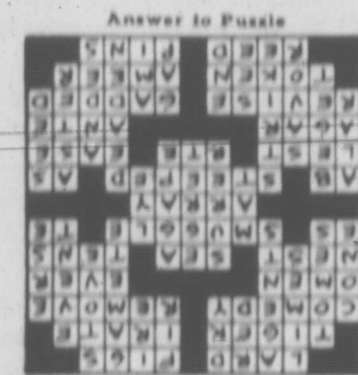

They are Jenine Peirce, Barbara Black, Helen Black, and Ann Haslan.

METHODIST NEWS

The Methodist Church is entering into an every member visitation emphasis during the month of March. Frank Lane is the chairman of the steering committee composed of Marvin Tollett, Rodney Nichols, Mrs. Vess Terry, Mrs. Jay House and Jack Riley.

This is a joint effort by the Commission on Evangelism, Stewardship and Finance to encourage church loyalty and to secure the budget for the new conference year.

The "Witness and Live—Witness and Give" emphasis will be climaxed with Commitment Sunday, March 27, with a layman Jack Barton speaking at the morning service.

We will "Tell The Story of Our Church during this service."

SUDAN SEWING CLUB

Mrs. H. W. Qualls was hostess last week for a meeting of the Sudan Sewing Club when those present included Mrs. J. T. Henderson, Mrs. Tom Kent, Mrs. John Milam, Mrs. Joe West, Mrs. Mike Carter, Mrs. Jinks Dent, Mrs. Otis Markham, Mrs. Ed Bellar.

The next club meeting will be held in the home of Mrs. Annie Chester.

Wonderful Lamb Loaf

You can quickly transform economical meat loaf into a delicious and elegant-looking company meal by simply using the right ingredients. A perfect example is delicious Lamb-Potato Loaf made with ground lamb, spices, velvitized egg, orated milk and mashed potatoes piped in an attractive design over the loaf. An economical dish, the Winter Wonder lamb loaf is juicy and firm-textured thanks to the evaporated milk. This convenient form of milk makes soups and sauces easier and meat loaves juicier. Unopened cans of evaporated milk stay fresh on your shelf indefinitely.

LAMB-POTATO LOAF

- (Makes 8 Servings)
- 1 1/2 pounds ground lamb
 - 1 small onion, chopped
 - 1/2 cup (small can) undiluted evaporated milk
 - 1 can (8 ounces) tomato sauce
 - 1/2 cup fine dry bread crumbs
 - 1 1/2 teaspoons salt
 - 1/4 teaspoon mint flakes
 - 1/4 teaspoon each garlic powder, marjoram, pepper
 - 2 teaspoons Worcestershire
 - 2 cups mashed potatoes
 - Parsley

Mix together lamb, onion, evaporated milk, tomato sauce, bread crumbs, and seasonings. Lightly pack into 9 x 5 x 3-inch loaf pan. Bake in 350° (moderate) oven 50 minutes. Drain off drippings. Turn meat loaf onto heat-proof platter. Using pastry bag, pipe mashed potatoes around loaf. Broil 4 inches from source of heat 2 minutes or until lightly browned. Garnish with parsley. Serve with gravy, if desired.

Present for the meeting were Mrs. DeLoach, Mrs. Oscar Vinson, Mrs. Robert Nelson, Mrs. J. R. Arnold, Mrs. L. F. Meeks, Mrs. John Bath, Mrs. Willie Hazel, Mrs. J. M. Bullock.

Mrs. and Mrs. David Bensing and children of Goldsmith visited during the weekend in the home of her parents, Mr. and Mrs. Clovis Bridwell. Their son, Chris, remained for a longer visit.

Mr. and Mrs. Clovis Bridwell and Mr. and Mrs. Walton Downs were in Littlefield last Wednesday afternoon to attend the funeral services of Mrs. Myrtle Redwine.

Rita Ann Wiseman has been visiting relatives the past two weeks in Portales.

Real lives are built much by degrees,
Nor is it done, my friends, with ease,
Sometimes the climb is hard and long
To reach the heights where we belong.
When climbing up life's rugged way
We need to watch our step each day,
For one misstep may prove to be,
A change in our eternity.

Highway 84 Construction Scheduled To Start Soon

The Texas Highway Department Thursday tabulated low bids for making Highway 84 a four lane divided highway running from the west end of the present Highway 84 by-pass to within 1.8 miles southeast of the Dalley County line.

Henry L. Stafford, Lubbock was the apparent low bidder on the contract with a bid of \$1,371,606.

The project will include the constructing of a new two lane highway on the south side of the present highway and a complete rebuilding of the present stretch of Highway 84. The highway when completed will join with the four lane

portion of Highway 84 which runs Southeast from Muleshoe. The project will cover a distance of 166 miles.

D. V. Miss office manager of the Stafford firm stated that it is hoped that construction on the project will start in late March or early April with a completion date set for approximately 18 months after starting.

Rhea Bradley, Resident Engineer of the Texas Highway Department stated that a pre-construction meeting will be held within the next few days with representatives of the contract firm.

Mr. and Mrs. Norman Nelson are the parents of a son, Ken Ray, born Feb. 24 in the Littlefield hospital, weighting 7 pounds 10 ounces. Grandparents are Mr. and Mrs. H. C. Nelson of Dimmitt, Mr. and Mrs. W. E. Thompson of Sallis, Calif. Nelson is a coach in the Sudan School system.

DEBBIE FIELDS HOSTS SATURDAY PARTY
Debbie Fields entertained with a party Saturday evening in the home of her grandparents, Mr. and Mrs. Lynn Olds. Guests attending were Deborah Marlowe, Louise Williamson, Ellen Williams, Kathy Rice, Sharon Wilson, Connie Lance, Sherry Potter, Larry Hanna, Bobby Drake, Clinton Jones, Harvey Rudd, Marshall Allen.

CUB SCOUTS ATTEND CHURCH
Cub Scout Den 3 attended church services in a group Sunday morning when they were accompanied by their Den Mother, Mrs. Thomas Lee Harper. The group attended services at the Church of Christ and those present were Craig Harper, Jimmy Fields, Mark Davison, Rex Baccus. Following church some of the boys had lunch in the Harper home.

Rev. Joe Serratt and family of Lubbock spent the weekend in the home of his brother and family, Mr. and Mrs. Johnnie Serratt.

School Menu

Monday, March 7 - Fried chicken, cream gravy, mashed potatoes, garden salad, hot rolls, butter, milk, peach halves.

Tuesday - Roast and brown gravy, buttered rice, blackeyed peas, hot rolls, butter, milk, congealed salad.

Wednesday - Baked ham, Spring potatoes, cut green beans, hot rolls, butter, milk, carrot stick, pineapple pudding.

Thursday - Fish portions and tartar sauce, buttered corn, cabbage and raisin salad, hot rolls, butter, milk, applesauce.

Friday - Brown beans, potato salad, spinach, cornbread, milk, prunes.

SUNDAY SCHOOL CLASS HAS SLUMBER PARTY

Mrs. Jack Noblett, teacher of the Intermediate Girls Sunday School class of the First Baptist Church, entertained members of the class with a slumber party Friday night at her home.

Attending were Louise Williamson, Kathy Rice, Connie Lance, Venita Whiteaker, Debbie Fields, Cynthia Wiseman.

Cotton Growers Expressing High Interest In Research

Perhaps more than ever before, cotton producers on the High Plains are searching for ways to get maximum value from fertilizers, irrigation water and acres in 1966. Here are some of the reasons.

For all practical purposes every farmer's cotton acreage will be reduced from 12 1/2 to 35 percent under the new cotton program, and reports show that over 95 percent of them are electing to divert or lay out a full 35 percent in 1966.

Rules for skip-row planting of cotton and other crops have been changed to the effect that farmers utilizing any skip row pattern which leaves less than four blank rows are penalized from 18 to 23 percent of their permissible 1966 acreage.

Exclusive of government payments, which are based on projected yield instead of the cotton actually produced, the farmer will get approximately eight cents per pound or \$40 per bale less for the cotton he takes to the gin in 1966. The loan price in 1966 is to be 21 cents per pound, basis middling-inch cotton, as compared to 29 cents in 1965. While this does not necessarily set the price at which cotton will be sold, in the past the loan value has pretty well established the market range, so the comparison for the two years

should not be far off center. With these facts in mind, and mindful as well that the amount of government payments in future years will be contingent on keeping per acre yields at a high level, producers are forced to cut every corner possible to keep production up without jeopardizing 1966 net profits.

According to reports from the Texas Agricultural Extension Service, interest is running high in the results of research and demonstrations which tend to show the way to maintaining or increasing production without a corresponding increase in production costs.

Extension Information Specialist Mike Hood says: "County agents across the High Plains are reporting heavy inquiries from producers seeking ways to minimize or if possible avoid entirely the effects of reduced acreage and new skip-row rulings."

Attracting a lot of attention at Muleshoe has been a fertilizer demonstration on cotton which illustrates how profits can be increased by following soil test plant food recommendations. Conducted on the Pat Childress farm, the test was set up to show if new fertilizer mixes containing sulphur would prove profitable on Portales high lime soil.

Soil test recommendations from the South Plains Research and Extension Center near Lubbock called for applications of nitrogen alone at the rate of 60 pounds per acre. According to Bailey County Agent J. K. Adams this produced 63 pounds lint per acre more than eight of two other plots, each of which received fertilizer mixes containing sulphur. And 60 pounds of nitrogen alone produced 254 pounds more lint than a check plot which was not fertilized at all.

More important is the fact that the best yield, 654 pounds was produced with only \$5 per acre worth of fertilizer while the next best yield, 591 pounds, came from a plot to which \$25 worth of fertilizer was applied. Adams said the demonstration also indicated that late square and early bloom stage may be the most ideal time to apply nitrogen to the Portales high lime soils in this area.

From Tahoka where irrigation water is generally light comes news of some unusual combinations of row spacing and watering methods.

W. B. Griffin, County Agent, says several of the local farmers will be trying a system in which cotton will be planted four-in-four-out (under which the four blank rows can be counted as diverted acreage under the new cotton program). The farmers will then attempt to take maximum advantage of weak irrigation wells by a pre-plant watering that will be applied just to two of the three furrows inside the area where cotton is planted. Then summer irrigation will be applied only down the previously unwatered middle-furrow.

Griffin says the farmers figure that the outside rows will draw enough moisture from the skipped rows to make fairly good yields. He points out, however, that not enough is known of this system to make it a recommended practice. But it will be interesting to see how it works.

The need to conserve water is more than something necessary to keep pumping costs down under the new cotton program. Irrigation specialists and hydrologists have for years been cautioning that our underground supply of water is not unlimited and that every practice that can be utilized to save water will prolong the life of extensive irrigation on the Plains.

To this end, Irrigation Specialist Bill Lyle and others have been investigating various levels of pre-plant irrigation. The conclusion is that in general too much water is applied during pre-plant irrigation in this region.

Lyle says there are instances where as much as 12 inches are applied when four inches will bring the soil to its field capacity throughout the root zone. And he says farmers should plan their first watering so they apply no more than the amount which can be effectively stored in the soil's root zone.

While the amount of water necessary to saturate the root zone varies with soil type, Lyle thinks watering deeper than four feet is usually inefficient and results in considerable wasted water through deep percolation.

He defines "field capacity" as the maximum amount of water a soil can retain for crop use, and describes the water holding ability of the common soil types on the South Plains as follows:

Hardlands — Such as Pullman clay loams — hold an average of 2 to 2 1/2 inches of water per foot of soil. At this rate, it takes 8 to 10 inches to fill the four foot root zone. But the intake rate of these soils is so low as to make it extremely difficult to apply much more than four inches per irrigation.

Mixedlands — such as Amarillo fine sandy loams — hold about 1 1/2 inches per foot of soil. A six-inch pre-plant irrigation should bring the root zone to field capacity.

Sandylands — such as Brownfield loamy sand — hold an average of one inch of water per foot of soil. An application in excess of four inches is probably wasteful.

Especially in the case of those with limited irrigation water a pre-plant watering that does not bring the entire root zone to field capacity may sometimes be advisable, Lyle points out.

He cites studies at South Plains Research and Extension Center which indicate that average summer rains with light pre-plant irrigation will produce yields comparable to those with heavier pre-plant waterings. However, he says that in years of less than average rainfall the same studies show significant yield losses with lighter pre-plant irrigations.

Research Fights Famine

Micro-Farm Spurs Yield

The "growth chamber" is helping scientists at Esso Research and Engineering Company develop new and improved fertilizers and agricultural chemicals suitable for use anywhere in the world.

LINDEN, N. J. — A "watch dog" farm nearly hidden in one of the world's most industrialized areas here is helping the fight on famine, hunger and malnutrition.

The "micro-farm" — producing such diverse crops as rice, barley and beans — is actually a laboratory of the Esso Research and Engineering Co. In it, scientists can simulate soil and climate conditions found virtually anywhere in the world. In so doing, they are able to develop fertilizers and agricultural chemicals best suited for varying conditions of temperature, humidity, rainfall and sunlight. The top soil of the world will thus be made more productive.

The laboratory contains four "growth chambers." Each is so designed that a turn of a few dials can change conditions in the chamber from those peculiar to Philippine rice paddies to those found in Colombia high

lands. Overhead incandescent and ultraviolet lights provide appropriate "sunlight."

During the course of a year, each chamber can produce the equivalent of five acres of crops. Thus, the four chambers can provide 20 acres of preliminary field testing.

The development of specially tailored fertilizers and farm chemicals is but one part of the oil industry's contribution to the agricultural revolution of the last 50 years. During the first half of this century, the contributions of petroleum research were primarily in the area of developing low cost fuels and lubricants which made it economically possible to mechanize farm operations.

More recently, the emphasis has been on developing technology designed to increase yields while reducing losses caused by plant diseases and pests familiar to farmers.

PERSONALS

Mrs. Reed Markham has returned home after being confined to the hospital in Amherst.

Rev. Willie Hazel was in Lubbock Tuesday morning to visit Loyd Robinson who was confined to a hospital there.

Mrs. Clyde Chappell has been confined to a hospital in Littlefield.

Mrs. O. E. Duvall, who underwent surgery recently in a Littlefield hospital, was scheduled to return home this week.

Mrs. J. C. Drake, who has been confined to a Littlefield hospital returned home Saturday.

Mrs. John Burnett was confined last week to a hospital in Littlefield.

TELL ME

WHAT ANIMAL EXISTS WITHOUT WATER?

THE KOALA... OF AUSTRALIA IT THRIVES ON NOTHING BUT EUCALYPTUS LEAVES AND NEVER DRINKS WATER!

WHO ORIGINATED THE CUSTOM OF SHAVING?

ALEXANDER THE GREAT! HE ORDERED HIS SOLDIERS TO SHAVE THEIR BEARDS SO THEY COULD NOT BE SEIZED BY THEIR ENEMIES!

CAN ONE SPOT A CROOK BY HIS LOOKS?

NO! SCIENTISTS HAVE REACHED THE CONCLUSION, AFTER EXHAUSTIVE STUDIES, THAT THERE IS NO SUCH THING AS A CRIMINAL TYPE!

DO MOUNTAINS SWAY WITH THE WIND?

SOME DO! FOR EXAMPLE JAPAN'S FUJIYAMA... ITS CONE, CRAGS AND WALLS OFTEN BEND UNDER THE PRESSURE OF THE WIND!

YOU SAVE ENOUGH TO BUY

WHEN YOU DRY WITH GAS

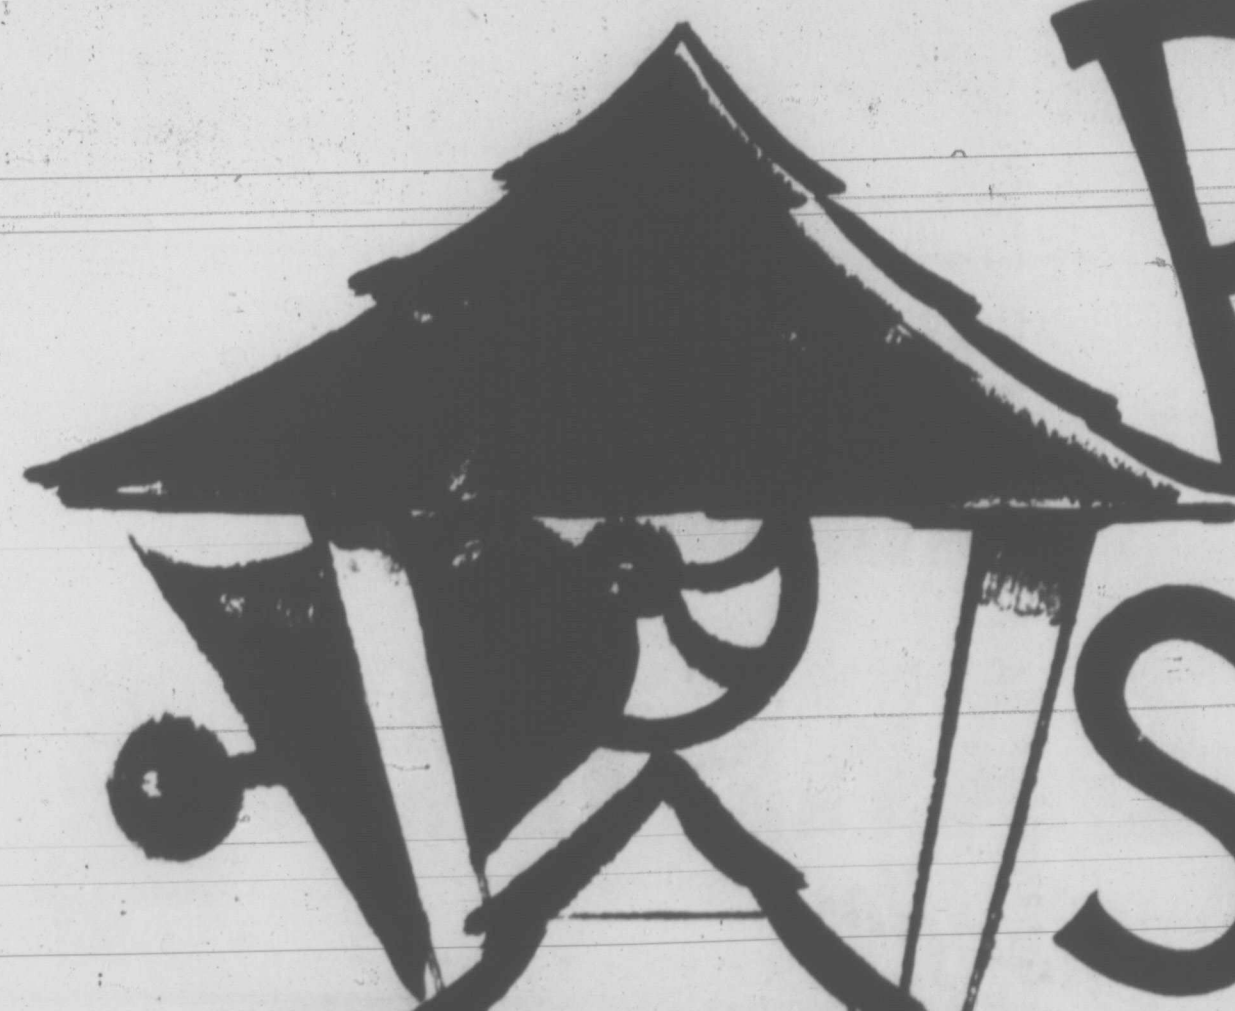

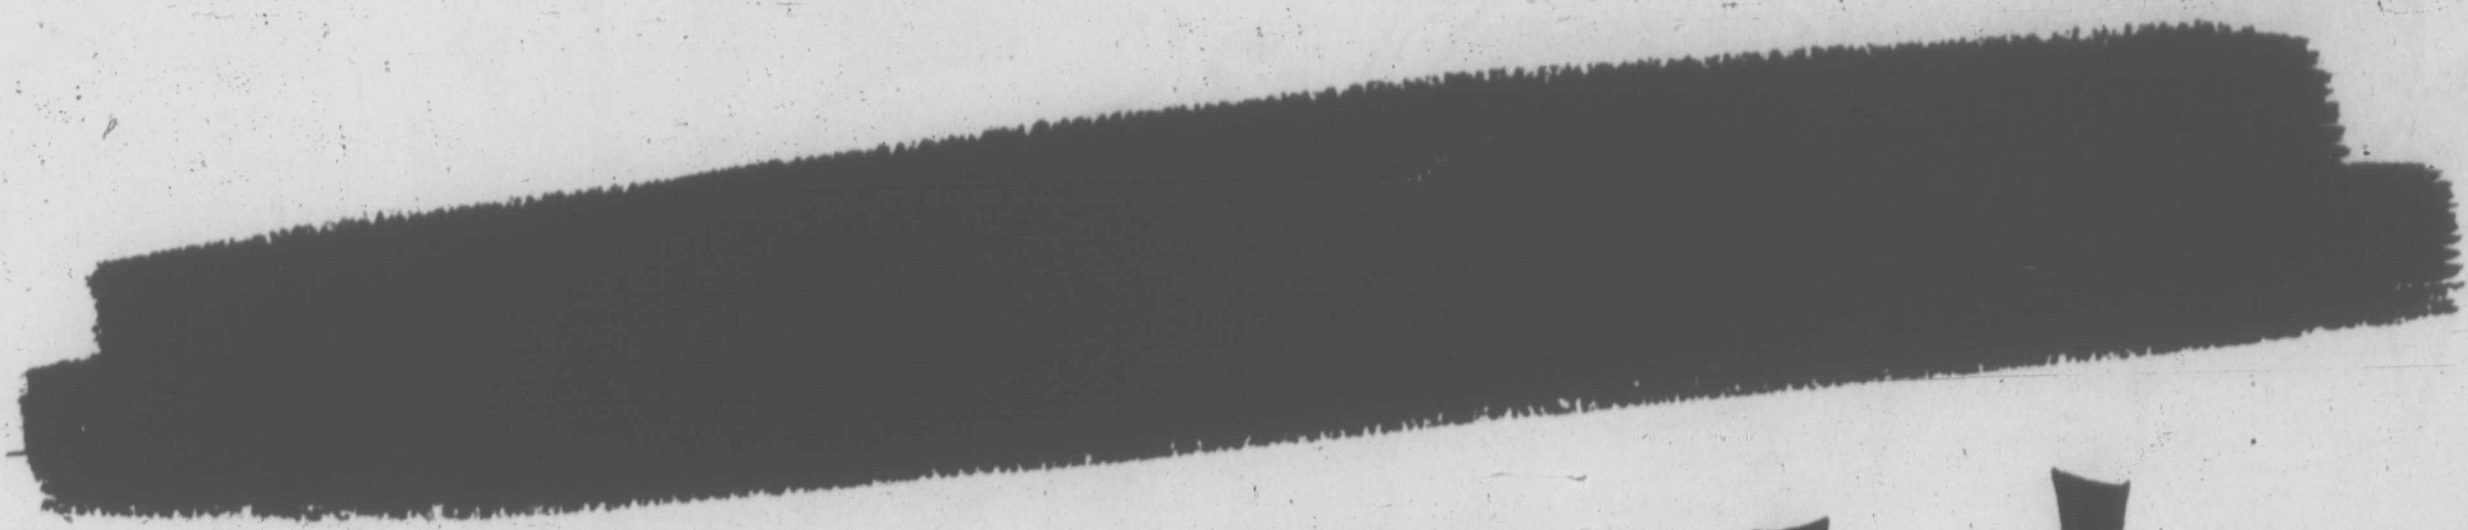

TWO MONTHS SUPPLY OF MILK

SAVE ON INSTALLATION AND MAINTENANCE, TOO.

A GAS clothes dryer costs less to install and maintenance costs are the lowest of any dryer. A GAS burner, the heart of your dryer, carries a lifetime guarantee.

When you dry your clothes with GAS, you can save \$29.76 a year on your utility bill! That's enough to buy twenty-five gallons of milk... a two months' supply for an average family of four. You get quality performance, too. GAS dries your clothes faster yet gently... and leaves them as fresh as springtime.
