KANSAS CITY homes are falling into holes, as about 42 of them located over an old abandoned mine have been deserted after some fell into giant holes in the ground. All those caves should make quite a sight. Kansas City should capitalize on this and make it a tourist attraction.

They could call it the Kansas City Holey Land.

HOSPITALS, which already are overcrowded, overworked, and in most cases overpaid, (not South Plains, but the big city hospitals which charge about half again as much as they do in Amherst for most services), are expecting a real rush of patients over-65 when medicare goes into effect July 1.

The Social Security administration reports that fewer than half the hospitals that could participate in medicare have met all required standards.

What this means is that the government has set up a bunch of rules telling the hospitals how they can operate if they are going to get in on medicare. And a lot of hospitals apparently feel they are doing as much business as they can handle without get-

ting all involved in federal rules and regulations which are attached to the medicare program.

Medicare is just like all the other federal programs—when the federal government gives you money, it immediately begins ordering you around and telling you how to run your business.

It just proves again that nothing is free.

NOBODY WILL ever believe my wife's story about how she got a black eye last weekend. It is a beauty of a shiner, and only those who know better will ever be convinced about how it happened.

Actually it was the indirect result of our next-door neighbors becoming parents, and let me hasten to explain that one.

This fellow called us jubilantly at 3 a. m. (as we had asked him to, day or night) to inform us of the happy news, and on the way to the telephone, in total darkness, my wife ran into the door.

Who is going to believe that?

SENIOR CITIZENS MEETING SLATFD

Coffee, cokes and cookies will be served.

The Jaycees, in operating the rest-stop are trying to alert the mile-weary travelers, thereby keeping down the death toll of the national holiday.

Rylant - Ritchie Vows Exchanged

Miss Andrea Jean Ritchie became the bride of Arboth A. Rylant at 7:30 p. m., June 24, in the First Baptist Church of Sudan in a double ring ceremony with Rev. Willie Hazel, pastor, officiating.

The bride is the daughter of Mr. and Mrs. G. C. Ritchie of Sudan. The groom is the son of Mr. and Mrs. Jack Rylant, Sr., of Earth.

The bride's father escorted her to the altar. She wore a floor-length bouffant gown of Chantilly lace over peau de soie.

The gown featured a scalloped neckline re-embroidered with pearls and long petal-point sleeves ending below the wrist. The chapel train of Chantilly lace fell from her shoulders. Her veil of imported silk illusion was held in place by a circlet of silk illusion petals outlined with pearls. She carried a bouquet of white orchids and baby's breath atop her white Bible.

Maid of honor was the bride's sister, Miss Janet Ritchie. Bridesmaid was Miss Becky Rylant, sister of the groom. They

wore floor-length gowns of aqua and white embroidered peau de soie. The dresses featured an empire waistline. Their headpieces were of matching cabbage roses with aqua silk illusion veils.

Candle lighters were Debbie Ritchie of Sudan and Dennis Rylant of Earth. Ring bearer was Steve Ritchie, brother of the bride. Flower girl was Cindy Baldrige of Sudan.

Bestman was Jack Rylant, Jr., of Canyon, brother of the groom. Serving as groomsman was Denny Parish of Earth. Ushers were Paul Gordon and Robert Williamson of Sudan.

Wedding music was provided by Mrs. Carolyn Baldrige who accompanied Miss Alyce Corley, cousin of the bride, as soloist.

Following the reception in the Fellowship Hall of the church, the couple left on a wedding trip to New Mexico. The bride wore a blue lace and crepe dress with white accessories.

The bride is a 1965 graduate of Sudan High School and was formerly employed by Sudan Beacon-News. The bridegroom is a 1964 graduate of Springlake—Earth High School and is a student at West Texas State University in Canyon.

The couple will reside in Canyon where the bridegroom is presently employed.

Special out of town guests were grandparents of the bride, Mr. and Mrs. D. N. Cooley of Belen, N. M.

Devotional

By HAZEL HOUSE

"TRUST AND OBEY"

Scripture: Exodus 40:6-7; St. John 13:8, 10; Eph. 5:25-26.

Are you a follower of Christ? Have you accepted Jesus as your personal Savior, knowing He died that all our sins might be paid for with His sacrifice of Himself, ours if we will accept Him into our hearts as our own? Then, have you followed Jesus since that 'accepting' time? Read His Word, listened to His teaching in meditation and in prayer, in service to others?

Here is some "food" for thought, taken from our given scripture. Once a believer in Jesus Christ is forgiven for his or her sins (Jesus always forgives when we truly ask Him) and cleansed by the acceptance (the application made by the individual in the accepting) of Jesus' shed blood, that person is saved from sin and born into God's kingdom.

But, can we remain clean vessels, even with our guilt removed, unless we come again and again to God that He may keep us from being defiled by sin, as long as we dwell in these

physical bodies and in this present world? Do we not need to come daily into God's presence, that He may sanctify, or cleanse and renew our lives day by day so He can use us for His purpose?

Cleansed and made holy is not a static thing that happens only once, but a process, a progressive happening. Daily prayer, daily being with God as friend with friend. Sanctified, how? With the washing of His word—the truth. Over and over again as long as we are in a place where we come into contact with sinfulness.

Does your church building remain clean, once it has been cleansed? It remains a church building, but a church building defiled, unless a continual process of cleansing methods are used. We, made as temples for the Holy Spirit to dwell within—(Have you ever asked yourself, "Why did God make me?") are likewise the same within and without. God cannot have fellowship (as man was made for fellowship with God) with us

if we are defiled with sin, but, He can and will cleanse us if we come to Him for that purpose.

How to approach our Holy and loving Father? In our given scripture found in Exodus, we find the physical actions God gave here as typifying the spiritual, (showing us of our coming Savior, too) as He so many times has given us the physical or material things to show us so that we can better understand the spiritual.

First the "altar of sacrifice"—now, here is the place where we begin to voice our prayer. Sometimes in my experience, I pray "Father, if I did this, I meant it kindly, then, as I continue, "maybe this was deceiving in a way but I thought it wise," then "I was wrong, Father; forgive me, and help me to remember Thy way." Then a cleansing, a freedom, of the spirit, no longer bound by sin, or defiled by sin.

When obedience to God's will and directions follows this, He can and will give us blessings that will make us to reveal to others Jesus in His beauty, for He is altogether lovely! Pure and Holy, and of such great, merciful, tender love for each and every one of us that He will give us day by day a new cleansing, a new manna, a renewed right spirit near to the heart of God.

The Patient American

A recent essay on "Patience" in a national magazine deduced that, contrary to popular belief, Americans are a patient lot. To support this deduction the essay cited the patience of our forefathers in developing the West, our scientists in discovering new vaccines, and our children who are spending more and more years in school to prepare for the future.

Further, the author noted that capitalists, gradually replacing the aristocracy at the top of society, were demonstrating what the patient, long-view investment and investment of money could do to liberate men from the conditions they were born to. Patience was no longer quiet resignation but purposeful action toward a long-range goal.

Among other things, this reflects a change in an entire philosophy: from the "get rich quick" approach to the more patient accrual of capital through long-term investment. This probably explains, to a great extent, the phenomenal growth of mutual funds.

Basically, mutual funds are "a purposeful action toward a long-range goal." People have turned to them because they do not want to "speculate." They would prefer to invest their money in something that is more likely to show a slower, more constant growth.

As the Investment Company Institute points out, mutual funds are a diversified, pooled investment. The money invested—and individually it can be as little as \$25 a month—is pooled along with that of many others and invested by professional managers in a wide variety of securities. This type of diversification helps to reduce the risk inherent in all forms of investing.

There are over 3.5 million mutual fund investors today with investments worth more than \$36 billion.

COUNTY HAS SEVEN ACCIDENTS IN MAY

The Texas Highway Patrol investigated seven accidents in Lamb County during the month of May according to Sergeant Thurman Keffer, Highway Patrol Supervisor of this area.

The crashes resulted in three persons injured and an estimated property damage of \$5,425.

The rural traffic accident summary for this county during the first five months of 1966 shows a total of 32 accidents resulting in two persons killed, five persons injured, and an estimated property damage of \$16,980.

The number of traffic deaths in Texas has risen steadily since 1960. For the first five months of 1966, 1137 persons have died in traffic compared to 1032 deaths for the same period of 1965, a 10 percent increase.

The Sergeant appealed to the motoring public to assist in the reduction of this trend, otherwise the death count at the end of the year will far exceed the record of 3028 deaths in Texas during 1965.
