## WOODWORK BY DALTON

SOMEONE said the recent rains, coming in such abundance after the long dry spell, reminded them of an Ace Reid cartoon they saw which went something like this:

One cowboy asked another what the total annual rainfall was around these parts. The other one replied: "Oh, about 12 inches—and it really poured down that day."

Rainfall totals may not look too bad, sometimes, but generally the pattern of the rain leaves something to be desired. It seems we get too much at once sometimes, but more often it seems we just don't get any rainfall.

People in these parts by now surely have come to realize that every silver lining has its cloud, to turn the phrase around, because we just don't ordinarily get a good rain without hail falling somewhere in the general vicinity. Maybe the Lord sends the rain only when we get to the point that we want rain so badly we're willing to take a little hail a-

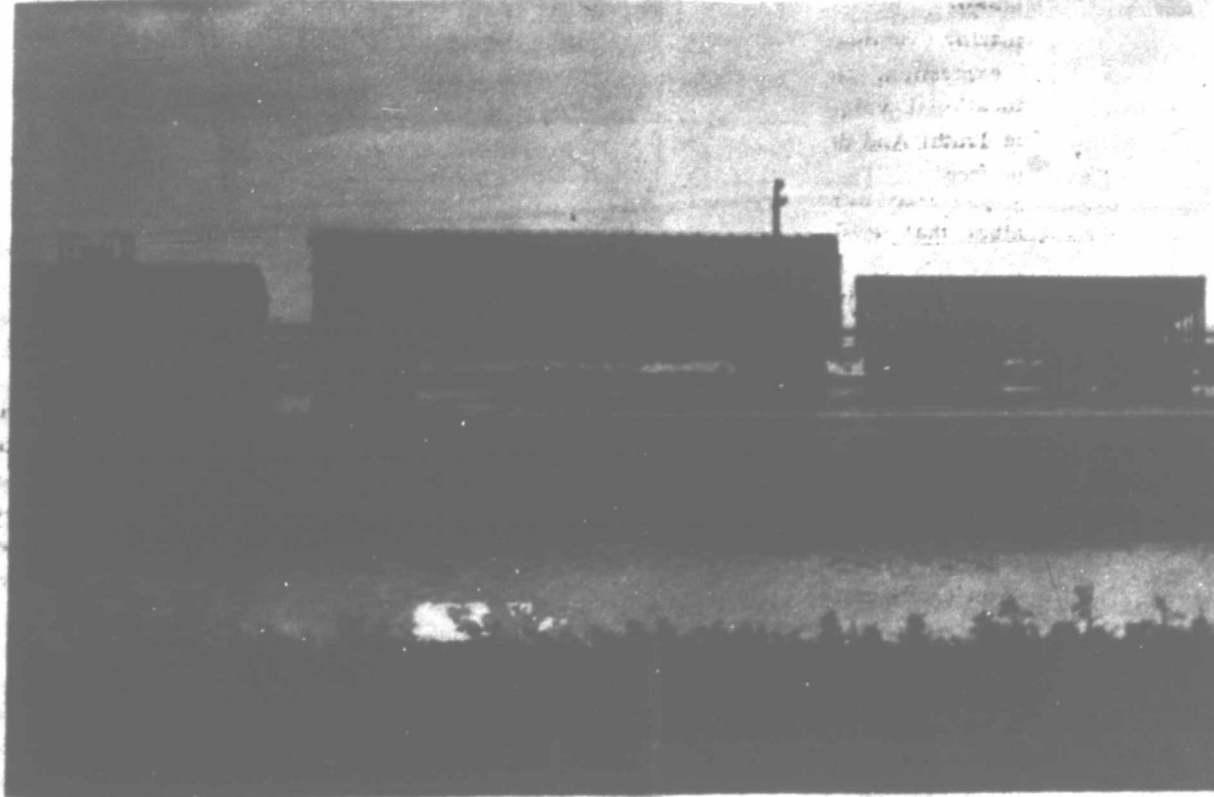

long with it, just to get the water.

A NEW BILL which passed both houses of Legislature, and which I feel reasonably sure Gov. Connally signed, although I never did see an announcement of it, would take all the fun out of voting.

The measure would eliminate the present negative method of marking through the names of those you don't want, and would require you to put an X by the name of the candidate you are voting for.

Gone forever would be the fun of viciously scratching out the name of somebody you don't like. Obviously the legislators and the governor don't understand that people never vote for candidates. They vote against other candidates, leaving whoever they figure is the least of all the evil on the ballot.

There's an out, though. You can still vote the way you always have done, but your ballot counted. The bill specifically provides that election judges may not mark ballots which have been marked by the scratch-out method unless there is some other reason to toss out the ballot.

**SLOW MOVING FREIGHT** - Shown above is the east bound freight which was able to continue on its way late Thursday after a repair crew had filled in some 100 feet of grade which was washed from beneath the tracks along Hwy. 84 northwest of Sudan during last Thursday's deluge.

## Rain, Hail Batter Area

Enough, enough. Last week only hours after the edition of this newspaper was printed which stated that more rain was needed, the sky opened up and dumped 6.2 inches of rain and hail on the Sudan area. The rain fell so fast and furious that streets were flooded and some businesses threatened with high water.

Most of the damage to Sudan proper was reports of broken windows and slight roof damage. However, hail and water erosion damage to crops was severe with reports that most farmers will have to replant.

Some crops south of town, where some 3 1/2 inches of rain was reported are said to be in good shape as no hail was received in that area.

Also dryland farmers, who did not have sufficient moisture to plant, are now preparing their fields for planting. Reports

have been varied as to whether most farmers are replanting cotton or are supplementing their cotton acreage with some other crop. However, it has been reported that there is still time, with good weather conditions, to harvest a bumper cotton crop on the South Plains, by using the early maturing cottonseed.

The highways between Sudan and Earth were still closed at press time with more rain in the forecast.

### SENIOR CITIZENS TO MEET FRIDAY

## Drivers License To Get New Look

Texas Drivers' License will soon take on a new look by the addition of a picture of the licensee on laminated cards, according to the Department of

Safety, by the signing of the traffic safety bill by Governor John Connally.

According to the new law, licenses for persons under the age of 21 will be a different color from those over that age. Also license will be renewed every four years on the birth date of the applicant, at the rate of \$6.00 for operator's license.

Restrictions and suspensions will be more strict and the Department of Public Safety may at its discretion require an examination for the renewal of a license.

Also to obtain a driver's license, an applicant must be 18 years of age unless he has completed a driver education course approved by the department, and then must be 16 years of age.

Also, effective Jan. 1, 1968, all motorcycle operators and passengers must wear protective headgear and the motor vehicle inspection fee will be

raised to \$1.75 and will require front seatbelts where seat belt anchorages are part of the manufacturer's original equipment.

## O'ER THE RAMPARTS WE WATCH

## OLD GLORY

A day traditionally known as Flag Day, when we pay our respects to "Old Glory," comes on June 14.

The first Flag Day remembrance took place in 1877 when the Government requested all public buildings to fly the national flag in commemoration of its 100th anniversary.

Since this time the day is dedicated to the freedom that symbolizes America, a flag that is to be respected by all Americans. It denotes a positive act of pride, performed by those who realize the importance of keeping the red, white, and blue symbol of our nation flying in the breeze.

We, as Americans, on this day should not be lax in the manner in which we display our flag or the way we behave when the flag is in our presence. The very fact that we are free to decide how we want to honor the flag should be the best reason to wave it.

Let all of us be proud of our flag and honor it by displaying "Old Glory" on this day.

**WELCOME TO SUDAN** - Rev. Robert Brown, new minister at the First Methodist Church. He and his wife, Mary, have three children; a daughter, Sarah, who is a student at McMurry College; two sons, Bobby, a high school junior, and Wesley, age 10.

## Games Called Due To Rain

Little league games which were scheduled for Thursday and Friday nights were canceled due to rain and will be played at the close of the season.

The two games played Monday night were both very close with one ending in a tie, because of the 9:30 p. m. time limit that has been set on the games.

The Dodgers and Cubs were tied 9-9 in Amherst Monday night at the end of six complete innings, when the game had to be called. Ken Burgess and Keith Downs pitched for the Dodgers and Donnie Noles for the Cubs.

The Braves and Angels were tied at 6-6 at the top of the sixth and final inning when the Angels managed to secure one run to edge the Braves 7-6 for the victory. Pitching for the Angels was Mark Hanna and Randy Miller was on the mound for the Braves.

Thursday, the Cardinals will go to Amherst to play the Braves while the Cubs come to Sudan to battle the Angels. Friday, the Dodgers take on the Braves in Amherst and the Cardinals and Angels tangle in Sudan. The Cubs and Cardinals will play Monday in Amherst, while the Angels and Dodgers will play in Sudan.

\*\*\*\*  
In Pony League, Amherst maintains their unblemished season record of 5-0 by defeating Roden Drug, 12-8. Sudan remains in third place and was downed 15-10 by Ware-Richey of Littlefield.
