## WOODWORK

BY DALTON

IN JACKSONVILLE, Fla. recently, a cigarette machine at a bar hadn't been working properly for several days. A service man was called, and he quickly found the trouble: A three-foot bull snake was coiled inside the machine.

Some drunk who put in his 35 cents (or whatever it costs) and saw the snake drop out probably would have gone on the wagon for good.

Actually they probably saved the snake's life by acting so soon. In another week, the varmint probably would have had cancer.

THE U.S. COAST GUARD the other day picked up a fellow in a raft who had fled Communist Cuba.

The man's name was William Nelson, and he defected to Cuba in 1963. It seems that after being disenchanted with the U.S., he took off to Cuba. But now he's disenchanted with Cuba. Poor fellow just can't seem to get along anywhere.

This is an attitude I've noticed in people who are always complaining about the place they live. Lots of folks are never satisfied with their town, in fact, they are always griping about how terrible a place it is to live. Eventually they move. And I'll bet that if you could just follow them up six months later, they wouldn't like the next place, either.

Often when a person dislikes a town there's more wrong with the person than with the town.

IN WASHINGTON the other day, a congressional investigation into gasoline giveaway games was announced.

"The investigation is intended to determine whether prizes are actually awarded in the numbers advertised and whether the selection of winners of the highly-publicized games are manipulated," said Rep. John Dingell of Michigan.

In other words, are they crooked? Well, I don't know, but someone pointed out to me recently that big prizes given away to a certain number often may never be given away at all, simply because whoever has that number never knows about it.

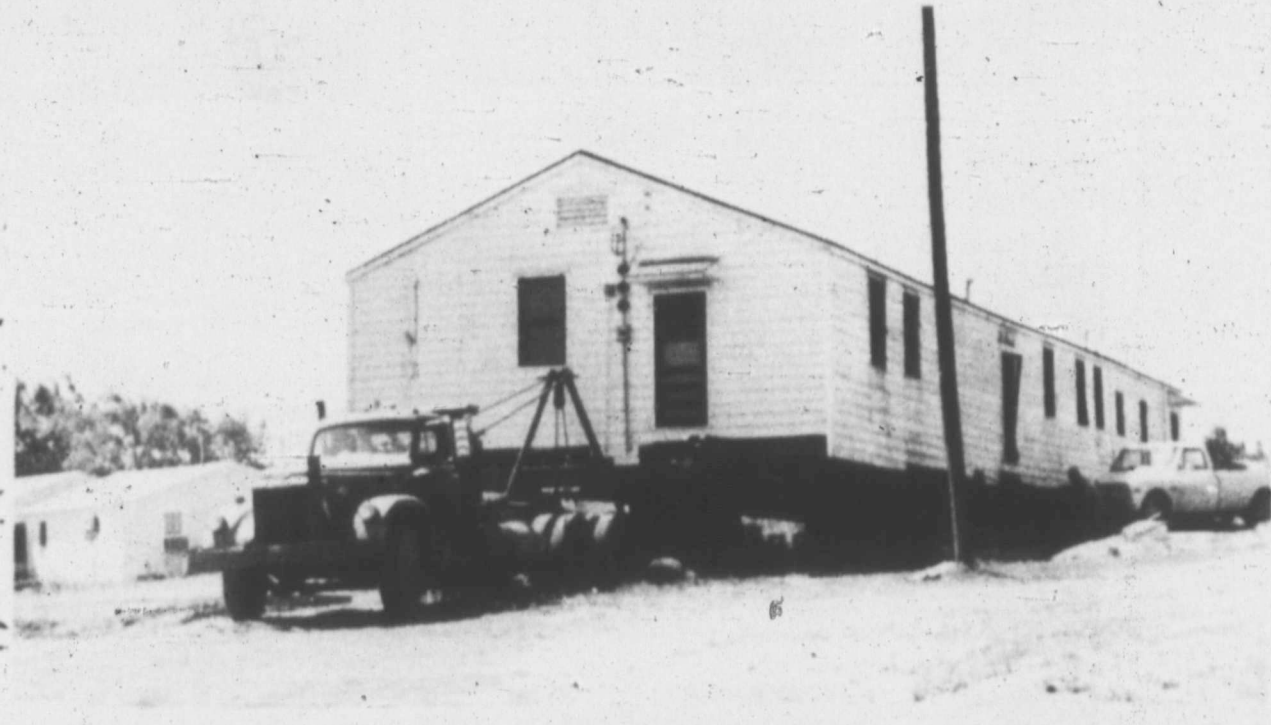

If they're gonna rig these prizes, I wish somebody would rig one in my favor. Which brings to mind again the political comment once made by Bill Hams of the Lubbock Avalanche-Journal (and which I have mentioned here previously): "I don't want an honest man in office; I want a crook that's on my side!"

**STOLEN, BUT TRUE QUIP:** The man who 40 years ago framed the first dollar he made with a 10-cent frame finds today that the frame now is worth a dollar and the dollar is now worth 10 cents.

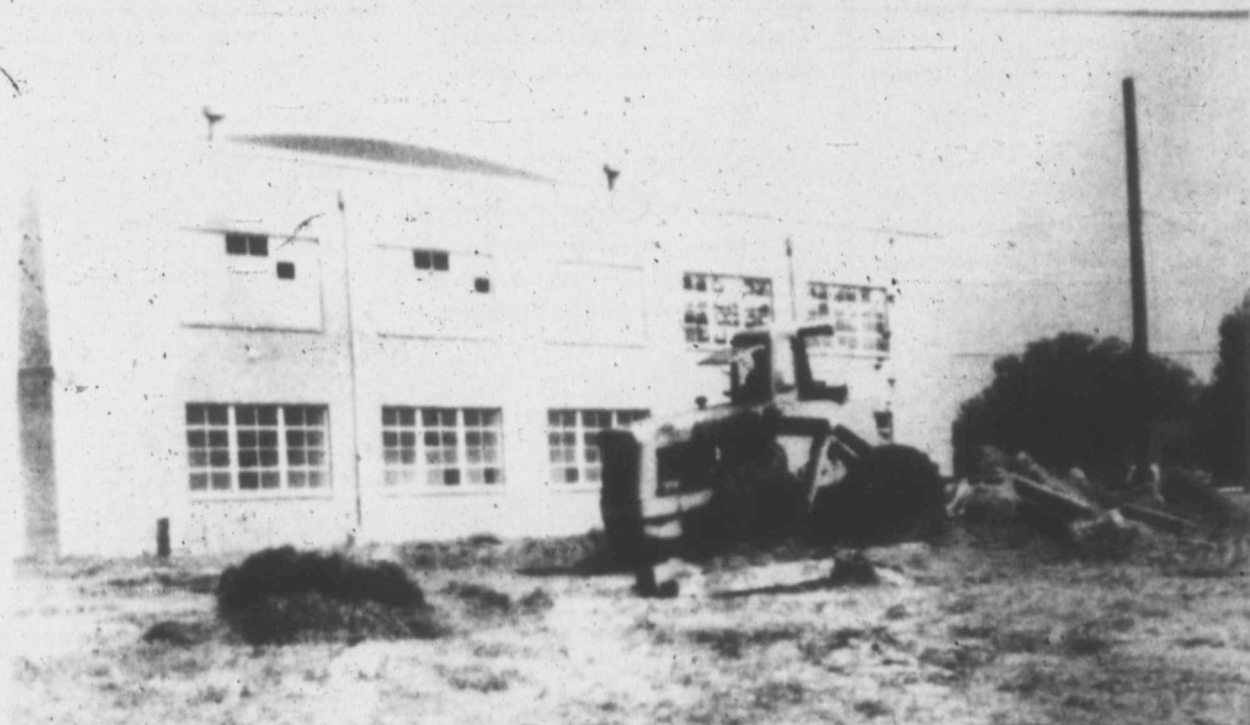

Guy H. Walden has been confined to Methodist Hospital, Lubbock. He is in Room 811.

Mr. and Mrs. Philip Gordon visited relatives in Lubbock Sunday afternoon.

Donny Ford of Sudan moved to Lubbock this weekend where he has accepted a position with Southwest Tractor and Equipment.

NEW LOOK ON SCHOOL PROPERTY--Part of the extensive program of remodeling and improving Sudan schools involves removal of teacher-ages which were located next to the gymnasium. In photo at left, the houses, which were sold, are being moved by truck. The later

picture at right shows the same area after the houses had been removed, with the ground leveled. This will be the site of two new tennis courts included in the program for which bonds were voted. Other phases of the program also are well underway.

## Pony League Team Still Is Unbeaten

It took Sudan's Pony leaguers less time than usual to reinforce their undefeated title Saturday. The game was called at the end of the fifth inning, since the score was 16-1, over Ware-Richey. Sudan is now 11-0 in the standings.

Gary Edwards was the winning pitcher, holding the Ware-Richey batters to only twelve hits. Leading batsmen for Sudan were Karis Reeves, with one

single and two doubles; Roger Bellar and Roger Boyles, one single and one double each; and catcher Ernest Jefferson, who garnered both a single and a triple in the fifth inning.

Sudan claimed the lead with two runs in the first inning's top half, and never relinquished it. Ware-Richey's one run came off an error in the bottom of the first. The score was steadily stretched to 6-1 by the bottom of the fourth. Then by the time the dust had cleared for the bottom of the fifth, ten Sudan runners had crossed the plate. Edwards sewed the game up by getting his three outs from only four batters.

Tonight's make-up game with the Dairy Queen team will be played in Littlefield at 8 p. m.

The next regularly scheduled game for the local nine will be Saturday, at 8 p. m. in Littlefield. Their foe will be State Line Irrigation.

## Three-County Meeting On Horse Showing Set

M. at the county show barns in Littlefield.

The Horse Program will be conducted by B. F. Yeates, Extension Horse Specialist, Texas A & M University. The program will include information on organization, judging, performance, and fitting and showing horses.

This should be an outstanding meeting and interested members and leaders are encouraged to attend.

### Vacation Driving Tips Are Offered

The Texas Highway Patrol investigated nine accidents on rural highways in Lamb County during the month of May, according to Sergeant Thurman Keffer, Highway Patrol supervisor of this area.

These crashes resulted in one person killed, three persons injured and an estimated property damage of \$14,155.00.

The rural traffic accident summary for this county during the first five months of 1968 shows a total of 40 accidents resulting in five persons killed, 16 persons injured, and an estimated property damage of \$36,350.00.

During the next three months millions of motorists will be heading for the road on vacations and outings. More vehicles on the road mean congestion and congestion leads to accidents. In order to prevent accident-producing circumstances the Sergeant has listed some summer vacation driving tips:

1. Know and obey traffic laws and rules.
2. Maintain speeds consistent with legal limits and conditions.
3. Signal for turns in ample time and turn only from the proper lane.
4. Have yourself and your car under control at all times.
5. Be alert while passing, turning, pulling out, and backing.
6. Be courteous and considerate to all other drivers and pedestrians.

### CLAYTON DENIES REPORT OF SCHEDULED DEBATE

State Rep. Billy Clayton this week denied reports that he has agreed to a debate of issues with his Republican opponent for the seat in the legislature.

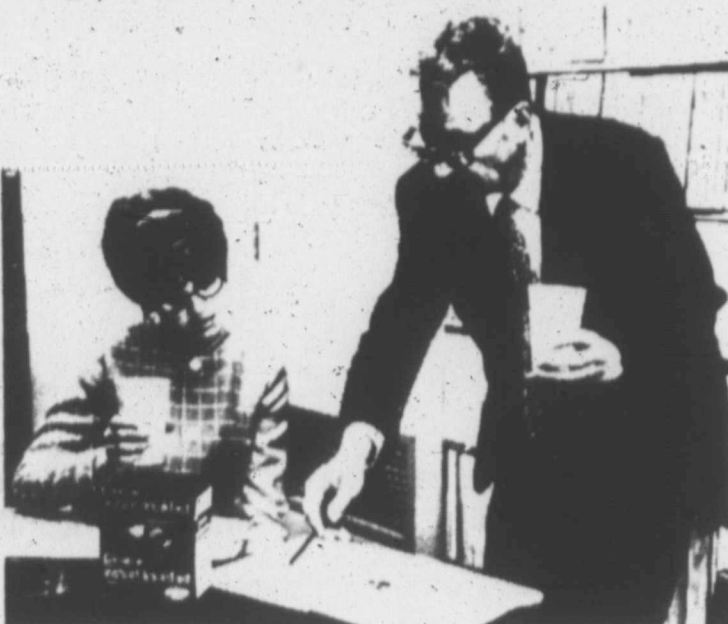

Clayton, of Springlake, is opposed by Frank Ford, whom some newspapers had quoted as saying a debate was scheduled July 4, in Muleshoe.

In Austin Wednesday, Clayton issued the following statement:

"My opponent has not contacted me about any such debate and I doubt that much could be accomplished by debate. However, I will be delighted to meet with any organization or group to express my view and answer any question pertaining to state government.

"My Republican opponent referred to a tax bill introduced by Rep. Red Simpson of Amarillo and myself. Our proposed tax bill was introduced to raise needed money for fiscal year 1969. The tax bill was also designed to help meet the needs of the 1970-71 fiscal year by accumulating enough surplus to take care of increasing higher education costs, a teacher pay raise, vocational training and other state functions

### Helpful Hints for Campus Chemistry Crammers

Have you ever experienced the fatigue brought on by the near-physical effort entailed in cramming for a final exam in Chemistry? Shirley Lewis, a senior at San Diego's Cal Western campus of United States University has two techniques for easing the strain. First, get an assistant professor like Arthur Gustaf to explain away the complexities of chemical equations. Then, to combat fatigue, reach for a flavorful, nutritious glass of Carnation instant breakfast. Remember, professors, too, are people, too, to keep the tutor at peak efficiency, pass him a glass of instant breakfast, too!

and services without having to pass another tax bill next January when the Legislature meets again."

## Information Of Area Women's Group To Promote Cotton Products Pushed

Mrs. L. E. McDowell, District Chairman of Women's Cotton Promotion Association, was in the area Monday, June 17 to help area women organize a local chapter whose purpose is to provide our own product and to be of service to the Cotton Industry.

Mrs. McDowell also gave the history of the organization since the Wake Club, a small rural group of sixteen members first started this promotion idea almost four years ago. Twelve counties have been organized since then and six more have shown interest.

As a result of the work and interest shown, the organization has been endorsed by groups ranging all the way from local civic clubs to Plains Cotton Growers, National Cotton Council and The Cotton Producers Institute. The new president of

National Cotton Council, Roy B. Davis has been a staunch supporter from the very beginning.

These cotton promotion groups are more than social clubs. Too much has been learned about cotton and cotton competitors to be anything but dead serious about promoting cotton. We are non-profit and non-political. Our aims are to try for much larger stocks of cotton in our retail stores and to create a greater public awareness of cotton and cotton problems. Since the American housewife herself buys 75% of all items taken into the home and she is largely responsible for the choice of the other 25%—this buying power gives the woman an advantage in promoting cotton. We do believe as time goes on and memberships are added, thousands of informed and organized women can definitely help cotton.

Five new members were present. Those elected to the by-laws committee are Betty Harlan, Imogene Claunch, Madge Cannon, Betty Medlin, Marcy Damel, Beth Watson and Dolores Drake.
