WOODWORK

BY DALTON

IT WON'T WORK, Charles De Gaulle. I'm onto you, and I am going to tell my legions of readers (in Lamb County, "legion" means anything over four) about your underhanded scheme to take over America from within, simply by eliminating everything American and replacing it with something French. This long-range cold war has been going on for some time, but recently it has been stepped up with the addition of a small but deadly effective weapon: the French poodle.

There was a time when only the snottiest of dowagers owned French poodles, and proprietorship was considered a certain sign of snobbery. But now, you're just not anybody unless you own a French poodle, and you could almost say that everybody and his dog has one.

Of course, most of the owners don't call them French poodles. They just call them poodles, leaving off the "French". But De Gaulle knows, and to some, embracing a poodle is like embracing France's anti-American policies.

The overall plot to French-ize America includes making such things popular as French fries, French dressing, French kissing, French champagne, French cars, French perfume, French horns, French bread, and above all, poodles.

It's not that I dislike poodles, even though I firmly believe a poodle is the ugliest thing this side of Tiny Tim. They are so ugly, in fact, they're cute, but they're not half as cute as their owners think they are.

Once upon a time we didn't know anybody who owned a poodle. But then a year or so ago, some friends came up with one, and since then, they seem more abundant among our acquaintances than mosquitoes. This nice woman pokes her poodle into my face and gurgles: "How do you like my cute little lambie-kins?" I almost threw up over cute little lambie-kins.

Some new neighbors moved in next door and they have a white

Booster Club Meeting Held

Bill Boyles was elected Booster Club president for the coming year at the first meeting of the Sudan Booster Club Monday at 8 p. m. As 1967 vice president, Boyles presided over the meeting in the absence of the outgoing president, Frank Lane.

Officers elected to serve with Boyles and Keith Glover, vice president; Mrs. Waymon Bellar, secretary-treasurer; Rev. Bob Brown, publicity; H. H. Potter, membership; Mrs. Bill Boyles and Mrs. R. A. Lance, social chairmen; Elray Rasco, signs; Mrs. Byron Ford and Donnie Cowart, projects chairman.

Head Football Coach Jim Cain reported at the Monday meeting that 42 boys were out for football. The first scrimmage with Here-

poodle. On vacation we saw numerous people carrying or trailing poodles. My brother has a poodle. There are oodles of poodles in these United States.

Like I say, I don't really object to poodles themselves; it's the way their owners carry on about them. In this one family, when each member comes in from being away for awhile, the first thing they do is speak to the dog. Then, if they have time, they speak to the people in the room. Some of them have little car-seats for their poodles (their kids ride in the trunk). And all of them pay an incredible sum for poodle grooming (haircuts and manicure).

Now I know this is going to anger some of my poodle-loving friends, so I'll hedge a little by admitting I kind of like the little critters. And I'm even aware that a good deal of owners' seeming ecstasy over their pets is put-on, just to see my reaction, the same as my own apparent dislike for poodles is largely manufactured for their benefit.

After all, I can't afford to antagonize my friends. Friends are any man's most important possessions. Without my friends I'd be up the creek without a poodle.

So it's a lousy pun. I just can't yelp myself.

Devotional

By HAZEL HOUSE

Scripture: St. Luke 16: 11-13, 19-31.

A lost opportunity brings to all of us a feeling of regret, but seldom do we get the same opportunity a second time. "We pass this way but once" is more than just a poetic line. So the choices (large and small) we make each day are the component parts of our life pattern — by which God in the last day will judge our stewardship.

For God's Word says that if we have not been faithful in "the unrighteous mammon, who will commit to your trust the true riches?" Or if we have not been faithful in that which is another man's, "who shall give you that which is your own?"

It seems to be hard to find many persons who will come right out with a clear-cut decision or choice. But nevertheless, Jesus said that all men did make a choice, for always it is "either God or mammon."

The rich man made a choice, although at the time I am sure his opinion was that he was just doing as he pleased and was getting along fine by himself. But one day he died, and the riches he had thought to be his were left here in this world. So he was deceived, and Jesus warns us that we, too, be not likewise deceived.

Then Jesus in the stated Scripture gives us a word picture of life after physical death — and there was no way the rich man could change or make another choice. He had lost his opportunity.

But did you notice what he said as he suffered the torment of hell? He said he had five brothers that he wanted warned

about hell so that they would not come there? He said if Lazarus went back from the dead to warn them, his brothers would listen and repent.

But One has arisen from the dead, and came back to warn mankind, and to point out the way of eternal life — all the way back to God, our Father, our Creator. The voices of God's born-again children continually call out the warning and tell the world of how God so loved us and wanted us back with Him that He gave His only begotten Son, Jesus, that all who believe in Him should not perish but have eternal life.

How about it — is somebody in another room, another phase of life crying out that they want you warned, they want you told about hell so that you will not go there? But are you listening now, while you still have the opportunity to choose Jesus and live forever in joy and peace with God instead of choosing the devil and ending up forever in hell? Are you listening, anymore than they listened in the days of Noah, when he told them to come into the ark of safety, for God would send water to flood the earth?

You can only have eternal life, light, peace, joy, no sorrow, love and endless delight, one way — Jesus! By entering into the "Ark of Safety", by allowing Jesus to use His saving power in your behalf, to redeem your soul from sin and death, unto life. Jesus paid it all, the price of your sins and mine, but we make our own choice to accept or reject Him.

If we accept Him, we must go to Him as a little child in repentance and willingness to go His way and to make His cause our cause, ready to say "Not my will, but Thy will." For Jesus said:

"And whosoever doth not bear his cross and come after me, cannot be my disciple."

from The Bible

Thy word is a lamp to my feet, and a light to my path. — (Psalms 119:105).

When we do not know how to proceed, when it seems difficult for us to make a decision, let us for the moment let go our attempts to resolve the matter that is troubling us. The right decision, the right guidance will come by letting ourselves be channels for the light and intelligence of God within us.

Boys Ranch Rodeo Set

A new attendance record is expected at the 24th annual Cal Farley's Boys Ranch rodeo over the Labor Day weekend.

Last year over 9,000 people turned out to see almost 100 Boys Ranchers perform in what is the only rodeo of its kind in the nation in which boys are the only contestants riding professional rodeo stock under RCA rules.

Each of the 348 boys who live at the Ranch will have a part in the rodeo with those who do not

ride serving as parking attendants, helping at the chutes, selling soda pop and popcorn, or helping to prepare the giant-sized barbecue beef sandwiches which will be offered to visitors who arrive early to picnic for only \$1.00.

The rodeo will feature calf riding, brahma bull riding, and a bareback bronc event, with boys competing for awards within their own age groups. A special stickhorse race will be featured for the 4 to 6 year old boys. The highlight of the rodeo will be the presentation of the Junior and Senior All-Round Cowboy trophies.

Tickets for the two rodeo performances, at 2:30 on Sunday and Monday, September 1st and 2nd, may be obtained in advance from the Boys Ranch office, Box 1890, Amarillo, Texas, or by calling 374-4687. ENCEPHALOMYELITIS OUTBREAK REPORTED

The Texas Veterinary Medical Association, citing findings by a veterinarian in West Texas, reports that equine (horse) encephalomyelitis has been discovered. The cases were reported in West Texas near Seminole by Dr. A. J. Mabry, a large animal practitioner in that area.

The disease, sometimes called sleeping sickness and Blind Stagers, is a virus perpetuated by small birds that carry a high concentration of the virus in their blood. The culex mosquito transmits the disease from the birds to horses and can also transmit it to man. Horses do not transmit the disease the Veterinary Medical Association says.

Encephalomyelitis is often fatal and may cause permanent brain damage to surviving animals. The T. V. M. A. said horse owners should vaccinate their animals and take mosquito control measures. August and September are especially critical months for the disease in all of Texas since high

Ford Opens Campaign For State Rep.

Frank Ford opened his campaign for State Representative in Sudan this week with the pledge that "The people of this District are going to be represented in the Texas Legislature."

"It is very evident that the voters of this area are dissatisfied with the recent 50 per cent increase in the state sales tax which will go into effect October 1st," said Ford. "This tax bill did little or nothing toward funding the impending pay raise for Texas teachers, nor did it provide much needed tax sharing with local government."

"The fact that it did provide, with an appropriation item which was slipped into the spending bill during a secret meeting of the House-Senate Conference Committee, for \$500,000.00 in state spending for development of the L. B. J. State Park is evidence enough that we need a two-party system in Austin. Texans have had enough of seeing their hard-earned tax money squandered on special privilege legislation."

Our state ranks 44th in Literacy at a time when jobs for the unskilled are becoming more and more scarce. And yet the members of our one-party Legislature have voted to double their own salaries every two years for the past several sessions. I think different priorities must be placed in the use of tax-payers money.

"The voters of the 72nd District are also going to be heard on the issue of daylight savings time, which was sponsored and passed against their known wishes, and which has been a real hardship on school children, mothers, farmers, and many businesses." Ford stated that he will have more to say on this issue in the near future.

The 72nd District includes Cochran, Lamb, Bailey, Castro, Farmer and Deaf Smith Counties.

LABOR DAY THOUGHT

LABOR DAY-1968

Labor Day provides a time for all to salute the millions of men and women who are America's workforce. In turn, it seems like an opportune time for those of us who make up the greatest workforce in the world, to give a moment's thought to the unexcelled working conditions we enjoy, and to the security shared in knowing that our personal and family obligations can be met.

Maybe it's a good time to consider the source of much of this security—"second paychecks" in the form of benefits which touch nearly every aspect of our lives: health, education, disability, leisure, recreation, savings-plans, insurance, retirement and even death, to name a few.

It will cost U. S. companies an estimated \$70 billion in 1968 to provide this security for their employees, and many experts feel the actual total is millions higher.

These fringe benefits are a mutual investment by management and labor in the continued well-being of employees and provide added evidence of the unsurpassed rewards of participating in life the American way.

SCIENCE SKETCHES

SCIENCE-FICTION WRITERS, poets and philosophers prepare for the changes that science brings about, reports a nuclear physicist at the University of Texas. As an example, he cites H. G. Wells. In 1914 Wells predicted "with amazing accuracy" the Atomic Age, the United Nations and other developments that were far in the future.

Berlin Bear Is Tourists' Favorite

Having their picture taken with this familiar "bear" on West Berlin's famed Kurfuerstendamm boulevard is one of the "musts" for visitors of all ages. This is, because, since about the 13th century, the bear has been a heraldic symbol of the city where one out of every three guests from abroad is an American. Scripture: St. Luke 16: 11-13, 19-31.

A lost opportunity brings to all of us a feeling of regret, but seldom do we get the same opportunity a second time. "We pass this way but once" is more than just a poetic line. So the choices (large and small) we make each day are the component parts of our life pattern — by which God in the last day will judge our stewardship.

For God's Word says that if we have not been faithful in "the unrighteous mammon, who will commit to your trust the true riches?" Or if we have not been faithful in that which is another man's, "who shall give you that which is your own?"

It seems to be hard to find many persons who will come right out with a clear-cut decision or choice. But nevertheless, Jesus said that all men did make a choice, for always it is "either God or mammon."

The rich man made a choice, although at the time I am sure his opinion was that he was just doing as he pleased and was getting along fine by himself. But one day he died, and the riches he had thought to be his were left here in this world. So he was deceived, and Jesus warns us that we, too, be not likewise deceived.

Then Jesus in the stated Scripture gives us a word picture of life after physical death — and there was no way the rich man could change or make another choice. He had lost his opportunity.

But did you notice what he said as he suffered the torment of hell? He said he had five brothers that he wanted warned

about hell so that they would not come there. He said if Lazarus went back from the dead to warn them, his brothers would listen and repent.

But One has arisen from the dead, and came back to warn mankind, and to point out the way of eternal life — all the way back to God, our Father, our Creator. The voices of God's born-again children continually call out the warning and tell the world of how God so loved us and wanted us back with Him that He gave His only begotten Son, Jesus, that all who believe in Him should not perish but have eternal life.

How about it — is somebody in another room, another phase of life crying out that they want you warned, they want you told about hell so that you will not go there? But are you listening now, while you still have the opportunity to choose Jesus and live forever in joy and peace with God instead of choosing the devil and ending up forever in hell? Are you listening, anymore than they listened in the days of Noah, when he told them to come into the ark of safety, for God would send water to flood the earth?

You can only have eternal life, light, peace, joy, no sorrow, love and endless delight, one way — Jesus! By entering into the "Ark of Safety", by allowing Jesus to use His saving power in your behalf, to redeem your soul from sin and death, unto life. Jesus paid it all, the price of your sins and mine, but we make our own choice to accept or reject Him.

If we accept Him, we must go to Him as a little child in repentance and willingness to go His way and to make His cause our cause, ready to say "Not my will, but Thy will." For Jesus said:

"And whosoever doth not bear his cross and come after me, cannot be my disciple."

From the Bible

Thy word is a lamp to my feet, and a light to my path. — (Psalms 119:105).

When we do not know how to proceed, when it seems difficult for us to make a decision, let us for the moment let go our attempts to resolve the matter that is troubling us. The right decision, the right guidance will come by letting ourselves be channels for the light and intelligence of God within us.

Boys Ranch Rodeo Set

A new attendance record is expected at the 24th annual Cal Farley's Boys Ranch rodeo over the Labor Day weekend.

Last year over 9,000 people turned out to see almost 100 Boys Ranchers perform in what is the only rodeo of its kind in the nation in which boys are the only contestants riding professional rodeo stock under RCA rules.

Each of the 348 boys who live at the Ranch will have a part in the rodeo with those who do not

ride serving as parking attendants, helping at the chutes, selling soda pop and popcorn, or helping to prepare the giant-sized barbecue beef sandwiches which will be offered to visitors who arrive early to picnic for only \$1.00.

The rodeo will feature calf riding, brahma bull riding, and a bareback bronc event, with boys competing for awards within their own age groups. A special stickhorse race will be featured for the 4 to 6 year old boys. The highlight of the rodeo will be the presentation of the Junior and Senior All-Round Cowboy trophies.

Tickets for the two rodeo performances, at 2:30 on Sunday and Monday, September 1st and 2nd, may be obtained in advance from the Boys Ranch office, Box 1890, Amarillo, Texas, or by calling 374-4687. Box seats are \$2.50, general admission is \$1.50, and children and servicemen in uniform will be admitted for 75¢.

ENCEPHALOMYELITIS OUTBREAK REPORTED

The Texas Veterinary Medical Association, citing findings by a veterinarian in West Texas, reports that equine (horse) encephalomyelitis has been discovered. The cases were reported in West Texas near Seminole by Dr. A. J. Mabry, a large animal practitioner in that area.

The disease, sometimes called sleeping sickness and Blind Staggers, is a virus perpetuated by small birds that carry a high concentration of the virus in their blood. The culex mosquito transmits the disease from the birds to horses and can also transmit it to man. Horses do not transmit the disease the Veterinary Medical Association says.

Encephalomyelitis is often fatal and may cause permanent brain damage to surviving animals. The T. V. M. A. said horse owners should vaccinate their animals and take mosquito control measures. August and September are especially critical months for the disease in all of Texas since high

Ford Opens Campaign For State Rep.

Frank Ford opened his campaign for State Representative in Sudan this week with the pledge that "The people of this district are going to be represented in the Texas Legislature".

"It is very evident that the voters of this area are dissatisfied with the recent 50 per cent increase in the state sales tax which will go into effect October 1st", said Ford. "This tax bill did little or nothing toward funding the impending pay raise for Texas teachers, nor did it provide much needed tax sharing with local government."

"The fact that it did provide, with an appropriation item which was slipped into the spending bill during a secret meeting of the House-Senate Conference Committee, for \$500,000.00 in state spending for development of the L. B. J. State Park is evidence enough that we need a two-party system in Austin. Texans have had enough of seeing their hard-earned tax money squandered on special privilege legislation."

Our state ranks 44th in literacy at a time when jobs for the unskilled are becoming more and more scarce. And yet the members of our one-party Legislature have voted to double their own salaries every two years for the past several sessions. I think different priorities must be placed in the use of tax-payers money.

"The voters of the 72nd District are also going to be heard on the issue of daylight savings time, which was sponsored and passed against their known wishes, and which has been a real hardship on school children, mothers, farmers, and many businesses." Ford stated that he will have more to say on this issue in the near future.

The 72nd District includes Cochran, Lamb, Bailey, Castro, Farmer and Deaf Smith Counties.

LABOR DAY THOUGHT

LABOR DAY—1968
Labor Day provides a time for all to salute the millions of men and women who are America's workforce. In turn, it seems like an opportune time for those of us who make up the greatest workforce in the world, to give a moment's thought to the unexcelled working conditions we enjoy, and to the security shared in knowing that our personal and family obligations can be met.

Maybe it's a good time to consider the source of much of this security—"second paychecks" in the form of benefits which touch nearly every aspect of our lives: health, education, disability, leisure, recreation, savings plans, insurance, retirement and even death, to name a few.

It will cost U. S. companies an estimated \$70 billion in 1968 to provide this security for their employees, and many experts feel the actual total is millions higher.

These fringe benefits are a mutual investment by management and labor in the continued well-being of employees and provide added evidence of the unsurpassed rewards of participating in life the American way.

SCIENCE SKETCHES

SCIENCE-FICTION WRITERS, poets and philosophers prepare for the changes that science brings about, reports a nuclear physicist at the University of Texas. As an example, he cites H. G. Wells. In 1914 Wells predicted "with amazing accuracy" the Atomic Age, the United Nations and other developments that were far in the future.
