WOODWORK

BY DALTON

THE BIG BRAINS in Washington just can't figure us little people. Economists have been saying for several years that a big slowdown is coming, and every action like the surtax that has been implemented has been hailed as a surefire brake for spiraling inflation.

Any day now, prices are going to stop rising and people are going to quit buying so much because the government is taking their money away. At least, that has been the theory, but people just keep on buying things anyway.

I doubt that any of the economic experts would be interested in my opinion, but I wouldn't be surprised if people keep buying things like mad because they feel the prices are going to keep on rising. Let's face it, fellows—prices just don't ordinarily decline. The only things I can think of that are cheaper than they used to be are advice and telephone calls.

MAYBE by the time you read this, we will have had some clear weather, but for about 15 out of the first 17 days of the month, we've had rain, hail, wind, tornadoes, and then a bunch more of each.

It stayed cloudy so long that the sun came out the other day and 15 people in town went blind. In most places around here it rained every day at 4:30 p. m.

The Weather Bureau at Lubbock official guessing agency for South Plains and High Plains happenings, fearlessly announced that other day that a new front would move all the turbulent weather out of the area that day (last Friday). When we got that report, we looked outside, and it obviously was about to rain the bottom out. Sure enough, we had nearly two inches of rain in most places, and several tornadoes caused damage and fright in the area.

There is an obvious communication breakdown between the Weather Bureau and the Lord.

TELLING OF THINGS TO COME were Mickey Logan, Penny Mudgett and Frances Hanna as they read the class prophecy Saturday night.

LETTER TO CITIZENS

Dear Citizens of Sudan,
Have you hit a dog lately?
Well, one of you will answer "Yes, I have." I'm very sorry to say it was mine. I know Fluffy, my dog, ran cars sometimes but can't you be more careful? I've had two killed just lately. It's really bad when a dog has to be chained or tied up.
Do you realize how many dogs are killed every month in just Sudan? Too many!!!
I'm asking you please slow down for the dog's and children's sake!!! It could be a child next!
Yours truly,
/s/ Toni McWilliams

Awards Concert Held Here

Despite threatening weather a full house turned out Thursday night to hear the Annual Awards Concert given by the Combined Elementary Bands and the Sudan High School Hornet Band. The Elementary Bands' performance was well received as everyone seemed to enjoy listening to the not-so-young in sound Elementary Bands.

The Sudan High School Concert Band performed brilliantly in their finale of the year, it was reported. Presenting selections from the Broadway musical Stage, popular tunes of the day, famous John Phillip Sousa Marches, and Beethoven's Classical Fifth Symphony, the Band played with striking clarity and precision.

Highlights of the Concert came when Band Director, Fred M. Smith presented Sharon Wilson with the John Phillip Sousa Most Outstanding Bandsman Award and Sheryl Watts received the honor of being chosen by her fellow bandsmen as Sudan Band Sweetheart for 1968-69. Band director Smith also presented awards to bandsmen from the Different Classes in the Hornet Band. He chose the following bandsmen as Outstanding in their Class: Seniors, Vivian Ray and Mickey Logan; Junior, Sharon Wilson; Sophomores, Joan Harper and Linda Lane; Freshmen, Joyce Drake and Brent Wiseman; and Eighth Grader, Kevin May.

The band director was presented with a beautiful Plaque and a Gift Certificate from his band students, which he said he would cherish always.

A fitting climax of the Concert and the school year came when Smith announced to the band students and audience for the first time that the Sudan High School Band had been chosen by the Sweepstakes Judges Committee as the MOST OUTSTANDING CONCERT BAND in Class "CC" at the 37th Annual Tri-State Music Festival, Enid, Oklahoma, May 1-3, 1969. Following the announcement, the band director presented the band with a large trophy given to them by the Phillips University Band of Enid in recognition of the Outstanding Performance of the Sudan Band at the festival. The band is entitled to keep this trophy for one year.

Twister Hits Fisher Farm

Sudan residents kept their eyes on the clouds again Thursday and Friday as numerous funnel clouds were sighted in the area.

Most of the reported property damage was caused Friday by a twister which struck the Joe Fisher farm, south of Sudan. Fisher estimated the damage at \$10,000. A combine was tossed around and landed in a heap of wreckage while irrigation pipe were strewn like toothpicks. The trailer, on which the pipe was loaded, was sucked some 50 yards into a barn after one side of the barn was ripped away. Other equipment in the barn was not heavily damaged.

Several fruit trees were uprooted and a bumper crop of peaches destroyed.

Fisher added that he feels very fortunate as the house from which he and his family observed the storm was not damaged, although much of the wreckage landed not 25 yards from the house.

The City of Sudan received some two inches of rain Thursday and Friday with hail covering the ground for a short time Friday. The tornado alert was sounded Friday to warn citizens of the approaching danger.

Location Sought For County Museum

By Mr. and Mrs. R. E. Scott
A desirable location for a county museum was one of the "musts" stressed by Miss Dianna Files of Austin, archeologist and Museum expert, who spoke recently to members of Lamb County Museum Planning committee and guests.

Miss Files, the first museum consultant to be hired by the Texas State Historical Survey Committee, also pointed out a county museum is a drawing card for tourist trade; but, that the main objective is to retain in the county the cultural and other objects, used by our pioneers; thus enabling the school children in the county to see a "living" institution of the history of the county.

To show the increased interest in the smaller museums Miss

Files stated only 90 were in Texas in 1964; today there are 220 open to the public, with 120 in the planning stage.

As concerning the tourist aspect, Miss Files pointed out, when established, the museum would be listed in the Texas Highway Department Brochure of Museums in Texas. There is now a Historical Marker brochure available from the highway department, listing places receiving Historical Markers from the State Committee. Sudan has two of these markers to its credit; the only town in the county at the present to have been awarded two. One is placed on the Sudan Watering Trough and the other at the Sudan Hotel built in 1917 by Wilson & Furneaux, founders of Sudan. Wilson & Furneaux donated the City Park, which is an asset in luring tourist to stop and take pictures of these two historical spots.

Sudan is indeed fortunate to have had local members of the County Historical Survey Committee submit applications for these two markers. Two other possible sites for markers would be the windmill, still working, at the S. D. Hay home; and the half-dug-out belonging to Mrs. Allen, located in the west part of town.

At present a definite location has not been selected by the museum planning committee and any Sudan area citizen interested in securing a Lamb County Museum, should contact either Mrs. R. E. Scott, member of the Museum Planning Committee, or Mrs. S. D. Hay, chairman of the Lamb County Historical Survey Committee. Anyone wanting to donate a desirable location, should inquire if the rent of the space is deductible from Income Tax.

Devotional

By HAZEL HOUSE

Scripture: Romans 5:14-21.
I wonder how long we would keep our job as an insurance agent, a county agent, a publicity agent, etc., if we gave no more of our time and attentive thought and study toward being an agent than we give to being God's agent of reconciliation?

Think, Now! and my plea as

one of God's agents is "Be ye reconciled to God" through Jesus Christ. God does not impute sin to those who truly commit themselves unto Christ.

God was in Christ, and Christ died for you.

What response have you made to Him?

Draw near to God and he will draw nearer to you.—(James 4:8).

We should be receptive to God's guidance and inspiration when we have a problem to solve, pray to God to be shown how to think and speak in order to arrive at the correct solution. Express confidence in Him, for under God's spiritual guidance we can work out our destiny. He blesses us in everything we do. Our burden is lightened and every cloud is brightened, when we turn to God.

Daily newspaper circulation reached a record average of 62,535,394 copies per day in 1968, an increase of 1.6 per cent (974,442 copies) over the 1967 figure of 61,560,952, according to Editor & Publisher magazine. Circulation of Sunday newspapers showed a gain of .95 per cent for the year to 49,692,602. The figures also show total daily newspaper circulation has increased 8.9 per cent since 1958 and 19.6 per cent since 1948.

Notes on Moon Travel

When the first lady accompanies her man to the moon, the chances are that along with all their other paraphernalia will be notebooks in which to jot impressions of the earthrise, that secluded lunar-based restaurant they heard so much about, and all the impressions they want to tell the folks back home about.

Most busy people have the have-notebook-will-travel habit, and also use the notebooks to record family events, financial data, recipes and the hundreds of other bits of information that should be at hand when needed.

But the notebooks that go to the moon may be somewhat different from those now in use.

Covers will be brightly colored and laminated in plaids, stripes and patterns to match milady's outfit, and in rugged manly hues and textured surfaces for the man. These high fashion notebooks will also boast virtually untearable paper, finishes that will never rub off. Some will even have mirror-like inside covers for quick make-up retouching and checks on signs of five o'clock shadow.

And why all this? Because modern people are organized. Busy and bright, they are note takers. They are knowledgeable about their exciting world and they jot down things they plan to do, books they want to read.

SPC Named Test Center

South Plains College has been designated as a test center for American College Test on Saturday morning, July 19. Donald J. Melton, Test Center Supervisor, said, "High school students who want to take the test on July 19 must acquire a Test Registration Form and mail it, along with their \$6.00 fee, by Monday, June 16."

The necessary registration form may be acquired from Mr. Melton at South Plains College or by writing to Dr. Vernon L. Odon at 1626-50th Street, Lubbock, Texas 79412.

Nearly one million students will write the ACT test at 2,100 test centers around the world this year. Ninety-nine of the and universities in Texas participate in the ACT program. Some colleges use the test results as admissions instruments; others use them primarily as counseling tools. The test battery consists of sub-tests in English usage, math usage, social science reading and natural science reading. A unique feature of the ACT assessment is the Student Profile Section by which students describe some of their non-academic potentials and other personal data for the use of college admissions officers

and high school counselors. Each student's assessment is sent to the three colleges of his choice. Currently over 1,500 American colleges utilize the data provided by the American College Testing Program.

The eleventh graduating class at South Plains College will receive associate degrees at 8 p. m. Friday, May 23, in Texan Dome. The public is invited to attend the exercises for the 180 graduates.

University of Texas President Dr. Norman Hackerman will deliver the commencement address and a reception hosted by the Faculty Women's Club will follow.

TCTA REPORTS ON ASSOCIATION MEETING

Complete support of stated educational goals was reaffirmed Saturday, May 10, at a meeting in Dallas of teacher leaders from urban areas in Texas. Leaders represented more than 27,000 teachers. The meeting was scheduled by Texas Classroom Teachers Association.

Teachers stood firm in their support of legislation for improvement of education and the

full funding necessary to implement previously endorsed programs.
