BY DALTON

A MIGHTY WEAPON was employed against the striking Marine Firemen's Union in San Francisco last week, but I haven't heard whether it accomplished its goal.

The union is not, as I first thought when I read about it, a group which sets Marines on fire. It has something to do with shipping goods, and they have held up a lot of stuff on the West Coast pending settlement of the strike.

The stalemated cargo includes 130,000 Christmas trees and a vast amount of articles to be sold by stores in Hawaii during the Christmas rush. The stores can't get the goods, and many items on the islands now are difficult to buy, including some toys.

The missile fired at the union was publicizing a letter from a child, written in a scrawl, and addressed simply "Dear Union Men".

It was from a first grader in Honolulu and asked, "How can we get you to turn Santa loose so we can get our Christmas presents from the mainland?"

Something like that should inspire parties on both sides of the dispute to get something done in a hurry, but as of this writing I haven't heard that it did.

THEY'RE TELLING the story around town about the small child who drew his own idea of the Nativity scene, showing a woman and baby and over at the side a very fat man. The puzzled Sunday School teacher inquired about this, and the child explained: "Well, that's Mary, and that's Baby Jesus, and over here is Round John Virgin."

## ESA News

The Epsilon Sigma Alpha sorority held their annual party Monday at the home of Mr. and Mrs. Robert DeLoach with Mr. and Mrs. O. D. Martin serving as co-hostess.

A Christmas dinner, featuring turkey and dressing with all the trimmings was served. Gifts were exchanged with "secret pals" for the year revealed. Names were drawn for the coming year. Husbands of members were guests.

Attending were Mr. and Mrs. Emery Blume, Mr. and Mrs. Dan Wood, Mr. and Mrs. Donnie Cowart, Mr. and Mrs. Noel Lumpkin, Mr. and Mrs. Elray Rasco, Mr. and Mrs. Joe Ellison, Mr. and Mrs. Bob Markham, Mr. and Mrs. Gaylon Beavers, Mr. and Mrs. E. ## New Business Opens Here

Monday morning saw the opening of another new business in Sudan, that of Baker's Deep Rock Service, located on Highway 84 in the building vacated by Reed's Shamrock.

The business will be operated from 6:30 a. m. until 9 p. m. seven days a week by Dexter Baker and sons, Mark and Dex. The station will offer full service including oil changes, gasolines and flat repairing.

Baker, who has resided in this area for some 45 years, operated a garage-station in Lubbock for some time. However, he has been self-employed as a farmer for most of his adult life.

He issued an invitation to all Sudan-Amherst residents to come by and visit and try all the Deep Rock brand of products.

## FORMER RESIDENTS OBSERVE ANNIVERSARY

Mr. and Mrs. John Sterr of Bentonville, Ark., former Sudan-Amherst area residents, observed their fiftieth wedding anniversary Dec. 16, at their home.

The couple was married Dec. 16, 1919 at Hydro, Okla. They moved to this area in 1925 where they were engaged in farming. The couple moved to Arkansas in 1950.

They have one son, John William Sterr, and two grandchildren, Mrs. Kenneth Cole of Dallas and Mrs. Jim L. Ward of Houston; and four great-grandchildren.

## MISS DORIS REESE COMPLETES TRAINING

Miss Doris Reese of Sudan is a candidate for graduation with the twelfth South Plains College Vocational Nursing Class who will complete their study on Jan.

## Baker-McCollum Vows Pledged

Miss Tynna Kay Baker, daughter of Mr. and Mrs. Ira Dexter Baker, Sr. of Sudan, and William Franklin McCollum, Jr. of Galveston, son of Mrs. Marie McCollum and the late W. F. McCollum of Wichita Falls, were united in marriage Saturday, Dec. 13, 1969, 7:00 p. m. in the First Baptist Church of Sudan with the pastor, Rev. J. R. Manning, officiating.

The bride, escorted and presented for marriage by her father, Ira Dexter Baker, Sr., was attired in a formal princess gown of white angel skin peau de soie, featuring re-embroidered Alencon lace overlaying the bodice and front panel of the flaring a-line skirt. The lace formed the Sabrina neckline, highlighted the Camelot designed sleeve, and was repeated on the border hemline and wide chapel train. A bouffant tiered veil of imported illusion was attached to a forward headpiece fashioned of sheer petals and lace adorned with pearls and iridescents. The bride's bouquet was of white pom pom mums and stephanotis.

## COTTON PROGRAM UNDECIDED

Hearings on cotton legislation before the Cotton Subcommittee of the House Committee on Agriculture closed last week with a stern admonition and a hinted warning from Subcommittee Chairman Thomas Abernathy.

Last on the rostrum was Kenneth Frick, Administrator of the Agricultural Stabilization and Conservation Service, on whose back the Administration appears to have strapped the major responsibility for development of a cotton program.

Frick's testimony stuck closely to USDA's "set aside approach" which, with the exception of Western Cotton Growers, Inc. of California, has gone over like a lead balloon with producer groups from across the Cotton Belt.

Representatives from 14 cotton producer organizations and 9 states, including the six groups represented by the Texas Association of Cotton Producer Organizations (TACPO), has preceded Frick before the Subcommittee.

Noting this wide gulf between what producers want and what USDA is proposing, Chairman Abernathy called on producers and the Department to "get together" and come up with a legislative proposal on which they agree. Otherwise, he intimated, there is a strong possibility that

cotton will be left out of the farm bill to be passed in 1970.

Should that happen, cotton would revert to the Agriculture Act of 1958, which was passed as permanent legislation. There would be no payments to farmers and some type of export sales program would be required to make cotton competitive in foreign markets.

The price of cotton to our domestic mills would jump to somewhere above 31 cents per pound, basis Middling 1 inch, and the effect on cotton's markets would be disastrous. And, if programs for wheat and feed grains were enacted in 1970 it would be difficult indeed to get Congress at a later date to pass an acceptable program for cotton.

To qualify for loans and government payments under USDA's set-aside proposal, producers would be required to idle "a quantity of cropland proportional to the acres on which they receive benefits in the form of government payments." For cotton, Frick said "we contemplate payments on the production from 100 percent of a domestic allotment. . . . and therefore the required set-aside might appropriately be an amount of cropland equivalent to 50-100 percent of this domestic allotment." And, by doing away with mark-

eting quotas and the national acreage allotment, the proposal would give producers freedom to choose the crop or crops to be planted on the acreage remaining after compliance with the set-aside requirement.

The major fault with this part of the proposal, according to the predominance of producer testimony, is that it would not assure adequate production to meet the demands of domestic and export markets for cotton.

Frick also said in his statement that USDA would like to eliminate the concept of a floor under producer income based on a percentage of parity and let the Secretary set price support payments "at a level he determines is fair and reasonable, taking into consideration farm income, the need to assure that the benefits of the program inure primarily to those producers who participate in the program, and the need to maintain a balance among the acreages devoted to the various commodities for which price support is available."

Producers balk at this idea, too. They feel, as pointed out by TACPO, that "the loan and price support payment structure for cotton should be tied to an index closely related to the general level of prices within our economy, such as parity system."

MRS. WILLIAM FRANKLIN MCCOLLUM, JR.

so of Sudan. Soloist was Miss Shirley Owen of San Marcus. She sang "Wedding Prayer" and "Whither Thou Goest" accompanied at the organ by Emery Waters of Anton.

The church altar was decorated with a central arched candelabra flanked with arrangements of white flowers and two smaller candelabras. Candles and greenery decorated the pews at the center aisle.

The reception was held at the home of the bride's parents.

Those included in the house party were Mrs. John Darrell Ferguson, Galveston; Mrs. Arboth Rylant, Miss Connie Lance, and Miss Sheila Baker, all of Sudan.

After a trip to Colorado the couple will be at home in Galveston.

The bride is a 1969 graduate of the University of Texas and the groom is a 1964 graduate of Midwestern University and is an officer at the Moody National Bank of Galveston.

## Devotional

By HAZEL HOUSE

(The devotional column is dedicated to communication of God's love for all persons, and God's love as demonstrated to others by those who love Him. So, below is the Corwell Sermonette called "Love for Friends and Enemies" based on the Scripture I John 2:9-11, by Rev. Walter L. Driver of Crowell.)

Jesus taught us to love our enemies. He found the religious people of His day feeling justified in hating any person that worked against them. In the 'love chapter' of the Bible, (I Co. 13) we find the teaching clearly brought out that we are just a bunch of noise if we do not love. (everyone) Love has so many ramifications, we have to stop and define our term when we use the word love. The Greeks had a better chance of understanding it for they had three words for love. In the English language, we have only one. The highest form of love in the Greek is 'Agape' love. This is Godly Love, an outgoing love, that asks nothing from you in return. In our language, we call it love when we smile at a person and expect a smile in return. We call it love when we pal with a friend so we can get a chance to go places with them. We call it love if we chum with a person because they will spend some money on us. The love spoken of in our text is an outgoing love for all of God's creation.

In a comic-strip character was made to say, "I have no trouble loving the whole world, but I just hate some people." This is true in the mind of many people. You can love people with 'Agape' love without being a pal to them or making times and places to chum with them. You can 'agape' people with lower morals without bringing them into your home and exposing your children to the filthy talk that may be coming from them. You can respect any person in his present state of development and desire and pray that he may climb to a higher understanding and experiences with his Creator. This is the meaning of the scripture that states, "We love Him because He first loves us." (I John 4:10)

It is loving people with agape love, that wins them before they ever make the change in their outer life. We are to make the attributes of God ours as fast as we become conscious of those attributes. Our text is dealing with this great attribute of God. You can easily see that this high attainment is impossible unless you have a channel opened from the spiritual nature within you. The soul that is still tightly bound from the fall of man, has not a chance to see, understand or conceive in any way, the great truth found in agape love. The deeper truths are called mystical. This is a term or expression that denotes things that are hidden from the human mind. They cannot be known by the human mind. They can only be spiritually discerned. If the Spirit of Christ within you reveals the great truth, then the mind can understand it and bring it into outer expression. The mind did not originate it or comprehend it until the 'light' from the soul shined upon it. When the spiritual light shined upon it, it became so clear that it seemed a 'blind man' should have been able to see it. Many times when you have been seeking light on a passage of scripture, suddenly the light of the soul shined through and you exclaimed, "Now I see!" Every person is just as dependent upon this

## PLANT X HAS CHRISTMAS PARTY

The annual Christmas party for Southwestern Public Service Plant X employees and their families was held Saturday, Dec. 13, in the Sudan school cafeteria. Traditional Christmas dinner was served to approximately 100 persons. Drawings were held for prizes, and sacks of fruit and candy were distributed to the children.

Prize winners included Mr. and Mrs. D. W. Williamson, an electric blanket; Mr. and Mrs. Joe Bellar, electric popcorn popper; Mrs. Joy Logan, electric can opener; Mr. and Mrs. Weldon Wiseman, toaster-broiler; Harry Heckard of Littlefield, electric blanket; A. B. Carter of Amherst, radio; James Lawler of Littlefield, electric knife.

light as the next one. Without this light, you can not see, neither can your neighbor see. If you have the light to break through and your neighbor does not, you must not condemn or hate him. It was the light of the Grace of God that enabled you to see, so don't hate your neighbor if he does not yet have that grace and light that enable him to see.

Doctrine is easy for it comes from the mind. Love for your brother is hard because it comes from your heart, soul and the spiritual part of your nature. Unless these are open within you and guiding your life, you will not be able to love your brother. The purpose of this writing is to get you to see the possibility you have when you humbly seek this love. It is not from human nature, it is from God. It does not originate in your mind, it comes from the Christ Spirit WITHIN YOU! You do not have to go off somewhere and hunt it, you carry it with you all the time. You can not take advantage of this great presence until you become conscious of it. It is the contact you have with it that enables you to love. Learning about God is important, but it does not go far enough. YOU MUST EXPERIENCE GOD! It is the experience that brings life to you. The Seminary can teach you about God, but until this is your experience, you will be left cold, empty, unsatisfied and dead. "It is the Spirit that bringeth life." (John 6:63)

Until you become aware of the spiritual world, you are spoken of in Biblical language as dead. You do not really begin to live until you have had a breakthrough of the spiritual nature into your consciousness or awareness. You then begin to live the true life, the eternal life. Jesus was using this expression when He said, "Let the dead bury their dead." (Ma. 8:22) "You hath he quickened who were dead in trespasses and in sins." (Eph. 2:1) When you begin to live this eternal life, you can live this 'agape' love. The Divine does not overpower people as they make their own choices.

## Phillips Citation

An official State Health Department citation for work proficiency has been awarded to R. L. Phillips, assistant water superintendent for the city of Sudan.

Signed by the State Health Commissioner and authorities of the Texas Water Utilities Association, the certificate of com-

petency is awarded only to those utility plant operators who have successfully demonstrated their skill and knowledge in modern principles of plant management.

To qualify for certification, a plant operator must have accumulated a prescribed amount of actual work experience. He must also have attended both regional and statewide short schools at which the techniques of water treatment and waste water disposal are taught, and must have passed an examination given by State Health Department sanitary engineers.

State law requires that at least one operator per shift be certified for competency by health department engineers, buy many operators seek certification on their own time and at their own expense to increase their efficiency as key public servants to their community and state.

The engineers said the attainment is evidence of Phillips' efforts to better prepare himself for the duties of his profession.

## FHA News

The Sudan Future Homemakers of America Chapter met on Thursday, Dec. 3, 1969 in the Sudan High School auditorium. The Area I project "Concern for Others" was on the program, presented by Dr. J. R. Fain, Littlefield physician, to 30 members of the Sudan Future Homemakers and several adult guests. Mrs. J. R. Fain was also present for the program.

Guests were welcomed by Angela Pickett, president. Kathy Rice, vice president and program chairman introduced Dr. Fain who has been working with the Lamb County unit of the American Cancer Society.

He showed three films to the group. One film stressed the dangers of smoking because of the close relationship of smoking and lung cancer. The second film was on the lighter side using the comic strip character, Mr. Magoo, to very realistically show the seven danger signals of cancer. Then he showed a film on self examination for breast cancer. A question-answer period followed the films.

Dr. Fain stressed the importance of yearly physical examinations for everyone because many cases of cancer can be successfully cured if caught in time. He also said that the three films he showed, as well as others, are available for any group meeting. Programs can be scheduled by contacting Mr. Hubert D. Henry, P. O. Box 1068, Littlefield, Texas 79339.

Down deep within the life, the soul,  
There lives a hope to reach a goal,  
A hope that's guiding us each day,  
A hope that brightens up our way,  
It's hopes that drives away all gloom  
And tells us better days will come,  
Then hope assures us there will be  
A great and grand eternity.

# Respond!

Whether you're a prize-winning cook or a beginner still having trouble with fundamental sauces, your cooking will respond to a gas range. And, your family will love you for it.

The real secret of better cooking is fast, accurate heat control. And nine out of 10 professional chefs agree that only a gas range gives you the control needed for gourmet meals... that's why so many of them use gas.

A gas range gives you an infinite number of temperature settings, not just a few pre-set push buttons. You can see the blue flame, adjust it, always know how much heat you're getting. And, when you turn on a gas range the flame is there... no waiting for warm-up. Turn it off and the flame and the heat disappear immediately — precision control for every phase of top-of-range cooking.

There are lots of extras you can get with a gas range, too. Like high-speed infrared broilers, the Burner-with-a-Brain that makes every pot and pan an automatic appliance, automatic controls that start and stop ovens at preselected times and hold food at serving temperature without over cooking, and ovens that clean themselves. All these things to give you greater kitchen freedom.

The fact is that a gas flame cooks better than an electric coil, and costs less too. So, whether you're a prize-winning cook or a beginner, respond to a gas range and your family will respond to you. See your gas appliance dealer.

### Turned-On Gifts for Christmas

Decisions, decisions! There are always a few relatives or friends who present a gift problem—should it be practical, pretty or fun?

To help solve the dilemma, consider the wonderful array of appliances from Presto, for kitchen duty, home entertaining, good grooming and beauty care. Practical, yes, but beautifully designed and many come in high-fashion colors. For fun, how about an electric hot dogger that'll sizzle

six franks for hungry teens in 60 seconds! Or a new automatic corn popper to pop a mountain of munches in minutes, to serve right from the clear plastic cover.

For cook and hostess, the choice is almost endless. Newest and most intriguing is the vertical broiler. Looks and operates like an oversize toaster. It'll fast-broil anything from thin bacon to thick steaks without turning, thanks to the two-position, self-adjusting rack. There's no smoke or spatter; grease drips into bottom pan away from heating elements. In avocado and chrome, it's pretty and portable, to travel to table, porch or patio. A cinch to clean, as the entire broiler can be taken apart in seconds.

New, too, are the colorful additions to Presto's popular pressure cooker family in avocado or harvest finish, to complement any kitchen decor. They have the same marvelous time and money-saving features as their shiny sisters: they cook three to ten times faster, retain nutrients and produce appetizing dishes. There's even an electric model, with durable hard surface Teflon. All cookers come in 4- and 6-quart sizes.

**CAGERS WIN IN TOURNEY**

Three Sudan teams placed in tournaments during the weekend. The Seventh grade boys won first place in the Farwell round robin tournament with the Eighth grade boys placing second. The girls varsity team placed third in the Springlake tournament.

The seventh grade boys defeated Bovina 29-20 in their first game with Richard Tamplin putting 17 points through the hoop. Sudan took an early lead and led 15-8 at the half. The second game, with Farwell, was fast and furious with Sudan squeaking by 22-19. The game was tied 17-17 at the end of regular play and went into overtime.

Sudan only fouled four times during the entire game. However, in the final game of the tournament with Hart there was a total of 62 fouls with each team contributing 31. Only one Sudan player fouled-off, so the fouls were evenly distributed among the players. Sudan won 35-31 to crop first place with Tamplin again leading the scoring with 16 points. Other team members include Mitch Chester, Rory Manning, Bobby Phillips, Carroll Legg, Tracy Bowling, Mart Davison, Rex Baccus, Jim Fields, Craig Harper and Alex Cabrera.

The eighth grade boys took Bovina first 37-17 in the round-robin tournament with Bruce Pierce scoring 12 points, followed by Ernest Jefferson with 10. Farwell way-laid them in the second game 34-13 scoring six points to lead the scoring for Sudan. Sudan had only 10 fouls

**SECOND PLACE WINNERS** - The Sudan Eighth Grade Boys team won second place in the recent tournament at Farwell.

for the game. The final game was a close one with Hart with Sudan coming out on top 35-33. The score was tied 32-32 with only one minute left to play. Mark Hanna scored 13 points followed by Curtis Chester with 8. There were 37 fouls in the game with Sudan called for 21.

The Junior High girls won their first game 20-14 over Bovina but lost the two remaining games with Farwell and Hart, but won consolation. Mary Bellar scored 12 points against Bovina and 8 against Farwell to lead the scoring for Sudan.

The Junior High teams will meet the teams from Farwell here tonight, Thursday, with play beginning at 5:30 p. m.

The Girls Varsity team reached the finals by downing Hart 39-19 Thursday with Angela Pickett netting 18 points, then went on to down Quitaque Thursday morning. A loss Friday afternoon to Floydada prevented them from winning first place. However, they came back Saturday to take third place by downing Amherst 47-39 with Connie Lance scoring 29 points.

The Varsity boys fell to Hart 60-46 in their opening game with David Weaver leading the scoring with 15 points. Quitaque topped Sudan 61-38 to prevent them from going into the final bracket. Jerry Bellar led the scoring for Sudan with 13 points.

Both Sudan teams won their games Tuesday night at Amherst with the scoring for Sudan with 13 points.

All Sudan teams won their games at Amherst Tuesday night. The girls won 50-44 with Sharon Wilson high point with 19. The boys came from behind and scored 23 points in the third quarter to overtake Amherst 49-44. David Weaver scored 23 points for the home team. The B-boys won their game 48-33.

The Varsity teams will be engaged in the New Deal tournament beginning today with the boys playing Seagraves prior to the girls game with Frenship at 4:40 p. m.

Both the boys and girls freshmen teams will be entered in a round-robin tournament at Amherst with the teams meeting Amherst tonight, 7:00 p. m.

**SUNDAY SCHOOL CLASSES HAVE CHRISTMAS SOCIALS**
