FORTY-SIXTH YEAR NUMBER 22

SUDAN, LAMB COUNTY, TEXAS

THURSDAY, JULY 23, 1970

10¢ PER COPY

WOODWORK BY DALTON

CHET HUNTLEY who is retiring, recently took a number of verbal swings at just about everybody, leading some of us to suspect that he has led a life of frustration because he apparently wanted to be a big shot politician himself.

Anyway, he attacked Nixon and most of the other presidents he rubbed shoulders with during his long career, although he said he liked Lyndon the best "as insufferable as he could be." He said he got along with Lyndon by filling the president's glass with Scotch and talking about breeding Herefords.

Huntley also rapped Spiro Agnew, saying he resented being classed with Spiro's "effete mobs" and Chet declared he had had more cow manure on his boots than Agnew ever had.

Spiro commented a few nights later on NBC that he was surprised when he couldn't find a greenhouse at the NBC studio-- "because I figured anywhere Chet Huntley has walked, something must be growing."

Goodnight, Chet. We're not going to miss you.

IT'S BEEN two or three weeks since I fussed about the auto insurance companies in Texas, so here goes: An uninsured motorist in Dallas filed federal suit challenging the state law which provides for suspension of a driver's license if he is involved in an accident while not insured. His suit contends the law is part of a "conspiracy" with auto liability insurance companies to apply economic pressure against uninsured motorists to settle their claims quickly for unreasonably low amounts. This denies the uninsured motorist equal protection under the law, he claims.

This is interesting, whether valid or not. And it gives me opportunity to complain about the liability insurance law. Liability should be with the driver, and not with the vehicle. The man who has three or four vehicles in the family must have liability on each vehicle and on each driver for each vehicle, or at least that's the way I understand it.

And with the cost of liability insurance going up every time the insurance board meets, it's no wonder that many people are taking their chances and driving without it.

TOPS CLUB

The Sudan Tops Club met Monday, July 20, 3:30 p. m. at the school. Nine members were present and two new members joined the club.

Pounds lost during the week totaled 14 3/4. Oleta Reece was awarded the prize, a bowl of fruit.

Anyone wishing to join the club may contact Ramona Engram.

Radney Fisher is back in the Navy and went to Charleston, South Carolina. He is now a Lieutenant and is serving as supply officer for Submarine "Tender", which supplies nuclear submarines.

A. B. Knox Rites Held

Funeral services for A. B. (Bunk) Knox, 48, who died at his home in Rhome, were held there at 2:30 p. m. Tuesday, July 21.

Knox, a former Sudan resident, had lived in Rhome about two years, employed at a service station there. He died in his apartment, and was reported to have been dead some four or five days before his death was known.

Survivors include his mother, Mrs. Maggie Welch of Decatur; three daughters, Connie Jo of Seymour, Caroline and Pauline, both of Temple; three brothers, R. B. Knox of Sudan, Billy John Knox of Chico, Glenn Knox of Tyler; and two sisters, Mrs. Martha Cross and Mrs. Elizabeth Odom, both of Decatur.

SARA WOODS ATTENDS MEET

Sara Woods of the First National Bank of Sudan, attended a National Association of Bank Women Meeting in Lubbock Saturday and Sunday. The national president, Miss Bobbye Taylor of the First National Bank of Lamesa, was dinner speaker Saturday evening at the Lubbock Country Club.

The business meeting Sunday morning was chaired by Mrs. Jeanette Bagwell, Citizens National Bank of Lubbock.

Approximately 100 persons were in attendance Saturday evening, when the TV cameras were present and the group was shown on Channel 13, 10 o'clock news Saturday night.

Mr. and Mrs. Bud Provence were in Ruidoso over the weekend.

FLOWER POWER captivates little beauty, Kris Wilcox, 2 1/2.

OWL OR CANDLE? Both! This is one of Hallmark's new decorative table candles in wax.

DOWNTOWN CHICAGO traffic grinds to a halt as tug guides freighter through.

Visitors From India - Shown above, left to right, front row, are Dr. S. B. Hukkeri, Dr. A. V. Chari (professor), Mr. G. B. Manna, and Dr. R. K. Rajput, all of India. Back row, Joe Blevins, John D. Harmon, both of Lamb County Soil Conservation Service, Alvin Messamore, and Joe T. Salem. This photo was made just prior to the group leaving the Beacon News Office to attend the local Rotary Club luncheon Wednesday at noon.

FOUR FROM INDIA VISIT IN SUDAN

Four visitors from India, Dr. S. B. Hukkeri, Dr. A. V. Chari (professor), Mr. G. B. Manna, and Dr. R. K. Rajput, were in Sudan Wednesday and attended the local Rotary Club meeting, along with Joe Blevins and John

D. Harmon, from the Soil Conservation Service, Littlefield, Alvin Messamore, and Joe T. Salem.

The visitors from India are with the U. S. AID participants, in the United States for advance

training for Soil and Water Management. They are spending a week in Lamb County with the Soil Conservation Service.

The group will be studying at Texas Tech and will be stationed there for most of the time - May through December - while in the U. S. They are visiting Texas, Arizona and California during this period.

On returning to India, Dr. Chari will be teaching, and the other three are in research.

T. Fife Honored On 92nd Birthday

T. Fife celebrated his 92nd birthday Friday, July 17.

The birthday cake, baked by Mrs. Quinton McCaghren and

daughter Quinelle, was decorated with "King for a Day", having a gold Crown on a little throne.

Many visitors came to honor Mr. Fife all through the day, and some telephoned to wish him a Happy Birthday.

His son Aubrey E. Fife of Junction, and grandson, Burton Fife Bode, came to help celebrate the occasion. T. Fife returned home with his son for a two week's visit in Junction.

COPPELL SERVICE IN FLOYDADA

Services for James Louis Coppell, 96, of Floydada, who died Monday, July 13 at the Floydada Nursing Home, were held July 15, 3:00 p. m. at the First Baptist Church in Floydada. Dr. F. C. Bradley officiated.

Burial was in Floydada Cemetery under the direction of Moore-Rose Funeral Home, Floydada.

Coppell, a resident of Floydada since 1921, was a retired builder and he was the oldest living member of the First Baptist Church in Floydada.

Survivors include one daughter, Mrs. Orlene Cunningham of Hico; one sister, Mrs. Martha Lee White of Sudan; and a niece, Mrs. James P. Arnold of Sudan; three grandchildren; one great-grandchild.

PERSONAL

Kathy, Missy and Mrs. Lee Roy Fisher visited with Patsy Jackson and Mike Fisher in San Angelo

Local Student Gets Lone Star Farmer Degree

Alan Black, son of Mr. and Mrs. Houston Black, received the Lone Star Farmer degree, the highest degree which can be given in the FFA on a State level, at the State FFA Convention in San Antonio July 15-17. Black has been active in the

FFA for the past four years. His outstanding work in the local chapter with his leadership and project program qualified him for the Lone Star Farmer degree. Only two per cent of the total membership of the FFA can receive this award in any given year.

Others attending the FFA convention were Freddie Maxwell, who served on the Courtesy Corps for the convention, James Black, as the voting delegate with Roger Swart also attending. The delegation from Sudan was accompanied by their advisor, Don Ham and his son Gary.

On the way down to the convention the boys visited the LBJ Ranch and Johnson's birthplace. While in San Antonio they visited the Alamo, Tower of the Americas, Brackenridge Zoo, Sunken Gardens, and many other places of interest.

Mr. and Mrs. Danny Masten are parents of a son, Bradley David, born Monday, July 13 at Methodist Hospital, Lubbock. He weighed 9 lb. 11 1/2 oz. Maternal grandparents are Mr. and Mrs. Nolan Parrish of Sudan and paternal grandparents are Mr. and Mrs. W. C. Masten of Sudan.

Mr. and Mrs. Rodney Cate of Lubbock are parents of a daughter, Shani Lee, born Monday, July 13 at 11:16 p. m. in the Highland Hospital, Lubbock. She weighed 6 lb. 7 oz. Grandparents are Mr. and Mrs. Jack Weaver of Littlefield and Mr. and Mrs. Tommy Cate of Sudan.

over the weekend and also attended the wedding shower for Patsy and Mike.

MAJORETTES AT TWIRLING SCHOOL

The Sudan Majorettes are at Lake Brownwood for a week to attend a Twirling School, which is sponsored by the Lubbock Matadors.

Majorettes attending are Judy Williams (Head), Karen Doty, Sue Templeton and Ginger May. Taking the majorettes to Lake

'ALL-STARS' NEWS

The ALMO Babe Ruth All-Stars traveled to San Antonio as Regional Champions to play in a three-game series against South San Antonio for the State title, but lost the first two games Monday and Tuesday night.

The winner of this series, South San Antonio Babe Ruth All-Stars, will represent Texas in

the National tournament in Cheyenne, Wyo., July 29.

The ALMO All-Stars won over the Lubbock All-Stars Thursday night at the Olton tournament, 1-0, with the winning run scored by Roger Boyles, who played on the Amherst ALMO Babe Ruth team this season. Then they downed Lubbock again Friday night by a score of 10-9, giving the ALMO All-Stars the North District crown and a regional title.

The Babe Ruth All-Stars lost in their first game of the Level-land tournament Saturday to Levelland by a score of 11-5. Coaches were Joe Bellar, James Trammel and Cleon Johnson.

The Sudan-Amherst Inter-City Little League All-Stars lost to the Plainview Americans at Olton Tuesday afternoon by a score of 20-0. Pat Minyard and Jon Cornelius were Sudan-Amherst coach and manager.

REX BOYLES

Rex Boyles, son of Mr. and Mrs. Bill Boyles, has been granted the King Foundation Scholarship, which is a \$500 a year scholarship for four years.

Rex, a 1969 Sudan High School graduate, qualified for this award by winning runner-up two consecutive years for Poetry Interpretation in the district Texas Interscholastic League.

HOSPITAL REPORT

Patients at the South Plains Hospital this week include:

Sudan - H. R. Nichols, Mrs. Aline Henderson, Mrs. Veda Terrell, Mrs. Ollie Sanderson. Amherst - Mrs. Annie Brown, Gene Kitrell, Mrs. Juanita O'Ball, John Horton.

Littlefield - Mrs. Wilma Castillo, Roger Britt, Mrs. Margaret Sanders, Kyle Eddings.

Bula - Clifford Baca.

Earth - Daniel Garcia, Julie Clayton, Mrs. Leona Davis.

Olton - Mrs. Annyee Price.

Morton - Mrs. Maria Davilla.

PERSONAL

Roxanne Ballard of Houston, granddaughter of Mrs. Noel Lumpkin, is visiting Mr. and Mrs. Lumpkin this week. Other recent guests in the Lumpkin home were their son and family, Mr. and Mrs. Macky Ballard and two children of Galveston.

Brownwood were Mrs. Wynelle Templeton and Mrs. Billye Doty. The girls will return home Friday night.

SHOWER HONORS BRIDE-ELECT

Betti Baker, bride-elect of Terry Obenhaus, was honored with two showers, July 7 and 14. The July 7 shower was given in the home of Mrs. J. R. Manning. Connie Lance and Rene' Markham served at the table, which was decorated in the bride's colors, with a white cloth and blue floral arrangement.

The hostess gift was an electric fry pan and iron.

Hostesses were Mesdames J. P. Arnold, Muriel Crouch, L. F. Meeks, J. R. Manning, Nolan Parrish, Noble Dudgeon, Tommy Cate, Lee Roy Fisher, Donnie Cowart, Bobby Markham, Curtis Savage, Robert DeLoach, G. C. Ritchie, Billy Chester, Dick West, Paul Provence, R. C. Williams, Wayne Doty, Jolen Ballew, Paul Chisholm, Jimmy Carpenter, Dewey Haragan, John Humphreys, Raymond Harper, and Jim Clemens.

Miss Baker was honoree for a

shower at the Longview Baptist Church, July 14.

The table was laid with a blue satin cloth overlaid with white net, decorated with lace, wedding bells, white tapers and a blue floral centerpiece.

The hostess gift was a set of avocado teflon cookware and a set of beverage glasses.

Hostesses were Mesdames S. D. Seagraves, Troy Clem, O. M. Lackey, W. R. Killingsworth, J. W. Dawson, J. R. Otwell, L. R. Black, L. L. Kitchens, and J. H. Lackey.

NEW TSTI SCHOOL STARTS IN SEPTEMBER

The Texas State Technical Institute at Amarillo is now accepting applications for enrollment for the school's beginning classes scheduled to start at 8 a. m. September 2, 1970.

Disappearing Nails

Vancouver, B. C. — For the handyman who has everything: "disappearing" nails. MacMillan Bloedel Limited, Canada's foremost forest products company, recently began marketing nails that are color-matched to various kinds of wood

paneling. The nails become virtually invisible when hammered into appropriate woods, eliminating any need to fill in the holes when do-it-yourselfers panel their basements, recreation rooms and dens.

"Future generations will be born free, equal and in debt."

technology, graphics and design technology, farm and ranch operations and farm and industrial equipment mechanics. All courses are approved for VA assistance.

For complete information on the courses, plus facts in regards to housing, financial assistance, work-study programs, contact the school's manager of student activities, J. W. Sollis in care of Post Office Box 4228, Amarillo, Texas 79105.

Sollis, a native of Crowell, is a former high school principal and math and science teacher. He was principal of high schools in Dimmitt, Abemathy and Springlake-Earth.

Present plans call for all classes to be conducted in a 65,000 square-foot, brick, air-conditioned building during the first trimester of the school year. Students will live in dormitories a short distance from the classrooms, and a cafeteria and student union building is located adjacent to the student union building.

Dr. J. N. Baker, general manager of State Tech at Amarillo, extends a special invitation to all interested persons to contact the school for any information they might desire. "We want to offer whatever courses are needed in this area to as many students as possible, regardless of their race, color or creed" said Dr. Baker.

"Our goal is to teach every person possible how to earn a living at a vocational or technical skill of their choice. We invite everyone to come and 'Learn to Earn' with us," said Dr. Baker.

NEWS OF SERVICEMEN

Private First Class Dennis L. Bush, 19, son of Mrs. Margaret D. Jones, Star Route, Sudan recently completed a HAWK missile and launcher maintenance course at the Army Air Defense School, Ft. Bliss, Texas.

The 26-week course provided him with training in the operation and maintenance of the HAWK missile system and associated test equipment.

Will What You Know Hurt You?

By DAVE LLEWELLYN

"Ignorance is bliss." That's one of the old cliches we all laugh at, these days. Maybe once upon a time people were better off ignorant than informed — when society was unprepared to accept the truth about nature and human nature — but now most of us agree that "what you don't know can kill you."

Good information, these days, is all-important. We will go anywhere to find out the facts. We deplore governmental secrecy and seethe at the "credibility gap."

We publicly spend billions to investigate the moon and privately invest even more in searching out ourselves.

From gossip to international affairs, we are — almost all of us — prodded by a compulsion to know.

This desire to be informed surmounts even religious barriers.

Once it was charged that people who believed the Bible were afraid of new discoveries, but now believers are in the forefront of the search for understanding.

If the Bible is true, then no new truth will conflict with it. In fact, the more the Bible is tested by new evidence the more impressive is its perfect record for accuracy.

Can Ignorance Be Good?

The Bible encourages man's investigation of his world.

Curiously, though, there was a time when God upbraided man for acquiring a new understanding about himself! There is some knowledge that God wanted man not to know —

something He wanted us to be ignorant of.

Why? Because, just as you can't turn off your ears when there is something you don't want to hear, you can't erase your mind when you know something you don't want to know.

Knowledge changes people. Some discoveries make it impossible for you ever to be the same person you were before.

Knowledge doesn't change people just by making them aware of what they were once ignorant of. Sometimes it makes them different people.

The first time a man is unfaithful to his mate — or vice versa — his attitudes toward other people may become suspicious, cynical, or aggressive.

But, more than that, his world is different because there is one more adulterer in it — himself.

The new perspective he gained from the experience he would have been better off without. Ignorance would have been preferable.

Expensive Knowledge

When Adam ate the forbidden fruit he learned the difference between good and evil — but in the process he made a basic change for evil within himself.

Before, he was unashamed of his nakedness. Now he saw it as potentially evil.

Before he enjoyed God. Now he feared Him.

Every new experimentation with sin puts you under the power of that sin.

This is an age of experimentation in everything — "understanding by involvement" — but information is sometimes unreasonably expensive.

It may cost you your life. Copyright Dave Llewellyn 1970

Scripture: St. John 15:7-14; Psalms 31:19-24; Psalms 23.

Hope is something man must have to really live. Did you ever hear, or have anyone say to you, about anything, "There is no hope"?

"He maketh me to lie down in green pastures. He restoreth my soul."

One evening recently I was very tired physically, and when I awakened the next morning, my first thought was how differently I felt after a few hours of sleep and rest.

Then I thought of the spiritual tiredness of man in today's world, and how few there are who know how to find a place of rest — to find renewed strength, renewed joy, renewed hope, and faith.

Being physically tired, sometimes we are unable to stop for a rest — maybe on a trip one cannot find a motel, or a place to stop and sleep and get the rest which the body requires in order for it to keep functioning.

Is the Lord your Shepherd? Does He make you to lie down in green pastures where your soul can be restored to its original perfection?

The soul of man requires rest and restoration daily, if it is to function properly, just as the physical body requires a resting place. And spiritual rest and restoration is far more important than physical rest.

Many of us are put into places

sometimes where we cannot get proper physical rest, but eventually, we have to find some physical rest, or we lose "consciousness" — or we die.

Our soul does the same. We must have spiritual rest, or we lose our "consciousness" of God. We must first have Jesus, or we have no hope, for there is no other way, no other name given by which man can live eternally. Jesus is the one.

Choose Jesus — then seek Him daily and He will keep His promise to restore your soul and give you rest, and the joy that only His peace can bring. How to find rest: Read God's word, believe His promises, walk in faith daily, pray; worship with other Christians, and be obedient to God for His commandments say, "Love me first, and your neighbor as yourself." Then "Be of good courage, and He shall strengthen your heart, all ye that hope in the Lord."

Jesus is the one who makes the difference between hope and despair. Are you safe in Jesus today? Remember, if you do not have this "rest" it is only because of your unbelief — so just trust Jesus and He will never leave you nor forsake you.

from The Bible

Put your trust in the Lord. —(Psalms 4:5).

When inner tension and frustration builds up and when you feel put upon by others, or when you are tempted to make an issue of what seems to be a mistaken thought or action, stop for a minute. Relax and let go. Remind yourself that God is in charge, and nothing is gained by fearfulness, anxiety, fretfulness. Trust in God's spirit within you for the answer.

good gardening

by Rich Hansen
Overgrown Fruit Trees

A frequent question from gardeners is what to do about those overgrown or insect-infested fruit trees in the backyard.

While fresh fruit can be quite a delicacy, growing it can be tricky. If your tree has not been pruned for some time, it may be necessary to cut back the topmost sections. Prune upper, vertical branches back where they meet a good, strong horizontal limb.

Once a tree's general shape is established, only minor pruning is required. If possible, limit yourself to small cuts in early spring, to thin out weak wood. In years when fruit-set is especially heavy, thinning the fruit is also advised, especially in peaches, plums, prunes and apples. When fruits are clustered, I remove all but one in each cluster. Space them roughly four to six inches apart.

Since it is important to obtain good annual growth, some fertilization is also required. A high-nitrogen fertilizer, such as sodium nitrate should do.

Which brings us to what I consider the number one problem with fruit trees: those insect invaders who can bite, chew and suck their way into vigorous, growing fruit.

Fruit pests are both diverse and quick to regenerate, so a broad-spectrum chemical is a must. But it is equally important to use a safe, non-persistent one. I've found that Spectracide, containing Diazinon, effectively controls most fruit pests and can be used up until several weeks before harvesting. It's extra convenient because it's the same insecticide I use for vegetables, flowers, shrubs and lawn pests. No extra chemicals to buy and store; no extra mixing.

Coverage and timing are also key points in spraying fruit trees. Preventive applications before insect populations build up are important. I usually start when the tree begins to bud; after blossoms fall, repeat spraying every two weeks until just before harvest. It's the way to have fruit trees that give pleasure — instead of headaches.

LEWIS LLEWELLYN

Teach the Bible In the Schools?

The Bible may be taught again in the schools of Washington, D.C.

For many years it was understood by educators that schools should emphasize the development of right attitudes. Everyone agreed that sound principles of morality should be taught along with the three R's.

However, a new philosophy of education took over some while ago and the teaching of morality, integrity, and nobility of character was thrown out — with results that can be seen everywhere in our country.

Of course, the blame is not that of the schools alone. Our whole society must be held accountable for the fact that the really worthwhile values of life have been downgraded in the pursuit of material abundance.

Shocking Consequences

Early this year, the residents of Washington — our national capital — were dismayed when it was reported that a 15-year-old boy had been shot to death in school by a gun in the hands of a friend.

On the same day a 14-year-old was shot in the hip with a pistol as he and a fellow student engaged in a friendly scuffle in a school corridor.

Police were ordered to patrol all 46 of the city's junior and senior high schools.

But this is obviously not the way to solve the problem. The condition must be remedied by a change in the attitudes of students — not just by prevention of violence.

A committee has studied the situation and has now recommended that the Bible be reintroduced into the schools as a

part of the English courses — to be read as literature.

The committee has also proposed that the schools make a definite effort to teach students "positive attitudes, such as magnanimity, forgiveness, love of right and truth, and faith in the friendliness of the universe."

The program of Bible reading and the inculcation of desirable traits of character has been endorsed by school administrators, the teachers union, and PTA's.

Some of us might have preferred that the last-named item be presented as "faith in the love of God," but probably the committee was restrained in this by some court decisions.

On the Right Track

Anyway, maybe we're on the way to a major improvement in education. Good teachers have always known that part of their job was to help their students achieve strength of character. They have often been hampered in their efforts by obstacles thrown in their way by authorities who have sometimes seemed to be oblivious to the most vital matters while stressing the less important.

Is it too much to hope that in our lifetime we will again recognize the fact that "The fear of the Lord is the beginning of knowledge"?

As the students of Washington schools read the Bible will they perhaps learn that "to depart from evil is understanding"?

Nothing but good can come from exposing the minds of students to the great truths of the Scriptures.

Perhaps this idea should be considered for adoption in other cities, too.

Laser Beams Go 'Exotic'

Washington — (HK) — Laser beams will soon be doing everything from transmitting your favorite television show to preventing cavities and tooth decay.

Science is opening up many practical commercial and medical applications for lasers. Many of these lasers will rely on exotic combinations of gasses, including helium.

For instance, one company already has developed a laser signal capable of transmitting more than 70 television channels at the same time. This laser could mean far greater potentiality for communications in space, including satellite relay of TV, phone calls and other messages.

Similarly, a researcher in Los Angeles says that in the future dental decay may be avoided by exposing the teeth for a brief moment to a laser.

These various uses are possible because lasers pack a great deal of energy into a beam within or near the range of visible light. The word laser is an acronym coined from "light amplification by stimulated emission of radiation."

Helium, the wonder gas used in space and undersea exploration, has since 1960 been involved in the development of powerful lasers. Helium is important to these gas lasers because it has the second lowest atomic weight

Personals

Mr. and Mrs. Arnold Beckett and Mrs. Charles Rich of Sudan, and Mr. and Mrs. Louis Konkler of Elderado, Okla. were in Ringland, Okla. this weekend to attend the funeral of their uncle, Coy Baird. Mrs. Beckett, Mrs.

Rich and Mrs. Konkler also visited their uncle, Sid A. Hall, who is in the Veteran's Hospital at Ardmore, Okla.

Mr. and Mrs. Jay House were in Spade Sunday, where Mrs. House preached at the United Methodist Church for both morning and evening services.

Mrs. James Arnold, Jr., Jimmy and Jans, of San Antonio visited in the home of her mother, Mrs. Fred Meeks and in the James P.

Arnold home last week.

Mr. and Mrs. Benny Arnold, Benny Carl, Curtis, Tony, and Monte, of Lubbock visited in the home of his parents, Mr. and Mrs. James P. Arnold Sunday.

"Be careful about calling yourself an expert. An "ex" is a has-been," and a "spurt" is a drip under pressure. — Ed Kummer, The Eaton (Colo.) Herald.

NEWS for OUTDOORSMEN
 by VERN SANFORD

Despite some thoughts to the contrary, the hunter is directly responsible for today's extensive wildlife conservation program. Without him many species now plentiful would be extinct.

Hunters rate the mourning dove as the number one game in the United States. Regardless of whether it is hunted or not, the annual mortality of the mourning dove is between 70 and 80 percent.

This you may not believe, but there are more rifle and pistol ranges in the United States than there are golf courses. Furthermore, shooters outnumber golfers three to one.

Hunters have spent more than \$100 million for duck stamps since the passage of the migratory bird-hunting stamp act of 1934. This revenue is used to preserve wetlands for waterfowl habitat.

America's wildlife program has been financed at the rate of \$22 per minute for more than 30 years through the Pittman-Robertson Act—a sportsman-supported excise tax.

Hunters spend nearly \$300 million a year on automobile travel for gas, oil, tires and maintenance.

A porcupine can destroy two trees in a single night and is known to cause damages ranging from \$10 to \$100 per acre. He's a busy little fellow!

Sportsmen are said to be the cleanest when it comes to littering, with the least number of offenders. They are responsible for only 5 percent of the litter. Picnickers are blamed for 25 percent and passing motorists for 70 percent.

The National Park idea began with Yellowstone in 1872, but the National Park Service was not created until 1916.

Camping is here to stay. In the na-

tional park system alone there are approximately 30,000 camps. During the summer months most of them are filled every night.

When you refer to something big as a "whale" there is good reason. An average adult gray whale weighs about 18 tons and is approximately 85 feet long.

No wonder you see so few porcupines. A female produces only one offspring a year.

While the lobster is no speed demon, he has been known to travel 97 miles in 27 days.

Texas cottontail rabbits weigh only about two pounds each, while the European hare will average nine pounds.

Unlike other birds, the woodcock lays a single clutch of four eggs per season.

Birds which feed on insects have a special membrane on the retina which enables them to see the smallest flying bug.

Pelicans nesting on Great Salt Lake in Utah must fly up to 100 miles a day for fresh water and food.

Fastest of all fish is the sailfish. It has been known to tear off 100 yards of line in three seconds, which indicates a speed of about 70 miles an hour.

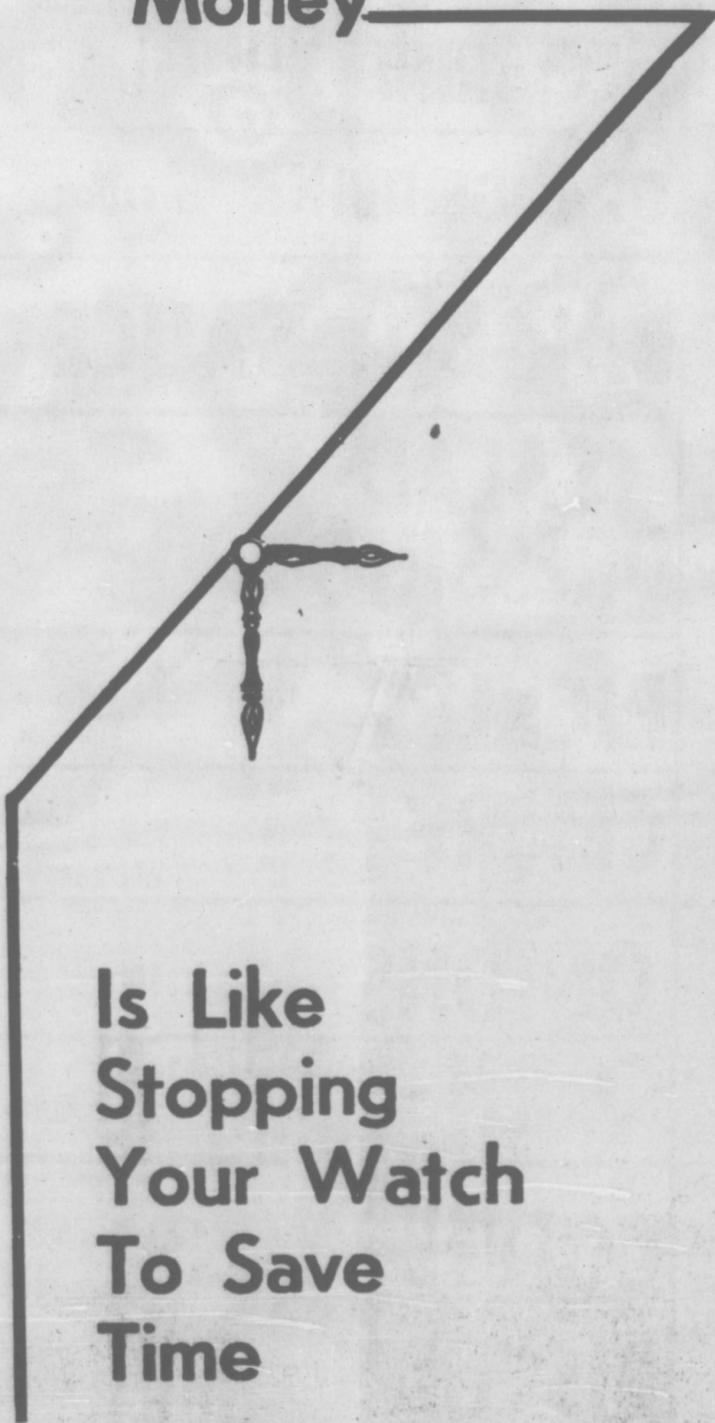

Under normal conditions, when a cricket chirps it can be heard for more than a mile.

Camels can go for eight days between drinks.

If you can identify a queen bee, you can safely hold her in your hand for she has no stinger.

That tall giraffe has only seven vertebrae in its neck. A sparrow has 14.
