## WOODWORK

BY DALTON

IF YOU want to give your dead dog or cat a dignified burial, you can have them cremated for a mere \$15 to \$25. But first you gotta live in Philadelphia, because that's where the service is offered.

There's this group in Philly which offers the private cremation service. They will pick up dead animals and return the ashes in a container.

I guess when my dogs go to that great boneyard in the sky they'll just have to go into a shoebox or bigger cardboard box just like all the others I've buried. We are fond of our pets, but we hardly get quite so enamored of them that we'd pay for a funeral.

Besides, I wouldn't live in Philadelphia for even Lassie's salary.

ARTIFICIAL TURF such as that used in Jones Stadium and the AstroDome is the coming thing in the sports world. Even one high school football field (at Wichita Falls) has had it installed. It's durable and easier to maintain than grass, and has eliminated some football injuries, although some baseball players have aired complaints about it (including one that it gets too hot).

I predict that one of these days soon, the show-off set of homeowners across the land will install artificial turf on their yards, since it probably would be more economical in the long run than watering, mowing, digging out crabgrass and dandelions.

Next may come plastic trees.

SOMETIME when you don't have anything else to do, get a couple of your neighbors and see how much trash you can pick up off the ground in your block. You may be amazed when you get it all together.

Recently after a tennis tournament at Wayland College courts in Plainview, some of us decided we'd better pick up the paper cups and other things which had been thrown down, although it appeared at first glance that just a few things were lying around here and there. In the immediate tennis court area, we picked up two large sacks full of trash.

At Mt. Vernon, Wash., a savings association offered two cents apiece for bottles and cans removed from the landscape. They got about \$50,000 in a week, costing the firm \$11,000. It's a dirty world.

## FIRE DEPT. AIDS 'LUPUS' VICTIM

The Sudan Volunteer Fire Department received this news and share it with you:

To All Fire Departments and Other Interested Citizens:

Nancy Wall, daughter of Captain Joe Wall of Plainview Fire Department, is a victim of a blood disease called "Lupus." Her only hope is a kidney machine and a kidney transplant.

We want to join the Plainview Fire Department Auxiliary to help in their efforts to get enough stamps and money to purchase the necessary machine for treatments.

S & H Green Stamps and Gold-Bond Stamps can be used for the purchase of this machine. Also, there is no substitute for plain old money in a situation like this.

Will you please bring this up in your department and to all the people in your area who might be interested. It takes a lot from a few people to accomplish something like this, but if everyone wants to help it will just take a little from a lot of people.

H. L. Dent, Jr.  
Secretary-Treasurer  
Panhandle Firemen Association

The local Fire Dept. has already sent in \$25 for the "Project Nancy". Stamps and donations may be sent to Bob Davison, Box 548, Sudan, Texas 79371.

### LOCAL STUDENTS ATTEND LCC MUSIC CAMP

Chady Moss, Jeanie Pierce, and Phyllis Ray, all of Sudan, are at Lubbock Christian College, Lubbock, attending the 12th annual Music Camp that started July 19 and ends on Friday, July 31.

The LCC Music Camp, open to junior high and high school students, is two weeks of concentrated vocal and instrumental music study where the following courses are offered: song directing, chorus, band, theory, sight-singing and Bible study.

Three of the faculty are regular members of the LCC Music Department staff (Wayne Hinds, Charles Cox and Everett Maxwell), and are noted for their abilities in choral and band directing. Eddie Chance is the director of the award winning groups from Lubbock Christian High School; Horace Coffman is particularly known for his work in training song leaders and Tex Stevens has done an excellent job in teaching singing since 1948.

The LCC Music Camp is much more than just music, study and rehearsals. As a part of the activities, students participate in camp fire devotionals, parties, baseball, tennis, bowling, skating, miniature golf and musical programs.

Award winners from among the county agents are honored. Speaker at the banquet will be State Representative John Allen of Longview, who will be introduced by the Hon. A. M. Aiken, State Senator from Paris.

Mrs. Veda Terrell has returned home after being a patient in the Amherst hospital.

## BOY REUNITED WITH PARENTS

BOY--WITH CHIHUAHUA DOG BELONGING TO THE SAM SERRATTS--WHO WAS LEFT AT MAYOR ARNOLD REED'S SHAMROCK STATION SUNDAY. --Staff Photo

Shown at left, is a boy, about three years of age, whose family drove away and left him Sunday afternoon at Reed's Shamrock Service Station.

His parents and relatives, a Spanish family from Washington, driving a red pickup with a camper loaded with children, stopped at the station and all got out. In getting back into the camper, no one missed the little boy until they reached Santa Rosa, N. M. Realizing he was left behind, the child screamed and cried until pacified with a small Chihuahua dog, belonging to the Sam Serratts. He seemed to listen to Tom Daniels, so clutching the dog like an only friend, he stayed near to Daniels. He spoke Spanish only, and evidently could not understand English.

Deputy Sheriff Homer McLaury was called, and he notified the highway patrol. But the boy was missed by his family at Santa Rosa, and a very excited group returned to pick him up. In the meantime the boy went with Daniels -- and the dog -- to Daniels' home, where he stayed until his family returned for him some three hours later.

## Boating Quiz

Whether you sail a sloop, race a motorboat, paddle a canoe or row a dinghy—it's as important to know water-giving safety practices as it is to have a sound craft. Try your hand at this quiz, and see how safe you are at sea.

You're coming from the sea into the harbor, and notice a red buoy. On what side should you pass it?

A red buoy marks the right side of the channel and should be passed on the starboard (right). The black buoy indicates the left side and is passed on the port (left). Since buoys are the road signs of boating, it's wise to know the meaning of their numbers, shapes and light signals.

Who has the right of way in an overtaking situation between two boats?

There are different rules for powerboats and sailboats because sailboats are less maneuverable in certain winds. When two powerboats are in an overtaking situation, the boat being passed has the right of way. But, when a sailboat is overtaking a powerboat, it is always the privileged boat.

Can you name five safety items that should be aboard every boat?

If you listed life preservers, horn, compass, running lights and first aid kit, you're right. But, you're just as right if you named an anchor, line, radio, distress flares and fire extinguishers. These and many more safety items should be aboard on every trip—and kept in working order.

How can you prevent the heat exhaustion that sometimes comes from spending a hot day on the open water?

Take buffered salt tablets like Thermo-tabs. They minimize fatigue and prevent the heat exhaustion that comes from excessive perspiration. Two tablets before getting underway will help keep you alert when the sun gets hot or the going rough. The tablets come in a plastic bottle or strip pack dispenser that fits in your first aid kit.

What should you do if the boat capsizes?

Don't panic. Stay with the boat and don't life preservers. (Non-swimmers and children should wear life preservers at all times when boating.) Most crafts will stay afloat even though awash. Don't swim for shore—it's always farther away than it appears.

Give yourself one point for each correct answer. If you knew four or five, you're as safe at sea as any sea-dog can be. But, if you scored three or under, you better brush up on sea-going safety, before you put one foot in the boat.

school districts found 48 not in compliance with desegregation provisions of the 1964 civil rights act.

Sessions are seen as a last-ditch effort to get voluntary integration without a massive lawsuit by the U. S. Justice Department demanding immediate compliance.

Negotiators included three teams representing the civil rights division of the Department of Health, Education and Welfare, plus Justice Department Washington headquarters and Dallas regional office.

Texas Education Agency has contacted all 48 districts following receipt of a letter from the Justice Department asking TEA's help in ending school segregation.

Each district was requested to bring copies of its own desegregation plans to the Austin meetings.

## HIGHLIGHTS AND SIDELIGHTS FROM YOUR STATE CAPITAL

By--Vern Sanford  
Texas Press Association

As fast as the state's major finance agencies moved out of the capitol into the new Finance Building, contractors bids were opened for remodeling of the old quarters to the tune of more than \$1 million.

Work soon will be underway on all floors of the capitol, building including the basement.

Senators will get private offices of at least 550 square feet each. Bulk of the new Senate space will come from quarters long occupied by the State Comptroller.

House members will have smaller offices -- but at least a private office -- in the old first-floor State Treasury quarters and the basement.

Senators plan new committee rooms, including one specially dred for sound and TV lights.

The Capitol station post office will make an early move into the new Finance Building, clearing the east entrance of the stehome for restoral to its dignal splendor.

ENROLLMENT LIMIT ASKED-- jaring public college enroll- sents prompted a request from

the Coordinating Board of the Texas College and University System that each school give "immediate consideration" to the problem.

If voluntary curtailment does not result, Board officials indicated they will ask the Legislature for power to order mandatory ceilings. Atty. Gen. Crawford Martin held in a recent opinion that the agency does not now have such authority.

University of Texas system regents, meanwhile, approved a UT enrollment-control plan and a lottery system for use when units reach capacity.

Coordinating Board at its last meeting also placed the student loan program under federal loan insurance to guarantee repayments, advised expulsion of students who are involved in campus disruptions, and directed studies of free credit exchange among all public institutions and possible elimination of unnecessary college courses.

### SHOWER HONORS BRIDE-ELECT

The R. S. Gatewood's home was the scene of a bridal shower honoring Roxanne Clarke, bride-elect of Rev. Gary Pringle, on Thursday, July 16.

Mrs. Gatewood, Mrs. Henry T. Clarke and Roxanne greeted guests as they called from 3:30 to 5:00 p. m.

Susan Gaston and Kathy Rice presided at the table, serving cranberry punch, individual cakes, nuts and mints. A centerpiece, in the bride-elects chosen colors of pink and hot pink, highlighted the table. Mrs. H. G. Boyles and Mrs. L. E. Slate registered the guests.

The hostess gift was a set of Avacado Teflon Cookware.

Hostesses were Mesdames L. E. Slate, D. W. Williamson, James N. Nix, R. S. Gatewood, W. C. Masten, Michael Bishop, Glenn Gatewood, Radney Nichols, Joe T. Salem, H. G. Boyles, Olin Nix, and Dood Haragan.

Out-of-town guests included Mrs. F. M. Chancy, mother of the groom, Mrs. A. N. Black, grandmother of the groom, Mrs. Scott Mitchell, wife of the pastor of North Side Assembly of God Church, all of Lubbock; and Mrs. Burl Shaw and Pam of Sundown.

Papua and New Guinea have tribes speaking about 700 different dialects.

### SCIENCE SKETCHES

WHAT BABY HEARS in his first year is probably crucial to his later ability to use languages, reports a University of Wisconsin psychologist.

HEAVY DRINKERS aren't safe at home. Chances of getting smashed by "getting smashed" are high, reports a study made by Massachusetts General Hospital. About 8.5 million Americans suffer home accidents annually, and nearly a fourth of them have been drinking, the study says.

ALL VINYL CARS may one day be available on order, says an expert who is a technical representative for "Holland-Suco" pigments used in the paint, ink and plastics industries. Plastics which are now a relatively small part of cars, will continuously increase in proportion to metal until in a few years they will make up 50 per cent of the car, he predicts.

### PROTECT YOUR DEPOSIT ON A CASH BASIS

This bank pays the maximum interest rate allowed to all banks on all types of Time and Savings deposits, so why burn extra gasoline and place extra miles on your automobile to transact your savings account business elsewhere, when your deposits are insured by cash payment up to and including \$20,000.00 by the Federal Deposit Insurance Corporation of Washington, D.C.

All banks belonging to the Federal Deposit Insurance Corporation are assessed twice a year for the purpose of accumulating the funds that protect your deposits. This is an expense on the banks and the federal government does not use one cent of the taxpayers money to provide this protection and has accumulated assets in excess of \$4,000,000,000.00 to provide you cash protection.

Most Americans agree that pollution is one of our most critical problems today. But few people seem to think there is anything they can do about it.

Actually we are all polluters. Every time we drive a car, flush wastes down a drain, or dispose of garbage and refuse, we are polluting the country.

Athelstan Spilhaus, dean of the Institute of Technology at the University of Minnesota, says, "Pollutants are the residues of the things we make use of and throw away... As the earth becomes more crowded, there is no away—one person's trash basket is another person's living space."

# A warning to people who make obscene phone calls.

You're sick. Not clever, but sick.

Because the calls you make aren't jokes. They're crimes. By local law and now, by Federal law.

Congress has just recently passed a bill that can fine you and send you to prison for 6 months if you're caught and convicted.

And you will be. Because now the odds are on our side, not yours.

We can say that because as General Telephone—the second largest telephone operating company in the country—we know what's being done about you.

Although we don't have it through-out our entire system yet, today's special telephone equipment can not only trace back and identify your phone from the receiving party's end; it can also identify any number you call from

your end.

And don't think you can beat it by keeping your call short, either.

Because it can also prevent you from disconnecting. As long as the party you call doesn't hang up, the line will remain open. No matter what you do.

And while they keep the line open, they can make another call. To us.

Then there's the work being done on the voice print—an electronic picture of the human voice.

If yours is taken, it's as good as getting your fingerprints. That's how distinctive your voice is. No matter how good you are at disguising it.

And if all that isn't enough to stop you, remember this the next time you get the urge to call:

We haven't told you everything.
