LOCAL RESIDENT INJURED IN FARM ACCIDENT

Dick Gatewood, longtime farmer in the Sudan area, was injured Friday when his hand became entangled in the machine with which he was stripping cotton on his farm about five miles west of Sudan.

He was alone at the time and reportedly suffered a large blood-loss before he could free his hand and summon help. He was taken to Methodist Hospital in Lubbock where he underwent surgery and lost the middle finger on his right hand. Although the hand was somewhat mangled, he was reported in satisfactory condition at press time.

INSURANCE HIKE LIKELY

Car owners in Texas got the expected bad news when the staff of the State Board of Insurance recommended a 23.4 per cent average increase in auto insurance rates.

Board took no immediate action, but will set new rates by January 1.

If the agency holds to its past

policy of allowing no increase in any line of coverage greater than 25 per cent, the staff proposal may be scaled down to an effective 18.6 per cent boost. Earlier the regulatory body committed itself to a new ratemaking formula taking into account investment income of companies and guaranteeing profit on underwriting after taxes. Staff secommendations would build into the rate base a 4. 7

and an 8. 7 per cent allowance for state and federal taxes. Industry representatives, still not satisfied, argued their case for a 27.7 per cent average statewide increase and removal of the arbitrary maximum

per centprofit on policy writing

Proposals brought angry rumbles from legislators, Sen. Oscar Mauzy of Dallas predicted that lawmakers "will not allow this economic miscarriage of justice to stand unchallenged. " Rep. Joe Allen of Baytown also called the proposed rate increases "tragic abuse of government regulation and free enterprise system. "

Texas AFL-CIO has called on drivers to appeal to the Legislature for a change in the rate system, and reportedly is studying possible legal action.

WELFARE CHANGES URGED

A raise in welfare benefits, removal of the constitutional ceiling on payments, reorganization of the Department of Public Welfare and a new approach to problems of needy families with dependent children were reccommended by the blue-ribbon Senate Welfare Study Committee.

Committee said the state must aim at development of children rather than simply maintaining them on aid rolls to break the poverty cycle.

These additional recommendations were included in the 85page report:

A constitutional amendment to permit garnishment of wages for court-ordered child support. A vendor drug program to supply medicines to Medicaid outpatients.

Renaming the Welfare Department the Department of Human Resources and reorganizing it with a head named by the Governor and confirmed by the Senate.

Complete overhaul or streamlining of department administration with increased use of computer methods.

Committee Chairman William P. Hobby Jr. said that the Legislature next January will have to pass an emergency appropriation of more than \$40 million just to carry the welfare program at present levels.

According to the department to qualify for aid in Texas a person must be (1) over 65, (2) totally and permanently disshied (3) blind or (4) member of a fatherless family.

The state welfare now provides for some 460, 000 Texams half of them over 65. There has been a sharp rise in the disabled and dependent children divisions.
