FORTY-EIGHTH YEAR NUMBER 23

SUDAN, LAMB COUNTY, TEXAS

THURSDAY, JULY 20, 1972

10¢ PER COPY

WOODWORK

—by dalton

In May, 1553, a fleet of ships started out to Spain from Mexico, carrying about 2,000 passengers and crew and valuable cargo from the New World. On the way, the fleet ran into a severe tropical storm which drove it westward and wrecked several of the ships along what is now Padre Island.

Padre Island is a resort area way down south of here, which I understand is a nice place to visit. I never have been there, but would be happy to go any time someone offers to finance the trip (a local insurance agent already has offered to go a dollar).

Anyway, according to a release from a state agency which I will name in a minute here, several hundred persons who survived the shipwrecks started walking southward along the coast (looking for a concession stand?). Raiding Indians, however, killed all but two of the survivors, and the release never does say what happened to those two. Presumably they are still walking south, and by now should be somewhere near the Panama Canal.

In 1554 a salvage fleet sent out by Spain recovered much of the cargo from the wrecks. But a lot of it was left there, and now, more than 400 years later, the Texas Legislature has funded a program of scientific and historical investigation "to preserve this important aspect of the heritage of the state."

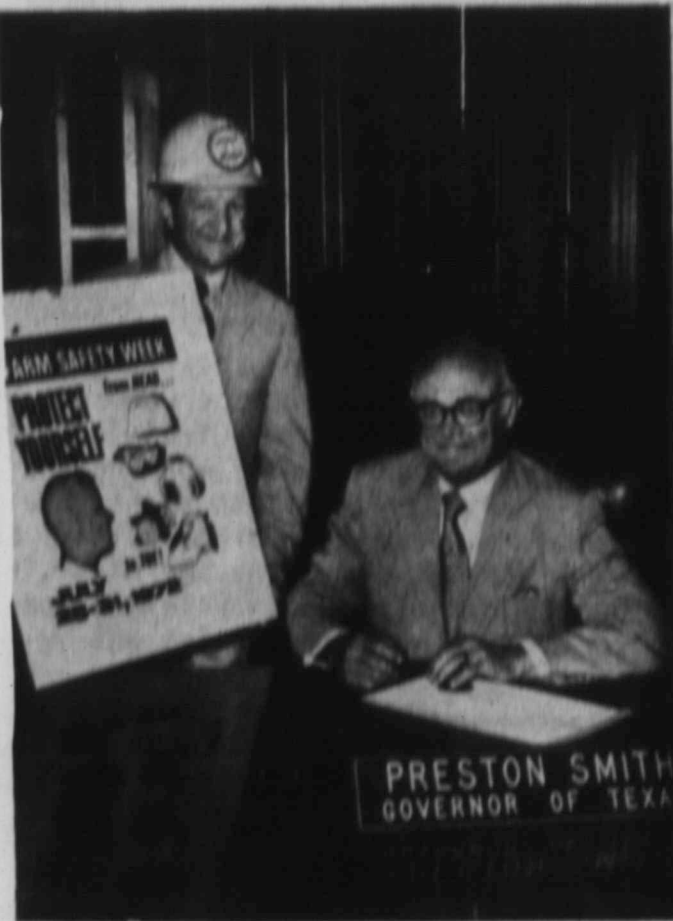

They're using our money to finance some diving and digging (since they're in sand, too) to check out these old Spanish wrecks. Some taxpayers may object to this, but I'd just as soon they spent it for that as give it to some character who is on the welfare rolls because he doesn't like working. But I do wish they'd let me go along, because sunken treasure—or even sunken junk—fascinates me.

There's something about delving into old shipwrecks, abandoned houses or mines, or caves that nobody else has messed with in years that appeals to most of us. Maybe we wouldn't like to do the diving and investigating ourselves, but we sure are interested in what happens.

I've been in a few dives in my time, but that's another story.

The shipwrecks have been in the public eye since 1967 when they were discovered. At that time, an Indiana firm made a deal with state official Jerry Sadler, whose colorful career in politics later was ended by the voters, and took out some of the artifacts. They since have been returned to the state, but litigation is underway regarding the rightful ownership.

In 1970 a project sponsored by the Institute for Underwater Research, Inc., resulted in the discovery of 24 positive magnetic indications of wreck sites, of which 13 were investigated further. One of these proved to

ACCIDENT PREVENTION on the modern farm and ranch is the message that both Governor Preston Smith and Texas Farm Bureau Queen Phyllis Shutt of Edna want to spread. Governor Smith signs a proclamation designating July 25-31, as Farm and Ranch Safety Week in Texas as Joe L. Smetana, vice president for Farm and Ranch Activities of the Texas Safety Association, exhibits a theme poster for the observance. Miss Shutt demonstrates the need for industrial type hard hats and roll-over protection on farm machinery.

TEXAS FARM & RANCH SAFETY WEEK PROCLAIMED

Fires, drownings, and machinery and tractor accidents continue to be the major sources of accidental deaths on Texas farms and ranches, according to the Texas Safety Association.

Joe L. Smetana, Vice President for Farm and Ranch Activities for the statewide safety group, discussing Texas Farm and Ranch Safety Week, July 25-31, said today that accidental deaths took the lives of 203 persons in 1971 in rural areas of the state.

"One of the most surprising factors in last year's accidental deaths is the large number of persons who were killed by fires,

explosions and burns," said Smetana.

The TSA Vice President said thirty-five deaths were recorded which were a result of fires, explosions or burns. The safety group spokesman said the figures point up the need for farm and ranch families to provide adequate protection against the dangers of fire.

Other leading causes of accidental death last year on Texas farms and ranches included 29 drownings, 28 accidental shootings, 26 machinery accidents, 22 falls, and 17 accidents involving animals.

"These figures on accidental

deaths in rural areas of the state during 1971 show a continuing upward trend of deaths in nearly every category," said Smetana.

The safety spokesman also turned his attention to the ages of the persons who are being killed in accidents on Texas farms and ranches. He revealed that four age groups have the highest number of accidental deaths. The largest number, according to Smetana, of accidental deaths occurred to persons between 10 to 19 years of age. Thirty-four persons were killed last year in that age group.

"Another of the apparent high-risk groups are persons between the ages of 60 to 69. Thirty persons in this age group lost their lives in farm and ranch accidents last year," said Smetana.

Twenty-eight persons between 50 and 59 years of age and 25 persons between 70 and 79 years of age lost their lives in accidents in 1971 on farms and ranches, according to the safety group spokesman.

"The great tragedy of these deaths is that none of them have to occur," said Smetana. "Every single one of the 203 persons who died accidentally on Texas farms and ranches last year could have been alive today, if they had taken proper precautions, used personal protective equipment, or been prepared for emergencies," he said.

"Twenty-two persons were killed in accidents involving tractors. Most of these accidents were incidents in which the tractor overturned and in which neither roll-over protection devices nor seat belts were in use. The use of these items could have prevented most, if not all, of these deaths," Smetana commented.

"Twenty-six persons lost their lives in accidents involving machinery. These too are classified as needlessly lost lives. In most cases the individual violated some basic safety rule regarding the machine and its operation. Persons responsible for the operation of farm machinery need to make sure that they are familiar with all the details of safe operation. Those who have employees on the farm who run machinery should insure that every person who operates the machine knows its dangers and how to operate it safely," said Smetana.

"Perhaps the greatest of the tragedies are the drownings. Every farmer and rancher in this state should consider it a solemn duty to teach every member of his family how to swim as a first precaution against such an accident. In addition, flotation devices and other live saving equipment should be kept near stock ponds, creeks, swimming holes and other places of water recreation on the farm or ranch. Dangerous water areas should be declared out of bounds and

(Continued inside)

TEL HAS SOCIAL

The TEL Sunday School Class of the First Baptist Church combined their monthly social with a dinner Sunday in the fellowship hall of the church. Rev.

W.A. Howard officiating. The group dismissed with a prayer by Nolan Parrish.

Mrs. Milton Williams and Mrs. Frank Rone were hostesses.

Oh yes. The release is from the group in charge of the investigation for the state. Its name is the Texas State Historical Survey Committee's Antiquities Committee, enough in itself to sink a small ship.

The operations of the committee start this week, and they'll take a specially-designed 34-foot aluminum boat to the site five miles north of the Mansfield Cut, whatever that is.

There will be seven to 10 archeological technicians, divers, operating from Port Mansfield.

I'm a little disgusted with their reasons for the project, though. They want to know more about "what Spanish colonial material culture consisted of at that time."

I guess that's okay, but I really don't give a hang. I'll be disappointed if they don't find some kind of monster trapped in one of the hulks, like the Critter from the Black Lagoon on the late-late show.

It's this same sense of adventure and curiosity about the past that makes me dump everything out of my billfold every two or three years. The things one finds—the old receipts, the addresses and phone numbers of persons you no longer want to contact, the expired cards—all combine to give one a guaranteed hour or two of entertainment.

Even more interesting would be a scientific investigation of the contents of my wife's purse. Certainly, I'm sure, there are things in there that human eyes have not beheld in years.

and Mrs. Eddie Freeman and children and the families of class members were guests. Waymon Gordon gave the opening prayer. Rev. Freeman presented a devotional, and the group dismissed with a prayer by Nolan Parrish.

Mrs. Milton Williams and Mrs. Frank Rone were hostesses.

COUCH RECEIVES REAPPOINTMENT

The 42nd annual state convention of the Church of God of Prophecy of West Texas met in Lubbock July 13-16 with Bishop W.A. Howard officiating. During the meeting Rev. Couch was reappointed as pastor for the church in Sudan.

Those attending from Sudan were Mr. and Mrs. Kenneth Richards and Dean, Mr. and Mrs. Donald Wood and Tracy, Miss Doris Reese, Mr. and Mrs. Alvin Richards and family, Mrs. J. R. Richards and Rev. and Mrs. Steve Couch and family.

Mr. and Mrs. Ralph Bellamy of Irving are parents of a daughter, Brandy, who was born Saturday, July 15, at 9 p. m. in the Irving hospital. She weighed 8 lbs. 3 oz. Mrs. Gus Bellamy is paternal grandmother.

Mr. and Mrs. Bill Thornton of Littlefield are parents of a daughter, Mary Stephanie, born Wednesday, July 12, at 7:30 p. m. in Littlefield Hospital and Clinic. She weighed 9 lbs., 8 oz.

Maternal grandparents are Mr. and Mrs. Tommy Seymour, Rt. 2, Sudan. Paternal grandfather is

NOTICE

City Water Commissioner Pete Phillips announced this week that on Saturday, July 22, at 1:00 a. m. until Saturday at 6:00 a. m. the city will be out of water due to repairs being made to fire hydrants, weather permitting. He stated that the water system has to be drained in order to make repairs. However, it is possible that it would not take all of that time for the repairs.

Baptist News

A total of eight local youth attended the boys camp last week at Plains Baptist Assembly, Floydada. The group left Monday, accompanied by Tommy Ewins, sponsor, and returned home Wednesday. Noble Dudgeon went Tuesday as a sponsor. Boys attending were Lee Markham, Rusty Ray, Ray Dudgeon, Mike Hill, Mike Deloach, Roy Dudgeon, Bert Byerley, and Darren Provence.

Some 18 men of the First Baptist Church attended the Lubbock-Caprock Plains area Brotherhood rally at Floydada Monday night. Supper was served and Harold Branch, pastor of St. John's Baptist Church of Corpus Christi was guest speaker.

The pulpit will be filled this Sunday, July 23, by Rev. M. O. Evans of Plainview in the absence of the pastor, Rev. Eddie Freeman. He will accompany some 27 young people from Plainview to Grand River Baptist Church, New Castle, Colo. for mission Vacation Bible School. They will sing the "Elected Church". The school will last one week with the group leaving Friday. Eleven other adults will also accompany the group.

William H. Thornton of Beaumont.

ALL-STARS LOSE

In the All Star Little League tournament which began Monday at Littlefield, the Sudan-Amherst team was defeated by Littlefield by a score of 14-1.

The local team got only one hit during the game and the only run was unearned. Littlefield got 11 hits and scored 14 runs.

Rick Hill was losing pitcher, relieved by Joel Williams.

The Littlefield Team played Plainview American in the tournament Tuesday and won 4-0. They play the winner of the Plainview tournament Thursday night at Littlefield which will be Plainview National.

The Littlefield-Sudan-Amherst 13-year old Babe Ruth all Stars

were defeated again in their game Tuesday, 7-6, by Plainview in the Muleshoe tournament and led most of the game. Jerry Williams was at the mound and allowed Plainview only two hits. However, in the final inning Plainview came from behind in a big surge of energy to win.

The Plainview team was defeated in the final game of the tournament by Dimmitt, the champions.

CITY REPORTS SALES TAX REVENUE

The City of Sudan has received a check in the amount of \$1,982.97 for sales tax for the quarter which included January, February, and March.

A spokesman for the city reports that vacant lots are presently being mowed. It was also stated that residents owning unowned lots would be sent a statement for mowing charges according to the lot size if city employees do the mowing.

TOPS CLUB MEET

A total weight of 7 3/4 pounds lost was recorded Monday at the regular meeting of Texas TOPS 634 when six members were present.

Members weighed and measured and Mrs. Latha Gordon received the hand full of dimes after being named Queen for the week.

The organization will meet again Monday at the Community Center at 3 p. m.

Personals

Mr. and Mrs. Bud Provence and Darren attended the Earth Rodeo Friday night.

Among visitors Sunday in the home of Mr. and Mrs. Floyd Seymour were their children, Mr. and Mrs. Harold Steadman of Hale Center and Mr. and Mrs. Van Seymore of Whithersett.

CECIE BANDY

MISS BANDY NAMED SECOND RUNNER-UP IN CONTEST

Miss Cecie Bandy, daughter of Mr. and Mrs. Dewey Bandy, was announced second runner-up in the annual "Miss Lamb County" pageant Friday night in the Littlefield High School Auditorium by Cecil Knight of KSEL, emcee. Miss Bandy was one of the 15 contestants in the pageant and is a senior at Sudan High School. She was sponsored by Nix Implement in Sudan.

Miss Tina Russell, 17, of Littlefield was named winner of the contest. She received a trophy, yellow roses and a rhinestone tiara. She will be a contestant in "Wheatheart of the Nation Contest" in Perryton, Aug. 19.

Miss Rene' Markham, daughter of Mr. and Mrs. Bobby J. Markham, was also a contestant. She was sponsored by Frank Lane Ford of Sudan.

Judges were Casey Jones, KSEL, as well as a fashion consultant from Latham's, and a disc jockey, all of Lubbock.

GOOD PARTON... QUALITY

(FARM SAFETY con't.)

should be fenced off for adequate protections," said the TSA spokesman.

Smetana also had the following suggestions for safer farm and ranch operations.

1. Keep all guards and shields in place when operating machinery or power tools of any kind.
2. Equip your tractor with a protective frame of crush resistant cab.
3. Always fasten your safety belts when driving or riding. Insist that others do the same.
4. Be prepared for emergencies such as fire, flood, blizzard, windstorm, sudden illness and injury. For information on emergency preparedness contact the extension service, civil defense, or other groups. Plan and practice ways of evacuating the house if fire strikes.
5. Install fire extinguishers in buildings, on motor vehicles, tractors, and self-propelled equipment.
6. Applying pesticides and other agricultural chemicals, wear gloves and recommended protective clothing and chemical respirators.
7. Keep pesticides in a suitable storage area, inaccessible to small children and animals.
8. Protect small children and others by covering tank openings, and fencing dangerous areas such as manure lagoons and farm ponds. Have flotation aids available at ponds.
9. Check electrical wiring; use proper size fuses.
10. Wear safety shoes, especially for repair and construction jobs, machinery operations and materials handling.
11. Protect your eyes with glasses or goggles with safety lenses.
12. Protect your head with an industrial type "hard" hat or

"bump" cap.

13. Spare your hands on rough jobs with heavy-duty gloves. Wear rubber gloves when handling farm chemicals, petroleum products and other solvents. Use good hand lotions to prevent chapping.

"By observing these safety and accident prevention protection rules the average farm and ranch family in Texas can avoid a serious injury or fatal accident," said Smetana.

July 25-31 is Farm and Ranch Safety Week in Texas, as proclaimed by Governor Preston Smith. But it will take more than just one week of activity to prevent last year's tragic record from growing again this year. Texas farm and ranch families must strive to put safety to work for them every day of the year," Smetana concluded.

UNEMPLOYMENT INCREASES

Senator Lloyd Bentsen today said he was disheartened to learn that the problem of unemployment continues to increase in Texas, causing untold misery for thousands of residents of the state.

Bentsen said that, while the Administration announced Friday that national unemployment dropped from 5.9% to 5.5% in June, the situation in many Texas areas has not noticeably improved.

The Labor Department's Monthly Area Employment Trends and they can expect this situation to continue in their area for at least two more months," Bentsen said.

He noted that 23 Texas Counties were previously listed as areas with substantial or persistent unemployment and said the June additions bring the number of Texas Counties to 25. The Senator also pointed out

Personals

R.D. Ormand of Arlington spent the weekend in Sudan visiting his mother, Mrs. A.W. Ormand.

Mrs. Robert Dyer and Stacey of Bandera are here this week in the home of her mother, Mrs. A.W. Ormand.

Scott Ormand of Fountain Valley, California, is spending two weeks in the home of his great aunt and great uncle, the E.C. Minyards.

Bucky Byerley has gone by bus to Oklahoma City to visit her uncle and family, Mr. and Mrs. Neal Walker. She will stay one to two weeks.

Mr. and Mrs. Buddy Crouch and daughter of Lovington, N.M. visited his grandparents, Mr. and Mrs. Tobe Vereen over the weekend.

Steven Ballard, son of Mr. and Mrs. Macky Ballard of Texas City arrived Saturday for a visit with his grandparents, Mr. and Mrs. Noel Lumpkin.

Roby Lynn visited Gary Bouldin in Lubbock this week.

Noel Lumpkin was in Graham last week fishing with his brother, Jack Lumpkin.

that the nation is still a long way from being free of high unemployment, despite the figures released by the Administration on Friday.

LAMB COUNTY 4-HERS ATTEND ELECTRIC CAMP - Nine Lamb County representatives attended the annual 4-H Electric Camp, sponsored by Southwestern Public Service Company, held at Camp Scott Able in the Sacramento Mountains of New Mexico near Cloudcroft from July 10 through July 15. The local group joined other area 4-H members at Lubbock Monday morning and traveled by bus to New Mexico and returned Friday afternoon. Pictured from left to right, are Bill Harr, Lubbock SPS instructor; Sandra Mills, Amherst; Beth Duffy, Amherst; Barbara Black, Sudan; Mrs. Buddy Logsdon, leader of Littlefield; (back row) Brian May, Sudan; Aubrey Pitts, Pleasant Valley; Rodney Logsdon, Littlefield; Jim Fields, Sudan; Bobby Brunson, assistant county agent, Littlefield. Each 4-H member attending camp constructed an electrical outlet box resembling the one held by Harr in addition to many crafts and sporting activities during the week.

Molasses Sparks Up Bean Dishes

Molasses makes the beans! Fix baked beans a new flavor way! Combine cans of vegetarian beans, onion, celery, mustard and light or dark molasses for a fresh homemade taste that only molasses imparts to beans.

Hearty salads made of beans, vegetables and fruits are popular. They draw raves when the salad dressing is exceptional. It is when molasses lends its rich flavor. Marinate the salad several hours.

BEST BEAN SALAD
4 cans (16 oz. each) beans in tomato sauce
1/2 cup chopped green pepper
1 cup chopped celery
1/3 cup sliced green onions
1/3 cup sliced radishes
1 dill pickle, chopped
2 tablespoons Brer Rabbit molasses
1/2 cup mayonnaise
1/4 cup chili sauce
Bite-sized salad greens

Drain beans reserving 2 tablespoons of liquid. Combine beans and next 5 ingredients. Blend bean liquid, molasses, mayonnaise and chili sauce, mix with greens. Chill. Serve with greens. Makes 6 servings.

TELL ME

WHICH KING OF ENGLAND WAS UNABLE TO SPEAK ENGLISH?

KING GEORGE I! BORN A GERMAN PRINCE, HE RULED FROM 1714 TO 1727 AND NEVER LEARNED THE ENGLISH LANGUAGE!

WHAT IS THE BIGGEST, GREATEST WONDER ON EARTH?

THE GRAND CANYON OF THE COLORADO... 217 MILES LONG, 10 TO 25 MILES WIDE... 1 MILE DEEP!

WHAT ARE CHARACTERISTICS OF THE HUMMING BIRD?

IT IS THE ONLY KNOWN LAND BIRD THAT CAN FLY BACKWARD AND CAN RISE STRAIGHT UP IN THE AIR LIKE AN AUTOGIRO PLANE!

IF A HANDFUL OF SALT IS DROPPED INTO HALF A GLASS OF WATER WILL IT CHANGE THE WATER LEVEL?

YES... THE WATER LEVEL WILL DROP! W.F. ELMO

WHAT IS THE WEIGHT DIFFERENCE BETWEEN SEA AND FRESH WATER?

SEA WATER WEIGHS ABOUT 1/8 LBS. MORE PER CUBIC FOOT THAN FRESH WATER AT THE SAME TEMPERATURE!

WHAT ARE THE TALLEST PLANTS IN THE WORLD?

SOME SEA-WEEDS OFF SOUTHERN SOUTH AMERICA ARE MORE THAN 600 FT. TALL... A GREATER HEIGHT THAN THE WORLD'S TALLEST TREES!

IS IT TRUE THAT TOADS CAUSE WARTS?

NO... IT'S A SUPERSTITION THAT OWES ITS ORIGIN TO THE WRINKLED WARTY SKIN OF MANY SPECIES OF TOADS!

HAS WASHINGTON ALWAYS BEEN THE CAPITAL OF THE UNITED STATES?

NO! IT WAS PRECEDED BY NEW YORK AND PHILADELPHIA! W.F. ELMO

STATE OF TEXAS
COUNTY OF LAMB

Before me, the undersigned authority, County Clerk of Lamb County, Texas, on this day personally appeared G. T. Sides, County Judge, A. J. Spain, Commissioner of Precinct No. 1, T. L. Free, Commissioner of Precinct No. 2, Jack Peel, Commissioner of Precinct No. 3, and

Hubert Dykes, Commissioner of Precinct No. 4, constituting the Commissioners' Court of Lamb County, Texas, who, being first by me duly sworn, each upon oath severally stated:

herein; that they and each of them have fully inspected the quarterly report of the County Treasurer of Lamb County, Texas, submitted to them, at the Regular Term of the Commissioners' Court, of Lamb County, Texas, held on the 10th day of July, A.D., 1972, which report covers the receipts, disburse-

ments and ending balances of all county funds for the years' quarter ending on the 30th day of June, A.D., 1972, and that they and each of them have actually counted and fully checked the amount of money and other assets in the hands of said treasurer and have found the amounts shown in such report, attached hereto, true and correct.

I hereby certify the above and foregoing to be a full, true and correct statement of all matters to which the same relates, in testimony thereof, witness my hand this the 1st day of July, A.D., 1972.

Lucy M. Moreland
County Treasurer, Lamb County, Texas.

Red Men In Service

AIRMAN PHILLIPS

Airman Morris D. Phillips, son of Mr. and Mrs. Morris A. Phillips of Rt. 5, Mulshoe, Tex., has completed his U. S. Air Force basic training at the Air Training Command's Lackland AFB, Tex. He has been assigned to Sheppard AFB, Tex., for training in aircraft maintenance. Airman Phillips attended Bula High School.

LT. COL. EDWARDS

Lieutenant Colonel Paul W. Edwards, whose wife, Laveta, is the daughter of Mr. and Mrs. W. D. Pryor of Rt. 1, Sudan, has been graduated from the U. S. Air Force's senior professional military school, the Air War College, at Maxwell AFB, Ala.

The 10-month university level course prepares senior officers and specially selected civilians for higher command and staff positions by developing an understanding of military strategy in support of national security policy.

The colonel is assigned to an Air Force unit at Kelly AFB, Tex.

Colonel Edwards, who was commissioned in 1953 upon completion of Officer Candidate School, has served six months duty in Vietnam, and holds the Distinguished Flying Cross, 10 awards of the Air Medal and two awards of the Air Force Commendation Medal.

The colonel attended Denver High School, the University of California at Riverside, the University of Maryland, European Division in Germany, and the State University extension in Montgomery, Ala.

Navy Petty Officer First Class Bernard A. Williams, son of Mr. and Mrs. C. A. Williams of Route 1, Sudan, Tex., is a member of a specially trained group which completed expansion and modification of the "Eklund Biological Center," designed to improve research in marine biology at the McMurdo Station on the Ross Sea in the Antarctic.

He is a former student of Littlefield Public Schools, Littlefield, Tex.

U. S. Air Force Sergeant Ricky F. Arend, son of Mrs. Ruby M. Arend, 404 E. 19th St., Littlefield, Tex., has arrived for duty at Bergstrom AFB, Tex.

Sergeant Arend, a ground radio equipment repairman, is assigned to a unit of the Tactical Air Command which provides combat units for air support of U. S. ground forces. He previously served in Japan.

The sergeant is a 1967 graduate of Bula Independent High School and entered the Air Force in 1972.

His wife, Fayedell, is the daughter of Mrs. Wayne Duffey, 1312 W. 13th St., Littlefield, Tex.

ALL-STAR BASKETBALL SET SATURDAY

With ticket sales reaching toward 1500 already, the Texas Oklahoma Girls' All-Star Basketball Game will show off those chosen as the best of high school women athletes. Another tense scoring battle will come to life in Hutcherson Physical Education Center on the Wayland Baptist College Campus in Plainview at 8:30 p. m., July 22, before an expected capacity crowd of 3000.

This is the first time the annual event has come to Texas, the first two being played in Lindsay, Okla. The Sooner Staters took these two victories by a narrow squeeze, and fans have begun to make their own predictions as to who will win this year.

The 24 roundballers to participate in the event have been chosen from the two all-star teams of each state. Texas North and Texas South will meet this weekend in Brownwood.

Oklahoma's East-West game named the West champions of that state on June 3, with Peggy Provence of Choctaw leading the way. Miss Provence brings the highest scoring average to the two-state event with her 39.7 points per game.

In the 15 years that the North Texans and South Texans have met, the North has clinched the

championship every year except one. Nine of the 12 who will take on Oklahoma were chosen from this year's Northern team. They are Sheila Patterson of Spearman, Janis Irby of Claude, Karen Spain of Stephenville, Rosemary Brown and Linda Curtis of Talco, Joy Williams of Canyon, Cindy Payton of Lubbock, Peggy O'Brien of Southlake, and Diane Day of Friona.

Representing Texas' South are Waco's Dique Lucenay, Corpus Christi's Betsy Williamson, and Lorena's Rhonda Lewis.

Scoring averages for the Oklahoma top those of the Texans, but the Lone Star Staters have some advantages too, such as height.

Tickets for the game are being sold in advance by mail at Wayland Ticket Office, Wayland Baptist College, Plainview, Texas, 79072.

RED CROSS MEET HELD

The Lamb County chapter of the American Red Cross met July 7 at 4:00 p. m. in the Red Cross office.

Every year at this time the Red Cross chapter begins a Ditty Bag project. These bags are

filled with comfort items donated by local merchants, and shipped to members of the Armed Forces overseas. The bags will be shipped by September 30 to assure arrival in time for Christmas.

This Red Cross chapter was assigned a quota of \$389, due to the disaster inflicted by floods in Rapid City, South Dakota. We would like to express our appreciation to all who have extended a helping hand.

The total submitted to date is \$242.50.

Those attending the meeting were: Mrs. Leeverne Smith, Mrs. Lottie Orteg, Mrs. Lester Lagrange, J. P. Arnold, Curtis Wilkinson, Rev. C. P. McMaster, Eldon Franks, and Judge G. T. Sides.

LEWIS LLEWELLYN

Law and Safety

Many have criticized the severity of the Mosaic legal code — "life for life, eye for eye, wound for wound." It was stern and it was severe — and it worked.

It should be remembered, of course, that these punishments were not applied in cases of accidental death or injury where there was no criminal negligence involved. But if the injury was deliberate, the law-breaker was punished by suffering the same injury that he had inflicted on his victim. If he had deliberately put out an eye, one of his own eyes would be put out. If he had purposely killed, he would be executed.

The deterrent value of this code of justice is obvious.

The disastrous effect of our present attitude toward laws and law enforcement is well known. Crime in our cities has reached the point that people can no longer feel safe on the streets at night.

The situation is becoming intolerable.

In Rochester, N. Y., Samuel C. Schaefer, 72, was alone in his grocery store when a bandit entered, robbed him of \$21, and gouged out his eyes.

Later the same day, two men — one of them presumed to be the one who had blinded Schaefer — attacked 19-year-old Robert Parr, service station attendant, robbed him of the \$10 that he had, and blinded him in the same way.

Some criminals have a different method of preventing their victims from identifying them in court.

Robert Lee McElmore, who is serving a sentence in the Co-

lumbia, S. C., prison, recently wrote a letter, published in the Gaffney (S. C.) Ledger. In it he quoted another prisoner as saying, "Next time I get out and pull a job, I'm not going to leave any living witnesses. That's why I'm here now."

Leo Estrada, a prisoner in San Quentin, Calif., prison, was sentenced to life for hanging a fellow prisoner in 1965. In 1971, he was sentenced to die for stabbing another prisoner to death. According to the Chicago Tribune, Estrada has stated that the Supreme Court decision abolishing the death penalty has given life-terminers "license to kill at will and without risk."

God's law, given through Moses and recorded in the Old Testament, made no provision for gentle handling of criminals. It was intended to protect the innocent by sternly punishing the guilty.

Did Christ revise all this? Did He indicate that God had changed His mind and that crime was not so bad, after all? Jesus did not say so. He said, "I came not to destroy the law, but to fulfill it."

Those who believe that the God of the New Testament condones acts which the God of the Old Testament condemned should read this from the New Testament: "The abominable, and murderers, and fornicators, and drug-takers, shall have their part in the lake which burns with fire and brimstone."

If our legislators and our courts fail to protect us from criminals, let's not put the blame on Christ. There's no excuse for that.

Former Resident Retires As Dean Of Women

MRS. CARRIE LEE BISHOP

One of the familiar faces will soon fade from the Texas A & I University campus when Carrie Lee Bishop, dean of women, steps down from the post she has occupied for 21 years. A retirement dinner for Dean Bishop is scheduled July 15 in Martin Hall.

Serving in a variety of positions during her 22 years of service at A & I, Mrs. Bishop is regarded by her co-workers as a willing worker with a ready smile.

Serving under two A & I presidents, Poteet and Jernigan, Mrs. Bishop has been active in Greek, service organizations and professional organizations during her career.

The veteran educator came to A & I during 1950 as supervisor of home economics for Texas Education Agency in Area 10. She was appointed dean in September of 1951.

Completing her secondary education at Sudan High School, she entered Texas Tech when the school opened its doors in 1925. Leaving Tech without a degree, she later was graduated with a B.S. degree in 1941. After teaching in area schools

Burnett of Brownwood; Mr. and Mrs. A. J. Balckman of Causey, N.M.; and Mrs. Eunice Wilson and daughter of Denver City.

Frances Blair of Graham visited here several days with her daughter and family, Mr. and Mrs. Noble Dudgeon, Roy and Ray. She also visited with Mrs. John Burnett.

Mrs. Edna Bellamy and Mrs. Matilda Slemmons of Muleshoe left Thursday for Kingsville where they attended a retiring banquet for Mrs. Bellamy's sister, Mrs. Carrie Lee Bishop, at Texas A & I. They also visited Mrs. Slemmons's son, Sen Slemmons and family, in Abilene. The two women returned home Monday.

Mrs. E. P. West and G. W. West returned home this week after visiting relatives at Baird.

Mrs. Bobby Carson is hospitalized at the Amherst hospital and was placed in isolation. It was reported she suffered spinal meningitis.

Mrs. J. C. Wells of Muleshoe visited with Mrs. E. P. West last Thursday.

NURSING SCHOLARSHIP FUNDS ALLOCATED

Northwest Texas Hospital School of Nursing in Amajillo has received \$28,439.00 in loan fund money and \$34,260.00 in scholarship funds for nursing students. An additional \$72,364.00 has been awarded through capitation funds for school improvement. Mrs. Marilyn Dyer, Director of the School, stated this money would be used to expand the Advanced Standing Program for Licensed Vocational Nurses and to further develop an auto-tutorial laboratory.

The deadline date for enrolling in the second year of the Nursing Program is July 21, 1972. Students who have completed one year of college work are eligible to enroll for the second-year nursing courses.

Freshmen students who will enroll in the college of their choice for the first year of the Nursing Program should contact the school for information on the Loan Fund and Scholarship Program.

The first class of Licensed Vocational Nurses who were granted advanced standing completed the Nursing Program in May 1972. Mrs. Dyer stated this was an outstanding group of students who ranked scholastically among the highest in the class of 90 graduates.

for a while, which included Circle Back, she came back to Tech and earned an M.S. degree in 1949.

One of the highlights of her career at A & I was to have the university recognized by the American Association of University Women, her work with Cap and Gown, a junior-senior honors society, and her efforts in bringing Alpha Lambda Delta, a freshman honor society, to the A & I campus.

For 21 years she has served on the Student Union Governing Board. During her career she has served on numerous faculty committees, is still advising the Association of Women Students and once sponsored the A & I cheerleaders from 1951-64, as well as many other accomplishments.

The dean is listed in Dictionary of International Biographies, Texas Women of Distinction, Who's Who of University Women, Who's Who of American College Presidents and Deans, Who's Who of the South and Southwest and Personalities of the South.

Mother of two children, James Gaston Bishop of Oklahoma City and Cara Juan Bishop Schuster of Muleshoe, Tex., Dean Bishop has five grandchildren, three girls and two boys. She is the sister of Mrs. Edna Bellamy of Sudan.

Dean Bishop has no plans for the future and continues her daily work as dean. Her co-worker, J. E. Turner, dean on men, summarized her 22 year A & I activities when he said, "She is always looking around for some way to do something nice for them—the people that she works with—and for the university girls as well."

TWO STUDENTS ATTEND STUDENT COUNCIL WORKSHOP

Two Sudan students were among the 130 student leaders from 27 Texas high schools who attended the one-week Texas Association of Student Councils Workshop at West Texas State University last week.

They were Pat Hedges and Phyllis Ray. Mitzi Trussell served as secretary of the workshop.

The workshop participants attended classes which dealt with duties and responsibilities, projects, group dynamics and leadership, communication and public relations and aims and objectives. In addition, guest speakers discussed problems such as drugs, understanding other students, why some students drop out of school and financial aid for college-bound students.

A "Swap Shop" was held to give the students an opportunity to discuss and share school problems with each other. The participants found that many schools face the same problems and most agreed that apathy is the most common problem.

"Invitations" —to Burglars

"Most people ask to be robbed. Don't make it easy for the thief."

That is the message of a new 16mm film titled "The Invitation" which is available on free loan to community groups and television stations throughout the country. The 13½-minute color motion picture is presented by State Farm Insurance Companies.

The film shows how people carelessly and unknowingly "invite" burglars into their homes, apartments and businesses—and suggests ways to stop the intrusions.

"The Invitation" is being distributed by Modern Talking Picture Service film libraries throughout the country.

"People hate to see a poor loser or a rich winner and sometimes both."

NOTICE

Notice is hereby given that the Sudan Independent School District is offering for sale two used school buses and one used pickup at its next regular meeting, August 14, 1972, at 8:00 p. m., in the Superintendent's office on the School Campus. Offers to buy will be by sealed bid only.

The buses for sale are 1962 Chevrolets, Ward Bodies, 48 Passenger, and in good condition. The pickup is a 1950 Ford. Inspection of the buses and pickup for sale may be made at the school bus garage.

The Board reserves the right to reject any or all bids if in their opinion it is not to the best interest of the School District to accept the bids offered.

Further information regarding the sale may be obtained by contacting Supt. Kenneth Noles, Sudan Public Schools, Box 247, Sudan, Texas 79371.

Weed Control Discussed

Solutions to problems of weed control, especially water grass in High Plains grain sorghum fields will be sought in a new study to be conducted by High Plains Research Foundation scientists.

The study to find ways of controlling water grass is financed by a \$4,250.00 research grant by Texas Grain Sorghum Producers Board and will be established on farm-size acreage on the Foundation's Steine Farm east of Plainview.

According to Dennis Mooney and Jim Schrib, scientists in charge of the study, herbicides labelled for weed and grass control will be used in seven-teen treatments on approximately two acre plots in both single-row and double-row grain sorghum.

Herbicides at varying rates will be applied preplant, pre-emerge and as a post directed layby spray. Herbicide treatments will be evaluated with and without cultivation.

The test is being conducted on the Steine Farm to provide acreage that will be comparable to a normal farming operation. Since grass and weeds have been a problem at this location in the past, the area should provide an excellent test site for evaluation of all treatments. "We don't have to provide an artificial water grass growth for the study," Mooney said.

Another objective of the test is to determine which herbicide or rates of herbicide would give adequate weed control in the grain sorghum and allow planting of small grains immediately following harvest.

OPS REPORT

The Texas Highway Patrol investigated six accidents on rural highways in Lamb County during the month of June, according to Sgt. Thurman Keffer, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and two persons injured.

The rural traffic accident summary for this county during the first six months of 1972 shows a total of 45 accidents resulting in one person killed, and 30 persons injured.

The rural traffic accident summary for the 60 counties of the Department of Public Safety total of 527 accidents resulting in 20 persons killed and 347 persons injured as compared to June, 1971 with 524 accidents resulting in 10 persons killed and 308 persons injured.

The 20 traffic deaths for the month of June, 1972 occurred in the following counties: Dallam and Lubbock, three each; Archer, Armstrong, Bailey, Childress, Floyd, Hale, Jack, Montague, Parker, Terry, Wichita, Willbarger, Wise, and Young, one each.

Cleanable Baseballs Used in Little League

Industry has gone to bat for the Little League and has come through with a winner, a new baseball.

The approved baseball features a solid cork and rubber center and a new cover dubbed Syn-Tann.

Syn-Tann is a type of vinyl-coated fabric developed jointly by Dudley Sports Co., a division of Athlone Industries, Inc., and Uniroyal, Inc.

The result of the cooperative effort is a ball which is 20 to 25 per cent less expensive than a traditional ball and which further reduces costs simply because of its durability. The cover of the new ball, according to Dudley is washable. It is also scuff and water resistant. The whiteness of the baseball outlasts the traditional ball and the non-slip grip and feel of the ball rivals the traditional version, according to Charles "Budd" Gilbert, president of Dudley.

Now, if someone would invent a way to make Little League boys more cleanable...

FEDERAL FUNDS GRANTED FOR FAMILY PLANNING

Governor Preston Smith today announced his approval of a supplemental community action grant of \$22,600 in federal funds to South Plains Community Action Association, Inc. in Levelland for Family Planning.

The grant is funded under Title II of the Economic Opportunity Act, and is effective July 1, 1972, through Feb. 28, 1973.

Funds will be utilized to upgrade present Family Planning program which encompasses community health projects involving education, counseling, medical examinations and supplies and instruction in the full range of family planning methods.

Q. Looking forward to seeing your team on TV's Pocono 500. How does auto racing help me, the average driver?

A. By serving as a testing and improvement ground for auto products. For instance, 500 miles at Pocono is like 50,000 miles on a highway. One company, Castrol, is now marketing the fine GEX motor oil and Hypo H lacing gear oil used at Indy and Pocono by my superstars Mario Andretti, Al Unser and Joe Leonard.

Q. Hard driving saves time, but costs money. Explain?

A. Recently, two identical cars tuned to similar specifications were used in a 238-mile highway test. The driver of one car was instructed to drive as hard as possible, consistent with safety and traffic regulations, but not to exceed 70 m.p.h.

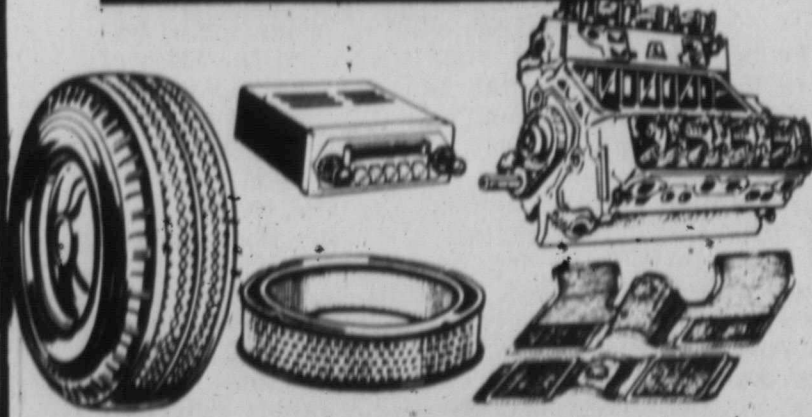

The second driver was not to exceed 50 m.p.h. and to move with traffic rather than try to get past it.

Because of heavy city traffic and 35 m.p.h. speed limits, the cars stayed within sight of each other for the first 18 miles. On the open road, of course, the fast car moved ahead steadily, and at the finish was 40 minutes ahead.

But the cost in fuel, tire wear and brake wear made the fast drive \$1.77 more than the normal drive. This worked out to 4½ cents more per minute.

SUDAN

TIPS FOR OUTDOORSMEN

by Vern Sanford

EARLY WARNING OF STORM

Anytime you go boating, even for a short period of time, take along a small radio. Pocket-size will do.

Follow this habit, despite the fact that you will boat in an area with which you are thoroughly familiar, and you plan a strictly, pleasure-boat ride.

Make it a must to take along a radio anytime you dedicate a day to fishing—and definitely if you're planning to be out all night.

Why drag along a radio when you're going outdoors primarily to get away from things?

Well, one reason is that the radio could be worth its weight in gold, to you. A radio is fine for entertainment—but its wonderful as a weather indicator.

A weather indicator? No station broadcasts weather warning all day long!

Maybe not, but the static you complain about, is in many cases advance warning of an approaching storm. There are other reasons for static too, but those loud flashing, sputtering, heavy blasts of ear-splitting static reflect lightning in the area.

Static Is Your Cue

Not all static is indicative of a storm. Some comes from nearby elec-

tric transmission lines or faulty or ungrounded electrical equipment in operation. But sudden bursts of static are warning signs. A radio reacts to lightning long before you can see flashes.

To you who are afloat loud static is a warning to "look for storm clouds". As the static gets louder and more frequent it's admonishing you to up anchor, get moving and head for shore.

Many of us get so engrossed in our fishing that we are not very observing of what's happening about us.

Any storm can be dangerous, but if it's coming from the direction you have to travel it's doubly dangerous. In that event you're not racing with it but against it. And one thing for sure is—you can't outrun a 30-mile wind backed by a heavy rain and still drive the boat safely.

So, start early, be extremely careful on the way back—and tie down securely in your dock or on your trailer.

There's nothing safer than shore when you're in a heavy thunderstorm, unless it's inside a solidly built weatherproof structure.

Above all, don't gather under a tree. It's the most unsafe place to be in a thunderstorm.

ATTEND CHURCH SUNDAY

CHISHOLM-BAIN

Double Ring Wedding Vows Read

MRS. GARY JACK BAIN

The Sunray Baptist Church provided the setting for the wedding of Miss Elizabeth Ann Chisholm and Gary Jack Bain at 6:00 p. m. Saturday, July 22. Officiating the double ring vows was the pastor of the church, Reverend Roy Canada.

Parents of the bride are Mr. and Mrs. Gerald Chisholm of Sunray. Mr. and Mrs. M.O. (Jack) Bain of Sunray are parents of the groom.

Presented in marriage by her father, the bride was attired in a formal gown of white silk organza over white bridal taffeta designed with a fitted Empire bodice overlaid in Venice lace. Her neckline was shallow and her sleeves brief. Satin ribbon encircled the waistline. Lace flowers traced a pattern over the skirt. Her softly gathered skirt swept to back fullness and cascaded into a full chapel train entirely edged in Venice lace. She wore a Venice lace coil of flowers and sprays which held her full chapel length veil. For something old she carried a handkerchief belonging to her maternal grandmother. The handkerchief was a gift from the bride's mother when she was a small child. For something new, her dress; something borrowed, a pearl necklace belonging to the maid of honor; something blue, a garter that the bride's mother wore at her wedding. The bride wore a good luck coin in her shoe. She carried a Con-

tinental bouquet of white roses, white miniature carnations, white daisies, gypsophila, and lavender statice.

Attending the bride was Miss Rene' Markham of Sudan as maid of honor. Junior bridesmaid was the bride's sister Miss Charlotte Chisholm of Sunray. Bridesmaids were Misses Susan Gaston and Sharon Bevers, both of Muleshoe, and Miss Sheri Bain, sister of the groom, of Sunray. The bride's attendants wore lavender floor length gowns of georgette designed with a shallow neckline enhanced by a capelet falling over the arms. Their raised waistlines were enhanced by purple and white checkered ribbons which ended in a bow with streamers at center back. Their hemlines were softly flounced. They carried potpourri clutch bouquets of lavender, pink, white, yellow, and blue summertime flowers and wore fresh flower hairpieces. The mother of the bride wore a floor length gown of seafoam chiffon with matching accessories. She carried a pink-throated white orchid on her clutch bag. The mother of the groom chose a floor length yellow chiffon gown with matching accessories and wore a lavender orchid corsage.

The vows were said before a large, open Bible in front of a basket arrangement of white glads, white stock, pink roses, purple statice, daisies, and

baby's breath. The Bible was the family Bible that once belonged to the bride's late paternal great-grandparents, Mr. and Mrs. N.C. Chisholm of Littlefield. Pedestal baskets of the same mixed summer flowers were on each side in front of the choir railing. Two fifteen-branch arched candelabra and two seven-branch candelabra formed the background. The mother's pews were marked with mixed summer flowers and greenery.

Rodney Brewer of Sunray was best man and groomsmen were Shelby Taylor, Lanny Bilibrey, Dale Graves, and Gerald Chisholm, Jr., brother of the bride, all of Sunray. Ushers were Gary Noble of Sunray and Barry Crowe of Vega.

Flower girl and boy were the bride's niece, Elizabeth Pass of Lubbock and the bride's brother, James Chisholm of Sunray. They were dressed in all white and carried wicker baskets of mixed summertime flowers.

Mr. Winfred Walker of Sunray, soloist, sang "Wither Thou Goest" and "The Wedding Prayer" accompanied at the organ by Miss Kathy Gamblin of Sunray. Miss Gamblin also played other traditional wedding music.

Registering guests at a white organza covered table topped with a silver bowl arrangement of mixed pastel summer flowers and bride's book was Miss Linda Bain of Castle Rock, Colorado, cousin of the groom.

A reception was held in Fellowship Hall of the church following the wedding ceremony. The bride's table was laid with a white organza cloth that was made by the bride's maternal grandmother. A summertime Colonial arrangement of flowers in a silver epergne was the centerpiece and was flanked by silver candelabra holding white tapers. Serving the four tiered white bride's cake and punch from crystal and silver appointments were Mrs. Bobby Jack Markham of Sudan, Misses Andria Volk and Sharon Satterfield of Sunray, and Miss Carol Ann Chisholm of Littlefield, cousin of the bride. Background music was played on the piano by Misses Kathy and Karla Gamblin of

DAVE LLEWELLYN

What's the Use?

What if, when I die, I discover my life was useless, I accomplished nothing? I'm not fearing to fail exactly, but what if all of my successes turn out to be long term failures?

Will I have been worthless? Fear of futility — that it has all been a waste.

Current popular philosophy — existentialism — claims we must face honestly the ultimate absurdity of our lives. It recommends arbitrarily attributing value to some valueless action and wholeheartedly performing it. Self-deception (in the name of honesty) is what it is, but it keeps some people from suicide.

God's Plan

Traditionally Christianity has countered the fear of futility by asserting God's purposeful plan for the world. The first "spiritual law" taught by Campus Crusade for Christ is "God loves you and has a wonderful plan for your life." Meaning to life comes from living out God's purposes for us. We participate in God's total plan. We are valuable.

Yet how useful are we, really? Jacques Ellul, in his book, THE POLITICS OF GOD AND THE POLITICS OF MAN (Eerdmans, 1972) concludes with a chapter of "Meditation on Inutility" in which he questions man's usefulness to God.

God's plans will come to fulfillment whether or not any man cooperates.

God commands us to pray, even though He already knows our every thought and need. God commands us to seek wisdom, even though His thoughts are incomprehensibly higher than ours and the wisdom of the wisest men is foolishness to Him. God commands us to make disciples of all nations, even though men are drawn to God not by our preaching of the Gospel but by the Holy Spirit, Whom we do not control.

God allows us to participate in His plan, but He does not need us. He has indeed a plan for our lives, but if we reject it the plan for the world will not be affected.

Strictly speaking, then, aren't we useless?

Yes, but so what? Jesus told us, as Prof. Ellul points out, that we should conclude for ourselves that "we are unworthy servants" even after doing all God commands us.

Invaluable

Unworthy, yes, but worthless? Not at all. God loves us. That alone makes us valuable.

Our uselessness, in fact, is a blessing. We are responsible only to do as we have been told: God is responsible for results.

There need be no tension, no fear of underachieving, no anxiety that God's work will falter because of us. If we simply do as we are commanded, we are free to enjoy God.

Useless but invaluable, by God's love.

Personal

Visiting in the home of Mr. and Mrs. Radney Nichols over the Fourth of July holidays was their son, Charlie, and Miss Jennifer Ball of Dallas.

Larry May returned home three weeks ago from National Camp and has enrolled at Tech for the present summer term. His home guard unit is stationed in Lubbock where he will attend monthly meetings.

TIPS FOR OUTDOORSMEN

by Vern Sanford

Trailer Care Will Get You There — Safely!

Inexpensive Insurance
If you prefer nylon rope as your winch line, you'll need some insurance. In that case get one eyebolt, four small cable clamps, a three-foot length of 1/4 inch steel cable, plus a tiller cable clamp (or an eye hook). Then:

- Affix the eye bolt to the slanting beam that supports the winch pole . . .
- Attach one end of the 1/4 inch steel cable securely to the eye bolt, with two of the four cable clamps . . .
- Then, while the boat is in its proper position on the trailer put the tiller clamp into the bow eye and with the remaining two cable clamps attach this "safety" cable securely to the tiller clamp—allowing just enough slack in the cable to permit easy release of the tiller clamp from the boat . . . and
- Finally, cut off the excess cable.

Add Finishing Touch
For a real neat job wrap some water-resistant electrical tape heavily over both ends of the steel cable, including the four cable clamps. This not only keeps the sharp ends of the cable from scratching someone (including yourself) but also prevents unraveling of the cable. Also keeps bolts and nuts from rusting as well as working loose.

This short cable attachment . . . is your insurance in case the nylon winch line breaks.

It will prevent your boat from sliding off the trailer while-in transit. But it won't prevent the nylon rope from breaking while winching your boat in from the water.

Stop Bouncing Boat
Despite the security of the customary rear-end transom tie downs, there is still the problem of a bouncing boat. So, at about the middle of your boat run a wide, webb belt beneath your trailer, up the sides of your boat and over the gunnels to strap your boat firmly to your trailer.

Many a boat bottom has been damaged and even bowed or punctured because the boat bounced off the rungrs and came into contact with the metallic ends rather than the soft sides of the rubber roller guides . . . or the rollers were not in proper position to begin with.

Protecting Transom
Those extra large rubber rollers on your trailer, directly under the stern of your boat, are not there solely to guide the center of your boat down the middle of your trailer. They are there also to withstand the heavy weight at the stern of the boat. See that the transom rests directly on these rollers.

Lastly, raise your motor, tilt it across the transom and lock it in that position. This is essential if you are to drive through areas where there are high centers, rocks or other objectives that might damage the prop and also the transom.

Ready your boat and trailer carefully for the trip . . . feel safe . . . and have fun.

"When my brother Richard and I toured Texas recently we discovered a whole new attitude on your highways. It's called driving friendly. No more horns honking. No more tires screeching. Driving friendly. Just good people going about their business. Keep it up."

Karen Carpenter

THE STARS DRIVE FRIENDLY

"I admit I do enjoy a nip every once in awhile. But I never drink when I'm going to have to do the driving home. If you plan to drink, let someone else drive. That's just one more way to drive friendly."
—**Ed McMahon**

"Speed on the highway usually has only one end zone... an accident. Try driving friendly. Keep your speed down. You'll make it to the goal line every time."
—**Bob Hayes**

"My natural beauty usually attracts so much attention that drivers take their eyes off the road to stare at me and they run into telephone poles and fire hydrants. It's a mess. But you Texans keep your minds on your driving. You don't give beauty more than a quick glance. You drive friendly."
—**Phyllis Diller**

"When somebody behind you wants to pass, pull over to the right and let him by. That's driving friendly."
—**Charley Pride**

"There's nothing the Lettermen enjoy more than putting together a little close harmony. On the highway we make harmony by blending in with traffic. Driving Friendly to make it all work together."
—**Gary Pique**
of The Lettermen

AREA SERVICEMAN IN WIMBLEDON TENNIS MATCH

First, it was the U. S. Army's Stan Smith bringing home the men's singles championship from Wimbledon. Now, area tennis fans can pin their hopes on another Army player's chances to bring home a major tournament victory to Lubbock and the South Plains.

He is Col. Albert J. Geraci, professor of military science and officer in charge of the Army ROTC detachment at Texas Tech University.

Col. Geraci has been selected to compete in the All-Army Tennis Championship Tourna-

ment to be conducted July 19-29 at Fort Meyer in Washington, D.C. Considered one of the top senior amateurs in the nation, Geraci will be competing for his second win at the All-Army Tournament, having captured the senior division singles title in 1970.

Two senior winners of the upcoming Army tournament in Washington will advance to the interservice competition to be conducted this year at Pensacola Naval Station, Fla., July 31-Aug. 4.
