## WOODWORK

by dalton

SOME OF THE publications we get in the mail are sort of wasted on us, not because they aren't good ones, or well written, but because they deal with specific areas which I know little about.

Among the things we get regularly are a magazine on architecture (I built a storage house once, but the door fell all to pieces later. It didn't matter much, because you couldn't close it anyway). We also get the purple martin newspaper, and a variety of farming publications.

As most of my readers know, I'm not exactly this community's answer to John White. (I tried to think of some one person around who stands out as a top authority on farming, and couldn't come up with any names. And I'll be dogged if I mention Duane Howell in my column).

I glanced through the Grain Sorghum News this last week. One ad is headed "How to turn your ripper plow into a hard-nosed stubble mulcher in two easy steps" which doesn't mean much to me. Another proclaimed "Anhydrous Ammonia", which I used to think was some kind of respiratory disease peculiar to farmers. Still another says "You need the Crop-Up long snorkel pickup guide". I guess a grain sorghum grower might need one, but I wouldn't even know what to feed it.

I don't ordinarily get the Texas Senior Citizens newspaper, but someone sent me a copy last week with a request to reprint from it an article about homestead taxes. The article was too lengthy to reprint, but it was in favor of a proposed constitutional amendment (No. 6) to give a \$3,000 assessed evaluation tax exemption to those 65 years of age or older on all ad valorem taxes on their homesteads.

That sounds okay to me. The older I get the more sympathetic I am to the needs of older persons.

KNOTHOLES IN THE WOODWORK: Texas State Dept. of Health says there are experimental cases on record where human subjects, by drinking great quantities of water to sustain perspiration and stripping to the waist to facilitate evaporation, have withstood temperatures up to 260 degrees for extended periods without suffering ill effects. A notice that the South Plains Genealogical Research Workshop will be conducted in Lubbock Aug. 19 reminds me of something Bob Hope once said. He said in tracing his lineage he discovered his great-grandfather must have been quite a fighter. "He was still swinging three minutes after he died."...The Texas State Teachers Assn. mag says a really modern western would be one showing the hero riding back and forth in front of the saloon trying to find a place to put his horse.

## PERSONAL

Mrs. W.D. Pryor recently underwent surgery in the Methodist Hospital. She is the mother of Mrs. Joe Fisher.

## Named To Honor Roll

Richard Lee Black was among the 394 students of the College of Social and Behavioral Sciences at The University of Texas named to the spring honor roll, made public by Dean James W. McKie.

In constructing the honor roll, account is taken of both the quantity and quality of work accomplished by the student as shown by reports of instructors.

To be listed on the honor roll a student must earn at least 52 grade points during the semester passing all courses. Total grade points are calculated by multiplying the number of semester hours undertaken by the value of each grade. (A equals 4 points.)

Black is the son of Mr. and Mrs. Richard Black, Rt. 1, Sudan.

## DOGS TO BE VACCINATED

A dog vaccination, sponsored by the Sudan Volunteer Fire Department, will be held Thursday afternoon from 3 - 5 p.m. at the fire station.

Dr. Jerry Gleason, veterinarian, from Muleshoe, will give the vaccinations.

A fee of \$2.00 for females, and \$1.00 for males will be charged.

## Bryant Named To College Faculty

Dr. Thurmon E. Bryant will be Professor of Religion and Director of In-Service Training for the 1972-73 school year at William Jewell College in Liberty, Mo. according to Dr. Bruce R. Thomson, dean. The supervised in-service training is a new program at Jewell for church

Angela Beavers was honored with a hot dog party on her fifth birthday, Saturday, in the home of her parents, Mr. and Mrs. Gaylon Beavers. Attending were Shawnda Masten, Sherry Powell, Kelly Freeman, Anna Marie King and Sharla Harrison, and the honoree's sister, Leshia.

hind-the-scenes activities. Both performances of the rodeo will begin at 2:30 on Sunday and Monday afternoons with music provided by the Boys Ranch band. An added attraction will be big bar-be-que sandwiches that will be prepared and sold by the boys for only \$1.00. The rodeo is also a traditional homecoming for the more than 2,500 boys who have lived at the Ranch since it was founded by Cal Farley in 1939.

Reserve box seat tickets for \$2.50 are available at the Boys Ranch office, 600 West 11th Street in Amarillo, or can be obtained by writing to Cal Farley's Boys Ranch, P.O. Box 1890, Amarillo, Texas, 79105. General admission will be \$1.50 for adults and 75¢ for children.

## HIGH SCHOOL GIRLS TO HOLD ICE CREAM SUPPER

An ice cream supper for all Sudan High School girls will be held Thursday night at 7:30 p.m. in the Community Park, located across the street from the school.

## BICYCLE STATISTICS REPORT BY INSTITUTE

Bicycling? "Ride on," say more and more Texans who have switched to the two-wheeled vehicle for cheap, clean and healthy transportation.

It is a now solution to some of the state's social problems, but the bike-riding phenomenon is not without its own problems. The tremendous growth in the use of the bicycle has been accompanied by a similar increase in biking accidents and fatalities, says the Insurance Information Institute.

The problem could become far worse, warns the Institute. Bicycling is more than just a flourishing craze. It is clean recreation, good exercise, economic transportation and will reach new heights in popularity.

At present levels of popularity, the injury and death toll from cycling mishaps is high. Texas had 31 persons killed and 1,780 injured as a result of 1,855 bicycle accidents in 1971. Early figures show that 1972 cycling accidents and fatalities are likely to be even higher.

Statistics show that in most bicycle accidents the cyclist violates a traffic law. This inattention or failure to yield the right of way accounts for the largest number of mishaps, according to the Institute. In less than one-third of bike accidents, the motor vehicle driver violates a traffic rule or regulation.

Rural bicycling accidents generally are more severe. Though most accidents occur on city streets, more than 50 percent of the fatalities and a large percentage of the serious injuries occur in rural areas.

Bike riders should obey all the traffic laws and familiarize themselves with safety precautions of bicycling, the Institute suggests.

At the same time, the Institute encourages motorists to watch out for the bike rider.

## BOARD MEET HELD

A hearing of the 1972-73 school budget was conducted at the regular meeting of the school board of trustees of the Sudan Independent School district Monday night, August 14.

The budget was approved as well as contracts awarded to Beverly Thurman and Betty Wilson. The leave of absence of Mrs. Georgeann Rasco was also approved.

Other action taken by the Board was approval of superintendent's financial report for the month of July, expenses of

County-Wide In-Service Workshop, and the amended budget for the 1971-72 school year.

Bus bids were accepted on the sale of two buses, with a discussion on gasoline bids for the 1972-73 school year.

A change in the school calendar was made by the Board, setting Labor Day as a school holiday.

It was announced that the school will purchase a Crother Football Reaction Machine.

Approximately 40-42 students are expected to enroll in the first grade this year. Immunization requirements for all beginners, as well as all other students enrolled in school, by Texas law are as follows:

Kindergarten and grades one through five: Vaccines are required for polio, three oral Sabin doses with the last dose since age four; diphtheria tetanus (DTP or Td), three doses with the last dose since age four; measles (rubeola), one dose or the illness through age 11; and rubella (three-day or German measles), one dose through age 11.

Grades six and above: Vaccines are required for polio, three oral Sabin doses to age 19 years with the last dose since the age of four, and diphtheria tetanus (DTP or Td), three doses with the last dose within ten years. In addition, immunization is required for measles and rubella through age 11 as outlined for the lower grades.

A combined measles-rubella vaccine is now available which requires only one injection.

All immunization should be completed by the time the student enters school. If this is not possible, students will be allowed to enter school if immunization against one of the diseases listed has been started.

Most students have completed the required program; however, school officials anticipate that some students still need the immunizations.

to make it possible for the disadvantaged who have the capability and desire to own their own businesses to become part of the business mainstream. Any resident of the United States, Puerto Rico or Guam may apply for an EOL Loan if he meets the requirements.

Maximum of the EOL program has just been raised by Congress from \$25,000 to \$50,000.

For further information regarding the EOL program, especially the new veteran benefits, contact the Small Business Administration, Lubbock District Office, 712 Federal Office Building, 1205 Texas Avenue, (P.O. Box 10107) Lubbock, Texas 79408, telephone number (806) 747-3711, ext. 462.

Sgt. Butch Dykes, son of Mr. and Mrs. Hubert Dykes has been transferred from Andrews Air Force Base, Washington, D. C. to Anchorage, Alaska. Dykes was home on leave during July before arriving at Elmendorf AFB in Alaska July 28, where he will be stationed for the next two years.

## BENEFITS HAVE BEEN ADDED FOR VETERANS

Honorably discharged Vietnam-era veterans have been added to a category of prospective and established small businessmen eligible for Economic Opportunity Loan programs from the Small Business Administration. Prior to addition of all Vietnam-era veterans, each veteran applying for EOL Loans was evaluated individually, according to SBA Lubbock District Director Philip J. O'Jibway. Now all veterans from the current Southeast Asian conflict are eligible, he explained.

### CONGRESSMAN MAHON TO BE IN HIS DISTRICT SOON

Congressman George Mahon advises that he will spend two weeks in his district following the recess of Congress on August 18. Congress will reconvene on September 5 and has set September 30 as the target date for final adjournment.

Mahon expressed the hope that the September 30 adjournment date could be met, but pointed out that much additional work

remains to be done.

In a statement, Mahon said, "I will present to the House in mid September the big defense appropriation bill totalling in excess of \$75 billion dollars. I predict that the appropriation work of the Congress will be completed in September, and that the sums made available for all purposes will not greatly exceed the President's total budget. There will be increases and decreases; in my judgment, however, some bills will be considerably in excess of requirements."

Mahon said that a lame duck session of Congress after the election would be a mistake and that he was pressing for final adjournment before the election date.

"My Lubbock and Washington offices will be open during the recess period," Mahon said, "but I plan to spend my time visiting about over the 17-county Congressional District."

### LAMB ACCIDENT REPORT FOR MONTH OF JULY

The Texas Highway Patrol investigated 17 accidents on rural highways in Lamb County during the month of July, according to Sergeant Thurman Keffer, Highway Patrol supervisor of this area.

These crashes resulted in five persons killed, and 21 persons injured.

The rural traffic accident summary for this county during the first seven months of 1972 shows a total of 62 accidents resulting in six persons killed, and 51 persons injured.

Region 5 of the Texas Department of Public Safety shows a total in July, 1972 of 713 accidents resulting in 34 persons killed and 388 persons injured as compared to the same month in 1971 with 564 accidents resulting in 38 persons killed and 324 persons injured.

The 34 deaths for the month of July, 1972 occurred in the following counties: Archer, 7; Lamb, 5; Lubbock, 4; Cochran, Farmer, and Wilbarger, two each; Floyd, Hockley, Jack, Young, Castro, Childress, Deaf Smith, Donley, Hartley, Moore, Potter, and Sherman, one each.

### SENATOR BENTSEN REPORTS ON LEGISLATION IN SENATE

The Senate is currently dealing with one of the heaviest crushes of urgent business in its history. Many important, controversial measures are awaiting action on the floor of the Senate. And a concentrated effort is underway to dispose of the bulk of them by late August, when the Congress will recess for the Republican Convention.

Between now and then Senators are scheduling lengthy daily sessions, six-days each week, so that we may give proper consideration to each of these vital pieces of legislation.

Included in the legislation the Senate is to consider during this marathon summer session are several landmark measures. Such proposals as Revenue Sharing will require exceedingly careful study, because of their long-range impact and their cost.

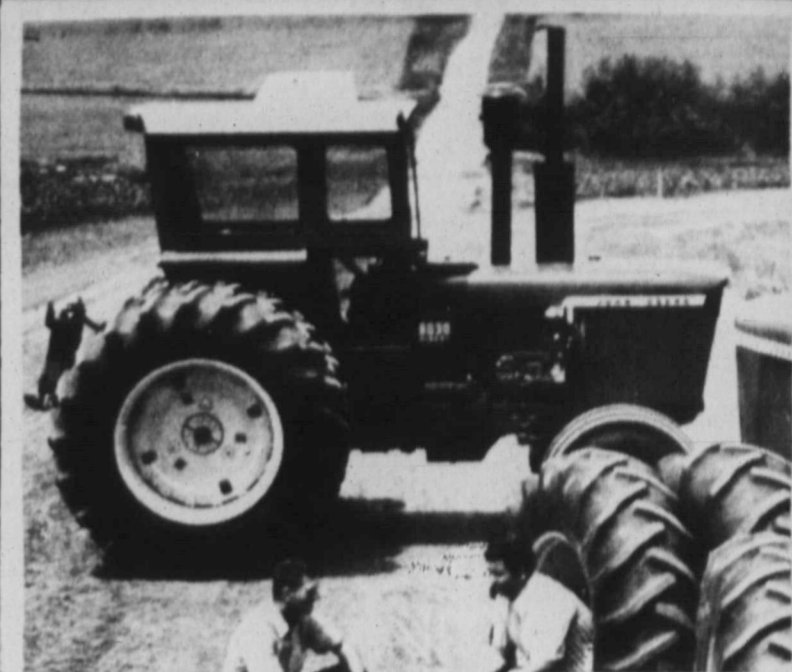

Other matters up for consideration, though not so precedent-setting, will also require careful scrutiny. These include the Maritime Authorization Bill; the Minimum Wage Bill; and the Marine Mammals Protection Bill.

Also under consideration are the two agreements President Nixon signed with the Soviet Union earlier this year. These are the Salt Treaty—a defensive weapons pact—and the Interim Agreement of Offensive Weapons. In addition, Senators must decide a large number of appropriations measures, including those

### WELFARE REFORM

One of the most important measures that will be debated in the Senate during coming weeks deals with Welfare Reform.

The United States certainly needs to reform the jumble of welfare programs that now exist. There are presently 1,152 separate welfare programs operating in this country. Each of them is different from the others. And all of them are in desperate financial difficulty, as costs sky-rocket.

During the last three years almost 4-million Americans have been added to welfare lists, bringing the total number of

welfare recipients to just under 15-million persons.

The cost of welfare now stands at some \$18-billion a year. This is an increase of \$6.5 billion during the past three years. And the rate of increase shows no signs of tapering off.

Though I strongly support true Welfare Reform, I am opposed to the "Family Assistance Plan", the guaranteed income plan, proposed by the Administration.

This proposal offers no real work incentives. Instead, it would actually penalize any American who wants to get off welfare and go to work.

During Senate debate I will support efforts to achieve real Welfare Reform.

Wherever you happen to be, there'll be year-round residents as concerned about the quality of their local environment as you are about yours at home. They'll appreciate your thoughtfulness.

Here are a few suggestions. Lest the laundromat, where you stop to do your wash, does not dispense phosphate-free detergents, pack your own supply.

Instead of using an assortment of cleaning products, many of which contain phosphates or other questionable ingredients, use baking soda for cleaning, scouring and shining. It's pure bicarbonate of soda which occurs naturally in many bodies of water. And the space, thus saved, will be especially welcome aboard recreational vehicles where space is at a premium.

Also welcome will be soda's power to neutralize odors. An open package stored in the refrigerator or ice chest keeps food smells from collecting, while a couple of open packages left around your rig when it's not in use thwarts that persistent problem...mustiness.

# COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

Plains Cotton Growers, Inc., Lubbock-based commodity organization with members in 25 High Plains counties, has budgeted \$173,500 for 1972-73 activities in behalf of High Plains cotton and cotton producer interests, according to Ray Joe Riley of Ham PCCG President.

The July-June 30 budget was reduced in the 1971-72 budget level of \$199,450. Riley said "It is a lean budget, designed to bring the organization's outgo more in line with its income without curtailing benefits to the membership more than is absolutely necessary." PCCG is primarily supported by 15 cents-per-bale dues from cotton growers, and revenue was greatly reduced by the short crop of only 1,279,000 bales harvested in 1971-72. Average annual production from the 25 PCCG counties for the previous 10 years is over 1,800,000 bales.

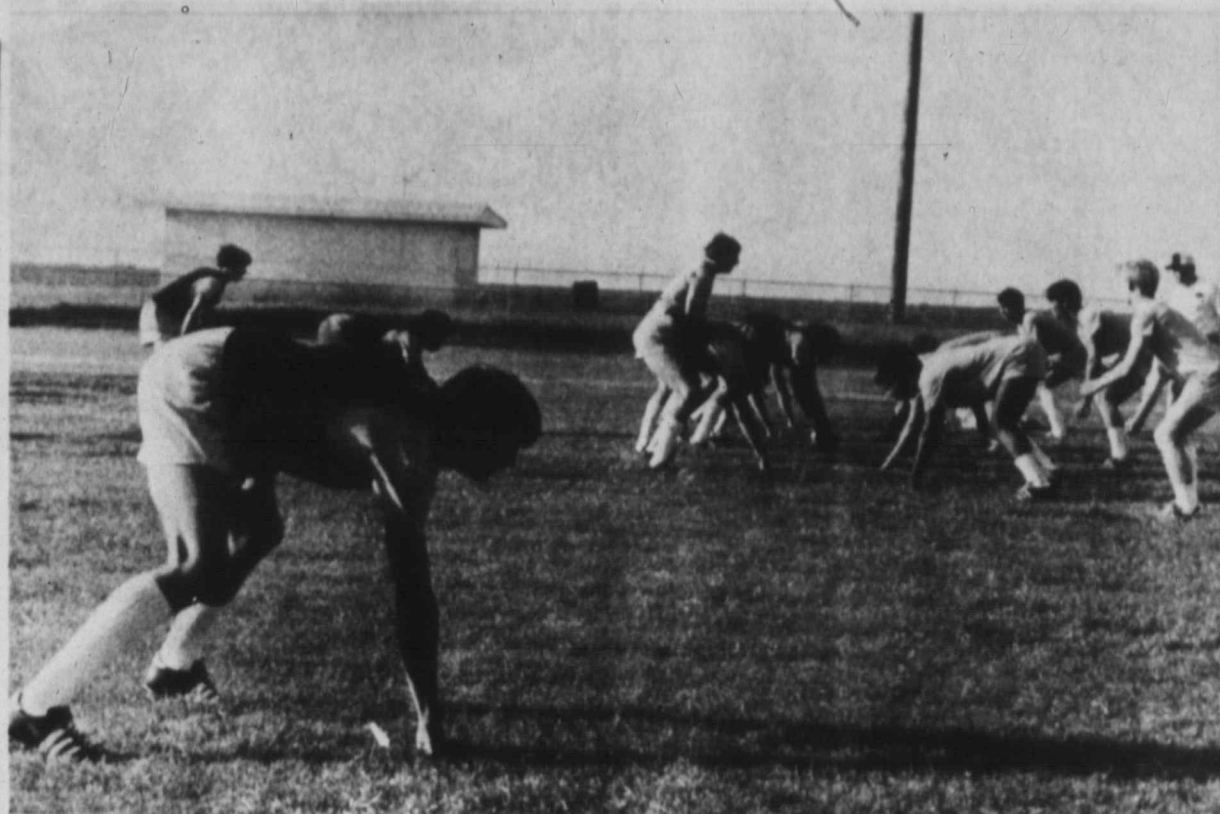

PCCG money is spent to improve the conditions under which High Plains cotton is grown and marketed in a number of ways. Included are production research, legislative and administrative

representation on cotton-related matters in Washington and Austin, advertising and promotion with domestic and foreign cotton spinners, fiber research and services to domestic and foreign textile mills.

Finance Committee Chairman Lloyd Cline of Lamesa said "We believe we can operate in 1972-73 on this reduced budget without seriously impairing our long range objectives, and we hope to get back to normal with a bumper crop in 1972."

Biggest cuts in the budget from last year's figures came in two areas--agricultural research, and advertising and public relations. Considerable money is now coming to established research institutions in the area from Cotton Incorporated, the national producer arm of the cotton industry supported by the dollar-a-bale program. An estimated \$175,000 is allocated by Cotton Incorporated for production and research relating primarily to High Plains needs.

"For this reason," Riley said, "our research grants-in-aid were reduced from \$23,950 in 1971-

72 to \$16,000 this year. With limited funds available, we felt more of the producer's 15 cents per bale on the Plains could be used for other needs, and that the \$1 per bale that goes to Cotton Incorporated from our producers here could carry a bigger share of the agricultural research load." What we spend for agricultural research now, he continued, will be "seed money" for promising research when funds can't be had from any other source.

### Swiss Group Offers Consumer Assurance

A safeguard for American shoppers has been introduced by the Swiss Industries Group, called "consumer assurance."

Member firms from Switzerland, which sell products and offer services in the United States, have pledged to maintain traditional high standards of Swiss quality.

A spokesman pointed out that such a preventative approach is reassuring also to organizations whose resources and manpower are committed to providing consumer protection. Other trade associations were urged to persuade their members to give buyers assurance of product satisfaction as a way of supporting consumer interests.

Members of the Swiss Industries Group subscribing to the code of "consumer assurance" are Watchmakers of Switzerland, Swissair, Swiss National Tourist Office, Switzerland cheese, Swiss Bank Corporation, Tobler Chocolate, Nestle Co., Swiss wine, and drug manufacturers Ciba-Geigy, Hoffman La Roche, and Sandoz-Wander.
