

## City, County Give Reps Big Cushion

Friona and Parmer County voters turned out in heavy numbers for a non-presidential voting year to help return Senator John Tower to Washington and to favor Congressman-elect Bob Price.

### FINALE Chiefs Lay For Memphis

The Friona Chieftains will have an opportunity to even their 1966 season record and finish with an "even-Stephen" slate of 5-5 Friday night, although to do it, they will have to beat the team which is bidding for a clean claim to the title and playoffs.

The Memphis Cyclones, leading district in their first year of competition in conference AA, Memphis was not even mentioned. Yet, going into the final week of the season, the Cyclones are the only team to have only one district loss.

The two teams have met on only one other occasion in football. That was in 1963, Coach Light's first year at Friona, when the Chiefs downed the Cyclones, 33-14 in a non-district tilt at Memphis.

Should Friona beat Memphis and this cause a two-way tie, Memphis would represent the district in playoffs, having beaten all the teams it could tie with. However, should a three or four-way tie result, a coin-toss will decide the representative, according to district rules.

Coach Don Light said this week that the Chiefs were going to be "ready" for the season finale, although they expected one of their toughest games of the year.

"Memphis may have been lucky in winning some of their earlier games this year, but they have improved with each game and now they're really tough," Coach Light said in summing up Friday's game.

The Cyclones have more speed than any team Friona has met. This is borne out in the fact that included on the Memphis team are four players, all colored, who won the state mile relay title a year ago, in a 3:21 clocking.

Memphis runs an "I" formation. No drastic changes are foreseen for the Chiefs although Light plans to use a "senior" and an "underclassman" backfield. On the senior unit will be Ted Renner, Jimmy Grimsley, Bobby Jordan, and Joe Garcia, a sophomore helping the upperclassmen fill out the foursome.

On the "younger" group will be Johnny and Eddie Barker, Tony Perea and Larry Graves. The two units will allow coaches to see which can move the ball better.

Seven of eight precincts voted for the two winning candidates. Only at Oklahoma Lane was there an exception. In Friona, Tower outpolled Waggoner Carr, 446-226. Bob Price won by a 2.66 to 1 margin in Friona, 476-179.

Countywide, the vote went to Tower, 1084 to 651 and to Price 1161 to 569.

A total of 1817 people voted in Parmer County, probably a record for a non-presidential year. Friona had 679 voters, but the Lazbuddie precinct is thought to have voted the heaviest, percentage-wise, where 252 votes were cast.

The county pretty well matched the voting as it went throughout the area and state, except for balloting on the 16 constitutional amendments. County voters disapproved of five amendments, whereas it appears only one (extending terms of Conservation District directors) were defeated statewide.

In the governor's race, John Connally was an easy winner. He out-pollled T.E. Kennerly, 439-190 in Friona and 1170-436 in the county. Other Democratic candidates also won easily.

BOB PRICE  
including lieutenant governor Preston Smith, Crawford Martin for attorney-general, John C. White for Agriculture Commissioner, Jerry Sadler for land commissioner; Robert Calvert for comptroller; Jesse James for state treasurer and Byron Tunnell for railroad commissioner. A complete tabulation of county voting can be found elsewhere in this issue. The amendment voting was as follows:

- No. 1. Tax on Farm Land, 906 for, 516 against.
- No. 2. Airport authorities, 581 for, 768 against.
- No. 3. Arlington State College, 634 for, 685 against.
- No. 4. Conservation directors, 505 for, 879 against.
- No. 5. County employee retirement, 537 for, 869 against.
- No. 6. State aid for employee survivors, 1017 for, 437 against.
- No. 7. Poll tax repeal, 816 for, 706 against.
- No. 8. Qualifications for voting, 747 for, 626 against.
- No. 9. Larger appeals court, 803 for, 544 against.

- No. 15. Aid to handicapped, 1029 for, 399 against.
- No. 16. New Legislature's induction, 1041 for, 287 against.

## Grid Champ Picks 15 In Contest

For the second time this year, an out of town (mailed in) entry was the winner in the 9th week of the Friona Star's football contest the past week.

Emmett Tabor of Bovina, a former grand prize winner in that city's contest, and John Renner of Friona became the first two contestants in the 1966 contest to correctly name as many as 15 games right.

Tabor was awarded first place money on the basis of the tie-breaker score, and Renner had to settle for second. Both missed the Dallas Cowboys-Philadelphia game, as did 142 of the 145 contestants entering the ninth week.

Contest director, Bill Ellis, warned contestants that three weeks remain in the race for one of three grand prizes. "Some contestants are dropping out, feeling as though the race is about over. It runs through Thanksgiving week, however, and there are still 48 possible points. None of the regular contestants are 48 points behind as yet," Ellis stated.

Winners of third place in the contest was another mail-in entry, from Mrs. Albert Johnson of Farwell. Mrs. Johnson, one of 17 contestants getting 14 games correct, but came the closest on the tie-breaker score.

Danny Murphree continued as contest leader for the fifth week and for the third consecutive week, kept a three point lead. The top three contestants, Murphree, Dennis Howell and Dale Houlette, remained "status quo", as each picked 14 games correct.

Others getting 14 games were Wilson D'Cuffa, John Frazier, Dean Blackburn, Wendell Garner, Frank Castillo, Ray D. Fleming, Jack Clark, Francis Gabe, Otis Spears, Wright Williams, Jonell Sims, Edward White and Raymond Milner.

Grand prize winner in the 12-week contest will receive two tickets to the Cotton Bowl plus hotel accommodations and \$50 expense money. Second grand prize will be two tickets to the Sun Bowl game plus hotel accommodations and \$25 in expense money. Third prize will be two season passes to the 1967 Friona Chieftain games.

The contest is co-sponsored with the Star by 15 sports-minded Friona area businesses.

INDUCTED . . . Brig. Gen. Ross Ayers of Friona is shown receiving a plaque which signified his induction into the Texas Tech "Hall of Honor" from O'Brien Thompson, Amarillo, president of the Tech Dads Association, at a luncheon ceremony at Texas Tech Saturday. Ayers, a former Tech football star, was honored at ceremonies during the Tech-Oklahoma state game Saturday. (Tech Photo).

## Ayers' Classmates Recall Seriousness, Dedication

(Editor's note: Ross Ayers of 1301 W. 7th, Friona, was one of two Texas Tech graduates inducted into the college's Hall of Honor at ceremonies at the college last weekend. The following story was written by Bob Coppedge of the Lubbock Avalanche-Journal, and was submitted especially for the use of the Friona Star.)

Ross Ayers didn't make a "Big Splash on the campus," according to a classmate of 1932, "but you knew he was there. He stood out as a leader through sheer dedication."

The man who spoke those words, D.M. McElroy, 4318 W. 18th St., Lubbock had good reason to remember Ayers' determination. They fought for the light-heavyweight championship of Texas Tech.

"I knocked Ayers down three times in the first round," McElroy said, "and each time he got up and came back for more. I think he knocked me down twice in the next round. It went the distance with Ross winning on a decision."

It was during Ayers' days at Tech that he joined the National Guard, a step that was to lead him in the years to come to the post of Commanding General of the 36th Infantry Brigade, Texas National Guard. A veteran of World War II, he was awarded

the Silver Star, Bronze Star, French Croix de Guerre, the Victory Medal, ETO: Army of Occupation, Germany; American Campaign and American Defense.

Ayers didn't win any medals in his days at Tech, but he won the admiration of students and his teammates. Nancy Price, 1921, 25th St., who played end on the 1932 team while Ayers played guard, said, "the team thought the world of him, he was a team man all the way, a stickler for what was right at all times."

In his senior year at Tech, when the team was known as the Matadors, the picture of Ross Ayers was a familiar sight on the pages of the Toreador, Tech Student Newspaper. On the eve of the homecoming game against Baylor in 1932, the Toreador had this to say about him: "Ross Ayers, Matador captain, is a good reason why the line has been so good this season. This is Ayers' last year with the Scarlet football team. His leadership has been an inspiration to the club all fall."

At 180 pounds, he was called in the Toreador "the fightingest man on the squad."

In January 1933, he was appointed to coach the basketball team and "lead them out of the wilderness." The team had one of their most successful sea-

sons, winning 16 straight games.

G.B. Morris, 3612 46th St., says he knows the reason. "Ross was quiet and unassuming, but when he did talk, you knew that he meant business. He knew how to deal with people."

To point up this characteristic, Morris recalled an incident when Ayers was coaching the basketball team.

"There was a fellow on the team who wouldn't stay in for training," Morris said, "and Ross knew it. Instead of lecturing him, he put him a game one night and left in the entire time. The fellow's tongue was hanging out but Ross wouldn't send in a substitute. When the game was over, Ross asked him if he knew why he left him in so long. The fellow looked a little sheepish and nodded. Ross never had any trouble with him, or any of the others, after that."

J.V. Beauchamp, 3705 46th St., Lubbock, is another who remembers Ayers as a person who goes all the way. "He was, and is, a wonderful and dedicated person," Beauchamp said, "and honest as the day is long. The fact that he was elected captain of the football team shows in what high regard he was held."

AN EDITORIAL

Frionans  
Commended  
On Successes

Dear Editor,

This is in regard to the letter in the Friona Star dated November 3, 1966, concerning local prices:

Has the party given thought to the fact that if his or her employer did not make a just profit that they might not be drawing the wages that they do?

As far as prices for groceries and other commodities in Friona are concerned, they are well in reason with other cities. Granted that some of the specials may be cheaper for the purpose of enticing, but the overall regular prices are about the same. I found that Friona was a few cents cheaper on most items.

These small profits that our merchants make is not over 5% net on a few of the merchandise sold. The average would crowd 2 3/10 % to 2 8/10 % net profit per year.

If you the purchaser would watch for quality and not so-called quantity advertising and support your local merchants they could buy in larger quantities, therefore be able to buy cheaper and transfer this savings on to you.

If you would also consider the expense of your trips there and back you would find an extra substantial savings by trading at home.

Therefore the profits the merchants make and the savings you receive in return put into circulation here which helps our school, churches, and other civic need for our community.

As far as the credit! It is exceptionally bad here. Too much business is transacted on credit terms. The loss on bad credit is too high. If every business could collect what he has out on bad credit, this could be turned into movable stock to increase volume and profit instead of being a total loss to him. (Which means we could all pay our bills better.)

Now to the vote ("Rep. Ha Ha") comes back to the problem of prices. If both the Democratic and Republican would get away from the slogan, I vote for him because he is a Democrat or Republican, and vote for the man that has a satisfactory platform, that would benefit all the people rather than a minority group. Then we might be able to have a fair trade market and less free spend-

ing politicians. Therefore, cutting out unnecessary taxes and be able to put this country back on a Democratic basis instead of a socialistic one that we are fast becoming.

So my friends, if you want a better living, don't argue with your merchants, take it to your officials that you helped elect to office. If this doesn't help, remember you may need to vote differently in the next election. Haywood Vaughn

Dear Sir,

With the recent wave of vandalism caused by what is permitted on Halloween night, and because of two of my tires being punctured right in front of the high school the next night, I feel compelled to question why this malicious destruction be allowed to take place. Acts which would be punishable by imprisonment any other part of the year are expected and overlooked by local authorities and excused as being just kids' play. Teachers feel that they must endure these indignities as part of their job, and, as a result, do not complain about watermelons on their front porches, soap-marked cars, punctured tires and other mischievousness.

Why should we as public employees submit to this? I feel that the people who permit this are the same as the ones who laughed when they heard of the late president's death. When these acts are tolerated one night, and punished no worse than a slap on the hand is melted out to these people, of course, they are going to do it again when they know they can get away with it.

What sort of mentality would seek revenge for a low grade in such a way? Where do they first learn to snub their noses at authority? These are the sort of questions that run through my mind after a thirteen-hour day at school, five of which are with extra-curricular activities. Should I at the beginning of a teaching career look forward to a life-time of this at the whim of just anyone who takes a notion to do it? Of course, the answer to this question is ob-

"Success" is a term most of us have heard. It is a word that has become a common part of our everyday language. This fact alone denotes that we are living in a section of the country where day to day living is not a problem but a pleasure. Of course we have our share of irritations and what we think are major catastrophes but for the most part our lives are "successful."

We are not faced with the problem of food as we are in the heart of a great agricultural region. Some of the richest land in the world surrounds us and we point with pride to our beef industry.

The problem of large, poorly constructed apartment buildings with as many as twelve or more people crowded into what three or four should live, is not present. We are not faced with an alarming crime rate and do not worry about leaving the front door unlocked while across the street or down the block.

We have an abundance of rich spiritual and mental growth available for the taking with a heritage full of imagination, foresightedness and grim determination for constantly bettering our way of life.

We will continue to progress because we have a town interested in its future. M.K.E.

vious, but I can't do anything about it since they come at night like the cowards they are. But I do feel that something can be done about it, and will be, somehow. Yours sincerely, Gene Bruce.

Dear Editor:

Our sincere appreciation is being expressed to all merchants, business men, club members and individuals for

their cooperation in our drive to provide food for girls at Girlstown last week.

Your enthusiasm for the project added much to our efforts and your wholehearted support helped make it the success it was.

At the present time eighty persons are being fed three times each day and everyone knows 240 meals per day adds up to a lot of groceries.

May God Bless each of you. Friends of Girlstown.

Bicycle Quiz

Each year thousands of youngsters are killed or seriously injured on bicycles. It is therefore important that each person who rides a bicycle is aware of safety rules that may save his life. Are you? Take the following test and find out, true or false

1. A bicycle is considered a vehicle and should be ridden on the right hand side of the street.
2. Pedestrians do not have the right of way on sidewalks.
3. A bike in poor mechanical condition is safe as long as the rider is skilled.
4. Bicyclists should keep to the right when riding in the street.
5. Bike riders do not have to give hand signals when stopping or turning.
6. The faster you ride, the safer it is.
7. It is permissible to ride small children in baskets.
8. Handlebars should be loose so you can change position.
9. It is not necessary to stop at intersections if there is no traffic.
10. Persons riding bikes are subject to the same rules as motorists.

Each answer counts ten points. Grade your own test and see if you know all the safety rules. Remember, if you miss even one it could mean a serious accident for you.

## Library Receives Traveling Exhibit

Friona Public Library just recently received a special exhibit collection of recently published books for children for use during National Children's Book Week, Oct. 30 - Nov. 5.

Known as the State Traveling Exhibit of Children's Books, the Texas State Library collection is available on loan basis to interested schools, colleges and other groups for use during special occasions, as well as throughout the year. Since the program began in 1957, the Field Services Division of the Texas State Library has been responsible for the circulation of the exhibit books. Mrs. Marie Shultz is director of the Field Services Division which provides service to public libraries across the state.

During the nine year run, the exhibit collection has been handled by Mrs. Madeline Owens of the Field Services Division. Over 2,000 titles are featured in the collection which is furnished to the Texas State Library free of charge through the cooperation of the American Library Association, Children's Book Council, Inc. and the publishers.

From the collection, smaller exhibits are made up, ranging from 20 to 100 books. The ti-

ties featured in the collection range from gaily colored picture books for the very young through science and biography.

## Frionans Attend Relative's Rites

Mr. and Mrs. Weldon Dickson were in Fort Worth last week for the funeral of G.W. Wood, 35, brother of Mrs. Dickson. He died following a heart attack and was buried Saturday.

The Dicksons returned home Monday evening.

The tailorbird of Asia uses its bill as a needle and bits of fiber or grass to sew leaf edges into a sack, which it fills with wool, fibers and hair to make a soft nest.

**Frionans  
Commended  
On Successes**

Dear Editor,  
This is in regard to the letter in the Friona Star dated November 3, 1966, concerning local prices:

Has the party given thought to the fact that if his or her employer did not make a just profit that they might not be drawing the wages that they do? As far as prices for groceries and other commodities in Friona are concerned, they are well in reason with other cities. Granted that some of the specials may be cheaper for the purpose of enticing, but the overall regular prices are about the same. I found that Friona was a few cents cheaper on most items.

These small profits that our merchants make is not over 5% net on a few of the merchandise sold. The average would crowd 2 3/10 % to 2 8/10 % net profit per year. If you the purchaser would watch for quality and not so-called quantity advertising and support your local merchants they could buy in larger quantities, therefore be able to buy cheaper and transfer this savings on to you.

If you would also consider the expense of your trips there and back you would find an extra substantial savings by trading at home.

Therefore the profits the merchants make and the savings you receive is in return put into circulation here which helps our school, churches, and other civic need for our community.

As far as the credit! It is exceptionally bad here. Too much business is transacted on credit terms. The loss on bad credit is too high. If every business could collect what he has out on bad credit, this could be turned into movable stock to increase volume and profit instead of being a total loss to him. (Which means we could all pay our bills better.)

Now to the vote ("Rep. Ha Ha") comes back to the problem of prices. If both the Democratic and Republican would get away from the slogan, I vote for him because he is a Democrat or Republican, and vote for the man that has a satisfactory platform, that would benefit all the people rather than a minority group. Then we might be able to have a fair trade market and less free spend-

ing politicians. Therefore, cutting out unnecessary taxes and be able to put this country back on a Democratic basis instead of a socialistic one that we are fast becoming.

So my friends, if you want a better living, don't argue with your merchants, take it to your officials that you helped elect to office. If this doesn't help, remember you may need to vote differently in the next election.

Dear Sir,

With the recent wave of vandalism caused by what is permitted on Halloween night, and because of two of my tires being punctured right in front of the high school the next night, I feel compelled to question why this malicious destruction be allowed to take place. Acts which would be punishable by imprisonment any other part of the year are expected and overlooked by local authorities and excused as being just kids' play. Teachers feel that they must endure these indignities as part of their job, and, as a result, do not complain about watermelons on their front porches, soap-marked cars, punctured tires and other mischievousness.

Why should we as public employees submit to this? I feel that the people who permit this are the same as the ones who laughed when they heard of the late president's death. When these acts are tolerated one night, and punished no worse than a slap on the hand is melted out to these people, of course, they are going to do it again when they know they can get away with it.

What sort of mentality would seek revenge for a low grade in such a way? Where do they first learn to snub their noses at authority? These are the sort of questions that run through my mind after a thirteen-hour day at school, five of which are with extra-curricular activities. Should I at the beginning of a teaching career look forward to a life-time of this at the whim of just anyone who takes a notion to do it? Of course, the answer to this question is ob-

"Success" is a term most of us have heard. It is a word that has become a common part of our everyday language. This fact alone denotes that we are living in a section of the country where day to day living is not a problem but a pleasure. Of course we have our share of irritations and what we think are major catastrophes but for the most part our lives are "successful."

We are not faced with the problem of food as we are in the heart of a great agricultural region. Some of the richest land in the world surrounds us and we point with pride to our beef industry.

The problem of large, poorly constructed apartment buildings with as many as twelve or more people crowded into what three or four should live, is not present. We are not faced with an alarming crime rate and do not worry about leaving the front door unlocked while across the street or down the block.

We have an abundance of rich spiritual and mental growth available for the taking with a heritage full of imagination, foresightedness and grim determination for constantly bettering our way of life.

We will continue to progress because we have a town interested in its future.  
M.K.E.

vious, but I can't do anything about it since they come at night like the cowards they are. But I do feel that something can be done about it, and will be, somehow.  
Yours sincerely,  
Gene Bruce.

Dear Editor:

Our sincere appreciation is being expressed to all merchants, business men, club members and individuals for

their cooperation in our drive to provide food for girls at Girlstown last week.

Your enthusiasm for the project added much to our efforts and your wholehearted support helped make it the success it was.

At the present time eighty persons are being fed three times each day and everyone knows 240 meals per day adds up to a lot of groceries. May God Bless each of you, Friends of Girlstown.

**Bicycle  
Quiz**

Each year thousands of youngsters are killed or seriously injured on bicycles. It is therefore important that each person who rides a bicycle is aware of safety rules that may save his life. Are you? Take the following test and find out, true or false

1. A bicycle is considered a vehicle and should be ridden on the right hand side of the street.
2. Pedestrians do not have the right of way on sidewalks.
3. A bike in poor mechanical condition is safe as long as the rider is skilled.
4. Bicyclists should keep to the right when riding in the street.
5. Bike riders do not have to give hand signals when stopping or turning.
6. The faster you ride, the safer it is.
7. It is permissible to ride small children in baskets.
8. Handlebars should be loose so you can change position.
9. It is not necessary to stop at intersections if there is no traffic.
10. Persons riding bikes are subject to the same rules as motorists.

Each answer counts ten points. Grade your own test and see if you know all the safety rules. Remember, if you miss even one it could mean a serious accident for you.

### Library Receives Traveling Exhibit

Friona Public Library just recently received a special exhibit collection of recently published books for children for use during National Children's Book Week, Oct. 30 - Nov. 5.

Known as the State Traveling Exhibit of Children's Books, the Texas State Library collection is available on loan basis to interested schools, colleges and other groups for use during special occasions, as well as throughout the year. Since the program began in 1957, the Field Services Division of the Texas State Library has been responsible for the circulation of the exhibit books. Mrs. Marie Shultz is director of the Field Services Division which provides service to public libraries across the state.

During the nine year run, the exhibit collection has been handled by Mrs. Madeline Owens of the Field Services Division. Over 2,000 titles are featured in the collection which is furnished to the Texas State Library free of charge through the cooperation of the American Library Association, Children's Book Council, Inc. and the publishers.

From the collection, smaller exhibits are made up, ranging from 20 to 100 books. The ti-

ties featured in the collection range from gaily colored picture books for the very young through science and biography.

## WELCOME TO FRIONA

This week we welcome the Harvey Neals back to Friona. The Neals formerly lived in Friona, and returned early this fall to make their home here. Both are teaching; he is a fifth-grade teacher and she teaches the first grade. Harvey is a native of Brownwood and Vicki is from Stephenville. They both have their degrees from Howard Payne. The children are Glenn, six, Gregg, 18 months, and Joy, four.

### On The Farm In Parmer County

RONNIE MCNUTT  
County Agent

I would like to make a correction in last weeks column concerning the grain sorghum demonstration. The DeKalb variety should have been F-65 instead of F-56.

The Fertilizer Dealers Shortcourses held in Muleshoe on November 1 and 3 was very educational. Many of the dealers from Parmer County attended the shortcourse. Others attending were Bill Boling of F.H.A., and Eddie Willmon of SCS.

Tropics of the shortcourse were Nitrogen, Phosphorous and Micronutrients and how they affect plants and soil.

I would like to share with you some of the information gained at the shortcourse. First, I would like to give some facts about Parmer County as explained by Jim Valentine - Area Soil Chemist.

About 85% of the soils in the county are between the pH range of 7.4 to 8.3. This means we have mostly alkaline soil, 7.0 is neutral.

As far as organic matter is concerned in the county 66% of the soils have a 1.1 to 1.5% organic matter and 25% have a 0.6-1.0% organic matter content. Organic matter is the soils storehouse for Nitrogen. In the virgin state the hardlands contained about 2.0% organic matter.

The distribution of phosphorous levels in the county are figured on a pound per acre basis. 44% of the county soils run between 0-20 lb., 23% between 21-40 and 23% between 41-100 lb.

A cartoon by Ed Valtman, in the Hartford Times, shows one fish entitled "Wages" being swallowed by a larger fish called "Prices" and the two being swallowed by a giant fish called "Inflation." The giant fish "Inflation," should have been shown swimming in a big pool of deficit spending -- it thrives in such water.

All of this type of information can be found on the soil test report you receive from the laboratory.

Fertilizer sales have increased rapidly in the county since 1955. In 1955 - 1736 tons of fertilizer was sold and in 1965-677 tons were sold.

The following information concerning nitrogen was presented by John Box, Associate Extension Agronomist.

As much as two-thirds of the total uptake of nitrogen may occur during the first 60 days of the life cycle of cotton, corn and grain sorghum.

Functions of nitrogen in plants are as follows:

(1) Increase seed and fruit yield (2) Improve quality of leaf and forage crops (3) plentiful supply of N means higher protein content in grains such as milo and wheat.

Pale yellow leaves on the lower part of the plant that look burned are deficiency symptoms of nitrogen.

A good rule of thumb is the addition of 20 to 25 lbs. of nitrogen per ton of residue. This does not necessarily hasten decomposition of residues, but will keep soil nitrogen from becoming unavailable for the following crop.

Nitrogen can be applied in late fall or winter after soil temperatures fall below 55 degrees F.

Don't put heavy rates of nitrogen near the seed band. Next week some of the comments of the shortcourse concerning Phosphorous and Micronutrients will be discussed.

## SCD Announces Annual County Essay Contest

Parmer County Soil and Water Conservation District has announced that they will again hold an essay contest in connection with the Fort Worth Press 22nd State wide soil and water Conservation Awards Program.

The District Essay Contest is open to all boys and girls in Parmer County 19 years old or younger, in or out of school but not a high school graduate. Here is all you need to do to enter the contest:

## Fund Drive Off To Good Start

The Friona area United Fund drive held its official kickoff breakfast Tuesday morning, and by the end of the day, fund drive chairman Steve Messenger was still expressing optimism about the possible success of the drive.

"Several workers have already turned in their lists of

contacts, having contacted everyone on their list," Messenger said.

No official figure could be quoted as of the end of the "kickoff day," but Messenger said that by the end of the week a good appraisal of the 1966 drive could be made.

A good turnout of 31 people attended the kickoff breakfast at the Friona Women's Clubhouse.

We're still hopeful that Carr will choose to run for the Senate in 1970 against Ralph Yarborough. Had he done this in 1964, we might today have two good state senators.

When Mr. and Mrs. Wright Williams watched the Friona-Abernathy game last week, it must have been with mixed emotions. The Abernathy coach, Don Williams, is married to Jane's niece, Billy Rhodes, who did some scoring for Abernathy is Wright's nephew.

So, it was probably difficult to root against "kinfolks," however, knowing Wright and Jane, they probably had a good time of it during the first half, although their relatives got the last laugh.

Halloween is over and a good time was had by all -- that seems to be reports from many clubs, especially the Bovina 4-H Club. They had a fine "spook" party in the barn at the Magness home.

4-H LEADERS TRAINING IN FOODS is the next important activities for adult leaders.

November 29 - Bovina Bank Room - 1st Year.  
December 1 - Bovina Bank Room - 2nd Year.  
December 8 - Bovina Bank Room - 3rd Year.

For the older girls individual visits to leaders will be arranged later to discuss projects in Food.

Leaders for first and second year groups are needed in some Clubs - Please contact me if you are willing to work as a leader. It can be an awarding experience. Girls and boys learn by doing. Project development of the head, the heart, the hand and health of boys and girls. Projects and club work offers opportunities and experiences that prepares them for adulthood. Can a few hours a month be better spent?

TAKEN TO THE CLEANERS  
You may think dry cleaning

disinfects your clothes. It doesn't, say U.S. Department of Agriculture microbiologists. Some bacteria are able to live through the dry cleaning process. Few, however, can survive steam finishing and pressing. So, if you use a coin-cleaner, be sure to add the finishing touch to your clothes.

Do you sometime tire of the same foods week after week? Why not try something different but very good. Could become your favorite dessert - who knows?

WHOLE BAKED PEARS will easily become a family favorite. Core fresh pears and fill the cavity with your choice of cranberry sauce, mincemeat; chopped dates, nuts and coconut; a fresh jelly or jam; crushed pineapple, or a peanut butter-honey mixture.

Stand pears upright in a buttered casserole and add 1/4 cup water. Cover. Bake at 350 degrees F, for 30 minutes, or until tender. Serve pears hot with milk or cream, as desired.

## Hamilton To Attend State FB Convention

Harry Hamilton, president of the Parmer County Farm Bureau, will serve as voting delegate to the annual Texas Farm Bureau Convention Nov. 13-16.

The county delegate, along with some 800 delegates representing 202 other county Farm Bureaus across the state, will vote to decide Texas Farm Bureau's policies for the coming year and make recommendations on national policies to the American Farm Bureau Federation annual convention next month in Las Vegas.

Parmer County, in its county convention held Oct. 17, 1966 adopted policies on the local level and made recommendations to be presented during the state convention.

Guest speakers at the con-

vention of Texas' largest farm organization are Gov. John Connally, Walter Rudolph of Montgomery, Ala., American Farm Bureau Federation Vice-President and Jack Angell, Chicago AFBF Radio-TV director. They will speak Tuesday morning.

The convention begins Sunday, Nov. 13, with a Discussion Meet, a TFB Young Peoples activity. Vesper services will be at 6 p.m. followed by Talent Find, another Young Peoples event.

Texas FB President C.H. De-

Vaney of Coahoma and Waco will present his message to the convention Monday morning. Edwin Sanderson, Paris, TFB secretary-treasurer, will make his annual report during the same session.

## Cyclones Will Shoot For Undisputed Title

The Memphis Cyclones will attempt to wrap up the District title Friday when they invade Friona.

Memphis has a 5-1 district record, and can avoid any ties in the top-spot standings with a win over Friona. A loss would enable either Abernathy, Floydada or Dimmitt to tie Memphis. Last week Memphis slipped past Hale Center, 13-6. Abernathy, after trailing Friona by 21 points at halftime, came back for a 36-27 win; Dimmitt edged Olton, 7-0 and Floydada nipped Lockney, 21-0 in an old county rivalry.

This week's slate of games will ring down the curtain on a very interesting and heated eight-team race, which has been full of surprises.

Abernathy	2	4	2	25
Floydada	3	3	3	20
Dimmitt	4	3	3	18

### Wide-Open Game Expected When Tech Hosts Bears

Two advocates of wide-open football, Baylor and Texas Tech, collide in the Red Raiders' Jones Stadium at 2 p.m. Saturday.

Baylor's Terry Southall and Texas Tech's John Scovell are expected to hook up in one of the best pitching duels of the season. All signs but one point to a repetition of the 42-33 triumph Florida State managed over the Raiders here in October.

That exception is the revitalized Texas Tech defense. The Raiders have put together successive top-notch defensive performances to win from Rice 35-19 and from Oklahoma State 10-7.

On the other hand, both Rice and Oklahoma State relied on the run rather than the pass, Baylor's favorite weapon. Tech's crashing secondary, wary this week of the throw, may not be able to charge the runner with the same abandon of the past two weeks.

Baylor leads in the rivalry beginning with a 34-0 Bear triumph in 1929, by a 17-6 margin. One tie has been played. In Southwest Conference play Baylor leads 4-2. This season Baylor is 3-4; Tech: 3-5. A crowd of about 32,000 is expected.

## Jim Stokes Aboard Vessel

Ensign Jim Stokes, Nurses Corps, USNR, son of Lucy Mae Stokes, 907 Jackson, Friona, and Ben Stokes, was graduated from the U.S. Naval Officer School, a component of Naval Schools Command at Newport, Rhode Island, recently.

He is assigned to the hospital ship U.S.S. Havens, which is permanently moored at Long Beach Harbor.

Stokes was one of 109 students to complete an indoctrination course preparing them for responsibilities as a naval officer. Fifteen of the students were males. Under the recently adopted plan of male nurses in the corps, only 70 are currently serving.

The graduates accepted diplomas from Force Medical Officer Captain Edwin C. Sweney, who was guest speaker at the Newport ceremonies.

Jim Stokes is a 1964 graduate of Friona High School and graduated from Northwest Texas Hospital School of Nursing before enlisting in the Nurses Corps.

# Chiefs Succumb To 2nd Half Abernathy Rally

If their halftime leads had stood up the past two weeks, the Friona Chieftains would be going into their final game for the season with a 6-3 season mark.

However, as everyone knows, there are two halves to a football game, and unfortunately for Friona, the second halves of the past two games have proven to be nightmares.

This was especially the case at Abernathy last Friday, where the underdog Chieftains roared to a 27-6 halftime lead, only to see it slip away into a 36-27 defeat during the final half.

The Chiefs used three good breaks and an 85-yard kickoff return into their highest point total of the season - and ironically, they got their highest game score all within one quarter.

After battling to a 0-0 score after one quarter, Friona jumped ahead after a 41-yard punt by Ted Renner backed Abernathy up to the two-yard line. The Antelopes fumbled on the first play following the punt, and Friona recovered.

On the second play, Renner carried the ball over for the touchdown, and although his kick was wide, Friona led 6-0.

A few minutes later, Friona forced Abernathy to punt, and the Antelope kick was partially blocked. Friona took over on the Abernathy 34 yard line.

A pass interference penalty against the Antelopes more than offset a holding penalty against Friona, and from the 22-yard line Tony Perea slipped away on a nice TD jaunt. Renner's kick made it 13-0 with 5:13 left in the half.

Friona's third break was about to come. The Chiefs again held Abernathy and took over the ball. However, this time Friona was forced to punt, but it worked to their advantage. Abernathy's safety man fumbled the kick, and the Chiefs got the ball at the Abernathy 20.

Two plays after this, Renner lobbed a pass into the endzone, which Ray Lynn Murphree made a fine leaping catch despite being battered by the Abernathy defender, and Renner's kick made it 20-0, Friona.

Only 50 seconds remained in the half, but although fans didn't know it, there were still 13 more points to be scored.

Abernathy's Harry Mathis fumbled the kickoff at his own 20, but when the swift colored halfback finally found the handle, he ran wide and went all

the way, 80 yards for Abernathy's first touchdown, to cut the score to 20-6. There were 42 seconds left on the clock.

Friona was not to be outdone. Bobby Jordan fielded the next kickoff on his 15 yard line, darted to the left and went all the way down the sidelines, untouched, for the touchdown. Renner kicked, and it was 27-6, with 25 seconds left in the half.

Friona, which had played inspired defense during the first half, holding Abernathy to 15 total yards, simply couldn't stop the determined Antelopes in the second half.

Abernathy drove for its second score midway through the third period, with Mathis getting the score on a three-yard run. Fullback James Byers took a pass for two points to cut Friona's lead to 27-14.

Later in the quarter, the Antelopes cranked up on a 50-yard touchdown drive in only six plays. Mathis again scored from a yard out, and another pass for two points made it 27-22, Friona with 3:38 left in the quarter.

Abernathy, which had set up two Friona touchdowns by fumbling in the first half, took the

lead by recovering a Friona bobble. It came at the Friona 40, and the Antelopes covered the 40 yards in just four plays.

Quarterback Darrell Johnson passed to end Billy Rhodes for the final 15 yards, and although a running try for two points failed, Abernathy led, 28-27, with 10:02 left in the game.

Friona picked up two first downs and gained 50 yards to the Abernathy 35 before their drive bogged down. A controversial third down play featured the drive, as officials at first ruled the Chiefs had run out of downs at midfield.

After a big discussion, the Chiefs were allowed to have their fourth down, and punted. Abernathy then began an 80-yard touchdown drive which put the game out of reach.

Mathis set it up with a 33-yard scamper to the one, and from there the Abernathy fullback rammed it over. Another two-point pass was good, and that turned out to be the final score, 36-27. Only 50 seconds remained in the game at the point of the final touchdown.

It marked the first win by Abernathy over Friona.

## Outlands Return From City Managers Meeting

Mr. and Mrs. A.L. Outland returned last week from Phoenix, where they attended the International City Manager's Association convention.

In the near future, despite the fact that the population explosion is now rated at a lesser degree than five years ago.

It was pointed out that crime is continuing to increase at an unprecedented rate. Governmental agencies at all levels are struggling to compete it.

It was stated that all the larger cities are 15 to 25 per cent under-strength in police forces, and recruitments cannot meet the demands.

A total of 743 city managers registered for the convention, including representatives from Sweden, England, France, Canada and Viet Nam.

In national and public affairs, it was generally agreed that the federal government will continue to step in and take over functions that the state and local governments cannot or will not do for themselves.

It was brought out at the convention that the demands for public service shall increase

## "My Favorite Things" Club Program Theme

"My Favorite Things", was the topic for the program of Modern Study Club at Federated Club House Tuesday evening. A workshop featuring demonstration displays was conducted by Mrs. Dick Rocky, Mrs. Dan Ethridge, Mrs. Glenn Reeve, Mrs. Ralph Wilson and Mrs. Dalton Caffey.

Mrs. Reeve illustrated basic principles of drawing and art lessons. Mrs. Rocky's subject and demonstration explained the art of decoupage. Mrs. Wilson supervised a paper mache costume jewelry making session. Darla Howell, guest soloist, was accompanied by Mrs. Roy V. Miller Sr., as she sang, "My Favorite Things," "With A Song In My Heart," "Gonna Build A Mountain," and "Climb Every Mountain."

Mrs. Paul Spring, vice-president, presided over the business session. The invocation was by Mrs. V.J. Zeaman. Correspondence was read from the Texas Highway Department concerning the request for an improved Highway 214.

Plans for the tenth annual Project Christmas Card were announced by Mrs. Frank Spring. Plans were made for the kick-off breakfast which was served to the workers for the

United Fund Campaign Tuesday morning.

Rummage sale plans were outlined by Mrs. Sloan H. Osborn, finance chairman. She also announced the date for a homes tour in Friona as December 18.

Hostesses, Mrs. Weldon Dickson and Mrs. Sloan Osborn, served refreshments to 22 members and two guests, Miss Howell and Mrs. J.H. Boyle.

## Chieftain Band Wins First Place Trophy

Friona High School band, under direction of Willis Giddens, attended the Eastern New Mexico University homecoming, Saturday, November 5, in Portales. The band participated in the parade and in the halftime activities at the football game. During the halftime the Friona High School band was presented a trophy for first

place in its class in the parade marching. First place in other classes went to Clovis High School, Lovington High School and Gattis Junior High of Clovis.

The local band is now preparing for the University Interscholastic League marching contest to be held in Lubbock, November 22.

## Director Named For County Spelling Bee

Mrs. Rita Mast, librarian and teacher Bovina Junior High School, Bovina is the 1967 Spelling Bee Director for Farmer County. Some time before April 1, the Farmer County Bee will be held and the Champion will go to Amarillo on April 22 for the annual regional elimination for the National Spelling Bee.

Last year, Greg Hargrove, son of Mr. and Mrs. Elmer L. Hargrove was the Farmer County Champion and placed 13th in the Regional Bee. The Champion was an 8th grader in the Farwell Junior High School. The 1967 Golden Spread Bee will be co-sponsored by West Texas State University and the Amarillo Globe-News. L. J. (Jack) Edmondson, West Texas State University Director of Public Services, will be Bee Director for the Golden Spread. Again there will be a unique secondary contest - the Junior Spelling Bee, open only to contestants from the 6th and lower grades. The National Spelling Bee is open to all students, from 1st to 8th.

The Farmer County Junior Champion for 1966 was Jana Lynce Bass daughter of Mr. and Mrs. J. L. Bass. She was a student in the Farwell Junior High School.

First place winner in the Golden Spread Bee will go to Washington during the first week in June 1967, to participate in the National Spelling Bee. The winner will also receive several other attractive prizes, and his (or her) school will have a full year of use of the Britannica film service. A traveling plaque, carrying the names of all Regional winners since 1949, will hang at the school of the winner.

Last year's prizes for the other top contestants included a Zenith stereophonic record player, a 24-volume set of Encyclopedia Britannica, several volumes of the Lincoln Library, a Capri Paper-Mate pen set, the seven-language Britannica dictionary, a World Atlas and cash prizes. Virtually the same prize list will be available this year.

Each County Champion receives an engraved plaque and a gold pen. Each County Junior Champion is given a trophy and a silver pin during the intermission at the Regional Bee (but there is no regional contest between the Juniors; they are merely guests for the annual spelling Bee Luncheon held in the Amarillo Club.)

In the school contests, each winner receives a Paper-Mate pen, inscribed "School Cham-

phon" and a blue and gold ribbon likewise imprinted. Each school junior winner receives a red and gold ribbon trophy. Each student who entered the Bee receives a ribbon trophy also.

The National Spelling Bee, sponsored by newspapers throughout the 50 states, is in its 38th year. High Plains champions have placed fairly high in the contests, but none has won the national crown.

## Scouts Elect Patrol Leaders

At the Tuesday afternoon meeting of Girl Scout Troop 268 in Fellowship Hall of Friona Methodist Church patrol officers were elected. They are Gay Welch, Jayn Massie and Regina Dukes. Assistants are Patsy McVey, Esther Smith and Deborah Clausen.

Two new members were accepted into the troop. They were Ginger Murphree and Debra Mears.

Refreshments of hot dogs, lemonade and cookies were served by Gay Welch.

Mrs. Louis Welch and Mrs. C. L. Vestal Jr., leaders, directed a discussion on challenges and badge work. Plans were made for a Christmas project and trips to Girlstown and Six Flags over Texas.

The troop had 100% attendance. Members, besides the above mentioned, are Susie Spring, Ann Spears, Susan Floyd, Jonnye and Denise Cudd, Nancy Scales, Gloria Brown, Sandy Reznik, Amy Renner and Cindy Campbell.

## Families Urged To Have Plan For Escape from Fire

Does your family have an escape plan they can use if a fire occurs in your home?

If not, you should draw one up tonight, says the American Insurance Association.

Get together all members of the family, including children and the older members, and work out at least two escape routes that you can use to get out quickly.

You need to figure out two routes so that an alternate route can be used if fire cuts off the other.

Call the fire department from your neighbor's phone!

Late last week an appeal for help reached our area from Girlstown, U.S.A. This home for girls has been adversely affected by the crop failure on the South Plains. Some of its most dependable supporters are cotton farmers and will be unable to continue their usual support.

For sometime it has been impossible for managers of the home to pay cash for groceries and since contributions have been so small, their credit has been stretched almost to its limit.

Members of the women's clubs at Black and Friona, as well as other individuals and organizations, have been interested in the welfare of residents of Girlstown for several years and have done much for them.

Earlier this fall local farmers have sent potatoes, carrots, cabbage and other vegetables to the home. When the call came last week, several persons who prefer to remain anonymous started a drive to provide sugar, flour, meal and shortening and beans to go with the vegetables.

After several contacts were made, the project began to grow and merchants, farmers, business men and homemakers cooperated in the effort to collect items of food and clothing. A call was made for the home to send a truck for the collection of necessities which had been taken to the home of Mrs. Emma Elmore in the west part of town.

One or more firms and one individual contributed money to be spent for groceries. As one of the Friends of Girlstown was purchasing groceries in a local store, a resident of the Rhea Community and another farm homemaker learned about the drive and contributed sizeable checks to the purchaser.

Before noon Saturday, through the cooperation of a large number of people, more than \$600 worth of groceries and a number of items of wearing apparel had been collected for this home for homeless girls.

Tentative plans are being made for assistance to this home on a regular basis. Anyone interested in participating in a community wide program

may contact any member of Friona Women's Club or Black study Club.

I've long been told that seeing a large number of skunks in the fall was a sure sign of a long winter. It seems that these small balls of black and white fur are supposed to have a built in antenna to tell them when to move to a warmer climate for the winter.

If this is true, we'd better all lay in a good supply of groceries and fuel for future use. So many skunks have been on the highway at night recently and several have been killed.

The Truett Johnson family dog had an encounter with a skunk early last week which left them almost homeless for several days. In spite of the fact that the home and its contents was left in tact, the family just had to leave.

Late one afternoon a skunk went under the house and the family dog felt it his duty to dispose of the intruder. In his efforts to do so the intruder lost the battle but before he had sprayed his little odor in every direction.

If anyone has a suggestion as to how skunk odor can be removed, Thelma will appreciate hearing about it.

Members of Modern Study Club will be conducting a rummage sale in the building formerly occupied by Houser Foods this weekend. For the past several weekends the Farmer County Community Hospital has had a sale in the same building and earlier in the fall a Girl Scout Troop sponsored a sale.

This weekend all their merchandise will be new since the hospital auxiliary members moved all the old merchandise out before the Modern Study Club members started moving theirs in.

Anyone having rummage to contribute may do so. Any useable item of clothing, jewelry, vases, what not or such like you have grown tired of might be needed by someone else.

Money from the project will be used for a community project which is to be sponsored by the club.

My attention has been called to the fact that the following paragraph was recently omitted from a club story. I'm sorry girls. It really was an accident.

Future Homemakers participating in the program were Linda Fallwell, Lou Cochran, Lydia Buske, Jan Welch, Sharen Awrey, Becky Coffey, Crista Evans, Kathy Renner, Terri Sue Cummings, Patti Ragsdale, Joan Gail Brookfield and Brownie Cole.

**HINTS GIVEN**

**Cricket Gives Hints  
On Preparing Turkey**

Check the Calendar. Only a few days are left until Thanksgiving.

It's time to place your order for the traditional turkey, if you haven't already done so. Shopping a little early assures you of getting just the size bird you want.

To be sure of quality, you'll probably want to buy a turkey that has been graded by the U. S. Department of Agriculture's Consumer and Marketing Service. Birds have to be inspected before they can be graded, so you're automatically assured of wholesomeness.

To rate U.S. Grade A, the turkey must have a well-fleshed, long and broad breast. The entire carcass must be well-covered with fat. It has an overall pleasing appearance -- no pinfeathers and only a few cuts, tears and bruises. It has no broken bones, and the breast and back may be slightly curved.

The U.S. Grade B turkey is fairly well-fleshed and the breast bone not prominent. It should have enough fat to prevent a dark appearance of the skin. The carcass must look fairly desirable, with only a few pinfeathers and small cuts, tears and bruises. No protruding broken bones are permitted. The breast and back bone may be slightly curved.

Aside from the time that is needed for thawing a frozen turkey in cold water, keep both the turkey and giblets in the refrigerator until time for cooking. Then check to see that all the pinfeathers have been removed. Rinse the bird inside and out under cold running water and blot dry. Slow oven roasting in an open pan assures a very flavorful and evenly browned turkey with a minimum amount of shrinkage and juice loss.

After the inside of the turkey has been washed, the cavity

should be salted and stuffed, if desired. To hold the wings in place during cooking, bring wing tips onto the back of the bird and place over the flap of neck skin. Wrap string around the ends of the legs and tail, then tie. Or if there is a band of skin above the tail, tuck the legs into it.

Brush the skin with soft butter, margarine, or other shortening. If you use a meat thermometer, place it in a thick, meaty part like the thigh, so it does not touch bone and can easily be read.

Place the turkey on a rack in the roasting pan to keep it out of the juice. A good way to insure even browning of large turkeys is to start roasting the turkey breast side down, then turn the bird breast side up for the last hour of cooking. Special racks may be purchased to hold the bird up with breast down.

Sometimes turning the turkey is just too difficult. You also can get good results by roasting the turkey breast side up for the entire cooking period. To prevent excessive browning and drying out, cover the bird with a piece of cheesecloth dipping in melted fat or a tent of aluminum foil.

Baste the turkey several times during roasting. When it is half or two thirds done, cut the string or skin to release the legs.

Roasting time is affected by the size of the turkey, and whether or not it is stuffed, there are several quick ways to tell if the turkey is done to tender perfection. The drumstick should twist freely and the joint break easily. The meat in the fleshy areas like thighs and breast should feel soft when pressed with the fingers. If a meat thermometer is used, the internal temperatures should register at the poultry mark -- around 190 to 200 degrees F.
