## WOODWORK

A CAPSULE LOOK at some of the week's current events, from the standpoint of one who sorta scans the news:

An anesthesiologist says acupuncture may have some value as an anesthetic, but appears to have no value as treatment for disease and can be harmful when administered improperly. We weren't even aware that it was being suggested as treatment for disease. I had an idea that acupuncture was a process in which you stick pins in somebody's ankles and that hurts so bad he won't notice when you cut a wart off his hand.

Watergate is still being held somewhere, and what little I can't avoid hearing is still as boring as ever. We saw a car in town with an "Impeach Nixon" sign on it, which struck us as pretty poor taste. Well, anyway, they seem to like him in Egypt.

A poodle in Florida allegedly suffered severe psychological problems because it was cut accidentally by a poodle grooming firm. The dog's owner is suing the firm for \$15,000. This amount would buy about 150 poodles, I imagine. We never knew that paring a poodle would paralyze its noodle.

They're thinking about banning fireworks on July Fourth and thereafter. This would be hard on the fireworks manufacturers, but easy on the ears.

SPEEDY NIEMAN, former publisher of the Slatonite and now publisher of the Hereford Brand, writes a column called "Branding Time." I really sort of doubt if Speedy ever saw a cow except on TV, but anyway, that's what the column is called. His column last week had the following item in it:

Mark Twain, in his reporting days, was instructed by an editor never to state anything as a fact that he could not verify from personal knowledge. Sent out to cover an important social event soon afterward, he turned in the following:

"A woman giving the name of Mrs. James Jones, who is reported to be one of the society leaders of the city, is said to have given what purported to be a party yesterday to a number of alleged ladies. The hostess claims to be the wife of a reputed attorney."

JUST TO EVEN things up, here's one Speedy can use in his column:

A job seeker filled out an application form thusly:

Date of Birth: Aug. 5, 1940  
Weight: 6 pounds 10 ounces  
Height: 20 inches.

Some of the students are shown above with their instructor and Baccus. They are: Craig Doty, Dennis Flowers, Instructor Jim Warren, Baccus, Greg Harper, and Gary Ham. Thirty-four students are now in the driving phase of the course after having completed classroom instruction and passing the written examinations held May 30 and June 3. Students are required to drive six hours and observe six hours. ## COUNTY AGENT GIVES POINTERS

Heavy rains and damaging hail storms in northern and eastern parts of Lamb County the past few days will require some important decisions on replanting cotton, says Buddy K. Logsdon, Lamb County Agent.

Planting in June means an extremely short growing season, yet many farmers indicate they'll replant their cotton provided the fields dry out in time and no further delay is encountered due to additional rainfall.

Logsdon, County Agent with the Texas Agricultural Extension Service, this week surveyed some damaged cotton fields in the path of the week-end storms.

"Since we can expect less than normal yields even with ideal weather the remainder of the season," he explains, "decisions about which cotton varieties to use and other practices to follow will be critical."

"First, producers should select varieties that mature fast, such as Earlycot 31, Paymas-

ter Dwarf, Rilcot 90, Broadcot 31, and Tamcot SP 21. Slightly later maturing varieties that could be used are Lockett 4789A, Paymaster 101B, Stripper 31, and Paymaster 18. Some varieties such as Stripper 31 and Paymaster 18 are not extremely early, but they do have an inherently high mike."

"Many farmers have asked about what early varieties to use that are also tolerant to verticillium wilt, Logsdon reports. "Unfortunately, we don't have a variety that tolerance and earliness."

However, early maturing varieties with at least some verticillium tolerance are Tamcot SP 21, Stripper 31 and Paymaster 18. Although Paymaster 909 has excellent verticillium tolerance, it should not be used for replanting due to its late maturity. We need to remember that verticillium wilt is generally not as serious in late planted cotton and the need for wilt tolerant varieties is not as critical."

Logsdon emphasizes that any practice that encourages earliness is the key to profitability in late planted cotton. Furthermore, earliness can be achieved by replanting cotton on double rows or some narrow row pattern rather than standard row width. Of course, he says, this will require some arrangement for harvesting with the Broadcast Stripper. But any of the recommended varieties will mature faster by simply planting in double row. A few days gained in earliness becomes vitally important in late planted cotton.

"As for planting rates in late planted cotton, research has shown that 60,000 plants per acre is an ideal population for late cotton. This requires a planting rate of 20 to 25 pounds per acre. For double row cotton, 30 to 35 lbs. of seed per acre is

## LAND OWNERS TO BE HONORED

Farmers and ranchers in Lamb County whose families have held the same land since 1874 or before will be honored by the Texas Department of Agriculture's "Family Land Heritage Program", according to Commissioner John C. White.

The program, which will be initiated July 1, will "pay

tribute to those families who have proved their respect for and dedication to the land," White said.

This county has some of the oldest establishments in the state, with a long history of dedicated service to the agricultural community and I hope that every qualified family will take this opportunity to be recognized by the people they have served, White said.

Applications and rules for the program may be obtained by writing Commissioner White, P.O. Box 12847, Austin 78711.

Any family who is certified by Judge G.T. Sides will qualify for the honor. An applicant need only show a continuous family relationship between the founder of the homestead and the present owner.

The land must have been in use for agriculture by the family since 1874 or before, must be at least 10 acres and producing \$50 or more from agricultural products.

Those who do qualify by August 31 will be recognized in a special ceremony at the State Fair this year and short history of their family and land will be published in a land heritage directory. In addition, local recognition will be provided to the families for their long dedication to agriculture.

## Rev. Couch Reassigned

Rev. Steve Couch, pastor of the local Church of God of Prophecy, was appointed pastor of Southside Church of God of Prophecy in Lubbock at the state convention held in Lubbock this past weekend. He and his family will be moving to Lubbock in the near future where he will begin his pastorate for that church. Also, at the convention, Rev. Wesley W. Brannon of Childress was appointed as pastor of the Sudan church. He and his wife and children will be moving into the church parsonage when he assumes duties here.

Attending the convention from Sudan were Mr. and Mrs. Steve Couch and family, Mr. and Mrs. Kenneth Richards and daughter, Mr. and Mrs. Green Underwood, Mrs. Vesta Richards, Doris Reece, and Maudie Wood.

and they scored when Hanna singled.

In action Monday night, the locals again defeated Security State 8-0. Jerry Williams was credited with the win and had 11 strike outs. Simington was again pitcher for Security State and got eight strike outs. Tamplin's triple was the only hit of the game. Other Sudan scores were on errors or walks. Sudan played an almost perfect game having only two errors—Williams did not give up a single hit.

The local Sr. Babe Ruthers skunked Morton Monday night there 13-0 with the pitcher, Don Noles, striking out 20 and receiving credit for all but one of the outs against Morton. He allowed only two hits—four men reached base, two on errors. Noles also hit the only home run of the game, that being in the first inning.

Their next game will be here Saturday, June 29 with Dimmitt. These two teams are battling for second place and a win by Dimmitt would

## Babe Ruth Baseball

Sudan Jr. Babe Ruthers are now in first place in league standings, it was reported, after winning their last three ball games. However, to capture the title, they must win two more games with dates pending.

Last Monday, June 17, Sudan walloped Amherst 20-2 behind the no-hit pitching of Criag Pickett who had a total of nine strike-outs. Edgar Tamplin hit a grand slam home run in the second inning to set up the scoring for Sudan. Losing pitcher was Ivey.

On Friday night, Sudan squeezed by Security State of Littlefield 4-2. Jerry Lewis pitcher, gave up only one hit and struck out nine batters. Simington, the losing pitcher, had 10 strike outs.

LOGSDON POINTERS—sufficient," he says.

Logsdon says that the latest practical date for planting cotton is June 15-20. Alternative crops such as soybeans and grain sorghum should be considered if field conditions prevent cotton planting before this date.

Some of the dryland areas south and southwest in Lamb County have not been planted to date and moisture is still inadequate for seed germination noted Logsdon.

to our call for help on Sunday morning, June 16th.

We feel that our neighboring Fire Departments were instrumental in preventing what could have been a major disaster for the City of Littlefield.

If at any time we can be of any assistance to your department, don't hesitate to call us.

Again, we say thanks for your quick action.

Sincerely,

### 4-H Youth Vie At Horse Show

Members from Lamb County competing for a berth on the top 20 list of winners at the District 2 4-H Horse Show in Tulsa June 24, according to Assistant County Extension Agent Jim Kuykendall. The winners of the district event will compete in the State 4-H Horse Show at Dallas in August.

The 4-H'ers are: Wendy Branscum, Carla Taylor, Jim Fields, Carrie Don Ben, Dawn Branscum, Vonda Stephens, Gary Fields, Rodney Geiseler, Petra Lewis, Lacritia James, Dina Jo Hampton and Sheila Lewis.

Already winners of county competition, the youth will be competing in halter, showmanship and performance classes.

Site of this year's horse show was Tulsa Rodeo Arena in Tulsa.

Last year, of 15 first place awards, 10 were won by girls.

The units of measuring we use today can be seen on the rulers, yardsticks, tape measures and metre sticks made by Lufkin.

Agent Kuykendall added, Floyd County topped the 20 counties in District 2 to win highest point total honors.

Tom Gibbs of Wichita Falls and Douglas Wilson, Harde-man County Extension agent from Quanah will serve as official judges for the 1974 contest. Superintendent was Ken Cook, Swisher County Extension agent from Tulsa.

The quota of entries is based on the number of active 4-H members with horse projects in each county, Kuykendall said.

TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — A flood of Mexican aliens, estimated at more than a million a year, is pouring into Texas, according to a new Texas Good Neighbor Commission report.

More than half the illegal entrants cross the Rio Grande into Texas. Good Neighbor Commission said the number of such entries is greater than the total number of immigrants who entered the U.S. legally from all the countries of the world.

Last year, the GNC noted, 575,000 deportable Mexican aliens were found in the U.S., and immigration officials figure one escapes for every one apprehended. Sophisticated smuggling techniques aid the crossings.

Immigrations have a social and economic impact in virtually all regions, since the aliens move on to metropolitan areas all over the U.S. in search of better jobs and safety from arrests.

Top AFL-CIO officials promptly called for tough new state laws making it an offense to hire illegal aliens, punishable by stiff fines or prison terms.

DEMOCRATS TO DELAY — Democrats are still in a dither about whether they should "recess" their September 17 state convention until September 19 to avoid a conflict with a high Jewish holy day.

A rules change to allow the delay will be aired at a special meeting of the State Democratic Executive Committee in Austin July 16.

If hotel rooms can be made available September 19, SDEC will consider the change (to keep the convention from falling on Hashana, the Jewish

New Year). But a three-fourth majority is necessary to order the rules amendment.

APPOINTMENTS — Clyde Johnson of Bulverde and San Antonio was named by Gov. Dolph Briscoe to the Texas Water Quality Board, succeeding the late Gordon Fulcher of Atlanta.

Briscoe also named E. Carl Dillard of Pearsall to the State Judicial Qualifications Commission. He reappointed five State Health Advisory Committee members and appointed as new Committee members Mrs. Edd Henard of Wellington, Mrs. Emma Nugent of Orange, Mrs. H.L. Long of Kilgore, Mrs. Marie Bynum of Longview, Rogers Wilson of Austin, W.W. Manley of Terrell, Rev. Claude Black of San Antonio, Domingo Pena of Corpus Christi, Ernest Coker Jr. of Conroe, Ronnie Boules of Pecos and Ed Baker of Arlington.

AG OPINIONS — Atty. Gen. John Hill held a newspaper's donating free space to an official's column when he is a candidate for reelection is not a campaign contribution under the law. In other recent opinions, Hill concluded:

A county commissioner may not be paid for serving as appointed lawyer for an indigent defendant.

Texas Water Development Board has a duty to approve or disapprove plans for proposed levees along any stream subject to floods or overflows.

An appointed attorney who represents both an indigent criminal defendant in district court and a juvenile in juvenile court the same day may not receive more than one fee.

WELFARE ROLLS DECLINE — Fewer Texans got welfare benefits last year, the Department of Public Welfare reported.

The department's annual report showed Old Age Assistance was down from an average of 210,000 monthly in 1972 to 182,000 in 1973.

Aid to Families with Dependent Children declined from a peak of 121,588 in February 1973 to 118,681 families in July.

COURTS SPEAK — The State Supreme Court held unconstitutional a new state law regulating juke boxes and other coin-operated amusement machines.

Attorney General Hill called on the U.S. Supreme Court to accelerate a Texas case challenging impoundment of water pollution funds by President Nixon.

Austin, San Antonio and Lower Colorado River Authority called on the Third Court of Civil Appeals to require the Texas Railroad Commission to force Lo Vaca Gathering Company to live up to its gas supply contracts.

The Court of Criminal Appeals upheld a life sentence given a Dallas man for assault to murder a police officer.

A hearing was set in the Supreme Court for July 17 on whether two elderly sisters can get back \$100,000 and 7,500 acres of land they gave to the Stephens County Museum, Inc.

The high court ordered the Dallas Court of Civil Appeals to take another look at adequacy of a \$4,146 damage award given a Van Zandt County man who was bitten on the hand by a neighbor's hog.

OIL ALLOWABLE SET — The statewide oil allowable for July was fixed by the Railroad Commission, for the 28th straight month, at a 100 per cent level.

Major crude oil buyers asked for 3,843,362 barrels of oil daily in July, a decrease of 36,087 from June.

Commission Chairman Jim Langdon pointed out that the U.S. still imports 1.5 billion barrels of crude annually — a "very long way" from self-sufficiency. Exceptions to the 100

per cent order were East Texas and Kelly-Snyder fields which were restricted to 86 per cent production.

BEAUTIFICATION AWARDS MADE — Seven cities received Governor's Community Achievement Awards for outstanding community beautification projects during the last year.

Winning cities were Stanton (under 2,500); Eastland (2,501 — 5,000); Athens and Jacksonville (5,001 — 10,000); Lufkin (10,001 — 20,000); New Braunfels (20,001 — 60,000) and San Antonio (over 60,000).

Eighty-six communities submitted entries in the competition. Awards were made at the seventh annual meeting of the Beautify Texas Council here.

BUDGET HEARINGS START — Hearings of the 1976-77 state budget — the first to use the new zero-base system — are under way. Some of the early requests by state agencies reviewed by the Legislative Budget Board and the governor's office are running almost twice current spending.

Requests, under the new plan, are divided into three levels — bare minimum, middle bracket and highest feasible.

SHORT SNORTS Twenty key state agencies report substantial employment increases for blacks and Mexican-Americans.

New textbooks considered for school use will go on display July 1 in 20 regional education service centers.

A \$48,000 state award from the Department of Mental Health and Mental Retardation will assist Attorney General Hill in legal research on rights of the mentally retarded.

Texas is seeking more than \$17 million in federal funds to help finance public school programs for children of migrant farm workers during the 1974-75 school year.

More than 175 Texas areas are eligible for flood insurance through a new special program administered by the National Flood Insurers Association.

### Texas Dairy Statistics Appear In Publication

AUSTIN—The number of milk cows that calved in Texas dropped by 10,000 between 1973 and 1974, but their value rose by \$7 million, according to figures in the 1973 Texas Dairy Statistics, recently published by the Texas Department of Agriculture.

In 1973, 360,000 milk cows calved for a value of \$126 million. In 1974 the figure was 350,000 milk cows for a value of \$133 million.

The publication gives a variety of statistics compiled

by the Texas Crop and Livestock Reporting Service. They show, for example, that Texas was ninth in total milk production in 1973 with 3.3 million pounds and ninth in milk cows that calved.

The booklet also gives the value of monthly milk production, milk and cream marketings and prices on dairy feed.

For a free copy write to Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

### Olives Flavor Chili Con Carne

There are many versions of chili con carne. But if you haven't tried one flavored with the savory, salty tang of pimiento-stuffed olives you're missing a real treat. Thin chili or thick, extra hot chili or chili with rice, with beans or with macaroni, all varieties taste and look better with colorful Spanish green olives.

These days when a large file of economy dishes is a must, a new version of chili is a welcome addition. This recipe, like most chili, simmers for a while to blend the flavors and tastes even better the next day.

OLIVE CHILI CON CARNE (Makes 6 servings)

- 1/2 pound sliced bacon, diced
- 2 pounds lean beef round, cut in 1/2-inch cubes
- 1 cup chopped onions
- 1 clove garlic, minced
- 2 cans (15 ounces each) tomato sauce
- 1 tablespoon cider vinegar
- 1 tablespoon brown sugar
- 2 to 3 tablespoons chili powder
- 1 cup small pimiento-stuffed olives
- Cooked kidney or pinto beans or rice

Fry bacon in large pot until crisp and brown; drain on paper toweling. Pour off all but about 3 tablespoons bacon drippings from pot. Brown meat, about 1/3 at a time, in drippings; set aside. Fry onion and garlic in same pot, stirring occasionally.

Add browned beef cubes, tomato sauce, vinegar, sugar and chili powder to pot. Cover and simmer 2 1/2 hours or until meat is tender, stirring occasionally. Add bacon and olives to pot about 15 minutes before end of cooking period. Serve the chili with cooked beans or rice.
