OUR COMPLIMENTS to Radio Station KFYO, Lubbock, and to sponsors of the three hours of Christmas nostalgia many of us enjoyed on Monday and Tuesday nights before Christmas, when that station re-broadcast six of the oldtime radio programs which we all listened to so faithfully when we were kids and there was no television in most homes.

We chuckled anew at the programs, and it was fun sitting around the room listening to radio for a change. And we had forgotten how little of the programming time was taken up by advertising. In those days, a 30-minute program had a plug for the sponsor at each end, and one in the midway break point, and these were brief.

Programs we listened to were Christmas programs put on around 1950, and included Jack Benny, Duffy's Tavern, Fibber McGee and Molly, Amos 'n Andy, Gildersleeve and Edgar Bergen and Charlie McCarthy. My wife said when she was a kid they always had to get their homework done before 7 o'clock on Tuesdays, so they could listen to the best programs.

Even our teenagers listened to some of the re-broadcasts and enjoyed them, although they'd never heard of any of the performers other than Benny, a top entertainer for years who died of cancer at the age of 80, just two days after Christmas.

The fact that the programs were funny impressed the younger folks, and we all agreed that television has almost no really funny programs. They don't have the clean comedy material that appeals to most of us, and they don't have the performers to present the material in really amusing ways.

The bigbrains in TV obviously think comedy is something off-color and abrasive and occasionally vulgar, like Archie Bunker and Johnny Carson. Of course, there are exceptions, even now. But some of the funniest television programs now can be seen only in daytime re-runs, like Our Miss Brooks, Leave It To Beaver, Hazel, Beverly Hillsbillies, and so forth.

Radio is missing a tremendous market, I think. A lot of folks would turn off the TV if radio would re-broadcast all of the good comedy programs of the 40s and early 50s, regularly. Of course, the best comedy writers were in radio then, as were the best performers, and a lot of the appeal lies in nostalgia, but what's wrong with that?

KNOTHOLES: Genius finally has been recognized. I received a very formal and fancy-printed notification the other day that "The directors and officers of the American Institute of Management have nominated Dalton Wood to Executive Membership in recognition of his individual executive management ability." I was supposed to acknowledge this RSVP, and then, I suspect, they would try to sell me something (perhaps a Blue Book of national bigshots, with my name down there in the W's). I didn't show the announcement to my staff for fear they might go into spasms of hysteria and we'd never get any work done around here. ... Going back to TV for a moment, I guess I really am old-fashioned. I think Dick Tracy Wet Look is a lot better-looking than Dick Tracy Dry Look. ... Look forward to 1975 with expectations of better things, and you'll probably experience them.

DONALD KEITH GAGE

Navy Airman Apprentice Donald K. Gage, son of Mr. and Mrs. Thomas G. (Skinny) Gage of Star Route, Sudan, Tex., was promoted to his present rank upon graduation from recruit training at the top ten percent of his company.

The training included instruction in seamanship, military regulations, fire fighting, close order drill, first aid and Navy history.

MEETINGS TO BE HELD

Sudan Band Parents will meet January 14 at 7:30 p. m. in the Band Hall. Included in the business will be a discussion of a banquet for band students.

All band parents are urged to attend.

The January social for the Ruth Sunday School Class of First Baptist Church will be at the church fellowship hall Monday, Jan. 13, at 7:30 p. m. for a salad supper. Each member is asked to bring a salad, as well as plastic margarine or Cool Whip bowls and pop corn for a project.

Mrs. Patry Kent and Mrs. Peggy Baker are hosting the social.

SWPSC Announces Improvement Plans

More than \$345,000,000 will be invested in new equipment and improvements during the next five years by Southwestern Public Service Company, Roy Tolk, chairman and president of the electric company, announced recently.

The investment for 1975, \$24-million dollars, will be the largest annual amount ever budgeted for the company, but the record will be short-lived. The projected investment for 1976 is more than \$5-million dollars, more than 76-million dollars in 1977, and in 1978, the company expects to spend more than 77-million dollars for the improvements and equipment necessary to continue providing electric service for this growing area.

Three new generating facilities to be installed during this five year period will increase the capability of the SPS system by more than 1-million kilowatts, bringing the total capability to approximately 3 1/2-million kilowatts.

Harrington Station, northeast of Amarillo, will be the site for the first two additional generating units. The first is now under construction and is scheduled for completion in mid-1976 and completion of the second unit is planned for 1978. These two generators will each have a capability of 350,000 kilowatts and will use coal as their primary fuel.

"Construction of the third generating unit will start during the latter part of the five year period and will also use a coal fired boiler," Tolk said.

In September of this year, SPS announced its interest in taking a lead role in the construction of the nation's first nuclear power plant using a gas-cooled fast breeder reactor. The company signed a letter of intent with the General Atomic Company of San Diego, California indicating

that SPS would contribute \$100-million to such a project.

Transmission lines and transmission substations to be built during the five year program will represent an expenditure of more than \$50-million. The lines will be 115,000 and 230,000 volt and will serve the major load areas in Southwestern's system.

Construction will start in the near future on a 115,000 volt transmission line from Cunningham Station, near Hobbs, New Mexico, to Carlsbad, New Mexico. This new line will provide additional power for new and existing industrial loads.

"This region can avoid the recession which is gripping much of the nation if the people of the area will continue the planned development program for growth which utilizes all of our assets. Planning is the key word and our area development people are dedicated to helping every community that wants to work at planned progress. Finally, the whole region can count on adequate electric power being one of the assets at work," Tolk concluded.

L. Hanna Graduates

Larry Hanna, son of Mr. and Mrs. Billy Hanna, was among the graduates at University of New Mexico, Albuquerque, N. M. following the 1974 fall semester. He received a Bachelor of Science degree, majoring in Physical Education, and minoring in Biology.

Hanna did practice student teaching at one of the parochial junior high schools there in Albuquerque. He has also served on the coaching staff at Highland High School as junior varsity coach, and as defensive back coach for the varsity team there. (The Highland team advanced to the state playoffs where they were defeated by Clovis.)

Hanna is married to the former Judy Williams. They reside at 2323 Katherine S. E., Bldg. 1, Apt. 2, Albuquerque, N. M. with their son, Shad.

DRIVE FRIENDLY!

THOUGHT For MEDITATION
Happiness means accepting each day
And using it well in God's own way,
Not getting frustrated if you find
It is not the day you had in mind.

In doing His will happiness lies
With joy that all life's troubles defies,
Give of this joy which you are blessed
And each day will bring you happiness.
