WOODWORK

by Dalton

I HAVE JUST STARTED reading the March 1974 issue of Friends, a magazine put out by General Motors, which gives some indication of how up-to-date I am on my reading. (If we ever have an atomic war, and there's nothing left to read except the Watergate report, I'm going to tackle that one).

There was a rather interesting article about the metric system in the magazine, and the writer should have had a byline, but didn't, so we don't know who wrote it. The article begins:

"Some Saturday afternoon, if you should hear on TV that your favorite football team is on the 32-metre line and only 3 metres to go for a first down, or that the new Miss America has measurements of 91-60-91, relax. It won't mean that you or the announcer has flipped his lid, only that the U.S. has gone metric at last. Based on the schedule proposed by Congress, the conversion could be complete in 10 years. Based on estimates of industry, it could cost billions."

Well, the metric system will have a lot of advantages, but it's going to be awfully difficult to get adjusted to it. That is, for we who already are familiar with the foot-inches-gallons-miles-pounds setup. For the kids in the first grade, it'll probably be easier. One of the advantages of the metric system is that everything is divisible by 10.

The writer of that article wondered if we'd change some of the old standard songs and sayings, like to "I Love You, a Litre and a Gram," or "Give Him a Centimetre and He'll Take a Kilometre."

A kilogram is 1,000 grams, or about 2.2 pounds, which means Jethro Pugh probably would weigh about 120. But if you want to scare the opposition, put it back into grams and tell them the defensive end weighs 120,000 (I think).

By the way, somebody somewhere has decided to spell all the metres with the "r" before the "e" to keep from confusing the linear measurements with measuring instruments like the gas meter or light meter.

So GM could get their plug in, the writer noted that the Vega already has kilometre readings in blue above the mileage scale on its speedometer. If you're zipping along at 100 kilometres (KM) an hour, you're just doing 61 mph.

One thing I'm thankful for: a litre is very close to a quart. It is about 1.06 quarts, we're told. But there's nothing close to a gallon.

Well, I'd better stop making these comparisons. Looking over this, I feel I may have messed up on some of my conversions already. Seems I'm always putting my 30 centimeters in my mouth.

Want To Get Out Of Town? Do It Right, And Go To Europe!

Sudan and Amherst area residents are invited to join an increasing number of South Plains citizens who are planning to spend nine days in Europe this spring. For only \$628 they will tour five European countries and visit such cities as Paris, Amsterdam, Brussels, Heidelberg and Bonn.

This incredibly low priced trip is being sponsored by The Slatonite, a weekly publication in Slaton. Dalton Wood, publisher, said, "I doubt that anyone will ever

be able to make the trip for less. The cost of the plane ticket alone for an individual is \$800." Wood and his wife, former residents of Sudan, will be making the trip.

The tour leaves Lubbock March 21 and will fly to Amsterdam. Most of the touring will be by air conditioned buses, and the trip will wind through Belgium, Holland, Germany, France and Switzerland. The Swiss Alps, fields of Dutch tulips and castles on the Rhine are only a few of the sights which are part of the tour.

The cost of the tour includes round trip jet flight from Lubbock, hotel accommodations, two light meals a day and a personal escort.

The Slatonite is hosting a travel party Jan. 28 for anyone interested in the tour. At that time, a representative of Wholesale Tours International will be on hand to answer questions and further explain the tour. The meeting will be at 7:30 p.m. in the Slaton Chamber of Commerce building.

If you would like more information on the tour you may pick up a brochure detailing the trip in the Sudan Beacon-News office or write Dalton Wood at The Slatonite, Box 775, Slaton, Tex. 79364.

BASKETBALL

The Sudan Hornets lost their first district game of the season to mighty Spade Longhorns in a 99-59 decision. The Longhorns are leading the district and stand 4-0 with Sudan in second place with a 3-1 record.

Gaylon Reed led Spade with 32 points. Danny Williams paced Sudan with 12 points.

A change has been made in the date and time of the Lazzbuddie games which was set Friday. The games will be held on Thursday with the first game at 4:30, thus causing the varsity teams to play somewhat earlier than usual.

The Hornets also stand 3-1 in district after Friday night's encounter with the Spade feds and an overtime win of 45-44. Sudan led throughout the game with the exception of the final quarter when the Spade girls outscored the locals 15-6 in a determined effort. Sudan won on a field goal by Phyllis Ray who also scored a free throw, the only points during the overtime for the Hornets.

P. Ray led Sudan with 23, Sharon Burton 10, Kay Tamplin and Ann Nix, six each. V. Thompson was high for Spade with 27.

The Hornets moved to third place in district standings after their loss Tuesday night here to the Happy Cowboys. They could not seem to get it all together and trailed all the way. The Hornets hit 50% at the free throw line to 77% for the visitors. Pacing the Hornets was Tamplin with 11. Happy is in control of second place in the district standings. Final

score in the game was Happy 57, Sudan 32.

The Hornets led in their encounter with Happy the entire game and the half-time score was 29-13. However, Happy outscored the locals both of the last quarters but could not overcome the wide margin. Happy had only two girls to score, Pam Tatum with 34 and Lisa Payne 6. Two of their guards left the game on fouls. Phyllis Ray led Sudan with 21 points, Mary Ann Bellar 10 hitting 8 of 10 free throws, Sharon Burton 9 and Kay Tamplin 9. Sudan hit 65% at the free throw line.

The Sudan JV girls won 36-22. Rita Robinson hit the nets for 15 points for Sudan, Terry Chester 12, Betty James 6 and Pam Davison 3.

(Correction: The junior high team which defeated Nazareth last week was the seventh grade boys instead of the eighth grade boys. The score was 46-8 with C. Scott scoring 32 of the total points.)

Sudan's eighth grade boys lost to Spade Monday night there by a score of 37-25. Scoring for Sudan were Mike Jones with 9, Ricky Moore 7, Pete Edwards and Victor King 4 each, and Joe Wood 3. Espinoza scored 18 for Spade.

The eighth grade girls' game was a turn-about as the Sudan team outlasted Spade in a 29-14 decision. Deanna Flowers scored 15 for Sudan with 9 of the points at the free throw line; Sabrena Vincent scored 6, and Skokie King and Cathy Ham 4 each.

LETTER TO EDITOR

Dear Sir:

Would you please print some information pertaining to Women Who Want to be Women. The following is some information that all the women in our community, state and nation need to know.

Women are you sure you want to be "liberated"? Ask women in Cuba. Castro "liberated" Cuba! Remember?

WHAT IS THE EQUAL RIGHTS AMENDMENT? On March 22, 1972, the U. S. Congress passed the Equal Rights Amendment (ERA) and sent it to the states for ratification. If it is ratified by 38 states, it will become law, enforced by the federal government, superseding all state laws on related subjects. The Amendment reads, "Equality of rights under the law shall not be denied or abridged by the United States or by any state on account of sex." Simple, isn't it? Deceptively simple. "Sounds good doesn't it? But HAVE YOU LOOKED AT THE HOOK INSIDE THE BAIT?"

Senator Sam Ervin called the Era the most drastic

measure in Senate history. "WHY?" Because it strikes at the very foundation of family life, and the home is the foundation of our nation. Can you possibly avoid being drastically affected by the ERA? NOT A CHANCE! Actually it is a loss of Rights Amendment.

How will it affect you? If you are married, you may choose to work outside the home. But you may choose to stay at home, to rear your children, to be supported by your husband. The ERA will abolish this right. It will invalidate all laws which require the husband to support his family and will make the wife equally responsible for support. You can be forced to supply half the family support, or all of it, if you are a better wage earner. What about your children? You can be forced to put them in a federal day care center, if one is available and to see that one is available is a major goal of the National Organization (NOW), -leaders in the movement to ratify the Equal Rights Amendment. Under the ERA, if a wife fails to support her husband, he can use it as grounds for divorce. This can work a special hardship on senior women who

have spent their lives rearing their families and are not prepared to enter the job market.

WILL THE ERA HELP DIVORCED WOMEN? Divorced women will lose the customary right of child custody, child support, and/or alimony, and can be forced to pay child support and alimony, if her husband wins custody of the children.

WHAT ABOUT OTHER EFFECTS ON FAMILY LIFE? According to leading law counsels, the ERA will permit homosexuals to "marry" and adopt children.

DO YOU WANT TO LOSE YOUR RIGHT TO PRIVACY? The aim of NOW and other pro-ERA groups is to totally "desexigrate" everything. Professor Paul Freund, Harvard Law School, testified that ERA would require that there be no segregation of the sexes in prison, reform schools, public restrooms, and other public facilities. This includes public schools, dormitories and hospitals.

DO YOU WANT TO LOSE YOUR RIGHT NOT TO BE DRAFTED? Some women are crying for 'equal rights' in the armed forces. But do you want them to abolish your right NOT to be draft-

ed? ERA will do this. All women will be required to register at age 18, subject to all military duties including combat. If you have children, whichever parent was called first might be eligible for service; the remaining parent, male or female, would be deferred. (Yale Law Journal, page 973) Do you want this for your daughter? Men, do you want your wives and daughters living in barracks with men? Going into combat with them.

DO YOU WANT PROTECTIVE LAWS AGAINST SEX CRIMES? The ERA will abolish "seduction laws, statutory rape laws, laws prohibiting obscene language in the presence of women, prostitution and "manifest danger" laws and all laws against forcing women into prostitution (Yale Law Journal, page 954, 954).

WILL ERA PROVIDE BETTER PAY FOR WOMEN? Not at all. Proponents of ERA incessantly sing the tune "We want equal pay for equal work". They do not tell you that this is already guaranteed under (1) The Civil Rights Act of 1964, (2) The Equal Opportunities Act of 1972. So the "equal

pay for equal work" argument is deceptive—merely a smokescreen to hide the real intent of the ERA.

HOW WILL ERA AFFECT CHURCHES? The National Organization for Women is demanding that women "be ordained in religious bodies where that right is still denied". One goal of NOW is to abolish the tax-exempt status of all churches. If the Equal Rights Amendment is ratified, all Christian colleges which receive one dollar of federal money will no longer be permitted to have sexually segregated dormitories, showers, or restrooms.

CAN A STATE REVOKE ITS RATIFICATION OF ERA? Absolutely! When 38 states ratify the ERA, it will become the 27th Amendment to the U. S. Constitution. At one time, 33 had ratified with Nebraska and Tennessee have rescinded their ratification. "Clearly a state can change its mind either way before the amendment is officially declared to be ratified.

WHAT CAN YOU DO ABOUT IT?

1. Find out where your state now stands on the Equal Rights Amendment.
 2. Find out who your State Legislators are (you can you call your local Democratic or Republican Headquarters.) Write them asking them to oppose ERA. Tell them that NOW does not speak for you nor for most women. Ask your friends to write.
- TOO LONG WE HAVE BEEN THE "SILENT MAJORITY." IT'S TIME TO SPEAK UP! LET YOUR VOICE BE STRONG AND CLEAR.

(Note, Proponents and opponents alike recognize the Yale Law Journal Vol. 80, No. 5, April 1971, herein used as documentation, to be an accurate analysis of the meaning and effects of the ERA.)

Can you honestly say you would sit back and do nothing to stop your small children from sharing the same bathrooms in public places?? Do something... If the above facts are true and correct, we are against the Equal Rights Amendment and are writing our statements: Speaker of the House Bill Clayton, Box 2910, Austin, Texas 78767; and Senator Max Sherman, Box 12068, Austin, Texas 78711 and urge you to do likewise.

BILL CLAYTON

His new office may be bigger, his appointment list a little longer and his pace more hectic, but Rep. Bill Clayton, speaker-apparent of the Texas House of Representatives, hasn't changed much.

HE'S STILL the man from District 74. The 46-year-old representative from Springlake spoke on his desk at the State Capitol. Lined against the windows in his office was evidence of a few of the stands he's taken on issues affecting his constituents in the 12 years he's served in the House—books and reports on water legislation, conservation and county and municipal governments. And standing out on an almost-bare bulletin board behind his desk was a small sticker with "Think Water" printed across it.

"I've always prided myself in voting my district," he said. "I suppose it's easy for me to identify with farmers and ranchers in my district because I farm right along with them. When they need water for crops, I need water too. I guess I know about the plight of the farmer and rancher just about as well as anybody."

With a long list of accomplishments during his tenure as a state representative, Clayton still maintains his principal legislative achievement is a 700-page recodification of the state's water laws. His credentials in the areas of water and land legislation are a mile long—leader in the fight to write a financing plan for a Texas Water Plan to the State Constitution, chairman of several interim water committees, chairman of the Standing Subcommittee on Water of the Natural Resources Committee, chairman of the Southern Environmental Resources Conference and former executive director of Water, Inc. of Lubbock.

As Speaker, Clayton's interest in water and land legislation will not diminish.

Sixty-fourth in the line of Texas House Speakers, Clayton will be the only representative from his district ever to be elected Speaker. Only Lee Satterwhite, representative from Potter County, (whose district then included two counties now in Clayton's district, Deaf Smith and Oldham), has served any part of the district as Speaker. Satterwhite was Speaker from 1925-27.

ALTHOUGH not from the district, former Attorney General Waggoner Carr, then serving as representative from Lubbock, was the only other representative to be elected to the most influential position in the House.

Bill Clayton won the office of Speaker of the House Tuesday by a majority vote 112 to 33 for Parker.

Clayton says he plans to give every representative a fair shake. The Speaker's chair will be fair-minded and open. I have always stood for honesty and fairness in government, and I hope to use these traits to raise the public's image of the Legislature.

His reputation as a hard worker, expert on parliamentary procedures and honesty are widespread among his colleagues. Furthermore, his record shows he doesn't veer from representing the views of his district.

"The Speakership," he says, "is a privileged and honored position in the House. I will follow a long list of great leaders in Texas history. It's an awesome task, but also a rewarding one. I'm ready to get on with the work ahead of us—the work the people of this state elected us to do."

Sanctioned by the Texas Constitution, the Speaker is selected by his peers at the beginning of each term. The Speakership has come to be the most revered position of authority in the House and is said by many to be second in importance only to the Governor.

Observers have said Clayton has congregated the most widely diverse coalition of support in years, drawing votes from the most conservative to the most liberal representatives. Clayton says such a coalition is needed to effectively deal with the important issues facing this session.

TOP ON the list of Clayton's priorities this session is school financing. He expects the Legislature to provide guidelines for assessment of real and personal property for taxation. He supports constitutional revision and believes the Legislature should utilize the expertise and materials gathered by the recent Texas Constitutional Convention to present a document to the people.

"One of the greatest problems we're going to have to deal with this session," Clayton says, "is how to handle the \$1.5 billion surplus in our budget. Personally, I'd like to see us save or invest at least part of the money to work for the taxpayers."

Credit Laws Ban Sex Discrimination

Credit granted to either a husband or wife is the sole responsibility of that person, as of August, 1973, in Texas, as reported by Mrs. Doris Myers.

New legislation passed recently by the U. S. Congress also bans "discrimination against any applicant on the basis of sex or marital status - with respect to any aspect of a credit transaction," the family resource

management specialist with the Texas Agricultural Extension Service, The Texas AGM University System, said.

The new law passed in Congress also includes a section of Fair Credit Billing. The credit card holder has the right to stop making payment for items that prove defective without being subject to suit for the entire amount owed.

"But the amount must be more than \$50 and the purchase must be made in the same state or within 100 miles of the buyers' home. Also, the buyer must first try to resolve the problem at the store," Mrs. Myers said.

She pointed out that this

section of the law also requires a business firm to reply within 30 days when a consumer complains about a billing error. The firm then has 60 days to correct the error or explain in writing why the bill needs correction.

On the same subject, a business firm may not issue an unfavorable credit report because a customer fails to pay a disputed bill until the company has complied with the law on replies, and the customer has had at least 10 days to pay the disputed bill," she continued.

And if the customer replies within the 10 day period that the amount is still in dispute, the com-

pany must include that information in any unfavorable credit report.

Under this new law, customers are allowed 14 days to make payment on the disputed bill without additional finance charges being assessed."

Turning to other sections of the new law, Mrs. Myers said that a store must either refund upon request or credit a customer's account for any excess payment made.

Also, a buyer of real estate must be given a complete statement of all closing costs at the time a mortgage commitment is made," she said.

The section of the law passed by the U. S. Congress will become effective in October, 1975.

BRIGHT STAR IN THE GALAXY OF ELECTRIC HEAT

ENERGY EFFICIENT...

We call the heat pump a "Bright Star" because although the idea has been around for some time now there's a lot more interest in saving energy than ever before. People want to save energy, but they don't have to give up their comfort. With the heat pump you don't have to give up anything. The heat pump makes wise use of energy because it uses otherwise wasted heat and electricity to heat and cool your home. Electric heat in any form is a wise use of precious energy and the heat pump is today's star of the system - more than 100% efficient at the point of use - actually provides more energy than it uses. Call us this week for a free electric heat cost survey of your home and ask about the heat pump!

THOUGHT For MEDITATION

We've the faith
To plant a seed
And know a flower will grow
If we've the faith
That spring will come
To melt the winter's snow
If we've the faith
To know it's done
As each of us believes—
Like birds that sing
When boughs are bare,
We'll know there'll be new leaves!
