FIFTY FIRST YEAR NUMBER 1

SUDAN, LAMB COUNTY, TEXAS

THURSDAY, FEBRUARY 20, 1975

10 CENTS PER C.

DR. BILL MARSHALL of Texas Tech, who has attained a measure of fame by driving nails with bananas, probably should never have told that story, because now I know why his tennis serves are so hard they go through the strings of my racket, and bend up the metal when I try to stop them.

Undoubtedly he has been freezing those tennis balls with liquid air to make them as hard as croquet balls when he hits them with his own racket, which he probably also has dipped in the liquid air.

Dr. Marshall, chairman of the department of physics at Tech, sometimes demonstrates principles of physics in interesting ways to school children and civic groups. He has used a banana to drive a nail after the banana has been frozen hard by dipping it into liquid air.

I have played tennis against Bill on several occasions, and he hits the hardest serve of just about anybody I know over 40. With his head stuffed full of all that smart, he probably has figured out exactly how far up the handle to hold the racket for maximum power, and I guess that's okay, but if I find out for sure he's been dipping those tennis balls in liquid air, I'm gonna turn him in to the USLTA (U.S. Lawn Tennis Assn.).

I am even more interested in another feature of the Marshall Medicine Show described in a recent Avalanche-Journal story: Bill puts a marshmallow in a jar, creates a vacuum in the jar and the marshmallow grows to four times its original size. But when air is returned to the jar, the marshmallow rapidly shrinks to about two-thirds its original size.

Assuming that the marshmallow remains in that shape, I've been wondering if I couldn't get Bill to do this with my stomach. Just the last part. I can manage to get it four times its original size by my own methods.

WE VISITED in Oklahoma last week and one wheat farmer complained that the wheat up there was so short this year that he had to lather his crop before he could mow it.

LETTER TO EDITOR

TO: All Texas Media

With the growth of government in both size and scope of responsibilities, public officials are faced with the problem of ensuring that our citizens have free access to the services of State government. Many Texans today need the assistance of State government, but do not know how or where to receive that help.

To help eliminate some of this confusion, and make government more readily available to all of the people of Texas, I have established the Governor's Citizens Assistance Line—TEX HELP—which is now providing toll-free telephone access to anyone who needs assistance or information on matters involving Texas State government.

The TEX HELP telephones are staffed from 8 a. m. until 5 p. m. Monday through Friday, except on State Holidays. B. L. Parker, who is very knowledgeable in the operations of State government, has been appointed as the director of the Governor's Citizens Assistance Office.

I believe that this Citizens Assistance Line can greatly expedite the inquiries of the people of Texas and make State government much

The Bible Says-

By Art Lynch

The gospel of John records the following words of a group of people bent on the destruction of Jesus the Messiah:

"But they cried out, Away with him, away with him, crucify him. Pilate saith unto them, Shall I crucify your King? The chief priests answered, WE HAVE NO KING BUT CAESAR!"

And so echoes the cry down through the annals of history. The people in this account hated the ruling Caesar, but they hated the Savior even more. Jesus came into this world to suffer and die to become our Lord and King. (Acts 2:36) A king rules completely. A kingdom is a monarchy, and the king has absolute authority. Jesus gave up heaven and equality with the Father to take on the weakness of our human flesh, to become even a servant, to become our example, and to raise us above anything we could be without Him. (Philippians 2:5-11) While here he promised to see to all our physical needs, if we would but

put Him first in our lives. (Matthew 6:19-34) To back up His promise He performed many signs and wonders, so many that John said all the books in the world would not hold them. (John 21:25) None of these signs and wonders were ever disproved. There is not one scrap of evidence to show that Jesus was not who He claimed to be. He asks our love and our obedience. (John 14:15) And yet today men everywhere choose to cry, "WE HAVE NO KING BUT CAESAR!" We continue to bury

ourselves in our work or pleasure and ignore His plea to trust Him to care for us. We trust our own sufficiency and once again the pleasures of earth keep a soul from knowing the peace that passes knowledge. He first loved us and gave His all, shouldn't we love Him and give Him our all?

Don Noles, a student at Ranger Junior College, was here over the weekend to visit his parents, Mr. and Mrs. Kenneth Noles and Francine.

Mrs. J. C. Withrow went to Levelland Friday afternoon to bring her daughter, Jackie, a student at SPC back for a weekend visit.

Mr. and Mrs. Tim Harrington of Slaton celebrated her birthday with her parents, Mr. and Mrs. Don Ham and family, over the weekend. Also here was Ona Beth Hood of Lubbock.

Tommy Moss is recuperating at home after his return from the Littlefield Hospital where he was a patient several days.

Personals

Rev. Walter Brian of Lubbock and interim pastor of the First Baptist Church, Sudan, was a Sunday dinner guest in the home of Mr. and Mrs. Waymon Bellar and family. Also attending were Mr. and Mrs. Raymond Harper and family and Mr. and Mrs. Bobby Jack Markham.

The Young People of The First Baptist Church had a get-together in the high school gym Sunday evening

more responsive to their concerns and immediate needs.

However, in order for this telephone service to achieve its potential, I need your help in publicizing the toll-free WATS number (1-800-292-9600) in your area of Texas.

I sincerely hope that you see the merits of TEX HELP and that you can run the enclosed public service material to properly publicize the telephone number for the people in your area.

On the previous occasions when I have asked for the assistance of the Texas media in support of State programs, you have responded most generously and I deeply appreciate your cooperation.

Sincerely,

Black Athletes Honored
Jackie Robinson, Hank Aaron, Willie Mays, Jack Twyman, Bill Russell, Jesse Owens, Wilma Rudolph, Jim Brown, Rafer Johnson, Arthur Ashe, Althea Gibson, Charlie Sifford, Joe Louis, Muhammad Ali, and Joe Frazier — a list of names associated with best in sports. And now these athletes have something else in common. They all share the honor of being remembered in the Black Athletes Hall of Fame.

The Black Athletes Hall of Fame was established in January to recognize athletes and others associated with the various sports for their outstanding accomplishments in both amateur and professional sports and for bringing distinction to their country and community. Candidacy, not based on racial or ethnic considerations, is open to all who have made outstanding contributions to the advancement of blacks in sports — past or present. Symbolizing the achievements of the star athletes, Union Carbide recently presented to each of them a specially designed ring featuring a blue Linde man-made star sapphire in the center of it. The rings are inscribed with the awardee's name and his sports category. But no matter what the particular sport, these star athletes all share ability, dedication, and an all-important drive to succeed. For as long as sports holds a cherished place in the hearts of Americans, these remarkable men and women will be remembered.
