NRA Serves Notice

The National Rifle Association has served notice to the Treasury Department's Bureau of Alcohol, Tobacco and Firearms of its opposition to BATF's proposed regulation creating a computerized national firearms registration system.

"The National Rifle Association and its over one million members intend to use every means at our disposal to stop the Bureau of Alcohol, Tobacco and Firearms' clearly illegal effort to impose and fund by regulation a centralized national firearms registration system," wrote Neal Knox, executive director of the NRA lobby arm, the Institute for Legislative Action.

NRA's objections were registered in a letter to BATF Director Rex Davis in response to the official notice of BATF's national firearms registration plan published in the March 21 Federal Register.

Costs to the taxpayer," said Knox, "would be astronomical."

I ONCE KNEW A 67 YEAR OLD FARMER WHO OWNED A BIG HOUSE...

During the recent months of unrest by farmers and ranchers, a common observation by city dwellers has been "those farmers are not broke...look at those big houses they live in." Sure, some farmers do have nice homes...and many farmers' wives work as clerks, secretaries and school teachers to help pay for those houses.

Have you ever looked at the new homes in town? Do those who live in town have a God-given right to a nice home while farmers are supposed to live in one with four rooms and a path?

And check the age of occupants. Scores of new homes in town are owned by couples married 5 years or less. While many farmers have worked a lifetime to purchase a similar home.

One thing about a farmer...when he makes money he spends it...sometimes on a house, drapes, carpet or furniture...or other goods and services. And that helps all of us.

Agriculture is basic in Texas. America needs a strong Agriculture.

YOUR LIFE INSURANCE

Prepared by the American Society of Chartered Life Underwriters, the national society of life insurance professionals who have earned the C.L.U. designation by meeting high educational, ethical and experience requirements.

Q. I just figured out that my estate is worth about \$100,000. How much will my lawyer be likely to charge for his services and will he also expect something from the \$50,000 in life insurance that I have?

A. Ask him. People hesitate to ask lawyers about fees but lawyers don't mind such questions in the least. And you're entitled to an answer.

On the insurance, which the company pays directly to your beneficiaries, the lawyer will probably expect nothing.

If you name your lawyer executor, he is entitled to more than just attorney's fees. Talk it over with him.

It has been 12 years since you have had a choice in choosing your District Clerk; Allene Rogers Woodward is giving you this choice.

Why Should Dolph Briscoe Be Governor for 10 Years?

There is no good reason!

No other Texas Governor has ever asked for 10 years much less been elected for 10 years. Dolph Briscoe's record does not merit 10 years in office.

- Yet Briscoe has spent more than \$2 million on this campaign — including \$900,000 his supporters borrowed from 13 banks — to get 10 years in office.
- Property taxes have increased by 1 BILLION DOLLARS since Briscoe was elected; so far, he has done nothing to provide property tax relief.
- Welfare costs have more than doubled under Briscoe, without a fair increase in benefits for those people who really deserve them. The reason is waste. The worst example is Briscoe's own Office of Migrant Affairs, which spends \$8,000 for each person it helps find a new job.
- Utility rates have skyrocketed while Briscoe has been governor without a single sign of concern by the Governor.

Elect a New Governor

Endorsing John Hill, the Kilgore News Herald said:
 "He fought Southwestern Bell all the way to the Supreme Court to stop an unfair rate increase. He appears to have beat the Howard Hughes empire over millions in inheritance taxes. And he cleaned up Duval County."

Endorsing John Hill, Fort Worth Star-Telegram said:
 "In two terms as state attorney general, Hill has shown himself to be energetic, articulate and assertive. He can make firm decisions and work persuasively to see them carried out. As governor, he would be an active, accessible chief executive projecting a strong leadership image."

Endorsing John Hill, the Dallas Times-Herald said:
 "John Hill has been an outstanding attorney general. He has made impressive progress in making the office what he has always said it should be—the people's law office."

Errors

Discovered an error after filing an income tax return? If so, correct the mistake by filing a Form 1040X, the Internal Revenue Service said.

The forms are available at local IRS offices or can be obtained by using the handy order blank in the tax package.

Some of the more common tax return errors that can be corrected on a 1040X include failing to report income, forgetting to claim deductions, or mistakes in the amount of credit claimed.

Generally, the 1040X form must be filed within 3 years from the due date of the original return or 2 years from the date of the tax payment, whichever is later.

Harry Ledbetter's Money Management Program

As a fiscal conservative, I have developed a comprehensive program to effectively manage the \$2-Billion dollars on deposit in the State Treasury. Here are aspects of it:

Rate of Return: The State Treasurer should not play politics with our tax money. I pledge to put the taxpayer's money to work earning the highest interest as available.

Cash Flow Forecasting: Using modern management techniques, we can accurately determine how much money the state needs in liquid funds. The state's obligations must be paid on a timely basis at minimum administrative cost.

People all over Texas are responding enthusiastically to my campaign. I appreciate your support. I know that the public trust must be earned, and it is a responsibility I accept. I ask for your vote on May 6th. If you share my concerns, encourage your friends and neighbors to vote for Harry Ledbetter for State Treasurer in the Democratic primary election May 6th.

Letter To The Editor

Dear Editor:
I recently read an article in the "Human Events" titled Part-Time Congress. I thought the article was most interesting to voters that I would like to pass it on.
It said that this suggestion was thrown out into the halls of Congress by Senator Minority Leader Howard Baker (R-Tenn) that "we should have a part-time Congress, a six month session with seven months being the limit."
I really believe that would be a splendid idea. Just think our legislation, happy senators and representatives would be compelled to limit their energies toward measures of necessity.
I think as voters if we approve or like the idea of a part-time Congress, we should write Senator Baker and assure him he is no crackpot for making such a suggestion.

Circuit Preacher With High Speed Horse

Dr. Strauss Atkinson is sort of a circuit preacher with a high-speed horse. He's that and much more. He says he's in a different pulpit just about every Sunday, but when it comes right down to it, he's in a different town just about every day.

Strauss Atkinson is officially the director of missions for the Caprock Plains Baptist Area, a grouping of some 15 counties from Northfield near Childress to Tokyo near Brownfield and from Farwell to Spur.

That's something like 40,000 square miles. He is a preacher and, as he says, is usually preaching somewhere every Sunday. His title says he's a director of missions and he does a little of that too, he says, missions aimed primarily at the Mexican-American communities.

But, primarily Strauss

Atkinson is an organizer, problem solver, resource person, confident the man who keeps the Baptist churches, particularly the small rural church, on an even keel. Counseling, he says, is one of his own long standing interests.

He also spend a good deal of time on the road to somewhere within the 40,000 square miles area.

That's a bunch for a man who says he still occasionally yearns for the close personal ties of simply pastoring a church.

At 59, Strauss Atkinson has already formally served the Baptist church for 38 years. He was born in Florence in Central Texas, but moved with his farming parents to Littlefield when he was still very young.

When he graduated from high school, he went to work managing a grocery store. That lasted three

years. In 1939, already married and starting a family, Atkinson says, "I accepted the call and entered Hardin Simmons (University that fall."

He pastored a number of rural churches in those years and by 1944 when he graduated he had already been called to the First Baptist Church at Moran, Texas.

After seminary, he spent the next 25 years in two pulpits, first Kermit and then for almost 19 years at the First Baptist Church in Canyon.

He says he can remember driving to his first full pastorate in Kermit and wondering just what he and his wife Trudy were getting into.

Strauss says his wife Trudy wasn't real sure God had intended them for the desert, but he says, what they found were wonderful

people. Atkinson says he's always found wonderful people. He's a people man, he says. "People are what the church is for."

After they had moved to Canyon in 1951 he took some post graduate work at West Texas State University in counseling so that he could better help people.

He still does counseling work, because he likes to help. He says his version of counseling is listening and letting people solve their own problems. "People need to talk to someone and somebody needs to listen."

Somehow he is the one who's called when a church congregation reaches a crisis. It could be because he'll always answer the call.

Trudy travels with him some (almost always on his Sunday assignments) "We like to have our Saturdays together."

The couple have two children, Mrs. Dale Cain, the wife of the minister of the Calvary Baptist Church in Lubbock; Mrs. Gar Ward, the wife of a math teacher in Dumas; and three grandchildren.

He says he's never actually thought of returning to a pastorate because "I

took this job with the conviction that this is where I would finish my ministry. This is where I can do the most good."

He says he might have thought of moving on if the duties had turned purely administrative, but they are hardly that. "Any work worth it's salt is an unending task."

And, because of all these things, Wayland Baptist College conferred an honorary Doctor of Divinity degree.
