MAY 25 SET FOR POPPY DAY

Poppy Day will be observed in Morton and throughout the United States on Saturday, May 25. Clyde Weeks, President of the R. Bond Post 374 Unit of the American Legion Auxiliary, is announced.

Memorial poppies to be worn in honor of the dead of both world wars will be distributed on the streets throughout the day by volunteer workers from the Auxiliary and cooperating organizations. Contributions received in exchange for the flowers will be used in relief and rehabilitation work for disabled veterans, their families and the families of the dead.

Extensive preparations for Poppy Day are being made by the American Legion Auxiliary Unit under the direction of Mrs. C. C. Nettles, Poppy Chairman. The volunteer workers are being organized into teams and assigned to locations in the downtown area. Residence and business areas also will be covered to give everyone an opportunity to pay tribute to the dead by wearing a memorial flower.

The poppies have been ordered from the American Legion, Texas where they are being made by disabled veterans of both wars. They are paper replicas of the European wild poppy which bloomed in the battlefields of France and Belgium in both wars and which has become a world-wide symbol of remembrance of America's little dead.

Poppies will be more generally worn this year than ever before, Mrs. Weeks predicted. "With peace restored and the sun coming home," she said, "everyone will want to pay tribute to those who can never come back to us by wearing a poppy in their honor on Poppy Day."

King Furniture Displaying Early Scenes

The King furniture store on north side of square has a window display that is attracting a lot of attention.

This display consists of replicas in miniature of a range wagon, of the cattle country, rider and bronc, coyote and steer, all carved out of wood with a pocket knife by Mr. Calvin Key who farms northeast of Morton.

The wagon, riders and other figures are authentic and require much tedious and painstaking work as well as understanding of the period in which the range chuck wagon was widely used.

The wagon is completely outfitted with bedrolls, saddles, lantern, spurs and chuck box.

The harness and horses are complete in every detail as are the grasses and shrubs, directing the natural scenery of the south plains.

Veterans Receiving Checks Should Report Changes In Address To VA Office Not Treasury Department

A veteran who is getting a pension or any other recurring amount from the Veterans Administration should report changes in address to the VA Regional Office having his case file, Robert W. Sisson, Lubbock Veterans Administration Regional Manager, announced today.

He should not report new addresses to the Treasury Department.

Until the Lubbock Regional Office is officially activated the Texas area will continue to be served by Regional Offices which are presently serving these counties, Sisson pointed out.

Since VA checks are mailed in Treasury Department envelopes, veterans naturally get the idea that they should tell the Treasury people when they get

a new address.

"The result is that treasury offices in Dallas and New Orleans each get 50 letters a day from veterans who want their checks sent to new addresses."

"These letters are bundled up and sent to the regional offices handling that veteran's case file. This takes time and may delay the veteran's next check."

"So," Sisson concluded, "the veterans can save himself—as well as us and the Treasury Department—some trouble and delay by writing to the VA in the first place."

Mr. A. C. Ward of Andrews county, former Cochran county farmer and rancher, was in Morton for a brief visit Friday. Mr. Ward has recently purchased the old Higginbotham Land and Cattle Co. holdings in Gains county and is planning to move to the new location soon. This is a large ranch property that will run quite a large number of cattle, should a number of ranchers expand their operations as Mr. Ward has the beef situation should improve soon.

Mr. and Mrs. Louis Smith and daughter, Colleen spent the week-end in Carlsbad, N. M., visiting friends and relatives.

Mr. and Mrs. B. A. Fuller of Dimmitt spent the week-end with their daughter and son-in-law, Mr. and Mrs. Roy Hickman.

TRAIL DUST

By DOUGLAS MEADOR

Tossing heedless skirts of clouds, the wind danced on a rain-washed prairie where white buttercups swayed to the rhythm of music in the sky. Young whitefaced calves raced between the clumps of blue sage and felt the rocks tear at their spongy, untried hoofs. At intervals a cow would raise her head from cropping the tender grass and rush towards a calf that had frolicked too far from her side. Beyond the rolling hills flowed brown waters eating at the crumbling banks of the sandy river. Spilling between the clouds, sunlight reflected on the water like pieces of a mighty mirror flashing among distant cottonwoods. A mockingbird was secreted somewhere in the clump of chinaberry trees singing with all the joy that can be held in a diminutive soul. Some of each spring is borrowed from paradise.

Measured by the shadowless centuries that have passed across the mesa of creation, all the puny toys of mankind will sustain their places but a little while. Grass roots will be nourished in soil made ready by their decay and the rains of a million years may find no trace of civilization to beat against. A candle burns without ash and the darkness is no less for its having burned.

I am the kind of a customer that a waitress will glance at, then return to the more absorbing business of dabbing nail polish on her fingers. There is little satisfaction to my vanity when a younger and more attractive customer causes her to beam and have water and the menu waiting by the time he is seated. The only thing I have ever received from tips was a secret feeling that I had been absurd.

Wisdom has no measure by which to weigh itself, thus the sage is satisfied with his knowledge although it may be less than rust on the towers of learning in a decade. Lest his back feel the whip of ridicule a man may hide the secret which his vision has uncovered, and look to the things which others have not concealed. History records the waste of learning again that which has been known. Knowledge in a frenzy is apt to devour its young.

Maturing in the corn whiskey and soda water generation, my knowledge of bars is not extensive but my appreciation of craftsmanship in woodwork is liberal. So it will be better to allow the past to keep its secrets from which the massive mahogany fixture emerged. While I drank the cup of stale, gray coffee, steam from the urn blistered a varnish arch too close above. Near me a man forked hopefully at the rubberish filling in a piece of pie. Greasy vapor in the small cafe had settled on the ornate bar; the mirrors were half-hidden grime. Circling twice the fly made a perfect landing on the thick, scarred counter, then departed. Through my half-closed eyes the mirrors reflected faded impressions of another age; deep carpets, heavy gold watch chains and the soft glow of gas lights.

Noted Newspaper Man To Represent Insurance Co.

Norris Ewing, well known in newspaper advertising circles throughout the Panhandle for many years, has completed a special training course in Hartford, Conn., and will enter the insurance business immediately as a representative of The Travelers Insurance Company with

There was gentle music and feminine laughter. Wealth rubbed the fine wood with the wax of splendor. Suddenly the fly returned and walked slowly to a grain of sugar on the counter. The man had finished the pie and was dunking a portion of the crust in his coffee. The bar was like an old man who had known great beauty and luxury, compelled by circumstance to drink bitter wine with his cabbage.

Music from the flutes of happiness passes quickly into the vaulted cathedral of time, and sends its soul back often to accompany memories.

Bishop Paul Kern Speaker Over Regional Network

Bishop Paul B. Kern, author, educator and church statesman, was the speaker over a regional network of 39 radio stations May 5th, on The Methodist Hour which originated from WSB in Atlanta at 8:30 a. m. EST.

Bishop Kern is a strong preacher and forceful spiritual leader. For several years he was a member of the faculty of Southern Methodist University at Dallas, Texas, and later was dean of the school of theology at that institution, serving there until 1926 when he returned to the pastorate and was assigned to Travis Park Methodist Church in San Antonio, Texas, where he remained until elected bishop in 1930. At the present time he is serving as resident bishop for the Nashville, Tennessee Area and has supervision over the Tennessee and the Holston Conferences.

He spoke on the subject: "Do We Moderns Need the Man of Galilee?"

The Methodist Hour is a part of the broadcasting activities of the Southern Religious Radio Conference which is composed of radio committees from the Southern Baptist Convention, the Presbyterian Assembly and the Methodist Church, and will be heard over this regional network on May 19th, and all Sunday mornings in the month of June.

Dr. William F. Quillian, executive secretary of the Southeastern Jurisdictional Council of The Methodist Church, introduced Bishop Kern for this second broadcast of The Methodist Hour.

This program is heard over KGNC, Amarillo, 7:30 a. m. each Sunday.

Garden Club In Tuesday Meet

The Cochran County Garden Club met Tuesday afternoon, May 7, in the home of Mrs. L. E. Huggins. A very interesting program was enjoyed by each one present. Mrs. Andrew Essary told of Garden Pests, diseases and their remedies which was very helpful to everyone.

Iris, varieties and culture was discussed by Mrs. J. T. Ray. A very beautiful arrangement of exhibition irises was shown by Mrs. Albert Morrow. We were told that we could get a start of these irises from the very beautiful garden from which they came if we were interested, and everyone who saw them was very much interested.

The project committee has decided to sponsor a "Yard Beautification Contest", and has submitted the following rules for judging the contest:

Landscape merit of design, 25 percent; Originality of design, 20 percent; Correction scale and proportion, 20 percent; Quality and type of material, 15 percent; Color and harmony, 10 percent; Perfection, 10 percent.

Out of town judges are to be secured for judging. Those who wish to enter the contest must register with Mrs. Roy Hill by May 31.

The Garden Club is also sponsoring the beautification of the grounds around the Junior High School building.

Refreshments were served to the following members: Mmes. Carl Cadenhead, C. W. Davis, Andrew Essary, Travis Ferguson, Joe Gipson, Ford Hawkins, H. S. Hawkins, Scott Hawkins, Roy Hill, L. E. Huggins, J. B. Knox, R. Lytle, Carl Macon, Albert Morrow, Joe Nicewarner, J. T. Ray, O. E. Stevenson, and one guest, Mrs. T. L. McAllister.

The next meeting will be in the home of Mrs. W. W. Williamson, May 21, 8:00 p. m.

Mrs. Paul Roberson and three children and Miss Elweda Thompson of Socorro, New Mexico, were week-end visitors in Morton.

We are glad to hear Mrs. W. E. Lovelace is doing well after major surgery performed at the Vernon Hospital, April 30.

Sorry we missed the nice tea given by the Methodist ladies on Monday, we have been anxious to hear Mr. Kendall tell about his trip to the Holy Land. Then too, we just naturally like the affairs the Methodist ladies give.

We would like to take off our hat to Miss Manley (if we had a hat) for getting such nice news stories in about the activities of her women and girls 4-H clubs.

The Chamber of Commerce has a new public address system, we saw and heard it at McAllister-Huggins a few days ago. This will certainly come in handy for the Stock show and other important events around Morton and Cochran county. The C. of C. goes on quietly about it's business but does get a lot done for the benefit and welfare of folks around here. Mr. Roy Hickman is the C. C.'s unpaid secretary and is really a busy man.

We heard that a bunch of prominent business men went fishing over in New Mexico last week, haven't seen any fish though, so there may be nothing to it.

Last Wednesday we took time out to put on our finery and attend the lovely seated tea the 1936 Study Club gave in observance of Federation Day. Don't know when we have seen so many pretty clothes, especially that brown and pink costume Mrs. Travis Ferguson was wearing. Mrs. Truman Doss was wearing a deep red rose and white horsehair braid halo corsage in her hair that was very becoming.

Rose Marie, charming daughter of the F. F. Roberts, typified the modern American girl in her pretty off the shoulder, floor length afternoon dress with matching corsage of sweetpeas in her hair. Mrs. Arthur Kendall is just as pretty as the preacher said she was. The party was exceptionally nice and we were grateful for the invitation. We still think hostesses should fix up a lunch for the guests to take home to their husbands, as no one wants to go home and make dinner after eating party food.

Mr. Key, who made the miniature models now on display in King's window is the father of our gal Friday (Peggy Key). We didn't know the relationship until O. G. F. read the proofs. Smart Dad; sometimes we wonder about Peg.

We are slow to catch on but fast to admit it. Found out the other day that Morton has a library in the court house, we intend to get further details as we are heartily in favor of a library.

What with a new home, graduation, Mother's day and the stock show coming up we are overwhelmed trying to cover it all.

Wish we had enough money to buy an elephant, not that we want an elephant, but we would like to have that much money. We need a lot of new things for

our house.

Funny thing, when we try to find Minnie, she is usually at Childs' furniture store and if we want to see L. B. about something he is at Minnie's. Incidentally that is a nice store Mr. Childs has opened up.

Mr. Clark told us a lady accosted him while he was enroute from Snyder with our belongings wanting some trash hauled and he had to tell her, "Lady I'm not hauling trash, I'm moving for the Englands".

More wind and sand for Morton Monday night. We certainly missed a good chance for rain. Much cooler Tuesday, Wednesday a. m. the prospects for rain appeared better than ever.

My, how we go on, sort of like the chinaman, "once started, no stopes."

CHURCH OF GOD

The Church of God will have Sunday School at three o'clock on Sunday afternoon in their new building, and extend an invitation to the public to come and worship. The Church officials are expecting a pastor for the church soon and will make further announcements of church services at a future date. At present the pastor from Sudan comes over for the afternoon service.

CARD OF THANKS

We wish to express our appreciation for all the kindness and sympathy shown us in the loss of our father, Mr. R. A. Davis. C. W. Davis, Taft Davis, Vernie Davis, William R. Davis, and Mmes. Arthur Cook, J. B. Benderman, C. L. Peterson, A. M. Capee, E. B. Mauldin, and L. W. Moury.

A. A. Glaser, C. E. Coffman, and Robert Porter attended the V.F.W. Convention in Big Spring, Texas, Saturday and Sunday. A. A. Glaser was elected Quartermaster for this district.

To The People Of Cochran County:

I take this opportunity to again thank you for your support of my candidacy for the office of Sheriff-Assessor-Collector of Taxes for the 1943-44 term of such office. During that term which I served, I tried to discharge the duties of the office without fear or favor, but with diligence, efficiency and common fairness to all. As to how well I succeeded, I refer you to the state and county tax records, and to the dockets of the Criminal Courts of the

county. These records are readily available to you in the court house.

I honestly and sincerely feel that these records justify my asking for your vote and support in the coming primary election.

I have resided in Cochran county for 22 years; and, through good times and bad, have learned to take things as they come, in public and private life, and exert every effort to do the best possible job under all circumstances, whatever the outcome of local politics. I did not come to Cochran county to leave, it is a good county and can be made the best on the Plains.

If returned to the office which I seek, I believe my past experience, together with my diligent application to all the details required, will enable me to make you a Sheriff-Assessor-Collector, which will be in keeping with Cochran county's present progress and future development.

Sincerely,
W. E. (Prof) Angley.

TRI-STATE TATTLER

By Bill Cox

As long as I can remember I have never known anything but incorporated towns. I was born in one, have always lived in one, and am still living in one. So naturally it arouses my curiosity whenever I run into one that is not incorporated — which is getting to be quite often.

Iraan is such a town, a community of nearly 4,000 people with lots of oil wells and oil camps but no city administration. (For the benefit of those persons who didn't complete the fourth grade and who are having this column read to them, city administration means a mayor, city secretary, city councilmen or commissioners. I know, because I just had it explained to me.)

Anyway, Iraan was established about 20 years ago, and it still doesn't exist as a "real town". It's just a community with a name. And the people who live there do not care to incorporate their own, thank you.

The citizens tell me anything they need the money, (1) they've got the will and the spirit to pull together. There are no bonds to be approved, no issues to be argued, no nothing that might result in a twisted tangle of red tape.

Just recently the residents of Iraan decided they wanted a recreation center for their youth. They okayed it "just like that," which is typical of the community spirit existing in Iraan. Washington take heed: Here's a Utopia of Progress—minus all politicians and politics.

Just as my enthusiasm for Iraan was cooling down a little, lo and behold I hit another unincorporated town.

It was Ozona, whose slogan is "The Biggest Little Town in the World." It is also frequently referred to as the "Town of Millionaires". This is probably a pretty accurate description, for it's supposed to be fixed better financially than any town its size in the United States. Ozona's population is around 4,500. It is a most attractive town of modern brick and stone buildings, and looks the part of "the million dollar town". But it hasn't had a city administration in its half century of existence, and doesn't want one.

Why in heck do towns incorporate, anyway?

There's an old outlaw, about 90 years old, who lives up in Oklahoma. He knew all the gun-totin' boys of the 'good old days', from the James and the Daltons to Al Jennings. In fact, Jennings once defended this man on a charge of murder. Attorney Jennings got him acquitted of the murder charge, but for some reason the old outlaw doesn't like Jennings to this day. Nobody knows why, because he won't talk except to a very close friend or two.

The old boy claims to have committed every crime in the books. He says he wasn't arrested on any charge until he was 70 years old.

That's what made him madder than heck. He claims to have committed murder, train robbery, burglaries, and stick ups of all sorts. There's a story told of how he once needed something to use as a barricade to stop a train for a stick up. He didn't see anything handy, so he shot some guy who happened to come along and laid the body across the tracks.

Now the old pioneer of the badlands wouldn't have minded so much to have been arrested on any of these red-blooded charges. But what made him raving mad was being arrested, convicted and serving several years in a Federal penitentiary for a

Baptist Churches Throughout Texas Will Observe Mother's Day May 12

Baptist churches throughout Texas will observe Mother's Day May 12 with their second annual Mother's Day Hospital Fund collection to provide charity care for the needy sick in the five Baptist hospitals of the state.

Sunday schools, church congregations and all church organizations will participate with every member invited to make a gift to the sick poor as a personal tribute in honor, or in memory, of his own mother.

In the initial collection last year, Texas Baptists gave \$30,000. All gifts are used solely for giving free hospitalization to critically ill patients in need of hospital therapy but unable to pay for such treatment. The five Baptist hospitals are Hendrick Memorial Hospital, Abilene; Baylor University Hospital, Dallas; Valley Baptist Hospital, Harlingen; Memorial Hospital, Houston; and Hillcrest Memorial Hospital, Waco. Patients cared for under the fund are accepted from all parts of the state and need not be Baptists nor of any denomination.

The annual charity service of the five hospitals runs to more than \$200,000 a year and in the past has been paid out of hospital operating budgets, which are inadequate to meet the need, officials said. It was with the hope of providing sufficient funds specifically allocated to charity service that the Mother's Day observance has been instituted. Approved by the Texas Baptist Executive Board and the Women's Missionary Union

Board, the observance will be a permanent annual event. Patients cared for under the plan are, upon discharge from the hospital, given a bill marked "Paid by the Baptist Churches of Texas."

Directing plans for the observance are Robert Jolly, Houston; Lawrence Payne, Dallas; E. M. Collier, Abilene; Julian H. Pace, Waco; and K. P. Walker, Harlingen.

LOOKING AHEAD

By George S. Benson, President, Harding College, Searcy, Ark.

IT WAS TRIED

Soon after V-E Day, Col. Edward D. Churchill, surgical consultant of the Allied Mediterranean forces, toured six German military hospital areas and reported his findings. The report is most significant in the light of efforts to make medicine the servant of politics in America. Comments on the report are here reprinted by permission of Colliers the National Weekly.

"As we all know, American doctors' care of wounded in this war has been and continues phenomenal as regards its record-breaking percentages of cures and its development of new techniques and remedies. There was considerable expectation that the German doctors . . . would have some pretty phenomenal achievements of their own to report . . . but Colonel Churchill did not find them.

A Generation Behind

"His over-all conclusion . . . was that German handling of wounded was about 20 years behind the American procedure. Going into details, he reported that German army doctors as a rule just casually passed up badly wounded men on the assumption that they were going to die anyway, whereas our doctors

fight to the last gasp for every wounded man's life, and frequently win . . .

"As for professional pride in pulling off near-miracles of cure or amelioration, such pride just was not in the bulk of German military physicians and surgeons.

They were victims of apathy and lack of ambition which would enrage a typical American doctor. This is a sad backslide from Germany's proud position as world leader in medicine and surgery in the pre-Hitler days.

How Did It Happen?

"Are there any lessons in it for us? It began to happen soon after Hitler saddled his brand of totalitarianism on Germany. It seems reasonable to conclude that it happened because Hitler saddled Nazi totalitarianism on Germany. . . . In Nazi philosophy, your race and politics matter far more than your brains and talents.

You might be a brilliant physician or surgeon or research scientist, but if you were a Jew or an anti-Nazi of any description, you had to get out of Germany if you could . . . go to a concentration camp if you could not get out. Thus Hitler and his crew decimated German science. Their master-race convictions, too, led logically to . . . the use, in some concentration camps, of humans of "inferior" breed as guinea pigs for . . . laboratory experiments.

Medicine vs. Politics

"Ruled by the politicians and browbeaten by Nazi gangsters, German medicine (on the strength of Colonel Churchill's findings, at any rate) withered and, in due time, the German armed forces paid, in . . . bigger death totals than they need have suffered." Here is the sound conclusion reached by Collier's, a conclusion in which America's best doctors concur:

The lesson in the German experience seems clear enough . . . There is no substitute for a free bold and inquisitive medical profession or for generously financed and expertly staffed medical research, carried on year-in and year-out. It is devotedly to be hoped that the lesson of the German medical collapse will not be lost on us."

Veterans' Questions & Answers

Q. Is there any restriction on the use of the money secured from a loan guaranteed by the Veterans Administration?

A. Yes. Funds secured from a loan may be used only to purchase, build, repair, alter, or improve a home or farm to be occupied by the veteran, or to purchase a business, business property, or equipment to be used by the veteran for the purpose of earning a livelihood.

Q. In an emergency, how can a veteran secure admission to a veterans hospital?

A. Before proceeding to a Veterans Administration Hospital, the veteran or someone acting for him should communicate with the nearest VA contact unit or hospital by telephone or telegraph, and request authority for admission and for transportation, if necessary. Prior authority is needed before a person can be reimbursed for any expenses incurred in such travel.

Q. Should a man who obtains National Service Life Insurance from the Government while in the military or naval service retain such insurance after discharge?

A. By all means, because the premium rates are low in comparison with the rates of private insurance, especially in view of the valuable protection granted.

Fruit Crops Should Be Protected Against Worms

LUBBOCK—Fruit crops in the South Plains area should be protected against worms this year, according to Dr. W. W. Yocum, professor of horticulture at Texas Technological College.

A spray of lead arsenate, composed of about one to two tablespoons of the compound to one gallon of water, should be used, Yocum says.

Apple trees particularly should be sprayed at once in order that a dose of poison may get into the blossom end of the apple before it closes. The worms try to enter there, and unless spraying is done before the blossom end closes, the poison will be ineffective.

After separation from active service, veterans cannot apply for new National Service Life Insurance and the obtaining of new insurance with private companies will have to be accomplished at his present age for which rates would necessarily be higher. Furthermore, the additional medical examination which would be required for a new non-government policy might disclose some impaired health condition which would bar the granting of new insurance by the private company. If the veteran has let his National Service insurance lapse, he should seek its reinstatement at once.
