HOSPITAL ELECTION DRAWING FIRE

Morton Tribune

VOLUME VIII MORTON, COCHRAN COUNTY, TEXAS, THURSDAY, JUNE 26, 1947. NUMBER 17

J. T. Porter To Open New Gulf Service Station

One of the most modern service stations in Morton will be opened to the public on Tuesday, July 1, J. T. Porter, owner, announced Tuesday.

The new station located on the southeast corner of the square is constructed of concrete tile painted white, with the entire front of plate glass. Drive in frontage covers approximately 60 feet.

The interior is finished in two shades of green with attractive display shelves and counters in white. Fluorescent fixtures furnish light.

C. L. Taylor designed the building and local men did the construction work.

Porter will be assisted at the station by Bill McDaniel. The station will open at 6:30 a. m. remaining open until 8 p. m. each day except Sunday.

Gulf products will be carried including Good Gulf Gasoline, Oil, Tires and Tubes. Porter states that he will also have on hand a miscellaneous assortment of automobile accessories and Westinghouse Appliances.

Porter has been in Morton about one and one half years, following his discharge from the Army Air Corps. He was in the service three years and saw duty in Italy, France and Germany.

He is a native of Alvin, Texas, and a graduate of the Bellville High School at Bellville, Texas. His wife is the former Marion Taylor, they have one child, a son, Jimmy, aged five years.

Before his army service Porter was employed as an oil field worker in Texas and Louisiana.

Mr. Porter and his assistant invite the public to make the Gulf Station headquarters for gas and oil needs and tire repairs.

Gail Broughton's Band To Play For July 4th Dance

Gail Broughton, violinist and director of the dance orchestra, "Pals of the West" will make their initial appearance at the Dixie Club on the night of July 4, when T. R. Johnson, owner of the club introduces the popular West Texas Stringed Band to Dixie Club guests.

The all string band features Evelyn Broughton and Tex Harkey on vocals. Miss Broughton is also a pianist and Harkey plays the electric guitar. Other members of the band are Tom Killian, Bass Violin and Truman Broughton, guitar.

"Pals of the West" play on alternate Saturday nights for American Legion dances in Tatum and Lovington, New Mexico.

Mr. and Mrs. Broughton and two children moved to Morton in February from Lamesa, Texas, where Broughton and his band had played for dances sponsored by disabled veterans at recreation hall and the Lamesa Country Club.

The band, organized several years ago, has played for the Brownfield Rodeo Association's Annual Rodeo for five consecutive years.

They have played on numerous occasions for the Heel and Toe square dance club in Seagraves as well as the Country Club and other clubs at Odessa, Texas.

Since moving to Morton the Broughtons have played gratis at Veterans Hall for the benefit of the American Legion and VFW.

MISS MANLEY ATTENDING UNIVERSITY OF TENNESSEE

Miss Mabel Ann Manley, Cochran County Home Demonstration Agent, left June 13 for Knoxville, Tennessee, where she is taking a short course in crafts and recreation at the University of Tennessee.

She will return to Morton about July 8th.

Tax Maintenance Election Saturday Carried by 274 Votes; 488 Votes Cast

Formal Opening of Jiggs Bakers New Steak House To Be Held July 1st.

Introducing what is termed one of the most up-to-date cafes in this area, Baker's Steak House, located in the newly constructed Porter building on the southeast corner of the square, will observe its formal opening on Tuesday, July 1, E. R. (Jiggs) Baker, proprietor, announced this week.

Visitors are invited by Baker to view the newest of Morton's cafes. Refreshments of coffee and sweet rolls will be awaiting all those who attend on opening day, Tuesday, July 1.

Featured in the new cafe are all new fixtures with a curved counter of knotty pine arranged to accommodate 12 guests, five booths will provide additional seating space for guests.

Kitchen space in the Steak House is enclosed in a ranch type room partitioned with knotty pine and shingled roof.

Complimenting the knotty pine fixtures are walls finished in two shades of soft green. Workmen were busy this week putting the finishing touches on the interior. A modern automatic record player has been installed for entertainment of guests.

Baker, who recently moved back to Morton from Hot Springs, New Mexico, where he owned and operated a tourist court, was formerly located in Morton following discharge from the army air corps in 1946. He operated the Coffee Shop for some months before moving to Levelland where he brought the Club Cafe, later building the Derrick Cafe.

The Steak House will feature fine steaks, and will also carry a complete menu to satisfy the most fastidious taste. The Cafe will be open from 5 a. m. until 11:00 p. m.

Mr. and Mrs. Baker, nee Colleen Morgan, have a 16 months old daughter, Donna Ann. They live in the Baker apartments, one block west of the square.

Morton Boy Scouts Meeting Held Monday Night

Morton Boy Scouts met on Monday night, June 23 with ten members and Scout Master R. T. Tarver, Jr., present.

All members of the Scout troop are urged by Tarver to be present for a scout meeting to be held at 8 p. m. on Monday night, June 30 at Veterans Hall.

Plans for the scouts for the immediate future include a winter roast; father and son banquet and later in the season a summer camping trip.

Scouts present for the meeting Monday night were: Burl Deavers, Darrell Bowman, Lonnie Allsup, Waymon and Worth Marshall, Jimmie Robertson, Clarence Moore, Lee and Weldon Queen and Bunky Hargrove.

Jimmie Robertson, Reporter.

Annual Youth Night Held At Legion Meeting

The five boys and two girls who attended Boys and Girls State at Austin recently furnished the program for the American Legion Thursday night, June 19 at Veterans Hall. This was the Annual Youth Night for the Legion.

The girls who reported on their trip were Brookie Coleman and Elaine Pugh. The boys were Jimmie Willis, Jug Hill, Raymond Lewis, Jack Sutton and L. M. Monroe.

The sponsors for these trips were: Brookie Coleman, American Legion Auxiliary and Morton Study Club; Elaine Pugh, Morton Chamber of Commerce; Jimmie Willis, American Legion; Jug Hill and Raymond Lewis, 4-H Club and F. O. Masten; Jack Sutton, Morton Chamber of Commerce; L. M. Monroe, Morton Lions Club.

County Briefs

Sam Kelly, local farmer, finished planting the Cochran County Airport with Sudan and Maize on Monday of this week.

County officials, according to Judge Glenn Thompson are using the Sudan and Maize as a cover crop to prevent soil erosion and plan later to plant the field in permanent grass.

Gowdy Ranch Awards George Keith Angus Calf

"Hank" Gowdy, owner of a fine herd of Angus cattle at Arch, New Mexico, has awarded an Angus calf to George Keith, Cochran County 4-H Club boy, and son of G. C. Keith.

Mr. Gowdy is a breeder of registered Angus cattle, and he also has a good herd of grade Angus. He has one of the best herds in the part of the country.

The Gowdy registered cattle is an old established and well bred line of Angus. Mrs. Lucille Gowdy of Jacksboro has developed them by years of careful breeding and selection. People who have attended the Cochran County Fat Stock Show during the last three years or either of those years have been attracted by the Angus calves fed by Charles Farmer.

All these calves were purchased from the Gowdy herd as well as those fed by Raymond and Freddie Lewis and Gene Williamson. These calves have all fed exceptionally well, and all of them have been outstanding.

Mr. Gowdy awarded an Angus calf to Charles Farmer in 1945.

George was awarded this calf by Mr. Gowdy because of his success as a 4-H feeder and on his feeding record. George has been feeding 4-H calves for the past seven years and has done a good job each year. He won a calf in 1945 awarded by the Dallas Chamber of Commerce and showed it at the Dallas Fair in 1946.

Allsup Chevrolet To Display New Vehicles June 28

The new Advance-Design line of Chevrolet trucks and commercial cars will be shown to the public June 28 in Morton it was announced today by Roy Allsup.

"All over the nation on that date, Chevrolet dealers will be exhibiting the new trucks," Allsup said. "We are having a special showing in Morton and cordially invite truck owners, fleet operators and others interested in trucks to visit our showrooms."

Advance information on the trucks, Allsup said, indicates that the line will be the most comprehensive in the history of Chevrolet and will feature driver comforts and conveniences not heretofore available in motor trucks.

"For the first time in the history of the automotive industry, a truck has been designed which has as a basic concept the comfort and safety of the driver," Allsup said. "We predict that the result will have the complete endorsement of truck owners and drivers."

Re-styled and precision-engineered, the Advance-Design line of trucks, Allsup declared, provides an efficient, dependable, safe and low-cost unit for practically every type of hauling and transportation requirement.

The display at the Allsup Chevrolet Co. will open at 9 a. m. and close at 5 p. m. daily. Trained truck men will be on hand to explain the features of the vehicles.

Magazine Racketeer Gets Term In Pen

According to reports received in Morton from the McCall Corporation of New York, William V. Trowbridge of Dayton, Ohio, was arrested in Miami, Florida, April 7, 1947; indicted at Dayton, Ohio, May 15; and sentenced on June 9 after a plea of guilty in the Federal District Court at Dayton on May 23, to serve one year and one day on each of three counts in two indictments, in the custody of the Attorney General.

Complaints from Morton were registered through local authorities with the FBI and Postal authorities after church women in the community had assisted J. T. Whitehead in soliciting magazine subscriptions on a commission basis. Whitehead apparently was an agent for and sent subscription orders to Trowbridge. Trowbridge kept the money and never reported the orders, according to Clifton Krausz, Local Agents Department for the McCall Corporation.

McCall Corporation has offered to make adjustments to subscribers of McCall Magazine and the Redbook. It is necessary to write to Krausz at 230 Park Ave., New York 17, N. Y., giving the amount paid and for what length of time. Krausz requested that receipts given by Whitehead be sent to him at the N. Y. address.

PAT HATCHERS HERE FOR TWO WEEKS VISIT

Mr. and Mrs. Pat Hatcher and son of Henrietta, Texas, arrived in Morton a few days ago.

Mr. Hatcher will assist with the harvest on his place northeast of town and do some necessary repairs on farm buildings.

They expect to be here about two weeks.

MR. AND MRS. A. H. HANCOCK and family visited in Lamesa Monday and Tuesday.

Voters To Decide Sell Or Lease Of County Hospital

The impending election to decide whether or not the Commissioner's Court sell or lease the new Cochran County Hospital is drawing fire from many different sources as election date, July 5, draws near.

Bonds for the construction of a county hospital were voted in Cochran county in 1945. The May 31, 1945, issue of the Morton Tribune carried a report from a Chamber of Commerce meeting held on the previous Friday at which time the hospital situation was aired.

According to the report 30 members were present for the Chamber of Commerce meeting; P. B. Ramby was president at the time. In the report Ramby was quoted as saying, "The success of the proposed county hospital will depend upon the management and the doctor." T. L. McAllister had this to say, "We have two issues at stake. We should have either a county hospital or a co-operative hospital. Unless we have something in the way of facilities to offer, no good doctor will want to come here."

John L. McGee said he believed 98 per cent of the American Legion members favored the county owned hospital. Willard Cox said, "I'm for a hospital. As long as we have started on this county hospital proposition, I'm for it. Maybe if it doesn't pay off we can sell it to a coop or a doctor." It was declared that 85 per cent of Cochran county taxes are paid by non residents and that if a hospital costing \$100,000 is built, resident property owners will pay only about \$15,000 of the sum.

W. B. Evans asked: "What kind of a hospital will best serve our needs? Any hospital depends on management. What can we get the quickest action on? There are men in the county who are capable of managing an institution of this nature."

It was declared that county hospital at Hereford was making a little money. C. B. Markham asked: "Does 'going in the hole' include county patients? We could care for them cheaper here than at Lubbock or Levelland."

President Ramby declared that a good doctor and a good manager could make a hospital profitable here. He said the estimate is that \$125,000 goes out of Cochran county each year to doctors and hospitals elsewhere.

The hospital has been built and is now very near completion and ready for occupancy. The Tribune is this week carrying paid advertisements on both sides of the question. Voters are urged to study the questions, make up their minds as to which issue they think will do the most people the most good; then go to the polls on Saturday, July 5 and vote.

Over 1000 persons paid poll taxes in Cochran county this year, there are many in the county with poll tax exemptions, including veterans who were discharged from service not longer than 18 months ago and the old folks of the county who are entitled to exemptions; the question is: do Cochran county voters appreciate the right to vote?

Are the institutions that give fine services appreciated, are local political affairs considered important, or taken for granted?

When local elections come up, only a handful of people respond and go to the polls. Witness the school tax election last Saturday! Let presidential election time roll around, the citizens get in a big sweat and rush to the polls. The vote of a Texan in a presidential election is almost useless.

Voters are urged to take an interest in local affairs, which are the sole responsibility of Cochran county citizens.

Each citizen's duty is to go to the polls for every election, not just wait for a presidential election.

St. Clair's Dept. Store In Process Of Enlargement

St. Clair's Department Store, located on the west side of the square is in the process of enlargement as workmen are this week tearing out old sheet iron walls and replacing with tile.

The building is being extended several feet in the rear and new brick and plate glass is being installed on the street side of the building.

VACATIONING

Mr. and Mrs. T. L. McAllister and family are vacationing at Cowles, New Mexico.

Cowles, located in the mountains near Santa Fe, is a favorite vacation spot for West Texans.

LEHMAN NEWS

The Lehman Home Demonstration Club met in the home of Mrs. J. W. Pond on Wednesday, June 18th. Mrs. W. G. Freeland, president, called the meeting to order at 2:30 p. m. and the usual business procedure followed. The group discussed a new reading list. Also some samples of material received by Mrs. F. L. Fred.

The president, then told of the drive on to raise funds for the 4-H club girls and Mrs. L. W. Marlair and Mrs. P. E. Liles volunteered to help the ladies in Morton Thursday.

Following the business session the meeting was turned over to Mrs. Liles who conducted a short contest between the Reds and Blacks. The Reds now lead in the membership contest which will run until the end of July.

The group then enjoyed and participated in a very interesting demonstration on "Making A Dress Form."

A very delicious refreshment plate served by the hostess brought a close to a lovely afternoon enjoyed by all.

Those present were, one new member, Mrs. R. J. Vinson; one visitor, Mrs. Dale Pond; and the following old members: Mesdames: E. L. Freeland, O. S. Taylor, E. N. Darland; Charlie Sanders, L. W. Marlair, L. C. Keith, W. E. Akins, Charlie Hickman, J. W. Rhodes, Lee Castle, P. E. Liles, F. L. Fred, W. G. Freeland, O. B. Huckabee and J. W. Pond.

Mr. and Mrs. A. A. Nance of Lubbock and Mr. and Mrs. Norman Rushing of Calvert were guests of Mr. and Mrs. Charlie Sanders on Sunday, June 15th.

Mrs. Don Boles, children and sister, Joyce, all of Clovis, visited in the home of Mrs. J. W. Pond last Tuesday.

Mr. and Mrs. Dale Pond have returned from an enjoyable week of fishing at Eagle Nest Lake. They were accompanied by Mr. and Mrs. Don Boles of Clovis.

Mr. and Mrs. R. P. McCall and children of Enoch, spent Sunday evening in the O. B. Huckabee home. After the two couples returned from Needmore where they enjoyed a ball game between Enoch and Needmore. Both Mr. McCall and Mr. Huckabee play with the Enoch team.

Mrs. P. E. Liles entertained with an ice cream party Sunday afternoon in honor of Christine Liles on her birthday. Those calling and enjoying the delicious cake and ice cream were: Mr. and Mrs. P. L. Leonard of Neely Ward, Mr. and Mrs. L. W. Marlair and Kay, Mr. and Mrs. Stanley Fortenberry and girls, all of Lehman.

The box supper to raise funds for the H. D. Council will be held July 25th at the Lehman school. Everyone is invited to attend. All the ladies are to bring boxes to be auctioned.

County Line News

Patsy and Barney Odom were guests in E. C. Wall home Saturday night.

Betty Eubank and Elaine Pugh spent Friday afternoon with Patsy Odom.

Barbara and Gracie McKey of Phoenix, Arizona, were guests of Misses Billye and Barion Burns the earlier part of the week.

Miss Christine Wilson and Allen Ray Holloway were honored with a birthday party Sunday afternoon. Many lovely gifts were presented to them. Refreshments of cake and kool-aid were served to the following: Misses Joan Melton, Junie Melton, Joyce Wilson, Calvete Rendleman, Constance Benedeman, Lois Courtney, Sondra Blevins, Gloria Blevins Oleta Blevins, Shirley Eubank, Linda Holloway, Geraldine Rector, Mary Ann Harris, Maxine Pugh and Ernest Wilson, Raymond Eubank, J. R. Wilson, Edward Courtney, Melvin Courtney, Gary Melton, Donald Wilson, and the honorees Christine Wilson and Allen Ray Holloway.

MR. AND MRS. EARNEST JONES VISITING DAUGHTER

Mr. and Mrs. Ernest Jones and daughter, Dolores of Topeka, Kansas, are visiting in the home of their daughter, Mrs. Leo Cunningham and Mr. Cunningham.

From Morton the Jones family will go to Los Angeles, California, where they will visit in the home of another daughter, Mrs. M. D. Conner and Mr. Conner and their two children.

MR. AND MRS. R. C. ROSS have recovered from severe food poisoning suffered last week.

Tribune, Morton, Cochran County, Texas, Thursday, June 26, 1947

-- annegrams -- by ann england --

After attending the Texas State Press Convention in Amarillo last week, we returned home with new enthusiasm for our work and many good ideas that we think will improve the Tribune.

There were newspaper people from all over the State of Texas, as well as public relations representatives from large oil and railroad companies, corporations, and even Neiman-Marcus (famed Dallas store) had a public relations representative there.

After all, most newspaper folk are engaged in public relations but some people get paid for it.

Actually overheard a delegate from around Houston ask a newspaperman from near Amarillo if the Cactus Plant's products were manufactured from Cactii.

Jean Crane, pretty little niece of Ruth and Forrest Weimhold, who is visiting them from the Panama Canal Zone, seemed to have a good time and collected a good many autographs from celebrities on the programs at the convention.

Jean was particularly thrilled with the autograph of Brent Flanniken, singing star of the New York stage show "Oklahoma." Brent sang for us at the Country Club Tea.

Mr. and Mrs. Claude Wells of the Memphis Democrat, inquired of W. W. Williamson and Mrs. R. T. Ray and expressed deep admiration and esteem for both of them. We too are very fond of Mr. W. and Mrs. R. And we like to know that the people we pick as TOPS are also regarded the same by others.

Which reminds us that the Sellers of Rising Star asked about Roy Hickman and they too had a lot of nice things to say about Roy. We promptly told them that Roy was retiring to a rocking chair about July 1. On second thought Roy may be planning to enter professional golf—to date he hasn't informed us of his future plans.

Speaking of the Sellers makes us think of their young, good-looking son, Wayne of Ft. Worth. We had asked the spouse several times what Wayne was like and his invariable answer was, "All I remember about Wayne Sellers is that he had a cute sister." Now isn't that just like a man?

Nugent Brown of Lorenza used us as an example in trying to persuade his wife to sell advertising. Mrs. Brown said, "I never felt as if I could go out and ask merchants to buy an ad." Well a funny thing about our ad selling is that we never feel we are selling an ad—rather we sell service or act as another member of the prospective advertiser's firm in that we are simply trying to help him sell his merchandise.

We heard while in Amarillo considerable discussion of unpleasant employer-employee relationship. Walter Casey of Beaumont, who spoke to the group at a luncheon on Thursday, very clearly expressed the opinion we have always held and that is "neither management nor labor own a job, actually there is no such ownership in a free country. Both are entitled to a normal subsistence, and both are entitled to work for a profit."

We have always felt that the man who is willing to risk his money in investment should be

shown due consideration for providing employment for those who are not able or willing to risk such an investment. We feel that an employee should have pride in his work and do his job to the very best of his ability and then if his efforts are not appreciated and he can not work with his whole heart in his job—then get out and do something else.

The Amarillo hosts to the convention certainly went all out to show us a good time. Mrs. Gene Howe and Mrs. Wes Izzard, the charming wives of two executives of the Globe-News were especially cordial and entertained ladies of the press at a delightful tea at the Amarillo Country Club.

We still can't figure out why goodlooking Gene Howe, publisher of Globe-News, is called "Old Tack" and why he runs that funny looking picture at the top of his splendid column?

The spouse bought us a complete paper hanging kit—which reminds us of the woman who was bragging on her husband as a fine provider. When asked why, she replied, "He bought me a tub and wash board so I could take in washing." Now just because we grab a piece of paper and some paste occasionally to patch the wall paper the spouse needn't get the idea that we are planning to make a regular business of it.

We shall certainly miss seeing pretty black haired Jo Ann Thompson at the coffee place each morning, when she leaves Morton around July 1. Jo Ann is a lovely girl and we have thoroughly enjoyed knowing her.

Some of our friends have been in and accused us of drumming up business for the Tribune by suggesting that controversial issues be put in black and white. Well—they are 100 per cent correct. After all the Tribune isn't published simply as a medium for printing annegrams.

Carl Macon called us Saturday night to report on election returns. He was certainly pleased with the results and we were pleased at his consideration in calling.

We left the convention early in order to get home and cast our vote. Felt we couldn't miss it as we have fussed around so much at everyone in general about not showing up at the polls when an important election comes up.

Most of the ladies at the press convention were wearing new and longer dresses. We couldn't afford new ones but did take the hems out of our three old ones. Unfortunately we didn't do anything about our petticoats and there was several inches discrepancy in hemlines.

We enjoyed seeing our old friends Jake Smyth of the Liberty Vindicator and John Manthey of the Cleveland Advocate—but missed their pretty wives, who stayed at home to keep their respective papers going.

We were all set to go dancing in "Old Tascosa" after the banquet Friday night and had even promised the first dance to Al Smith of Dallas when the spouse reminded us that we had been paying a foot specialist \$6.00 an hour to treat our old worn out feet. We didn't go to the dance and we just dare the spouse to

State Is Swept By Heavy Rains

Thunderstorms continued to sweep Texas Tuesday resulting in:

1. Death to a teenage girl struck by lightning on a Galveston beach.

2. A cloudburst at Kerrville.

3. A bridge swept away near Corsicana.

4. Destruction of a railroad bridge in Mexico, 30 miles south of Laredo, with Mexican train traffic suspended.

Dallas Girl Killed

Patricia Fairchild, 14, daughter of Mr. and Mrs. James Fairchild of Dallas, was killed Tuesday morning as she came ashore from a morning swim.

Officials, terming it the first such accident of its kind to occur on the Galveston beach, said apparently the lightning bolt struck several yards away from the girl but that her wet feet acted as a conductor.

Heavy Rains Reported

A 160-foot bridge was swept away at Williams Crossing on Chambers creek near Corsicana, according to County Commissioner J. N. George.

The railroad bridge washed out at La Jarita, Mexico, near Laredo, delayed train traffic. Torrential rains caused a flash flood there.

Kerrville had a five-inch rain late Monday, the heaviest in the state. Other heavy rains for the 24-hour period ending Tuesday morning: Corizzo Springs 2.45, Crystal City 2.40, Brenham 2.32, Lufkin 2.01, Bronson 1.69, Junction 1.55 and Harpersville 1.42.

say again in our presence that he is "henpecked."

Before leaving the convention we invited some of our favorite people to come and see us and sure enough soon after we got home Mr. Bill Rutherford and Mr. J. G. Nesbitt of Dumas were here drinking coffee with us at Vagabond house. Forrest also came over and we were certainly proud for our neighbors to see a new Buick and a new Cadillac standing out in front of our house. Mr. Nesbitt asked about his friends W. W. Williamson and Joe Nicewarner and told us some mighty nice things about both of them. Ruth and Jean remained in Lubbock for a wedding.

This column seems to be turning into an admiration society. We like compliments and judge everyone else by the same standard.

Statement to... Co-op Hospital Members

In October, 1945, the Board of Directors of the Co-operative Hospital Association, along with several other men from Cochran County, met with the Commissioners' Court, with all members present, and asked if the Co-operative Hospital Association might lease the County Hospital, to be run as a hospital for the county and surrounding region, upon its completion, as we had understood it was the intention of the county to lease it out.

It was agreed by the Commissioners' Court and the Co-operative Board of Directors that if the Co-operative Association would get as many as 400 members in Cochran County, they would lease the hospital building to the Association. Based on this agreement, we set to work and sold about 465 memberships in Cochran County, and about 100 memberships outside the county.

Some months later it was learned from a ruling by the Attorney General that the Commissioners' Court did not have the authority to lease the hospital to anyone. There has since been a law passed authorizing the Commissioners' Court to lease the hospital to someone else to be operated as a hospital after it has been voted on and passed by a majority of the qualified voters of the County.

We feel that we were justified in telling the people, to whom we sold memberships, that we would be able to lease the County Hospital.

Cochran County has been organized for about a quarter of a century, yet this large region of Texas and New Mexico of which Morton is the center has not until this year realized its ambition to have a modern hospital and a modern Medical Service.

By voting of bonds, Cochran County has met its obligation in leadership in this area and built a modern hospital which will be open to the public in a short time. This accomplishment was made possible by the public spirited leadership and work of a group of our local citizens.

If Morton is to continue to occupy its logical position as the economic and cultural center of this region of Texas and adjacent New Mexico, she must plan her new developments for the entire region, rather than the selfish interests of the county alone. Our merchants enjoy the trade of the entire region; we must allow the entire region to participate in our cultural and social developments. This applies more to a centralized medical service and hospital than to any other function the town could provide.

With this incentive to provide medical service for the region, in 1945 the Cochran County Cooperative Hospital Association was formed by representative citizens of the region. Its Board of Directors met with the Commissioners' Court, and asked for permission to lease the County's Hospital for the purpose of operating it for the welfare of the entire area. The Board was told that if 400 families became members that the hospital would be leased to the Association. Today there are 465 Cochran County families that are members of the Association in addition to many others of the nearby region.

In the election on the question of whether or not the hospital is to be leased to this Association apparently there is not a united front in organizing this medical service for the common good. This hospital and medical plan which we are organizing is so vital to the welfare of this region that every citizen of the county should be behind the movement.

In planning the building and purchase of equipment, allowance was made for equipment already owned by the Association which would be placed in the hospital without cost to the county. Also allowance was made for the fact that employees of the association, doctors, nurses, technicians, dentist and business manager, all would do the work in the hospital at no cost to the county. The result of this planning today is, according to county authorities, that **IF THE HOSPITAL IS NOT LEASED TO THE ASSOCIATION AS ORIGINALLY PLANNED AND AGREED UPON BETWEEN THE BOARD AND THE COMMISSIONERS' COURT, THAT AN ADDITIONAL ELECTION WILL BE NECESSARY FOR THE FOLLOWING TWO PURPOSES:**

1. TO VOTE BONDS FOR ADDITIONAL EQUIPMENT.
2. TO LEVY A TAX FOR THE ANNUAL MAINTENANCE COSTS OF THE HOSPITAL.

Your Cochran County Hospital Association is a representative group of the County and desires to lease the hospital only to make it available to all people of the county and region at the least possible cost to the tax-payers, by its operation by a non-profit organization instead of by maintenance by tax-payers money. There are many facts to be weighed in comparing the two possible plans of operation, County Operation or Association Operation.

1. The hospital could not be opened at once as additional elections would be necessary to vote bonds for equipment and to levy a tax for maintenance.

2. The hospital would not employ doctors and constant and emergency medical attention would not at all times be available.

3. There is a critical shortage of nurses and technical assistants in the county. A further delay would be occasioned by the search for such personnel.

4. The items, such as x-ray equipment, which the Association has ready to install in the hospital at no cost to the county are so critical today that they cannot be bought for a long time. Further delay would result from a lack of these essential items.

5. Besides the Association's doctor, there is only one other doctor in the county. There is no dentist, and there does not seem much likelihood of either another doctor or dentist settling here.

6. The County has had no experience in the operation of a hospital.

7. The tax-payer would immediately have to vote bonds for equipment and stand a new tax levied for maintenance of the hospital. **THUS A NEW DOUBLE TAXATION** at the time when we taxpayers can poorly afford it.

8. The history of all county hospitals under government management is that they operate at a loss, and that there is a constant expense for maintenance, and that any additions or improvements must be from the tax payers money.

1. The hospital could open almost immediately, as the additional equipment required is now owned by the Association, and the Association has funds to provide personnel needed.

2. The Association would install their office, with doctors, nurses,

technicians and dentist in the hospital and they would be available to the general public at all hours.

3. The Association has already obtained the services of well trained personnel and will be ready to staff the hospital immediately.

4. The Association has at present all of this essential equipment on hand ready to install at no expense to the county.

5. The Association already is negotiating with another M. D. and a dentist, both highly qualified men, to staff the hospital and serve the people at no cost to the county.

6. The Association has employees that have had extensive experience in the operation of hospitals. Our doctor is a well qualified surgeon and physician, who has had extensive experience in the management of hospitals in private and industrial practice, as well as in the Army and Veteran's Administration. His wife likewise is an experienced nurse and hospital executive. Our business manager has had five years in hospital management.

7. There would be no additional cost to the county. No further bonds will have to be voted and no tax will have to be levied.

8. The history of Association managed hospitals is that they can be operated at a profit, and that a reserve can be accumulated which can be used to improve service, buy additional equipment, and make additions. (As an example, Amherst Hospital started with 7 beds, and their success was so great that today with no cost to the tax-payer they are completing installation which will give them 85 beds. This expansion all accomplished in six years).

The Association is a non-profit organization, and no member of its Board of Directors receives any pay for his service, they being offered entirely in a public spirited motive for the general good and welfare of Cochran county and adjoining territory.

The Board of Directors and members of Cochran County Hospital Association are not a group of people trying to promote a business; we are a representative group of citizens and tax-payers, and we would like to see the entire county organized on the basis that we have proposed for providing the best possible medical service at the least possible cost to the tax-payer.

Realizing that the most important feature of any hospital or medical service is the type of professional personnel that serve us, we feel that we have provided, and have further plans to provide, a service that will be unexcelled. Our doctor is a well recognized surgeon, Fellow of the American College of Surgeons, who recently resigned an important post with Veterans Administration Chief of Surgeon for Texas, Louisiana and Mississippi to accept this position with us. His wife is a highly qualified, Registered Nurse, trained in Cincinnati, with experience in

the nursing profession in San Francisco and Los Angeles, and who had three years in overseas service as a Lieutenant, Army Nursing Corps.

We are at present negotiating with a younger doctor, highly qualified in surgeon and medicine to be assistant doctor. We are also negotiating with a well qualified dentist, at present in Dallas, to do our dental work. We also have arrangements pending with additional nurses to staff the hospital when it is ready to open. The size of our membership, and the amount of work we are doing makes this possible for us financially, whereas it would be a great tax burden for the county tax payers if the county attempted to do it. We ask your association with us in this work, and your cooperation in our plans to make Morton the Medical Center of this region.

"An All Sufficient Christ"

Jack Bullard

Going back to prophecy we find that Isaiah, 9:6, made this statement: "For unto us a child is born, unto us a son is given, and the government shall be upon his shoulder; and his name shall be called Wonderful, Counsellor, The Mighty God, The Everlasting Father, The Prince of Peace." We find according to Scripture Christ came from the bosom of the Father to the bosom of Woman, He put on humanity that we

might put on Divinity. He became man that we might become the Sons of God. These events has and will come about through the handy work of God the Father. Many today claim that the higher standard of the human race comes about through a form of evolution. To the person that has no regard for God's work perhaps things would be just as well and he would be as well off if he had evolved (sprung from monkey) as to have been born. In infancy Christ startled the Kings, Matt. 2:13:8:16. No child has ever been born that caused so much friction in the government and so much disturbance with the King as did Christ. In Boyhood He puzzled the doctors, Luke 2:46:47. In this He caused

all that were in the Temple to become astonished at his method of asking and answering questions. In Manhood He ruled the course of nature, Matt. 28:18. We find here that all power was given unto him but he was not a man of authority when it came to practical things. He did not try to rule the country or dictate to the people. He was stronger than the Devil, yet he fell victim of death, Matt. 4:1:11. After being able to overcome the devil, he gave himself up to be crucified. He was not a doctor, yet He never lost a case, Matt. 4:32. He was not a king but He was the Prince of Peace, John 14:27. He is Christ the Son of God, and He lives today, Rev. 1:12:18, Matt. 16:13:16. After considering these things

surely we would be able to see that He (Christ) would be an all Sufficient Christ. There is no one that we have had since or ever will have that we can go to as we can Christ. No one will ever be able to consider my case and your's and reach down in the mire of sin and rescue our souls from Eternal punishment. It is my desire that you give this your deepest consideration. Searching your own heart to find it's present position before God and then ask the Lord to help in time of need.

Be with us Sunday to study of a Christ like this, at the only church of it's kind in town. A hearty welcome awaits you at all services.

BOYCE HOUSE 'Gives You Texas'

Nothing which has been touched upon in this column in months has attracted as much comment as the recent criticism of the incident in Pawtucket, Rhode Island, where a man was arrested and fined for laughing. Nearly all the reaction from our readers has been favorable but several letters were received from Rhode Island, or former Rhode Island citizens and they took your columnist over the coals.

Their letters criticized Texas. In other words, the writers denied that I had the right to criticize their state but they had the right to criticize mine.

If Texans have faults—and of course we do have—that would be no excuse for the Pawtucket outrage—for that is what it is, an

Salvation Army Appeal Made In State For \$260,000

The Salvation Army State Headquarters in Dallas has launched a state-wide appeal for \$260,000. This announcement was made by Colonel Charles H. Dodd, divisional commander, from the Dallas headquarters this week. Mr. Nathan Adams, chairman of the board of The First National Bank at Dallas, is serving as treasurer of the fund and other state-wide committee members are to be announced at a later date.

Included in the overall campaign is \$50,000 toward a new state-wide hospital for unwed mothers in San Antonio; also \$25,000 for better facilities at the State Youth Camp at Irving. A portion of the fund will be used for rehabilitation of Salvation Army buildings in war-torn Europe. Part of the fund will go to retirement allowances for Salvation Army officers who reach the age of 65. Some of the money will be used for disaster work in Texas. The Salvation Army prison and morale work will benefit as well as the Training program for Salvation Army officers.

Letters are now being sent to some of the wealthy residents of the state, asking for their co-operation.

outrage. Our forefathers wrote into the Bill of Rights the assurance of freedom of speech, freedom of press and freedom of worship; they did not provide for freedom of laughter for the reason they never dreamed that anyone would question that right.

I have before me a letter from the mayor of Pawtucket who admits the man was arrested and fined for laughing but the fine was paid back, so that ought to make everything just ducky. The reason it was paid back was because editorial writers and columnists by the scores all over the nation protested. Was the chief of police fired or even reprimanded for making the arrest? Was the judge who levied the fine kicked out of office?

When the letters protesting the criticism made in this column came from men, I replied by mailing them a timetable showing the trains that leave Texas, northbound.

Those who don't like Texas ought to go back to the place they do like, then both they and we will be happy.

Agricultural Notes

by Roy Hickman, Jr., County Agent

The Department of Agriculture is offering loans to cotton growers at 92.5 per cent of parity for the 1947 crop.

One ounce of nicotine sulphate and a half bar of neutral soap, well-mixed with six gallons of water, is an effective control mixture against sucking insects in the garden.

The more people that get in the fight against flies early in the season, the less bother we'll have with flies this summer. Use DDT in barns, sheds, chicken houses, garbage cans and any other places where flies are gathering.

One pound of wettable DDT powder, mixed in 25 gallons of water, will spray about 25 head of cattle. Stockmen who have used DDT spray the past two years will testify that beef animals will put on an average of 80 pounds of flesh as a result of thorough spraying throughout the fly season.

One of the most deadly and dangerous pests in the U. S. is the housefly. His danger lies in the fact that he can carry, on his feet and on his body the germs of many deadly diseases including Typhoid fever, Cholera, Dysentery, T. B. Bobonic plague, Gonorrhea and Gangrene, and a carrier for tape, hook and ship worms.

Irrigated pastures, hay crops, cotton and grain sorghums will keep Plains agriculture on it's feet, and tend to prevent the livestock industry from folding up in the future.

The 1947 CCC Wheat Loan will be about \$1.80 per bu. The official loan rate has not been announced to date.

A five per cent DDT dust will control household ants.

The housefly will eat anything: manure, garbage, spittle, and rotting bodies of animals. He then may fly straight to your dining room, kitchen, to your food, face, or hands. Control of flies is easy with DDT.

The present wartime price-support program will end December 31, 1948.

At least eight million boys and girls will get meals this year under the National School Lunch Program, the Production and Marketing Administration estimates.

From 1941 to 1946, living costs of farmers went up 70 per cent. Forty per cent of the farm land in the nation is in farms of over 1000 acres.

An authority figures that if a pair of flies were married in April and all their descendants were to live and reproduce that by August the whole earth would be covered forty-seven feet deep by a solid mass of flies.

The average size farm in the United States is now 50 acres larger than 25 years ago and 20 acres larger than five years ago.

Over half the farm land in the nation is in farms of over 500 acres.

Farmers may get Farm Record books free at the County Agent's office.

The Department of Agriculture has announced the 1947 Grain Sorghum Loan, and No. 2 Grain Sorghum or better, will average about 2.10 cwt. for Cochran county—this is on farm stored grain.

An Explanation of the Hospital Situation

Two years ago a group of men, interested in the welfare of the people of Cochran County and its trade territory, met to discuss ways and means of improving our medical standards here.

We had no hospital in the county, and only one Osteopathic Doctor. We had been forced to go to other towns for medical service of any importance. This was very expensive, in both time lost and traveling expense, also the cost of treatment was prohibitive to many of our people after they had gone to these other places. It forced many people to postpone badly needed operations, the removal of tonsils and other medical treatments.

After visiting some county hospitals and talking with their county officials who advised against counties getting into the hospital business, we decided to investigate the co-operative hospital at Amherst, Texas. We visited their hospital and found to our surprise a large modern hospital, that was really rendering service to the people of that area, on a pre-paid medical plan, which is nothing more than medical insurance and is definitely not socialized medicine, administered by local people, on a non-profit basis. We talked to the business men of the town and found they were supporting the organization very much. The farmers and other people of that area were also supporting it. We came back home and called a meeting to explain and discuss it. At this meeting we organized what is now the Cochran County Co-operative Hospital Association. A pre-paid, non-profit medical association, dedicated to putting the cost of medical service in reach of the average, working man.

At this organization meeting we elected a temporary board of directors to run the business affairs of the association until we were ready to open for business. I was elected chairman of this board, and served as such until January 25, 1947, when we elected a permanent board of directors. This board is composed of seven men from this area, four from Cochran County, namely, D. E. Benham, Morton, John Moss, Whiteface; Fred Young, Bledsoe; and P. J. Ausmus, Neely Ward; H. B. Abbe, Enochs; A. N. Rilev, Pettit; and A. M. Chad-dick, Milinsand, N. M.

These men were chosen by their neighbors to represent them on this board. The reason for having three members from outside the county, is simply to make the people from those areas feel that they are welcome at Morton and that they have something to work forward to. We are interested in building a medical association that will draw people to Morton as far as 100 miles away.

I refused a place on this board, but later accepted the place of Secretary-Treasurer of the association. I felt honored by being elected by people who are interested in such a vital

and noble cause, and putting the health of the people first. I had been chairman of this temporary board for over a year before my friends induced me to run for public office again, and I had actively supported it with my time and money. I never ceased to support it during my campaign and I don't intend to let my friends or the organization down now. I am not riding the fence, trying to play both sides; I still believe in our Co-operative Hospital Association and the good work it is doing. Our doctor has seen an average of 25 or 30 patients per day since we opened our clinic. We have a well qualified M. D. and Surgeon and our clinic and his services are available to the public as a member or non-member.

There are a few facts I feel like I should put before you here as your County Judge. 1. There has been about \$25,000 worth of equipment purchased for the County Hospital by the Commissioner's Court. The money that was voted and the warrants that were issued has all been spent and more. The hospital still lacks an X-ray Machine, an Electro-cardiograph, Basal Metabolism, Diathermy and a number of other pieces of equipment to go into the Hospital to complete the necessary equipment. If the county is to operate the Hospital, Bonds will have to be voted or the money raised some way to purchase these other pieces of equipment. The Co-operative Association has all this equipment, which the cost runs in excess of \$10,000 and has agreed to put it into the County Hospital to be used by any qualified M. D. The use of this equipment will not cost the county anything.

2. If the County is to run the Hospital, the Commissioner's Court will be forced to put a tax levy on all taxable property in the county not to exceed 10c per one hundred dollars valuation, to raise money to staff and operate the Hospital.

3. The county does not plan to hire a doctor. If the county is to run the Hospital, you must take your doctor with you when you go to the hospital, or call him after you get there.

4. If the county is to run the Hospital it will take several months to purchase and get delivery on the X-ray Machine and the other equipment. You may ask why it hasn't already been ordered. 1. Lack of county funds to pay for it. 2. Didn't know who would operate it upon completion.

I have tried to put the facts before you in a clear manner, and I ask you to go to the polls and vote your sentiments.

Thanking you, G. W. THOMPSON

Swing Of Southwest Farm Markets

Many southwest farm markets showed a slight ease in prices last week, but some held firm. Corn and milo rose to even higher levels, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Eggs held firm last week, but poultry prices showed slight ease in many places. Eggs brought 37 cents per dozen at Denver, Amarillo, and Austin; 37½ at New Orleans; around 38 at Fort Worth, Dallas and San Antonio; and 41 at Houston.

Cotton Carnival At Memphis October 3 and 4

"Discovering Cotton" will be the theme of the eighth annual Cotton Research Congress at the Baker Hotel in Dallas, July 16, 17 and 18, Burris C. Jackson, Hillsboro, general chairman of the Statewide Cotton Committee of Texas, announces.

This theme will be carried on in five half-day business sessions, a special night program, and extensive exhibits that will be on display throughout the Congress, Jackson said.

National-known authorities in many varied branches of the cotton industry have accepted invitations to participate in the 1947 Congress which will present a complete review of research developments and outlook, production and processing, merchandising cotton and cottonseed products and numerous other timely subjects of interest to cotton growers, businessmen and others.

Women will be especially interested in a night program of the Congress, July 17, which will feature Hope Skillman, outstanding New York designer of cotton fabrics, the wardrobe of the 1947 "Maid of Cotton" which has been displayed throughout the United States and in Europe but is being shown in Texas for the first time, and other features. This phrase of the program is being arranged by the National Cotton Council of America.

Resources for cotton research will be the topic for the opening session of the Congress, Wednesday morning July 16; and the evening session devoted to cotton production and preparation discussions with special emphasis on cotton merchandizing problems.

Markets for cotton and cottonseed products and the influence of industrialization on cotton will be the subjects stressed in Thursday's sessions, with authorities discussing both American and foreign markets. A luncheon with an outstanding national speaker and the evening session devoted to cotton fiber, fabrics and fashions are scheduled that day.

Cotton in the agricultural economy of the South is the topic for the final Congress session Friday, with speakers from Texas, Mississippi, Georgia and other states participating.

All Congress sessions are open to the public, and invitations are being extended to state and national farm, industry and other leaders to attend and participate in open forum discussions that will be held at the conclusions of addresses at each session.

Carrying out the theme, "Discovering Cotton", the exhibits will include numerous displays of "hidden uses" of cotton and cottonseed products by Texas manufacturers and distributors.

This added feature this year is expected to attract wide attention, according to D.T. Kilbough, College Station, exhibits chairman.

More than 20 states and several foreign countries are expected to be represented among the cotton growers, ginners, oil millers, merchants, editors, fashion leaders, research and educational leaders and others attending, Jackson said.

You're traveling 1,100 miles a minute, with the earth around the sun.

San Antonio; and common to good kinds \$15 to \$17.50 at Denver. Medium to good steers and yearlings moved at \$17.50 to \$23.50 at Fort Worth; and steers \$21 to \$24.50 at Oklahoma City.

Butcher hogs closed the week steady at Oklahoma City, but fell mostly 25 to 50 cents or more at other southwest terminals. Sows sold generally 50 cents to \$1.50 lower, and feeder pigs dropped at San Antonio. Late high price on butchers was \$24.50 at San Antonio and Fort Worth; \$24.75 at Oklahoma City and Wichita; and \$26 at Denver.

Oct. 4 Adopted As Press Day at 1947 State Fair

The joint meeting of the Texas Press Association and Texas Newspaper Publishers Association June 19 adopted October 4 as official Press Day at the 1947 State Fair of Texas.

The motion was adopted by the general assembly at the Herring Hotel after Secretary Deskin Wells read an invitation from W. H. Hitzelberger, executive vice president and general manager of the State Fair of Texas. Declaring that the press and radio of Texas and the State Fair of Texas have long been partners in the progress of the Southwest, Mr. Hitzelberger invited the newspapermen to a full day of activity at the State Fair.

Headline events of Press and Radio Day will include a barbecue luncheon served by the Chuck Wagon Club of Odessa, a performance of the Broadway musical hit show, "Annie Get Your Gun", starring Mary Martin; the White Horse Show, and a night football game between Southern Methodist University and the University of Missouri.

"The friendship and support of the Press have been responsible, to a great degree, in making the State Fair of Texas the largest and finest fair or exposition in the country," said Mr. Hitzelberger in his invitation letter to the convention. "The State Fair looks upon the Press and Radio of Texas as the most important single group among the thousands of public-spirited groups and individuals who work for the continuing success of this great Southwestern institution."

More than a thousand newspapermen and their families were guests of the Fair on opening day last year.

The present wartime price-support program will end December 31, 1948.

At least eight million boys and girls will get meals this year under the National School Lunch Program, the Production and Marketing Administration estimates.

From 1941 to 1946, living costs of farmers went up 70 per cent. Forty per cent of the farm land in the nation is in farms of over 1000 acres.

An authority figures that if a pair of flies were married in April and all their descendants were to live and reproduce, that by August the whole earth would be covered forty-seven feet deep by a solid mass of flies.

The average size farm in the United States is now 50 acres larger than 25 years ago and 20 acres larger than five years ago. Over half the farm land in the nation is in farms of over 500 acres.

Farmers may get Farm Record books free at the County Agent's office.

The Department of Agriculture has announced the 1947 Grain Sorghum Loan, and No. 2 Grain Sorghum or better, will average about 2.10 cwt. for Cochran county—this is on farm stored grain.

An Explanation of the Hospital Situation

Two years ago a group of men, interested in the welfare of the people of Cochran County and its trade territory, met to discuss ways and means of improving our medical standards here.

We had no hospital in the county, and only one Osteopathic Doctor. We had been forced to go to other towns for medical service of any importance. This was very expensive, in both time lost and traveling expense, also the cost of treatment was prohibitive to many of our people after they had gone to these other places. It forced many people to postpone badly needed operations, the removal of tonsils and other medical treatments.

After visiting some county hospitals and talking with their county officials who advised against counties getting into the hospital business, we decided to investigate the co-operative hospital at Amherst, Texas. We visited their hospital and found to our surprise a large modern hospital, that was really rendering service to the people of that area, on a pre-paid medical plan, which is nothing more than medical insurance and is definitely not socialized medicine, administered by local people, on a non-profit basis. We talked to the business men of the town and found they were supporting the organization very much. The farmers and other people of that area were also supporting it. We came back home and called a meeting to explain and discuss it. At this meeting we organized what is now the Cochran County Co-operative Hospital Association. A pre-paid, non-profit medical association, dedicated to putting the cost of medical service in reach of the average, working man.

At this organization meeting we elected a temporary board of directors to run the business affairs of the association until we were ready to open for business. I was elected chairman of this board, and served as such until January 25, 1947, when we elected a permanent board of directors. This board is composed of seven men from this area, four from Cochran County, namely, D. E. Benham, Morton, John Moss, Whiteface; Fred Young, Bledsoe; and P. J. Ausmus, Neely Ward; H. B. Abbe, Enochs; A. N. Rilev, Pettit; and A. M. Chadwick, Milinsand, N. M.

These men were chosen by their neighbors to represent them on this board. The reason for having three members from outside the county, is simply to make the people from those areas feel that they are welcome at Morton and that they have something to work forward to. We are interested in building a medical association that will draw people to Morton as far as 100 miles away.

I refused a place on this board, but later accepted the place of Secretary-Treasurer of the association. I felt honored by being elected by people who are interested in such a vital

and noble cause, and putting the health of the people first. I had been chairman of this temporary board for over a year before my friends induced me to run for public office again, and I had actively supported it with my time and money. I never ceased to support it during my campaign and I don't intend to let my friends or the organization down now. I am not riding the fence, trying to play both sides; I still believe in our Co-operative Hospital Association and the good work it is doing. Our doctor has seen an average of 25 or 30 patients per day since we opened our clinic. We have a well qualified M. D. and Surgeon and our clinic and his services are available to the public as a member or non-member.

There are a few facts I feel like I should put before you here as your County Judge. 1. There has been about \$25,000 worth of equipment purchased for the County Hospital by the Commissioner's Court. The money that was voted and the warrants that were issued has all been spent and more. The hospital still lacks an X-ray Machine, an Electro-cardiograph, Basal Metabolism, Diathermy and a number of other pieces of equipment to go into the Hospital to complete the necessary equipment. If the county is to operate the Hospital, Bonds will have to be voted or the money raised some way to purchase these other pieces of equipment. The Co-operative Association has all this equipment, which the cost runs in excess of \$10,000 and has agreed to put it into the County Hospital to be used by any qualified M. D. The use of this equipment will not cost the county anything.

2. If the County is to run the Hospital, the Commissioner's Court will be forced to put a tax levy on all taxable property in the county not to exceed 10c per one hundred dollars valuation, to raise money to staff and operate the Hospital.

3. The county does not plan to hire a doctor. If the county is to run the Hospital, you must take your doctor with you when you go to the hospital, or call him after you get there.

4. If the county is to run the Hospital it will take several months to purchase and get delivery on the X-ray Machine and the other equipment. You may ask why it hasn't already been ordered. 1. Lack of county funds to pay for it. 2. Didn't know who would operate it upon completion.

I have tried to put the facts before you in a clear manner, and I ask you to go to the polls and vote your sentiments.

Thanking you, G. W. THOMPSON

Swing Of Southwest Farm Markets

Many southwest farm markets showed considerable easiness at week, but some held firm, and corn and milo rose to even higher levels, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Eggs held firm last week, but they showed slight easiness at some places. Eggs brought 37 cents per dozen at Denver, Amarillo, and Austin; 37½ at New Orleans; around 38 at Fort Worth and San Antonio; and 41

Cotton Carnival At Memphis October 3 and 4

"Discovering Cotton" will be the theme of the eighth annual Cotton Research Congress at the Baker Hotel in Dallas, July 16, 17 and 18, Burris C. Jackson, Hillsboro, general chairman of the Statewide Cotton Committee of Texas, announces.

This theme will be carried on in five half-day business sessions, a special night program, and extensive exhibits that will be on display throughout the Congress, Jackson said.

National-known authorities in many varied branches of the cotton industry have accepted invitations to participate in the 1947 Congress which will present a complete review of research developments and outlook, production and processing, merchandising cotton and cottonseed products and numerous other timely subjects of interest to cotton growers, businessmen and others.

Women will be especially interested in a night program of the Congress, July 17, which will feature Hope Skillman, outstanding New York designer of cotton fabrics, the wardrobe of the 1947 "Maid of Cotton" which has been displayed throughout the United States and in Europe but is being shown in Texas for the first time, and other features. This phrase of the program is being arranged by the National Cotton Council of America.

Resources for cotton research will be the topic for the opening session of the Congress, Wednesday morning, July 16; and the and the evening session devoted to cotton production and preparation discussions with special emphasis on cotton merchandising problems.

Markets for cotton and cottonseed products and the influence of industrialization on cotton will be the subjects stressed in Thursday's sessions, with authorities discussing both American and foreign markets. A luncheon with an outstanding national speaker and the evening session devoted to cotton fiber, fabrics and fashions are scheduled that day.

Cotton in the agricultural economy of the South is the topic for the final Congress session Friday, with speakers from Texas, Mississippi, Georgia and other states participating.

All Congress sessions are open to the public, and invitations are being extended to state and national farm, industry and other leaders to attend and participate in open forum discussions that will be held at the conclusions of addresses at each session.

Carrying out the theme, "Discovering Cotton", the exhibits will include numerous displays of "hidden uses" of cotton and cottonseed products by Texas manufacturers and distributors.

This added feature this year is expected to attract wide attention, according to D.T. Killough, College Station, exhibits chairman.

More than 20 states and several foreign countries are expected to be represented among the cotton growers, ginners, oil millers, merchants, editors, fashion leaders, research and educational leaders and others attending, Jackson said.

You're traveling 1,100 miles a minute, with the earth around the sun.

San Antonio; and common to good kinds \$15 to \$17.50 at Denver. Medium to good steers and yearlings moved at \$17.50 to \$23.50 at Fort Worth; and steers \$21 to \$24.50 at Oklahoma City.

Butcher hogs closed the week steady at Oklahoma City, but fell mostly 25 to 50 cents or more at other southwest terminals. Sows sold generally 50 cents to \$1.50 lower, and feeder pigs dropped at San Antonio. Late high price on butchers was \$24.50 at San Antonio and Fort Worth; \$24.75 at Oklahoma City and Wichita; and \$26 at Denver.

Oct. 4 Adopted As Press Day at 1947 State Fair

The joint meeting of the Texas Press Association and Texas Newspaper Publishers Association June 19 adopted October 4 as official Press Day at the 1947 State Fair of Texas.

The motion was adopted by the general assembly at the Herring Hotel after Secretary Deskin Wells read an invitation from W. H. Hitzelberger, executive vice president and general manager of the State Fair of Texas. Declaring that the press and radio of Texas and the State Fair of Texas have long been partners in the progress of the Southwest, Mr. Hitzelberger invited the newspapermen to a full day of activity at the State Fair.

Headline events of Press and Radio Day will include a barbecue luncheon served by the Chuck Wagon Club of Odessa, a performance of the Broadway musical hit show, "Annie Get Your Gun", starring Mary Martin; the White Horse Show, and a night football game between Southern Methodist University and the University of Missouri.

"The friendship and support of the Press have been responsible, to a great degree, in making the State Fair of Texas the largest and finest fair or exposition in the country," said Mr. Hitzelberger in his invitation letter to the convention. "The State Fair looks upon the Press and Radio of Texas as the most important single group among the thousands of public-spirited groups and individuals who work for the continuing success of this great Southwestern institution."

More than a thousand newspapermen and their families were guests of the Fair on opening day last year.

Cash-In Seen For GI Bonds

WASHINGTON—A prediction that Congress will vote at this session to permit veterans to cash their terminal leave bonds immediately was made Wednesday by Speaker Joseph W. Martin Jr. (Rep.) of Massachusetts.

Martin told newspapermen that Congress, using "savings"

obtained through budget reductions, could permit payment of the leave bonds right away and thus reduce the national debt against which they are now charged. Treasury figures show that veterans now own \$1,830,455,000 worth of the bonds.

Martin said the measure should allow veterans to retain the bonds until they mature, if they wish to do so.

From where I sit... by Joe Marsh

Crazy Hat Wins Refrigerator!

One of those "Breakfast in the morning" radio shows came to Capitol City last week, and Sarah Carey won first prize for wearing the craziest hat in the audience. It was a full-sized refrigerator! (The prize, not the hat.)

"Glad them hats of hers paid off at last," says Ed, treating the whole thing like a joke. But you would see he was proud of Sarah.

From where I sit, there's another thing Ed can be proud of: the way she's put up with those hats of Sarah's, with never a criticism; just

as she's put up with Ed's pipe and the other little freedoms he enjoys.

They've got that refrigerator home now, stocked with beer; and we're going over tonight to drink a toast—not just to Sarah's hat-taking first prize... but to a happily married couple, who've learned to live with one another's differences in tastes—whether it's a taste for hats or beer!

Cotton Research Congress Slated For July 16-17-18

Plans are well under way to stage the first West Texas Cotton, Chemurgic and Ceramics Carnival at Memphis, Texas, October 3-4. James F. Smith, President of the Memphis Chamber of Commerce, has announced.

Taking the theme of natural resources and their relation to industry, more than 47 West Texas counties are being invited to participate in the two day "Western Mardi Gras."

Governor Beauford H. Jester will head a host of state officials to the commemoration events and a score of national and state officials of the Cotton and Chemurgic councils have pledged attendance.

Exhibits will be shown on all phases of cotton and its products; the Chemurgic exhibits alone will tax the display space capacity, according to officials. Every type of clay to be found in West Texas will be shown along with the products they make.

Street shows, athletic events, street dances, in fact every form of amusement and entertainment will be presented free in an "around-the-clock" schedule.

The parade to be covered by news reel cameramen, press photographers and correspondents will be staged Saturday morning, Oct. 4 and will afford an opportunity for each riding club, each community and individuals to march. Floats depicting the natural resources of the area will compete for cash awards.

The West Texas Queen of Cotton will be crowned in Memphis to climax the attractions. She will be awarded an all-expense-paid trip to her choice of three glamorous cities and will also be feted by both state and national cotton agencies.

"In the past," President Smith explained, "West Texas has been identified strictly as a cattle country. Yet one-twelfth of the world's supply of cotton is grown in this region; some of the outstanding premium grain crops of the nation originate in West Texas, and our clays are being used for everything from cosmetics to building materials. We hope to make this an annual attraction and focus the spotlight on our natural resources and to prove to industry the advantages of locating in this virgin Empire of opportunity."

Town and communities boasting outstanding entertainment talent are cordially invited to assist in making the Carnival attractions more amusing. A gigantic review composed of this talent will be presented in Memphis' large amphitheatre.

318,000 Drivers Lose Licenses In Past Year

About 318,000 drivers lost their licenses during 1946 as a result of traffic law violations.

A nation-wide survey conducted by the American Administrators disclosed that the chief cause of suspensions was lack of financial responsibility on the part of drivers involved in accidents. That accounts for one-fourth of all suspensions. Drunken driving was the second greatest cause of suspensions.

The association—made up of state vehicle administrators—said this was the first time national totals on license suspensions and revocations had been published. Therefore, it pointed out, it was impossible to say whether the figure was high or low.

State of Texas Takes Over On-the-Job Training

Veterans administration regional office at Lubbock announced today that the State of Texas has assumed complete responsibility for inspection and approval of all facilities for on-the-job training of World War II veterans under Public Law (GI Bill).

In addition, the state has taken over the supervision of 6,043 West Texas firms, establishments and shops presently conducting on-the-job training for veterans.

VA advised that all future requests for inspection and approval of concerns to train veterans on the job under the GI Bill should be addressed to—State Approving Agency for Veterans Education, Land Office Building, Austin, Texas.

The Veterans Administration regional office emphasized that it had not relinquished supervision of some 4,000 veterans engaged in job training but that sufficient funds have been allocated to the state in order that it may inspect and supervise the facilities which provide the training.

This arrangement will enable the VA to intensify its efforts toward rehabilitating disabled or physically handicapped war veterans. Formerly, VA's own training facility officers made surveys and forwarded reports to Austin for approval or disapproval.

VA further pointed out that it would continue the inspection and approval of all educational institutions, as well as all facilities where veterans are being rehabilitated under Public Law 15. At present, more than 2,000 disabled veterans are pursuing courses of vocational rehabilitation under supervision of the West Texas VA regional office.

More Funds For Cattle Disease Campaign Asked

A supplemental appropriation of \$1,500,000 for the campaign against the foot-and-mouth disease in Mexican cattle through June 30 was requested today by Secretary of Agriculture Anderson.

Testifying before a Senate appropriations subcommittee, Anderson said that amount is needed to meet the cost of indemnities paid to Mexicans whose cattle have been slaughtered under the disease control program.

Several weeks ago Congress appropriated \$9,000,000 to carry on the work through the current fiscal year. An appropriation of \$65,000,000 to continue the work through the year beginning July 1 has been recommended by the budget bureau and agriculture department.

Facts on the... HOSPITAL ELECTION

I believe it is about time to clear up a few facts about the coming Hospital Election. Since it concerns all of us through taxation and possibly all of us through sickness, I am thoroughly convinced that we should lay down the hoe on July 5, go to the polls and vote to our honest convictions as to the good of Cochran County.

Local so called service organizations which are composed of ex-service men from Cochran and surrounding counties voted to oppose the lease of the Cochran County Hospital to any group or individual. They would have you believe that only members of the Co-op would receive medical treatment if it were leased to the Co-op. This is a ridiculous falsehood and those who spread it know it is such. If you vote to give the Commissioners the authority to lease the hospital it will undoubtedly be leased to the Co-ops. This merely means that the Co-op Association will staff the hospital with COMPETENT Personnel which are at the service of non-members as well as members. If, however, you do not wish to use the Co-op doctors you are free to bring in the doctor of your choice.

Now let's get back to the organizations called the American Legion and V. F. W. I will now say that I have been a member of both but I am not a member of either at present. On June 5, the American Legion voted 15 strong to oppose this hospital measure. On June 12, the V. F. W. voted unanimously to back the stand made by the American Legion. I'm sure from attendance records in the past that the combined vote of the two would be less than 25 individual votes. Out of this 25, I would say that at least 20 live in the populated area of Morton. A vote held in these organizations through the busy

farm season is about as conclusive of veterans' opinions as a liquor election would be to the general public if held between the hours of 11 and 12 on a Sunday morning.

It is indeed unfortunate that these organizations, which were designed for the benefit of the veteran and the community have fallen into such selfish hands. These individuals know that an advertisement with their names signed to it would have no political significance whatsoever, so they are hiding behind the skirts of the Veterans Organizations.

If any of these individuals should contradict these words just ask him who paid for the American Legion Advertisement in this paper. I can assure you that ex-service men paid very little if any of it. It was paid for by other selfish interests in Morton who are not eligible to join any ex-service organization. In some cases their ineligibility is due to their own tenacious efforts to evade the call of the local draft board. A couple of years ago we had a name for their kind.

I am convinced that by voting to lease the Cochran County Hospital that more of our citizens will benefit from it as such, and at the same time Morton will increase its trade territory favorably. Isn't that what we want?

Signed—JOE BENNETT.

— Written and paid for by Joe Bennett —

"The Bread Basket Of The Nation" Verbally Portrayed By Radio Stations

PERRYTON, TEX.—Radio stations WOAI, San Antonio; KGNC, Amarillo, KSEL, Lubbock; KW-HW, Altus, Okla.; KPND, Pampa; and KHUZ, Borger, gathered here over the week-end to verbally portray "The Bread Basket of the Nation's picture of a potential 10,200,000 bushel bumper crop from 340,000 acres of golden wheat.

Photographers from a five state area registered to compete for the \$1,000 cash prizes offered by the Perryton Chamber of Commerce, Lee Little, manager, announced. The contest closes July 25.

Combine crews, from as far as Canada, including caravans of trucks, combines, laborers, mechanics, blacksmiths, and even medical units and cook shacks stood by waiting the green light to enter fields, which growers say will be ready Sunday.

Some of the largest growers within the county, awaiting harvesting conditions are: Luther Wade, 2,000 acres; J. H. Neufield, 1,700 acres; Reece Taylor; L. L. Lance and Sons, 3,500 acres; W. W. Blackburn; J. L. Blackburn and Ray Wright. All predict a better than 30 bushel per acre

average. Ochiltree county, defending champion of producing the most grain of any county in America, is feuding with adjoining Hansford county, Deaf Smith county, former national champ; Texas county, Okla. and Ford county, Kans. One of these counties will unquestionably be crowned the national champion for 1947.

The "Bread Basket of the Nation" is host this week to dignitaries and celebrities of the nation. The city is also telling the world that wheat, the staff of life, is coming in record quantities. Bread for a hungry world, is originating in this area.

LOOKING AHEAD

By George S. Benson, President, Harding College, Searcy, Ark.

STORY WITH A MORAL

One time there was a young man, the younger son of a well-to-do farmer. Times were good, prices were high. It was a period of prosperity for everybody. Apparently, spending had got to be a habit with most of the folks in that community. At any rate, this son saw that others were having a good time spending money. Since everybody's doing it, he thought, why shouldn't I enjoy myself?

So this fine young man who had all the opportunities one could wish for, and a brilliant future in sight, kept after his father until one day "the old man settled him off" with a good deal of money. This country boy then went to town, and set out to have himself a better time than he had ever had before. He spent more money than he had ever spent before. Friends were numerous, Playboy super-deluxe, this young man had swarms of lady friends. But they required money.

He Achieved Wisdom

Now, you are wondering, if you have read this far, whether this misguided and pampered lad ever quit spending. He did. He quit spending when a depression set in, for that was the time when he found himself unable to obtain any more money. At this point, our broken down playboy began to think. Wisdom was forced upon him and he learned the hard way. He found he couldn't even buy a sandwich, and pandhandling was out of the question. Rather than starve, he took a farm job feeding pigs.

If this lad had done what some of our so-called statesmen advocate, he would have continued to borrow and spend. But having thought the matter through, he went to work, even though his hunger was scarcely outdone by that of the pigs he was sent to feed. He had spent all, and he was in want. You may read the rest of this story in Luke 15, for it is the story of the Prodigal Son who finally came to his senses.

No Money Mill

Must we as a nation spend all that we have before we come to our senses, like the Prodigal Son? With signs of depression approaching, we continue to spend and spend, apparently from habit. Doing little or nothing about our monstrous national debt of \$260,000,000,000, we continue to look around trying to find things for which to appropriate money. We have come to count off our years as "spending" years, in terms of the next budget and appropriations bills.

It is easy to justify any and every expenditure. Constituents in each and every community represented by Senator Bloake and Congressman Doake can spot a whole book of reasons why this or that pet project must go through. Folks are inclined to think that the money for the whole thing is a gift, just because they don't see where it comes from. But the founding fathers did not leave at Washington a mill which flows out perpetual dollars.

Day of Reckoning

Maybe it's not a nice thought, but you can't keep on spending money without knowing where it's coming from. This was a fact the Prodigal Son discovered. Neither can you safely manufacture currency to carry through your spending projects. Either course will soon lead to dire results. A day of reckoning will come to a country that spends all it has, just as it did to the Prodigal Son. Let us have more wisdom than the Prodigal, who found that he could repent only when hard times struck him.

Our spending, as opposed to saving, has created a situation that calls for the best brand of intelligent citizenship. It is already time to go to work. We must also impress upon our legislators that if they are to be statesmen, not mere politicians, they must conserve the wealth of the country rather than lavishly spend it. Without being penny wise and pound foolish, we ought to adopt fiscal policies that will cut down our growing debt. There's no prospect of doing this unless we do it while times are good.

Retail Furniture Prices Expected To Remain Stable

Retail furniture prices are expected to remain stable throughout the Southwest, according to a survey recently completed by H. E. Dill, secretary of the Retail Furniture Association of Texas and editor of the Southwest Furniture News.

The survey emphasized the fact that retailers are "price-reflectors", rather than "price-creators"; that retail furniture dealers are now operating on a lower profit margin than they did under government price control, and that the only price reductions expected were reduction to balance inventories.

The volume of business done by the furniture manufacturers during the first five months in 1947 exceeds 1946 by 33 per cent, according to J. T. Ryan, vice president of the Southern Furniture Manufacturers Association. Mr. Ryan in a communication to Mr. Dill said that total factory output for the remainder of 1947 was expected to be in excess of 1946 production.

Interim Cotton Loan Rate Up Cents Pound

Interim cotton loan rate of 4 1/2 cents per pound has been announced by the U. S. Department of Agriculture, according to Keith, chairman, Cochran County ACA.

The rate applies to 1947 crop of 7 1/8 inch cotton, "gross" at an average location. The actual loan rate for 1947 is as much or more than the interim rate. The interim rate has been announced for the early growers in South Texas whom to use before the loan is announced. The law requires that the loan rate be based on the average ten spot market of August 1st.

Because of an increase in parities, the current interim is 4 1/2 cents above the 1946 rate. A cotton loan rate 4 1/2 per cent of parity as of August 1 is mandatory under the legislation Act of 1942. Loans are available until May 1, and will mature July 31, or earlier upon demand.

George Stokes Speaker At Hockley-Cochran Baptist Conference June 17

Speaking to the Baptist Workers Conference of the Cochran-Hockley association June 17, George Stokes, director of the Wayland College enlargement campaign, discussed plans to train Christian students at Wayland and send them out to jobs all over the world.

Workers from the two counties attending the conference, held at Fairview Baptist Church near Levelland, heard Stokes explain plans for making Wayland into a four-year college and world mission center.

Stokes told of the program to enlarge Wayland's course of study and housing facilities so that students can be trained in fields varying from radio to agriculture and sent to foreign countries, where they will work in their chosen profession and at the same time do Christian work and assist the missionaries in that section.

He said that Dr. J. W. Marshall, president-elect of the college, now has a record of 100,000 government, industrial, technical and teaching positions scattered around the world, which he wants to fill with Christian-trained laymen.

Others on the program were L. A. Harless, Sunday School superintendent at Smyer, who gave the devotional; Paul Reid, Sunday School Superintendent at Fellowship church, who spoke on "A Layman's Place in the Church"; Rev. Vic Allen, pastor at Smyer, who discussed "Christ

the Head of the Church"; and Rev. Pat Gordon, pastor at Fellowship church, who talked on "The Great Characteristics of the Church". Rev. C. H. Hardin, pastor at Sundown, presided.

ORDER CALLING HOSPITAL ELECTION STATE OF TEXAS COUNTY OF COCHRAN

This the 28th day of May, 1947, the Commissioner's Court of Cochran County convened in Regular Session with all members of the Court present, to-wit:

1. L. M. Baldwin, Commissioner of Precinct No. 1;
2. E. C. White, Commissioner of Precinct No. 2;
3. John Kennedy, Commissioner of Precinct No. 3;
4. C. G. Shaw, Commissioner of Precinct No. 4 and;
5. G. W. Thompson, County Judge,

together with T. W. Pierce, County Clerk, when, along with other business coming on for consideration, there came the business of consideration of a petition of W. B. Hodnett, R. Z. Boren, J. E. Erwin, and 149 other resident property tax-paying voters living in Cochran County, such petition requesting the Commissioner's Court to call a Special Election to determine whether the Commissioner's Court of Cochran County, Texas, shall be authorized to sell or lease the Cochran County Hospital as provided in House Bill No. 419, of the 50th Legislature of the State of Texas, the which bill having now been enacted into law and being now effective.

And the Commissioner's Court after consideration of such Petition finds that such Petition is in due form and that the signers of such petition are in number at least 10 per cent of the qualified resident tax-paying voters of Cochran County, as required by such law.

IT IS THEREFORE ORDERED, ADJUDGED, AND DECREED BY THE COURT that such Hospital Election be called, and such Hospital Election hereby is called, for the purpose of letting the resident, qualified tax-paying voters of Cochran County determine by their ballot whether or not the Commissioner's Court of Cochran County, Texas, shall be authorized to lease or sell the Cochran County Hospital in accordance with House Bill No. 419, 50th Legislature of the State of Texas, aforesaid.

Such election shall be a Special Election, and shall be held and conducted throughout Cochran County at the regular voting places, and shall be so held and conducted under the General Election laws of the State of Texas now in force, returns of such election, and canvass thereof, to be made to and by the Commissioner's Court of Cochran County, Texas, as the law directs.

The regular election officials appointed by the Commissioner's Court of Cochran County shall hold and conduct such election and make return thereof. The date of such election shall be Saturday, July 5, 1947; and the County Judge is hereby ordered to give notice of such election by posting and publishing notices thereof as the law directs, 30 days prior to such election date, exclusive of the date of this Order and of the date of such election.

The ballots to be used by the voters at such election shall contain the following propositions:

"For Authorizing the Commissioner's Court To Sell Or Lease The Cochran County Hospital."

Against Authorizing The Commissioner's Court To Sell Or Lease The Cochran County Hospital."

The County Judge of Cochran County is hereby ordered to cause notice of such election to be published by posting a signed copy of this Order at each polling place, in each election precinct in Cochran County; and in addition thereto, said County Judge shall publish a true copy of this order in the "Morton Tribune", a newspaper published in Cochran County, Texas, in the issues of June 26, and July 3, 1947, of such newspaper. And, such posting and publication of such signed copies of this Order shall be sufficient Election Notice for all purposes in connection with such election.

Commissioner Shaw introduced this order and moved its passage; Commissioner Kennedy seconded the Motion; the County Judge called for a vote upon the Motion as read, which contained this Order, and all members of the Commissioner's Court voted the "Aye", and none voted "No".

The County Judge declared the order duly passed and the election duly called, and ordered this Commissioner's Court Order spread upon the Minutes of the Commissioner's Court in its regular place.

G. W. Thompson, County Judge, Cochran County, Tex.

ATTEST: T. W. Pierce, County Clerk, Cochran County, Texas.

Pampa Rodeo-Horse Show To Be Held Aug. 5-9

The Top O' Texas Rodeo and Horse Show to be held in Pampa on August 5-9 will feature three horse shows. The Palomino Show will be held on Tuesday, August 5, featuring a reining contest on Tuesday night.

The official American Quarter Horse Show will be run off on the 6th and 7th with grand champion trophies being awarded by the American Quarter Horse Association in addition to the cash prizes totaling well over \$500.00. A reining contest will be held in connection with the show, with all entry fees being added back as prize money plus a trophy for the winner.

The National Quarter Horse Show will be held on Friday and Saturday August 8 and 9, with

Firestone Tires

at
McAlister - Huggins

prizes and trophies being furnished by the National Quarter Horse Association. Only 115 stalls will be available for each of the three shows, first come, first served, according to Quentin Williams, General Superintendent.

Rodeo performances will be held on Wednesday, Thursday, Friday and Saturday nights, August 6, 7, 8, and 9. Arrangements are being made for the world famous Hardin-Simmons Cowboy Band to play for all rodeo performances as well as the big street parade at 4:00 P. M. on Wednesday, August 6.

Stock for this year's rodeo will be furnished by Goat Mayo of Petrolia, Texas, who will also serve as arena director. Fifteen hundred dollars in prize money plus half of all entry fees is expected to draw the largest entry list in the history of the show.

The cowgirl sponsor contest will again be a special added attraction with a beautiful hand-stamped saddle as first prize, a hand-tailored riding outfit as second prize, and a pair of shop made boots for third prize. All entry fees will be added back as day money.

Soil fertility, soil composition, rainfall, erosion, leaching, and climatic conditions are all vitally concerned in profitable animal production.

LIVESTOCK LIFE LINES

The skin of a young calf is quickly burned by direct sunlight.

Cooked potatoes, fed as part of a moist mash, make good feed for chickens.

Weanling pigs usually develop nicotinic acid deficiency if fed too much corn.

The crowding of farm animals into inadequate quarters favors the spread of disease.

Vaccination of animals, especially cattle, immediately before they are shipped is a dangerous practice.

ANTU, a rat-killing compound developed through wartime research, is poisonous to pets and livestock.

At calving time, cows should be fed a ration containing laxative components, such as bran, molasses and oil meal.

In areas where rabies is prevalent in dogs, there is apt to be a correspondingly high incidence of this disease in livestock.

Weekly SURPLUS NEWS WAA

Solution to the vocational training and rehabilitation problems of Texas schools, colleges and public health institutions was offered this week in a plan to donate nearly 300 items of machine tools now in government surplus at Grand Prairie and Amarillo Army Air Field. Qualified educational, health and charitable institutions may receive without cost such special purpose equipment as reamers, lathes, taps and dies and presses by submitting written application to the Grand Prairie regional office of War Assets Administration. Application instructions and complete listing may be obtained on request to the WAA Priority Claimants Division, Box 6030, Dallas.

Garages over the country will welcome an opportunity to bid on automotive parts and maintenance equipment offered to the general public without priorities until July 7 through the Customer Service Center of the Grand Prairie regional office of War Assets Administration. The greater number of the items are listed as unused and include spark plug gaskets, cylinder sleeves, main bearings, locking nuts, seat frames, bushings, housing, lamps, disc wheels radiator rods and bumpers.

El Paso city officials have filed a letter of intent to purchase 24 buildings currently advertised for sale at the El Paso Municipal airport.

Popular bidding on electrical equipment supplies will be conducted by the Customer Service Center of the Grand Prairie regional WAA office until June 30.

Flashlights, fluorescent lamps, G. E. lamps, fuses, and photo lamps are included in the lot. Priority groups have had previous opportunity to fulfill their needs from this category.

From steam locomotives to platform skids are offered to the competitive bidding of the public in a lot of industrial equipment for sale through the Customer Service Center of the Grand Prairie regional office of WAA. The bid opening date is July 8. Also listed for sale are lift trucks piston assemblies, air cleaners, belts, starter controls, hand trucks and electric conveyors.

Tribune, Morton, Cochran County, Texas, Thursday, June 26, 1947

Health Officer Congratulates Texas Dairymen

Dr. Geo. W. Cox, State Health Officer, endorsing the observance of June as National Dairy Month, today released a statement congratulating Texas dairymen on the remarkable progress they have made in the past few years.

"It is gratifying to note that where 20 years ago there were no evaporated milk, powdered milk, or cheese plants in Texas, now this State produces all 6 of the major dairy products: butter, milk, ice cream, butter, evaporated milk, cheese, and powdered milk."

Dr. Cox pointed out that last year Texas made 25,396,000 pounds of butter, 13,699,000 pounds of cheddar cheese, and over 30,000,000 gallons of ice cream.

"Milk is our most nearly perfect food," Dr. Cox said. "It is rich in proteins, vitamins A and C, and the minerals, calcium and phosphate."

"The State Health Department is indeed glad to join with the

County Line H. D. Club Social Held In Chesshir Home

Mrs. J. H. Chesshir entertained members of the County Line H. D. Club and their families with a social at their home Friday night, June 17.

Refreshments derived from the club sale are to be used in promoting the 4-H Club program and all members are urged to participate.

Present for the social were: E. Blevins and family, C. C. Kennedy and family, R. C. Cotton and family, R. R. Selby and family, Jerry Harrison, Elaine and Fugh.

GO TO CHURCH SUNDAY.

A BIT OF SHOPPING IN PANAMA

Naval Reservists on a training cruise of the USS Wisconsin spend part of their liberty ashore in Colon, Republic of Panama, selecting presents for the folks back home. They are among 600 Reservists from the Third, Fourth, and Ninth Naval Districts recalled to active duty, temporarily, for two weeks of training aboard the "Wisky." The cruises afford the Reserve sailors a chance to learn of the latest developments in the navy. As a part of the Wisconsin cruises there are two days of liberty in Panama for sightseeing and shopping. Many of the men bring back perfumes, lingerie, alligator skin luggage, white shirts, summer suits and other items which are obtainable at prewar prices.

R. T. Ray Home Scene Of Garden Club Meeting

Mrs. R. T. Ray was hostess to the Cochran County Garden Club at her home on June 17, 8:30 P. M.

Mrs. C. H. Silvers gave an interesting discussion on flower arrangements for Church and Altar.

During a business session Mrs. Gayle Bishop and Mrs. C. A. Moore were elected into the club as new members.

Refreshments were served by the hostess to the following members: Mesdames Paul Robertson, Carl Alexander, C. W. Davis, David C. Todd, E. Greer, H. S. Hawkins, Roy Hill, L. E. Huggins, Carl Macon, Albert Morrow, Courtney Sanders, L. W. Ray, Hestie B. Spotts, C. H. Silvers and Misses Lanora Jackson, Mabel Ann Manley and Mary Hope Norfleet.

MRS. S. W. HAWTHORNE INJURED IN FALL

Mrs. S. W. Hawthorne is confined to a hospital in Plainview with a broken arm.

She has been in Plainview several days visiting relatives and received the injury when she fell last Friday.

MEMO To Mrs. Housewife

NATIONAL PRESS BUILDING WASHINGTON, D. C.

By Anne Goode

Hubby will be able to buy a two-piece suit by Easter, manufacturers say. There'll be an extra charge, though.

Present buyer-resistance indicates that shoes will be cheaper in the months ahead. Recent sales have been up only a small percent, which means that considering higher prices the public may be really buying fewer shoes than a year ago. . . . Many people to keep their leather footwear in good condition until they can afford new ones.

Some 1947 seed catalogs are featuring vegetable variations. One, for example, is coming out with the first "true hybrid eggplant." Another shows a new cucumber and a new tomato.

Winter cabbage is one of the best sources of Vitamin C. A tasty salad that's eye-tempting, too, is one of cole slaw garnished with cinnamon apples. The cole slaw is the usual mixture of shredded cabbage, seasonings and real mayonnaise. The apples are cooked in a syrup of sugar, water and cinnamon sticks tinted with red food color. Last of all they're chilled and sliced on the cole slaw.

Don't forget that old red nail polish can be thinned and used to label your glass ice box jars.

Mrs. R. C. Cotton Hostess To County Line H. D. Club

The County Line H. D. Club met at 2:30 p. m. June 17, in the home of Mrs. R. C. Cotton.

The following members were present: Mesdames J. H. Chesshir, W. J. Cotton, R. R. Selby, R. C. Blevins, E. C. Berry, C. C. Kennedy, K. A. Wilson and W. K. Courtney. There was one visitor, Mrs. George Cotton of Levelland.

Mrs. W. K. Courtney gave the prices of unbleached domestic and H. D. Club pins.

Mrs. K. A. Wilson gave a report on the money that had been taken in by donations for the 4-H Club activities and also how much is still needed.

Mrs. R. C. Cotton won the glass as prize for the evening. Mrs. R. C. Blevins' team won the second game.

Mrs. K. A. Wilson announced that she would have a club social the night of July 1, for the purpose of raising 4-H club funds. It will be a Tacky Party with everyone invited.

Club adjourned at 4:00 P. M. to meet July 1, in the home of Mrs. R. R. Selby.

VISITED KENNEDYS

Miss Meredith Myrick, Stanton, Texas, niece of Mrs. Lloyd Kennedy, was a visitor in the Kennedy home last week, enroute to Dallas where she enrolled as a student at Baylor University.

FROM LUBBOCK

Mrs. W. W. Buck of Lubbock arrived Monday for a visit with her parents, Mr. and Mrs. W. A. Johnson.

Mr. and Mrs. Buck, recently returned from a vacation and fishing trip to Brownwood, Texas.
