

## Agricultural Classes; Distributive Educational School In Operation

October 15, 1946, the first vocational rehabilitation school for Cochran county veterans was established at Morton, with an enrollment of about 16 veterans. This was one of the first Vocational Agricultural Schools to be established in this district.

At that time approximately 100 more veterans of Cochran county and southern Bailey county were enrolled in the Agricultural School in Morton, there being at the present time 3 classes in operation.

The first and only Distributive Educational School for veterans was established on the plains at Morton on July 1. The first enrollment of this school consisted of 18 veterans at present time there are 25 men going to the local Distributive Educational School.

The Agricultural School consists of shop mechanics, welding, analysis and fertilization, animal husbandry, medical care, stock and general agricultural management. While in the Distributive Educational School, salesmanship general, keeping typing, advertising, educational general, are the subjects being taught.

Vocational Rehabilitation schools are principal and vital benefits for veterans are unable to go to colleges or business schools. Also subsistence allowance which is received enables the veteran who is in training to combine with well established business and trades. And whereas veterans in training are receiving subsistence allowance, the money spent by the veterans stays at home.

105 veterans enrolled in Vocational Schools of Cochran county receive an average of approximately \$90.00 each. This amounts to a payroll of over \$9,450 per month. Besides this amount salaries are being paid to men employed by the local vocational schools. Also there are 10 veterans who are training as apprentices in the industry. These men receive an average of about \$50.00 per month subsistence allowance.

Following the decision of several members of Whiteface, a Trades Industry School may be established in that city. Such a school if established would expand rapidly and would be of great benefit to that city and to Cochran county. Also there will be a new enrollment of Agricultural and Distributive Educational School students on September 8, of this year.

If a veteran cannot go to college, then the local Vocational schools are next in importance and efficiency.

George Keith, Whiteface, Cochran county 4-H Club boy has been judged the winner in District 2 in the Producer Grain Corporation Talent Club Contest.

George's narrative on his 4-H Club Achievements gave him first place when selected by a Committee at Texas A. and M. College, College Station, Texas, on August 1, 1947.

He won a free trip to Amarillo and will attend a luncheon in his honor there on August 20. George will be accompanied on this trip by Homer E. Thompson, County Agent. They will attend an all day meeting as guests of the Producers Grain Corporation of Amarillo.

In discussing George and his achievements Thompson said, "George is to be commended on his fine 4-H record, especially since two other counties competed in this contest. He is now working on the Santa Fe Award, which means a free trip to Chicago for the winners; his record and efforts look good to me for winning this award."

The following is a summary of George's achievements in 4-H Club work: 1, Active member for seven years; 2, President of local 4-H Club work for two years; 3, President of County 4-H Club for one year; 4, Reporter for local 4-H Club for two years; 5, Reporter for County 4-H Club for one year; 6, He has fed 47 4-H Club calves; 7, Fed 38 4-H Club swine; 8, Made six talks on 4-H club work at the Morton Lions Club, two at Morton Chamber of Commerce and one radio broadcast; 9, Sold \$11,940.00 worth of livestock; 10, making a profit of 6,245.00; 11, purchased \$3,500.00 in war bonds; 12, won a calf awarded to District by Dallas businessman and showed at State Fair in 1946; 13, Awarded a registered Angus Steer by Gowdy Angus Ranch in 1947; 14, He was awarded \$25.00 by F. O. Masten for outstanding 4-H Club work in 1946; 15, Chairman of War Bond Sales during the war; 16, He is now Scoutmaster for cub scouts at Whiteface; 17, Leader of county 4-H group at District 4-H club camp in 1945 and 1946.

## George Keith Outstanding 4-H Club Member

George Keith, Whiteface, Cochran county 4-H Club boy has been judged the winner in District 2 in the Producer Grain Corporation Talent Club Contest.

George's narrative on his 4-H Club Achievements gave him first place when selected by a Committee at Texas A. and M. College, College Station, Texas, on August 1, 1947.

He won a free trip to Amarillo and will attend a luncheon in his honor there on August 20. George will be accompanied on this trip by Homer E. Thompson, County Agent. They will attend an all day meeting as guests of the Producers Grain Corporation of Amarillo.

In discussing George and his achievements Thompson said, "George is to be commended on his fine 4-H record, especially since two other counties competed in this contest. He is now working on the Santa Fe Award, which means a free trip to Chicago for the winners; his record and efforts look good to me for winning this award."

The following is a summary of George's achievements in 4-H Club work: 1, Active member for seven years; 2, President of local 4-H Club work for two years; 3, President of County 4-H Club for one year; 4, Reporter for local 4-H Club for two years; 5, Reporter for County 4-H Club for one year; 6, He has fed 47 4-H Club calves; 7, Fed 38 4-H Club swine; 8, Made six talks on 4-H club work at the Morton Lions Club, two at Morton Chamber of Commerce and one radio broadcast; 9, Sold \$11,940.00 worth of livestock; 10, making a profit of 6,245.00; 11, purchased \$3,500.00 in war bonds; 12, won a calf awarded to District by Dallas businessman and showed at State Fair in 1946; 13, Awarded a registered Angus Steer by Gowdy Angus Ranch in 1947; 14, He was awarded \$25.00 by F. O. Masten for outstanding 4-H Club work in 1946; 15, Chairman of War Bond Sales during the war; 16, He is now Scoutmaster for cub scouts at Whiteface; 17, Leader of county 4-H group at District 4-H club camp in 1945 and 1946.

152 legal instruments and 109 chattel mortgages were filed in the county clerk's office during the month of July.

5 marriage licenses were issued in July: Lowell Webb and Margaret Ann Weeks; Vernie Armstrong and Edna Earle Fulton; Ralph Jackson and Bobbie Beatrice; Durwood Horn and Bessie Jennings; Warren Hopkins and Mary Francis Nichols.

Two births were registered: Mr. and Mrs. Leon Harrison, a girl, Norma Raye Harrison, born July 16; Mr. and Mrs. Nievev Martinez, a boy, Gilberto Martinez, born July 19.

Linda Jane Hawkins arrived at a Levelland hospital on July 31. She weighed eight pounds, seven ounces and is the second daughter and third child of Mr. and Mrs. Scott Hawkins.

Linda's brother is Thomas Scott, age nine and her sister is Marilyn Sue, age six.

**Pupils Presented In Recital At First Methodist Church**

Mrs. L. L. Price presented her piano pupils and Girl's Chorus in a recital at the First Methodist Church on Friday night, August 1 at 8:30 p. m.

Piano pupils presented were: Misses Barbara Jo Kendall, Doris Gardner and Jimmie Taylor.

In the Girl's Chorus were: Misses Nelda Joy Childs, Carolyn Moore, Bobby Gast, Shirley Robinson, Joyce Ramsey, Joy Minor, Jaudine Alexander, Katherine Fleenor and Sue Macon.

# Five Whiteface Men Allege New School Tax Unconstitutional

In a suit filed in District Court on July 31 by Charles Coffman, E. V. Burton, J. C. Casey, R. V. Hudgens and J. A. Taylor, against County Judge G. W. Thompson; Commissioners L. M. Baldwin, E. C. White, John Kennedy, G. C. Shaw and County Tax Assessor-Collector Mac W. Hancock; the five Whiteface men allege that the new school tax is unconstitutional and have petitioned District Court Judge Daniel A. Blair for an injunction to restrain Cochran county from levying, assessing and collecting the tax pending a final hearing on the act.

## Suit Filed to Prevent Tax Collection Pending Final Hearing on New Law

The suit follows an election held in Cochran county on June 21, at which time the majority of votes cast were in favor of the new school maintenance tax as provided for in Senate Bill 211 passed by the Fiftieth Legislature.

Declaring that since neither notice nor intent to apply the act was published in Cochran county or the Whiteface Independent school district in compliance with provisions and requirements of the Constitution of the State of Texas, the petition sets forth that Bill number 211 is unconstitutional and therefore void and of no effect or force.

The act empowers the Commissioners' Court and the County Tax Assessor-Collector at the time other taxes are levied to levy, assess, collect and distribute the proceeds from the annual tax not to exceed twenty-

cents on the \$100.00 valuation. This added revenue would extract approximately \$6,000.00 more in taxes from county tax payers and would add about \$36,000.00 to school funds. If Judge Blair accepts the petition and places a temporary restraining order on Cochran county, pending final hearing on the constitutionality of Bill 211, the public schools of Cochran county will in effect lose this amount of money so essential in the maintenance of the county schools now in a deplorable condition.

"TEXAS' LAST FRONTIER"

VOLUME VIII

MORTON, COCHRAN COUNTY, TEXAS, THURSDAY, AUGUST 7, 1947.

NUMBER 23.

## Reckless Drivers And Drunks Booked By Police

Activities of City Marshal Tom Neal over the week-end included booking four men on a charge of speeding; two men charged with intoxication; one man charged with driving while drunk and another, a Mexican was charged with violation of the liquor law.

The first four offenders paid fines in City Court; the two charged with intoxication and the one on a charge of disturbing the peace, paid fines in Justice of the Peace Court. While the others paid fines in County Court.

## Federal Grant Made For Local Airport

Tentative allocation of Federal funds in the amount of \$6,050.00 for improvement of the Cochran County Airport has been set aside, according to communication from the Department of Commerce Civil Aeronautics Administration.

The amount set aside is to be matched by a similar amount from the community. If the \$6,050 Federal fund provided for Cochran county is matched by local funds, it will mean improvement for the airport as well as added revenue for Morton with the addition of a GI Flight Training Program.

There is also a definite possibility that commercial planes will make use of the airport if it is improved and brought up to CAA standards.

## \$6,050 Available For Improvement

The amount set aside is to be matched by a similar amount from the community. If the \$6,050 Federal fund provided for Cochran county is matched by local funds, it will mean improvement for the airport as well as added revenue for Morton with the addition of a GI Flight Training Program.

There is also a definite possibility that commercial planes will make use of the airport if it is improved and brought up to CAA standards.

## Morton-Lubbock Round-Trip Bus Schedule In Effect

With the new bus schedule inaugurated in Morton a few days ago, passengers may now make a round trip to Lubbock and back on the same day.

The Texas-New Mexico and Oklahoma bus arrives in Morton each morning at 9, departing at 9:10 and arriving back in Lubbock at 10:40 a. m. On the return trip the bus leaves Lubbock at 2 p. m. arriving in Morton at 3:30.

## Local Officers Probe Theft At St. Clair's Store

Theft of money from cash registers in St. Clair's Department Store, now under extensive remodeling, was under investigation by local officers this week.

James St. Clair, owner of the store, said that money used for change and kept in several registers in the store had been opened and contents removed by thieves who got into the store sometime after closing hours Saturday and opening Monday morning.

St. Clair thought the robbers gained entrance to the building through the roof.

## Last Rites Held Sunday For Mrs. J. B. Nicewarner At Missionary Baptist

Funeral services were held at the Missionary Baptist Church, Sunday at 3:30 p. m. August 3, for Mrs. J. B. Nicewarner, wife of Vice-President of Morton's First State Bank, Mrs. Nicewarner, expectant mother, died in a Lubbock hospital at 6:10 a. m. Saturday.

Rev. T. L. Bullard, pastor of the Missionary Baptist Church, conducted the service assisted by Rev. W. C. Wright, pastor of the First Baptist Church. An Eastern Star service was held here before the body was taken overland to

## Texas Wranglers To Play Aug. 6-7 On Wallace Stage

Wallace Theatre in Morton will present the Texas Wranglers two nights, Wednesday and Thursday, August 6 and 7, in person on the stage.

The Texas Wranglers stage show carries six people, and this group of entertainers is built around the famous Trout Family. There are four of the group from this family, and they are native Texans, living down in Central Texas, Evans, Texas, to be exact.

Muri Alexander is the leader of the Texas Wranglers, and he carries with him the wonder Hollywood Horse, Smoky Boy, who has appeared in many western pictures. This horse, where stage space permits, does an act all his own, being put through his paces by his trainer, Muri Alexander. This horse weighs 1,000 pounds, and is an apple day horse.

Curtis Trout, member of the famous Trout family, is a show stopper in his own right, inasmuch as he sings and plays equally well. All the juveniles in the cities that this group appears in, have all gone crazy over Curtis. He has a grand personality and sells his songs with great effect.

Every show has to have comedy, and in this show is a character named "ELMER". This comedian plays all kinds of instruments, and does the playing of some of them backwards. The kids love him.

The Texas Wranglers are soon due back in Hollywood to do some more picture work, and they are now making a tour over their favorite and home state of Texas, sometimes jumping over into Colorado and New Mexico. You may secure autographed pictures of the group in the lobby of the theatre.

## West Plains Hospital-Clinic Caring For Many Before Formal Opening

Despite the fact that the West Plains Hospital and Clinic has not been formally opened for bedcare of patients a large number of patients have been cared for both in the out-patient clinic and in the hospital. Tonsilectomies and minor surgery are being performed every day.

Necessary equipment for the hospital, particularly in the operating rooms, is expected momentarily. Long distance telephone calls to the manufacturers have

assured hospital personnel that other equipment is being shipped as promptly as possible under existing material shortages.

The hospital is a bee hive of activity with interior workers installing hardware, venetian blinds, etc. Kitchen workers are washing and putting away the many necessary kitchen items.

Nurses and nurses' aids are running up and down the corridors taking care of the patients who are in the hospital. Upon completion of installation of signal service from patients rooms to the nurses station this portion of the nurses service will be simplified for both patient and nurse.

**Driver's License Law Applies To Scooters**

AUSTIN—Terms of the motor vehicle license law apply to children who putter around on power scooters or in toy automobiles.

Chief A. F. Temple of the driver's license division of the department of public safety warned Monday that many under-age children are violating the law because they are ineligible for operator's licenses.

He said the law provides 16 as the minimum age for obtaining a license, except where children have completed approved driver-education courses in the schools. In these instances, licenses are granted after examination to children 14 years of age.

## Clerk CAF-5 and CAF-6 Positions Announced

The Civil Service Commission announces examination for the position of Clerk CAF-5 and CAF-6.

Salary ranges from \$2644 to \$3021 per year.

Employment will be in various Federal agencies in the state of Texas.

Application forms and further information may be obtained from any 1st or 2nd class post Office in the state of Texas, or from the Regional Director, Fourteenth U. S. Civil Service Region, 210 South Harwood Street, Dallas 1, Texas.

**West Plains Hospital Notes**

Patients admitted for treatment and observation since August 2:

Mrs. Anne Smith, Oklahoma City, for medical treatment.

Mrs. Nettie Kerr, Morton, medical treatment.

Rev. W. H. Burns, Maple, medical treatment.

## L. F. Hargrove To Construct Tile Building

Lots on the southeast corner of the square next to Worley and McCulloch real estate office were surveyed and staked off Monday in preparation for the construction of a tile building on the property owned by L. F. Hargrove.

Hargrove expects construction of the building to get underway in a few days.

## COCHRAN COUNTY OIL NOTE

Stanolind Oil and Gas Company No. 1 Hall, section 13, block L, psi survey, Cochran County deepening operation on the southeast side of the two-well Landon pool, was drilling plug with hole bottomed at 7,504 feet.

## Miss Marilyn Dove Arrived In Morton Last Week From Baltimore, Maryland

Miss Marilyn Dove, 14 year old daughter of Mr. and Mrs. Wendell S. Dove, arrived in Morton last week from Baltimore, Maryland, where she has been a student at Park, a private school for girls.

Marilyn will remain in Morton with her parents and plans on entering school here in September.

## EMPLOYED AT STEAK HOUSE

Misses Joyce Goodman and Rose Sihon who have been working in Lubbock the past two months are back in Morton and are at present employed at the Steak House.

## Matched Roping Seagraves Rated For Sun.

Events were being completed for the matched roping between Buddy Fort and Riley to be staged in Seagraves Sunday, August 10.

At Lovington, New Mexico, Riley, who hails from Seagraves, will rope 10 brahma steers in a match that has experts guessing. Both are among money contenders in the events this year.

Events to be held at the Seagraves roping arena Sunday include a jackpot roping and racing on a track adjoining arena. The new covered stand and bleachers at the arena will accommodate 2,000 spectators.

Two brahma calves purchased recently from the Bailey ranch at Seymour and ready for the roping events.

Motor caravan will leave Seagraves Thursday morning to take the event, visiting Springfield, Lovelland, Morton, Tatum, Lovington, Hobbs and Seminole.

## Wallace Theatre Managers Contest Won By Levi Self

Levi Self, manager of the Wallace Theatre here, has been named as winner in the Wallace Theatre Manager's slogan contest conducted over the Wallace circuit recently.

Self, who won first on the number of entries, finished third in advertising campaign. He has given a cash award.

Lena Bonine of Rails with entry, "Home of Reel Entertainment" was slogan winner. Bonine's entry was selected from more than a thousand entries from many towns over South Plains.

## FE CARLOADINGS

Santa Fe System carloadings for week ending August 2, 1947, were 31,741 compared with 28,150 for same week in 1946. Cars shipped from connections total 11,150 compared with 12,003 same week in 1946. Total cars loaded were 42,891 compared with 40,138 for same week in 1946. Santa Fe handled a total of 39 cars in preceding week of year.

## Swing Of Southwest Farm Markets

Except for cotton, most farm products found steady to strong markets last week, according to the Production and Marketing Administration, U. S. Department of Agriculture. However some minor easiness developed in livestock and vegetables.

Active demand for a wide range of cotton qualities failed to stem the downward trend. Prices sagged steadily most of the week, and netted losses of around \$7.50.

Grain prices dipped lower toward midweek but more than recovered later on. Corn soared toward new high marks and closed Friday at \$2.98 for No. 2 white and \$2.41 for yellow in bulk carlots at Fort Worth and Galveston. Barley gained 8 cents.

Eggs and young chickens continued to sell at firm prices last week, as demand remained good. Mature poultry held about steady in most places. Low grade and current receipt eggs ranged generally from 30 to 35 cents per dozen, while medium grade candled eggs brought around 40 to 45, and top grade 45 to 50, some higher.

Slaughter cattle showed a great deal of easiness on southwest markets last week, while most replacement classes sold at steady to higher levels. Houston took common to medium stocker steers and yearlings at \$13.50 to \$16.50, and calves at \$11 to \$12.50. San Antonio bought medium to good stocker calves at \$16 to \$20, and yearlings at \$15 to \$19. Fort Worth paid \$17 to \$21.50 for medium to good stocker and feeder steers and yearlings, and Oklahoma City gave \$17.50 to \$21 for yearlings. Medium to good stocker steers and yearlings brought \$17 to \$20 at Wichita.

Most hog markets closed the week 25 to 50 cents or more higher but Fort Worth and Oklahoma City netted slight losses on butcher classes. Closing top was \$26.50 at San Antonio and Fort Worth; \$27.50 at Oklahoma City; and \$28 at Wichita.

### WHY IRISH LINEN WASHES FASTER

Laundry research reveals that dirt is often held to a fabric by electrical attraction. The soap suds in your washer break the attraction and the dirt is flushed out into the water. Some fabrics, as every woman knows, hold on to dirt very stubbornly; others, like Irish linen, wash clean and white in no time at all. Evidently, linen has a very low electrical attraction for soil and grime.

The Chinese were the first cultivators of the silkworm.

## Weekly SURPLUS NEWS WAA

Surplus materials gathered from six Texas Panhandle installations will be up for sale August 11 and 12 at the Amarillo Army Air Base. There will be 40 lots valued at \$250,000 in the offering, containing supplies such as laundry equipment, builder's hardware, lawn mowers, sewing machines, electrical appliances and aircraft materials. All lots will be displayed for public informal bidding August 11, with the bid opening scheduled for 9 a. m. August 12. Sale will be conducted by WAA's location sales division.

Biggest merchandising operation of its kind ever held in this region will take place starting August 14, when three million dollars worth of assorted consumers' goods will be put on the informal bid block at the Grand Prairie War Assets Administration warehouse. The week-long sale will clear out all war surplus in the main bay of the North American B plant. Supplies are being divided into 1,000 lots of related materials ranging through an unprecedented variety, including auto parts, light plants, flying clothing, cotton and wool fabrics, building supplies and furniture. The public is invited for inspection and bidding August 14, 15, 18, 19 and 20, and awards will be announced August 21 and 22.

Seventy-four schools, colleges and public institutions of Texas were winning recipients of WAA's first donation program of machine tools to be used in vocational training. Because of the large number of applicants from all sections of the state, an impartial drawing was conducted by the Grand Prairie priority claimants division, with the results that the free machine tools were awarded to 34 public schools, 13 vocational schools, 12 colleges, eight federal and state institutions, two cities and two citizenship groups. The division is now engaged in a second donation offer.

Accumulated display samples at the WAA's main Customer Service Center at Grand Prairie attracted more than one hundred buyers last week in the initial War Assets offering of this type. The samples had been used to publicize surplus in periodic sales during the past months and contained 13 lots valued originally at \$8,335.39.

A second "cash and carry" sale of camp buildings is to be staged at Hondo Army Air Field south of San Antonio on August 14. There will be 158 regulation-type air force buildings in the offering, suitable for conversion into various types of farm buildings or living quarters. Spot bids will be submitted by the assembled buyers acting on instructions given at the Hondo field over a public address system. The Grand Prairie WAA real property office will direct the sale, as an aftermath of the successful disposition of building of the Dalhart Air Field sold similarly.

Hundreds of miniature beds, tables, tea sets and playroom toys are taking a useful place in society again these days following months in wars surplus storage. The nursery equipment is being sold by the regional War Assets office to children's homes, public day nurseries and similar institutions. Eligible institutions are qualifying for a 95 per cent discount from cost price of the highly-sought-after furniture. Dallas and Fort Worth nurseries were among the first applicants.

## 90 Year Old Land Put Back Into Top Notch Condition

Young County land that has been in continuous cultivation for 90 years has been put back into top notch condition with the planting of the soil improving crop, hairy vetch.

Over 8,000 pounds of clean vetch seed has been harvested off 30 acres of the 90 year old land by war veteran J. B. Fore, who took over his farm in lower Tonk Valley after his release from the service and started a "better farming" plan. Young County Agricultural Agent R. C. Dunkle reports that the land on Fore's farm is Brazos River sandy soil and for many years, crop yields off the land didn't pay for the costs of production. This year, when planted to the vetch, gross return from the 30 acres was \$1,698.

The vetch was seeded in October, 1946, after 200 pounds of 23 percent superphosphate fertilizer had been applied.

Fore, who "talks little and does much," says County Agent Dunkle, is convinced of the soil benefits to be derived from planting hairy vetch, and plans to plant 200 acres of the crop this fall. He expects to grow feed on the 30 acres that have had the benefit of the crop this year.

The land that Fore has "brought back to life" was first put into cultivation by the Tonkawa Indians, 90 years ago, according to Dunkle.

### Prices Increased By Chevrolet On Two Models

Increased prices on Chevrolet station wagons and convertibles were announced today by Nicholas Dreystadt, general manager, Chevrolet Motor Division, Detroit.

The price of the station wagon is advanced approximately \$100 and the convertible about \$75. Prices of all other Chevrolet models remain the same.

Dreystadt pointed out that station wagons and convertibles incorporate a relatively high percentage of parts supplied by outside sources, the cost of which has increased sharply in recent months. This plus the fact that both models are produced in low volume make these price adjustments necessary, he said.

## ON THE BEACH

This eye-stopper in Hope Skillman satin-striped cotton is ready for a romp, too—the ideal combination for beach wear. The three-piece beach suit has fitted little boy shorts, bra, and its own long-sleeved boy jacket. One large patch pocket on the back of the jacket adds a novelty touch.

## BOYCE HOUSE 'Gives You Texas'

When I was a little boy, I visited Hot Springs, Ark., with my parents and my most vivid recollection was a visit to Happy Hollow. As the name suggests, it was a wooded spot at the foot of mountains and there were burros that a boy could ride. In Happy Hollow, we chanced to meet a lady and her little son from our home town; he was my chum. He and I took a ride on burros and had our picture taken together.

Not long after that, Stewart drowned and his mother asked my mother for the picture, and of course the request was granted.

Recently while in Hot Springs I asked, not very hopefully, if Happy Hollow was still there—and was surprised when told that after more than 40 years, it still was. So Col. Tom Boles, superintendent of Hot Springs National Park, drove by there—and the memories came thronging back. The spot was little changed except there were ponies now and a surry for hire, "with a fringe on top."

Col. Boles for years was in charge of Carlsbad Cavern and there he met many Texans, so he says he is always especially glad to meet folks from this state. In every crowd that went through the cavern, there were always more from Texas than any other state and so when he called the roll of states, giving the number of visitors from each one, he would skip Texas on purpose and call it last.

The colonel took us—my wife, her mother and me—for a daylight drive up the winding roads

Tribune, Morton, Cochran County, Texas, Thursday, August 7, 1947

## FROM GARDEN CITY

Miss Adelphe Covington, daughter of Mrs. Alma Covington, arrived in Morton last Sunday from Garden City. Miss Covington will work at the West Plains Hospital and Clinic.

MR. and MRS. CARL RAY and daughter, ELSIE FAE, left Thursday (today) for Ft. Worth for a vacation and visit with friends and relatives.

MR. and MRS. JOHN L. McGEE were in Ft. Worth last week for the American Legion Convention held there.

## Quotes On Cotton

**Job For All**—"Through research, mechanization and hard work, the cotton industry should be able to meet competition and move ahead into a long period of prosperity. But this will require complete and energetic cooperation of all segments of the industry."—E. D. White, Assistant to the Secretary of Agriculture, Washington.

**First Step**—"Higher yield is the first step toward making cotton more profitable."—"The Dallas News".

**Superior**—"Certain synthetics are superior for certain uses, but research has proved that cotton has a field in which it is definitely and overwhelmingly superior."—Edward A. O'Neal, President, American Farm Bureau, Chicago.

**400 Pounds More**—"Continuous use of vetch for 10 years has been an important factor in increasing cotton yields nearly 400 pounds of lint per acre for Fred Fleeman, Mississippi County Arkansas."—Arkansas Extension Service.

## Sidelights From Washington

By George Mahon

The question of feeding and financing Europe with American taxpayers' dollars is becoming of increasing concern to Congress and the American people. There must be an end to it some time. It cannot go on forever unless we are to dangerously deplete our own country. There must be a new approach to the question. The Secretary of State has suggested the so-called Marshall Plan.

In July the House unanimously passed a Resolution, known as the Hertzer Resolution, which provides that the Speaker of the House shall appoint a Committee of 19 Members of Congress to make a study of the question involved in our overseas policy.

**Most Profitable**—"Cotton is now and will probably continue to be the most profitable single crop that can be grown in many areas and by thousands of farmers in different parts of the Cotton Belt."—Dean Frank J. Welch, Mississippi State College.

**\$200,000,000 'New' Crop**—"Within a lifetime, a marketing, manufacturing system has developed to make cottonseed one of America's leading crops... a system which has increased farmers' income from cottonseed from \$1,700,000 in 1874 to an average of over \$200,000,000 annually in recent seasons."—T. A. Hughton, Dallas. In Cotton Research Congress Address.

The Committee is required to make a study of the foreign situation and our domestic economy and make a report and recommendations to Congress by March 1st. Earlier reports will undoubtedly be made.

Just prior to this writing I was notified by Speaker Martin of my appointment as a Member of this Committee of 19. The Committee is composed of 11 Republicans and 8 Democrats. A staff has already been appointed which is getting information for the Committee. Preliminary meetings will be held in this country and the Committee will sail for Europe August 27th. The first meeting will be held in London, after which the Committee will make an on-the-spot check of the situation in Germany. The Committee will then be divided into several sub-Committees. I have been asked to go with the sub-Committee which will make a study of the situation in Italy, Trieste and Greece. We are to make on-the-spot studies of what is happening to American dollars and effort in these areas. This year we are spending \$215 million to buy American wheat and other life-sustaining food for Germany. Under the law of nations the occupying country is required to prevent starvation in the area occupied.

Our food bill this year for the feeding of Italy, principally for American wheat, is about \$200 million. In both the Trieste area and in Italy we have the expense of maintaining American soldiers in addition to a food bill.

The situation in Greece and Turkey is more complicated. There we have in operation the \$400 million program which is designed to assist Greece and prevent Russian aggression. In Greece we are providing funds not only for food but economic recovery and military supplies.

It remains to be seen whether the study and recommendations made by this 19 member group will be helpful to our nation and to the world. I told Speaker Martin when I was notified of my appointment on the Committee that I would cooperate fully and to the best of my ability.

This assignment has changed my plans for the Congressional recess as the work of the Committee will require me to be out of the country from August 27th to early in October—about 3 weeks. I will still have time during August and after my return from Europe to visit each of the 25 counties in our Congressional District.

### VISITS TO RELATIVES IN GERMANY PLANNED

Persons desiring to visit aged or ailing parents or other aged relatives living in the American or British zones of Germany will be able to do so at an early date according to an announcement by the War Department Civil Affairs Division. Quotas are being established to permit 400 persons to enter the U. S. Zone during each three-month period and fifty each month to the British zone. Military Permit Section, Civil Affairs Division, War Department, has announced that it will accept applications after August 1st subject to the understanding of the applicant that compassionate travel procedure will in no way waive the normal passport requirements set up by the Department of State.

### CARD OF THANKS

Thanks to my friends for their cards, gifts and visits during my recent illness.

Mrs. J. M. Waller.

### When Your Back Hurts -

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling, sometimes frequent and scanty urination with smarting and burning in another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

**DOAN'S PILLS**

## Weekly Cotton Market Review

(Texas and Oklahoma)

Spot cotton prices declined from \$5 to \$6 per bale during the week. Principal activity in the spot markets resulted from new crop cotton; however, there was some trading in low grades for Army purchases. Demand continued strong for a wide range of qualities.

Spot prices declined as a result of a lower basis and a slight decline in futures prices from last week. Dallas spot price on Thursday for Middling 15/16" was 34.95 cents compared with 35.75 cents a week ago and 33.55 cents a year ago. In Houston and Galveston, prices were quoted at 35.15 cents and 35.20 cents. This compares with 36.04 and 36.05 cents, respectively, last week.

Current ginnings in south Texas were selling freely with grades running mostly Middling (Plus) and Strict Middling. The demand continued firm from both shippers and f. o. b. buyers.

Progress of the crop has been affected by excessively high temperatures throughout the Area. Hot winds and boll worm damage has caused some deterioration in the central and south Texas crop. Cotton flea-hoppers were reported in west Texas and southwestern Oklahoma with some dusting being done. Moderate boll weevil infestation throughout central and eastern Oklahoma has been reported. A general rain, except in south Texas, would greatly benefit the fruiting and maturity of the crop.

Reports indicate that approximately 160,000 bales have been ginned in the Rio Grande Valley. Picking and ginning is general in south Texas and beginning in central Texas.

### RECRUITING FOR NATIONAL GUARD

The 1,780 stations of the Army Recruiting Service will actively aid the National Guard in reaching its goal of 682,000 men. The War Department states that "The new National Guard will be a tactical force ready for immediate service in the event of any enemy aggression, and the Army Recruiting Service will lend positive assistance in the further development of this M-Day force."

### IRISH TABLE LINENS LAUNDERED LIKE NEW

Wrong side, right side is the procedure for ironing your Irish linen damasks to make them look brand new. After the iron-dampened cloth has been ironed on the wrong side, the second ironing on the right side increases the high lustre that is natural to linen and so important in bringing out all the beauty of the damask pattern.

But your embroidered pieces, which are made of a round thread Irish linen, should be ironed on the wrong side only since texture rather than lustre is the desirable characteristic. If the ironing board is first covered with a soft pad or a turkish towel the embroidered design will not be flattened and will stand out against the textured background in bold relief.

### RETURNED FROM VISIT

Laura Sue Waller, daughter of Mr. and Mrs. J. M. Waller, returned last Friday from a six week visit in Kingsville and other points in south Texas.

MR. and MRS. LOYD ALLSUP visited in San Angelo last weekend.

## What Is A Church?

**Divine In Origin** "I will build MY church" (Matt. 16:18). The church was founded by Jesus Christ the Son of God. He conceived the idea. He alone founded it.

**Godly In Life** Its members believe on Christ. They have committed their lives to Him, for time and eternity. Their great desire is to live as He wants them to live.

**Christian In Mission** A church's task is the work her Founder and Saviour wants done in the world—winning all people to faith in Jesus Christ, God's Son.

**Winning**—The church's big job is to win others to faith in Christ. This is the work of every Christian—soul-winning. This task is also done jointly by church members in public services and by their combined gifts used in missions on foreign fields and in the homeland.

**Baptizing**—A believer in Christ, wanting to be with other believers, joins the church by baptism. Baptism is a public act by which the believer says that he has given up his sinful way of life, has trusted Christ to save him, and is obeying Christ's commandment in baptism.

**Teaching**—The new church member wants to live the Jesus way. He wants to learn Christ's rules. The church is a group of people seeking to master the Christian way of life. A New Testament church teaches all of the things Christ commanded.

We Have A Mission

The TRUTH Shall Make Men FREE

## LOOKING AHEAD

By George S. Benson, President, Harding College, Searcy, Ark.

### LETTER FROM CHINA

Just \$7,000 for my friend So long to write me from China. He wanted to explain to me how he takes 5,000 Chinese dollars to buy one meal for one day. So philosophizes that it is what he can buy with dollars that really counts. You wonder that Mr. So has to leave China, if he can go abroad?

One day, Mr. So's trouble is inflation. It is so bad that his wages will not permit him to live in China and care for his family. The value of the stamps that brought me his air mail letter, amounting to \$7,000, would make the \$5,000 meal worth only two-thirds of the value of the postage. Certainly, Mr. So was not discussing a very extravagant meal.

### Your Dollars

This change has taken place since I was in China in 1925 to 1936. Then one American dollar according to the rate of exchange, would buy only three or four Chinese dollars. While we do not have that kind of inflation in this country, America is actually moving slowly in that direction. It is said that the American dollar will buy less, right here in America, than at any time since Abraham Lincoln was president.

Although American workingmen have the highest wages that they ever earned, they are complaining that they cannot buy much with those dollars. From 1920 to 1940, when American dollars had purchasing power, an American workman could buy an automobile and could buy a home. Today he can probably buy neither, yet he has far more dollars than he had then. Inflation does not help working people. It burdens them.

## Rallying Call Sounded Over Cotton Belt

A rallying call of great importance has just sounded through the Cotton Belt.

Addressed primarily to the members of the cotton industry, it urges their full support of their industry's program to increase world consumption of American cotton and cottonseed products.

The message from Oscar Johnston, president of the National Cotton Council, is of equal interest to every person in the Cotton Belt, for cotton is the economic mainstay of the region.

The industrywide program is implemented through the Cotton Council, which since 1939 has fought the good fight on behalf of 15,000,000 cotton farm and factory workers.

The Council has not only defended cotton's position in old markets during this period, but also awakened new demand for both fiber and seed.

The successful conduct of the Council's program already has done much to assure increased income for Cotton Belt farm workers.

The battle is not over, however. Cotton still faces a strong array of competitors. Many production and marketing problems remain to be solved. Much research is necessary to improve the quality of present cotton products and to develop new ones. Only the united efforts of all cotton interests will result in final victory.

Under the program which Mr. Johnston has outlined, every farmer is asked to contribute ten cents on each bale ginned. Other members of the industry contribute proportionately.

One farmer's dime is a small sum. The voice of one ginner might easily be ignored. But united in the Cotton Council, they speak and act with authority.

It is of the utmost importance that every cotton farmer, ginner, warehouseman, merchant, spinner, and cottonseed crusher contribute their share to the support of the Council program. It is truly cotton's own program.

### Raises Don't Help

I wanted to buy a new automobile this year. But when I found that it would take in the neighborhood of \$2,000 to buy even an average car, I decided to have my old one overhauled and get along with it. However, the overhauling cost half as much as it used to cost to buy a new automobile. It's hard to tell, under inflation, whether one is wise or foolish.

Meats right now are very high. Yet, I understand that in some places both wholesalers and retailers are trying to get by on the smallest margins they've ever had. Others are handling meat with no profit at all. You see, whether a man gets an adequate diet for his family depends on other things than how big a raise he gets from his employer. Raises do not help when there's inflation.

### A Solid Economy

If we would like to increase inflation and have more dollars in our pockets but be able to buy less with them, then we should encourage a high federal budget, high federal taxes, and still higher wages. All these things have an inflationary influence on our economy. If we want a solid economy, where dollars will buy more than we must do these things:

(1) Work for lower taxes, which would leave more in the purchasing stream and would stop discouraging investment in new industries and new tools for workmen, (2) Oppose the high budget with extravagant federal spending, and (3) Work for stable industrial relations. Industry, labor, agriculture, and all other American groups should understand these facts. With shoulders to the wheels we must work for a stabilized America that can lend stability to a confused world.

ADDING MACHINE PAPER AT THE TRIBUNE OFFICE.

## Agricultural Notes

Seventy-two percent of the nation's 1947 corn acreage is seeded with hybrid corn.

Eleven and one half million people were working on farms in the United States on July 1. Farm wage rates average \$114 per month, without board.

Britain has purchased 5.6 million pounds of dried eggs from the United States since the first of the year.

There are 13 artificial dairy breeding associations operating in Texas now.

Rot on late peaches, plums, apricots and related fruits can be controlled with a spray consisting of three to five pounds of wettable sulphur in 50 gallons of water.

Immature sweet potatoes will not keep well in storage. Growers who wait for fully mature potatoes, then dig them for storage, will prevent losses.

The translation of DDT is dichloro diphenyl trichloroethane.

Apple growing has become an intensive and specialized industry, and one third of the U. S. crop each year is canned, frozen, dried, made into apple butter and other products.

## Fried Chicken For Next Winter

Fried chicken can be a year round food for the family table if some of them are saved for the freezer locker. Gwendolyn Jones, food preservation specialist for the A. and M. Extension Service, suggests:

She says the young birds are best for fried chicken and getting them ready for freezing is the same as for eating. But, it is easy to pick the chicken if it's dipped into a semi-scalding water for half a minute. This means the water should be about 128 degrees.

Suggestions on freezing include cutting up the chicken into pieces exactly as you would cut them for frying. The next step is to cool the pieces and pack into moisture, vapor-proof containers or wrapping paper. Put the amount needed for each meal into a package. Make the package as air-tight as possible.

Freeze quickly, and store at zero degrees or lower. If the home freezer is used, the chicken may be killed in the afternoon and frozen that night. If a commercial freezer locker is used, the chicken may be killed in the morning and taken to the locker early in the afternoon.

## Pickled Peaches American Favorite

Pickled peaches are one of America's favorite sweet spicy relishes, says Gwendolyn Jones, food preservation specialist from the Texas Extension Service.

The specialist recommends this recipe using 8 pounds of small or medium sized peaches: after peaches are washed and pared, two cloves are stuck in each peach, or the 8 two-inch sticks of cinnamon and 2 tablespoons of whole cloves may be tied loosely in a clean, thin, white cloth and placed to cook with 2 pounds of sugar, 1 quart vinegar and 1 cup of Water for 10 minutes. The peaches are added to the liquid and cooked slowly until tender but not broken. After standing overnight, sirup is drained from the peaches and spices removed. The sirup is boiled rapidly until thickened, and poured over peaches already packed in clean, hot sterile jars. The jars are sealed tightly.

To give time for the flavor to be blended, the jars of peaches should be kept in a cool place for several weeks before serving.

### IRISH LINEN HANKIES ARE HAND-BLOCKED

Hand-blocked flower designs—a different flower for each month of the year—are now being printed on sheer Irish linen. These as well as other hand-blocked designs, attracted enthusiastic fashion approval at this year's British Industries Fair but they cannot be sold in Britain. They are being confined to export trade, the United States and Canada in particular.

The U. S. Navy had a total of 319 active combatant vessels on January 1, 1947.

## Maple Church Of Christ Revival To Begin August 15th

A Gospel revival will be held at the Maple Church of Christ, beginning on August 15 and continuing through August 24 with Evangelist McCoy of Childress, Texas in charge of the preaching service.

Byron Willis will conduct the song service.

Everyone is extended a cordial invitation to attend these services scheduled for 10 to 11 each morning and 8:15 to 9:15 in the evening.

### BUSINESS VISITOR HERE

Bill Harris, formerly with the Hockley County Herald at Leveland, was in Morton Monday looking for a location for a photographers studio.

Both Mr. and Mrs. Harris are experienced photographers.

## A. S. Key Home Scene Of Family Reunion Sunday

On Sunday, August 3, Mr. and Mrs. A. S. Key of near Morton and family enjoyed a very pleasant reunion, this being the first time in 5 years all members were able to be present at same time.

Those present were: Mr. and Mrs. Leon Nash and Jerry, M. and Mrs. Lloyd Jackson, Janice, Gary and Jean of Portales, N. M.; Mr. and Mrs. Lowell Payton, Connie and Ronny of Roswell, N. M.; Rev. and Mrs. R. L. Main, Selene and Becky Lynn of Tulsa, Okla.; Mr. and Mrs. W. R. Key, Danny, Robbie and Linda Gay, Mr. and Mrs. M. G. Key, Lex Key, Kova Key and Mr. and Mrs. A. S. Key all of Morton.

Other relatives attending were: Grandmother Key, a sister, Mrs. W. H. Streeley of Olney, Texas; a brother, W. C. Key, Mrs. Key, Peggy and Pat of Morton; a niece Mrs. Waymon Newton and family of Lubbock.

In the morning the entire group of immediate family attended services at First Methodist Church. The rest of the day was spent visiting and singing.

On August 11th Mr. and Mrs. Key will observe their 40th wedding anniversary and this occasion was in part to celebrate that event.

They were the recipients of a lovely anniversary cake and Presto cooker presented by the children.

## - Enoch Echoes -

Donald Wayne Calvert, son of Mr. and Mrs. C. M. Calvert is a patient in a Plainview hospital, his condition is reported improving.

Mrs. R. P. McCall was hostess at her home last Thursday afternoon to the Enoch H. D. Club. Twenty-two members were present for the meeting.

The recreational contest was won by the Blue team, who in turn were treated to ice cream and cake by the Red team.

Mrs. Gordon Tolliver and son, Larry, of Socorro, New Mexico, are visiting her parents, Mr. and Mrs. Grady Hill and daughter of Enoch.

Good attendance is reported from the Baptist revival meeting now in progress.

LaDon and Carolyn Sue McCall spent Friday afternoon with Dorothy Fay and Billie Jean Doyle.

Mr. and Mrs. C. E. Alexander and children and Mrs. Bell Dick and children left Saturday for Weatherford, Texas, to visit their parents and grandparents, Mr. and Mrs. E. E. Alexander.

Mr. and Mrs. A. D. Hallford and family visited with the Andy Hallfords in Portales, New Mexico last Sunday.

Mr. and Mrs. John Kenyon were week-end visitors in Littlefield.

Enoch lost his baseball game last Sunday played with Sudan with a score of 2 to 1.

Mrs. M. L. Doyle—Reporter.

### REGISTRATION AT NORTH TEXAS STATE COLLEGE 2,470

Surpassing last summer's second semester total by 410, registration for the second semester of summer school at North Texas State College climbed to 2,470 this week at the end of registration.

The final second semester count for last summer was 2,060. A total of 1,138 veterans are now registered under the GI Bill of Rights.

Tribune, Morton, Cochran County, Texas, Thursday, August 7, 1947

With "Mae West" life preservers around them, tuth Blount (left) and Marie Spurgin of the War Assets Administration office at Grand Prairie are all set for storm, shipwreck or a bargain seeking crowd going overboard for three million dollars worth of war surplus. The "Mae Wests" are a tiny part of the 1,000 lots of surplus materials which will be displayed to the public in the WAA's Grand Prairie warehouse for a big sale starting August 14.

## 1947 March Of Dimes Reached All-Time High In Raising \$17,987,800.66

The 1947 March of Dimes reached an all-time high in raising \$17,987,800.66 for the National Foundation for Infantile Paralysis and its 2,719 chapters to carry on the fight against poliomyelitis throughout the nation, Basil O'Connor, president of the National Foundation announced today.

In making public the audited figures for the 48 states and U. S. possessions, Mr. O'Connor pointed out that the 1947 figure "was approximately \$2,000,000 more than the previous high of \$15,982,150.66 raised in 1946."

Mr. O'Connor expressed particular thanks to the 60,000 volunteer workers in every section of the country whose efforts made the annual fund-raising drive so successful.

"Through the tireless devotion and unsparing efforts of these volunteers," he said, "the American people responded generously and again renewed their pledge to stay in the fight against infantile paralysis until this dread disease is conquered."

The National Foundation president also praised highly "the press, radio, stage, schools, and motion picture theatre owners for the magnificent manner in which they cooperated in enlisting public support for the annual March of Dimes."

Asserting that polio incidence so far this year was appreciably lower than the rate at this time last year, Mr. O'Connor added, however, that "the 1946 epidemics left us with a staggering burden for continued care and treatment of those stricken. Eventually we estimate that the 1946 polio bill to the nation will reach \$30,000,000 for care and treatment alone. Of course, we must also take into account the other thousands who have been

and may be stricken in the current year."

The figures released today showed that New York State led in total contributions with \$1,991,353.34. Next was Illinois with \$1,094,385.44; California was third with \$1,086,583.71.

The highest per capita contribution was from Wyoming, with more than 34 cents for each person. Nevada was next with more than 33 cents per person. Oregon was third with more than 32 cents per capita.

O'Connor stressed the importance of continuing research into polio and said that through March of Dimes funds significant advances had been made in the last year. He cited as one example the recent successful vaccination of monkeys against infantile paralysis reported at John Hopkins University by three scientists working under National Foundation grants. "Like all research," Mr. O'Connor said, "this is long-range in nature but remarkable results are coming to light. It is not improbable that in time scientists may discover a safe vaccine for human beings."

"Research into every phase of polio is going on in similar renowned institutions throughout the land," Mr. O'Connor continued. "It is in the field of scientific research that the ultimate answers we are seeking will be found."

Besides contributions listed there were proceeds of \$656,110.12 for the 1947 March of Dimes, which were unallocated to states.

### WEEK-END WITH PARENTS

Lois Ruth Hawkins spent the week-end in Morton with her parents, Mr. and Mrs. H. S. Hawkins. Lois Ruth is attending summer school at Texas Tech.

## New Enlistment Plan Announced By U. S. Army

Captain Leonard D. F. Staffieri, of the U. S. Army Recruiting station, room 203 Post Office building, Lubbock, announced Monday that men with prior service in any of the Armed Forces discharged on or after May 12, 1945, may enlist for direct initial assignment for a minimum period of one year within the geographical limits of the Fourth Army area. Individuals will be directly assigned to any understrength unit or installation located within the Army area except Army Air Force units or installations. Such enlistments will be for the Regular Army unassigned for a minimum period of three years.

He announced enlistments or re-enlistments for initial assignment to the European Command including the Mediterranean Theatre are authorized for personnel of the following categories; men now in civil life who have had prior service in any of the Army Forces, men whose current enlistments are terminating and who desire to re-enlist immediately for initial assignment to the European Command and men who are eligible and desire immediate discharge for the purpose of volunteering for overseas service. These enlistments are limited to the grade of staff sergeant or below.

Four vacancies exist within the Recruiting District for canvassers in the grade of Corporal. Staffieri announced. Assignment will be to Recruiting stations in New Mexico and West Texas.

## Texas U Expects 18,000 To Enroll

Eighteen thousand students—about 1,000 more than last year's record enrollment—are expected to register this fall at the University of Texas.

The prewar record was 10,151 students in 1940-1941.

Although the postwar rush of war veterans may level off this year, Registration Supervisor Howard A. Calkins and college officials can not predict this trend accurately. Many ex-servicemen have obtained certificates entitling them to education under the GI Bill of Rights but have not used them, Calkins said.

Preregistration of old students totals 7,217. The main registration will begin Sept. 15, and classes will start a week later.

Commencement exercises for summer graduates will be held Aug. 31. Dr. C. C. Colvert, acting dean, listed thirty-four candidates for Bachelor degrees in education.

Nearly sunk twice—once by a torpedo and once by shore battery fire—the USS Pensacola spent less than two weeks in the United States from December, 1941 until May, 1945.

### VACATION TIME

Waiting for her vacation special, this resort-bound miss knows she will have no rivals in her summer romancing if she wears this two-piece suit of smart washable cotton cord. The ensemble has a double-breasted waistcoat with turned back cuff on long sleeve and white waffle pique bow at neck.

## THREE-MINUTE SERMON

By T. L. (Jack) Bullard, Missionary Baptist Church

Jack Bullard

"THE NEED OF CHRIST" Brethren, my heart's desire and prayer to God for Israel is that they might be saved. Rom. 10:1. This with many, many other scriptures found in the Bible verifies the fact that men need Christ because they are lost. If there were no sin in the world, men would not be lost and if they were not lost they would not need a Christ to save them. One great problem for the individual today is, to realize he is lost. If

only men could really realize that there is a Heaven and Hell they might be able to think in terms of eternity. Heaven and Hell are prepared places for a prepared people. The saved man is preparing for Heaven and the unsaved man is preparing for Hell. The unsaved are the ones that the Lord Jesus came into the world to save. Luke, 19:10, makes this statement, "For the Son of man has come to seek and save that which is lost."

Without Christ we will perish, and we can have Christ if we want Him. He that believeth on the Son hath everlasting life: And he that believeth not the Son shall not see life; but the wrath of God abideth on him. John, 3:36. The most repeated text in all the Bible gives light on this thought. For God so loved the world that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life. Neighbor, this included you and I. When He said whosoever, that gave every man an equal chance. The only thing that keeps you and me from being saved (or a Christian) is failing to believe in the Lord Jesus Christ. When we see the need of a Saviour, then we will believe and He will be-

come ours. Now He may become a problem if thou shalt confess with thy mouth the Lord Jesus, and believe in thine heart that He hath raised Him from the dead, thou shalt be saved. Why should we believe this? "For with the heart man believeth unto righteousness; and with the confession is made unto salvation." Paul says again that it is not by works that we are saved, but by Grace. This statement should forever seal the matter. "He that believeth is not condemned, but he that believeth not is condemned already, because he hath not believed in the name of the only begotten Son of God. Come and be with us in Revival Services which will be through next week. Morning services from 10 to 11. Evening services beginning at 8. Hear a man of God proclaim the way of life more perfectly.

## NTSC Veterans Taking Care Of Their Own

The veterans at North Texas State College's Vet Village really believe in taking care of their own.

With over three-fourths of the 50 families living in the GI hutments minus cars, the vets have organized and put in their own grocery store, offering a line of canned goods ranging from dog food to baby food.

The village, located more than a mile from downtown and over eight blocks from the campus, now has its own grocery store, operated by six directors from the group of 29 ex-servicemen who chipped in \$10 each for the initial stock. Started to help out the Vet Village husband and wife who find it difficult to get to town each day for groceries, the store is operated certain hours each day by one of the vets, while the other directors are in class.

All stockholders will share in the profits, and prices are on a par with those of other Denton stores. Later, the vets declare, they may be able to add refrigeration so that perishable goods may be carried.

The dark spots on the sun really are brighter than white hot metal.

Sixteen thousand persons engaged in farming are killed in accidents annually in the U. S.

### WINTON E. "POP" NOAH NTSC ATHLETIC COACH

Winton E. "Pop" Noah, well-known Texas coach, will join the coaching staff at North Texas State College in September as head track coach and assistant football coach.

Noah, a two-time North Texas State graduate with the B. A. and M. A. degrees, has been coaching at Adamson High School in Dallas since 1928 and has won half of the city championships during his stay, as well as several district and regional track meets. Noah will also work with Coach Odus Mitchell and Assistant Coach Dee Walker when fall football camp opens Sept. 1.

### WORLD LINEN SUPPLY WOVEN IN IRELAND

To the linen mills of Northern Ireland, centering around Belfast, goes about 96 percent of the world's flax crop. Here the yarns are woven into all kinds of linens from kid-textured table damask to the sheers of handkerchief linens.

### Texas Veterans' Land Program Delayed 2 Years

AUSTIN—The Texas Veterans' Land Program, authorized by a national amendment adopted by the people last November, has been delayed two years because of failure of enabling legislation to receive Senate floor action, some 10,000 veterans were advised today by Commissioner of General Land Office. The same information was given to all American Legion posts.

It was explained that he is not the veterans of the status bill because he is continuing to receive a large volume of applications from veterans lauding the program as one of the best in the nation and expressing a desire to participate.

Many of them apparently believing the amendment adopted by voters last November was permanent and cannot under-

### Diabetes Took Toll Of Texas Lives In Past Year

AUSTIN—Despite the fact that modern medicine can do much to help the diabetic live out a normal life span, nevertheless diabetes took a toll of several hundred lives in Texas during the past year, according to Dr. Geo. W. Cox, State Health Officer.

"While deaths from the communicable diseases such as typhoid fever, malaria, diphtheria, and smallpox are annually decreasing in this country, diabetes is still taking a tragic number of human lives each year, especially in the middle aged group," Dr. Cox said.

Until recent years diabetes was not noted as a major health problem, but it became accepted as such in direct ratio to the development of medical laboratory procedures, which made the disease more easily diagnosed.

Dr. Cox said that diabetes is generally recognized as a class disease. It seems to attack the white collar class of indoor men and women much more frequently than it does the outdoor person whose work is more vigorous and calls for more exercise. Whatever the actual cause of the disease may be, vocational and economic conditions apparently are factors, since it seems a fact that those persons whose occupations call for manual labor and simple living are not frequently affected.

Dr. Cox stated that simple, wholesome diets, sufficient exercise and sleep are factors in the prevention of diabetes, and an annual physical examination, especially in middle aged persons, is important so that if the disease is present, competent treatment can be instituted while the disease is in its early stage.

stand why they have not already been permitted to buy a small farm or ranch home from the State," he said.

"I am explaining to them that while the necessary enabling legislation was passed in the House by a vote of 124 to 9, it failed to receive recognition for Senate consideration. Despite every effort to get it up for passage in the Senate, where we had been assured of a majority favorable vote, its supporters were unable to do so, even with the intercession of the largest veterans' organizations in its behalf."

As written, the bill would have permitted any World War II veteran to select his own land for purchase by the Veterans' Land Board and resale to him with ten per cent down and the balance to be paid in forty years at four per cent interest.

### TRAIL DUST

The malice of our enemies is more constructive than the brooding but fruitless good intentions of our friends.

Modesty and prudence are refreshing in a maiden but the enchanting years are swifter than the wind; a kiss may kindle fires all the rivers of time can not quench. How lonely must be the honey-laden flower that knows no more than the buzzing wings of wandering bees.

Smoke signals of experience often fail to remain in the sky of youth long enough for their messages to be remembered.

Straining steam scalded shoulders against its burden, the old freight engine climbed a series of gentle hills rising from the canyon that had pinched a fault in the plains. Rumbling refrigerator cars beat their flanges on the side of rails and rusty iron couplings rattled at regular intervals. Ahead in the twilight dusk lay the city with scattering lights in the windows of tall buildings. Inside the railway yard the train slowed until the engine stood motionless and hissing near the depot. Looking at the line of parked automobiles, the engineer stepped from his cab and hastened towards a bright new coupe. A young girl sprang from the door and threw herself in the big man's arms. Holding hands in the shadows of high arc lights, they stopped at a soda box while the man reached in the pocket of his grimy overalls for a coin. When the drink was finished they went to the coupe and drove away. Soft rubber tires whined on the brick pavement as the car entered the line of traffic.

Being a child of the lost generation before farming became a science, it is natural that I should shelter wandering memories of faithful horses plodding the long rows of a gullied field where I planted my dreams with maize and cotton seed. Perhaps the course of my life might have been turned into more productive channels had it been possible for me to watch the soil wrap up the weeds with a four-row tractor responding to my commands. And it is probable the melancholy thoughts would settle peacefully in the placid basin of achievement if I had used mechanized power and never unharnessed and shucked corn for weary horses at the end of an instant. But I miss them pausing for a day in the turn-rows, or standing in the pastures, flicking flies with their tails; farms without horses seem barren.

Piercing the western horizon like a flaming sword, the red blade of a new moon waited for midnight and the first hours of another day. Long, dim shadows extended from the row of tall cottonwoods, like the memory of a mirror's reflection and the boy walked rapidly, tugging occasionally at the cuffs of his white shirt which extended partly over his hand. He ignored the discomfort of his feet, brought in from their summer freedom and imprisoned in tight mail-order shoes. His heart was pounding in strange rapture and the scent of dew-laden sage was like perfume rising from the altar of his dreams. He had held a girl's hand as they walked along the same path and at the door she had pressed his palm with a firm tenderness. Time was rushing him farther away from the glorious moments but his ecstatic thoughts were as sharp as the summer stars. Life's sublime joy and the terror of its secret pain begin in that hour we first think with our hearts.

## Remains Of Ancient Men Believed 80,000 Years Old Found In Colorado

A retired Ohio doctor has discovered relics of an ancient civilization, whose men were eight or nine feet tall, in the Colorado desert near the Arizona-Nevada-California line.

Howard E. Hill of Los Angeles, speaking before the Transportation club, disclosed that several well-preserved mummies were taken Sunday from caverns in an area roughly 180 miles square extending through much of Southern Nevada from Death Valley, Calif., across the Colorado river into Arizona.

Hill said the discoverer is Dr. F. Bruce Russell, retired Cincinnati physician, who stumbled on the first of several tunnels in 1931, shortly after coming west and deciding to try mining for his health.

**Said 80,000 Years Old**

Not until this year, however, did Dr. Russell go into the situation thoroughly. With Dr. Daniel S. Bovee of Los Angeles—who with his father helped open up New Mexico's cliff dwellings—Dr. Russell has found mummified

remains together with implements of the civilization, which Dr. Bovee had tentatively placed at about 80,000 years old.

"These giants are clothed in garments consisting of a medium-length jacket and trouser extending slightly below the knees," said Hill. "The texture of the material is said to resemble gray dyed sheepskin, but obviously it was taken from an animal unknown today."

Hill said that in another cavern was found the ritual hall of the ancient people, together with devices and markings similar to those now used by the Masonic order. In a long tunnel were well-preserved remains of animals, including elephants and tigers. So far, Hill added, no women have been found.

He said the explorers believe that what they found was the burial place of the tribe's hierarchy.

MR. and MRS. DAVID C. TODD and son, DAVID, were week-end visitors in Portales, N. M.

Dragons and serpents and other creatures of the barnyard, circus and zoo will walk the streets of Lubbock in a gigantic parade, opening day of the 30th Annual Panhandle South Plains Fair, September 23. Approximately 200 men will be required to

handle the inflated rubber menagerie in the two-mile long parade. The rubber animals will also be on display at the Fair grounds all six days of the Fair. Pictured above is one of the late model dragons of the non-fire eating type.

## Farm Loans On Increase

An increase in new long-term farm mortgage loans and a decline in the rate of pay-offs of old loans during the fiscal year ending June 30 have been announced by the twelve Federal Land Banks of the Farm Credit Administration, according to the Department of Agriculture.

Applications closed during the year numbered 32,193 amounting to a total of \$150,056,051 in loans,

which reflected increases in each of the banks with the exception of those at Houston and at Springfield, Mass.

During the year, borrowers paid \$81,607,265 in regular and advance installments on their loans, with \$136,185,917 paid in full prior to maturity of loans. At the end of the year, the banks had 331,743 loans on their books totaling \$910,092,995.

FOR SALE—In Levelland, modern Stucco House, 4 rooms and bath, hardwood floors, on GI Loan, \$1200.00 will handle—See C. L. Davis at Morton Ice Plant.
